MINUTES APPROVED

The Secretary presented the minutes of May 29, 1946.

On motion of Dr. Meyer, the minutes were approved as printed on pages 1097 to 1148.

PRESIDENT STODDARD PRESENT

President Livingston stated that President George Dinsmore Stoddard was present for the first time since taking charge of the affairs of the University on July 1, 1946, and asked him if he cared to make any statement.

President Stoddard made a brief statement touching on the functions and aims of a State university, and the problems facing all educational institutions at the present time.

MATTERS PRESENTED BY PRESIDENT STODDARD

The Board considered the following matters presented by the President of the University.

AWARD OF CONTRACT FOR WELL

(1) The Physical Plant Department has received the following bids on a test well and a new well to be located on the South Farm on the Urbana campus:

<i>Item</i>	<i>Hayes and Sims, Champaign</i>	<i>Layne-Western Company, Chicago</i>
Test well, 175-foot depth.....	\$ 1 050 00	\$ 700 00
Gravel packed well, 175-foot depth.....	11 513 50	8 485 00
25 feet of screen.....	1 456 50	(included with well)
<i>Total Bid</i>	<u>\$14 020 00</u>	<u>\$9 185 00</u>

The test well will first be sunk, and if the supply of water is found adequate the well will be finished. The additional water supply is urgently needed for reasons explained in a letter dated July 15 from the Director of the Physical Plant Department to the Comptroller, a copy of which is hereby given to the Secretary of the Board for record.

The Director of the Physical Plant Department and the Comptroller recommend that the contract be entered into with Layne-Western Company, the lowest bidder, for a test well at \$700 and for the completed well if dug at an additional \$8,485. Funds are available in the State appropriation of \$120,000 for "Water Station improvements" made to the University of Illinois for the biennium of 1945-1947.

On motion of Mr. McKelvey, this contract was awarded as recommended.

REASSIGNMENT OF FUNDS FOR STUDENT HOUSING

(2) On May 29, 1946 (Minutes, pages 1112-1113, 1116, 1122), the Board approved a recommendation from President A. C. Willard for the assignment of funds for student housing at Urbana-Champaign as follows:

(a) Additional temporary housing, supplementing present facilities, to provide accommodations for 150 families and 1730 single students, at a cost of \$572,600, to be assigned from the \$1,500,000 State appropriation for Students' Residence Halls and equipment. These facilities would include remodeling the West Hall of the Stadium and the Ice Skating Rink to house 738 single students, and Federal Public Housing Authority temporary buildings to house 150 families and 992 single students.

(b) Assignment of \$356,275 in this appropriation and \$250,950 in the fund for Contingencies in the State appropriations for buildings (total \$607,225) for the partial cost of a new women's residence hall.

Requests for releases of funds for such uses were submitted to and have been approved by the Governor. In the meantime, more complete data on the cost of temporary housing are available which indicate a probable cost of \$1,032,000, compared with the previous estimate of \$1,079,600. Two factors which will affect the ultimate cost of the temporary housing program are not yet determined: (a) the exact amount of reimbursement due the University by the

United States Government for expenditures on the installation of 275 houses, said reimbursement being estimated to be \$320,600; (b) the cost of additional sanitary sewer facilities if existing utilities are found inadequate.

The program approved by the Board on May 29 provides for the use of only a part of the temporary housing requested by the University and allocated by the Federal Public Housing Authority. The latter still has available 143 buildings, tentatively assigned to the University and subject to acceptance, which will provide additional facilities for 18 families and 400 single students. The FPHA has also ruled that five per cent of the total number, or 36 family units, may be used by non-veteran staff members, and such use of these facilities is greatly needed. Acceptance of the additional facilities will require expenditure of \$151,000 of University funds, making a total cost of \$1,183,000, compared with \$1,032,000 (previously estimated to cost \$1,079,600) for the temporary housing program as heretofore approved. It seems desirable that these additional facilities be accepted. Allowing for units available to staff members, there would be an excess of only 382 over the estimated enrollment of 15,000.

