MEETING OF THE BOARD OF TRUSTEES
OF THE
UNIVERSITY OF ILLINOIS

July 16, 1952

The July meeting of the Board of Trustees of the University of Illinois was held in the Allerton House at Robert Allerton Park, Monticello, Illinois, on Wednesday, July 16, 1952, beginning at 12:30 p.m., Central Daylight Saving Time.

The following members were present: Mr. John R. Fornof, Mr. Harold E. Grange, Mr. Wirt Herrick, Mr. Robert Z. Hickman, Mr. Wayne A. Johnston, Mr. Park Livingston, Mr. Herbert B. Megran, Mr. Vernon L. Nickell, Mrs. Frances B. Watkins. Mrs. Doris S. Holt and Governor Adlai E. Stevenson were absent.

Also present were President George D. Stoddard, Provost C. R. Griffith, Vice-President A. C. Ivy, Mr. Ralph F. Lesemann, Legal Counsel, Mr. J. F. Wright, Director of Public Relations, Mr. Morris S. Kessler, Supervising Accountant in the Business Office, Mr. Lloyd Morey, Comptroller, Mr. C. W. Weldon, Treasurer, and Mr. A. J. Janata, Secretary of the Board.

**REPORT OF COMMITTEES ON BUILDINGS AND GROUNDS
AND GENERAL POLICY**

Mr. Megran, for the Committees on Buildings and Grounds and General Policy, reported on negotiations with attorneys representing the Katsinas interests for a settlement of any claims that they may have against the University because of the decision previously made by the Board of Trustees not to renew the lease of space in the Arcade Building in which the Katsinas interests had been operating a restaurant and which lease terminates August 31, 1952.

The joint committee recommends to the Board of Trustees that the University pay the Katsinas interests for permanent improvements they have made in the Arcade Building and for any fixed equipment they leave in the building which the University can use, such improvements and equipment to be specifically listed in any settlement agreement. University officials have advised the committee that in their opinion the value to the University of such improvements and equipment is approximately \$12,000. The joint committee recommends that if a settlement in an amount near that sum can be obtained it be made on that basis.

On motion of Mr. Herrick this recommendation was referred to the Executive Committee with power to act.

BUSINESS PRESENTED BY THE PRESIDENT OF THE UNIVERSITY

The Board considered the following reports and recommendations from the President of the University.

**SETTLEMENT OF LITIGATION INVOLVING VALIDITY OF
BENJAMIN F. HUNTER WILL**

(1) At the April 19, 1951, meeting of the Board the provisions of the will of Benjamin F. Hunter, deceased, and the litigation then pending in Boone County, Indiana, where he resided at the time of his death, involving its validity, were reported at some length to the Board.

Since then the University Legal Counsel and the Attorney General of Illinois have been assisting the Illinois and Indiana attorneys employed by the executors in that litigation, and also in seeking to have the will admitted to probate in Illinois while the Indiana litigation is pending. The pleadings in the Indiana proceeding are now settled and it will be ready for trial as soon as the taking of depositions has been completed. An order of the County Court of Piatt County, Illinois, admitting the will to probate in this state, upon production of a certified photostatic copy of the will instead of the original which is impounded by the Indiana court, has been affirmed by the Circuit Court of that county on an appeal taken thereto by the contesting heirs. It is to be anticipated that the heirs will either appeal to the Supreme Court of Illinois from this order or will institute a suit to contest the will in the Piatt County Circuit Court, and that they will make every effort to secure a trial and determination of the issues going to the validity of the will in the Indiana court, where the procedure and the law are more favorable to them than they are in Illinois, before a trial can be had on those issues in this state.

While the attorneys for the executors and the Legal Counsel believe that a trial of these issues on the merits should result in establishing the validity of the will, especially if it can be had in Illinois before it is had in Indiana, continuance of this litigation will be quite expensive and it is possible that it might result in a decree invalidating the will.

As the result of recent settlement negotiations, counsel for the contesting heirs have authority from their clients to accept a settlement contemplating payment of less than 10 per cent of the estimated value of the estate to them. Settlement upon the proposed basis is strongly recommended by both Indiana and Illinois counsel for the executors and the Attorney General of Illinois is willing to approve the

settlement on behalf of the Illinois State Museum, and also on behalf of the beneficiaries of the charitable trust created by the will, if it is approved by the Board of Trustees of the University. If the proposed settlement is made, Miss Hundley, the principal beneficiary under the will other than those who will eventually receive the scholarships at the University contemplated by its provisions, is willing to make a fair contribution to it, the amount of which will be determined by an agreement to be entered into between her counsel and the University Legal Counsel. The University will not be required to make any cash contribution to the settlement, but the balance of the amount paid in settlement remaining after Miss Hundley's contribution thereto, will be paid from the income from the property of the trust created by the will, or from the corpus of the trust if the income now available proves insufficient.

Because of the expense of continuance of this involved and costly litigation in two states and the uncertainty as to its outcome if it is continued, the University Legal Counsel joins in the recommendation of the attorneys for the executors that the proposed settlement be made and requests that he be authorized to enter into it on behalf of the Board of Trustees and the University, the details to be subject to the approval of the President of the University, and that the Comptroller and the Secretary of the Board of Trustees be authorized to execute any documents on behalf of the University and its Board of Trustees which may be required to effect and complete the settlement.

I concur.

On motion of Mr. Johnston, the Legal Counsel was authorized to enter into a settlement of this litigation, as recommended.

CONTROVERSY WITH CONTRACT OF PATRICK WARREN CONSTRUCTION COMPANY

At the request of President Stoddard, the Legal Counsel reported on the status of certain controversies which the University is having with the Patrick Warren Construction Company with respect to the contract for the construction of the addition to the Research and Educational Hospitals. The Legal Counsel stated that every effort will be made to resolve the differences through conferences between representatives of the Company and the University, but that the controversies may result in litigation.

The Legal Counsel further reported that claims are being asserted against the University by other prime contractors for reimbursement for additional costs incurred as a result of the delay in completion of the building.

He also advised, and the Comptroller and the Director of the Physical Plant Department concur, that it would be highly desirable and advantageous to employ special counsel in Chicago to represent the University in these matters.

MINUTES APPROVED

The Secretary presented the minutes of the meetings of April 24 and May 26, 1952, press proof copies of which were sent to all members of the Board in advance of this meeting.

The Secretary also stated that it is desirable to have approval of the minutes of the meeting of the Board of Trustees held on June 19, 1952, prior to September, so that printing of the transactions of the Board of Trustees covering the period of July 1, 1950, through June 30, 1952, will be expedited. Press proof copies of the June minutes will be sent to the Trustees in the near future. The Secretary requests that approval be authorized, subject to any corrections or amendments

which may be offered by members of the Board of Trustees within three weeks after the press proof copies have been sent to them.

On motion of Mr. Johnston, the minutes of the meetings of April 24 and May 26 were approved as printed on pages 1443 to 1504, inclusive, and approval of the minutes of June 19, 1952, was authorized, as recommended.

The Board resumed consideration of the following business presented by the President of the University.

APPOINTMENTS TO THE FACULTY

(2) The following new appointments to the faculty of the rank of Assistant Professor and above, and involving tenure, have been approved since the previous meeting of the Board of Trustees.

1. JACK W. CRIST, Assistant Professor of Art, beginning September 1, 1952, at an annual salary of \$4,500 (D).

2. RANDALL JARRELL, Visiting Associate Professor of English, for the second semester, 1952-1953, at a salary of \$4,000.

3. WALTER JAMES MOORE, Director of the Nursery School in the Division of Special Services for War Veterans (DY67), and Principal, Elementary Laboratory School, and Assistant Professor, College of Education (DY33), beginning September 1, 1952, at an annual salary of \$7,500.

4. LORETTA T. ZDERAD, Assistant Professor of Psychiatric Nursing, School of Nursing, beginning July 15, 1952, at an annual salary of \$4,794 (DY), plus meals.

5. RALPH WALDO GERARD, Professor of Neurophysiology, in the Department of Psychiatry, and Professor of Physiology, beginning September 1, 1952, at an annual salary of \$15,000 (AY).

The Director of Nonacademic Personnel reports the following appointments to supervisory positions of upper level responsibility.

6. J. CURTIS GABBARD, Project Engineer in the Physical Plant Department, beginning April 28, 1952, at a salary of \$6,000 per year.

7. BEVERLY J. WHITE, Electroencephalographer in the Research and Educational Hospitals, beginning May 19, 1952, at a salary of \$3,500 per year.

On motion of Mr. Grange, these appointments were confirmed.

APPOINTMENT OF DIRECTOR OF HEALTH SERVICES

(3) I recommend the appointment of Dr. Lester M. Dyke, Sheldon, Iowa, as Director of Health Services of the University of Illinois with the rank of Professor at an annual salary of \$14,000 on a Y basis, and that the President of the University be authorized to determine the effective date of this appointment which will be not later than January 1, 1953.¹

On motion of Mr. Johnston, this appointment was approved.

HEAD OF DEPARTMENT OF THEORETICAL AND APPLIED MECHANICS

(4) Professor Fred B. Seely, Head of the Department of Theoretical and Applied Mechanics, will retire from active service September 1, 1952. I recommend the appointment of Professor W. C. Huntington, Head of the Department of Civil Engineering, to serve also as Acting Head of the Department of Theoretical and Applied Mechanics, beginning September 1, 1952, until a permanent head has been appointed.

On motion of Mr. Herrick, this appointment was approved.

LEAVE OF ABSENCE FOR PROFESSOR WILLIAM H. McPHERSON

(5) Dr. William H. McPherson, Professor of Economics, Department of Economics and Institute of Labor and Industrial Relations, has been granted a sabbatical leave of absence for the academic year 1952-1953 on one-half pay. He now requests that this be changed to leave of absence for one-half year on full pay and also that he be granted leave of absence without pay for the other half of the

¹ This appointment was subsequently made effective November 1, 1952 — Secretary's note.

year. This arrangement will enable him to accept grants from the Department of State (Educational Exchange Services) for research and for lecturing on labor relations in Frankfurt and Hamburg, Germany. There is also a possibility that he will receive a Fulbright grant for lecturing at the University of Istanbul.

Accordingly, I recommend that Professor McPherson be granted leave of absence without pay from September 1, 1952, through February 28, 1953, and leave on full pay from March 1 through August 31, 1953.

On motion of Mr. Nickell, this recommendation was approved.

ESTABLISHMENT OF GRADUATE SCHOOL OF BUSINESS ADMINISTRATION

(6) On the recommendation of Dean Paul M. Green of the College of Commerce and Business Administration and with the concurrence of the Provost, I recommend the establishment, as an integral part of the College, of a Graduate School of Business Administration as of September 1, 1952.

The purposes of this School are outlined in detail in Dean Green's memorandum of June 30, a copy of which is submitted herewith and given to the Secretary of the Board for record. Certain features are to be noted, as follows:

1. The basic four-year program of the College leading to the degree of Bachelor of Science will not be disturbed.

2. There will be no change, through this action, in the one-year advanced programs leading to the degrees Master of Arts and Master of Science.

3. The doctoral programs leading to the Doctor of Philosophy in Accountancy, in Business, and in Economics will not be affected.

4. The presently authorized but scarcely used degree, Master of Business Administration (M.B.A.), will be transformed from a one-year advanced program to a two-year advanced program, with a substantial revision in its character and content.

5. The existing advanced degrees are designed primarily for students who wish to teach or become specialists; the new program for the Master of Business Administration is designed for those whose chief interest is in executive work and business administration as such. It will draw its students not only from majors in the various fields of Commerce, but also from other undergraduate areas.

6. The School will be in charge of a director responsible to the Dean of the College of Commerce and Business Administration. Accordingly, the departments of the College will be prepared to offer work along three lines, as needed: undergraduate, graduate, and professional.

I recommend that for a period of two years, or until a new director is appointed, Dean Paul M. Green be appointed also as Director of the School.

It is understood that the approval of the new curriculum itself, extending the period of advanced study for the existing degree, Master of Business Administration, from one year to two years and substantially revising its component parts, will call for faculty approval through the standard channels of the Senate Committee on Educational Policy and the Senate. There may be other points, too, that are regarded as essentially academic rather than administrative which the Senate will want to pass upon. All such proposals will be submitted to the Board for final action.

On motion of Mr. Megran, the establishment of a Graduate School of Business Administration was authorized, and the appointment of Dean Paul M. Green as Director of the School for a period of two years from September 1, 1952, or until a new director is appointed, was approved, as recommended.

INSTITUTE FOR RESEARCH ON EXCEPTIONAL CHILDREN

(7) In order to advance knowledge about exceptional children and to make more effective the work of public and private agencies in their behalf, there is established at the University of Illinois an Institute for Research on Exceptional Children. This Institute will be organized and administered in accordance with the Statute of the University which governs the creation of institutes. The Institute will maintain such cooperative arrangements with the Department of Public Wel-

fare and the Department of Public Instruction as may be determined from time to time by agreements between the President of the University and the directors of these state agencies.

There will be set up an Advisory Committee to the Institute consisting of three representatives from the University, two from the Department of Public Welfare, and two from the Department of Public Instruction, each for a term of three years, the Chairman to be selected yearly by the Committee in rotation among the three cooperating agencies.

The staff of the Institute will consist of such personnel from the University, the Department of Public Welfare, and the Department of Public Instruction as may be assigned to the Institute by the President of the University on the recommendation of the chief administrative officers concerned. Such assignments will not preclude independent research on exceptional children by any of the three cooperating agencies. In more detail,

1. The University of Illinois will allocate initial staff from existing University personnel, provide housing, academic and nonacademic staff, and general expense funds, and encourage research publication.

2. The Department of Public Instruction will allocate staff, encourage public schools to provide facilities needed for research purposes, and disseminate results.

3. The Department of Public Welfare will allocate staff, provide facilities within its own institutions for special research projects, and disseminate results.

I recommend that Professor Samuel A. Kirk, presently Professor of Education in the College of Education, be named as the Director of the Institute as of September 1, 1952, subject to the usual conditions of appointment at the University of Illinois with a salary of \$10,707 on a Y basis.

On motion of Mr. Nickell, the Institute for Research on Exceptional Children was authorized in accordance with the above recommendations, and the appointment of Professor Samuel A. Kirk as Director of the Institute beginning September 1, 1952, was approved. Mr. Hickman asked to be recorded as dissenting in the title of the Institute but as voting "yes" on all of these recommendations.

PATENTABLE DISCOVERIES

(8) The University Patent Committee submits the following reports and recommendations relating to patentable discoveries:

1. Thomas R. O'Meara, Research Associate in Electrical Engineering, has disclosed an invention, wide-aperture vector-phase direction finders. The general purpose of this invention is to provide a technique for combining the electrical information from a series of antennas (or direction finders) in such a way as to result in a composite direction finder which is less subject to wave interference errors than most existing types. The equipment was developed in the course of research under a contract with the Office of Naval Research. The invention is of importance only to the armed forces and would have little, if any, commercial value. Accordingly, the University Patent Committee recommends that all rights be released to the Navy. The inventor has no personal interest in having the invention released to him.

2. The State Natural History Survey and the State Geological Survey Divisions in carrying on research work for the United States Air Force have developed fluorinated compounds which have possibilities of use as fungicides. The Chiefs of the two divisions recommend that the discoveries be released to the United States Air Force, which is interested in patent protection. The University acts as fiscal agent for the Surveys in their contractual relations with federal agencies and, therefore, formal action by the Board of Trustees releasing the discoveries is necessary.

3. Several years ago Dr. Erwin L. Hahn, then a graduate student in the Department of Physics engaged in research supported in part by the Office of Naval Research, discovered a nuclear magnetic resonance phenomenon he calls Spin Echoes. Dr. Hahn, now at Stanford University, published his findings in *The Physical Review*, November 15, 1950. Subsequently, he filed an application for a patent prior to the deadline of one year after publication of the complete description. Dr. Hahn has requested that the University release to him all rights to

this discovery. It is the opinion of the University Patent Committee that the discovery will have little, if any, commercial value and there is some doubt that a patent can even be obtained. The Committee recommends that the University release to Dr. Hahn any interest it may have in his patent application, subject to any rights of the United States Navy in this discovery. If this is approved by the Board, the University will secure from Dr. Hahn a license agreement giving it the right to grant an irrevocable nonexclusive royalty-free license to the United States Government.

I concur.

On motion of Mr. Megran, these recommendations were approved.

SPECIAL APPROPRIATIONS FOR NONRECURRING EXPENDITURES

(9) The Committee on Nonrecurring Appropriations recommends assignments of funds as follows:

| | |

On motion of Mr. Johnston, these appropriations were made by the following vote: *Aye, Mr. Fornof, Mr. Grange, Mr. Herrick, Mr. Hickman, Mr. Johnston, Mr. Livingston, Mr. Megran, Mr. Nickell, Mrs. Watkins; no, none; absent, Mrs. Holt, Mr. Stevenson.*

APPROPRIATION FOR BUILDING STUDIES

(10) *The Building Program Committee, in preparing recommendations for capital appropriations to be requested for 1953-1954, needs preliminary studies of certain projects in order that it may reach conclusions concerning the scope and estimated cost. The Physical Plant Department recommends assignments of funds for such studies as follows:*

| | |
|--|----------|
| Building for College of Law..... | \$ 9 500 |
| Veterinary Clinic Building..... | 22 000 |
| Remodeling of Vivarium Building (to be vacated by Zoology when a Life Sciences Building is secured) to house the University Press..... | 3 500 |
| Study of additional uses of Skating Rink..... | 4 000 |
| Total | \$39 000 |

This work will be done by the architectural staff of the Physical Plant Department with some assistance from the staff of the Department of Architecture. For the study of the Law Building, some of the funds will be used for travel expense to inspect similar buildings at other universities.

The Director of the Physical Plant Department and the Comptroller endorse this recommendation, and I concur.

On motion of Mr. Herrick, this appropriation was made by the following vote: Aye, Mr. Fornof, Mr. Grange, Mr. Herrick, Mr. Hickman, Mr. Johnston, Mr. Livingston, Mr. Megran, Mr. Nickell, Mrs. Watkins; no, none; absent, Mrs. Holt, Mr. Stevenson.

APPROPRIATIONS BY THE ATHLETIC ASSOCIATION

(11) The Board of Directors of the Athletic Association has approved two special appropriations which are submitted to the Board of Trustees for confirmation:

1. An assignment not to exceed \$5,500 for expenses of participants in the track meets held in Milwaukee, Wisconsin; Berkeley, California; and Los Angeles, California. (This appropriation supplements previous appropriations for track expenses which were not adequate for these trips.)

2. An assignment of approximately \$4,400 for expenses of sending the University Band to Madison, Wisconsin, for the Illinois-Wisconsin football game on October 4, 1952.

On motion of Mr. Fornof, the action of the Board of Directors of the Athletic Association was confirmed.

GOODWIN AVENUE IMPROVEMENT

(12) The Board of Trustees has authorized the participation of the University in the community plan for widening and repaving of Goodwin Avenue in Urbana. The authorization includes:

1. Payment of the University's share, approximately 57 per cent of the actual costs, or approximately \$121,543, plus payment of the entire cost of a storm sewer, included at the request of the University.

2. Payment to the city of Urbana not to exceed \$51,613 for one block of Illinois Street right of way (based on appraised value), a part of the area required for the Life Sciences Building.

3. Sale to the city of Urbana of University land on the east side of Goodwin Avenue between Springfield Avenue and Green Street on the basis of appraised value. This is needed for the widening of Goodwin Avenue.

It has also been reported to the Board that the University will have to pay full cost of any additional storm and sanitary sewers requested to service future building construction. Engineering studies indicate the desirability of constructing a storm sewer from California Avenue to the Boneyard when Goodwin Avenue is improved because present and future University buildings will require additional drainage facilities. The city of Urbana was asked to include this storm sewer when taking bids on the Goodwin Avenue improvement.

Plans and specifications have been completed and approved by the State Highway Department. Public hearings have been held and the assessment rolls have been approved by the County Court. The Urbana City Engineer has revised the estimated costs of the various phases of the project, and the University's share is now estimated as follows:

| | |
|---|---------------------|
| Street widening and repaving (based on 56.79 per cent of estimated cost) | \$116 751 72 |
| Street lighting (based on assessing all property fronting on Goodwin Avenue plus property on lateral streets to a depth of 200 feet, the cost varying with the depth) | 8 160 36 |
| Storm sewer (entire cost as it is solely for the benefit of the University) | 31 637 55 |
| | <u>\$156 549 63</u> |
| Deduct allowance for sale of University land for use as right of way .. | —7 488 75 |
| Total | <u>\$149 060 88</u> |

Although the University will pay only its proportionate share of the actual costs, the construction contract, as required by the State Highway Department, is on a unit cost basis under which the final costs can not be determined until the completion of construction.

The city of Urbana has requested that the University assume the same responsibilities as any property owner under the statutes covering public improvements. These statutes permit the Board of Local Improvements to assess, if necessary, property owners an additional 10 per cent above the assessment approved by the court. Based on the above estimates, the University's maximum gross cost will be \$172,204.59 or a net of \$164,715.84 after allowing for the sale of the right of way.

Funds are available in the state appropriation "For improvements to University grounds at Urbana-Champaign and of adjacent streets" made for the biennium 1951-1953.

Inclusion of the storm sewer will reduce the amount which would otherwise have been available for payments to the city of Urbana for one block of Illinois Street and hence such payments will have to be from any funds made available in 1953-1955.

The Urbana City Council on April 21, 1952, reaffirmed the principle of vacating Illinois Street in the block between Goodwin and Mathews Avenues when an ordinance is presented. Closing of this block of Illinois Street will require relocation of an alley extending from Illinois Street to California Avenue which serves all property owners in that block, so that certain legal proceedings will be necessary before this can be completed and the ordinance passed.

It is recommended that:

1. The Comptroller be authorized to make payments, not to exceed \$164,715.84, covering the University's share of the actual costs of Goodwin Avenue improvement, including widening and repaving of the street, street lighting, construction of sewers, engineering and legal costs, and after receiving credit for the University's Goodwin Avenue frontage to be transferred to the city of Urbana.

2. The following resolution authorizing the sale of University land be adopted:

Now, therefore, be it resolved that the Comptroller and the Secretary of the Board of Trustees of the University of Illinois, a public corporation, be and hereby are authorized to execute, acknowledge, and deliver, in the name of and on behalf of this corporation, such quit claim or warranty deeds or such other instruments of conveyance and such other documents or instruments in connection therewith as to them may seem necessary or desirable to convey to the city of Urbana, a municipal corporation of the state of Illinois, title to the following-described property:

Beginning at the Southwest Corner of Lot One (1) of Block Five (5) of Urbana Railroad Company Addition to Urbana on the East line of Goodwin Avenue, thence South along said East line of Goodwin Avenue Forty (40) feet to the Northwest Corner of Lot One (1) of Block Six (6) of said Urbana Railroad Company Addition, thence East Ten (10) feet along the North line of said Lot One (1) of Block Six (6), thence North Forty (40) feet parallel to the East line of Goodwin Avenue to the South line of Lot One (1) of Block Five (5), thence West along the South line of said Lot One (1) of Block Five (5) to the point of beginning.

The West Ten (10) feet of the North Twenty Five (25) feet of Lot One (1) of Block Six (6) of Urbana Railroad Company Addition to City of Urbana, Illinois. The West Ten (10) feet of the South One Hundred and Seven (107) feet of Lot One (1) of Block Six (6) of Urbana Railroad Company Addition to the City of Urbana, Illinois.

The West Ten (10) feet of Lot Three (3), of Lot Four (4), of the North Seventy Four (74) feet and the South One Hundred and Thirty (130) feet of Lot Five (5), respectively, all in the Wm. M. Goodwin Addition to the City of Urbana, Illinois.

On motion of Mrs. Watkins, these recommendations were approved and the resolution was adopted by the following vote: Aye, Mr. Fornof, Mr. Grange, Mr. Herrick, Mr. Hickman, Mr. Johnston, Mr. Livingston, Mr. Megran, Mr. Nickell, Mrs. Watkins; no, none; absent, Mrs. Holt, Mr. Stevenson.

**CONTRACTS FOR WATER RECLAMATION INSTALLATIONS IN
REFRIGERATION EQUIPMENT IN DAIRY MANUFACTURES
BUILDING, HORTICULTURE FIELD LABORATORY,
AND SKATING RINK**

(13) Bids have been taken on installations of water reclamation equipment in the major refrigeration systems in the Dairy Manufactures Building, the Horticulture Field Laboratory, and the Skating Rink. In the Horticulture Field Laboratory, this will include replacement of the carbon dioxide refrigeration system with an ammonia system and the addition of an evaporative condenser. In the other buildings, the installations will be the addition of evaporative condensers to the present refrigeration systems.

The total estimated cost is \$200,000. Funds are available in the state appropriation for 1951-1953 "For remodeling, modernization and improvement of existing buildings at Urbana-Champaign, including water reclamation installations, plans and specifications and fixed equipment installed relating thereto," subject to release by the Governor.

The Director of the Physical Plant Department and the Comptroller recommend that contracts be awarded, subject to the release of funds, to the lowest bidders as follows:

Dairy Manufactures Building

**CONTRACT FOR PURCHASE OF COAL FOR URBANA-
CHAMPAIGN DEPARTMENTS**

(14) Bids on uniform specifications have been taken on the purchase of 41,000 tons of coal screenings for delivery to the Abbott Power Plant as required during the period September 1, 1952, to May 31, 1953. Specifications call for delivery by railroad because the coal handling equipment at the plant is set up to transfer coal from cars to the stock pile. Truck deliveries require extra handling except for limited shipments, not to exceed one hundred tons a day, so scheduled that the coal can be transferred from the truck directly to the hopper. One bidder, the Oakwood Coal Company, Oakwood, Illinois, indicated that because of the location of its mine it can deliver 8,000 tons of coal by truck at a lower cost than by rail by scheduling deliveries to meet the conditions of minimum handling. It is desirable to have a supplemental source of supply during December, January, and February to assure delivery of coal when car shortages or other conditions may interfere with rail deliveries.

The Director of Purchases, the Comptroller, and the Director of the Physical Plant Department recommend awards of contracts to the lowest bidders: (a) Republic Coal and Coke Company, Chicago, 33,000 tons 1½-inch screenings at \$3.85 per ton, f.o.b. mine, freight \$1.1088, delivered price \$4.9588 per ton, total estimated cost \$163,640; and (b) Oakwood Coal Company, Oakwood, 8,000 tons to be

delivered by truck according to specified schedule at \$4.40 per ton delivered, total estimated cost \$35,200.

The lowest bids are determined by the number of British Thermal Units for one cent based on guaranteed analyses. A continuous check at the plant is provided to insure compliance with specifications.

The prices quoted are based on the present wage scale and are subject to increase or decrease in the event that wage contracts now in effect are changed. Any such change will affect the prices to the extent that production costs are increased or decreased by the new contracts. The University has the right of approval of any such increase in prices.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute the contracts, subject to their approval by the Governor as required by the state constitution.

On motion of Mr. Grange, these purchases were authorized as recommended.

CONTRACT FOR PURCHASE OF COAL FOR CHICAGO DEPARTMENTS

(15) Bids have been received on uniform specifications for the purchase of 15,000 tons of coal screenings to be delivered to the Medical Center Steam Company plant, operated by the University, as required during the period from August 1, 1952, to June 30, 1953.

The Business Manager of the Chicago Departments, the Director of the Physical Plant Department, and the Comptroller recommend award of a contract to the Silver Creek Coal Company, Chicago, the lowest bidder, for 1¼ inch screenings coal to be furnished from their mine at a cost of \$4.25 f.o.b. mine, freight \$.78, plus \$.97 handling and delivery—total estimated cost \$90,000. This price is based on the present wage scale and is subject to increase or decrease in the event that wage contracts now in effect are changed. Any such change will affect the price to the extent that production costs are increased or decreased by the new contracts. The University has the right of approval of any such increase in price.

The lowest bid is determined by the number of British Thermal Units for one cent based on guaranteed analyses. A continuous check at the power plant is provided to insure compliance with specifications.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute the contracts, subject to approval by the Governor as required by the state constitution.

On motion of Mr. Herrick, this purchase was authorized as recommended.

CHANGE IN CONTRACT FOR PLUMBING AND HEATING FOR CONSTRUCTION OF MEN'S RESIDENCE HALLS

(16) The Director of the Physical Plant and the Comptroller recommend an increase of \$3,630.32 in the contract with the E. M. Hays Plumbing and Heating Company, Champaign, for the plumbing and heating installations in the construction of the second addition to the Men's Residence Halls.

The contract authorized by the Board of Trustees on November 23, 1951, provides for steam service connections with the main lines. The specifications were based on the design of the steam lines for the first addition to the Men's Residence Halls. Subsequent study indicated a need for changing the specifications for the first addition, which the Board authorized on May 26, 1952. This will require changing the specifications for the steam connections between the main lines and the second addition and providing additional expansion fittings and piping. The estimate of the additional cost has been carefully checked by the Physical Plant Department and is considered a reasonable charge.

Funds are available in the construction account for this building.

I concur and recommend that the Comptroller be authorized to execute this contract change.

On motion of Mrs. Watkins, this increase in the contract was authorized.

INTERNAL OPERATING BUDGET FOR 1952-1953

(18) I present the University's internal operating budget for all divisions and funds for the fiscal year beginning July 1, 1952, and for the academic and administrative appointments beginning September 1, 1952. This budget has been prepared by the Provost and the Comptroller in accordance with policies approved by the President and in conference with deans, directors, and other administrative officers.

I recommend that:

1. This budget, covering the allocation of the University's operating income from all sources for the year beginning July 1, 1952, be approved.

2. The President of the University be authorized, in accordance with the needs of the University and the equitable interests involved and within total income, to (a) make such changes and adjustments as are needed, (b) make such additional appointments as are necessary, subject to the provisions of the University Statutes, and (c) accept resignations. All such changes will be covered in the Comptroller's quarterly financial reports, or in reports to the Board by its Secretary.

President Stoddard discussed the budget, reviewing various details and the policies which were followed in its preparation.

On motion of Mr. Herrick, the budget was approved, the appropriations were made, and authority was granted as requested, by the following vote: Aye, Mr. Fornof, Mr. Grange, Mr. Herrick, Mr. Hickman, Mr. Johnston, Mr. Livingston, Mr. Megran, Mr. Nickell, Mrs. Watkins; no, none; absent, Mrs. Holt, Mr. Stevenson.

On motion of Mr. Johnston, seconded by Mr. Grange, the Board commended the President and other University officials who assisted in the preparation of the budget on their excellent work.

The complete budget as approved is printed in full in the appendix, page 44.

INTERNAL BUDGET OF THE ATHLETIC ASSOCIATION FOR 1952-1953

(19) The Director of Intercollegiate Athletics submits, on behalf of the Board of Directors of the Athletic Association, the budget of the Association for 1952-1953 which is summarized as follows with comparative figures for the preceding year:

| | 1951-1952 <i>Budget</i> | 1951-1952 <i>Revised Estimates</i> | 1952-1953 <i>Proposed</i> |
|---|----------------------------|---|------------------------------|
| Income..... | \$764 075 | \$867 400 | \$820 575 |
| Expenditures | | | |
| Budget Appropriations..... | 746 850 | 765 800 | 804 575 |
| Special Appropriations..... | 10 000 | 17 100 | 10 000 |
| <i>Total Expenditures</i> | <i>\$756 850</i> | <i>\$782 900</i> | <i>\$814 575</i> |
| Excess of income over expenditures..... | \$ 7 225 | \$ 84 500 | \$ 6 000 |

On July 1, 1951, the Athletic Association had a net operating surplus of \$44,659. The estimated excess of income over expenditures of \$84,500 in 1951-1952 will increase this surplus to \$129,159 on June 30, 1952.

The budget has been examined and approved by the Provost and the Comptroller. Salaries paid jointly by the Athletic Association and the School of Physical Education have been approved by the Director of the School.

The budget includes \$10,000 to be allocated by the Board of Directors for contingency expenditures, not to exceed \$1,000 for any one item. Estimated income exceeds the appropriations by \$6,000.

I recommend that this budget be approved and that the President of the University be authorized to make such changes and adjustments, including approval of new appointments and acceptances of resignations, as are necessary and recommended by the Board of Directors of the Athletic Association within the total income realized.

On motion of Mr. Grange, these recommendations were approved. At this point, Mr. Herrick withdrew from the meeting.

CLINICAL FACULTY OF THE COLLEGE OF MEDICINE, 1952-1953

(20) I recommend that the following appointments be made to the nonsalaried clinical faculty of the College of Medicine for the academic year beginning September 1, 1952, unless otherwise indicated, and that the President of the University be authorized to make such additional appointments and other changes, and to accept resignations, as are desirable and necessary.

Appointments of Professors and Associate Professors are on indefinite tenure; all others are for one year from September 1, 1952, unless otherwise stated.

OFFICE OF PUBLIC RELATIONS

(23) More than thirty years ago the University of Illinois established the position of Director of Publicity which was subsequently changed to Director of Public Information. There is a trend line in abandoning the term "public information" and I am recommending a change in the position at the University of Illinois to Director of Public Relations, the Director's office to be known as the Office of Public Relations.

On motion of Mr. Fornof, this change in title was approved.

**APPOINTMENT OF ROBERT R. HUDELSON AS ACTING DEAN OF THE
COLLEGE OF AGRICULTURE, ACTING DIRECTOR OF THE AGRI-
CULTURAL EXPERIMENT STATION, AND ACTING DIRECTOR
OF THE EXTENSION SERVICE IN AGRICULTURE
AND HOME ECONOMICS**

(24) Dean H. P. Rusk of the College of Agriculture will retire September 1, 1952, after forty-two years of distinguished service. From 1921 to 1939 he served as Head of the Department of Animal Husbandry (now Animal Science) and since 1939, as Dean of the College of Agriculture, Director of the Agricultural Experiment Station, and Director of the Extension Service in Agriculture and Home Economics.

Pending the appointment of a permanent successor, I recommend the appointment of Professor Robert R. Hudelson of the Department of Agricultural Economics and Associate Dean of the College of Agriculture to the position of Acting Dean of the College of Agriculture, Acting Director of the Agricultural Experiment Station, and Acting Director of the Extension Service in Agriculture and Home Economics, for one year from September 1, 1952, at a salary of \$15,000 a year, on a Y basis, of which \$3,000 will be for services as Acting Dean and Director. Professor Hudelson will also hold his professorship in agricultural economics on indefinite tenure.

It will be recalled that Dean Hudelson served as Acting Dean of the College of Commerce and Business Administration, January 1, 1951, to February 1, 1952, a service he performed with distinction and in addition to his other duties. He has agreed to serve as Acting Dean of the College of Agriculture if called upon to do so.

Dean Hudelson was born in Chambersburg, Illinois, in 1886. He received his bachelor's and doctor's degrees at the University of Illinois, and his master's degree at the University of Missouri. He has been a member of the faculty of the University of Illinois for twenty-seven years. He served on the faculty of the University of Missouri for a period of eight years, interrupted by military service in World War I. From 1920 to 1925 Dean Hudelson was in farm management work. At the University of Illinois he has served as Assistant Professor of Farm Organization and Management, Associate Professor and Associate Chief in the Department of Farm Organization and Management (now Agricultural Economics), as Professor of Agricultural Economics, as Assistant Dean and Superintendent of Agricultural Extension work, and as Associate Dean of the College of Agriculture.

On motion of Mr. Nickell, this appointment was approved.

ADMINISTRATION OF ROBERT ALLERTON PARK

(25) Effective July 1, 1952, the overall administration of Robert Allerton Park and Allerton House has been transferred from the Division of Communications to the Division of University Extension under the general supervision of Dean Robert B. Browne. Operation and maintenance of Robert Allerton Park grounds and the 4-H Club grounds will be under the supervision of the Dean of the College of Agriculture. The operation and maintenance of Allerton House and the other houses in the Park, together with the programs carried on therein (excluding the 4-H Memorial Camp), will be under the supervision of a Director. The Director will report to the Dean of the Division of University Extension.

This directorship is presently unfilled. It is possible that a candidate for this position can be recommended for appointment prior to the September meeting of the Board, and I, therefore, request that the Executive Committee of the Board be authorized to act for the Board on such an appointment.

On motion of Mr. Grange, authority was granted as recommended.

DEAN ROBERT B. BROWNE

At this point President Stoddard presented Dean Robert B. Browne of the Division of University Extension who spoke briefly about the programs carried on in Allerton House and about the activities in Robert Allerton Park.

**DEDICATION OF RIGHT OF WAY ON ELIZABETHTOWN SOIL
EXPERIMENT FIELD FOR PUBLIC ROAD PURPOSES**

(26) The State Division of Highways has requested additional land at the Elizabethtown Soil Experiment Field in Hardin County so that the road running across the experiment field can be improved. The proposed improvements have been discussed by representatives of the Agricultural Experiment Station with Highway Division officials and the major disadvantages of the proposal have been eliminated. The Division of Highways has agreed to pay the University \$600 for the cost of constructing new fences.