The temporary housing program, for both students and staff, is the University's most immediate and urgent need in dealing with the housing problems. The University has requested an additional State appropriation of \$1,000,000 to replace expenditures from the appropriation of \$1,500,000 for Students' Residence Halls and equipment and used for temporary housing.

If the assignment now suggested is made, there would remain a balance of \$317,000 in the State appropriation of \$1,500,000 for housing, of which \$64,125 has been assigned for preparation of plans and specifications. To this could be added the balance of \$250,950 in the Contingency fund, leaving a total of \$567,950 for permanent housing. The estimated cost of the proposed permanent residence hall, for which plans have been completed, is \$1,515,000, but no bids on it have been received. It appears advisable to take no steps toward encumbering or expending these funds until the temporary housing situation is more clear or additional funds are made available.

Accordingly, it is recommended that the program for housing approved on May 29 be amended as follows:

1. Additional housing be requested from FPHA to provide for 18 families and 400 single students.

2. The budget for the temporary housing be increased from \$1,079,600 to \$1,183,000 and the Governor be requested to release an additional \$103,400 for this purpose by transfer from the amount previously released for permanent housing. Bids secured indicated that the cost of the Stadium and Skating Rink dormitory projects will total \$157,000 instead of the \$120,000 previously estimated. It will be necessary to secure a revision of the releases of funds by the Governor, in a lump sum to provide for variations in the actual costs.

3. No further work be done on the permanent housing program until final costs of the temporary program are known or until additional funds are provided through State appropriations.

Schedules accompanying this memorandum: (1) Revised Summary of Temporary Student Housing Program, July 12, 1946; (2) Student Housing Summary.

On motion of Dr. Meyer, these recommendations were adopted.

AMENDMENT OF POLICY AND RULES RELATING TO COMPENSATION AND WORKING CONDITIONS OF NONACADEMIC EMPLOYEES

(3) The Director of Nonacademic Personnel, with the concurrence of the Non-academic Personnel Advisory Committee, recommends to the Board of Trustees that Section III, page 3, of the "Policy and Rules Relating to Compensation and Working Conditions of Nonacademic Employees" be amended by deleting the italicized material as follows:

III. METHODS OF DETERMINING RATES OF COMPENSATION

1. All proposed changes in group rates shall be submitted to the Director of Nonacademic Personnel not later than September 1 preceding the biennium beginning the following July 1, shall be effective not before the beginning of the biennium, and shall not be exceeded during the biennium.

A. Subject to the foregoing limitations, The University will pay prevailing rates to all employees in any group when such a rate has been determined or can be determined by the University for that group under the following conditions: Such rates are to be paid only after they have been put into effect locally; they are effective from the date they have been made effective locally; provided that notice has been given the Director of Nonacademic Personnel before the expiration of a local agreement upon which the local prevailing rate is based; if notice is not given in accordance with the preceding condition, rates will become effective only from the date that notice has been given to the Director of Non-academic Personnel that the rates are in effect locally; no retroactive pay shall be effective prior to the beginning of a biennium in which the rates are made effective by the University; if the local prevailing rate declines during a biennium, the University will follow such declines, but no rates at the University will be reduced below those in effect at the beginning of the biennium. Vacations, disability leave, retirement and death benefits are granted to prevailing rate employees only in accordance with Sections VI to XI inclusive irrespective of local prevailing practice in these matters. In some classifications the University will pay rates below the prevailing rates during the probationary period of not to exceed six months. (Schedules are available showing the classifications subject to the prevailing rate rule as of July 1, 1945. Changes in these schedules will be made only with the approval of the Director of Nonacademic Personnel. Employees concerned will be advised whenever such changes are made.)

In this connection, a telegram from representatives of labor organizations was read.

Mr. Morey commented on this matter, and stated that action is needed on the present recommendation of the Director of Nonacademic Personnel, and that other proposed changes, including those referred to in the telegram, were under discussion.

On motion of Mr. Williamson, the amendment to the rules was approved as recommended, and the telegram was referred to the President of the University and the Director of Nonacademic Personnel.

APPOINTMENT OF "M." SHIMPE NISHIMURA AS RESEARCH ASSISTANT IN BOTANY

(4) Professor Robert Emerson, now at the California Institute of Technology, has been appointed Research Professor of Botany in the Graduate School beginning September 1, 1946. He will be in charge of an important new development of research and teaching in the field of photosynthesis.