The Dean of the College of Agriculture and the Comptroller recommend that the following described property be conveyed and dedicated to the People of the state of Illinois for the purpose of a public highway for so long as used for that purpose;

All that strip of land 120 feet wide, 60 feet northwesterly of and 60 feet southeasterly of the located centerline of F.A. Route 35 as relocated in 1951. Said strip to begin at the west line of the said E $\frac{1}{2}$ SE $\frac{1}{4}$ Section 14, Sta. 104 02 on said centerline and to extend in a northeasterly direction to a line normal to said centerline at Sta. 110 00, a distance of 598 feet as measured along said centerline; thence continuing with

All that strip of land bounded on the northwest by a line situated 60 feet distant northwesterly from and parallel to said centerline and bounded on the southeast by a straight line passing through a point located 60 feet distant southeasterly from said Sta. 110 00 as measured normal to said centerline at said Sta. 110 00 and passing through a second point in the north-south fence at Sta. 112 78 on said centerline located 190 feet southerly from said centerline as measured along said fence and the northerly prolongation thereof. Said strip to begin at said line normal to said centerline at Sta. 110 00 and to extend in a northeasterly direction to said north-south fence at Sta. 112 78 and to the north-south fence at Sta. 112 43, a distance of 278 feet as measured along said centerline.

It is intended that the above described right of way shall extend across the property of the Grantor herein.

The location of said centerline and of the stationing thereon is filed in the Hardin County Records Office in Miscellaneous Record 4, pages 240-247, inclusive. Containing 2.1 Acres, more or less.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute the necessary documents, when approved by the Legal Counsel.

On motion of Mr. Hickman, this conveyance was authorized by the following vote: Aye, Mr. Forno, Mr. Grange, Mr. Hickman, Mr. Johnston, Mr. Livingston, Mr. Megran, Mr. Nickell, Mrs. Watkins; no, none; absent, Mr. Herrick, Mrs. Holt, Mr. Stevenson.

**APPOINTMENT OF ROBBERN W. FLEMING AS DIRECTOR OF THE
INSTITUTE OF LABOR AND INDUSTRIAL RELATIONS**

The Executive Committee reports approval, on recommendation of the President of the University, of the appointment of Robbern W. Fleming, Director of the Industrial Relations Center at the University of Wisconsin, to the position of Director of the Institute of Labor and Industrial Relations for two years, and Professor of Labor and Industrial Relations on indefinite tenure, beginning September 1, 1952, at an annual salary of \$11,000 on Y basis.

INVESTMENTS

The Finance Committee reports the purchase of sixty-seven shares of Walgreen Company common stock at \$28, total \$1,897.46, as a student loan fund investment.

**REPORT OF THE COMPTROLLER AND SECRETARY ON
AGREEMENT WITH TEXAS OIL COMPANY**

On May 18, 1951, the Board of Trustees authorized the execution of a "nondevelopment" agreement with the Texas Oil Company for mutual protection under which the University would agree not to execute any oil or gas leases, or permit drilling for oil or gas, on its experiment field in Saline County, Illinois, and the Company would agree to protect the University's experimental work from oil developments on areas surrounding the field. On advice of the Legal Counsel's office, some additions were made to the agreement in the interest of better protection of the experiment field.

The Company has declined to sign an agreement with these protective provisions and, therefore, no action will be taken on the Board's authorization of May 18, 1951.

**INSPECTION OF THE CHICAGO PROFESSIONAL COLLEGES AND THE
CHICAGO UNDERGRADUATE DIVISION BY THE MEMBERS
OF THE GENERAL ASSEMBLY**

Mrs. Watkins, for the Committee on the Chicago Departments, reported on plans for an "Appreciation Day" for members of the Sixty-seventh General Assembly of Illinois on Friday, September 12, 1952. The plans include inspection of the Chicago Professional Colleges and the Chicago Undergraduate Division. She stated that all members of the Board of Trustees will receive letters announcing the plans and program of this event, and asked that as many of them as can do so participate in this event.

On motion of Mrs. Watkins, this event was authorized.

APPENDIX

THE UNIVERSITY OF ILLINOIS INTERNAL BUDGET FOR 1952-1953

(Approved by the Board of Trustees July 16, 1952, page 14)

EXPLANATORY NOTES

This budget consists of three volumes:

- I. Summaries of all divisions; Urbana-Champaign divisions and General University Administration — Academic and Administrative Salaries, Wages, Expense and Equipment.
- II. Chicago Professional Colleges, Division of Services for Crippled Children, and Chicago Undergraduate Division — Academic and Administrative Salaries, Wages, Expense and Equipment.
- III. Nonacademic Salaries, all divisions.

Appropriations for Salaries are available for the term indicated in each case but not for more than one year from September 1, 1952.

When appointments are made at salary rates less than the amounts provided in the budget, the unused balance is lapsed at that time, resulting in a reduction in the budget.

Funds appropriated for positions in the salary budget which are not yet filled may, pending the appointment of someone to the position, be drawn against by time cards submitted to the Business Office for services of employees temporarily engaged to do the work contemplated by the position. Such temporary charges *may not exceed the amount of time provided* by the position unless indicated herein or otherwise approved by the President.

All unexpended balances remaining in the salary budget lapse at the close of each calendar month unless previously assigned or encumbered. Such lapses do not result in a reduction in the budget.

Departmental appropriations are made under the captions "Salaries," "Wages," and "Expense and Equipment." No transfers may be made between "Salaries" and "Expense and Equipment" except with the approval of the President of the University. Requests for such changes should be submitted through the Comptroller. Adjustments may be requested between "Salaries" and "Wages" or between "Wages" and "Expense and Equipment" upon notice to the Comptroller, stating the reason for such transfer.

Appropriations for expense, equipment and wages are available for one year beginning July 1, 1952, and ending June 30, 1953. All unexpended balances lapse June 30, 1953. The reappropriation of funds will be considered only in special situations.

All budgets of auxiliary enterprises, cooperative investigations, other trust funds and budgets indicated as "from receipts" are on an estimated basis. Unless otherwise indicated, appropriations are limited to actual income, but any balances or receipts in excess of the estimate are appropriated for the operation of the activity.

The services required for members of the academic and administrative staff are in accordance with "Terms of Employment" adopted by the Board of Trustees on January 8, 1948.

CHANGES IN SABBATICAL LEAVES OF ABSENCE FOR 1952-1953

- (2) I recommend the following changes in sabbatical leaves of absence approved by the Board of Trustees on March 12, 1952, for the academic year 1952-1953:

EDWARD G. LEWIS, Associate Professor of Political Science, from leave of absence on one-half pay during the first semester 1952-1953 and leave without pay during the second semester to leave without pay for one year from September 1, 1952. The effect of this would be to cancel his sabbatical leave without prejudice to future applications.

EDWARD J. SCOTT, Assistant Professor of Mathematics, from leave of absence for one year on one-half pay to leave for one-half year (first semester 1952-1953) on full pay.

On motion of Mrs. Watkins, these changes were approved.

DEGREE OF DOCTOR OF LAW FOR MARY HULL NAUMOFF

- (3) The Dean of the College of Law recommends that the degree of Doctor of Law (J.D.) be awarded Mrs. Mary Hull Naumoff as of August 20, 1951, instead of the degree of Bachelor of Laws (LL.B.) which was awarded at that time. Mrs. Naumoff

qualified for the J.D. degree but due to an error in the recording of one of her final grades she was recommended to the University Senate (and by the Senate to the Board of Trustees) as a candidate for the LL.B. degree.

Since this is a clerical error, the Secretary of the Board requests that the Minutes of the meeting of the Board of Trustees on September 19, 1951, in which the degrees conferred as of August 20, 1951, are listed, be amended on page 1247 to show that Mrs. Mary Hull Naumoff has been awarded the degree of Doctor of Law.

On motion of Mr. Hickman, this amendment of the minutes was adopted.

COLLEGE ADVISORY COMMITTEE IN VETERINARY MEDICINE

(4) The Dean of the College of Veterinary Medicine recommends the following new appointments to the advisory committee of the College of Veterinary Medicine for a term of three years beginning September 1, 1952, for the terms indicated.

DR. ART H. GAFFIN, Clinton, 1952-1955

DR. CLIFFORD L. MCGINNIS, Peoria, 1952-1955

DR. WAYNE H. RISER, Skokie, 1952-1955

DR. W. A. BEARD, Greenvew, 1952-1955

The following members of the Committee, having been appointed in 1951 for a period of three years, are being continued.

DR. WARREN E. AMLING, Pana, 1951-1954

DR. LEWIS A. DYKSTRA, Aurora, 1951-1954

DR. CLIFFORD A. LEMEN, Warrensburg, 1951-1954

MR. RUSSELL V. MCKEE, Varna, 1951-1954

DR. ARTHUR M. ORUM, Carthage, 1951-1954

I concur.

On motion of Mr. Grange, these appointments were approved.

PATENTABLE DISCOVERIES

(5) On October 23, 1951, the University Patent Committee recommended, and the Board of Trustees approved, the release to Dr. E. L. Hahn, former graduate student in the Department of Physics, the University's interest in his discovery of a transistor nuclear magnetic resonance detector. Prior thereto a patent search indicated that there would be no advantage to the University in securing patent protection since a fundamental patent on the device had been granted to others. It now appears that Dr. Hahn is not interested in patenting this device personally but the Office of Naval Research which supported the research work he was doing when he developed this device has expressed an interest. Hence, to clear the record, the Committee recommends that the action of the Board of Trustees of October 23, 1951, be rescinded and that all rights to this invention be released to the United States Navy.

I concur.

On motion of Mr. Megran, this recommendation was approved.

I concur.

On motion of Mr. Megran, these appropriations were made by the following vote: Aye, Mr. Fornof, Mr. Grange, Mr. Hickman, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Megran, Mrs. Watkins; no, none; absent, Mr. Herrick, Mr. Nickell, Mr. Stevenson.

APPROPRIATION FOR PURCHASE OF PROPERTY

(10) On December 17, 1951, the Board of Trustees approved the purchase of properties at 1103 West Green Street and 1108 West Illinois Street, Urbana (contiguous properties east of the Student and Staff Apartments) at a cost of \$72,875. A payment of \$20,000 was made upon execution of the contract (from funds received by the University of Illinois Foundation from sale of prefabricated houses and held by the Foundation for the University) and the balance of \$52,875 is payable on or before June 30, 1953, with interest at four per cent from the date of possession.

The Comptroller recommends that payment of the balance be made as soon as possible in order to reduce interest costs.

I concur and recommend an appropriation of \$54,500 from the General Reserve fund for final principal and interest payments on this property.

On motion of Mr. Johnston, this payment was authorized and the appropriation was made by the following vote: Aye, Mr. Fornof, Mr. Grange, Mr. Hickman, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Megran, Mrs. Watkins; no, none; absent, Mr. Herrick, Mr. Nickell, Mr. Stevenson.

SALE OF UNIVERSITY PROPERTY¹

(11) The University owns a vacant lot, 54 feet by 114 feet, on South Third Street in Champaign between Gregory Drive and Armory Avenue, acquired in 1923 as part of a parcel which included four other lots purchased for future campus expansion. Some of these lots are part of the Parade Ground area south of Gregory Drive. Present plans do not contemplate need for the lot on Third Street which is the only one now owned by the University in this particular block.

The University has an offer from Dr. Jozef Cohen, Associate Professor of Psychology, of \$3,000 for this lot which is Lot 96 in the College Place Addition to the City of Champaign. The Director of the Physical Plant and the Comptroller recommend the acceptance of this offer. The price was determined by an independent appraisal of the lot.

I concur and recommend that the Secretary of the Board and the Comptroller be authorized to execute, acknowledge, and deliver a warranty deed and such other documents as may be necessary to effectuate the transfer of title to this property.

On motion of Mr. Hickman, the sale of this property was authorized and authority was given as recommended by the following vote: Aye, Mr. Fornof, Mr. Grange, Mr. Hickman, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Megran, Mrs. Watkins; no, none; absent, Mr. Herrick, Mr. Nickell, Mr. Stevenson.

LIFE SCIENCES BUILDING SITE

(12) The Life Sciences Building site requires the closing of Illinois Street between Mathews Avenue and Goodwin Avenue, and the Urbana City Council has informally expressed itself in favor of this closing.

There is an alley seven feet wide extending from Illinois Street through the block bounded by Goodwin Avenue, California Street, Mathews Avenue, and Illinois Street to which some of the property owners in that block contend they have an easement and further contend that the easement is for the benefit of all the lot owners in the block. While existence of such easement may be questioned, it is not desirable to litigate the question because plans for the Life Sciences Building provide for a service drive from Goodwin Avenue to the interior of the block which could also be used by the lot owners in lieu of their present outlet on Illinois Street.

It is, therefore, proposed that property owners give the University a quitclaim deed conveying all their rights, titles, and interests, whatever they may be, in the property in the remainder of the block now owned by the University. In exchange the University would give them a right-of-way across University property through the new outlet and reimburse the lot owners for the cost to them of recording and extending their abstracts.

I concur in the recommendation of the Director of the Physical Plant and the Comptroller for approval of this easement and adoption of the following resolution:

It is hereby resolved by the Board of Trustees of the University of Illinois, a public corporation of the state of Illinois, that the Comptroller and the Secretary of the Board of Trustees, be, and hereby are, authorized to execute, acknowledge, and deliver, in the name of, and on behalf of, this corporation, such instruments of conveyance and such other documents in connection therewith, as to them may seem necessary or desirable, in order to grant right of ways for ingress and egress for the benefit of present and future lot owners in the block bounded by Illinois Street, Mathews Avenue, California Street, and Goodwin Avenue, in the city of Urbana, over such University property located in said block as said Comptroller and Secretary may designate, in consideration of the lot owner's release of any rights such lot owner may have in or to other University property located in said block, and to reimburse such lot owners for the costs of recording and extension of abstracts.

¹ Subsequently Dr. Cohen informed the University that he would be unable to make this purchase. (Secretary's note.)

On motion of Mr. Grange, this resolution was adopted by the following vote: Aye, Mr. Fornof, Mr. Grange, Mr. Hickman, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Megran, Mrs. Watkins; no, none; absent, Mr. Herrick, Mr. Nickell, Mr. Stevenson.

EASEMENT TO ILLINOIS POWER COMPANY OVER UNIVERSITY PROPERTY

(13) The Illinois Power Company is constructing an electric loop feed power line around the cities of Champaign and Urbana to provide an alternate source of power for the community. The proposed route would extend across University of Illinois farms along the north fence line at the south edges of Sections 19 and 20 beginning at South First Street extended, Champaign, to South Race Street extended, Urbana. The Illinois Power Company has requested an easement granting it the right to construct and maintain this electric power line on the University property. The poles and guy wires will be constructed along the fence lines so as not to interfere with farming operations.

I concur in the recommendations of the Dean of the College of Agriculture, the Director of the Physical Plant, and the Comptroller that this easement be granted and that the following resolution be adopted:

Now, therefore, be it resolved by the Board of Trustees of the University of Illinois, a public corporation of the state of Illinois, that the Comptroller and the Secretary of the Board of Trustees be and hereby are authorized to execute, acknowledge, and deliver in the name of and in behalf of this corporation, an instrument of conveyance in such form, and other documents in connection therewith, as to them may seem necessary or desirable, in order to effectuate a conveyance to the Illinois Power Company of a right of easement to construct and maintain an electric power line extending across University of Illinois farms along the north fence line at the south edge of Sections 19 and 20 beginning at South First Street extended, Champaign, to South Race Street extended, Urbana.

On motion of Mrs. Holt, this resolution was adopted.

CONTRACT FOR AGRICULTURAL BUILDING

(14) Several years ago the College of Agriculture prepared teaching materials to aid in the teaching of agriculture to returning veterans. The demand for these "lesson units" by vocational agriculture classes in high schools has been great and it is necessary to maintain an adequate inventory to meet current demands. The June, 1952, inventory was more than four million pages of 127 different teaching units. This inventory has been stored in grain bins constructed some years ago. They are not satisfactory for this type of storage.

The College of Agriculture recommends construction of a steel building which will serve as a work shop as well as for storage on the south side of Florida Avenue, east of the old University Golf Course. Representatives of the College invited bids from the Martin Steel Products Company, Mansfield, Ohio (local representative in Rantoul, Illinois) and the Butler Manufacturing Company, Kansas City, Missouri and Galesburg, Illinois (local representative in Champaign, Illinois). The former did not bid but the Butler Manufacturing Company has offered to construct a standard "Butler" metal building, size 36 by 84 feet with 10-foot sidewalls, a concrete foundation with a four-inch reinforced concrete floor, gable roof, rigid steel truss frame, roof and walls to be covered with .026 gauge aluminum, for a price of \$8,752.95. A recent University purchase of a metal warehouse building indicates that this is a good price.

Funds accumulated from the sale of the teaching units are available to pay for this building. The site has been approved by the Building Program Committee and by the Director of the Physical Plant.

The Dean of the College of Agriculture, the Director of Purchases, and the Comptroller recommend award of a contract for \$8,752.95 to the Butler Manufacturing Company for the construction of this building.

I concur and recommend further that an assignment be made from Agricultural Research Revolving funds sufficient to cover the cost of this construction.

On motion of Mr. Grange, this contract was authorized and the assignment of funds recommended was made by the following vote:

Aye, Mr. Fornof, Mr. Grange, Mr. Hickman, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Megran, Mrs. Watkins; no, none; absent, Mr. Herrick, Mr. Nickell, Mr. Stevenson.

CONTRACT FOR ENGINEERING SERVICES FOR IMPROVEMENTS IN DAVENPORT HALL

(15) Davenport Hall will be ultimately assigned to the College of Liberal Arts and Sciences when it is vacated by the College of Agriculture. A start in this direction has been made possible by the construction of the Animal Sciences Laboratory.

Since this building is fifty years old, considerable remodeling and improvement work will be needed in the vacated areas. The remodeling will be done in stages with as much work as possible being completed during the current biennium and the remainder later. The mechanical services, particularly the heating and electrical systems, are obsolete. It is advisable to prepare engineering studies of the heating and electrical systems for the entire building to determine what installations are needed.

In view of the present heavy load of work in the mechanical engineering staff of the Physical Plant Department, the Director of the Department and the Comptroller recommend a contract with E. C. Manthei, Consulting Engineer, Champaign, to make the engineering studies on the basis of the cost of wages of his staff plus 80 per cent for overhead and commission—the 80 per cent to include costs of blueprints, travel, telephone, and incidental office expenses. The total estimated cost of these services for the entire program is \$18,270. Except for the general studies, Mr. Manthei's services on the remainder of the remodeling would be authorized as needed.

Funds are available in the state appropriation "For remodeling, modernization and improvement of existing building at Urbana-Champaign."

I concur.

On motion of Mr. Fornof, this contract was authorized.

CONTRACTS FOR SAFETY IMPROVEMENTS IN THE UNIVERSITY AUDITORIUM

(16) Bids have been taken on remodeling in the University Auditorium to reduce fire hazards and include the following improvements:

Complete reconstruction of the northeast and northwest main stairs as enclosed fire stairways

Closing of the southeast and southwest stairs with suitable partitions and fire doors to protect them from any fires that may occur in adjoining areas

Installation of automatic sprinkler system in the basement, in the interior construction areas of the balcony, in the coat rooms, ticket offices, and the projection room

Replacement of present unsafe transformer with an installation meeting standard underwriter code requirements

Scaling of openings, such as entrances to the organ pipe shafts and steam tunnels, with fire stops

Installation of a fire alarm system.

To avoid closing the Auditorium, bids were based on a specification that the construction of the four stairways would be so conducted that only one stairway at a time would be taken out of service.

Funds for these improvements are available in the state appropriation "For remodeling, modernization, and improvement of existing buildings at Urbana-Champaign . . ." subject to release by the Governor.

The Director of the Physical Plant and the Comptroller recommend award of contracts, subject to release of funds, to the lowest bidders as follows:

| | |
|---|----------------|
| General work—J. L. Simmons Company, Inc., Champaign | \$83 000 |
| Less credit of \$765 for installation of aluminum instead of wooden handrails | 765 |
| | <hr/> \$82 235 |
| Transformer vault modernization and electrical work—Brunkow Electric Company, Champaign | 13 975 |
| Sprinkler installation—Reliable Plumbing and Heating Company, Champaign | 7 250 |
| Heating, ventilating, and temperature control work—Reliable Plumbing and Heating Company, Champaign | 7 749 |

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute these contracts.

On motion of Mrs. Holt, these contracts were authorized.

CONTRACT FOR STORM SEWER IMPROVEMENT

(17) The drainage of the quadrangle between the Illini Union Building and the Auditorium is now inadequate. The outlets for this area originate at Smith Music Hall, Gregory Hall, the Auditorium, and the east wing of the Administration Building. Drainage lines run from these points to Bevier Hall where they connect with a sewer which runs eastward across the quadrangle to Mathews Avenue (the east boundary of the campus in this area) connecting with a city of Urbana twenty-two inch storm main. This main sewer is inadequate in size and on several occasions has failed to carry off the water from the campus sewer, causing flooding in the basement of Noyes Laboratory of Chemistry. As a result of this condition, use of space in basement areas is restricted because of potential damage to equipment.

To remedy this condition, the Physical Plant Department proposes the extension of another campus storm sewer, a twenty-four inch line which now terminates near the southwest corner of the Illini Union Building, southward to connect with the sewer running east from Bevier Hall, construction of two catch basins to drain the area south of the Illini Union Building and the installation of a cutoff sewer to provide a direct line from the extension to the Administration Building outlet. This will divert drainage of the entire area of the quadrangle to the twenty-four inch campus sewer which runs north from the southwest corner of the Illini Union Building and empties directly into the Boneyard.

The Director of the Physical Plant and the Comptroller recommend award of a contract for \$13,460 to Harris and Keller, Urbana, for construction of the drainage improvements described above. The total cost of the project, including this contract and other work to be done, is \$15,000. Funds to the extent of \$12,000 are available in the Physical Plant budget for this work so that a supplementary appropriation of \$3,000 is needed.

I concur in the award of this contract and recommend further that an appropriation of \$3,000 be made from the General Reserve Fund for this project.

On motion of Mr. Johnston, this contract was authorized and the appropriation was made by the following vote: Aye, Mr. Fornof, Mr. Grange, Mr. Hickman, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Megran, Mrs. Watkins; no, none; absent, Mr. Herrick, Mr. Nickell, Mr. Stevenson.

CONTRACT FOR REMODELING IN RESEARCH AND EDUCATIONAL HOSPITALS

(18) The Director of the Physical Plant and the Comptroller recommend the award of a contract for \$4,795 to Frank H. Stowell and Sons, Chicago, the lowest bidder, for remodeling in Rooms 329 and 331 in the Research and Educational Hospitals. The work will consist of remodeling space formerly used for research from which the equipment has been removed. The remodeling will include removal of concrete bases (on which equipment was mounted), installation of new partitions, new lighting, new doorways into the main corridor of the hospital, and plaster repairs where service lines were formerly located. Conversion of this space will make it usable for hospital purposes.

Funds are available in a special appropriation, made May 26, 1952, and in operating appropriations included in the 1952-1953 budget for the new hospital addition.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute this contract.

On motion of Mrs. Watkins, this contract was authorized.

ADDITION TO GENERAL CONTRACT FOR CONSTRUCTION OF MEN'S RESIDENCE HALLS

(19) The bids on the construction of the second addition to the Men's Residence Halls were in excess of funds available. Before contracts were recommended to the Board of Trustees, the architects negotiated with the contractors on a number of major changes that materially reduced the net amount of the contracts.

One change was in the design of the main south entrance to the food service areas. Later consideration indicates that the changed entrance would be inadequate to handle the 1,100 students expected to pass through it for each meal. The architects have again designed the entrance to provide two sets of doors, whereas only one was provided before, but holding the construction cost to a minimum.

The contractor, Felmley-Dickerson Company, has estimated the additional cost of the general work at \$7,957.30. This has been checked by the architects for this building and the Physical Plant Department and found to be reasonable.

Funds are available in the budget for this building for this additional work.

The Director of the Physical Plant and the Comptroller recommend an increase of \$7,957.30 in the contract with Felmley-Dickerson for this additional work.

I concur and recommend that the Comptroller be authorized to execute this change in the contract.

On motion of Mr. Johnston, this increase in the contract was authorized.

ADDITION TO THE GENERAL CONTRACT FOR CONSTRUCTION OF THE ADDITION TO THE RESEARCH AND EDUCATIONAL HOSPITALS

(20) The Director of the Physical Plant and the Comptroller recommend an increase of \$2,682.33 in the general contract with the Patrick Warren Construction Company, Chicago, for construction of the addition to the Research and Educational Hospitals to provide for ceramic tile instead of plaster on the walls of the operating room gallery stairs between the fourth and fifth floors. Installation of ceramic tile in this area is necessary for sanitary reasons.

Funds are available in the appropriation for the construction of this building to cover this additional work.

I concur and recommend that the Comptroller be authorized to execute this change in the contract.

On motion of Mrs. Watkins, this increase in the contract was authorized.

ADDITION TO THE CONTRACT FOR HEATING AND REFRIGERATION WORK IN THE CONSTRUCTION OF THE ADDITION TO THE RESEARCH AND EDUCATIONAL HOSPITALS

(21) The Director of the Physical Plant and the Comptroller recommend an increase of \$7,204.41 in the contract with the M. J. Corboy Company, Chicago, for the heating and refrigeration work in the construction of the addition to the Research and Educational Hospitals to provide for installation of a two-door type sterilizer in the milk formula room instead of the one-door type specified. Installation of a two-door type sterilizer in the milk formula room will more nearly conform to Board of Health regulations and the one-door type ordered can be used elsewhere.

Funds are available in the appropriation for the construction of this building to cover this additional installation.

I concur and recommend that the Comptroller be authorized to execute this change in the contract.

On motion of Mrs. Watkins, this increase in the contract was authorized.

GIFT OF MR. C. J. MANN

(22) C. J. Mann of Gilman, Illinois, an alumnus of the University of Illinois, Class of 1904, wishes to deed eighty acres of land in Bureau County to the University of Illinois. This land has been seriously damaged by wind erosion resulting from attempts to farm it. It is valuable from the standpoint of forestry research because it affords an opportunity for experiments in the control of wind erosion on sandy land. Since 1938, the University of Illinois has been cooperating with Mr. Mann in experimental work on the use of this poor land. During the years 1939-1942, under the supervision of the University, 15,000 trees were planted on this property for research and demonstrational purposes. The cost to the University has been only the time of members of the forestry staff who have directed the work. All trees have been supplied without cost to the University and Mr. Mann has paid the labor costs. Mr. Mann is now anxious that the University of Illinois have full right to continue its experimental work on this land.

There are some 300,000 acres of land in Illinois where reforestation may be the best solution to the land-use problem. There is a need to demonstrate to owners of such land that it can be used profitably for forestry purposes and to conduct research on the adaptability of various tree species and the best management procedures.

The Head of the Department of Forestry and the Dean of the College of Agriculture recommend that the University accept this property.

I concur.

On motion of Mr. Hickman, this offer was accepted.

**REPORT OF THE COMMITTEES ON NONACADEMIC PERSONNEL AND
GENERAL POLICY ON THE AMENDMENT OF POLICY AND RULES
RELATING TO COMPENSATION AND WORKING CONDITIONS
OF NONACADEMIC EMPLOYEES**

Messrs. Grange and Johnston presented the following report:

The Merit Board of the University Civil Service System of Illinois has proposed changes in employee benefit policies involving amendments of the University's Policy and Rules Relating to Compensation and Working Conditions of Non-academic Employees, in five areas. At its meeting on June 19, 1952, the Board of Trustees approved amendments of policy on Work Week, Overtime Pay, and Disability Leave with Full Pay. The other two proposals Legal Holidays and Vacations with Full Pay were referred to the Committees on Nonacademic Personnel and General Policy for consideration and report to the Board.

Your Committees have considered these proposed changes and recommend to the Board of Trustees as follows:

Approval of the recommendation concerning Legal Holidays, this being Section I of the "Proposed Policy" reading as follows: (This is simply a rewording of present University policy).

I. Legal Holidays

A. Offices, laboratories, and shops will be closed and all employees in the System excused, except in emergency and for necessary operation, on the following holidays: New Year's Day, Memorial Day, Fourth of July, Labor Day, Thanksgiving Day, and Christmas Day.

1. Employees in prevailing rate groups will be compensated in accordance with local prevailing practice.

a. If in any prevailing rate classification holidays in addition to those listed above are recognized in local prevailing practice, these holidays shall be recognized in relation to employees in these classifications in accordance with the conditions herein provided.

2. Permanent and continuous employees not in prevailing rate groups will be excused with full pay.
- B. In the event that work is required
 1. Employees in prevailing rate groups will be compensated in accordance with prevailing practice.
 2. Other employees, except those in administrative classifications as approved by the Merit Board, will be compensated by time and one-half payable in cash, in addition to regular compensation.
 3. Administrative employees in classifications approved by the Merit Board shall receive no additional compensation.

Approval of the following policy concerning Vacations (this is the policy as recommended by the Merit Board, modified by the provision that with respect to employees with ten or more years of service the original proposal for a third week of vacation for all employees be revised as to those in prevailing rate groups to provide that vacations shall be two work weeks in each year of service unless under prevailing practice in their respective employee classifications a longer period of vacation is granted, in which case prevailing practice shall be followed as to that classification).

V. *Vacations with Full Pay*

- A. For all employees in their first year of service
 1. No vacation shall be available for employees with less than six months of service, but at the end of six months of employment, one-half of the first year's vacation as listed in B-1 and 2 shall be considered as earned and available, and the fractional amount of the first year's vacation shall be available thereafter in proportion to the fraction of the year worked.
- B. For all employees in their second and succeeding years of service
 1. For all employees having an established basic work week with additional compensation for overtime beyond that work week:
 - a. For those employees with less than ten years of service:
Vacation shall be two work weeks in each year of service.
 - b. For those employees with ten or more years of service:
Vacation shall be three work weeks in each year of service, except that in the prevailing rate groups vacations shall be two work weeks in each year of service unless under prevailing practice in their respective employee classifications a longer period of vacation is provided, in which case prevailing practice shall be followed as to that classification.
 2. For all employees in administrative and professional classifications of upper level responsibility as approved by the Merit Board, for whom no fixed or rigid daily and weekly schedule is provided, and the discharge of whose duties usually requires a certain amount of flexibility in such schedule, and for whom no provision is made for the payment of overtime worked except when such overtime is in an excessive amount, one month in each year of service.

It is recommended that the effective date of the policy statement concerning Legal Holidays be as of the date of action by the Board; and that the effective date for the changes in the policy concerning the vacations be July 1, 1953, provided additional resources are available to cover any added costs involved.

The proposals of the Merit Board have also been considered by the State Teachers College Board and the Board of Trustees of Southern Illinois University. Both boards adopted the proposals in essentially the form as presented by the Merit Board, except for an amendment to Section V, Vacations with Full Pay, which amendment has the effect of eliminating employees in prevailing wage groups from receiving the extension of vacation with full pay from two weeks to three weeks except where vacations longer than two weeks are found to be the prevailing practice in individual employees groups and unless such benefits are included in the establishment of prevailing rates. The Teachers College Board took another important action, namely that no part of this proposed policy would be subject to negotiation with employees but that it would be regarded as constituting the definite regulations of that Board. The University of Illinois policy includes the work week, overtime pay, and Sunday work as items subject to negotiation.

Respectively submitted,

ROBERT Z. HICKMAN
DORIS S. HOLT
HAROLD E. GRANGE
Chairman

Committee on Nonacademic Personnel

ROBERT Z. HICKMAN
HERBERT B. MEGHAN
WAYNE A. JOHNSTON
Chairman

Committee on General Policy

On motion of Mr. Grange, this report was approved and the amendments recommended were adopted.

The Director of the Nonacademic Personnel was requested to call the attention of all parties concerned, and especially University employee groups affected by these changes, to the provision that the extension of vacation benefits, effective July 1, 1953, is contingent upon the availability of additional funds to cover any added costs involved.

**REPORT OF THE EXECUTIVE COMMITTEE ON SETTLEMENT
OF KATSINAS CLAIM FOR EXTENSION OF LEASE
IN ARCADE BUILDING**

The Executive Committee presented the following report:

As authorized by the Board of Trustees at its meeting on July 16, 1952, the Executive Committee has approved a settlement, recommended by the Committees on Buildings and Grounds and General Policy, with the Katsinas interests of their claim against the University because of the decision of the Board of Trustees not to renew the lease of space in the Arcade Building in which Katsinas has been operating a restaurant.

Counsel for Katsinas proposed that the University either give them a seven-year extension of the lease from September 1, 1952, or pay them \$67,812.39, which they claim constituted the unamortized value of improvements made to the premises and of the equipment installed therein. The Board disapproved extension of the lease. It was the judgment of the Board that it would not be justified in paying the sum asked by Katsinas, but the Board indicated willingness to consider payment of a reasonable sum for the improvements, such equipment as is not removable and such of the other equipment as the University could use. The matter has been in the hands of a special committee (Committees on Buildings and Grounds and General Policy) which recommended to the Board on July 16, 1952, that a settlement along those lines be made. This recommendation was referred by the Board to the Executive Committee with power to act on recommendations of the special committee.

The Executive Committee and the Katsinas interests have now agreed to a settlement whereby the University will pay them \$17,991 for improvements and equipment less the sum of \$2,122.43 for rent under the lease with respect to which they were in arrears and for some items of labor and materials which the University furnished, and will allow occupancy of the premises for sale and removal of the equipment not purchased by the University for not more than sixty days following receipt by Katsinas of notice of the University's acceptance of the offer. Rent will be charged at the rate of \$350 per month (the rate paid while the lease was in effect) for any period of time after thirty days from the receipt of said notice (September 8, 1952) during which the Katsinas interests are still in possession of the premises. Other work now in progress at the University would prevent any substantial remodeling being done in the space occupied by the restaurant during that period so that the sixty-day period of occupancy granted under the settlement agreement will not materially interfere with the plans of the University for use of such space.

FRANCES B. WATKINS
HERBERT B. MEGHAN
PARK LIVINGSTON
Chairman

Executive Committee of the Board of Trustees

This report was received for record. Mr. Lesemann stated that since the settlement agreement affects the estate of the late John Katsinas, it is subject to approval by the Champaign County Court.

At this point Mr. Nickell took his place with the Board.

**APPRECIATION DAY FOR MEMBERS OF THE GENERAL
ASSEMBLY OF ILLINOIS**

President Livingston and Mrs. Watkins reported an Appreciation Day for members of the General Assembly which was held in Chicago on Friday, September 12, 1952. On this occasion members of the General

Assembly, as guests of the Board of Trustees, were taken on an inspection tour of University operations at the Chicago Undergraduate Division and at the Chicago Professional Colleges. At a dinner meeting in the evening, at the suggestion of President Livingston, President Stoddard spoke briefly about the future of the University of Illinois in Chicago with special reference to the desirability of establishing a full four-year undergraduate program.

At the request of President Livingston, President Stoddard extended the remarks he made on September 12, for the information of all members of the Board. A copy of his presentation was filed with the Secretary of the Board for record.

President Livingston then introduced Representative Paul Randolph of the Twenty-ninth Senatorial District, General Assembly of Illinois, who participated in the inspection tour on September 12 and who was a guest of the Board at the meeting on September 24, to speak. Mr. Randolph spoke briefly on the establishment of a full four-year undergraduate program in Chicago and expressed his appreciation of the University's interest in such a development.

KREBIOZEN RESEARCH

President Stoddard presented the following report:

In view of the nation-wide controversy that followed Dr. A. C. Ivy's announcement of the possible value of Krebiozen in the treatment and management of cancer, the President of the University submitted the following statement to the Board of Trustees on November 23, 1951:

"As I see it, the main question now is to determine definitely the value of the drug under research and clinical conditions.

"Dr. Ivy has a large number of new cases that need study and evaluation; he needs a few months' time for this and I feel he should be asked to work intensively on this report.

"If the problem is regarded as basically an administrative matter, I shall proceed to get the answers that are needed:

"(1) To validate to the satisfaction of all concerned the effects of Krebiozen on cancer patients.

"(2) To consider questions raised by members of the medical profession as to procedure and future developments.

"(3) As soon as may be feasible, to give the public full information on the outcome of the work."

Subsequently, Dr. Ivy was granted a leave of absence for two months, beginning January 1, 1952, from his duties as Vice-President of the University and I appointed a Research Validation Committee to pass upon Dr. Ivy's available clinical studies of the effects of the drug. The composition of this Committee was as follows:

Dr. Warren H. Cole, *Chairman*

Head, Department of Surgery, University of Illinois

Dr. N. C. Gilbert

Professor *Emeritus* of Medicine, Northwestern University

Dr. Fred Hodges

Professor and Chairman of the Department of Roentgenology,
University of Michigan Medical School

Dr. Robert W. Keeton

Professor *Emeritus* of Medicine, University of Illinois

Dr. Paul Steiner

Professor of Pathology, University of Chicago

Dr. Owen H. Wangenstein

Surgeon in Chief, University Hospital, University of Minnesota

After an unavoidable delay, Dr. Ivy submitted to the Research Validation Committee on June 13, 1952, his report on the available cases of cancer patients

that had received Krebiozen treatment. This report was in two volumes consisting of over five hundred pages. Dr. Cole's Committee proceeded to examine these reports and analyses and to interview Dr. Ivy and some of his associates concerning the clinical observations. On September 10, the Cole Committee, in accordance with our understanding, submitted directly to me its report together with its findings, conclusions, and recommendations. The latter constitute Appendix A of the present report to the Board of Trustees.

(The other chapters of the report of the Cole Committee consist of: Source of Material; Committee Discussion; Abstract of Observations; Case Presentations; Interview with Research Physician and Neurological Consultation. In view of the technical and medical character of these chapters, I do not believe they should be related to the general public.)

The *findings, conclusions, and recommendations* of the Cole Committee may be summarized as follows:

- (1) Krebiozen has not been identified chemically but is available only in paraffin oil suspension. Hence, it is not available for laboratory experimentation and the accounts of its preparation are open to important questions that have not been answered.
- (2) Ignorance of the nature of the material interferes with a sound evaluation of its therapeutic effectiveness.
- (3) There was found no acceptable evidence that any malignant tumor had been cured by Krebiozen; none was claimed in Dr. Ivy's report.
- (4) There was found no evidence of prolongation of life through the use of Krebiozen; no such claim was made in Dr. Ivy's report.
- (5) There was no histological evidence that Krebiozen produced degenerative or regressive changes in tumor cells; no such unequivocal effect was claimed in Dr. Ivy's report. (One research physician interpreted certain changes as degenerative but this was not concurred in by the member of the Cole Committee who examined these histological observations.)
- (6) There was found no radiographic evidence that Krebiozen could reduce metastatic tumor lesions in bones or lungs; there was no claim to this effect in Dr. Ivy's report.
- (7) The principal objective finding, according to Dr. Ivy's report, was reduction in size of the visible or palpable lesions in 53 per cent of a series of 67 cases.
- (8) The statement in Dr. Ivy's report that a large majority of the patients reported a decrease in pain was not confirmed by the group at Lankenau Hospital in Philadelphia. (There was a difference in time interval and dosage employed by the two groups of investigators.)
- (9) The Committee believes that "Krebiozen has no curative value in the treatment of cancer. On the basis of evidence submitted we cannot state that it is entirely devoid of biological activity."
- (10) The Committee stated: "We are keenly aware of the idealism which has prompted Dr. Ivy to interest himself in the evaluation of this product. We are convinced that his motives are entirely honorable and sincere."

The crucial statement in the Committee's recommendations is as follows:

"In our opinion it would be inconclusive if not futile to conduct further clinical investigation unless it is first possible to dispel the mystery which surrounds the nature of the material. In default of this step no further consideration should be given to the problem."

The Committee suggests further that the ingredient Krebiozen be reproduced under conditions personally known to the testing group and that as far as it is possible the chemical nature of Krebiozen should be determined. In the meantime, the financial and scientific interests of the originators should be protected. The Committee points out the need of newly prepared material which would be used both in animals and men under close supervision and with adequate statistical controls. It is regarded as desirable to have the work done under the general supervision of members of the College of Medicine of the University of Illinois.

Recommendations of the President of the University:

- (1) That in essence the recommendations of the Cole Committee be carried out.
- (2) That Dr. Ivy be requested to secure from the owners or originators of Krebiozen all data, descriptions, and formulations necessary to ascertain the chemical

nature of Krebiozen and to undertake its biological preparation; that throughout such work there be no infringement of the technical, legal, or financial rights of the originators.

- (3) That, pending the completion of these chemical and biological studies, there be no further clinical uses or determinations of Krebiozen on the part of staff members of the University of Illinois except to continue the treatment of patients already using Krebiozen if the attending physicians so recommend.
- (4) That in carrying out these plans the University make the necessary appropriations for work in its own laboratories and/or on a contractual basis with outside laboratories or firms.
- (5) That the President of the University designate a Committee of Supervision consisting of three distinguished staff members of the University of Illinois whose academic and professional work especially fits them for such an assignment. [The President has in mind the following members:

Professor Robert Eugene Johnson, *Chairman*
 Head of the Department of Physiology on the Urbana Campus of
 the University of Illinois and Acting Dean of the Graduate College
 (D.Phil., Biochemistry, Oxford University;
 M.D., Harvard University)

Professor Harry Filmore Dowling
 Professor and Head of the Department of Medicine and former
 Head of the Department of Preventive Medicine
 (M.D., George Washington University)

Professor Richard John Winzler
 Head of the Department of Biological Chemistry,
 College of Medicine
 (Ph.D., Stanford University)]

Dean Johnson has indicated his willingness to serve but I have not as yet approached the other two.

If for any reason the originators of Krebiozen can not or will not cooperate effectively in carrying out this plan, I shall ask that there be no allowance of time, funds, space, equipment, patients, or printing in behalf of any staff member of the University of Illinois for the clinical utilization of Krebiozen, and that every effort be made to dissociate Krebiozen from research or service programs. This action would be consistent with the major recommendations of the Cole Committee in which I have full confidence; it would, I believe, merit the support of all medical men familiar with these events.

It is my hope that the necessary cooperation will be secured and that we may be able to place the Krebiozen research program on a firm footing.

Appendix A of President's Report to the Board of Trustees, September 24, 1952

Findings and Conclusions of the Research Validation Committee

It is regrettable that the material known as Krebiozen claimed to be valuable in the treatment of human cancer has not been identified chemically, is available only in bulky paraffin oil suspension rendering it unsuitable for many forms of laboratory experimentation, and that accounts of the methods employed in its preparation are incomplete and open to many important and valid questions which have not been answered. The Committee holds that the uncertainties which shroud the nature of the material importantly and effectively interfere with sound evaluation of its therapeutic effectiveness.

We have found no acceptable evidence that any malignant tumor has been cured and none has been claimed in Dr. Ivy's report (pages 1 and 77, Vol. I).

We have found in the evidence submitted no evidence that prolongation of life has been effected and no claim in this direction has been made in Dr. Ivy's report (pages 1 and 77, Vol. I).

We have been presented with no histological evidence by Dr. Ivy that the material has produced degenerative or regressive changes in tumor cells, and no unequivocal oncolytic effect is claimed in his report (page 58, paragraphs 3 and 5, pages 70, 71, and 77, Vol. I). Histological sections which Dr. Pomeroy (of Lankenau

Hospital, Philadelphia) presented to our Committee were interpreted by him as showing oncolytic changes; they were reviewed by one member of our Committee who could not agree that oncolytic effects were evident.

We have been provided with no radiographic evidence that the material can effect the disappearance or regression of metastatic tumor lesions in bones or lungs, and no claim in this direction is to be found in Dr. Ivy's report (pages 25 and 64, Vol. I).

It is claimed in the report, page 23, Vol. I, that in 36 of 67 cases or 53 per cent, the material produced reduction in the size of visible or palpable lesions although complete disappearance was neither demonstrated nor claimed. However, reduction in the size of tumor lesions was the outstanding objective finding according to Dr. Ivy's report.

The outstanding subjective effect of treatment, the alleviation of pain, was claimed by Dr. Ivy in 86 per cent of the cases in series A and B and in 68 per cent of the cases in series C (pages 22 and 62, Vol. I of Dr. Ivy's report). However, it is noted that among patients treated by Dr. Reiman's group at Lankenau Hospital in Philadelphia, the alleviation of pain was reported in one instance only, apparently in sharp conflict with observations in the larger bulk of patients reported by Dr. Ivy. Nevertheless, it should be noted that the intervals of administration and the size of doses of the product used by the two groups of investigators were different.

We are keenly aware of the idealism which has prompted Dr. Ivy to interest himself in the evaluation of this product. We are convinced that his motives are entirely honorable and sincere. It is our belief that Krebiozen has no curative value in the treatment of cancer. On the basis of evidence submitted we cannot state that it is entirely devoid of biological activity.

Recommendations

Because there is sufficient doubt in the minds of the Committee members concerning the ability of Krebiozen to bring about alteration in the biological activity of human cancer it is suggested that further investigation of the material might be considered to determine with finality whether it is capable of alleviating pain, reducing the size of tumor lesions and bringing about histologically provable tumor lysis. In our opinion it would be inconclusive if not futile to conduct further clinical investigation unless it is first possible to dispel the mystery which surrounds the nature of the material. In default of this step no further consideration should be given to the problem.

If further work is contemplated, it is our suggestion that effort be made to reproduce the ingredient for which therapeutic value is claimed following the technique described by its originators but under conditions personally known to the testing group and by men chosen to supervise their work. There are many persons in this country skilled in the preparation of biologicals who could be called upon for this service. As far as it is possible the chemical nature of "Krebiozen" should be determined. Every assurance should be given to the originators of the material that their financial and scientific interests will be protected.

If a testing program is carried out, it would be advisable to use the newly prepared material both in animals and in man under the supervision of experienced observers using a sufficiently large number of patients and animals over a sufficiently long period of time and surrounded with adequate controls in order that statistically significant results may be reasonably expected.

It is scarcely within the prerogatives of the Committee to designate the personnel of the group charged with this problem, if a testing program is initiated. We feel that certain advantages would be gained if qualified members from two or three departments within the College of Medicine of the University of Illinois might be selected to carry out this program under the direction of a man appointed by the President. This does not imply that the actual production of the material should be carried out within the College of Medicine.

Statement of Doctor Ivy

President Stoddard presented the following formal statement from Doctor Ivy who was unable to present it in person because of illness.

"Once again premature and distorted publicity has misinformed the public about Krebiozen.

"Instead of finding Krebiozen ineffective, the Cole Committee Report has agreed with my previous conclusions, namely, that favorable changes occur with sufficient frequency after the administration of Krebiozen as to warrant further careful investigation.

"I commend the Committee because it was the first medical group actually to inspect some of the patients treated by those physicians who have had the most experience with Krebiozen. While the Committee saw only a few patients, this was a vast improvement over previous reviewing groups.

"As soon as I have fully recovered my health, I shall start to prepare for scientific publication my own report of the analysis of observations made on some 500 patients. Finally, I view the report of the Cole Committee and what its appointment by President Stoddard really symbolized, as a victory for the freedom of research in our country. It upholds the right to investigate *any* possibility for saving human lives."

A. C. Ivy, Ph.D., M.D.

September 24, 1952

On motion of Mr. Johnston, seconded by Mr. Megran, the recommendations of the Research Validation Committee and of the President of the University were approved. Mr. Hickman asked to be recorded voting "no," stating he felt that no action by the Board of Trustees is indicated at this time.

On motion of Mr. Fornof, the Board voted to join with the President of the University in expressing formally to the members of the Research Validation Committee the thanks and appreciation of the Trustees for their services.

Mr. Fornof brought up for discussion the premature publication in a Chicago newspaper of the report of the President and of the findings and conclusions of the Cole Committee. Mrs. Watkins and Mr. Johnston also commented on this.

APPOINTMENT OF ILLINOIS TRUSTEE FOR BESSIE SECOR TRUST

A perpetual trust, consisting of the residuary portion of her estate, was created by the will of Bessie Secor, deceased, late of Los Angeles, California. One-sixth of the net income from the trust property is to be paid by the trustee quarterly to the University for the purpose of maintaining scholarships in electrical engineering. The Security-First National Bank of Los Angeles has been acting as trustee.

At the time of her death Bessie Secor owned certain mineral interests in land situated in southern Illinois, the exact extent and nature of which has not been determined. Among them is a half-interest in the minerals, including oil and gas, under a forty-acre tract near Odin in Marion County. The Texas Company desires an oil and gas lease covering that tract and is willing to pay a bonus of \$300 for a lease of the usual type covering the interest of the trust in the land. The California bank is not qualified under Illinois law to act as trustee in this state. It has suggested that the University, as the sole Illinois beneficiary of the trust, secure the appointment of the Old National Bank of Centralia as Illinois trustee so that the latter can enter into the lease.

In addition to the bonus, the Texas Company is willing to pay the

expenses of securing the appointment of the Old National Bank as trustee. That bank is qualified to serve in that capacity and, through having acted as Illinois administrator of the estate of Bessie Secor, in ancillary proceedings had and closed some time ago, is generally familiar with the Illinois portions of the trust estate.

Since it is obviously in the best interests of the University and other beneficiaries of the trust that the lease be given the Texas Company and an Illinois trustee be appointed for that purpose, the Legal Counsel requests that he be authorized to file a petition in the name of the Board of Trustees of the University in the Circuit Court of Marion County, Illinois, for the purpose of having the Old National Bank of Centralia appointed as Illinois trustee of the trust created by the will.

On motion of Mrs. Holt authority was granted as requested.

REQUEST OF THE PRESS FOR ADVANCE COPIES OF BOARD AGENDA

President Livingston stated that he had been asked by a member of the press to request that copies of the reports and recommendations of the President of the University and other items on the agenda for meetings of the Board of Trustees be supplied to press representatives in advance of each meeting so that they would have an opportunity to study them beforehand. Mr. Hickman suggested that this request be referred to an appropriate committee of the Board for consideration. President Livingston referred it to the Committee on General Policy.

COLLEGE OF PHARMACY ADVISORY COMMITTEE

(7) The Dean of the College of Pharmacy recommends the appointment of Mr. Ned O. Haney, owner of Haney's Pharmacy, Macomb, Illinois, to the Advisory Committee of that College. Mr. Haney's appointment is for five years (July 1, 1952, through June 30, 1957). He is being appointed to succeed Mr. Harold A. Wild whose term has expired.

I concur.

On motion of Mr. Megran, this appointment was approved.

SCHOLARSHIP REQUIREMENTS IN AGRICULTURAL SCIENCE CURRICULUM

(8) The faculty of the College of Agriculture and the University Senate recommend that students entering the University in agricultural science as freshmen shall be required to have a scholarship rank in the upper one-half of their high school classes, that those entering the curriculum by transfer from other colleges and universities shall be required to have a scholastic average in previous college work of not less than 3.5 in terms of the grading system of the University of Illinois, and that students enrolled in this curriculum shall be required to maintain an all-University average of not less than 3.5. It is further recommended that these requirements become effective September 1, 1953.

In the judgment of the faculty of the College of Agriculture the establishment of these requirements is necessary to preserve the character of this particular curriculum as a preparation for graduate study or for careers in certain fields of agricultural industry for which a strong science foundation is necessary.

I concur.

On motion of Mr. Hickman, this recommendation was approved.

APPROPRIATION FOR LIFE SCIENCES BUILDING PLANS

(9) The General Services Administration of the United States government loans funds to states and political subdivisions for advance planning of public works. The loan made on any project must be repaid without interest whenever funds become available for construction. The University applied for and received \$152,000 for preparation of plans for the East Dentistry-Medicine-Pharmacy Building in Chicago and the Life Sciences Building in Urbana. The funds advanced for the Pharmacy Building have been repaid from the state appropriation for that building.

The General Services Administration authorized an advance up to \$75,000 for preliminary plans for the Life Sciences Building, which have been completed at a total cost of approximately \$29,000. Since an appropriation for the construction of the building has not been received, funds were reserved by the University to reimburse the United States government. The Comptroller recommends, and I concur, that an appropriation of \$29,000 be made from the General Reserve for this reimbursement.

On motion of Mr. Fornof, this appropriation was made and the payment authorized by the following vote: Aye, Mr. Fornof, Mr. Herrick, Mr. Hickman, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Megran; no, none; absent, Mr. Grange, Mr. Nickell, Mr. Stevenson, Mrs. Watkins.

On motion of Mr. Herrick, the action of the Board of Directors was confirmed.

PROPERTY TAXES ON MEDICAL CENTER STEAM PLANT

(12) The agreement between the University and the Medical Center Steam Company provides that the operating charge of the Medical Center Steam Company shall include real estate and personal property taxes assessed against its property.

On February 16, 1950, the Board requested that the tax status of the property be referred to the law firm of Chapman and Cutler, Chicago, for study. Chapman and Cutler reported to the University Legal Counsel that when the University actually acquires legal or equitable title to or gains exclusive use and possession of the property of the Medical Center Steam Company the property will be exempt from taxation. Under the terms of the contract this will ultimately take place.

The steam plant went into operation the middle of 1951 and, on the basis of assessments of its real and personal property, it is estimated that the Company will pay general property taxes of approximately \$50,000 for the year 1952. The Company and University officers concerned regard this assessment as reasonable and satisfactory.

This report was received for record.

CONTRACT FOR MACHINE SHEDS ON ALLERTON FARMS

(13) The Dean of the College of Agriculture and the Comptroller recommend award of a contract for \$7,965.64 to the Wilkinson Company, Cisco, the lowest bidder, for the construction of machine sheds on Allerton Farms Nos. 3 and 6. The shed on Farm No. 6 was destroyed by fire when struck by lightning on September 19, 1952. The shed on Farm No. 3 is inadequate in size and is in poor

structural condition. Plans for new 40' by 65' pole frame buildings were prepared with the assistance of the Department of Agricultural Engineering.

Funds are available from the income from the farms for these improvements. I concur.

On motion of Mr. Megrn, this contract was authorized.

At this point Mr. Nickell took his place with the Board.

CONTRACT FOR TILING ON WRIGHT FARM

(14) The Dean of the College of Agriculture and the Comptroller recommend award of a contract for \$4,312.55 to Herb Strausberger, Waterman, the lowest bidder, for installation of approximately 4,750 feet of tiling on Wright Farm No. 3 in DeKalb County. This will include the tile, trenching, laying of tile, blending of tile, and back filling.

Funds are available from the income of the farm for this improvement.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute this contract.

On motion of Mr. Herrick, this contract was authorized.

CONTRACT FOR REMODELING IN THE RESEARCH AND EDUCATIONAL HOSPITALS

(15) The Director of the Physical Plant and the Comptroller recommend award of a contract for \$4,178 to Frank H. Stowell & Sons, Chicago, the lowest bidder, for remodeling in the Research and Educational Hospitals to provide a service kitchen for the Obstetrics Department. The increased bed capacity which will be made available with completion of the new addition to the Hospitals makes it necessary to have a kitchen adjacent to the Obstetrics Department.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute this contract.

On motion of Mr. Johnston, this contract was authorized.

CONTRACT FOR NOYES LABORATORY REMODELING

(16) On September 24, 1952, the Board of Trustees appropriated funds for remodeling and improvements in Noyes Laboratory. A part of this program is the conversion of the electrical system and equipment for the Hydrogenation Laboratory to meet safety code requirements. The estimated cost of this work is \$6,060.

The nature of the work makes it difficult to secure competitive bids and will require considerable time for preparing detailed bidding plans and specifications. The Director of the Physical Plant and the Comptroller recommend that the Potter Electric Service Company be authorized to do this work under the terms of its contract with the University for remodeling work on a cost-plus-fixed-fee basis.

I concur.

On motion of Mr. Fornof, this contract was authorized.

CHANGES IN CONTRACTS FOR MEN'S RESIDENCE HALLS ADDITION NO. 2

(17) The Board of Trustees has approved contracts for the construction of the second unit of the Men's Residence Halls Additions. The original bids exceeded the available funds and changes in specifications were required. It was not possible to make a detailed check of all changes before the award of the contracts because of the time schedule required in issuing bonds. Subsequently the architects, the Housing Division, and the Physical Plant have completed their check and secured estimates from contractors on changes which are considered necessary. These changes are:

| | |
|--|-------------|
| Felmley-Dickerson, general contractors..... | \$ 7 096 70 |
| R. H. Bishop, refrigeration work..... | 2 200 00 |
| Brunkow Electric Co., electrical work..... | 5 087 82 |
| E. M. Hayes, heating, ventilating, plumbing, drainage, and fire protection work..... | 9 449 37 |

The estimates have been checked by the Physical Plant and the architects and found to be reasonable.

The Director of the Physical Plant and the Comptroller recommend the approval of these increases in the contracts. Funds are available in the budget for this project.

I concur.

On motion of Mr. Hickman, these increases in contracts were authorized as recommended.

PURCHASES

(18) The Director of Purchases has proposed and the Comptroller recommends the following purchases. Unless otherwise specified, the purchase in each case is recommended on the basis of lowest bid.

I concur.

PAYMENT OF HOUSING LOAN

(20) In 1946 and 1947, the University constructed seventy-six residences on Hessel Boulevard in Champaign, for rental and sale to members of the faculty. The construction program was financed by the University of Illinois Foundation through loans totaling \$259,700 at 3 per cent interest secured from the First National Bank of Chicago.

Payments have been made on the principal of the loans from income and from proceeds of sales. The present balance due is \$49,926. Funds from sales not yet applied on the loan have accumulated to \$81,165.

The Director of the Physical Plant and the Comptroller recommend that (a) the loan be paid in full and (b) the balance of the funds accumulated plus proceeds of future sales be appropriated to pay the University's share of paving Hessel Boulevard when it is improved and for maintenance of houses remaining in the University's possession.

I concur.

On motion of Mr. Johnston, these recommendations were approved by the following vote: Aye, Mr. Forno, Mr. Herrick, Mr. Hickman, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Megran, Mr. Nickell; no, none; absent, Mr. Grange, Mr. Stevenson, Mrs. Watkins.

AMENDMENT TO POLICY AND RULES RELATING TO COMPENSATION AND WORKING CONDITIONS OF NONACADEMIC EMPLOYEES

(21) In February, 1949, the Board of Trustees amended the Policy and Rules Relating to Compensation and Working Conditions of Nonacademic Employees to provide that employees be certified as participants in the University Retirement System of Illinois after completion of six months' service rather than as of the date of employment. At that time the change was desirable because of the large turnover in the employment of nonacademic personnel during the first six months' probationary period, which created a great deal of paper work in the Business Office and in the Retirement System Office registering new employees and then discontinuing their participation in the System. These conditions have now changed so that it is desirable to return to the practice originally provided in the Policy and Rules. It is also obviously of advantage to the employees concerned to become participants in the Retirement System immediately.

The Director of Nonacademic Personnel, therefore, recommends the following amendments (new language in italics and language to be deleted in brackets):

Section I. General Policy — paragraph 6

6. *A permanent and continuous employee is (a) one employed in a position or in work which the University contemplates continuing for the next six months, or is (b) a person who has completed six months of service.* [A permanent and continuous employee is an employee who has completed six months' service in any classification or classifications in nonacademic employment.] For this purpose a month of service shall be no less than twenty work days, excluding approved absences. A person employed regularly but on a part-time basis and fulfilling the above conditions will be considered a permanent and continuous employee.

Section III. Methods of Determining Rates of Compensation

1. A. Permanent and continuous employees [and those employed in positions or in work which the University contemplates continuing for at least six months, but who have not yet completed six months' service in any classification or classifications of nonacademic employment], in prevailing rate groups paid at hourly rates, will be paid a monthly rate determined by multiplying the number of hours of the work year, which shall be uniform in all years, by the hourly rate and dividing by 12, as follows: . . .

Section VI. Holidays

1. (Sub-paragraph) Permanent and continuous employees [and those employed in positions or in work which the University contemplates continuing for at least six months, but who have not yet completed six months' service in any classification or classifications of nonacademic employment] not in a prevailing rate group will be excused with full pay.

I concur.

On motion of Mr. Fornof, these amendments were adopted.

REPORT OF COMMITTEE ON GENERAL POLICY ON TAX STATUS OF STUDENT-STAFF APARTMENTS

Mr. Johnston, for the Committee on General Policy, presented the following recommendation from the President of the University.

On October 31, 1951, the Board of Trustees received a request from the Urbana Board of Education that the University make payments "in lieu of taxes" on the Student-Staff Apartments at Green Street and Goodwin Avenue, Urbana. The request was referred to the Committee on General Policy. On December 17, 1951, the Committee recommended, and the Board approved, (a) that the Legal Counsel be directed to take any and all steps that he considers necessary or desirable to establish and maintain the tax exempt status of the Student-Staff Apartments and (b) that University officers be instructed to continue their study to ascertain what services are rendered to the University by local taxing bodies and what would constitute proper compensation for such services and make recommendations thereon to the President of the University.

The University asserts, but local taxing bodies deny, that the Student-Staff Apartments are exempt from local property taxation. To establish the University's contention beyond dispute would require litigation and eventually a Supreme Court decision. While the Legal Counsel is of the opinion that the Supreme Court would uphold the University's contention, the possibility of an adverse decision can not be wholly ignored because the Student-Staff Apartments are occupied in part by full-time staff members who are not students and thus may not be considered by the courts as being in the same category as student dormitories which are tax exempt. In any event the expense of such litigation should be avoided if some other satisfactory solution can be found.

A Supreme Court decision favorable to the University would not wholly dispose of the controversy because local taxing bodies would continue to urge the University to make payments for municipal services to the Student-Staff Apartments as authorized by an existing statute under which the University has been making such payments on other residence properties which are leased to staff members.

A comprehensive study of the occupancy of the apartments since they have been in use has established that they have been and are occupied to a considerable extent by full-time staff members, although they are also occupied to an equal, if not greater, extent by graduate students. In a case decided several years ago the Supreme Court ruled that student residence halls are exempt from local taxation and the University has consistently adhered to the policy of not paying taxes and not making payments for services rendered by local taxing bodies with respect to properties occupied by students.

On the other hand, the University has made, and is now making, payments for such services under the statute with respect to properties of a permanent nature which are either owned by it or the title to which is held by the University of Illinois Foundation and which are leased to and occupied by full-time staff

members. It would be consistent with these policies and practices if the University would also make payments under the statute for services rendered by the local taxing bodies to those portions of the Student-Staff Apartments which are occupied by full-time staff members.

Discussions by University officers and special counsel¹ with the State's Attorney of Champaign County, who is authorized by law to enter into agreements with respect to payments for services under the statute, have resulted in a plan, satisfactory to him, as resolving these controversies, which contemplates:

a. As authorized by the existing statute, the University will pay for the services rendered by the local taxing bodies to that portion of the Student-Staff Apartments leased to and occupied by its full-time staff members by paying that proportion of the full amount of the real estate taxes which would be payable upon these properties if they would be considered to be fully taxable which the number of apartments occupied by full-time staff members on April 1 of each year bears to the total number of apartments in the buildings on that date.

b. Payments for such services will be made for the tax years 1951 and 1952, during which the Student-Staff Apartments have been assessed for taxation, and also for the tax year 1950 for which they were not so assessed. (Only one of the buildings was in operation at that time.)

c. Prior to the making of such payments on the above basis for the tax years 1951 and 1952, an agreement will be entered into with the State's Attorney as contemplated by the statute in which he will agree that the payments made on that basis constitute proper compensation to the taxing bodies for services rendered by them to these properties during those years and orders will be entered by the County Court of Champaign County sustaining the University's objections to the assessment and levy of taxes against the properties for those years, setting aside and removing said assessments and levies, and approving said agreement between the University and the State's Attorney. The provisions of those orders will be as identical as possible with those of an order heretofore entered by said County Court sustaining the University's objections to the assessment and levy of taxes and to the County Treasurer's application for judgment for taxes assessed and levied for the year 1950 upon other properties upon which the University made payments for services under the above-mentioned statute for that year.

d. No such court order will be obtained in connection with the payment of services upon the foregoing basis for the year 1950, but an agreement will be entered into between the University and the State's Attorney with respect thereto which will recite that such payment is being made voluntarily by the University without prejudice to its contention and position that the Student-Staff Apartment buildings were then and are now exempt from taxation and also without prejudice to the contention of the taxing authorities that they were not then and are not now tax exempt.

While public officials now in office, including the State's Attorney and the present members of the Champaign County Board of Review, can not bind their successors, it is anticipated by all concerned that adopting and carrying out the plan recommended above with respect to the years 1950, 1951, and 1952 will establish a policy to be followed in subsequent years. Continuation of this policy by the University, however, will be contingent upon the statute authorizing it to make such payments remaining in effect and no increases being made in the assessment of the Student-Staff Apartments in future years which are not in line and in proportion with increases in assessments generally of other properties in the city of Urbana.

The costs to the University will be: tax year 1950, \$5,150 (estimated); tax year 1951, \$9,544.90 (actual); tax year 1952, \$9,790 (estimated), to be paid in 1953.

Adoption of the plan will require some increase in the rentals charged full-time staff members occupying apartments in the buildings, effective after termination of present leases. Hence, to meet payments due in 1954, a rental increase of \$8.50 to \$10 a month for all apartments occupied by full-time staff members will be required effective September 1, 1953.

The Director of the Physical Plant, the Comptroller, the Legal Counsel, and special counsel recommend that this plan be adopted, that the Comptroller and the

¹ Mr. J. G. Thomas of Champaign.

Secretary of the Board be authorized to make the necessary agreements with the State's Attorney of Champaign County in a form approved by the Legal Counsel and that payments contemplated by these agreements be authorized.

I concur.

On motion of Mr. Johnston, this recommendation was approved.

MEMORIAL TO CAIRO A. TRIMBLE

Mr. Forno offered the following:

The Board of Trustees of the University of Illinois records with sorrow the death on September 23, 1952, of the Honorable Cairo A. Trimble of Princeton, Illinois, a former member of this Board.

Mr. Trimble was born in Princeton on March 15, 1869, and resided there all of his life. He was a distinguished member of the Illinois Bar, was formerly President of the Illinois State Bar Association, President of the Illinois State Board of Law Examiners, and a member of the Board of Governors of the American Bar Association. He was for many years active in public affairs and served as a member of the Board of Trustees of the University of Illinois from 1917-1923.

The Board of Trustees directs that this memorial be spread upon the minutes of today's meeting and that a copy thereof be sent to Mr. Trimble's family as an expression of the Board's sympathy and as a tribute to a former Trustee of the University.

This resolution was adopted.

BUSINESS PRESENTED BY THE PRESIDENT OF THE UNIVERSITY

The Board resumed consideration of business presented by the President of the University.

BIENNIAL OPERATING BUDGET 1953-1955

(22) I present herewith my recommendations for the biennial operating budget of the University for the two years beginning July 1, 1953. These recommendations cover all funds for which appropriations are requested from the General Assembly. Estimates are submitted as the basis for the budget to be filed with the State Department of Finance before November 1, 1952, as required by law.

For the year 1952-1953, the portion of the internal budget of the University payable from funds appropriated by the General Assembly, including both tax funds and University income but excluding amounts for auxiliary and self-supporting enterprises, totals \$36,033,746.

The Deans, Directors, and General Administrative Officers were requested several months ago to submit estimates and requests for the 1953-1955 biennium. After many conferences devoted to a critical analysis of needs, they asked for an addition of \$4,681,201 per year to the 1952-1953 budget. This amount did not include any provisions for salary and wage increases.

These requests were reviewed by the University Council, by committees of the Council, and by the Provost and the Comptroller. As a result of these discussions, the amount recommended for college and departmental increases has been reduced to \$2,139,320 per year. To this figure must be added (a) the amount necessary to put the hospital addition budget in Chicago on a full biennial basis (funds were provided in 1951-1953 for operation during one year and a fraction), (b) funds from tax sources to offset reduction in tuition fee income resulting from a decrease in the number of veterans, and from a reduction in the fees payable by the veteran himself, and (c) increases in employer contributions to the University Retirement System.

The amount reasonably required and justified for salary and wage rate increases is estimated at \$3,000,000 per year.

The total increase proposed for the next biennium in state tax funds appropriations is \$15,372,509. This amount, added to the present appropriation of \$61,497,491, requires tax funds in the amount of \$76,870,000 for 1953-1955. The income fund, allowing for the reduction of \$3,850,000 noted above, and for an increase of \$350,000 in other operations, yields a sum of \$13,000,000, as compared with \$16,500,000 for 1951-1953.

The total proposed request, therefore, is \$89,870,000 as compared with \$77,997,491 for 1951-1953.

The explanation of need for these increases is set forth in the report submitted herewith.

I request approval of this proposed budget as a basis for filing with the State Department of Finance and recommend that the President of the Board of Trustees and the President of the University be empowered to discuss them, as may be required, with the Governor, the Illinois Budgetary Commission, and other state officials and legislative leaders.

[The figures in the foregoing recommendation from the President of the University do not include the Institution for Tuberculosis Research. The budget of the Institution was submitted separately but has been incorporated in the summary which follows and in subsequent schedules and analyses. — Secretary's note.]

The Provost, the Vice-President, and the Comptroller made statements in support of this budget.

The Secretary of the Board distributed copies of two statements received by the President of the University from the University of Illinois Chapter of the American Association of University Professors relative to salary adjustments for the academic staff for the 1953-1955 biennium. Copies of these statements have been filed with the Secretary for record.

Mr. Nickell called attention to the relatively small increase included for the Institute for Research on Exceptional Children (see Schedule B) and suggested that consideration be given to providing additional funds for this Institute. President Stoddard stated that the budget would be adjusted to provide an additional \$55,000 per year, or a total increase of \$80,000 per year, for the Institute and that this adjustment would be made without increasing the total biennial operating budget of the University.

Following extended discussion, in which all members of the Board present participated, on motion of Mr. Johnston, the following budget was approved and the President of the Board and the President of the University were empowered to use these estimates in presenting the budgetary needs of the University to the Governor, the Illinois Budgetary Commission, and to other state officials. The motion was adopted by the following vote: Aye, Mr. Forno, Mr. Herrick, Mr. Hickman, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Megran, Mr. Nickell; no, none; absent, Mr. Stevenson, Mr. Grange, and Mrs. Watkins.

I. To Place Operating Appropriation of Hospital Addition, Chicago, on a Biennial Basis

The State appropriations for 1951-53 included funds for the operation of the Research and Educational Hospitals Addition in Chicago for only a part of the biennium. The hospital addition will approach full operation during the year 1952-53. It is now necessary to provide funds for complete operation during the entire 1953-55 biennium. The sum of \$940,000 is included for this purpose. This amount will be sufficient to activate all floors in the new building except the 7th, 11th, and 12th floors. The activation of these floors must be geared with operations in the old hospital on the basis of necessary remodeling and modernization in the old areas. There will be an immediate gain of 162 beds toward the ultimate goal of 309 beds. It is anticipated that floors 7, 11, and 12 can be opened in the latter part of the biennium in conjunction with new uses for vacated areas in the old hospital. The major operating costs for these three floors will be requested in 1955-57. The time schedule for these events will be determined by the availability of nurses and medical technicians, and by the possession of adequate funds for major appointments to the staff, mostly in the College of Medicine.

II. Reduction in Fee Income

Although there will be some increase in enrollment over the present year, the fee income will be reduced by an amount presently estimated at \$3,850,000. There are four chief factors contributing to this decrease:

(1) The major factor is the decrease in payments from the Veterans Administration. These payments have always lagged behind enrollment because billings are not made until after a given semester has been completed. Collections during the current biennium will include fees for the years 1950-51 and 1951-52, and for most of 1952-53. There will be only a few students receiving benefits under the old "G. I. Bill" during the 1952-53 biennium. Reimbursement from the Veterans Administration in 1953-55, therefore, will be negligible in amount.

This loss of income will be exceptionally acute because the Veterans Administration had been paying on a so-called "cost of instruction" basis. In general, the amount per student has been greater than the nonresident tuition, or from three to four times as much as the resident tuition. This basis for reimbursement has helped the State meet sudden increases in operating costs, but the termination of the program means that the State must now assume a larger share of total expenditures.

(2) The new "G. I. Bill" provides that payments shall be made directly to the student. These are to be applied by the student, as he sees fit, to the various

expenses of attending school. Since none of this money *has* to be spent for tuition, the Illinois veteran can apply for a State military scholarship. The result is that, instead of collecting approximately \$350 a year (as under the old "G. I. Bill"), the University will collect *no* tuition from veterans who receive State military scholarships.

(3) The bonds issued for the construction of residence halls and staff apartments in Chicago provide that the University shall pledge approximately \$250,000 a year of income from student fees for the operation of the Dentistry-Medicine-Pharmacy Building. Fees for this purpose must be held in trust instead of being deposited in the State Treasury. This decrease in income is partially offset by a decrease of \$223,000 in the Chicago Physical Plant budget. The result is an increase of only \$27,000 in general revenue appropriations for this purpose.

(4) The 1951-53 biennial budget included a decrease in general revenue appropriations of \$1,385,000 due to decreased enrollment. This temporary decrease in enrollment resulted in decreased fee income, but its effect on appropriations has been delayed until the 1953-55 biennium.

III. Salary and Wage Increases

For the biennium 1951-53, an allotment of \$4,800,000 was made for salary and wage increases. This amount was fully applied in the first year of the biennium through a uniform increase of 7½ per cent for all academic, nonacademic, and administrative staffs. Other employees in prevailing rate groups were given wage adjustments determined by local agreements. The remaining 2½ per cent was used for merit increases in selective cases, but on a fairly broad basis.

At the beginning of the second year of the biennium, it became necessary to make additional salary adjustments. A further sum of approximately 1½ per cent of the total salary and wage budget was set up for such increases by making decreases at other points in the budget. Some of the decreases were at the expense of educational and research operations. The sum thus gained was applied in a highly selective manner, affecting 30 per cent of the academic staff and about 37 per cent of the nonacademic staff.

These adjustments, when added to similar adjustments in preceding years, have brought the average salary of the entire academic staff to a point substantially equal to the cost-of-living index as compared with 1940.

A reasonable amount of progress has been made in giving a living wage to the low salaried groups in the faculty (assistants and instructors). Much still remains to be done on this score. Unfortunately, the index of average salaries for the professorial ranks is below the index of cost of living as compared with the situation in 1940. In other words, these ranks have fallen behind the lower academic ranks in relative salary gains. This is a source of anxiety to the departmental heads whose responsibility it is to keep faculty morale at a high level.

Most of the nonacademic groups have fared rather well with respect to increased cost of living. The general average for all groups is lowered by the relatively poor status of office and clerical employees. A part of this unfavorable situation is caused by the large turnover in the clerical group.

One remedy for turnover is a more favorable salary schedule. The index of wage gains for prevailing rate groups is materially higher than the cost-of-living index. The conclusion is that there has been a definite uplift in wage levels for these employees.