Professor Emerson desires to have as his Research Assistant "M." Shimpe Nishimura, now a Research Assistant at the California Institute of Technology, who has been associated with Professor Emerson in research work before. Mr. Nishimura has a combination of professional qualifications useful in photosynthesis research which probably could not be duplicated. He is trained in physics and chemistry, and especially in the study of nuclear phenomena, which training is essential for the research program in photosynthesis. He has acquainted himself with biological problems at the research level and has had much practical experience in the growth of plants. He is known to Professor Emerson as a stimulating investigator in such fields as photosynthesis as the University of Illinois will necessarily cover. Because of his special qualifications and because he is Professor Emerson's first choice, I recommend his appointment as Research Assistant in Botany for the period beginning September 1, 1946, and ending August 31, 1947, at a salary of \$2,760.

Authorization of this appointment by the Board of Trustees is necessary because of the rules of the Board governing the employment of noncitizens of the United States. Mr. Nishimura was born in Japan and he can not under existing laws become a citizen of the United States. He came to this country as a small child and was educated in the public schools of California and in the

institutions of higher learning in that state. The University of California has a regulation similar to that of the University of Illinois but has made exceptions similar to the one in the proposed appointment of "M." Shimpe Nishimura.

On motion of Dr. Meyer, this appointment was authorized as recommended.

REAPPOINTMENT OF PROFESSOR WALTER S. MONROE AS ACTING DEAN OF THE COLLEGE OF EDUCATION

(5) A year ago when the deanship of the College of Education became vacant, Professor Walter S. Monroe was appointed Acting Dean of the College for the academic year 1945-1946. President Willard recommended the appointment of an acting dean in order to leave the way open for his successor to select a dean.

Although I have given a good deal of thought to this position and have had conferences with representatives of the faculty of the College of Education, it has not been possible to reach any definite conclusions which would justify my recommending the appointment of a dean at this time. It seems to me that the best interests of the University would be served by continuing Professor Monroe in the position of Acting Dean. I have discussed this with him and he is willing to carry on for another year.

I therefore recommend that Professor Walter S. Monroe be appointed Acting Dean of the College of Education for one year from September 1, 1946, under the same terms as heretofore, viz., at a salary of \$1,000 in addition to his salary of \$6,500 as Professor of Education and Director of the Bureau of Educational Research.

On motion of Mr. Nickell, this appointment was made as recommended.

APPOINTMENT OF DIRECTOR OF THE INSTITUTE OF LABOR AND INDUSTRIAL RELATIONS

(6) I recommend that Dr. Phillips Bradley, now Professor and Director of Extension of the New York State School of Industrial and Labor Relations, Cornell University, Ithaca, be appointed Director of the Institute of Labor and Industrial Relations with the rank of Professor at the University of Illinois, effective August 1, 1946, at an annual salary of \$9,000. His appointment as Director will be until August 31, 1947, conforming in tenure to other appointments of this rank, and his appointment as Professor is on indefinite tenure.

On motion of Mr. Williamson, this appointment was made as recommended.

APPOINTMENT OF PROFESSOR HENNING LARSEN AS HEAD OF THE DEPARTMENT OF ENGLISH

(7) Professor H. N. Hillebrand, who was Head of the Department of English and who has been on leave of absence because of physical disability since November 1, 1944, has resigned his position as Head of the Department. During his absence Professor Henning Larsen has been Acting Head of the Department.

A year ago the President of the University on recommendation of the Dean of the College of Liberal Arts and Sciences appointed a special committee to consider candidates for the permanent headship and to make recommendations. This committee has unanimously recommended the appointment of Professor Henning Larsen as permanent Head of the Department.

In accordance with the University of Illinois Statutes, all members of the Department of English of professorial rank were consulted concerning the committee's recommendation, and the result is an overwhelming endorsement of Professor Larsen. I am, therefore, recommending that Professor Larsen be made Head of the Department of English on indefinite tenure beginning September 1, 1946, at an annual salary of \$8,000.