During the postwar period, the teaching profession has moved rapidly into an unfavorable position with respect to other professions, and especially with respect to industrial and commercial groups. This is a problem of real concern to the University of Illinois. Current salary scales are favorable as compared with many other institutions of higher education in this country, but some of the leading institutions with which the University of Illinois is directly comparable have adopted scales substantially above those presently in effect on our several campuses. The University must face this competitive situation in its efforts to secure and maintain a faculty of high quality. The departmental heads feel that the 1953-55 biennium will be a crucial period in the history of the University. It will test the ability of this institution to maintain the excellence so far reached, and to gain a little in strength before the next great influx of students.

On the nonacademic side, comparisons with industrial wage scales are even more direct. These scales have materially increased. Auxiliary benefits have further

improved the position of industrial workers, but University scales have not kept pace with such changes. Further increases in industry are indicated.

As a basic contribution to an adequate economic status, the minimum salaries for the various academic ranks should be raised as promptly as possible. Salary increases thus achieved would assist the University in meeting competition from other universities and from the competition referred to above.

Sufficient funds have been included in these budget recommendations for substantial progress toward the minimum salaries suggested in the table below. The effective date and the manner of application have not, as yet, been determined. These are matters of policy to be decided after a detailed study of the effect of other sources of salary adjustments.

Minimum Salaries for an Academic Year of Service (9 months)

| | <i>Present</i> | <i>Proposed</i> |
|--------------------------|----------------|-----------------|
| Professor..... | \$6 000 | \$7 500 |
| Associate Professor..... | 5 000 | 6 000 |
| Assistant Professor..... | 4 000 | 5 000 |
| Instructor..... | 3 000 | 4 000 |
| Assistant..... | 2 400 | 3 000 |

Minimum salaries for year-round service are 2/9 higher than those for the academic year.

Cost-of-living adjustments are mostly a matter of equity in the total economic situation. The factor of competition with other universities, with other professions, and with the great research laboratories in industry and in government, becomes more severe as members of our own staff grow in individual merit and achievement. Recognition of merit in scientific and technical fields is relatively easy, and the competitive factor is obvious. But there are in every great university somewhat less competitive areas—for example, the humanities—where the intangible value of certain teachers also requires suitable rewards for merit. Recognition of merit goes beyond the competitive factor even where direct competition is present. The sovereign values of the University itself become the standard. Modest sums are needed for this recognition.

It is also necessary to provide:

(1) Protection against added increases that may come in the prevailing wage rates,

(2) For a reasonable degree of freedom in securing new personnel from other universities and from government and industrial research laboratories,

(3) A sum of approximately \$40,000 for the biennium to provide for the amended plan of vacations adopted by the Board of Trustees at its meeting on September 24th. This plan gives three weeks' vacation to employees in non-prevailing wage groups with ten years of service or more. The Boards of the other State-supported institutions of higher education have also approved these plans.

For these various reasons a substantial sum for salary and wage increases is essential for the coming biennium. As a basic fund for this purpose, a sum amounting to 10 per cent of the total salary and wage budget is proposed. The total thus required is \$6,000,000 for the biennium.

The cost-of-living index, as of August, 1952, has increased 3.5 per cent over that in effect when the appropriations for the current biennium were made (March, 1951). There is reason to believe that there may be further increases in the cost of living. It is understood that if the cost-of-living index exceeds the current level, additional funds will be requested. (This was the method employed in the 1951-53 budget.)

Also it is understood that if the State administration adopts a plan of salary increases more liberal than what is proposed here, consideration will be given to an upward adjustment in the University's scale so as to bring it into general harmony.

IV. To Meet Employer Contributions to the University Retirement System

In 1941 the General Assembly passed an Act establishing the University Retirement System of Illinois. It provides disability, death and retirement benefits for all permanent staff members and employees of the University and of other State institutions of higher education and the scientific surveys.

The University of Illinois' share of the cost of the System is regularly included in the appropriations to the University. It is computed on an actuarial basis. The amount of this item for the current biennium is \$1,976,432. Because of an increased scale of compensation and the larger number of persons on retirement, additional funds of \$303,868 for two years are required.

V. To Meet Anticipated Increase in Enrollment, Activate New Areas, and Provide For Growth and Development

A. Enrollment

As already indicated, it is necessary to provide for the increases in enrollment which have been predicted for 1953-55 on the Urbana-Champaign and Chicago Undergraduate Division campuses. This item will include funds to continue positions which have been added to the current budget, on a temporary basis, to meet the unexpected increase in enrollment during the current year.

The following enrollment data show the principal changes that have taken place:

| | 1947-48 Postwar Peak | 1950-51 | 1951-52 | 1952-53 as of October 4 |
|--------------------------------------|----------------------------|----------|----------|-------------------------------|
| Urbana-Champaign..... | 19 391 | 17 162 | 15 145 | 15 464 |
| Chicago Undergraduate Division..... | 4 547 | 3 461 | 3 363 | 3 800 |
| Galesburg Undergraduate Division.... | 1 683 | | | |
| Sub-total..... | (25 621) | (20 623) | (18 508) | (19 264) |
| Chicago Professional Colleges..... | 1 556 | 1 627 | 1 597 | 1 540 |
| Total Resident Enrollment..... | 27 177 | 22 250 | 20 105 | 20 804 |

These figures indicate that there was a downward trend at the beginning of the current biennium. This fact was anticipated in the appropriations for the current biennium, and an allowance for reductions was based on this expectation. Such reductions were made in 1951-52 to the extent of \$1,469,591 per year, and in 1952-53 to the extent of \$881,283 per year. (These reductions were more than offset by increases necessary at other points, viz., costs of supplies and equipment, and salary and wage increases. The net result was an increase in total appropriations.)

Instead of a small decrease in enrollment such as was anticipated in the budget reductions for 1951-53, there has been an increase in enrollment in 1952-53. For the biennium 1953-55, an enrollment at Urbana-Champaign and at the Chicago Undergraduate Divisions of 19,600 to 20,000 students is anticipated. By the beginning of the second year of the biennium, additional facilities will be available at the Chicago Professional Colleges. These facilities will increase the enrollments in Dentistry and Pharmacy. As soon as necessary remodeling can be done in vacated quarters in present buildings, the enrollment in the College of Medicine will also increase. Consequently, the budget for the 1953-55 biennium must make due allowance for these prospective enrollment figures.

B. New Areas

The East Dentistry-Medicine-Pharmacy Building, for which \$5,540,000 was appropriated by the Sixty-seventh General Assembly, is scheduled for occupancy in September, 1954. This will permit an annual increase of 50 new freshmen in Pharmacy, 10 new freshmen in Dentistry, and 50 new students in Nursing. In 1955, an annual increase of 24 new freshmen in Medicine can be made. Funds are requested for a minimum budget for only a part of the biennium in accordance with the circumstances noted earlier. The major appropriation for increased enrollment in the Professional Colleges will be deferred until the 1955-57 biennium. Larger entering classes will have a cumulative effect on budgets during this period. The sum of \$350,000 is requested for these purposes for the 1953-55 biennium.

C. Growth and Development

It is important that the University keep pace with the demands upon it in at least areas most heavily in demand by providing additional funds for growth and development. The Deans and Directors requested an annual increase of \$4,685,701 per year for these purposes, including funds for increased enrollment and the operation of new areas.

The costs of supplies and equipment for the day-to-day use of students in their laboratories continue to rise rapidly. In addition to price increases, all areas of teaching and research must turn to the newest methods of analysis and measurement, and to the latest monographs and other sources of scholarly effort. In agriculture alone, soil research, weed control, crop nutrition, food analysis, breeding methods and kindred problems require instrumentation far beyond the needs of a few years ago. The College of Agriculture is seriously in arrears in funds for these purposes. All other scientific departments are likewise in a constant state of hunger for larger expense and equipment budgets. The nonscientific departments face a parallel problem in library resources, and in funds for the publication of scholarly works.

All the programs recommended are meritorious. (See Schedule B for a complete listing and description of these projects.) Limited space and the high priority attached to other budget requests force a slower pace in the processes of normal growth. After careful review, the sum of \$2,143,820 per year has been allocated for the most essential developments.

The tentative allocation of funds for growth and development, compared with the original requests, is shown in Schedule A. Because of the material reduction in these requests, some of the items included in the lists can not be carried out and their presence in the list does not constitute a commitment to any specific item. Ultimate selection will be made on the basis of urgency when the 1953-54 internal operating budget is prepared.

VI. Auxiliary Enterprises and Revolving Activities

Income of auxiliary enterprises and revolving activities must be deposited in the State Treasury and appropriated for use by the University. An estimated higher level of activity requires an increase of \$175,000 a year in the appropriation for these purposes.

VII. Summary Comments

It can not be said too often that a great university wholly befits the great State of Illinois. Its youth deserve the best that can be secured for them because it is through these youth, as they filter into the cultural, economic, industrial, commercial and professional life of the State, that the people of the State can look forward with confidence to the future. A great university holds fast to the basic values of western civilization, and teaches these values to each new generation; but also, it stands alert on the forward edges of knowledge, always ready to prepare youth for the life of tomorrow in all major branches of learning. A task of this sort—it has been assigned to no other kind of social agency—requires the best teachers, the most imaginative research personnel and the finest equipment that can be secured.

The 1953-55 biennium will be crucial for the simple reason that the great gains made in recent years must be protected in terms of (a) the quality of the staff, (b) a sense of financial security in the hearts and minds of this staff, (c) an increase in enrollment which will materialize earlier than previously anticipated, and (d) a sustained high level in standards of living which threatens to leave the academic profession in an unfavored position.

Additional teaching staff of 51 in the Departments of English, Mathematics, Chemistry, Psychology, Sociology, Anthropology, Speech, Physiology, French, Spanish and Italian, and History. Major expansion of program leading to the doctorate in applied statistics, a new program of experimental social psychology, and the further development of a Children's Theater for the training of teachers of dramatics.

One nonacademic staff member in each of these areas, viz., Entomology, Mathematics, Physiology, and Museum of Natural History.

Agriculture. Original request: \$917,111.

Academic staff additions amounting to 51 for all departments, with special emphasis on basic revisions of the entire program in Agronomy. Also, further development of the artificial insemination research in Dairy Science, and added strength in food chemistry, cereal technology, nursery management, vegetable crops, home management, textiles, nutrition and parent education.

As an item of public policy, it may become necessary to provide funds for the complete program of Farm and Home Advisers in the amount of \$155,316 to replace amounts paid by local Farm and Home Bureaus. Illinois is one of the few states which does not pay the entire salary of extension staff from state and federal funds and which does not, therefore, exercise complete control over the operation.

Nonacademic staff of 10, principally in Dairy Science, but also in Agricultural Economics, Agronomy, Food Technology, Horticulture, and Home Economics.

Wages, expense and equipment increases of \$198,150 distributed among all departments.

¹ Increase of \$55,725 first year, \$9,800 second year, or \$121,250 for the biennium.

² Increase of \$69,800 requested for the second year of the biennium.

³ Increase of \$94,000 requested for the second year of the biennium.

⁴ There is also a reduction of \$200,000 a year as a result of not opening the Emergency Service, the 7th and 11th floors, applied against the funds previously reserved to put the Hospital addition on a recurring basis.

INSTITUTION FOR TUBERCULOSIS RESEARCH BIENNIAL OPERATING BUDGET 1953-1955

(23) In 1947, the General Assembly of Illinois established the Institution for Tuberculosis Research for the production, distribution, and application of the bacillus Calmette-Guerin (BCG) and other methods and materials for the prevention of tuberculosis and for conducting research in tuberculosis. The professional operation and management of the Institution are vested in a Board consisting of five medical directors, two appointed by the Municipal Sanitarium of Chicago, two appointed by the University, and one elected by the other four.

The Sixty-seventh General Assembly appropriated \$75,200 for the operation of the Institution during the biennium of 1951-1953. The activities of the Institution have steadily increased. More than two hundred institutions in forty states are being instructed in the research and service programs for the prevention of tuberculosis. These institutions are being supplied with BCG vaccine as well as instruments for vaccination.

The Directors of the Institution recommend a budget of \$84,200 for the biennium of 1953-1955. This represents essentially a 10 per cent increase.

The Vice-President in charge of the Chicago Professional Colleges recommends approval of this budget to the State Department of Finance.

I concur.

On motion of Mr. Johnston, this budget was approved by the following vote: Aye, Mr. Fornof, Mr. Herrick, Mr. Hickman, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Megran, Mr. Nickell; no, none; absent, Mr. Grange, Mr. Stevenson, Mrs. Watkins.

This budget has been incorporated in the biennial operating budget of the University for 1953-1955 and the financial schedules in that budget have been changed accordingly.

BIENNIAL BUDGET FOR DIVISION OF SERVICES FOR CRIPPLED CHILDREN

(24) I present herewith the recommendations of the Director of the Division of Services for Crippled Children for the biennial budget of the Division for the two years beginning July 1, 1953.

The present appropriation from the General Revenue Fund is \$3,534,800. An increase of \$641,500 is requested, making a total budget of \$4,176,300.

In addition to state appropriations the Division receives funds from the federal government which are deposited in the State Treasury and appropriated to the Division. These are estimated at \$790,500 for 1953-1955.

The attached memorandum prepared by the Director of the Division and concurred in by the Vice-President for the Chicago Professional Colleges explains the increases in the General Revenue (tax) Fund. A copy of this memorandum, including an analysis of the budget estimates, is being filed with the Secretary of the Board for record.

On motion of Mr. Johnston, this budget was approved by the following vote: Aye, Mr. Fornof, Mr. Herrick, Mr. Hickman, Mrs. Holt,

Mr. Johnston, Mr. Livingston, Mr. Megran, Mr. Nickell; no, none; absent, Mr. Grange, Mr. Stevenson, Mrs. Watkins.

BUILDING PROGRAM 1953-1955

Recommendations of the President Based on the Report of the Building Program Committee

(25) I am submitting herewith a proposed building program for state appropriations for the 1953-1955 biennium of \$19,890,500 for the Urbana-Champaign campus and \$1,985,000 for the Chicago Professional Colleges campus, a biennial total of \$21,875,500.

While this recommendation is based upon the report of the Building Program Committee and the advice of the University Council, it deviates from the report in one major respect. The Building Program Committee, which is one of the most devoted and distinguished committees of the faculty, after a thorough review of the needs of the University, recommended nineteen items for the Urbana-Champaign campus in the sum of \$30,054,000 and four items for the Chicago campus in the sum of \$4,925,000. This is an over-all total of \$34,979,000.

I agree with the Committee and the Council that such a building program is urgently needed and that the state would be well repaid for this capital outlay. However, in view of the paramount need to strengthen the biennial operating budget, I feel compelled to reduce the askings for buildings to a hard-core list in which every item is of immediate concern. With these new buildings we would relieve some of the worst stresses in the University; without them we would continue to operate below defensible housing standards.

The order of this listing is alphabetical and has no priority significance.

At the request of President Stoddard, Professor Huntington, Chairman of the Building Program Committee of the Faculty, reported on the work of this Committee and presented its recommendations.

The Secretary of the Board reported that there had been delivered to him copies of a letter, dated October 22, 1952, addressed to the Board of Trustees by an alumni "Committee for the New Band Building." This letter was distributed to the Trustees present at the meeting and a copy of this letter has been filed with the Secretary for record.

On motion of Mr. Fornof, the list of projects recommended by the President of the University was amended to include an item of \$700,000 for a band building.

On motion of Mr. Fornof, the following building program recommended by the President of the University, and as amended by the Board, was approved, and the President of the Board and the President of the University were authorized to present this budget to the Governor, the Illinois Budgetary Commission, and other state officials as representing the minimum needs of the University for funds for buildings and other permanent improvements for the biennium of 1953-1955. This motion was adopted by the following vote: Aye, Mr. Fornof, Mr. Herrick, Mr. Hickman, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Megran, Mr. Nickell; no, none; absent, Mr. Grange, Mr. Stevenson, Mrs. Watkins.

CONTRACT OF PATRICK WARREN CONSTRUCTION COMPANY

The President of the Board and the Legal Counsel reported that attorneys for the Patrick Warren Construction Company have asked that they be permitted to appear before the Board or a committee of the Board to present and discuss the claims of that Company with respect to additional costs it claims were incurred in the construction of the addition to the Research and Educational Hospitals and also for alleged delay in the construction of the building for which the company claims the University must accept responsibility. The Board has previously been advised (Meeting of July 16, 1952, Minutes page 3) of the controversy the University is having with the Patrick Warren Construction Company with respect to this contract.

President Livingston appointed the following special committee to consider these claims: Messrs. Herrick, Hickman, Johnston, Megran, and Livingston (Chairman).

APPOINTMENT OF PROFESSOR THOMAS J. DOLAN AS HEAD OF THE DEPARTMENT OF THEORETICAL AND APPLIED MECHANICS

(3) The Dean of the College of Engineering recommends the appointment of Thomas J. Dolan, Research Professor of Theoretical and Applied Mechanics, as Professor and Head of the Department of Theoretical and Applied Mechanics, on indefinite tenure beginning December 1, 1952, at a salary of \$12,000 an academic year.

I concur.

On motion of Mr. Herrick, this appointment was approved.

ACTING DEAN OF THE COLLEGE OF EDUCATION

(4) Pending the appointment of a new dean of the College of Education to replace Dean Willard B. Spalding, who will leave the service of the University at the end of the current calendar year, it is necessary to appoint an acting dean. The Policy Committee of the College of Education has requested that the acting dean be someone not on the faculty of the College.

Accordingly, I recommend the appointment of Dr. Robert G. Bone, Professor of History and Director of the Division of General Studies in the College of Liberal Arts and Sciences, as Acting Dean of the College of Education beginning December 20, 1952, and continuing until further notice but not later than September 1, 1953, at an additional salary at the rate of \$1,200 a year (on Y basis), the division of his time and duties between his present positions and that of the acting deanship to be subject to the approval of the Dean of the College of Liberal Arts and Sciences and the President of the University.

On motion of Mr. Johnston, this appointment was approved.

EXEMPTION OF STAFF MEMBERS FROM PAYMENT OF UNIVERSITY FEES

(5) Members of the academic and administrative staff of the University in any capacity, and members of the staffs of the state scientific surveys and other government agencies located on the Urbana-Champaign campus, may now register in University courses without payment of tuition, laboratory, library, and supply fees provided their annual salary is \$2,400 or less for a nine-month (or two semesters) appointment or \$2,934 or less for a twelve-month appointment. The same exemption applies to scholars and fellows in the Graduate College, and also to nonacademic employees under certain conditions.

The Faculty Committee on Fees and Scholarships has reviewed these exemptions in terms of existing salary scales and in terms of newly proposed minimum salaries. It is the Committee's judgment that University policy with respect to exemption of staff from fees should be administratively adaptable to changing salary conditions. Accordingly, the Committee recommends that existing regulations be rescinded and replaced by the following:

Persons on the academic, administrative, or permanent nonacademic staff of the University, or on the staffs of the allied surveys and laboratories located on the Urbana campus, may register in University courses for which they are eligible for admission, without payment of the tuition fee and the laboratory, library, and supply fee, provided that their annual salary for nine months is less than the minimum salary established for full-time assistants.

If such persons are on twelve-month appointment, the upper limit of this exemption will be increased by two-ninths of such minimum salary for assistants.

Permanent nonacademic employees without regard to salary may also register without payment of any fees or deposits in (a) any regular University course in which the employee is requested by his department, with the concurrence of the Director of Nonacademic Personnel, to enroll for the improvement of the employee's present work; (b) any special course looking toward improving University service organized at the request of the Director of Nonacademic Personnel in cooperation with the teaching staff, the employee, and his department.

This exemption shall apply to graduate scholars and fellows whose stipends are paid from general appropriations of the University, but not to fellows whose stipends are paid from grants received by the University from outside sponsors of graduate study and research. (Many donors of funds for such purposes favor this practice and make their grants large enough to cover payment of all University fees.)

These regulations shall become effective September 1, 1953.

I concur.

On motion of Mrs. Watkins, these regulations were adopted as recommended.

RELEASE OF PATENTABLE DISCOVERIES

(6) Professor H. N. Hayward of the Department of Electrical Engineering reports the development of instruments for the measurement of cathodic protection currents. The Department has advised that while these are important instruments for scientific purposes they would have very slight, if any, commercial application.

The University Research Board recommends that this discovery be released to the inventor and I concur.

On motion of Mrs. Holt, this recommendation was approved.

FOREIGN PATENTS ON DISCOVERIES RESULTING FROM GOVERNMENT RESEARCH

(7) At the request of the Office of Naval Research, the Board of Trustees has authorized the execution of research contracts with that agency granting foreign patent rights to any discoveries or inventions resulting from such research. Subsequently other agencies of the United States government have asked that similar provisions be included in their contracts for research at the University of Illinois.

The University Research Board recommends approval and I concur.

On motion of Mrs. Watkins, this recommendation was approved.

SPECIAL APPROPRIATIONS FOR NONRECURRING EXPENDITURES

(8) The Committee on Nonrecurring Appropriations recommends assignments of funds as follows:

Urbana-Champaign Campus

| | |
|---|----------|
| 1. Department of Entomology, remodeling and equipment in Harker Hall.. | \$ 5 000 |
| 2. College of Fine and Applied Arts, improvements for the Department of Art..... | 6 303 |
| 3. School of Physical Education, equipment for the new laboratory for the study of psychological problems in athletics (this has been authorized by the President of the University)..... | 1 200 |

Chicago Professional Colleges

| | |
|--|----------|
| 4. Department of Radiology, purchase of equipment..... | 4 725 |
| 5. Animal Hospital, remodeling and equipment..... | 18 800 |
| 6. Aeromedical and Physical Environment Laboratory, construction of an experimental cold room..... | 33 000 |
| 7. Department of Physiology, purchase of equipment..... | 2 100 |
| 8. Library, purchase of card catalog cases..... | 750 |
| 9. Department of Pharmacology, improvement of lighting..... | 1 000 |
| Total..... | \$72 878 |

I recommend that these appropriations be made from the General Reserve Fund.

On motion of Mr. Nickell, these appropriations were made by the following vote: Aye, Mr. Grange, Mr. Herrick, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Megran, Mr. Nickell, Mrs. Watkins; no, none; absent, Mr. Fornof, Mr. Hickman, Mr. Stevenson.

REASSIGNMENT OF RESEARCH AND EDUCATIONAL HOSPITALS FUNDS

(9) The budget for 1952-1953 includes \$4,114,837 for the operation of the Research and Educational Hospitals. This is an increase of \$1,209,466 over the corresponding allowance for 1951-1952 to provide in part for the operation of the new addition to the hospitals. Because of delays in construction, the additional facilities can not be used earlier than March 1, 1953, so that a substantial portion of the funds in the current year's budget for operation of the hospitals will not be required for that purpose.

A study has been made of the needs of the Chicago Professional Colleges for which available funds can be appropriately and effectively applied during the current biennium. The following have been selected from a much longer list:

| | |
|---|-----------|
| Payment on Medical Center Steam Plant..... | \$400 000 |
| Dental equipment..... | 100 000 |
| Machine shed for Drug Plant..... | 20 000 |
| Steam service to 824 South Wolcott (apartment building leased to tenants) | 6 000 |
| Parking lot construction and lighting at 834 South Wolcott..... | 14 000 |
| New back porch, 816 South Ashland (residence property leased to students)..... | 1 500 |
| Steam service to 829-33 South Marshfield (apartment building)..... | 6 500 |
| Furnishings, 829-33 South Marshfield (leased to tenants)..... | 17 500 |
| Remodeling, 829-33 South Marshfield (for conversion into a residence for nurses)..... | 20 000 |
| Parking area and lighting, Marshfield Avenue properties..... | 35 000 |
| Housing Facilities Revenue Bonds..... | 175 000 |
| Chicago Illini Union Revenue Bonds..... | 43 000 |
| Total..... | \$838 500 |

The Vice-President in charge of the Chicago Professional Colleges requests the budget be amended by reassignment of funds for purposes listed above. The Provost and the Comptroller endorse this recommendation.

I recommend that these reassignments be made with authorization to adjust the various items within the total of \$838,500.

On motion of Mrs. Watkins, this reassignment of funds was approved by the following vote: Aye, Mr. Grange, Mr. Herrick, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Megran, Mr. Nickell, Mrs. Watkins; no, none; absent, Mr. Fornof, Mr. Hickman, Mr. Stevenson.

SALE OF RESIDENCE PROPERTIES

(10) Because of the postwar shortage of rental housing in Champaign-Urbana, the University purchased a number of residence properties and constructed others for rental to staff members. It was contemplated that the properties would eventually be sold and the Board of Trustees approved a policy for the sale of these properties to staff members desiring to purchase them. Pursuant to this policy several houses have been sold to the occupants. In all sales heretofore the purchase prices have equaled or exceeded the University's investment in the property.

The University now has offers for the purchase of two more properties:

Professor Lyle H. Lanier, Head of the Department of Psychology, leases the property at 709 West Michigan Avenue, Urbana. It was purchased by the University in August, 1948, for \$22,500 and, subsequently, \$104.11 was expended on improvements. Professor Lanier is interested in purchasing this property at a price of \$22,500 with closing adjustments for insurance, rent, and other incidental items to be made as of November 1, 1952. The University has secured three independent appraisals of this property, two of them being \$22,500 and one \$22,000.

Major C. M. Russell, Assistant Professor of Military Science and Tactics, leases the prefabricated house at 305 Hessel Boulevard, Champaign, constructed in 1948 at a cost of \$14,213. Three independent appraisals of this property have been \$13,000, \$12,750, and \$12,500. Major Russell is interested in purchasing this property at a price of \$12,750.

The Director of the Physical Plant and the Comptroller recommend that (a) the policy governing the sale of residence properties be modified to provide that sales may be made on the basis of independent appraisals even though the appraisals may be less than the cost to the University, in each case the sale to be subject to prior approval by the Board of Trustees; (b) the sale of the properties to Professor Lanier and Major Russell at the prices offered be authorized.

I concur in these recommendations and recommend further that the Comptroller and the Secretary of the Board be authorized to execute, acknowledge, and deliver warranty deeds and such other documents in connection therewith as may be necessary in order to effectuate the transfer of titles to the properties at 709 West Michigan Avenue, Urbana, and 305 Hessel Boulevard, Champaign.

On motion of Mr. Grange, these recommendations were approved by the following vote: Aye, Mr. Grange, Mr. Herrick, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Megran, Mr. Nickell, Mrs. Watkins; no, none; absent, Mr. Fornof, Mr. Hickman, Mr. Stevenson.

EASEMENT TO MEDICAL CENTER STEAM COMPANY

(11) The Director of the Physical Plant and the Comptroller recommend that the Board of Trustees grant an easement to the Medical Center Steam Company to permit the installation and use of steam and return piping on the University property at Polk and Wood Streets and at Polk Street near Marshfield Avenue in Chicago, the easement to continue only until such time as the University shall acquire title to and ownership of the property and facilities of the Medical Center Steam Company.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute the documents necessary to grant to the Medical Center Steam Company such an easement across the following described University lands:

Lot Twenty-four (24) in Sturges and Others Re-Subdivision of Block Nine (9) in Assessor's Division of the East Half (E½) of the Southeast Quarter (SE¼) of Section Eighteen (18), Township Thirty-nine (39) North, Range Fourteen (14) East of the Third Principal Meridian; and

That part of Lots One (1), Two (2) and Three (3), lying West of the Alley opened by Ordinance of the City of Chicago, passed September 22, 1873, in

Superior Court Partition of Block Six (6) in Assessor's Division aforesaid; and all of the vacated alley, Sixteen (16) feet wide lying Easterly of and adjacent to the above described Lot One (1);

All situated in the City of Chicago, County of Cook and State of Illinois.

On motion of Mrs. Watkins, this easement was granted.

LEGAL AND ENGINEERING SERVICES FOR TELEVISION APPLICATION

(12) The Director of University Broadcasting recommends the retention of the law firm of Landis, Taylor, and Scoll, New York, to represent the University before the Federal Communications Commission in matters pertaining to television and retention of the engineering firm of Jansky and Bailey, Washington, D.C., to prepare the engineering phases of the television application to the Federal Communications Commission. This arrangement will involve no retainer fees but payment to the firms on the basis of services performed at their customary schedule of fees.

I concur and recommend the approval of this arrangement until further notice.

On motion of Mr. Johnston, the employment of these two firms was authorized, provided that the actual payments for services rendered shall also be subject to approval by the Board of Trustees.

CONTRACT FOR AEROMEDICAL AND PHYSICAL ENVIRONMENT LABORATORY COLD ROOM

(13) The Director of the Aeromedical and Physical Environment Laboratory, the Director of the Physical Plant, and the Comptroller recommend award of a contract for \$25,800 to the Haskris Company, Chicago, the lowest bidder, for the construction of a cold room at the Chicago Professional Colleges.

The work will consist of furnishing materials and equipment and the construction of a cold room designed for biochemical research, with refrigeration machinery and controls, in the Aeromedical and Physical Environment Laboratory Building. A separate recommendation for an appropriation of \$33,000 to cover all costs of this project is being submitted separately.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute this contract.

On motion of Mrs. Watkins, this contract was authorized.

CHANGE IN CONTRACT FOR WATER RECLAMATION INSTALLATIONS

(14) The Director of the Physical Plant and the Comptroller recommend an increase of \$4,103 in the contract with Westerlin and Campbell Company, Peoria, for the refrigeration work in the installation of water reclamation equipment in the Horticulture Field Laboratory to include a water softener.

The bid of this company did not include a water softener but it submitted an alternate quotation. The water softener offered under the alternate quotation did not meet specifications and, therefore, was not included in the contract. A revised estimate has been secured on the installation of an acceptable water softener. Only one other bidder in the original list of contractors on this installation proposed as an alternate an acceptable water softener, but at a higher figure than is now quoted. Funds are available in the state appropriation for this work.

I concur and recommend that the Comptroller be authorized to execute this change in the contract.

On motion of Mrs. Holt, this increase in the contract was authorized.

(15) The Director of Purchases has proposed and the Comptroller recommends the following purchases. Unless otherwise specified, the purchase in each case is recommended on the basis of lowest bid.

PRESIDENT'S REPORTS ON KREBIOZEN AND THE MEDICAL SITUATION

Report of November 14, 1952, on the Status of Krebiozen

My report on Krebiozen embodying the recommendations of the Research Validation Committee (the Cole Committee), together with further proposals of the President of the University, was approved by the Board of Trustees on September 24, 1952.

It will be recalled that my recommendations were as follows:

- "(1) That in essence the recommendations of the Cole Committee be carried out.
- "(2) That Dr. Ivy be requested to secure from the owners or originators of Krebiozen all data, descriptions and formulations necessary to ascertain the chemical nature of Krebiozen and to undertake its biological preparation; that throughout such work there be no infringement of the technical, legal or financial rights of the originators.
- "(3) That, pending the completion of these chemical and biological studies, there be no further clinical uses or determinations of Krebiozen on the part of staff members of the University of Illinois except to continue the treatment of patients already using Krebiozen if the attending physicians so recommend.
- "(4) That in carrying out these plans the University make the necessary appropriations for work in its own laboratories and/or on a contractual basis with outside laboratories or firms.
- "(5) That the President of the University designate a Committee of Supervision consisting of three distinguished staff members of the University of Illinois whose academic and professional work especially fits them for such an assignment. (The three staff members listed by the President accepted a place on the Committee and have served accordingly. They are: Professor Robert E. Johnson, *Chairman*, Head of the Department of Physiology and Acting Dean of the Graduate College; Professor Harry F. Dowling, Head of the Department of Medicine and former head of the Department of Preventive Medicine; Professor Richard J. Winzler, Head of the Department of Biological Chemistry.)

"If for any reason the originators of Krebiozen can not or will not cooperate effectively in carrying out this plan, I shall ask that there be no allowance of time, funds, space, equipment, patients or printing in behalf of any staff member of the University of Illinois for the clinical utilization of Krebiozen, and that every effort be made to dissociate Krebiozen from research or service programs. This action would be consistent with the major recommendations of the Cole Committee in which I have full confidence; it would, I believe, merit the support of all medical men familiar with these events."

Following the approval of this report, the action in Paragraph No. (3) above became effective, and there has not been any "further clinical uses or determinations of Krebiozen on the part of staff members of the University of Illinois."

Inclosed with my report is the official report of the Committee of Supervision dated November 12, 1952. (Attachment I is not inclosed inasmuch as it involves some material that was marked "personal.") The gist of the Johnson Report is that it has received from the originators of Krebiozen no materials with which to work and no useful description of the method of production of Krebiozen. The Committee, therefore, submits its final report and asks to be discharged. I am acting accordingly as of this date.

The effect of this research impasse is twofold:

- A. That the action of Paragraph No. (3) of my report of September 24th now becomes permanent—there are to be no further clinical uses or determinations of Krebiozen on the part of staff members of the University of Illinois at any time.

- B. That there is to be no allowance of time, funds, space, equipment, patients or printing in behalf of any staff member of the University of Illinois for the clinical utilization of Krebiozen and that Krebiozen henceforth is to be dissociated from research or service programs.

I am informing Dr. Ivy of these prohibitions.

In the light of the various reports, letters, and conferences regarding Krebiozen, I should like to make a few final remarks.

The evidence of the Cole Committee is decisive with respect to the therapeutic value of Krebiozen; it has none. It is equally clear that the originators of Krebiozen have not permitted the University to have access to the drug for the purposes of chemical or biological analyses. This, then, is the end of the road for Krebiozen insofar as any staff member of the University of Illinois is concerned.

From the scientific standpoint, the course of events surrounding Krebiozen can only be described as fantastic. The originators of the drug still speak of their need for "protection," as if the drug possessed value. Actually all the University of Illinois sought to do, following the report of the Cole Committee, was to solve the mystery of a preparation already discredited in medical practice.

It must be admitted that the Krebiozen affair has been damaging to the scientific reputation of the University of Illinois. It is to be hoped that the present divorcement will have restorative value.

The significance of this final act of noncompliance on the part of the originators of Krebiozen, coupled with the negative clinical findings of the Cole Committee, should not be lost; it would appear that we really might have found nothing in the ampoules and, therefore, could not be allowed to look for it. It is my considered opinion that, except possibly as a common, harmless, inexpensive ingredient, *Krebiozen does not exist*.

NOVEMBER 12, 1952

President George D. Stoddard
355 Administration (West)
University of Illinois

DEAR PRESIDENT STODDARD:

On November 9, 1952, your committee to supervise a study of the chemical and biological properties of the preparation called "krebiozen" held a meeting in Urbana. In attendance were Dr. Harry F. Dowling, Dr. Richard J. Winzler and Dr. Robert E. Johnson (Chairman). We deliberated on the instructions which you had transmitted to the chairman, on the correspondence which had been exchanged between Dr. Ivy and the chairman, and on the future activities of the committee.

We were in mutual agreement on the nature of our duties and on the scientific necessity for us to have:

- (1) an adequate supply of the preparation to be studied;
- (2) an adequate supply of the vehicle in which it was suspended; and
- (3) complete and detailed information on the mode or modes of preparation used by the originators.

A supply of the original material was needed so that it could be tested directly. A supply of the vehicle was needed for adequate scientific control. Complete information on the mode or modes of preparation was needed in order to arrange, if necessary, for the preparation of a supply of material of known history, and to set up a program of testing the material so obtained.

Following your initial instructions of October 3, 1952, the chairman tried, through Dr. Ivy, to obtain full and complete technical information, together with a supply of the material, so that the committee could commence its study. A chronological account of events and copies of all pertinent correspondence will be found in Attachment I. In particular, it should be noted that a final deadline of November 7, 1952, had been set for receipt by the chairman of full information. A letter to this effect was sent to Dr. Ivy on October 23, 1952; this represented an extension, as requested by him, of two weeks beyond the original deadline of

October 21, 1952. Letters transmitted by Dr. Ivy and received by the chairman on November 11, 1952, stated that the originators of the preparation are unwilling to furnish materials and will not provide full technical information for the use of the committee within a reasonable time.

Inasmuch as no technical information and no material have been received by the chairman, the committee is unable to proceed further. The only technical information available to us is contained in the report of Dr. Cole's committee, and this information is entirely inadequate for purposes of scientific study.

In view of all the circumstances related above, we consider that further deliberations on our part would be fruitless. Having tried without success to carry out your instructions, we conclude that there is no prospect that we can succeed in dispelling the mystery that surrounds the chemical and biological nature of "krebiozen." Therefore, we request formally that the committee be discharged, and that the present document be considered our final report to you.

Respectfully submitted,

Report of November 28, 1952, on the Medical Situation

This report is a follow-up of my Report on the Status of Krebiozen, dated November 14th. It is in two parts:

I. A general discussion of the Krebiozen research project.

II. Recommendation for action.

I. A General Discussion of the Krebiozen Research Project

In spite of arguments to the contrary, it is hard to remove Krebiozen from the category, *secret drug*. Krebiozen has never been produced in the United States; it has not been subjected to standard chemical or biological assay. It was produced (and subsequently dissolved in oil) by the Duga Institute of Argentina—a business venture of the two Durovics. The barring of research on this drug is, therefore, no act on the part of University authorities; on the contrary, we had offered our resources and, through future contract, the aid of an independent pharmaceutical concern in order to undertake such research. The Durovics blocked this program through evasive pronouncements; there was not a speck of the powder available; the formula might be stolen; their creditors would not permit it; they would analyze it themselves (through Duga) some time.

It was this sudden black-out on the nature of the drug, coupled with the unanimous negative conclusions of the Cole Committee with respect to any effect on cancer, that led me to suspect that Krebiozen might be a Durovic myth. The Cole Committee had laid out the exact requirements for further work on Krebiozen, and the first step was "to dispel the mystery which surrounds the nature of the material." Elsewhere in the report the Cole Committee mentioned several materials that have cancerocidal effects, but it did not find even these palliative, non-curative effects in the Ivy case histories.

As for "biological activity," numerous ingredients in solution, injected into living tissue, will produce it. There would have been no reverberation in the medical or academic world, and no interest on the part of cancer patients, if Dr. Ivy and his collaborators had simply announced in March, 1951, that they were studying a drug that induced biological activity.

On the whole, the University of Illinois had been generous in aid to research on this drug. The inclusion of University Tumor Clinic cases, the release of Dr. Ivy for two months for full-time work on Krebiozen, the work of the Cole Com-

mittee, the projected work of the Johnson Committee — these steps, together with minor appropriations, indicate that, in an atmosphere of doubt on the part of medical authorities, the University has tried to give Krebiozen a fair test.

But these simply are not the methods acceptable to the Durovics. Legitimate research, especially in medicine, calls for precise chemical and biological studies, for extensive work on animals, for sustained work in the University's own laboratories and clinics, for prior publication in technical journals, for criticism and for the encouragement of like technical studies elsewhere. This is the meaning of academic freedom in research. One by one these necessary safeguards of the kind of research undertaken by universities were allowed to crumble. The end result was a vulnerable sequence of events that I could not continue to defend as research within the true meaning of that term. I could not, in good conscience, assign further University time or resources to it.

Nevertheless, it is always in order to raise the question of academic freedom. In twenty-five years of experience in general research supervision I had not stopped anybody from working on anything. But like every administrator, I have had to say, even for some defense proposals, that we do not have the money, staff, or facilities to support them. There will always be priorities. Thus recently, for the first time, we have given research on handicapped children extensive University support. When a program is within the exceedingly wide orbit of University interest, we try to assist it in every way.

What a professor does in his spare time is of no interest to the administration, provided it does not severely reduce his effectiveness in the University. External consultative work should not become the major preoccupation of any full-time staff member.

.

In the evaluation of Krebiozen we are faced with two kinds of evidence that should not be confused — the one medical and the other administrative and general. It would be untenable for laymen to attempt clinical analyses and conclusions. What is good or bad about a treatment must be determined by medical men. Accordingly, I have relied exclusively upon medical opinion — very distinguished medical opinion — in reporting the findings of the Cole Committee. It will be recalled that this Committee consisted of the following persons:

Warren H. Cole, M.D., *Chairman*

Head, Department of Surgery

University of Illinois

N. C. Gilbert, M.D.

Professor *Emeritus* of Medicine

Northwestern University

Fred Hodges, M.D.

Professor and Chairman of the Department of Roentgenology

University of Michigan Medical School

Robert W. Keeton, M.D.

Professor *Emeritus* of Medicine

University of Illinois

Paul Steiner, M.D., Ph.D.

Professor of Pathology

University of Chicago

Owen H. Wangenstein, M.D., Ph.D., LL.D.

Surgeon in Chief, University Hospital

University of Minnesota

It is their conclusions, not mine, that are important. As I have said, their first recommendation was "to dispel the mystery" and in default of this step to give no further consideration to the problem. It was the physicians themselves who recommended that otherwise no University support be given to the project.

The Johnson Committee independently came to similar conclusions (Professor Robert E. Johnson, M.D., D.Phil., *Chairman*, Head of the Department of Physiology on the Urbana Campus of the University and Acting Dean of the Graduate College; Professor Harry F. Dowling, M.D., Head of the Department of Medi-

cine; and Professor Richard J. Winzler, Ph.D., Head of the Department of Biological Chemistry).

Through Dr. Ivy, Dr. Johnson asked for, and did not receive:

1. An adequate supply of the preparation to be studied;
2. An adequate supply of the vehicle in which it was suspended; and
3. Complete and detailed information on the mode of preparation used by the originators.

Having received no technical information and no material from the Durovics, the Committee could not proceed with its work and requested that it be discharged.

Hence, the chief Krebiozen records available are the clinical studies that formed the basis of the Cole Committee appraisal. They consist of Dr. Ivy's confidential and copyrighted medical case histories. They were not released by the Cole Committee. They were given by Dr. Ivy to the Durovics and the Durovics, without his consent, released them to the press. (I regard this as a further example of the irresponsibility of the Durovics.) These case histories have been spread around and anyone who feels competent may pass judgment upon them. I shall not do so; that was the assignment given to the Cole Committee. Its conclusions were summarized in my report to the Board on September 24, 1952.

.

With respect to the general impact of the events surrounding Krebiozen, the medical men concerned should be heard.

I cite the action of the large Executive Committee of the College of Medicine, which includes all the Heads of Departments together with representatives of the General Faculty in the College of Medicine:

November 14, 1952 (before my report of the same date was released) —

"The Executive Committee of the Faculty of the College of Medicine regrets the conduct and presentation of the research on Krebiozen and the continued interest of the Vice-President in its possible anticancer effect in the face of competent scientific findings (including those of our Tumor Clinic) to the contrary.

"The Committee further regrets the loss of prestige which the office of the Vice-President has incurred with the medical profession and is distressed by the confusion engendered in the minds of the faculty and students relative to research and teaching standards of the College of Medicine."

The resolution above was adopted by a vote of 14 to 6. Five of the 6 persons voting negatively stated that they favored the substance of the motion but not the idea of transmitting it to the President of the University. At a meeting of the General Faculty on November 19th, the resolutions above were sustained by a vote of 91 to 51.

On November 19th the Executive Committee of the College of Medicine transmitted to the President of the University the following resolution based upon the President's report of November 14th to the Board of Trustees:

"The Executive Committee of the College of Medicine of the University of Illinois commends the President of the University for his stand on the Krebiozen problem."

This resolution was passed by a vote of 22 to 3. It was sustained in the General Faculty meeting referred to above by a vote of 75 to 68.

It can be said that these actions were taken with full regard to their seriousness. It had been apparent for months that there was a deterioration of morale in the medical faculty and an increasing insistence that steps be taken to restore confidence. The decision of the President of the University, supported by the Board of Trustees, to pursue the Krebiozen research beyond the Cole report was strongly opposed by many members of the Executive Committee. This, I knew. However, I felt that definitive chemical and biological studies would be of value, either as a means of closing out the research or as a step toward further clinical work. At that point Dr. Ivy was agreeable to the plan. I believe he did all he could to try to put it into effect. None of us had counted upon the resistance of the Durovics.

Having followed the Krebiozen question for twenty months, I am prepared

to make definite recommendations. I feel that there has been impairment of the University's research standing and that it is reflected in a loss of confidence in the administrative set-up of the Chicago Professional Colleges. The problem does not bear upon the integrity of the Vice-President, which at no time has been a point at issue. I share the view of all Dr. Ivy's friends that his motivation has been of the highest. Rather these troubles are a joint product of the habit of the Durovics to promise more than can be delivered and of the need of hopeless dying persons to reach out for anything at all. There is indeed a humane debt owed to persons in pain, who may include our own loved ones, but the debt can only be paid the hard way. To this hard way of rigorous research and testing the University of Illinois will continue to devote its best efforts.

II. Recommendation for Action

This proposal is related to the analysis presented in Part I of this report. It emphasizes the problems now confronting us. It looks to the future.

It is recommended:

1. That the position of Vice-President of the University in Charge of the Chicago Professional Colleges be abolished as of December 1, 1952. (This position was established by action of the Board of Trustees on June 27, 1946, to take effect September 1, 1946, with the concurrence of President Willard and President-elect Stoddard.)

2. That the Dean of the College of Medicine be designated also the Executive Dean of the Chicago Professional Colleges (this was the plan for three years prior to September 1, 1946) and that there be established the position of Associate Dean of the College of Medicine.

3. That for the period from December 1, 1952, to September 1, 1953, unless an Executive Dean is appointed earlier, the Professional Colleges be administered by an Administrative Committee consisting of the Dean of the College of Pharmacy, Chairman, the Acting Dean of the College of Medicine, the Dean of the College of Dentistry.

4. That a special Nominating Committee of nine be appointed by the President of the University to advise him on the selection of a person to fill the combined posts of Dean of the College of Medicine and Executive Dean of the Chicago Professional Colleges, this Committee to consist of

- a. Five members to be selected by the Executive Committee of the College of Medicine with one such member to be designated as Chairman.

- b. The Dean of Pharmacy and the Dean of Dentistry.

- c. Two members to be selected from the faculties of the Chicago Professional Colleges by the President of the University.

5. That Dr. Ivy be asked to serve as Distinguished Professor of Physiology and Head of the Department of Clinical Science on a full-time basis or, if he prefers, on a part-time basis in order to accommodate extensive consultative work. In either event there would be no interest on the part of the University in the work done outside.

On motion of Mrs. Watkins, this report and recommendation and the recommendation for the appointment of an Acting Dean of the College of Medicine were referred to the Committee on the Chicago Departments. This action was taken by record vote as follows: Aye, Mr. Grange, Mr. Herrick, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Megran, Mr. Nickell, Mrs. Watkins; no, none; absent, Mr. Fornof, Mr. Hickman, Mr. Stevenson.

SITE OF LIFE SCIENCES BUILDING

Mr. Johnston stated that he had been approached by members of the Board of Trustees of the Wesley Foundation at Urbana, Illinois, concerning land which the University needs to acquire as a site for the proposed Life Sciences Building.

On motion of Mr. Johnston, this matter was referred to the Committee on Buildings and Grounds.

MEETING OF THE EXECUTIVE COMMITTEE

NOVEMBER 28, 1952

A meeting of the Executive Committee of the Board of Trustees of the University of Illinois was held in the LaSalle Hotel, Chicago, Illinois, on Friday, November 28, 1952, beginning at 12:30 p.m.

Mr. Park Livingston, Chairman, Mr. Herbert B. Megran and Mrs. Frances B. Watkins, members of the Executive Committee, were present; also present was Mr. A. J. Janata, Secretary of the Board, who acted as Clerk.

The Executive Committee considered the following recommendation from the President of the University.

**RELEASES OF PATENTABLE DISCOVERIES TO
GOVERNMENT AGENCIES**

Contracts with the United States government and its agencies covering research work being done by the University contain provisions giving the government the option on rights to patentable discoveries resulting from such research. If the agency of the government concerned does not choose to exercise this option the University is free to seek a patent or make other disposition of the secondary rights.

Most of this research is confidential and any patentable discovery which might result would be classified security information. A member of the staff of the Control Systems Laboratory has reported two potentially patentable discoveries which are in this category. The Laboratory staff advises that neither of the two has commercial value. The University Research Board recommends, and I concur, that these disclosures, designated as CSL Case No. 1 and CSL Case No. 2, be released to the Chicago Ordnance District, Department of the Army, the sponsoring agency.

I further recommend that the President of the University be authorized to act for the Board on proposals to release to the agencies of the United States government patentable discoveries resulting from research *under classified research contracts which contain provisions giving the government first claim to such discoveries.*

On motion of Mr. Megran, this recommendation was approved.

**SECRETARY'S REPORT ON CANCELLATION OF SALE
OF UNIVERSITY PROPERTY**

The Board of Trustees on September 24, 1952, authorized the sale of Lot 96 at 1108 South Third Street in the College Place Addition to the City of Champaign. The Comptroller reports that subsequently the prospective purchaser informed the University that he was unable to finance the purchase and was obliged to withdraw the offer.

This report was received for record. The Secretary stated that a notation would be included in the minutes of the meeting of September 24, 1952, indicating cancellation of the sale.

On motion of Mrs. Watkins, the Committee adjourned.

FRANCES B. WATKINS, *Chairman*

Committee on the Chicago Departments

On motion of Mrs. Watkins, these recommendations were approved.

BUSINESS PRESENTED BY THE PRESIDENT OF THE UNIVERSITY

The Board considered the following reports and recommendations from the President of the University.

**CHANGE IN REQUIREMENT FOR DEGREE OF MASTER OF SCIENCE
IN PHYSICAL EDUCATION**

(1) The University Senate recommends a slight change in the requirements for the degree of Master of Science in Physical Education. The present requirement includes four units of credit in physical education courses. The change proposed is four units of credit in physical education or related courses in health education and recreation. The purpose is to permit students to continue to take courses formerly labeled physical education but now designated as health education or recreation.

I concur.

On motion of Mr. Grange, this recommendation was approved.

HONORS IN PHYSICAL EDUCATION

(2) The University Senate recommends that honors in the School of Physical Education be awarded according to the following plan:

¹ See recommendation of the President of the University, November 28, 1952, minutes pages 477-78; Secretary's note.

To be eligible for honors at graduation, students must have completed a minimum of four semesters of work or sixty-five hours of credit in residence at the school and be recommended by vote of the faculty.

For the degree with Honors, students must have an average of 4.0 in all courses used for graduation; for the degree with High Honors, an average of 4.25; and for the degree with Highest Honors, an average of 4.5.

I concur.

On motion of Mr. Herrick, this recommendation was approved.

RESOLUTION ON DR. A. C. IVY

At this point, Mr. Nickell offered a resolution on Dr. A. C. Ivy, Vice-President of the University in charge of the Chicago Professional Colleges, and moved its adoption. Mr. Fornof seconded this motion.

Mr. Hickman moved, as a substitute motion, that the resolution be referred to the Committee on the Chicago Departments. Following discussion, this motion was passed by the following vote:¹ Aye, Mr. Grange, Mr. Herrick, Mr. Hickman, Mrs. Holt, Mr. Johnston, Mr. Megran; no, Mr. Fornof, Mr. Livingston, Mr. Nickell; not voting, Mrs. Watkins; absent, Mr. Stevenson.

Several members of the Sixty-seventh General Assembly of Illinois having appeared at the meeting, Senator Roland V. Libonati and Representative Charles J. Jenkins requested and were given permission to make statements with respect to the resolution on Dr. Ivy and to the action of the Board referring the resolution to a committee. Representative Vito Marzullo asked if Dr. Ivy had a statement to make. Dr. Ivy replied that he would have a statement at the close of the meeting.

APPROPRIATION FOR GRADUATE FELLOWSHIPS FOR 1953-1954

(3) It is necessary that the funds the University has available for graduate fellowships for 1953-1954 be committed at this time so that fellowship awards can be made and announced by April 1, 1953. Accordingly, on request of the Acting Dean of the Graduate College, I recommend that:

(a) An appropriation of \$150,000 be made for the academic year 1953-1954.

(b) The stipend for first-year fellows be increased from \$800 to \$900, for second-year fellows from \$900 to \$1,000, and for third-year fellows from \$1,000 to \$1,100.

(c) Appointment to a fellowship shall include exemption from the payment of tuition fees for the academic year of the fellowship and the summer session immediately following.

On motion of Mrs. Holt, these recommendations were approved and the appropriation was made by the following vote: Aye, Mr. Fornof, Mr. Grange, Mr. Herrick, Mr. Hickman, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Megran, Mr. Nickell, Mrs. Watkins; no, none; absent, Mr. Stevenson.

EASEMENT OVER TRELEASE WOODS

(4) The Illinois Power Company requests a right-of-way easement for a new power line across the southern portion of the Trelease Woods. One two-pole supporting structure would be erected on University property for which the Illinois Power Company will pay the University \$101. An agreement has been negotiated which is acceptable to both parties.

The Director of the Physical Plant and the Comptroller recommend that an easement over the following described property be granted and that the Comptroller and the Secretary of the Board be authorized to execute the necessary documents:

¹ See subsequent action on this resolution, page 499; Secretary's note.

The West two (2) rods of the Southeast quarter of the Southwest quarter and the South Half of the Southwest quarter of the Southwest quarter except one (1) acre in the Southwest corner thereof, all in Section 1, Township 19, North, Range 9 East of the Third Principal Meridian in the County of Champaign and State of Illinois.

I recommend approval with the understanding that the easement include adequate provision to protect the University in the event of damage to its property or for any public liability.

On motion of Mr. Nickell, this matter was referred to the Executive Committee with power to act.

(5) The Director of the Physical Plant and the Comptroller recommend award of contracts for remodeling in Illini Hall for safety and other improvements to the following lowest bidders:

The work to be covered by these contracts is as follows:

CONTRACT FOR ELECTRICAL WORK ON WATER RECLAMATION INSTALLATIONS IN REFRIGERATION EQUIPMENT IN DAIRY MANUFACTURES BUILDING AND SKATING RINK

(6) The Board of Trustees on July 16, 1952, authorized contracts for water reclamation installations in the refrigeration equipment in the Dairy Manufactures Building, the Horticulture Field Laboratory, and the Skating Rink. Contracts totaling \$5,792 for the electrical work on the Dairy Manufactures Building and Skating Rink installations were awarded to the Brunkow Electric Company, Champaign, the lowest bidder. The Company was promptly notified of this award and in due time received a formal contract. On September 25, without any prior notice of such intent, the University learned that the Company would not proceed

with the work and that it would not accept the contracts offered. New bids have been taken and the Director of the Physical Plant and the Comptroller now recommend that a contract for this work be awarded to the Square Deal Electric Company, Urbana, the present lowest bidder, at a price of \$7,059.

Funds are available in the state appropriation for 1951-1953 for this project and have already been released by the Governor.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute this contract.

In the meantime, the deposit of \$173 submitted by the Brunkow Electric Company with its bids is being retained. With the concurrence of the President of the Board, the Committee on Buildings and Grounds has been asked to study the University's policy and practice governing awards of contracts in the light of this experience and to make recommendations to the Board.

On motion of Mr. Fornof, this contract was awarded.

GIFT OF ARCHIE F. WILSON OF FLOSSMOOR

(7) Mr. Archie F. Wilson of Flossmoor, Illinois, wishes to give the University a valuable collection of about six thousand specimens of wood and a library collection in relation to it which will eventually constitute a portion of the herbarium of the Department of Botany. He desires to keep and use both the collection and library in his home during his lifetime. Mr. Wilson has given the collection to the University now but will retain it in his home during his lifetime.

I have accepted this offer and report it for record. The Comptroller and the Secretary of the Board have executed an agreement between Mr. Wilson and the Board of Trustees relative to the custody and use of the wood collection and library. Mr. Wilson has executed a Deed of Gift which is now in possession of the University.

On motion of Mr. Johnston, the action of the President of the University was confirmed.

GIFT OF PAINTING FROM MR. AND MRS. MERLE J. TREES

(8) Mr. and Mrs. Merle J. Trees of Chicago offer the University, through the University of Illinois Foundation, a painting by Ruisdael, "Wooded Landscape with Water," as their 1952 contribution to the "Emily Nichols Trees (Class of 1905) and Merle Jay Trees (Class of 1907) Collection" of paintings at the University of Illinois. The appraisal of this painting made by the Art Institute of Chicago is \$11,000.

I recommend acceptance of this gift.

On motion of Mr. Grange, this painting was accepted by the Board, with appreciation.

BEQUEST OF JENNIE C. LEE

(9) On February 11, 1939, it was reported to the Board of Trustees that the University is a residuary legatee in the estate of Jennie C. Lee, of Salt Lake City, Utah. The will provided that a sister had a life interest in certain trust property and that on her death a part of such property was to be paid to the University for use as a student loan fund.

The life tenant has now died and the estate is in process of final settlement. All the liquid assets of the estate have been converted into cash by the Trustee. However, there remains a small tract of land located in Salt Lake County, various mining claims and other miscellaneous assets which the Trustee advises have little or no value. The Trustee advises that \$50 constitutes a very good price for the University's two-thirds interest in the land. The trust company also will attempt to dispose of the mining claims and other miscellaneous assets to a family which has some interest in these claims for an estimated \$500.

The Legal Counsel and the Comptroller have studied this matter and recommend that these assets be converted into cash and that the following resolution be adopted:

Resolution

WHEREAS, the Board of Trustees of the University of Illinois, a corporation, has acquired an interest in the following assets under the terms of the Last Will

and Testament of Jennie C. Lee, Deceased, which Will was admitted to probate on the 25th day of January 1939 by an order of the District Court of Salt Lake County, State of Utah:

- (a) Lots 1, 2 and 3, Block 2, Williamsburg Subdivision, according to the official plat thereof on file in the office of the County Recorder of Salt Lake County, Utah
- (b) Various mining claims of a value estimated to be not in excess of \$500
- (c) Miscellaneous stocks and other securities which it is estimated have no value and

WHEREAS, it is the decision of said Board of Trustees that these assets should be sold and converted into cash, at this time.

Now, Therefore, Be It Resolved, that the Comptroller and the Secretary of the Board be, and they hereby are, authorized and directed, to execute, acknowledge, and deliver, in the name of and in behalf of this Corporation, and under its corporate seal, a quit claim deed conveying the above-described real property and to execute and deliver any and all instruments and to take such other action that said Comptroller and Secretary may deem to be necessary or desirable in order to effectuate the sale or sales of any and all of the above-described assets.

On motion of Mr. Nickell, this resolution was adopted.

MEETING OF THE EXECUTIVE COMMITTEE

DECEMBER 22, 1952

A meeting of the Executive Committee of the Board of Trustees of the University of Illinois was held in a conference room of the First National Bank of Chicago, Illinois, 38 South Dearborn Street, on Monday, December 22, beginning at 2:00 p.m.

Mr. Park Livingston, Mr. Herbert B. Megran, and Mrs. Frances B. Watkins, members of the Executive Committee, were present. Also present were President George D. Stoddard, Mr. Ralph F. Lesemann, Legal Counsel, and Mr. A. J. Janata, Secretary of the Board, who acted as Clerk.

ESTATE OF GEORGE A. MILLER

At the request of President Stoddard, Mr. Lesemann reported that a suit pending in the United States District Court at Danville, Illinois, by one Ralph E. Schellhamer, a nephew of the late Professor George A. Miller, against the latter's estate, and the University, in which Mr. Schellhamer claims a fourth of the estate by virtue of an alleged agreement between the two, is set for trial on January 12, 1953. Mr. Lesemann stated that there is a possibility of settling the alleged claim of the plaintiff for a sum of money which will not exceed, and very likely will be considerably less than, the estimated costs of the litigation should the case go to trial.

Before agreeing to a settlement upon such a basis the Executor of the Estate needs the authorization of the University since it is the sole beneficiary under Professor Miller's will.

On motion of Mr. Megran, seconded by Mrs. Watkins, the Executive Committee voted to authorize the Executor to pay the sum of \$4,000 from funds of said estate to Ralph E. Schellhamer in settlement of his claim and suit, and authorized the Comptroller and Secretary of the Board to execute and deliver to the Executor a receipt for partial distribution to the University in that amount upon said sum being so paid to Ralph E. Schellhamer by the Executor.

On motion of Mrs. Watkins, the Executive Committee adjourned.

COUNTY SCHOLARSHIPS

(3) An Act of the General Assembly of Illinois passed in 1905 provides that there shall be awarded annually in each county of the state one scholarship which shall entitle the holder thereof to exemption from payment of tuition, matriculation, or incidental fees for a period of four years. The awards are based upon the results of an examination given on the first Saturday of June of each year by the county superintendents of schools according to rules prescribed by the University, and the candidate found to possess the highest qualifications in each county is entitled to receive a scholarship. No student who has had any training in advance of completion of a four-year high school course is eligible to take the examination. No student may receive a County Scholarship who does not pass the examination with an average of at least 70 per cent. If no return is made from a county or no applicant from a county achieves a grade of at least 70 per cent in the examination,

the University may assign the scholarship for that county to the candidate in another county who ranked second in the competitive examination given in his county, provided he has a grade of at least 70 per cent.

The law establishing County Scholarships does not prohibit the Board of Trustees of the University of Illinois from granting other scholarships, which authority it also has under other legislation.

Under the original County Scholarship law, the county of Cook, which has one-half of the population of the state, receives only one scholarship annually, the same as the smallest county. In partial adjustment for this inequity, the Board of Trustees several years ago established sixteen scholarships, later increasing the number to sixty-six, in addition to the one scholarship authorized by law, to be awarded to high school graduates in Cook County who ranked second through sixty-seventh in the competitive examination held in that county.

To implement the County Scholarship law the Board of Trustees has established regulations, among them being the following:

7. In case a candidate who stands highest in the examination in his county shall fail to satisfy the requirements of the University for admission to the freshman class, or shall fail to enter the University regularly in September thereafter, he shall forfeit his claim to a scholarship, and the vacancy may be filled as provided in Section 30-8 of the statute.

The suggestion has been made that consideration be given to changes in the regulations governing awards of these County Scholarships so that winners in the competitive examination may defer enrolling in the University until the beginning of the second semester of the academic year next following the examination. This has particular reference to Cook County since many of the high schools in that county graduate students in February. Elsewhere in the state there are high schools which graduate students in February but the number of such graduates is relatively small.

Accordingly, it is recommended that the Board of Trustees establish additional scholarships for February graduates who take the regular county scholarship examinations in the preceding June and who either (a) rank first in any county outside of Cook County, or (b) rank among the top sixty-seven in Cook County. These candidates would be exempt from Rule 7, quoted above, but would be subject to all other regulations applying to County Scholarships and also to these provisions applying to the additional Cook County Scholarships established by the Board of Trustees:

Such scholarship will be available to the holder for four years but may be suspended if the holder is placed on probation or cancelled if he is dropped from the University.

The scholarship will exempt the holder from the payment of the tuition fee, as charged in the colleges and schools admitting students directly from high school.

On motion of Mrs. Holt, this recommendation was approved.

ADMISSIONS TO THE COLLEGE OF MEDICINE

(4) The Sixty-seventh General Assembly of Illinois adopted the following Senate Joint Resolution No. 25:

WHEREAS, the College of Medicine of the University of Illinois occupies a position of unquestioned preeminence in its category, and its facilities are consequently in great demand; and

WHEREAS, too many of the doctors graduated from this institution are devoting their talents to the needs of our urban population, while many rural sections suffer from an acute shortage of medical practitioners; and

WHEREAS, it is desirable that some method be devised to rectify this situation; therefore be it

Resolved, By the Senate of the Sixty-seventh General Assembly of the State of Illinois, the House of Representatives concurring herein, That the Board of Trustees of the University of Illinois be requested to amend the rules governing the College of Medicine in order to provide for the annual admittance of at least twenty students who will agree to practice in the rural areas of this State. In order to assist the Board in formulating the exact terms of such agreement, it is

recommended that they consult with an advisory committee consisting of the Director of Public Health, the Director of Agriculture, the Dean of the College of Medicine, the Vice-President in charge of the College of Medicine, and a fifth member to be selected by the other members of the committee; and, be it further

Resolved, that a copy of this preamble and resolution be forwarded to the President of the Board of Trustees of the University of Illinois.

The Committee constituted by this resolution consisted of Dr. Roland Cross, Director of the State Department of Public Health, Chairman; Mr. Roy E. Yung, Director of the State Department of Agriculture; Dr. Stanley W. Olson, Dean of the College of Medicine; Dr. A. C. Ivy, Vice-President of the University in charge of the Chicago Professional Colleges; and Mr. Albert W. Webb, Ewing, Illinois.

The Committee met formally for the first time on June 26, 1952, in Springfield. Following considerable correspondence a second meeting was held in Springfield on November 26, 1952, jointly with the Committees on Rural Medical Care of the Illinois Agricultural Association and the Illinois State Medical Society. After discussion of old and current facts pertaining to the problem, it became clear that the Committees of the Illinois State Medical Society and of the Illinois Agricultural Association would recommend to their respective groups that their program to encourage young men and women from rural areas to study medicine, and after completion of their training to practice in rural communities, would be continued. That being the case, it was the judgment of the Committee that action by the Board of Trustees is unnecessary at this time since the present program of the Illinois State Medical Society and the Illinois Agricultural Association is meeting minimum demands and since the currently increased production of physicians will in a few years serve to meet the reasonable needs of rural areas. The Committee has submitted a report to the Board of Trustees which follows below.

I concur in the Committee's conclusion and recommendation:

"... that, since the Illinois Agricultural Association and the Illinois Medical Society will, according to present plans, continue the joint program now in operation, and that since the number of applicants now applying under that program is less than ten each year, there appears to be no immediate reason why the number should be increased to twenty. The Committee recommends that the number remain fixed at ten until such time as that number is inadequate."

On motion of Mr. Hickman, this recommendation was approved.

Mr. Herrick asked that the way be left open to permit an increase in the number of students to be admitted under this program if changing conditions justify it. President Stoddard stated that he would ask the Chairman of the Administrative Committee of the Chicago Professional Colleges to keep in touch with the situation and to accept more than ten students if the number of eligible candidates increases.

Report of Committee on Physicians for Rural Areas

There are two basic solutions to the problem of getting more physicians to locate in rural areas.

One is to produce more physicians and the other is to render rural practice more attractive by making it possible for a physician to practice better medicine in rural areas. The University is working and cooperating so as to bring both solutions to bear on the problem.

The University in the fall of 1954 will be able to increase the size of its entering class from 166 to 190 and in the fall of 1956 to 200. The University asked the legislature for money to do this in 1947, but the money was not appropriated until 1951 and then not adequately. Other medical schools are also being enlarged, so that the entering class in all medical schools increased from approximately 6,000 in 1946 to 7,100 in 1952.

Regarding the second problem, the University is working to improve hospital care in Hill-Burton hospitals and to establish close relationships with many hos-

pitals throughout the state in order to increase the interne and residency programs in those hospitals. This extension work is slowly progressing.

It is believed that any solution other than the two mentioned is of the nature of a temporary expedient, or a stop-gap or a pump-priming procedure. We believe certain temporary expedients are of value until such time as the long-range solution can become effective.

The Joint Program of the Illinois Agricultural Association, the Illinois Medical Society, and the University of Illinois

The problem of supplying rural communities more adequately with physicians has been acutely recognized, especially since the close of World War II, by the University, the Illinois Medical Society, and the Illinois Agricultural Association.

In addition to other activities to improve rural medical care, the Illinois Medical Society and the Illinois Agricultural Association in 1948 established a loan fund to provide a maximum of \$1,000 per year for five years for rural Illinois students accepted by an approved medical school provided they were recommended by the local county medical society and county farm bureau, agreed to return to the county and practice there for five years after graduation, and then to pay back the amount of the loan at an interest of 2 per cent. The loan in each case was to be secured by an insurance policy for \$5,000. If the student who accepted the loan did not return to the community selected, then he was to repay the loan at an interest of 7 per cent. The University of Illinois agreed to accept each year up to ten such recommended students, provided they met the minimum admission standards of the College of Medicine; that is, these applicants do not have to meet the severe premedical scholastic competition of other applicants.

In this way, applicants from rural areas have been encouraged by a loan and by a lower scholastic achievement requirement to return to rural areas to practice.

Another Factor Which Is Operating to Admit More Students for Rural Areas

As is well known, for a number of years the total number of admissions to the first-year class in the College of Medicine has been equally divided on the basis of population between Cook County and non-Cook County resident applicants. As a result about one-third of the graduates locate in Cook County and one-third locate in Illinois outside of Cook County. The remaining third move from Illinois to practice in other states.

Because of the influence of economic factors, the students from rural areas in Illinois do not make as high grades in their premedical work. For this reason, a number of otherwise desirable applicants from rural areas are not successful in the scholastic competition to gain admission to the College of Medicine.

However, it should be added that the severity of the scholastic competition at all medical schools, including that of the University of Illinois, is diminishing because of a decrease in the number of applications for admission to medical schools. For example, in the year 1949 there were approximately 26,000 applicants for approximately 6,500 places, and in 1952, 18,000 applicants for 7,100 places. This means that the post-war surplus of persons desiring to study medicine is decreased. In the case of the entering class of 1951, only 12 per cent of the "downstate" and none of the Cook County admissions had a grade-point average of less than 4.0. In the case of the entering class of 1952, 36 per cent of the "downstate" and 2 per cent of the Cook County admissions had a grade-point average of less than 4.0. So, the requirement of a very high grade-point average will not be as important as it has been in the past few years. It should be kept in mind that medicine is a difficult discipline, that a learning ability such as is indicated by a grade-point average of 3.5 is required to learn medicine or to remain in medical college, and that this grade-point average is a requirement of the Board of Trustees of the University of Illinois.

The Results of the Joint Program

A review of the results of the joint program, and especially of other activities of the Committees of the Illinois Agricultural Association and the Illinois Medical Society, shows that the communities in the state of Illinois which were in urgent need for a physician in 1948 have been satisfied. Furthermore, the review indicates that the joint program plus the increase in the production of physicians should meet the needs of all communities.

At the present time, the joint program calls for the admission of ten students who agree to practice in a rural community. The Joint Resolution No. 25 recommends that this number be increased to twenty. This increase is not required under present conditions because the largest annual number of applicants recommended for admission to the College of Medicine under the joint program has been nine. Applicants qualified by scholarship achievement appear to hesitate, except in a few cases, to make, as a condition of making a loan or of being admitted to medical school, a contract which would fix their place of practice after the completion of their medical training.

Conclusion and Recommendation

The Committee, therefore, concludes that, since the Illinois Agricultural Association and the Illinois Medical Society will, according to present plans, continue the joint program now in operation, and that since the number of applicants now applying under that program is less than ten each year, there appears to be no immediate reason why the number should be increased to twenty. The Committee recommends that the number remain fixed at ten until such time as that number is inadequate.

PAYMENT FOR LEGAL AND ENGINEERING SERVICES REQUIRED FOR TELEVISION APPLICATION

(5) The Board of Trustees has authorized employment of the law firm of Landis, Taylor, and Scoll, New York City, and the engineering firm of Jansky and Bailey, Washington, D.C., for the legal and engineering services required in connection with the University's television application to the Federal Communications Commission.

Payments of bills for services are also subject to approval by the Board. The firm of Jansky and Bailey has presented a bill of \$489.84 for services to date requiring several days of work. I recommend that this payment be authorized.

It is estimated that the total cost of engineering services needed in preparing the application will be approximately \$1,700. Once a television station license is received, additional engineering services will be required to get the station on the air properly and to prove to the Commission that the station meets all stipulated engineering standards. It is estimated that such additional engineering services will be \$4,500.

The estimated total legal cost is approximately \$1,000.

On motion of Mr. Grange, this payment was authorized.

RESPIRATOR CENTER AT CHICAGO PROFESSIONAL COLLEGES

(6) The University has been asked by the National Foundation for Infantile Paralysis to establish at the Chicago Professional Colleges a respirator center for poliomyelitis patients who need treatment in such a center.

As a result of conferences between representatives of the University, the National Foundation for Infantile Paralysis, and the Chicago Chapter of the National Foundation for Infantile Paralysis, it has been proposed that an agreement be entered into between the Board of Trustees of the University of Illinois and the National Foundation for Infantile Paralysis to establish a respirator center in one of the pediatrics wards in the addition to the Research and Educational Hospitals now under construction. The tentative provisions of such an agreement would be:

- a. The Foundation will pay the University \$47,902 a year for salaries of additional personnel needed to operate such a center.
- b. The Foundation will pay the University for certain structural alterations needed for the center. The estimated cost of such changes is \$12,500.
- c. The Foundation will provide \$13,500 for the purchase and maintenance of the special equipment required.
- d. The University will operate the center and will accept up to a maximum of twenty patients at any one time. A committee made up of staff members of the Research and Educational Hospitals and the College of Medicine will formulate a policy to govern admission of patients.
- e. The Foundation will pay the University a per diem rate for each patient

housed, such rate to be based upon the cost per patient day in the Research and Educational Hospitals. (The present cost is \$20.86 a day.) This rate will be revised from time to time to provide full reimbursement to the University for the expenses of operation other than the salaries of the personnel for which separate provisions will be made as indicated above.

- f. The agreement will be for five years and may be terminated at the end of any year of this period by either party upon ninety days' written notice to the other.

The Respirator Center would also be used in the resident training program of the Department of Pediatrics, in teaching junior and senior medical students as a part of their training in pediatrics, for postgraduate work, and for periodic short courses or conferences.

Approval of this project has been recommended by all University officials concerned. I recommend approval in principle and that the Comptroller be authorized to work out the necessary agreement and that he and the Secretary of the Board be authorized to execute such agreement with the National Foundation for Infantile Paralysis after it has been approved by the University's Legal Counsel.

On motion of Mrs. Holt, this recommendation was approved and authority was given as requested.

RELEASES OF PATENTABLE DISCOVERIES

(7) The University Patent Committee submits the following reports and recommendations relating to patentable discoveries:

- a. G. H. Fett, Professor of Electrical Engineering, has developed a high-speed counting device to measure very small time intervals. The invention is the direct result of research for the United States Air Force. In the opinion of Professor Fett and his colleagues the device has little commercial possibility and a patent thereon would not be of any benefit to the University. Accordingly, the Department of Electrical Engineering and the University Patent Committee recommend that all rights to the invention be released to the United States Air Force.

- b. An instrument described as a photoelectric nystagmograph, a device for recording involuntary oscillation of the eyeballs, has been developed in the Department of Otolaryngology and the Aeromedical and Physical Environment Laboratory at the College of Medicine. Doctors Nicholas Torok, Clinical Instructor in Otolaryngology, and Victor Guillemin, Jr., Professor of Biophysics in the Department of Physiology, participated in this development along with Dr. Jeno Barnothy, Professor of Physics at Barat College, Lake Forest. In the opinion of the Head of the Department of Otolaryngology and other University officials, the instrument has little or no commercial value and the University would not be justified in spending funds in securing the patent. The University Patent Committee recommends that the invention be released to the inventors.