On motion of Mrs. Grigsby, this appointment was made as recommended.

HEAD OF THE DEPARTMENT OF ART

(8) A committee of the Department of Art and the Dean of the College of Fine and Applied Arts recommend the appointment of Dr. Frank J. Roos, now Professor of Art History at Ohio State University, to the position of Professor and Head of the Department of Art, on indefinite tenure, at an annual salary of \$6,000, effective September 1, 1946. This appointment is to replace Professor James G. Van Derpool, who has resigned to accept a position at Columbia University. I concur in this recommendation.

On motion of Mr. Fornof, this appointment was made as recommended.

APPOINTMENT OF HEAD OF DEPARTMENT OF MECHANICAL ENGINEERING

(9) I recommend that Professor Norman Alwyn Parker, now Professor and Head of the Department of Mechanical and Aeronautical Engineering at the University of Colorado, Boulder, be appointed Professor of Mechanical Engineering and Head of the Department at the University of Illinois, on indefinite tenure, effective September 1, 1946, at an annual salary of \$8,500.

On motion of Mr. McKelvey, this appointment was made as recommended.

EXCHANGE OF PROFESSORS FRED C. HOOD AND AMIR BOKTOR

(10) Dr. Fred C. Hood, Assistant High School Visitor with the rank of Associate Professor, has been offered a position in the American University at Cairo, Egypt, as an exchange professor for a period of approximately ten months of the school year, 1946-1947. In exchange, the University of Illinois will have the services of Professor Amir Bektor of the American University at Cairo.

The exchange plan will necessitate Doctor Hood's absence from the University of Illinois during the period beginning approximately September 1, 1946, and ending July 1, 1947. Under the provisions of this plan Doctor Hood will receive his salary from the University of Illinois during the period of his absence. His replacement, Doctor Bektor, will receive his salary from the American University at Cairo during the time that he is serving as an exchange professor at the University of Illinois. He will be assigned to teaching duties in the College of Education and will also be given an opportunity during the academic year 1946-1947 to visit selected high schools with a member of the staff of the High School Visitor's Office and to participate in regional educational conferences sponsored by that office. Doctor Hood's duties will be distributed among other members of the High School Visitor's staff at no additional expense to the University.

The High School Visitor recommends approval of this exchange arrangement and I concur.

On motion of Mr. Williamson, this arrangement was approved as recommended.

EASEMENT FOR INTERCEPTING SEWERS

(13) The Urbana-Champaign Sanitary District is about to construct additional intercepting sewers and appurtenances thereto to connect with the lateral sewers now constructed and hereafter to be constructed in the cities of Urbana and Champaign for the purpose of furnishing additional means for the disposal of domestic sewage. The Board of Trustees of the University on February 24, 1945, appropriated \$39,200 as the University's share of the cost of constructing two new intercepting sewers.

In order to construct these sewers it will be necessary for the Urbana-Champaign Sanitary District of Champaign County, Illinois, to obtain a perpetual easement upon, under, and through property which this sewer will cross. The Board of Trustees has been asked to grant the perpetual easement, privilege, right, and authority to construct, reconstruct, repair, maintain, and operate said additional intercepting sewers upon, under, and through the following described real estate situated in the County of Champaign, and State of Illinois, and along a course generally from east to west through this real estate, to wit:

A strip of ground known as the old right-of-way of the street railway company, 40 feet wide and extending from Wright Street in Champaign east to what is known as Nelson or Mathews Avenue in Urbana and located in the Northwest Quarter of the Northeast Quarter of Section 18 in Township 19 North, Range 9 East, 3rd P.M., and

A part of the North $\frac{1}{2}$, Northwest $\frac{1}{4}$ of Section 18 Township 19 North, Range 9 East of the 3rd P.M. described as follows:

Commencing at the NE corner of Block 6 of J. S. Wright's addition to the City of Champaign, thence North along the West line of Wright Street in the City of Champaign, Illinois, a distance of 40 feet more or less to the SE corner of Block 1 in said Addition, thence West along the South line of said Block 1 to the SW corner thereof, being the East line of Sixth Street in said City of Champaign, thence South along the East line of Sixth Street, a distance of 40 feet more or less to the NW corner of Block 6 in said J. S. Wright's Addition to the City of Champaign, Illinois, thence East along the North line of said Block 6, to the place of beginning situated in the City of Champaign, County of Champaign, State of Illinois.