I concur in the recommendations of the Committee.

On motion of Mr. Megran, these recommendations were approved.

SPECIAL APPROPRIATIONS FOR NONRECURRING EXPENDITURES

(8) The Committee on Nonrecurring Appropriations recommends assignments of funds as follows:

| | |
|--|----------|
| 1. Department of Aeronautical Engineering, remodeling of Aeronautical Laboratory B..... | \$ 6 500 |
| 2. Department of Art, remodeling and equipment to improve teaching facilities..... | 3 430 |
| 3. Department of Botany, remodeling of greenhouses..... | 44 500 |
| 4. Department of Food Technology, remodeling in the Dairy Manufactures Building..... | 15 800 |
| 5. Department of Mechanical Engineering, remodeling in the Mechanical Engineering Laboratory..... | 15 750 |
| 6. College of Commerce and Business Administration, remodeling and equipment for the Secretarial Training Program..... | 9 585 |

7. School of Social Work, remodeling..... 3 145
I recommend that these appropriations be made from the General Reserve Fund.

I have also authorized the following assignments:

8. Office of Nonacademic Personnel, Chicago Professional Colleges, advertising for nonacademic personnel..... 3 650
9. Library, Chicago Undergraduate Division, purchase of books..... 5 000
Total.....\$107 360

On motion of Mr. Johnston, these appropriations were made by the following vote: Aye, Mr. Fornof, Mr. Grange, Mr. Herrick, Mr. Hickman, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Megran, Mrs. Watkins; no, none; absent, Mr. Nickell, Mr. Stratton.

REASSIGNMENT OF RESEARCH AND EDUCATIONAL HOSPITALS FUNDS

(9) The Board of Trustees had previously approved the reassignment of \$838,500 of funds in the budget for the Research and Educational Hospitals, since not all of the funds so budgeted will be needed this year for hospital operations. Funds reassigned are to meet other needs of the Chicago Professional Colleges. It is apparent that more of the funds for the Research and Educational Hospitals can now be released for other purposes and for other uses at the Chicago Professional Colleges. The Administrative Committee of the Professional Colleges recommends, with the concurrence of the Provost and the Comptroller, additional reassignments as follows:

| | |
|--|----------|
| Architectural services for remodeling second unit of Dentistry-Medicine-Pharmacy Building..... | \$50 000 |
| Physical Plant equipment required for the operation of the new addition to the Research and Educational Hospitals..... | 12 500 |
| Development of a recreational area for psychiatric patients..... | 3 500 |
| Construction of sidewalk on the east side of the East Dentistry-Medicine-Pharmacy Building..... | 10 000 |
| Total..... | \$76 000 |

I recommend that the budget be amended by the reassignments listed above and that the Comptroller be authorized to make the necessary adjustments.

On motion of Mrs. Watkins, this reassignment of funds was approved by the following vote: Aye, Mr. Fornof, Mr. Grange, Mr. Herrick, Mr. Hickman, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Megran, Mrs. Watkins; no, none; absent, Mr. Nickell, Mr. Stratton.

CHANGES IN CONTRACTS FOR MEN'S RESIDENCE HALLS ADDITION NUMBER ONE

(10) The first addition to the Men's Residence Halls was an attempt to incorporate the successful features of the former temporary housing operations in the Gymnasium Annex in a permanent fireproof building which would provide low-cost housing in a barracks type of dormitory. The building was so planned and constructed that partitions can be added to divide the dormitory areas into double and single rooms.

While one semester's operation is too short a period to evaluate the long-term desirability of such housing, there has been enough experience with it to indicate that some partitioning is desirable to provide better facilities for study and for sleeping. After consultation with the head residents, counselors, and student occupants, the Dean of Students, the Director of Housing, the Director of the Physical Plant, and the Comptroller recommend the following improvements:

- Construction of partitions to form a corridor through the center of each floor, excluding the ground floor;
- Construction of a small lounge on each floor;

- c. Construction of a counselor's room to provide a place for private conferences and counseling;
- d. Division of each study hall into two small study halls;
- e. Installation of draperies and asphalt tile in the lounges, counselors' rooms, and study rooms (this will improve acoustics as well as appearance);
- f. Installation of door-closing devices on all study room doors.

The cost of these improvements is estimated at \$50,000. Funds are available in the net income from the operation of family quarters in the temporary housing facilities which may be used for these improvements. The first of the improvements listed would be made in the summer of 1953 when the residence halls are vacant. The others can be completed between the first and second semesters and during the first three weeks of the second semester, with the exception of the painting.

The Director of the Physical Plant and the Comptroller recommend an addition of \$6,473 in the contract with the Felmley-Dickerson Company for the general work on this building to cover the construction of partitions, installation of asphalt tile, and subdivision of the present study rooms.

I recommend that this entire program be approved, that funds be assigned for it from the net income of operations of housing facilities, and that the Comptroller be authorized to execute the change in the contract with the Felmley-Dickerson Company.

On motion of Mr. Fornof, this increase in the contract was authorized, and an assignment of \$50,000 was made from the net income of the operation of family quarters in the temporary housing facilities for the improvements recommended. This action was taken by the following vote: Aye, Mr. Fornof, Mr. Grange, Mr. Herrick, Mr. Hickman, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Megran, Mrs. Watkins; no, none; absent, Mr. Nickell, Mr. Stratton.

ADDITION TO CONTRACT FOR CONSTRUCTION OF STAFF APARTMENT BUILDING FOR THE CHICAGO PROFESSIONAL COLLEGES

(11) The Director of the Physical Plant and the Comptroller recommend an increase of \$5,538.31 in the contract with the James McHugh Construction Company, Chicago, for general work on the staff apartment building for the Chicago Professional Colleges. Ground conditions encountered make it necessary to provide additional lengths of concrete piling to support the building. This contingency was anticipated and the contract provides that if piling in addition to that specified is found necessary the contract would be increased. The Physical Plant Department and the architects have checked and approved the contractor's estimate of the additional cost.

Funds are available in the fund for the construction of housing projects for the Chicago Professional Colleges.

I concur and recommend that the Comptroller be authorized to execute this change in the contract.

On motion of Mr. Hickman, this increase in the contract was authorized.

CONTRACTS FOR LABORATORY ELEMENTARY SCHOOL FOR COLLEGE OF EDUCATION

(12) The College of Education needs a laboratory elementary school to provide illustrations of good teaching practices, to provide for University student participation in the educational activities of an elementary school, and to strengthen research in the field of elementary education. It is recommended that seven of the buildings on the Parade Ground used for student housing be converted into classrooms, offices, and other facilities for an elementary school. All classrooms will be connected by covered walks. The estimated cost of this project, including equipment, is \$119,000. Funds are available in the state appropriation "For remodeling, modernization, and improvement of existing buildings at Urbana-

Champaign, including water reclamation installations, plans and specifications and fixed equipment installed relating thereto," subject to release by the Governor.

The Director of the Physical Plant and the Comptroller recommend award of contracts for this remodeling to the following lowest bidders:

General — E. N. DeAtley, Champaign.....\$61 700
 Electrical — Potter Electric Service, Urbana..... 5 478
 Plumbing — Reliable Plumbing and Heating Company, Champaign..... 12 985
 Heating — Schroeder's, Champaign..... 12 500

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute these contracts.

On motion of Mr. Hickman, these contracts were authorized.

CONTRACTS FOR BOTANY ANNEX GREENHOUSE IMPROVEMENTS

(13) The Director of the Physical Plant and the Comptroller recommend award of contracts for remodeling and other improvements in the Botany Annex Greenhouse to the following lowest bidders:

General — Kuhne-Simmons Company, Champaign.....\$13 086
 Electrical — Bean Electric and Hardware, Urbana..... 3 665
 Plumbing — Reliable Plumbing and Heating Company, Champaign..... 4 595
 Heating and Temperature Control Work — Reliable Plumbing and Heating Company, Champaign..... 6 295

An appropriation for these improvements is being recommended to the Board separately.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute these contracts.

On motion of Mrs. Holt, these contracts were authorized.

CONTRACT FOR REFRIGERATION INSTALLATION IN DAIRY MANUFACTURES BUILDING

(14) The Director of the Physical Plant and the Comptroller recommend award of a contract for \$6,095 to the Westerlin and Campbell Company, Peoria, the lowest bidder, for refrigeration installations in the Dairy Manufactures Building. This is a part of the improvements in the cheese room for which an appropriation is being recommended separately.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute this contract.

On motion of Mr. Grange, this contract was authorized.

DEFAULT OF BDN STEEL ERECTING COMPANY

(17) At its September 29, 1950, meeting the Board of Trustees approved a purchase contract with the BDN Steel Erecting Company of Chicago, which had submitted the lower of two bids, for dismantling a 550-foot steel tower with FM antenna and dual coaxial cable and lighting system at Richfield, Wisconsin, transporting the same to Robert Allerton Park, and painting and erecting it there. The contract price was \$12,600 and a performance bond, with the American Casualty Company of Reading, Pennsylvania, as surety thereon, was furnished by BDN Steel Erecting Company.

Since then BDN Steel Erecting Company has dismantled the tower and said equipment, has transported the same to Robert Allerton Park, and has partially painted and partially erected the tower. It has not completed the work, however, and has done no work under the contract for several weeks. The University now has a letter from BDN Steel Erecting Company stating that, because of financial difficulties, it is unable to proceed with the work and to fulfill its obligations under the contract.

In order that appropriate action may be taken to protect the University's interests and to enable the University to complete the work through employing some other contractor to do it if the surety on the bond refuses to take over and complete the work, as it has indicated it will probably do, the Comptroller and the Legal Counsel recommend the adoption by the Board of the following resolution.

I concur.

Resolution

It Is Hereby Resolved by the Board of Trustees of the University of Illinois that the BDN Steel Erecting Company, in view of its failure to continue to perform and complete its obligations to this Board of Trustees under the contract between them bearing date of September 16, 1950, as modified by a supplemental letter agreement dated July 29, 1952, for, among other things, the painting and erecting of a 550-foot steel tower with antenna and other equipment at Robert Allerton Park, Illinois, and its inability to proceed with that work, be, and the same is hereby, declared to be in default under said contract.

It Is Further Hereby Resolved that the Comptroller and the Legal Counsel be, and they are hereby, authorized to notify said BDN Steel Erecting Company and the surety upon the performance bond given by it in connection with said contract, that it is, and has been declared to be, in default thereunder and that the Comptroller and the Legal Counsel be, and they are hereby, authorized to take any and all steps as may be necessary or desirable to secure the completion of the work contemplated by said contract, and to preserve, protect, and enforce the University's rights under said contract and said performance bond against said BDN Steel Erecting Company and the surety upon said bond.

On motion of Mr. Megran, this resolution was adopted by the following vote: Aye, Mr. Fornof, Mr. Grange, Mr. Herrick, Mr. Hickman, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Megran, Mrs. Watkins; no, none; absent, Mr. Nickell, Mr. Stratton.

REPORT OF FINANCE COMMITTEE ON EMPLOYMENT OF UNIVERSITY AUDITORS

Mr. Fornof, for the Finance Committee, presented the following report:

The Finance Committee recommends that the firm of Haskins and Sells, Certified Public Accountants, Chicago, be engaged as auditors for the year ending June 30, 1953, their services to be charged at per diem rates and expenses, with the understanding that the aggregate charges will not exceed the following:

| | |
|--|----------|
| University of Illinois (including all divisions)..... | \$12 000 |
| University of Illinois Foundation (including its Retirement System)..... | 600 |
| University of Illinois Athletic Association (including its Retirement System)..... | 750 |

These maximum costs are based on the assumption that if the auditors go beyond the scope of the usual examination on request of the Finance Committee or the Board, further compensation for such additional work will be allowed by the Finance Committee.

On motion of Mr. Fornof, this recommendation was approved.

REPORT OF THE COMMITTEE ON GENERAL POLICY ON THE BIENNIAL BUDGET FOR 1953-1955

Mr. Johnston presented the following report:

As requested by the Board of Trustees at its meeting on December 22, 1952, the Committee on General Policy has reviewed the biennial budget estimates for 1953-1955.

A thorough restudy of the budget was made in a conference on January 10, 1953, with the President of the University and other officers responsible for making up the budget. Participating were forty members of the University Council and other faculty representatives. The Council includes the deans of the colleges, the directors of the schools and institutes, elected representatives of the University Senate (the general faculty), and general administrative officers. These officers prepare the budgets of their respective administrative divisions, and the faculty representatives have official responsibilities in matters of educational policy. The Council is advisory to the President on annual and biennial budgets before they are submitted to the Board of Trustees. Thus your Committee consulted with all sources of information needed for a review of the budgetary recommendations. Your Committee was impressed with the painstaking work done by departmental and college officers and faculty committees on the budget as well as by the President, the Provost, and the Comptroller.

Notwithstanding the lengthy consideration the Board itself gave to the budget before approving it on October 24, 1952, your Committee made a systematic study of the biennial budget beginning with the original estimates of the various divisions in order to get an understanding of basic requirements in terms of the services to be rendered.

This report of your Committee follows the general classifications of the items of increase in the summary of the budget as approved by the Board on October 24, 1952, as printed in the minutes of that meeting on pages 440-452.

Increases Requested for Operations

I. To place the Research and Educational Hospitals Addition

operating appropriation on a biennial basis.....\$940 000

In appropriating funds for the construction of the hospital addition, the General Assembly of Illinois was aware that additional operating funds would be required, so that this is a prior commitment. The estimate of \$940,000 is the minimum additional sum required to operate the new building with the exception of three floors; the occupation of these floors will be deferred until their use can be connected with the operation of adjacent areas in the present hospital building after remodeling and modernization.

Any reduction in this item would definitely curtail use of the new addition. It would be contrary to long-time planning to fail to provide for the operation of these essential hospital and clinical facilities.

II. To offset reduction in tuition income resulting from decrease in number of veterans and in basis of veterans' tuition.....\$3 850 000

This adjustment is needed principally to offset a loss of income from the Veterans Administration which for several years has been relieving the state of substantial appropriations from tax revenues.

Under the original "G I Bill," the Veterans Administration has been reimbursing the University for the cost of educating veterans of World War II on a so-called "cost of instruction" basis. The rate per student has been in excess of the resident tuition fee of \$80 per year and is even more than the nonresident tuition fee of \$300 per year. In estimating income from students' fees, the Business Office took into account estimated payments by the Veterans Administration. The income from this source was much more than the tuition fee income would have been from the same number of non-veteran students. Since 1946 the tax revenues of the state have been relieved to the extent of the payments received from the Veterans Administration. While the enrollment is again increasing, the number of veterans has decreased; this has resulted in a great reduction in receipts from the Veterans Administration.

The new "G I Bill" provides that benefits will be paid by the Veterans Administration directly to the student. He is not obliged to use any of this money to pay tuition if he can secure a tuition free scholarship. Any resident of Illinois may, on application and proof of military service, secure a scholarship

exempting him from payment of tuition fees. Instead of collecting about \$350 per year per veteran as in the present (1951-1953) biennium, the University will not now collect any tuition from veterans who apply for military scholarships. (Obviously it is to their financial advantage to do so.)

The University's present budget (for 1951-1953) includes not only payments due from the Veterans Administration for veterans' education during the current biennium but also amounts due for the preceding biennium (1949-1951) but not received until after July 1, 1951. While these funds were not available to the University prior to 1951-1953, their use now has nevertheless relieved the state of the expenditure in 1951-1953 of an equivalent amount from its own tax revenues.

Paradoxically, this apparent increase for 1953-1955 is not truly an increase in the University's budget; it is rather a transfer back to the State of that part of the cost of operating the University which the United States government has borne for several years. In the judgment of your Committee, this adjustment is necessary in order to maintain the present total budget of educational operating expenditures.

III. *To provide for salary and wage rate increases*.....\$6 000 000

Convincing evidence was given your Committee, in addition to the information the Board as a whole received on October 24, 1952, to indicate that this amount is needed to maintain salary and wage scales at levels which will enable the University to retain faculty personnel in competition with other institutions and with governmental agencies. Salary and wage adjustments are indicated by cost of living factors, by the comparative position of faculty and other groups, together with the comparative positions of nonacademic employees and other outside groups, and the University's policy of paying prevailing rates of wages. An effective presentation was made by representatives of the Illinois Chapter of the American Association of University Professors and by the Director of Nonacademic Personnel.

The Chairman of the Committee received a telegram from the President of the Illinois State Federation of Labor urging support of the provisions in the budget which will permit adjustments for both academic and nonacademic employees.

It will be noted that the original amount requested, supported as indicated, had already been reduced from \$9,000,000 to \$6,000,000. Your Committee is of the opinion that this latter amount is justified.

IV. *To meet employer contributions required by the University*

Retirement System\$303 868

This is in the nature of a pre-existing, statutory fixed charge. It is the amount required under the provisions of the Act establishing the University Retirement System of Illinois. Hence no reduction here is feasible.

V. *To meet anticipated increases in enrollment and to provide*

for growth and development.....\$4 287 641

In this part of the budget, your Committee had before it a detailed breakdown of the budget estimates of all colleges and schools. Several of the deans and directors gave the Committee informative illustrations and examples of the educational and research programs of their respective divisions which require additions to their budget. As the Board was informed, the original estimates of the deans, directors, and other general officers, after a careful screening of the requests of departments and subdivisions, totaled \$9,370,000. The President of the University recommended and the Board has approved less than half of this sum, namely \$4,287,641. Your Committee does not recommend any further reduction in this part of the budget estimates.

VI. *Increase in activities which produce income*.....\$350 000

Income of all auxiliary enterprises and revolving activities (for example, sales, income from rents and food services) must be deposited in the State Treasury for the use of the University and is appropriated to the University for the operations of these enterprises. Any increase or decrease in the volume of business of such auxiliary enterprises and revolving activities does not affect the state general revenue budget, but it must nevertheless be reflected in the appropriation from the

University Income Fund. This item is not subject to reduction, since it is based on the best estimate that can be made of the increase in these activities.

Capital Budget

The Board of Trustees is well aware that the University has a large backlog of building needs. The report of the Building Program Committee lists fifty needed buildings at Urbana-Champaign and fourteen at the Chicago Professional Colleges, exclusive of any buildings for a new University of Illinois at Chicago.

Obviously University authorities do not expect to secure in one biennium, or even in several biennial periods, the appropriations needed to provide for the entire building program. A selection of projects for each biennium, in terms of relative priorities, is necessary. The building program proposed for 1953-1955 would meet only a part of the total building needs. For 1953-1955, the University Building Program Committee recommended nineteen building projects at Urbana-Champaign, total estimated cost, \$30,054,000, and four at the Chicago Professional Colleges, total estimated cost, \$4,925,000. The Board of Trustees has approved a program of \$20,590,500 for Urbana-Champaign and of \$1,985,000 for the Chicago Professional Colleges—a total of \$22,575,500. This is a reduction of \$12,404,000 in the original request of the Building Program Committee.

The projects have been fully explained to the Board and your Committee does not feel it is necessary in its report to elaborate on them. Nor does your Committee feel it should indicate any selection of projects at this time. The ultimate decision should be deferred until the General Assembly, with the advice of the Illinois Budgetary Commission and the appropriation committees of the General Assembly, and the Governor decide how much the state can and should appropriate to the University of Illinois for buildings.

The other institutions of higher education in Illinois also need new buildings. They undoubtedly face the same problems with respect to selection of projects as the University of Illinois. Your Committee feels that consideration should be given by appropriate state officials to the enactment of legislation which will permit financing the construction of new buildings for all its institutions of higher education to supplement current state appropriations. In this way more buildings could be provided in the immediate future than is possible by relying solely on biennial appropriations. Several states have adopted such plans to meet more fully the building needs of their institutions through deferred payments. Through services of its experts in the fields of government, constitutional law, and public finance, the University is prepared to assist in the development of a building authority plan, but clearly the policy decision must be made by state authorities.

Conclusion and Recommendation

One of the functions of the Board of Trustees is to help secure the revenues needed by the University and to determine ways in which University funds shall be applied. When the Board has determined how much money is required during any given biennial period for the operation of the University so that it is able to serve effectively the people of Illinois, then the Board should make the clearest representations possible to the General Assembly and the Governor in support of the budget. Your Committee is convinced that the budget for 1953-1955, as approved by the Board of Trustees on October 24, 1952, is a well prepared and necessary budget. The Committee recommends the confirmation of the Board's previous action with respect to the appropriations requested. In this way we shall have done our best to secure for the young people of Illinois a standard of higher education worthy of a great and progressive state.

Respectfully submitted,

ROBERT Z. HICKMAN
HERBERT B. MEGRAN
WAYNE A. JOHNSTON, *Chairman*
Committee on General Policy

Mr. Fornof stated that the Board is indebted to the Committee for its intensive and thorough review of the budget. Other members of the Board expressed concurrence in this statement.

Mr. Megran stated that as the result of the Committee's conference with the President, the University Council, and other officials he was

impressed with the devotion to their task of all the University personnel responsible for the preparation of the budget. He expressed the opinion that the greatest threat to the economy of the country is the continuous increase in taxes and that the greatest benefit would come from reduction of taxes. He added that everyone should do all he can to combat inflation and to eliminate its threat to the economy. He emphasized statements made by Mr. Johnston in presenting the Committee's report that the University's budget estimates for 1953-1955 are a sound, practical presentation of what is needed to maintain the status of the University, that while the Trustees fully recognize the needs of the University, they are also conscious of the effects of increased taxation, and finally that the Board will operate the University to the best of its ability on whatever appropriation is made.

At the conclusion of the discussion, Mr. Johnston moved that the report of the Committee be adopted, that the budget for 1953-1955 be confirmed, and that the President of the Board and the President of the University be empowered to use these estimates in presenting the University's budget to the Governor, to the Illinois Budgetary Commission, and to the appropriate committees of the General Assembly.

This motion was adopted by the following vote: Aye, Mr. Fornof, Mr. Grange, Mr. Herrick, Mr. Hickman, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Megran, Mrs. Watkins; no, none; absent, Mr. Nickell, Mr. Stratton.

At this point the Board recessed for a meeting of the Committee on Buildings and Grounds.

EXECUTIVE SESSION

The Board reconvened in Executive Session, with all members present who were in attendance during the open session. The Board took up consideration of the following reports and recommendations from the President of the University and from the Committee on Buildings and Grounds.

HONORARY DEGREE FOR CARL SANDBURG

(18) The President requested authority to confer the honorary degree of Doctor of Letters (Litt.D.) at the February, 1953, Commencement Exercises on Carl Sandburg in accordance with a recommendation of the University Senate Committee on Honorary Degrees which will be transmitted to the Senate. Since the Senate will not meet until Monday, February 2, and it is unlikely that there will be another meeting of the Board until after the exercises, this advance authorization is needed.

On motion of Mr. Johnston, authority was given as requested.

PAYMENT FOR LEGAL SERVICES ON WARNER CONSTRUCTION COMPANY CONTRACTS

(19) The late Judge John H. Armstrong, Champaign, was employed as special counsel for the University in the controversy with the Warner Construction Company with respect to its contracts for the construction of the Lincoln Avenue Residence and the utilities distribution system. His services covered the period beginning January, 1949, and continuing until his untimely death in June, 1952. Since it was not feasible to fix an appropriate fee at the time he began his work it was understood that the President of the University would recommend to the Board of Trustees a mutually agreed upon fee.

Partial payments, totaling \$6,800, were made to Judge Armstrong for legal services up to June, 1951, and he was also reimbursed for payments made by him for expenses incurred totaling \$137.94. No final bill had been submitted at the time of Judge Armstrong's death. The President of the University therefore had asked Messrs. Robert Z. Hickman of the Board of Trustees, Ralph F. Lese-

mann, Legal Counsel, and James H. Wheat, Champaign, who is attorney for Judge Armstrong's estate, to recommend an appropriate fee. They recommend that in view of the services rendered by Judge Armstrong and the substantial results accomplished, a fee of \$14,200, including the partial payments made to date, would be reasonable. This figure is based upon the records kept by Judge Armstrong and is acceptable to the estate. There is also due \$58.28 as reimbursement for payments made by Judge Armstrong for expenses incurred since June, 1951.

The President recommended that the Board approve a total fee of \$14,200 and authorize the payment of the balance of \$7,400 and also \$58.28 reimbursement for expenses. Funds are available in the Lincoln Avenue Residence and utilities distribution system construction accounts.

On motion of Mr. Johnston, these payments were authorized.

REPORT OF THE COMMITTEE ON BUILDINGS AND GROUNDS

Mr. Megran, for the Committee on Buildings and Grounds, presented the following report:

Recently, a contractor who had been awarded the contract for certain work for the University upon submitting the lowest bid for it, refused to sign the contract when it was submitted to him or to proceed with the work, thereby putting the University to the expense of advertising for and taking new bids for the work and delaying its performance. When this was reported to the President of the University he instructed the Director of the Physical Plant Department to forfeit the deposit made with the contractor's bid for that work and stated that, in view of this action upon the part of the contractor, he would not approve the awarding of any additional University contracts to the contractor and that the latter should not be furnished with specifications, drawings, or other documents which would enable him to submit bids for other work. The President's legal right, and that of the Director of the Physical Plant Department, to take this action was confirmed in an opinion given the President by the Legal Counsel.

Subsequently, this contractor requested specifications and drawings pertaining to other work to be done for the University in order to submit bids for that work, and also tendered the deposits which the Physical Plant Department required for the same. Pursuant to the President's instructions, the Physical Plant Department returned the checks sent it to cover those deposits and did not furnish the requested specifications and drawings to the contractor, with the result that the latter did not submit any bids for the work upon those projects.

In view of these developments, President Stoddard requested the Buildings and Grounds Committee to review his action and to consider the problems with respect to University contract procedures presented by this situation.

This Committee, after reviewing the above-mentioned action taken by the President and the Director of the Physical Plant Department and the Legal Counsel's opinion, has concluded that said action was proper and should be approved. Accordingly, the Committee recommends the adoption by the Board of Trustees of the following Resolution:

It Is Hereby Resolved by the Board of Trustees of the University of Illinois that the action heretofore taken by the Director of the Physical Plant Department of the University in declining, upon instructions received by him from the President of the University, to furnish a contractor specifications, and other documents requested by that contractor, to enable the latter to submit bids to the University for work upon certain University construction and improvement projects, which action was based upon the refusal of that contractor to sign and perform a contract previously awarded to him as the lowest bidder upon other University work, be, and the same is, hereby approved.

Respectfully submitted,

JOHN R. FORNOF
WIRT HERRICK
MRS. DORIS S. HOLT
MRS. FRANCES B. WATKINS
HERBERT B. MEGRAN, *Chairman*
Committee on Buildings and Grounds

On motion of Mr. Herrick, this resolution was adopted.

On motion of Mr. Hickman, the Committee on Buildings and Grounds was requested to study the present provisions of the University Statutes for awarding construction, remodeling, and improvement contracts and to recommend the adoption of such changes therein as will permit disqualification from submitting bids or securing specifications and other materials preparatory to submitting them, and rejection of bids, of contractors whose past performance on University or other work, or the University's previous experiences with them, indicate, or reasonably justify the conclusion, that they are incompetent, irresponsible, or unreliable.

ACTING CHAIRMAN OF COMMITTEE ON BUILDINGS AND GROUNDS

Mr. Megran requested that he be relieved of the Chairmanship of the Committee on Buildings and Grounds for the next several weeks because he will be out of the state. President Livingston appointed Mr. Herrick Acting Chairman to serve during Mr. Megran's absence.

By unanimous consent, the next meeting of the Board of Trustees was ordered to be held on Monday, February 23, 1953, beginning at 10:30 a.m., at Urbana-Champaign.

ANNUAL MEETING

President Livingston called attention to the provision in Article I, Section 1 of the By-Laws of the Board of Trustees that the Board shall hold an annual meeting on the second Tuesday in March unless the date of such meeting be changed by the Board. It was the consensus of opinion that since the second Tuesday in March is only two weeks after the date now set for the February meeting, it would be advisable to have the annual meeting later in March.

On motion of Mr. Megran, the Board voted to hold its annual meeting on March 25, 1953, in Chicago.

The Board adjourned.

MEETING OF THE BOARD OF TRUSTEES
OF THE
UNIVERSITY OF ILLINOIS

February 23, 1953

The February meeting of the Board of Trustees of the University of Illinois was held in the Faculty-Alumni Lounge of the Illini Union Building at Urbana, Illinois, on Monday, February 23, 1953, beginning at 10:30 a.m.

When the Board convened, the following members were present: Mr. Wirt Herrick, Mr. Robert Z. Hickman, Mr. Wayne A. Johnston, Mr. Park Livingston, and Mrs. Frances B. Watkins. Governor William G. Stratton, Mr. John R. Fornof, Mr. Harold E. Grange, Mrs. Doris S. Holt, and Mr. Herbert B. Megran were absent. Superintendent Vernon L. Nickell was absent at the beginning of the meeting but joined it later.

Also present were President George D. Stoddard, Provost Coleman R. Griffith, Dean E. R. Serles, Chairman of the Administrative Committee of the Chicago Professional Colleges, Mr. Ralph F. Lesemann, Legal Counsel, Mr. J. F. Wright, Director of Public Relations, Mr. Lloyd Morey, Comptroller, Mr. C. W. Weldon, Treasurer, and Mr. A. J. Janata, Secretary of the Board.

A quorum being lacking, on motion of Mr. Johnston the Board recessed.

MEETING OF THE EXECUTIVE COMMITTEE

BUSINESS PRESENTED BY THE PRESIDENT OF THE UNIVERSITY

The Executive Committee considered the following reports and recommendations from the President of the University.

AWARD OF CERTIFIED PUBLIC ACCOUNTANT CERTIFICATES

(1) The Committee on Accountancy recommends that the certificate of Certified Public Accountant be awarded to the following candidates who have qualified under Section 4b of the Accountancy Act of 1943, as amended in 1951, by passing a written examination given on November 12, 1952, by the Special Board of Examiners:

On motion of Mrs. Watkins, these appointments were confirmed.

CANCELLATION OF LEAVE OF ABSENCE FOR PROFESSOR P. GERALD KRUGER

(3) Dr. P. Gerald Kruger, Research Professor of Physics, was granted sabbatical leave of absence for one-half year on full pay during 1952-1953, the period of the leave to be determined by the needs of the Department. It has not been feasible for the Department to release him and, therefore, I recommend that the leave be cancelled without prejudice.

On motion of Mrs. Watkins, this leave was cancelled without prejudice.

APPOINTMENT OF DEAN OF THE COLLEGE OF AGRICULTURE

(4) With the unanimous approval of the Executive Committee of the College of Agriculture, I recommend that Dr. Robert R. Hudelson, who has been serving as Acting Dean and Acting Director since September 1, 1952, be appointed Dean of the College of Agriculture, Director of the Agricultural Experiment Station, Director of the Extension Service in Agriculture and Home Economics, and Professor of Agricultural Economics, effective March 1, 1953, and continuing to September 1, 1954, when he will retire from active service, and that his salary be increased to \$16,000 a year on a Y basis.

On motion of Mrs. Watkins, this appointment was approved.

BOARD RECONVENED

During the discussion of the following item of business Mr. Nickell took his place with the Board, whereupon the Executive Committee adjourned and the Board reconvened.

BIENNIAL OPERATING BUDGET FOR 1953-1955

(5) The biennial operating budget for 1953-1955 proposes an increase of \$3,850,000 in appropriations from state revenues to offset an impending decrease of a similar amount in receipts of the University Income Fund. One of the contributing items is the change in the G.I. Law, providing for payment of tuition only instead of "cost of instruction" as previously followed. This item represented a loss of \$1,250,000 in the coming biennium.

Since this budget was approved, a movement has developed, particularly among private institutions, to provide for payments directly to institutions, instead of to the veterans as at present, of amounts which would approximate the "cost of instruction" as previously allowed. I have indicated that the University of Illinois will support such a change, provided it is put on a "cost of instruction" basis and not merely on a tuition basis.

The upward trend of enrollment during the current year also makes possible an increase of \$250,000 in the estimated income from tuition of regular students during 1953-1955.

In view of these changes in the situation, I recommend that the sum requested from tax funds be reduced from \$3,850,000 to \$2,350,000 and that the estimated income from University sources in the University Income Fund be increased to \$14,500,000. The total of the budget remains the same.

In making this change it must be recognized that the realization of this \$1,250,000 is problematical and uncertain. The appropriation of this amount in the Income Fund is contingent on actual receipts, and if those receipts do not materialize, expenditures can not be made. Hence, that amount of the University's budget must be held in abeyance as far as internal allotments are concerned until it is certain that the income will be realized.

I recommend approval of this change.

Another change in the Income Fund has been proposed by Senator Everett R. Peters, Chairman of the Illinois Budgetary Commission, who stands ready to introduce a bill to this effect as soon as it can be prepared. This change would mean the retention in the Treasury of the University of all the income from auxiliary enterprises and revolving activities. This would reduce by \$7,700,000 the amount of the appropriation needed for the Income Fund for 1953-1955 and the total of the state budget for operations for that period. Such a change was proposed by the University and approved by the Board several years ago, but has not appeared to be possible until this time. It would be a desirable change.

On motion of Mrs. Watkins, this change in the biennial budget was approved by the following vote: Aye, Mr. Herrick, Mr. Hickman, Mr. Johnston, Mr. Livingston, Mr. Nickell, Mrs. Watkins; no, none; absent, Mr. Fornof, Mr. Grange, Mrs. Holt, Mr. Megran, Mr. Stratton.

PATENTABLE DISCOVERIES

(7) The University Patent Committee submits the following recommendations relating to potentially patentable discoveries:

a. Dora E. Damrin, Research Assistant Professor, Floyd M. Gardner, Research Associate in the Bureau of Educational Research, and Robert Glaser, former Research Assistant Professor in the Bureau, have developed an invention they call "The Tab Item: A Technique for the Measurement of Proficiency in Diagnostic Problem Solving Tasks." This invention is the result of research under a contract with the United States Air Force. The Committee recommends the release of the invention to the Air Force.

b. Charles E. Osgood, Associate Professor of Psychology, has developed a new measuring device entitled "A Semantic Differential," which is a means of getting personal reaction to words, phrases, and pictures. It is useful in the type of research which is now being done in the field of communications. The Committee has secured the opinions of qualified individuals as to the commercial possibilities of this device and has been unable to find that it has sufficient potential value to justify the expense of securing a patent. The Committee recommends that the invention be released to the inventor.

c. Robert H. Brunner, former Research Assistant in Electrical Engineering, developed a controllable parallelogram electronic cursor, a device of primary value in electronic equipment developed for the Navy and which has no commercial possibilities. The discovery is the result of research work being done at the University for the United States Navy. The Committee recommends release of the discovery to the Navy.

d. Thomas S. Noggle, Research Assistant in Physics, has developed a soft mold technique for growing single crystals of aluminum in the course of research under a contract with the United States Navy. The commercial possibilities of this discovery are extremely limited and the Committee recommends that it be released to the Navy.

e. Ludwig F. Audrieth, Professor of Chemistry, has made a discovery as a result of confidential research work being done under a contract with the Ordnance Department of the United States Army which the Committee recommends be released to the Ordnance Department.

f. Richard E. Norberg, Research Associate in Physics, has developed a technique for improving the homogeneity of magnetic fields as a result of research work under Contract No. DA-11-022-ORD-721 with the Department of the Army. The Committee recommends that this discovery be released to the Army in accordance with the terms of the contract.

g. Edward W. Comings, formerly Professor of Chemistry and now at Purdue University, has developed a high velocity spray dryer, the basic idea of which was formulated by him at the University of Illinois. Subsequent work on this was done by him after he left the University. Attempts to patent the basic idea were unsuccessful because the number of patents in this area is large and according to the United States Patent Office the essential features had been anticipated by prior patents issued. In view of these circumstances, any claims the University may have would be of doubtful value, and to avoid any further complications the Committee recommends that the rights to the discovery be released to Dr. Comings.

I concur in these recommendations.

On motion of Mr. Nickell, these recommendations were approved.

GREAT BRITAIN PATENT ON BETATRON IMPROVEMENT

(8) The University holds United States, Canadian, and Great Britain patents on an improvement on the betatron developed by Professor Donald W. Kerst. The laws of Great Britain provide that an annual tax must be paid, in order to keep a patent in force, and there is now due approximately \$90 on such tax and annual payments will be due hereafter to a maximum of sixteen pounds (approximately \$45) to continue this patent.

In the opinion of the Head of the Department of Physics and the Chairman of the University Research Board, there is no advantage to be derived in keeping this patent in force in Great Britain. Accordingly, they recommend that this patent (Great Britain Patent Serial No. 13624) be allowed to lapse at this time and that no further payments of the tax be made thereon.

I concur.

On motion of Mr. Herrick, this recommendation was approved.

APPLICATION FOR PATENT ON BETATRON IMPROVEMENT

(9) By authority of the Board of Trustees, Professor Donald W. Kerst filed an application for the benefit of the University for a patent on an improvement of the betatron which would double the output and reduce the cost of construction. The United States Patent Office has assigned No. 627481 to the application.

In January, 1951, the Patent Office advised that an interference had developed between this application and others filed by the General Electric Company and Brown, Boveri, and Cie, Baden, Switzerland. Negotiations and hearings toward resolving such difficulty have proceeded and subsequently General Electric Company was ruled out of the interference.

As a result of these proceedings, it became apparent that it would be desirable for the University to request the advice and determine the interest of the Atomic Energy Commission in the patent and, as a result, that agency became an active participant and has assisted materially in bringing the negotiations to their present status. It now appears that the University can not actively continue to prosecute the interference without the expenditure of substantial additional funds, and it is not at all certain that, if this is done, a patent will be awarded to the University.

Negotiations toward a compromise settlement between the remaining parties were authorized several months ago. The Atomic Energy Commission has assisted the University in persuading Brown, Boveri, and Cie to negotiate a settlement without resorting to the courts, and the Atomic Energy Commission has requested that it be granted a license to use the resulting patent. Accordingly, a proposed negotiated settlement between Brown, Boveri, and Cie and the University has been tentatively agreed upon, the terms of which are as follows:

(a) The University will submit to Brown, Boveri, and Cie copies of all proofs and testimony and, after consideration thereof, representatives of such two parties will attempt to arrive at an agreement as to which party has priority and should be awarded the patent. If such an agreement is reached, the other party will withdraw and, presumably, a patent will be issued to the party having priority.

(b) If the University and Brown, Boveri, and Cie are unable to reach such a decision, all evidence will be submitted to the Interference Examiner of the Patent Office for a final determination as to who is to receive the patent, which determination the parties agree to accept.

(c) It will be mutually agreed that the party receiving the patent will then grant to the other party and to the United States Government a non-exclusive, irrevocable, royalty-free, paid-up license to make, have made, sell, and use devices or methods covered by the patent.

It is the opinion of the Associate Head of the Physics Department of the University, the Chairman of the University Patent Committee, and the Chairman of the University Research Board that this proposed agreement will be to the advantage of the University, in that a further substantial expenditure of funds will be unnecessary and that, even if the University fails to receive the patent, it will receive substantially all the rights that would accrue under a patent. It appears that the patent, if used, will probably be of little commercial value.

It is recommended that the Comptroller and the Secretary of the Board be authorized to execute an agreement, substantially following the terms as indicated and subject to such minor modifications as may be necessary in the final negotiations.

On motion of Mr. Nickell, the Comptroller and the Secretary of the Board were authorized to execute the agreement recommended.

**CLAIM AGAINST ARMY NUTRITION LABORATORY
UNDER CONTRACT NO. W-49-007-MD-388**

(10) In April, 1947, the University entered into a contract with the Office of the Surgeon General of the United States for the purpose of carrying on certain research work in the Research and Educational Hospitals. The contract provided, among other things, that the University would make available in the Metabolic Ward four beds for the exclusive use of the Army Nutrition Laboratory. It was specified in the contract that these beds were to be kept available for Army patients and that the University was to be reimbursed at the rate of \$7.70 per day for each bed. Since this was a nutrition project, meals were supplied by the Army.

The original contract was for a period of one year and was renewed.

The University has a claim of \$6,868.40 against the Army Nutrition Laboratory. The Comptroller General of the United States has approved payment of only \$361.90 on this claim. There is submitted herewith a memorandum prepared by the Comptroller giving the history of this case.

All efforts to get favorable action by the Surgeon General on the University's claim having failed, the University's Legal Counsel with the approval of the President of the University placed this matter in the hands of Fisher, Wayland, Duvall, and Southmayd, Attorneys in Washington, for presentation to the United States Court of Claims. The petition was filed under date of February 9, 1953. The University has agreed to pay this firm a fee of \$500, plus a contingency fee of 25 per cent of whatever may be received by the University in settlement of the claim, plus the cost of printing and filing the petition (\$72) and any other out-of-pocket expenses.

On motion of Mr. Johnston, the action of the President was confirmed.

CONTRACT FOR REMODELING ARCADE BUILDING

(11) The Director of the Physical Plant and the Comptroller recommend award of contracts for the amounts indicated to the following lowest bidders for remodeling space in the Arcade Building, formerly occupied by the Katsinas restaurant, for the Photographic Laboratory:

| | |
|--|-------------|
| General — Clarence H. Siems, Urbana..... | \$21 748 00 |
| Electrical — Potter Electric Service, Urbana..... | 7 949 00 |
| Plumbing and Heating — Champaign Plumbing and Heating Company, Champaign..... | 9 200 00 |
| Ventilating and Air Conditioning — F. R. Inskip and Company, Champaign..... | 15 385 00 |

Funds are available in the state appropriation "For remodeling, modernization, and improvement of existing buildings at Urbana-Champaign, including water reclamation installations, plans and specifications and fixed equipment installed relating thereto," subject to release by the Governor.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute these contracts.

On motion of Mrs. Watkins, these contracts were awarded and the Comptroller and the Secretary of the Board were authorized to execute them.

**CONTRACT FOR PARKING LOT AT 816-834
SOUTH ASHLAND AVENUE, CHICAGO**

(12) The Director of the Physical Plant and the Comptroller recommend the award of a contract for \$3,564.65 to Edmier, Inc., Chicago, the lowest bidder, for construction of a parking lot at 816-834 South Ashland Avenue, Chicago, to serve the occupants of the staff apartment building and other University properties in this area.

The work will consist of excavating and preparing a stone base.

Funds for the work are available in an appropriation made by the Board of Trustees on November 28, 1952.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute this contract.

On motion of Mrs. Watkins, this contract was awarded and the Comptroller and the Secretary of the Board were authorized to execute the same.

**CONTRACT FOR ARCHITECTURAL SERVICES AT
THE CHICAGO PROFESSIONAL COLLEGES**

(13) The Director of the Physical Plant and the Comptroller recommend a contract with Pace Associates, Chicago, for architectural work at the Chicago Professional Colleges to prepare plans and drawings of plans for:

- a. Enclosing stairways in the Dentistry-Medicine-Pharmacy Building to conform with the City of Chicago Fire Code.
- b. Remodeling space vacated by departments which will move into the addition to the Research and Educational Hospitals and into the East Dentistry-Medicine-Pharmacy Building.

The estimated cost is approximately \$55,000. Charges for work will be based on the actual time payments to the staff of Pace Associates at the following rates:

| | |
|-------------------------------------|----------------------------------|
| Architect-Planner | \$6.00 per hour |
| Senior Architectural Draftsman..... | \$3.00 to \$3.50 per hour |
| Structural Engineering Designer | }\$3.50 to \$4.50 per hour |
| Mechanical Engineering Designer | |
| Electrical Engineering Designer | |
| Chief Mechanical Engineer..... | \$5.00 per hour |
| Senior Engineering Draftsman..... | \$2.50 to \$3.50 per hour |

To these charges will be added 100 per cent for overhead costs. The contract will stipulate that the charges for the work may not exceed \$55,000 without approval from the University.

This proposal from Pace Associates is similar to that made on work which they performed for the University previously and is in line with prevailing charges of architectural firms in the Chicago area.

Pace Associates are familiar with the Dentistry-Medicine-Pharmacy Building, having made a complete survey of usage of the building in 1947, and this experience will expedite the work.

Funds are available in the Physical Plant Department budget for item "a" and in the reassignment of funds budgeted for the operation of the Research and Educational Hospitals authorized by the Board of Trustees on January 21, 1953, for item "b."

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute this contract with Pace Associates.

On motion of Mr. Johnston, the Comptroller and the Secretary of the Board were authorized to execute the contract as recommended.

ADDITION TO CONTRACTS FOR ANIMAL SCIENCES LABORATORY

(15) The Director of the Physical Plant and the Comptroller recommend increases of \$7,405.33 in the contract with Gallaher and Speck, Incorporated, Chicago, for heating installations and of \$2,304 in the contract with Bloomer Heating and Ventilating Company, Chicago, for air-conditioning work in the Animal Sciences Laboratory to provide for the installation of five sets of pre-heat coils in the ventilating and air-conditioning system to eliminate the danger of freezing the cooling coils and heating coils during cold weather.

When the systems were designed it was the judgment of the engineers in the firm of Naess and Murphy, architects for the building, that the coils would not freeze if all controls and equipment were operating properly. Nevertheless, since freezing is possible, such potential damage to research work makes the installation of additional controls a desirable safeguard. The cost of the preheat coils has also been considered in comparison with the cost of repairs from freezing, plus the inconvenience and possible damage to research work, and the conclusion of all concerned now is that the risk of eliminating these installations is too great.

Funds are available in the state appropriation for the building.

I concur and recommend that the Comptroller be authorized to execute the necessary change order.

On motion of Mr. Herrick, the Comptroller was authorized to execute this change in the contract.

COMPTROLLER'S REPORT OF CONTRACTS

SETTLEMENT WITH AMERICAN CASUALTY COMPANY UNDER CONTRACT PERFORMANCE BOND OF BDN STEEL ERECTING COMPANY

The Legal Counsel presented the following report.

At its January 21, 1953, meeting, the Board of Trustees declared BDN Steel Erecting Company in default with respect to its contract for the erection of a steel radio tower with antenna and other equipment at Robert Allerton Park, Illinois, and authorized the Comptroller and Legal Counsel to take steps to enforce the University's rights under the performance bond given by BDN Steel Erecting Company, as principal, and American Casualty Company of Reading, Pennsylvania, as surety, as a result of the principal's default.

The amount of that bond was \$12,600. Shortly after BDN Steel Erecting Company began work under the contract, it was paid \$2,000 on account by the University. This was done without giving notice to the surety company and securing its consent to the payment, and the surety company contends that it was prejudiced by this action and that this payment either released it entirely from its liability under the bond or reduced that liability to the extent of the payment. Subsequently, and with the surety's consent, the University paid the contractor an additional \$5,862.96 for work done by it under the contract.

Negotiations with the attorney for the surety company have resulted in an assurance by him that he will recommend that the surety company pay the University \$10,600 in full settlement and satisfaction of the surety's liability to the

University under the bond if he is given an assurance that the University will accept that sum upon such basis. Because of the unauthorized \$2,000 payment, this settlement, if made, will be upon the condition, however, that if it costs the University less than \$15,337.04 to complete the work, the University will refund to the bonding company the difference between that sum and the actual cost of completion. Since estimates which the University has received for the completion of the work considerably exceed that sum, it appears very unlikely that accepting this condition would result in the making of any refund to the surety company.

The Comptroller and Legal Counsel recommend that the acceptance of said sum from the surety company in full settlement and satisfaction of the latter's liability to the University under the bond upon the foregoing condition be authorized, and that the Comptroller and Secretary be authorized to execute a release of the surety company, in a form approved by the Legal Counsel, upon the payment of said sum by the surety company to the University.

On motion of Mr. Hickman, the settlement with the American Casualty Company upon the recommended basis was authorized, and the Comptroller and Secretary were granted the authority requested.

RESOLUTION ON DR. A. C. IVY

Mr. Nickell presented three versions of a resolution on the services of Dr. Andrew C. Ivy, these being revisions of a resolution he had offered at the Board meeting on December 22, 1952 (Minutes, pages 493 and 499), and on which action was deferred. Copies of the resolution were distributed and one set was given to the Secretary of the Board for record.

On motion of Mr. Johnston, the resolution was tabled by the following vote: Aye, Mr. Herrick, Mr. Hickman, Mr. Johnston; no, Mr. Livingston, Mr. Nickell; not voting, Mrs. Watkins.

President Livingston expressed the hope that at a later date a suitable resolution on Dr. Ivy would be adopted. Mr. Hickman endorsed this suggestion, stating that he had no doubt an appropriate resolution would be favorably considered at the proper time.

EXECUTIVE SESSION

At this point the Board convened in executive session to consider the following reports and recommendations from the President of the University.

PATENTABLE DISCOVERIES

(19) The University Patent Committee submits the following recommendations relating to potentially patentable discoveries, and I concur:

John Bardeen, Professor, and Harry Letaw, Jr., Research Associate, both in Electrical Engineering, have perfected an electrolytic transistor and Professor Bardeen has discovered a constant current source method for utilizing the transistor. In the judgment of the Dean of the College of Engineering and the Head of the Department of Electrical Engineering, both the invention and the discovery are basic in the very important field of electronics and have excellent commercial possibilities. The University Patent Committee recommends that the University's interest be released to the University of Illinois Foundation with the request that the Foundation immediately apply for patents.

On motion of Mr. Herrick, this recommendation was approved.

H. M. Von Foerster, Professor of Electrical Engineering, has developed a lossless RF peak power meter as a result of research work under contract with the United States Navy. In the opinion of the Patent Committee the commercial possibilities of this discovery would not justify the expenditure of funds to acquire a patent. The Committee therefore recommends the release of this invention to the Navy.

On motion of Mr. Johnston, this recommendation was approved.

BIENNIAL BUDGET FOR 1953-1955

(20) President Stoddard recommended that the Governor and the Illinois Budgetary Commission be approached on the question of asking the General Assembly of Illinois to make appropriations to the University for the construction of such buildings as the Veterinary Medicine Clinic and the Home Economics Building by assignments from the surplus in the Agricultural Premium Fund.

This fund was the source of \$5,000,000 in appropriations made to the University for 1949-1951 for the construction of the Animal Sciences Laboratory, the Veterinary Medicine Building, other agricultural structures and remodeling of existing agricultural buildings and the extension of utilities services to the new buildings.

The Board gave general assent to this proposal but no formal action was taken since the President of the Board and the President of the University already have authority to present such proposals to the Illinois Budgetary Commission and other state officials.

RECOGNITION OF RETIRING MEMBERS OF THE ACADEMIC STAFF

Pursuant to the proposal made by Mrs. Watkins at the meeting of the Board of Trustees on May 26, 1952, the Secretary presented a certificate designed to give members of the academic staff when they retire a formal expression of appreciation by the Board of Trustees of their services to the University.

On motion of Mrs. Watkins, the certificate was approved.

DEATH OF DR. JAMES G. RANDALL

President Stoddard informed the Board of the death on February 20, 1953, of Dr. James G. Randall, Professor of History, *Emeritus*. Professor Randall served the University with distinction from 1920 until his retirement in 1949. He was a distinguished scholar and writer on the life and works of Abraham Lincoln.

The Secretary was asked to send Mrs. Randall an expression of the Board's sympathy and appreciation.

EASEMENT OVER TRELEASE WOODS

The Secretary presented the following report of the Executive Committee.

The Board of Trustees on December 22, 1952 (Minutes, pages 493 to 494), referred to the Executive Committee with power to act a request from the Illinois Power Company for a right-of-way easement for a new power line across a portion of the Trelease Woods.

The question which had been raised regarding the construction of the power line in this area has now been resolved satisfactorily to all parties concerned. The Executive Committee has, therefore, granted the right-of-way easement requested by the Illinois Power Company, subject to approval of the easement by the University's Legal Counsel.

MEETING OF THE BOARD OF TRUSTEES
OF THE
UNIVERSITY OF ILLINOIS

March 25, 1953

The annual meeting of the Board of Trustees of the University of Illinois was held in the LaSalle Hotel, Chicago, Illinois, on Wednesday, March 25, 1953, beginning at 10:30 a.m.

The following members were present: Mr. Cushman B. Bissell, Mr. Harold E. Grange, Mr. Wirt Herrick, Mr. Robert Z. Hickman, Mrs. Doris S. Holt, Mr. Wayne A. Johnston, Mr. Park Livingston, Mr. Vernon L. Nickell, Mrs. Frances B. Watkins. Mr. Herbert B. Megran and Governor William G. Stratton were absent.

Also present were President George D. Stoddard, Provost Coleman R. Griffith, Mr. Ralph F. Lesemann, Legal Counsel, Mr. J. F. Wright, Director of Public Relations, Mr. Lloyd Morey, Comptroller, and Mr. A. J. Janata, Secretary of the Board.

COMMITTEE OF THE WHOLE

When the Board convened, it resolved itself into a Committee of the Whole to consider the following items of business:

Report from the special committee on claims against the George A. Miller Estate.

Report from the Legal Counsel on the progress of negotiations with the Patrick Warren Construction Company to expedite the completion of the addition to the Research and Educational Hospitals.

Report from the President of the University on the Benjamin Franklin Magazine Awards.

Special report from the President of the University on the 1953-1955 Biennial Budget.

EXECUTIVE SESSION

When the Committee rose, the Board of Trustees reconvened, in executive session, to consider the following committee report.

**REPORT OF SPECIAL COMMITTEE ON CLAIMS
AGAINST GEORGE A. MILLER ESTATE**

At the March, 1952, meeting of the Board a Special Committee, comprising the undersigned and Mr. John R. Fornof, was appointed for the purpose of considering a claim asserted against the Estate of George A. Miller, deceased, by those blood nieces and nephews of Cassandra A. Miller (Professor Miller's wife who had predeceased him) who survived him. The claimants are Martha Love Kilgore, Estelle Love White, Cassandra Love McKown, Beryl Love Bristow, Ethel Wilson, Bernice Wilson, George H. Wilson, Ralph E. Wilson, Elizabeth Boggs Bartholow, Winifred Johnston Carpenter, Oliver M. Johnston, Jr., O. Carter Boggs, and Stanley Boggs.

The Committee held a meeting on April 10, 1952, at which the attorneys for the claimants, and one of the claimants, appeared before the Committee and the Executor of the Estate and presented the legal theories and alleged factual data upon which the claim is based. This presentation demonstrated that the claimants assert a claim to approximately one-half of Professor Miller's entire estate, but the attorneys for the claimants stated that their clients would accept \$125,000 in full compromise settlement of the claim. The Committee reserved action upon the claim and that offer at that time pending investigation of the claim by Mr. J. G. Thomas, counsel for the Executor, and by the University Legal Counsel.

Subsequently, suit was instituted against the Executor and the University by Ralph E. Schellhamer for one-fourth of Professor Miller's estate and, by agreement, further action upon the claim and offer was held in abeyance pending the outcome of that suit.

Following the settlement of the Schellhamer suit which was authorized by the Executive Committee of the Board, Mr. Thomas and the Legal Counsel completed their investigation of the claim and reported the result to the Committee at a meeting of the latter and the Executor held on February 23, 1953. At that meeting, after full consideration and discussion of the claim, Mr. Thomas and the University Legal Counsel were instructed to attempt to negotiate a settlement with the claimants upon a much lower basis than their offer and were authorized to submit an offer of settlement to their counsel in the sum of \$25,000.

Through their negotiations with counsel for the claimants, a definite offer of settlement has been obtained which contemplates the payment to the claimants of the sum of \$35,000 from the funds of the George A. Miller estate and the cancellation of a promissory note in the principal sum of \$1,500 upon which approximately \$500 in interest is now due and unpaid given Professor Miller by Richard B. Kilgore, the son of one of the claimants, which is now held by the Executor as constituting a portion of the assets of the estate. The Executor and his attorney report that the prospects of collecting this note, except over a period of time and at considerable expense, are poor. In the event the offer is accepted, full and complete releases of all claims against the estate and the University will be given by each of the claimants and by Martha Harriett Love, a surviving sister, and by

Rosalind Jarnagin, the adopted daughter of a deceased sister of Cassandra A. Miller. The claimants and Martha Harriett Love and Rosalind Jarnagin constitute the sole living heirs of Cassandra A. Miller.

While it is believed that the claim is unfounded and counsel for the Executor and the University Legal Counsel are of the opinion that a suit instituted upon it can be successfully defended, they have further advised the Executor and the Committee that certain issues of fact would probably be decisive in such a suit and, since those issues are disputed, they can not definitely assure the Executor and the Board, without qualification, that the outcome of litigation over the claim will necessarily be favorable to the Executor and the University. Distribution of the assets of the estate now held by the Executor to the University as provided in Professor Miller's will would necessarily be delayed while such litigation is in progress. During that period of time the income which the Executor would receive from the assets of the estate would be substantially less than the income the University would be able to derive therefrom during the same period if they can be delivered to the University soon through disposing of the claim by settling it now. This loss of income which would result from litigating the claim and the estimated expense of litigating it would probably equal, and possibly exceed, the sum which the claimants have offered to accept in settlement.

The Executor is willing to make a compromise settlement of the claim upon the basis of this offer if authorized so to do by the University. The procedure for carrying out the settlement, if it is to be made, would consist in the Executor paying the above mentioned sum from the funds of the estate to the claimants or their attorney and endorsing (without recourse) and delivering said promissory note to the University, both by way of partial distribution to the University of what it is entitled to receive under the provisions of the will. The note would then be cancelled by the University and delivered to the claimants or their attorney. These things would be done in return for the above mentioned releases from Martha Harriett Love, Rosalind Jarnagin, and the claimants, and the money would be paid and the cancelled note delivered to the claimants or their attorney upon receipt by the Executor of said releases in a form approved by his counsel and by the University Legal Counsel. Upon delivery by the Executor to the University of an executed duplicate of each release the University would execute and deliver to the Executor a receipt or receipts evidencing partial distribution to it by the Executor under the will to the extent of said note and said sum.

Counsel for the Executor and the University Legal Counsel, with the approval of the Executor and the President of the University, recommend that the offer of settlement received from the claimants be accepted and the claim settled accordingly; and request that the Executor be authorized to pay said sum of \$35,000 to the claimants or their attorney, and to endorse and deliver said promissory note to the University, by way of partial distribution to it of what it is entitled to receive under the will, that the Comptroller and Secretary be authorized to cancel said note and to deliver the same to the claimants or their attorney and to execute and deliver, on behalf of the University, a receipt or receipts evidencing the making of such partial distribution to it by the Executor, all upon receipt by the Executor of said releases and receipt by the University of an executed duplicate of each of the latter. The Committee concurs in this recommendation, and further recommends that the requested authority be given to the Executor and to the Comptroller and Secretary.

PARK LIVINGSTON
ROBERT Z. HICKMAN
WIRT HERRICK
WAYNE A. JOHNSTON, Chairman

On motion of Mr. Johnston, this report was adopted, the recommendations of the Committee were approved, and authority was given as requested. This action was taken by the following vote: Aye, Mr. Bissell, Mr. Grange, Mr. Herrick, Mr. Hickman, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Nickell, Mrs. Watkins; no, none; absent, Mr. Megrant, Mr. Stratton.

ORDERS FOR CHANGES IN SECURITIES

The Comptroller and Secretary presented the following recommendation.

Under the rules of the Board orders to the First National Bank of Chicago for changes in securities as authorized by the Board or the Finance Committee

are signed by the Comptroller and the Secretary of the Board. The Board has previously authorized certain deputies to act for these officers.

At the Chicago Professional Colleges funds must be held in reserve, under the provisions of the revenue bond indenture for financing the student and staff housing projects, which may be invested. In addition, certain funds accumulate under the escrow agreement with the city of Chicago for the lease of the Navy Pier which may also be invested. Investments of both funds are limited to government securities. It will simplify procedures if additional deputies in Chicago are authorized to act for the Comptroller and the Secretary of the Board. Therefore, adoption of the following resolution is recommended by the Comptroller and the Secretary:

WHEREAS, under the rules of the Board of Trustees, orders for the purchase and sales of securities addressed to the First National Bank of Chicago as safe-keeping agent and investment counsel, are signed by the Comptroller and the Secretary of the Board; and

WHEREAS, it is desirable that deputies be appointed to act for these officers;

Therefore be it resolved, that A. J. Janata, Secretary of the Board of Trustees, is authorized to delegate to Everett G. Smith, Executive Clerk in the President's Office, to Maude Archdeacon, Chief Clerk in the Board of Trustees' Office, and to G. R. Moon, Examiner and Recorder for the Chicago Professional Colleges, authority to sign his name to orders for purchase and sale of securities as approved by this Board or by its committees acting under due authority; and that Lloyd Morey, Comptroller, is authorized to delegate to C. C. DeLong, Bursar, H. O. Farber, Assistant Comptroller, and H. A. Hazleton, Business Manager at the Chicago Colleges and Divisions, authority to sign his name to such orders under the same circumstances.

On motion of Mr. Johnston, this resolution was adopted.

I concur.

On motion of Mr. Herrick, this revision of fees was approved as recommended.

CONTRACT FOR SEWAGE TREATMENT PLANT AT AIRPORT

(12) The Board of Trustees has authorized certain improvements, including a sewage treatment plant, at the University of Illinois Airport and has appropriated funds for this work.

The Director of the Institute of Aviation and the Comptroller recommend the award of a contract for \$24,609.50 to Oran L. I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute this contract.

On motion of Mr. Johnston, this recommendation was approved and the Comptroller and Secretary of the Board were authorized to execute the contract.

CONTRACTS FOR CONSTRUCTION OF ADDITION TO SMITH MEMORIAL HALL

(13) The Director of the Physical Plant and the Comptroller recommend awards of contracts to the following lowest bidders for the construction of an addition to the Smith Memorial Music Hall. This addition is to be west of the building, at the basement level only, and will provide a large music room with a seating capacity for 224 students and will be used jointly for choral and orchestral work. A complete additional unit can be built around and over this room at a future time.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute these contracts.

On motion of Mrs. Holt, these contracts were awarded and the Comptroller and the Secretary of the Board were authorized to execute the same.

This action was taken by the following vote: Aye, Mr. Bissell, Mr. Grange, Mr. Herrick, Mr. Hickman, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Nickell, Mrs. Watkins; no, none; absent, Mr. Megran, Mr. Stratton.

CONTRACT FOR AIR-CONDITIONING INSTALLATION IN ANIMAL HOSPITAL QUARTERS AT THE CHICAGO PROFESSIONAL COLLEGES

(14) The Director of the Physical Plant and the Comptroller recommend the award of a contract for \$4,196 to the Refrigeration Maintenance Corporation, Chicago, the lowest bidder, for an air-conditioning installation needed in the Animal Hospital quarters of the Chicago Professional Colleges. This will consist of furnishing and installing a unit for two rooms in the Dentistry-Medicine-Pharmacy Building which need to be air-conditioned to reduce mortality of experimental animals.

Funds are available in an appropriation made by the Board of Trustees for remodeling in the Animal Hospital.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute this contract.

On motion of Mr. Grange, this recommendation was approved and the Comptroller and the Secretary of the Board were authorized to execute the contract.

ADDITION TO CONTRACT FOR REFRIGERATION INSTALLATION IN HORTICULTURE FIELD LABORATORY

(15) The Director of the Physical Plant and the Comptroller recommend an increase of \$2,777 in the contract with Westerlin and Campbell Company, Peoria, for the refrigeration installation in the Horticulture Field Laboratory to include an exhaust fan ventilating system.

This item was an alternate in the original bids but was not included in the contract because it was desirable to reserve funds for contingencies. The work has now progressed to the point where it is known that the full amount set aside for contingencies will not be needed.

The inclusion of the ventilating system is desirable to protect storage products from damage due to accidental leakage of ammonia gas.

I concur and recommend that the Comptroller be authorized to execute this change in the contract.

On motion of Mrs. Holt, the Comptroller was authorized to execute this change in the contract.

EXCHANGE OF LAND FOR ALLEY ON SITE OF BUILDING FOR THE CHICAGO PROFESSIONAL COLLEGES

(16) The City Council of Chicago has before it an ordinance vacating an alley running north and south through the site of the Staff Apartment Building, the passage of which will give the University title to the land now designated as an alley.

A resolution by the Board of Trustees is needed dedicating a strip of land to the city of Chicago to provide an outlet to replace the vacated alley. The alley to be vacated is approximately 5,300 square feet in area while the land to be dedicated by the University is approximately 1,600 square feet in area.

The Director of the Physical Plant and the Comptroller recommend that the Board of Trustees adopt the necessary resolution dedicating the land for an outlet to replace the alley.

The Director of the Physical Plant and the Comptroller also recommend that the University grant easements to the Illinois Bell Telephone Company and the Commonwealth Edison Company for the overhead utility lines now in the alley to be vacated since this land will become University property.

I concur and recommend the adoption of the following resolution:

It Is Hereby Resolved by the Board of Trustees of the University of Illinois that the Comptroller and the Secretary of this Board be, and they are hereby, authorized, empowered, and directed, in the name of and on behalf of this Board, to execute and deliver to the city of Chicago a plat of dedication to said city of Chicago, for use as a public alley, of the following described strip of land, to wit:

The South Sixteen (16) Feet of Lot Thirteen (13) in Sturges and others Re-Subdivision of Block Nine (9) in the Assessor's Division of the East Half (E½) of the Southeast Quarter (SE¼) of Section Eighteen (18), Township Thirty-nine, (39) North, Range Fourteen (14) East, of the Third Principal Meridian, situated in the City of Chicago, County of Cook, State of Illinois legal title to which is now vested in said the Board of Trustees of the University of Illinois.

I also recommend that the Comptroller and the Secretary of the Board be authorized to execute the documents necessary to grant to the Illinois Bell Telephone Company and the Commonwealth Edison Company the easements across the following described University land.

To the Commonwealth Edison Company an easement to the strip of land as follows:

All of the North-and-South public alley, Sixteen (16) feet wide, lying West of and adjoining Lots One (1) to Eleven (11), both inclusive, and lying East of and adjoining Lots Fourteen (14) to Twenty-four (24), both inclusive, in Sturgis and other Resubdivision, aforesaid, and

To the Illinois Bell Telephone Company an easement to the strip of land described as follows:

The North 332.3' of the North-and-South 16' public alley in the block bounded by S. Marshfield Avenue, W. Polk Street, S. Ashland Boulevard and W. Taylor Street.

On motion of Mr. Herrick, the above resolution dedicating land to the city of Chicago was adopted and the Comptroller and the Secretary of the Board were authorized to execute a plat of dedication to be delivered to the municipal authorities, and also documents granting the easements recommended. This action was taken by the following vote: Aye, Mr. Bissell, Mr. Grange, Mr. Herrick, Mr. Hickman, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Nickell, Mrs. Watkins; no, none; absent, Mr. Megran, Mr. Stratton.

EXTENSION OF URBANA PARK DISTRICT

(17) On petition of the University the city of Urbana has extended the city limits to include the staff housing area at Race Street and Florida Avenue.

Subsequently, the University was requested to assent to the expansion of the Urbana Park District to include the campus area added to the city. The Board gave its assent to the annexation on March 12, 1952, but the description of the property reported to the Board, and as recorded in the minutes of that meeting, does not include all the new area added to the city. Since it was obviously the intent of the Board to include all the University campus now within the city limits of Urbana, and to clarify this intention, it is recommended that the Board adopt the following resolution to supersede the action of March 12, 1952.

Consent to Annexation of Territory to Urbana Park District in Champaign County, Illinois

WHEREAS, the Board of Trustees of the University of Illinois, a Public Corporation, is the owner of the Northwest Quarter of Section 20 and the Northeast Quarter of Section 19, in Township 19 North, Range 9 East of the Third Principal Meridian, in Champaign County, Illinois; and

WHEREAS it is proposed to annex a portion of the North part of said lands to Urbana Park District in Champaign County, Illinois; and

WHEREAS it is provided by law that no tract of land exceeding Ten (10) acres in area shall be included in any annexation petition without the written consent of the owner of record unless the tract (1) is subdivided into lots or blocks, or (2) is bounded on at least Three (3) sides by lands subdivided into lots and blocks; and

ASSIGNMENT OF PAINTING CONTRACT ON CONSTRUCTION OF RESEARCH AND EDUCATIONAL HOSPITALS ADDITION

(20) As a result of negotiations the Patrick Warren Construction Company agrees to assign to the University its contract with Associated Decorators, Inc., Chicago, for interior painting in the addition to the Research and Educational Hospitals for which the Warren Company is the general contractor, and will allow the University a credit of \$12,222.63 which represents the estimated cost of work yet to be done, plus a proportionate amount of the anticipated profit. This will expedite completion of construction, reduce the amount of work under control of the Patrick Warren Construction Company, and avoid further increased costs resulting from wage increases effective April 1, 1953.

¹ Deduct.

The Associated Decorators, Inc. will take the proposed assignment based upon a total cost of \$16,552 plus additional compensation of two cents per square foot for washing of such areas as are specified by the Physical Plant Department.

The Director of the Physical Plant and the Comptroller recommend acceptance of the assignment of the painting contract from the Patrick Warren Construction Company and the execution of a contract with the Associated Decorators, Inc. for \$16,552 plus two cents per square foot for washing as specified. Funds are available in the state appropriation for the construction of the addition to the Research and Educational Hospitals.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute the necessary documents.

On motion of Mr. Johnston, acceptance by the University of the assignment of the painting contract from the Patrick Warren Construction Company and the execution of a contract with Associated Decorators, Inc. were authorized, as recommended. The Comptroller and the Secretary of the Board were empowered to execute the necessary documents.

BIENNIAL BUDGET FOR 1953-1955

(21) With respect to the University's budget requests for the biennium of 1953-1955, I recommend that a special committee be formed, consisting of the President of the Board of Trustees, the Chairman of the Committee on General Policy, and the President of the University to confer with the Governor and the officers and appropriate committees of the Sixty-eighth General Assembly of Illinois.

On motion of Mr. Grange, this recommendation was approved and Messrs. Park Livingston, Wayne A. Johnston, and George D. Stoddard were appointed a Special Committee to confer with the Governor and the officers and committees of the Sixty-eighth General Assembly of Illinois regarding the University's biennial budget.

THE BENJAMIN FRANKLIN MAGAZINE AWARDS FUND

(22) Two foundations, desiring to remain anonymous, have each given the University of Illinois \$25,000 to establish a fund for a series of annual awards to magazines and magazine writers, which shall be designated and known as the "Benjamin Franklin Magazine Awards." In addition, the President of the two foundations has made a personal gift of \$2,500 for the unavoidable expenses that will be incurred in launching this project, so that the total fund presently is \$52,500. The University of Illinois and the University of Illinois Foundation will encourage and accept gifts from other sources to be added to the fund provided such contributions are made upon the same conditions as the original gift.

An advisory board to aid the University in making these awards is being set up to include the President of the University of Illinois *ex officio*; the Dean of the Division of Communications of the University of Illinois *ex officio*; member of the Society of Magazine Writers, to be selected by the Society; two publisher-editors to be selected for a three-year term; and a public representative to be selected for a three-year term.

The idea of annual awards in the magazine field was initiated by the Society of Magazine Writers of New York City and the plan now proposed is the culmination of several years of cooperative effort by the Society and the University through Mr. Josef F. Wright.

There will be eight annual awards, beginning in 1953, as follows:

Award No. 1. For the most distinguished and meritorious public service during the year by an American magazine of general circulation—a gold medal and scroll to the editor.

Award No. 2. For the most distinguished magazine writing involving original reporting in which serious obstacles had to be overcome—to the writer a scroll and the sum of \$1,000.

Award No. 3. For the best article, or series of articles, depicting life, culture, or institutions in the United States—to the writer a scroll and the sum of \$500.

Award No. 4. For the best interpretation of the foreign scene or of our foreign relations—to the writer a scroll and the sum of \$500.

Award No. 5. For the article best depicting a person, living or dead—to the writer a scroll and the sum of \$500.

Award No. 6. For the best piece of magazine humor—to the writer a scroll and the sum of \$500.

Award No. 7. For the best short story—to the writer a scroll and the sum of \$500.

Award No. 8. For an outstanding meritorious presentation in any category not specifically covered by the other awards—to the writer a scroll and the sum of \$500.

I have accepted this gift on behalf of the Board of Trustees and the instrument of acceptance has been executed by the Comptroller and the Secretary of the Board. Confirmation of these official actions is requested. The executed deed of gift, copies of which were distributed to the members of the Board of Trustees for examination at this meeting, is filed with the Secretary of the Board.

On motion of Mrs. Holt, this fund was accepted in accordance with the terms of the deed of the gift and the plan of awards as recommended was approved.

On motion of Mrs. Watkins, the Secretary of the Board was instructed to express to Mr. J. F. Wright, Director of Public Relations, the appreciation of the Board of his work on this project.

MEETING OF THE EXECUTIVE COMMITTEE

MARCH 25, 1953

A meeting of the Executive Committee of the Board of Trustees of the University of Illinois was held in the LaSalle Hotel, Chicago, Illinois, on Wednesday, March 25, 1953, at 1:30 p.m.

Mr. Park Livingston, Chairman, and Mrs. Frances B. Watkins were present. Mr. Herbert B. Megran was absent. Also present was Mr. A. J. Janata, Secretary of the Board and Clerk of the Committee.

The Secretary of the Board presented the following recommendation from the President of the University.

On September 24, 1952, the Board of Trustees made an assignment of \$86,545 on recommendation of the Committee on Nonrecurring Appropriations for the purchase of equipment basic to television operations and the motion picture unit. The Committee now recommends a supplemental assignment from the General Reserve of \$15,022 for the purchase of additional equipment which is needed for educational and experimental work and can be used regardless of when the University begins to operate a television station.

An itemized list of the equipment to be purchased with an explanation of its use is submitted herewith.

I concur in the Committee's recommendation.

On motion of Mrs. Watkins, an appropriation of \$15,022 was made by the following vote: Aye, Mr. Livingston, Mrs. Watkins; no, none; absent, Mr. Megran.

The Committee adjourned.

MEETING OF THE BOARD OF TRUSTEES
OF THE
UNIVERSITY OF ILLINOIS

April 20, 1953

The following members were present: Mr. Cushman B. Bissell, Mr. Wirt Herrick, Mrs. Doris S. Holt, Mr. Wayne A. Johnston, Mr. Park Livingston, and Mrs. Frances B. Watkins. Mr. Harold E. Grange, Mr. Robert Z. Hickman, Mr. Herbert B. Megran, Mr. Vernon L. Nickell, and Governor William G. Stratton were absent.

Also present were President George D. Stoddard, Provost Coleman R. Griffith, Mr. Ralph F. Lesemann, Legal Counsel, Mr. J. F. Wright, Director of Public Relations, Mr. Lloyd Morey, Comptroller, Mr. C. W. Weldon, Treasurer, and Mr. A. J. Janata, Secretary of the Board.

EXECUTIVE SESSION

BUSINESS PRESENTED BY THE PRESIDENT OF THE UNIVERSITY

The Board convened in Executive Session to consider the following reports and recommendations from the President of the University.

PATENTABLE DISCOVERIES

(1) The University Patent Committee submits the following recommendations relating to potentially patentable discoveries:

a. Thomas R. O'Meara, Research Associate in Electrical Engineering, and Harold D. Webb, Associate Professor of Electrical Engineering, have developed a method for recording bearings from a Watson-watt or dual-channel type direction finder. This invention is the result of research under a contract with the Office of Naval Research. The invention is of primary interest to various government agencies and has only limited commercial possibilities. The Committee recommends the release of the invention to the United States Navy.

b. Arthur L. Samuel, formerly Professor of Electrical Engineering and now on the staff of the Bell Telephone Laboratories, has developed an electrostatic storage system for high-speed computers. The basic idea was formulated by him at the University of Illinois and the Board of Trustees authorized the filing of a patent application. Subsequently the University's patent attorney discovered a possible interference with this patent and it was decided, with the approval of the Board, not to prosecute the application. Dr. Samuel has now offered to reimburse the University for expenses (approximately \$1,000) incurred in this patent application if the University will release to him all rights it may have. The Committee recommends that all rights be released to Dr. Samuel under this condition.

I concur in these recommendations.

On motion of Mr. Johnston, these recommendations were approved.

**PATENTABLE DISCOVERIES DISCLOSED BY GRANT FAIRBANKS
AND WILLIAM L. EVERITT**

(2) The Board of Trustees has authorized patent applications covering an invention by Professor Grant Fairbanks of the Department of Speech, Dean William L. Everitt of the College of Engineering, and Mr. Robert P. Jaeger, formerly Electronic Engineer in the Department of Speech and now on the staff of the Bell Telephone Laboratories, of an electro-mechanical machine for time compression of acoustical signals and its use in various types of communications systems. The device makes possible reproduction of connected speech or music in less or more than the original time with retention of intelligibility and fidelity of reproduction.

Professor Fairbanks disclosed on March 22, 1953, as the sole inventor, a device for effecting time or frequency compression, or time or frequency expansion, by electronic means. He and Dean Everitt also disclosed on March 31, 1953, a control device for automatic and variable time compression and expansion. This permits playback of a recorded signal in shorter or longer time than the original recorded time, or in the same time, without substantial alteration of the original recorded frequencies, reproduced pitch, or intelligibility in the case of speech. It is based on the essential principles of a feature of the original time compressor. It offers possibilities of being incorporated, at comparatively low cost, in various types of communications equipment, a conspicuous example being office dictating equipment in which the control unit could be operated by foot, elbow, or finger and the operator transcribing recorded dictation could select a speed of reproduction appropriate to typing speed, varying such speed according to variations in the speed of dictation.

The original, signed and witnessed, disclosures of these two additional devices were filed on the dates indicated with the Secretary of the Board of Trustees. Because of the commercial possibilities inherent in these two devices, the patent attorneys for the University and the University of Illinois Foundation have been requested, through the Foundation, to institute patent applica-

tions to be assigned to the Foundation. For obvious reasons, it is desirable to keep the existence of these devices confidential, at least for the time being. Since the present devices are technological extensions of the original invention, and since the basic discoveries, as well as the details of the original invention, have already been fully and formerly reported before scientific societies in Urbana and in New York City, such procedure would not be in violation of scientific ethics.

On motion of Mr. Herrick, the actions taken were confirmed and the patent applications authorized.

**AGREEMENT WITH DEMONSTRATOR'S ASSOCIATION OF ILLINOIS
AND APPROPRIATION FOR SERVICES TO THE
COLLEGE OF MEDICINE**

(3) The Chicago Professional Colleges purchase anatomical specimens required for the instruction of students and for research from the Demonstrator's Association of Illinois, a non-profit corporation chartered to secure such specimens for medical and other schools requiring the same. The participating institutions pay the Association for services rendered, the charges in each case being based upon the number of specimens delivered. The charges are sufficient only to cover the cost of preparing and delivering specimens, and the Association realizes no substantial profits or surplus from its operations. It has never had adequate quarters and has been carrying on its work in several old buildings which are now the property of the Medical Center Commission. The building presently occupied is in an unsatisfactory location and is in such poor condition that expenditures for repairs would not be justified.

The University of Illinois is represented on the Board of Directors of the Association, and it is the judgment of this Board that the Association should construct a new building suitably located and properly equipped for its work. The Board proposes to increase the charges for specimens sufficiently to amortize the cost of a new building and equipment over a period of years, but it has no capital for construction and the only feasible method of financing it is through securing advance payments from participating institutions for services to be rendered. The institutions making such advance payments will not be charged the additional prices for specimens to be paid by other institutions and agencies served by the Association.

A fund of \$100,000 is needed by the Association for the purchase of a site, construction of a building, and installation of equipment. The Association asks the University of Illinois for an advance payment of \$33,410 for services to be rendered, in return for which the University will be relieved of approximately \$2,000 per year of extra charges for the specimens it will purchase.

The Business Manager of the Chicago Professional Colleges, the Acting Dean of the College of Medicine, and the Comptroller recommend that the Board of Trustees authorize an agreement with the Demonstrator's Association and payment of \$33,410 for this project. Funds are available for this purpose in the readjusted budget for the operation of the Research and Educational Hospitals recently authorized by the Board.

I recommend that this plan be approved, that an appropriation of \$33,410 be made from the source indicated, and that the Comptroller and the Secretary be authorized to execute the necessary documents subject to approval of the same by the Legal Counsel.

On motion of Mrs. Watkins, this recommendation was approved, an appropriation of \$33,410 or so much thereof as may be necessary was made for the project, and authority was given as requested. This action was taken by the following vote: Aye, Mr. Bissell, Mr. Herrick, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mrs. Watkins; no, none; absent, Mr. Grange, Mr. Hickman, Mr. Megran, Mr. Nickell, Mr. Stratton.

WAGE AGREEMENT WITH BUILDING SERVICE EMPLOYEES

(4) With the approval of the Board of Trustees (May, 1943), the work week of Building Service Employees (janitors) at Champaign and Urbana was established. In July, 1943, the Board approved payment of wage rates to janitors in Champaign and Urbana based on Class B Common Labor rates paid in this community. In May, 1948, again with the approval of the Board, an agreement was negotiated for a rate structure and conditions of employment paralleling, in principle, those in agreements between the Building Managers Association of Chicago and Building Service Employees in that city.

The present agreement with the employees at Urbana-Champaign is on a year-to-year basis and provides that either party may reopen the agreement for new negotiations upon notice to the other at least sixty days before expiration of the agreement. Inasmuch as it was based on actions of the Board of Trustees, the Director of Nonacademic Personnel requests authority to renegotiate the agreement with the understanding that final approval of the negotiations rests with the Board of Trustees.

I concur.

On motion of Mr. Bissell, authority was given as requested.

STATUS OF PLANS FOR DEVELOPMENT OF TELEVISION PROGRAM

(5) President Stoddard reported informally on the status of plans for the development of the University's television program in terms of a reduced budget. He stated that if sufficient funds are appropriated by the General Assembly of Illinois for the biennium of 1953-1955 to maintain the operation of the University on the same basis as during the current biennium, including commitments already made, it would still be feasible to begin the operation of a television station. Such an operation would necessarily be on a limited scale but perhaps adequate to meet the requirements of the Federal Communications Commission for the issuance of a license to construct and operate an educational television station on Channel 12, and to meet the conditions of the Ford Foundation's offer of a grant of \$100,000 for this program.

On motion of Mrs. Watkins, the President of the University was authorized to do whatever is necessary, within prospective budgetary resources, to carry out plans for the development of such television facilities as are feasible, and including steps to secure the allocation of Channel 12 to the University.

President Livingston stated that he would reactivate the Special Committee of the Board of Trustees on Television and that he would make an appointment to the Committee as replacement for Mr. John R. Fornof.¹

BIENNIAL BUDGET FOR 1953-1955

(6) The Special Committee appointed by the Board of Trustees on March 25, 1953 (Minutes, page 597), to confer with the Governor and the officers and committees of the Sixty-eighth General Assembly of Illinois regarding the University's biennial budget made an informal report of a conference held with the Governor on March 30 and subsequent conferences with the Director of Finance.

Copies of a formal statement given by the Committee to the Governor and of the public announcement made by the President of the University on the following day were sent to all members of the Board of Trustees and copies have been filed with the Secretary of the Board for record.

¹ President Livingston subsequently appointed Mr. Cushman B. Bissell as a member of this Committee. (Secretary's note.)

OPEN SESSION

At this point the Board convened in open session to consider the following reports and recommendations from the President of the University.

APPOINTMENT TO BOARD OF EXAMINERS IN ACCOUNTANCY

(7) The Committee on Accountancy recommends the appointment of Mr. George R. Catlett, C.P.A., a partner in the firm of Arthur Anderson and Company, 120 South LaSalle Street, Chicago, to the Board of Examiners in Accountancy for a period of three years beginning July 1, 1953, replacing Mr. C. R. Miller whose three-year term will expire June 30, 1953.

I concur.

On motion of Mr. Herrick, this appointment was approved.

On motion of Mrs. Watkins, these appointments were confirmed.

LEAVE OF ABSENCE FOR PROFESSOR ROBERT BIERSTEDT

(9) Professor Robert Bierstedt of the Department of Sociology and Anthropology, who was granted a sabbatical leave of absence for the academic year 1953-1954 on one-half pay, has requested that in lieu thereof he be given leave of absence for the year without pay so that he may accept a visiting assignment as Professor and Chairman of the Department of Sociology and Anthropology at the City College of New York. The President has approved this request and accordingly Professor Bierstedt's name has been deleted from the list of sabbatical leaves approved by the Board of Trustees at its meeting on March 25, 1953.

This report was received for record.

GRADUATION WITH HONORS IN AGRICULTURE

(10) The Faculty of the College of Agriculture and the University Senate recommend the following plan for awarding graduation honors in agriculture, effective January 1, 1954:

Honors awarded to superior students at graduation shall be designated, after the name and the degree on the diploma, as Honors and High Honors. For the degree with Honors, the students must have an average of 4.2 in all courses used for graduation; for the degree with High Honors, the student must have an average of 4.5 in all courses used for graduation.

I concur.

On motion of Mrs. Watkins, this recommendation was approved.

CHANGES IN CHEMICAL ENGINEERING CURRICULUM INCLUDING ENTRANCE REQUIREMENTS

(11) The Faculty of the College of Liberal Arts and Sciences and the University Senate recommend the following changes in the curriculum in chemical engineering, to become effective in September, 1953:

(a) Entrance Requirements. Three and one-half units of high school mathematics to be required as follows: algebra, two units; plane geometry, one unit; trigonometry, one-half unit. An additional one-half unit in solid geometry is to be recommended. (The present mathematics requirement is algebra, one and one-half units; geometry, one unit; however, three units of mathematics are recommended.)

Students who present only one unit in algebra and one unit in geometry, and who meet all other requirements, may be admitted on the condition that the deficiencies be removed during their first year of residence.

Students who do not present the three and one-half units in mathematics as specified may be admitted to full standing by passing a proficiency examination at the University which will indicate that their preparation is adequate for entrance into analytic geometry.

(b) The sequence Mathematics 122 (Analytic Geometry), 132 (Calculus, first course), 142 (Calculus, second course) will replace the sequence Mathematics 117 (Combined Freshman Mathematics), 127 (Combined Freshman Mathematics, continuation of Mathematics 117), 137 (Calculus), 147 (Calculus, continuation of Mathematics 137).

(c) The sequence Physics 106 (General Physics — Mechanics), 107 (General Physics — Electricity, Magnetism, Modern Physics), 108 (General Physics — Heat, Sound, Light, Modern Physics) will replace the sequence Physics 103 (General Physics — Mechanics, Heat, and Sound), 104 (General Physics — Electricity, Magnetism, Light, and Modern Physics).

(d) A student who has had neither French nor German in high school may substitute the second year of the language requirement for the required six hours of General Studies electives.

I concur.

On motion of Mr. Bissell, this recommendation was approved.

CHANGE IN REQUIREMENTS FOR DEGREE OF DOCTOR OF PHILOSOPHY IN PHYSICAL EDUCATION

(12) The Faculty of the School of Physical Education and the University Senate recommend that for the degree of Doctor of Philosophy in Physical Education the general requirement shall be "a minimum of eight units of credit in physical education courses, or in related courses in health education and recreation," effective immediately.

I concur.

On motion of Mr. Johnston, this recommendation was approved.

CHANGE IN REQUIREMENTS FOR THE DEGREE OF BACHELOR OF SCIENCE IN PHYSICAL EDUCATION

(13) The Faculty of the School of Physical Education and the University Senate recommend that the requirements for the degree of Bachelor of Science in Physical Education (Men) shall include eight hours of biological science, specifically either a combination of Division of General Studies 131 and 132 (Biological Science), or a combination of Botany 100 (General Botany) and Zoology 104 (Elementary Zoology). This change in the requirements will become effective September 1, 1953, and will be applicable to all students entering the curriculum after that date.

I concur.

On motion of Mrs. Holt, this recommendation was approved.

PROGRAM IN AIRCRAFT MAINTENANCE

(14) The University Senate recommends (a) a continuation of the two-year terminal curriculum in aircraft maintenance, and (b) that this action shall not

be considered as constituting a precedent for the establishment of similar programs.

I concur.

On motion of Mr. Johnston, these recommendations were approved.

APPROPRIATION FOR INJURIES TO EMPLOYEES

(15) Certain Workmen's Compensation claims of an unusually large size have resulted in extra demands on the Injuries to Employees Account, so that funds now appropriated will be insufficient to meet our liabilities under the Workmen's Compensation Act. It is, therefore, requested that an additional \$19,800 be appropriated to that account to meet the University's liabilities to the following named employees: Florence Dixon, James A. Johnson, James A. Voss, Frank Seiler, William Riggins, and James L. Ragle.

With this appropriation for these several claims, the present balance of the Injuries to Employees Account should be sufficient to meet the other expenditures required. It is anticipated that not all of these cases will be settled by the end of the current fiscal year, and it is therefore requested that any unexpended balance of this special appropriation be carried over to the next fiscal year.

I concur.

On motion of Mrs. Holt, this appropriation was made by the following vote: Aye, Mr. Bissell, Mr. Herrick, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mrs. Watkins; no, none; absent, Mr. Grange, Mr. Hickman, Mr. Megran, Mr. Nickell, Mr. Stratton.

APPROPRIATIONS BY THE ATHLETIC ASSOCIATION

(16) The Board of Directors of the Athletic Association has made the following assignments of funds which represent changes in its budget and are subject to approval by the Board of Trustees:

| | |
|--|---------|
| Expenses of spring training trip for varsity baseball squad—assignment from surplus funds..... | \$2 600 |
| Purchase of pump for University golf course—assignment from reserve for contingencies..... | 1 360 |
| Purchase of gang mower with tractor—assignment from surplus funds.. | 1 368 |
| Purchase of bleachers—assignment from surplus funds..... | 6 872 |
| I recommend confirmation of these actions. | |

On motion of Mr. Herrick, these adjustments in the budget were approved.

INCREASE IN TUITION FEES

(17) The special committee appointed by the Board of Trustees on March 25, 1953, to confer with the Governor on the University's budget for 1953-1955 recommends that to provide a part of the income needed for the biennium the tuition fee be increased \$10 a semester and \$5 for the eight-week summer session, this increase to apply to all colleges and schools of the University and at all levels of instruction.

The revised fees at Urbana-Champaign and at the Chicago Undergraduate Division would then be \$50 a semester (\$100 an academic year) for residents and \$160 a semester (\$320 an academic year) for nonresidents. The eight-week summer session fee would be \$25 for residents and \$80 for nonresidents. Partial fees shall be adjusted on a pro rata basis by the President of the University on recommendation of the Committee on Fees and Scholarships.

In the Chicago Professional Colleges the academic year (September to June) is divided into three twelve-week terms instead of two semesters, with an optional term of twelve weeks offered during the summer months in the College of Medicine. The present tuition fees are \$27 each quarter (\$81 an academic year) for residents and \$100 each quarter (\$300 an academic year) for nonresidents. Hence, the increase applicable to the Chicago Professional Colleges would be \$7 a quarter. The revised fees would then be \$34 each quarter (\$102 an academic year) for residents and \$107 each quarter (\$321 an academic year) for nonresidents.

I concur and recommend that these changes become effective September 1, 1953.

On motion of Mr. Bissell, these changes were approved by the following vote: Aye, Mr. Bissell, Mr. Herrick, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mrs. Watkins; no, none; absent, Mr. Grange, Mr. Hickman, Mr. Megran, Mr. Nickell, Mr. Stratton.

CONTRACTS FOR FIRE STATION IMPROVEMENTS AT URBANA-CHAMPAIGN

(18) The Director of the Physical Plant and the Comptroller recommend award of the following contracts for improvements in the Fire Station at Urbana-Champaign:

General work — E. N. DeAtley, Champaign.....\$23 235 00
The base bid is \$24,520. The University will take two alternates which provide deductions of \$425 for omission of asphalt tile floor surfacing and \$860 for omission of painting of masonry surfaces; total deduction, \$1,285.

Plumbing and heating work — Reliable Plumbing and Heating Co., Champaign 10 880 00
The above awards are to the lowest bidders.

Electrical work — Potter Electric Co., Urbana..... 7 238 25
It is proposed that this phase of the work be done under the University's standing cost-plus contract with the Potter Electric Company for remodeling work. The Physical Plant Department reports that it is not feasible to prepare specifications and secure competitive bids on the electrical work and complete the project by the end of the current fiscal biennium when the funds available for it will lapse.

Funds for this project are available in the state appropriation "For remodeling, modernization, and improvement of existing buildings at Urbana-Champaign, including water reclamation installations, plans and specifications and fixed equipment installed relating thereto," and have been released by the Governor.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute the contracts with E. N. DeAtley and the Reliable Plumbing and Heating Company and the change in the contract with the Potter Electric Company for this remodeling work.

On motion of Mrs. Watkins, this recommendation was approved and the Comptroller and the Secretary of the Board were authorized to execute the contract.

CONTRACT FOR REMOVAL OF SMOKE STACK FOUNDATION IN MECHANICAL ENGINEERING LABORATORY

(19) The Director of the Physical Plant and the Comptroller recommend award of a contract for \$5,250 to E. N. DeAtley, Champaign, the lowest bidder, for the removal of the foundation of the smoke stack in the Mechanical Engineering Laboratory, formerly the Engine Room of the old power plant. The old plant had two smoke stacks, one in the old Boiler House and the other in the Engine Room. The two stacks, other than the foundations, were removed several years ago. The removal of the foundation in the old Boiler House, now the Engineering Research Laboratory, is not necessary at this time, but the foundation in the former Engine Room, now the Mechanical Engineering Laboratory, takes up much needed floor space and should be removed.

Funds are available in an appropriation made by the Board of Trustees on January 21, 1953, for removal of the stack foundation and improvement of the vacated area.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute this contract.

On motion of Mr. Johnston, this recommendation was approved and the Comptroller and the Secretary of the Board were authorized to execute the contract.

**CONTRACT FOR MACHINE SHED AT DRUG PLANT
EXPERIMENT STATION**

(20) The Director of the Physical Plant and the Comptroller recommend award of a contract for \$17,772 to Ford Brothers, Chicago, the lowest bidder, for the construction of a machine shed and equipment building at the Drug Plant Experiment Station at Lisle, Illinois. This Station at the Morton Arboretum is used jointly by the College of Pharmacy and the Department of Horticulture. It replaced the former Cook County Experiment Station near Des Plaines which was sold when residential and industrial growth in this area reduced its effectiveness for experimental work on vegetable crops.

The structure will house tractors, discs, a truck, and other farming equipment and will also be used as a repair shop.

The Board of Trustees has already made an assignment of funds for this construction.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute this contract.

On motion of Mrs. Watkins, this recommendation was approved and the Comptroller and the Secretary of the Board were authorized to execute the contract.

**CONTRACT FOR REMOVAL AND REPLACEMENT OF MAIN BOILER
ROOM STACK AT THE CHICAGO UNDERGRADUATE DIVISION**

(21) The Director of the Physical Plant and the Comptroller recommend award of a contract for \$3,000 to George E. Corbett Boiler and Tank, Inc., Chicago, the lowest bidder, for replacing the main boiler room steel stack at the Chicago Undergraduate Division at Navy Pier.

The stack has deteriorated to such extent that it is a serious hazard and its collapse would cause considerable damage to the property and would endanger students and staff in the second floor annex. Under the terms of the lease with the city of Chicago for the rental of Navy Pier, the University is responsible for this replacement.

Funds are available in the Physical Plant budget.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute this contract.

On motion of Mr. Johnston, this recommendation was approved and the Comptroller and the Secretary of the Board were authorized to execute the contract.

**CONTRACT FOR THE REPLACEMENT OF PIPING IN THE MEN'S
GYMNASIUM AT THE CHICAGO UNDERGRADUATE DIVISION**

(22) The Director of the Physical Plant and the Comptroller recommend award of a contract for \$4,760 to the World Plumbing Company, Chicago, the lowest bidder, for the removal and replacement of cold water piping in the Drill Hall at Navy Pier, which is used as a men's gymnasium by the Chicago Undergraduate Division.

When the Drill Hall was constructed by the Navy twelve years ago black iron piping was used due to shortage of standard piping normally used in such installations. Rusting of the piping has caused leaks and this deterioration will increase. The contract provides for installation of galvanized iron piping. Under the terms of the lease with the city of Chicago for the rental of the Drill Hall, this replacement is the University's responsibility.

Funds are available in the Physical Plant budget.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute this contract.

On motion of Mr. Herrick, this recommendation was approved and the Comptroller and the Secretary of the Board were authorized to execute the contract.

**AGREEMENT WITH COMMONWEALTH EDISON COMPANY FOR
EXTENSION OF ELECTRIC SERVICES AT
CHICAGO PROFESSIONAL COLLEGES**

(23) The Director of the Physical Plant and the Comptroller recommend execution of an "excess facilities agreement" with the Commonwealth Edison Company for the supplying of electric service to the East Dentistry-Medicine-Pharmacy Building now under construction.

The Board of Trustees has approved an agreement with the Commonwealth Edison Company for the delivery of electric power at the Chicago Professional Colleges through central points and its sale under a plan known as "multiple service and combined billing." This results in a lower rate since it is based on the total demand. The delivery of electric power to the East Dentistry-Medicine-Pharmacy Building will require the Commonwealth Edison Company to furnish and install certain underground and vault equipment for which the University will make a lump sum payment of \$9,367 and pay a monthly transformer rental of \$278.25 to Commonwealth. However, the reduced billing under this arrangement will result in the recovery of the payment of \$9,367 by the University during the first three years. The reduced billing will continue thereafter.

Funds are available in the appropriation for the construction of the East Dentistry-Medicine-Pharmacy Building and in the operation and maintenance budget of the Physical Plant Department to provide for these payments.

I concur and recommend that the officers of the Board be authorized to execute the necessary documents.

On motion of Mrs. Watkins, this recommendation was approved.

CONTRACT FOR PURCHASE OF COAL FOR CHICAGO DEPARTMENTS

(24) Bids have been received on uniform specifications for the purchase of 16,000 tons of coal screenings to be delivered, as required from August 1, 1953, to June 30, 1954, to the Medical Center Steam Company operated by the University.

The Business Manager of the Chicago Departments, the Director of the Physical Plant, and the Comptroller recommend award of a contract to the Silver Creek Coal Company, Chicago, the lowest bidder, for 1¼" screenings coal to be furnished from their mine at a cost of \$4.25 f.o.b. mine, freight \$.78, plus \$1.32 handling and delivery charges, or a total estimated cost of \$101,600. This price is based on the present wage scale and is subject to increase or decrease in the event that wage contracts now in effect are changed. Any such change will affect the price to the extent that production costs are increased or decreased by the new contracts. The University has the right of approval or rejection of any such increase in price.

The lowest bid is determined by the number of British Thermal Units for one cent based on guaranteed analyses. A continuous check at the power plant is provided to insure compliance with specifications.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute the contract subject to approval by the Governor as required by the state constitution.

On motion of Mr. Johnston, this contract was awarded as recommended, and the Comptroller and the Secretary of the Board were authorized to execute the same.

**OIL AND GAS LEASE ON FORMER OLNEY AGRICULTURAL
EXPERIMENT FARM**

(25) The University formerly owned 96.31 acres of land in Richland County near Olney, Illinois. It was purchased in 1909 as an experimental fruit farm for the Department of Horticulture and was used continuously until 1951 when it was sold on recommendation of University authorities and with the approval of the Board of Trustees. In selling the land the University retained one-half

of the mineral rights. The Calvert Drilling Company, Inc., Olney, wishes to secure an oil and gas lease on this land. Raymond Hahn, the present owner, is agreeable to such a lease.

The area to be leased is approximately seventy-seven acres. A standard form of lease for a period of two years has been proposed with the provision that if drilling operations are not commenced on or offsetting (i.e., a well drilled directly opposite and within 330 feet of any line) said land within a year, and completed with due diligence with a depth sufficient to test the "McCloskey" formation, the lease shall be terminated. The University would receive one-sixteenth (or one-half of the usual one-eighth provision) of any oil or gas produced, plus a rental of \$1.00 an acre in the event the Company wishes to continue the lease in the second year in the absence of successful drilling. The Board of Trustees previously authorized the lease of this land, when it was owned by the University, to the Sun Oil Company but this lease has now expired.

The proposal submitted by the Calvert Drilling Company, Inc., has been checked by the Comptroller and the Legal Counsel who recommend its acceptance.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute this lease.

On motion of Mr. Herrick, this was referred to the Executive Committee for further negotiation and with power to act.

(26) The Director of Purchases has proposed and the Comptroller recommends the following purchases. Unless otherwise specified, the purchase in each case is recommended on the basis of lowest bid.

ANNUAL REPORT OF UNIVERSITY TREASURER

(28) The Treasurer of the University has submitted a report of the operations of his office for the period March 1, 1952, to February 28, 1953, certified by the Comptroller. A copy of this report is filed with the Secretary of the Board.

This report was received for record.

APPOINTMENTS TO THE 1953 SUMMER SESSION STAFF

(29) I submit recommendations for appointments to the faculty for the 1953 summer session. The appointments and the budget provide for an eight-week session at Urbana-Champaign and at the Chicago Undergraduate Division.

Salaries of members of the faculty recommended for appointments to the summer session staff are computed on the basis of two-ninths of the salary of the academic year for two months of summer service in accordance with the terms of employment of the academic staff as authorized by the Board of Trustees.

The budget totals \$464,000 for Urbana-Champaign, including a reserve of \$13,983 to be assigned on recommendation of the Dean of the Summer Session in terms of enrollment demands, and \$87,000 for Chicago, including a reserve of \$14,800 to be assigned on recommendation of the Dean of the Undergraduate Division.

The proposed 1953 summer session budget is \$52,500 less than the 1952 budget. This is due to a slightly smaller estimated enrollment and the elimination of sections with small registrations.

I recommend that the appointments to the summer session staff and the reserve for unassigned salaries be approved as submitted and that the President of the University be authorized to accept resignations and to make such changes, adjustments, and additional appointments as are necessary, in accordance with the needs of the University and within estimated income.

On motion of Mr. Johnston, these recommendations and appointments as listed below were approved.

(30) On recommendation of the Committee on Nonrecurring Appropriations, I recommend an assignment of \$20,000 from the General Reserve Fund to the Department of Physiology, in the College of Liberal Arts and Sciences, for remodeling and improvements of its quarters in the Natural History Building and for the purchase of needed equipment.

On motion of Mr. Bissell, this appropriation was made by the following vote: Aye, Mr. Bissell, Mr. Herrick, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mrs. Watkins; no, none; absent, Mr. Grange, Mr. Hickman, Mr. Megran, Mr. Nickell, Mr. Stratton.

REPORT OF FINANCE COMMITTEE ON BOND OF UNIVERSITY TREASURER

In the absence of the Chairman, Mr. Megran, Mr. Johnston presented the following report.

In electing Mr. C. W. Weldon on March 25, 1953, for a term of two years, the Board fixed the bond at \$5,000,000.

Mr. Weldon has offered a bond signed by himself as principal, with Edward E. Brown, James B. Forgan, and Homer J. Livingston as sureties for the required amount, providing for a full accounting for moneys, bonds, securities, or other property coming into his hands as Treasurer during his term of office and until his successor is elected and qualified. The bond is the same as that approved by the Board for the two-year term of 1951-1953.

The Finance Committee has examined this bond and recommends its approval.

On motion of Mr. Johnston, this bond was approved.

MAY AND JUNE MEETINGS

The Board had previously voted to hold its May meeting on Saturday, May 23, 1953, at Robert Allerton Park. The Secretary reported that Allerton House has two other meetings scheduled for May 23, and suggested that the Board meeting be held in the Illini Union Building, beginning at 11:00 a.m. (C.D.S.T.). Unanimous consent was given to this change.

On motion of Mrs. Watkins, the Board voted to hold its June meeting on Monday, June 22, 1953, beginning at 11:00 a.m. (C.D.S.T.), at Urbana or at Allerton Park and that the President and the Secretary of the Board be authorized to determine the place of the meeting.

On motion of Mrs. Holt, the Board adjourned.

Later in the day all members of the Board present at this meeting visited the Department of Speech Laboratory to witness a demonstration of the machine for time compression of accoustical signals invented by Professor Grant Fairbanks, Dean William L. Everitt, and Mr. Robert P. Jaeger.

MEETING OF THE BOARD OF TRUSTEES
OF THE
UNIVERSITY OF ILLINOIS

May 23, 1953

The May meeting of the Board of Trustees of the University of Illinois was held in the Illini Union Building, Urbana, Illinois, on Saturday, May 23, 1953, beginning at 11:00 a.m. (C.D.S.T.).

The following members were present: Mr. Cushman B. Bissell, Mr. Harold E. Grange, Mr. Wirt Herrick, Mr. Robert Z. Hickman, Mr. Wayne A. Johnston, Mr. Park Livingston, Mr. Herbert B. Megran, Mr. Vernon L. Nickell, Mrs. Frances B. Watkins. Governor William G. Stratton was absent. Mrs. Doris S. Holt was not present at the beginning of the meeting but joined it later.

Also present were: President George D. Stoddard, Provost Coleman R. Griffith, Mr. Ralph F. Lesemann, Legal Counsel, Mr. J. F. Wright, Director of Public Relations, Mr. Lloyd Morey, Comptroller, and Mr. A. J. Janata, Secretary of the Board.

MINUTES APPROVED

The Secretary presented the minutes of the annual meeting of the Board of Trustees on March 25, 1953, and of the meeting of the Board on April 20, 1953.

On motion of Mr. Grange, these minutes were approved as printed on pages 579 to 643, inclusive.

BUSINESS PRESENTED BY THE PRESIDENT OF THE UNIVERSITY

The Board took up consideration of the following reports and recommendations from the President of the University.

BIENNIAL BUDGET FOR 1953-1955

(1) On April 20, 1953, the special committee (Messrs. Park Livingston, Wayne A. Johnston, and George D. Stoddard) appointed by the Board of Trustees on March 25, 1953, to confer with the Governor and other state officials regarding the University's budget for 1953-1955 made an informal report to the Board of the conference which the Committee, together with Comptroller Lloyd Morey, had with the Governor on March 30.

At a subsequent conference on April 8 between the Comptroller and the State Director of Finance, M. H. Hollingsworth, additional information was presented and ways were suggested of meeting the deficiency between the estimate of University income (\$16,500,000, the same as for 1951-1953) in the Governor's budget and the income (\$13,250,000) which will be available during the next biennium.

This information and suggestions were given to the Governor by the Director. On April 28 the Director informed Senator Everett R. Peters, Chairman of the Illinois Budgetary Commission, and Comptroller Morey that the Governor had concurred in the following adjustments within the grand total of \$79,316,559 recommended by him for the University in his budget message:

Charge \$2,000,000 of the Home Economics Building to the Agricultural Premium Fund and add this amount to the University's operating appropriation from the general revenue (tax) fund. (The full appropriations for both the Home Economics and Law Buildings will be made.) This would give the University a tax fund operating appropriation of \$64,816,559. (This is an increase of \$3,243,868 from tax funds.)

The Governor will give administrative support to Senate Bill 350, sponsored by Senator Peters, to require veterans to pay tuition while receiving federal benefits. If passed by the General Assembly, this bill will increase the University's income by about \$400,000.

The Governor will approve an appropriation of \$14,500,000 from the University Income Fund, based on the following estimates:

| | |
|--|--------------------|
| (a) The University's original estimate of income..... | \$13 250 000 |
| (b) Increase in tuition approved by the Board..... | 600 000 |
| (c) Additional tuition from veterans..... | 400 000 |
| (d) Allowance for other income, source undetermined and left to the Board of Trustees to provide..... | 250 000 |
| | <hr/> \$14 500 000 |

This would give the University total operating appropriations of \$79,316,559, an increase of \$1,243,868 over present appropriations. (This is the exact amount of the Hospital Addition operation and Retirement System items.) Of this total \$250,000 depends upon finding additional income.

Increase in Laboratory, Library, and Supply Fee

To provide the additional \$250,000 of University income needed, I recommend that the laboratory, library, and supply fee charged all students at Urbana-Champaign and at the Chicago Undergraduate Division be increased from \$8.00 to \$11.00 a semester, and that the corresponding building and laboratory service fee charged at the Chicago Professional Colleges be increased \$6.00 a year or \$2.00 a term, effective September, 1953.

The report on the budget was received for record.

On motion of Mr. Herrick, the increases in the laboratory, library, and supply fee and in the building and laboratory service fee were authorized.

**REORGANIZATION OF DEPARTMENT OF BUSINESS
ORGANIZATION AND OPERATION**

(2) The Dean of the College of Commerce and Business Administration recommends that the following new departments be established in the College from the

present constituent divisions of the Department of Business Organization and Operation, the head of the department in each case to be responsible directly to the Dean of the College of Commerce and Business Administration: Department of Accountancy, Department of Business Education, Department of Business Law, Department of Management, and Department of Marketing.

It is further recommended that this reorganization become effective as of September 1, 1953. The Dean reports that the new departments will be set up within the budget allotments of the College of Commerce and Business Administration for the biennium 1953-1955.

I concur.

On motion of Mrs. Watkins, this reorganization was approved.

APPOINTMENTS TO THE FACULTY

(3) The following new appointments to the faculty of the rank of Assistant Professor and above, and involving tenure, have been approved since the previous meeting of the Board of Trustees.

1. SAM S. BARKULIS, Assistant Professor of Biological Chemistry, College of Medicine, beginning July 1, 1953, at an annual salary of \$6,400 (DY).

2. JOSEPH LARNER, Assistant Professor of Biochemistry, beginning September 1, 1953, at an annual salary of \$5,500 (B).

3. NORMAN F. OEBKER, Assistant Professor of Horticulture (Extension), beginning July 1, 1953, at an annual salary of \$5,400 (DY).

On motion of Mr. Grange, these appointments were confirmed.

CHANGES IN SABBATICAL LEAVES OF ABSENCE FOR 1953-1954

(4) The Board of Trustees on March 25, 1953, approved a number of sabbatical leaves of absence for 1953-1954. The following changes subsequently have been requested.

Atwell R. Turquette, Associate Professor of Philosophy, and B. Connor Johnson, Professor of Animal Nutrition, who were granted leaves of absence for the full academic year on one-half pay, have requested postponement of these leaves until 1954-1955.

I recommend that these leaves be cancelled without prejudice.

Helmut Rehder, Professor of German and Head of the Department, was granted leave for the full year on one-half pay, with the option of changing to leave for the first semester on full pay. He now requests that he be granted leave of absence without pay during the first semester of 1953-1954 and sabbatical leave of absence with full pay during the second semester.

I recommend approval.

Milton Derber, Professor of Labor and Industrial Relations, was granted leave for the full year on one-half pay, with the option of changing to leave for six months on full pay. He has exercised this option and is requesting a leave of absence for six months from March 1, 1954, on full pay.

This is reported for record.

On motion of Mr. Nickell, these recommendations were approved.

PATENTABLE DISCOVERIES

(5) The University Patent Committee submits the following recommendations relating to potentially patentable discoveries:

a. Dwight L. Deardorff, Professor of Manufacturing Pharmacy, and Dale W. Doerr, Assistant in Pharmacy, have reported the development of synthetic high polymers as coatings for pharmaceutical tablets.

b. Norman A. Parker, Professor of Mechanical Engineering and Head of the Department, and William L. Hull, Professor of Mechanical Engineering, report the invention of a hydraulic friction device.

The Committee recommends that these discoveries be referred to the University of Illinois Foundation for further study and authority to apply for patents if this appears desirable.

c. Raymond H. DuHamel, Research Assistant Professor of Electrical Engineering, and Robert C. Hansen, Research Assistant in Electrical Engineering, have invented an omnidirectional high gain antenna. Most of the work on this was done by Professor DuHamel before he joined the staff of the University and all of

the work was done by the two inventors off campus and on their own time. It is the judgment of the Committee that the University has no rights in this invention and the Committee recommends that it be released to the discoverers.

I concur in these recommendations.

On motion of Mr. Bissell, these recommendations were approved.