In consideration of the grant of easement the Urbana-Champaign Sanitary District agrees to protect all interests and rights of the University with regard to the location of the sewer and the standard of construction and also to protect the University from any loss, damage, or expense in the nature of legal liability which may result from the construction of this sewer.

I recommend that the Board of Trustees grant the easement requested and that the Comptroller and Secretary of the Board be authorized to execute the same.

On motion of Mr. Williamson, the execution of this easement was approved and authorized as recommended, by the following vote: Aye. Mr. Davis, Mr. Fornof, Mrs. Grigsby, Mr. Livingston, Dr. Luken, Mr. McKelvey, Mr. McLaughlin, Dr. Meyer, Mr. Nickell, Mr. Williamson; no, none; absent, Mr. Green.

DEFICIT IN CHICAGO ILLINI UNION OPERATING BUDGET FOR 1946-1947

(14) The Physical Plant Department reports that it will not be possible to maintain the standard of service needed in the Chicago Illini Union Building as rendered in the past on the funds available in the budget. This is partially due to the fact that because instructional schedules for the coming year result in a reduction in the number of terms in which student fees are collected, the income will be less than in the past. It is also due to the fact that the University has not increased its appropriations to the Union for the fees of faculty members who have been added to the staff. The Board approved the principle of paying such fees in its meeting of August 31, 1943 (Minutes, page 514). The indicated deficiency is \$3,045 and the reductions in service would be of a rather serious character.

On July 18, 1944 (Minutes, page 11), the Board made an appropriation of \$50,000 to apply toward the deficit in the Illini Union Building for the biennium 1943-1945, with the understanding that when the operations of the building showed a net surplus which would be available for the repayment of these sums they would be repaid to the University from this surplus. During the year 1945-1946 there has been charged against the fund charges of the Union against the University in excess of the amount provided in the regular 1945-1946 budget. As a result there is a balance in this fund as of June 30, 1946, amounting to \$40,705.

Provision should be made for the added cost in the Chicago Illini Union budget for 1946-1947, and this charge may be taken from the above-mentioned balance. The Comptroller recommends that the Board authorize such a charge.

I concur and recommend approval.

On motion of Mr. Williamson, this transfer of funds was authorized as recommended.

SPECIAL APPROPRIATIONS FOR NONRECURRING EXPENDITURES

(15) The Committee on Special Appropriations and Nonrecurring Expenditures recommends assignments from the General Reserve Fund for the following purposes:

Remodeling of Electrical Engineering Laboratory to provide for facilities for vacuum tube research.....	\$50 000
Illini Hall and Arcade Building remodeling.....	3 500
<i>Total</i>	<u>\$53 500</u>

These proposed improvements have been carefully studied by the Committee on Special Appropriations and Nonrecurring Expenditures. Its reports giving details of the reasons for these improvements are submitted herewith.

On motion of Dr. Meyer, these appropriations were made as recommended by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Grigsby, Mr. Livingston, Dr. Luken, Mr. McKelvey, Mr. McLaughlin, Dr. Meyer, Mr. Nickell, Mr. Williamson; no, none; absent, Mr. Green.

**SPECIAL APPROPRIATIONS AND AWARD OF CONTRACTS
FOR THE ATHLETIC ASSOCIATION**

(16) The Board of Directors of the Athletic Association requests approval of the following actions:

(1) Appropriations from the unappropriated surplus of the Athletic Association and the award of contracts as indicated for permanent improvements.

(b) Drilling a well at the southwest corner of the Stadium to furnish water for greens at the golf course, the gridiron, or the practice fields adjacent to the Stadium. Upon recommendation of the Geological Survey, the contract is to be awarded to Hayes and Sims for \$3,000.

(e) Concreting the approaches and walks at the north end of the Stadium at a cost of \$2,285. Contract to be awarded to Mr. Lynne Meyer.

(f) Construction of ticket windows for the Stadium at a maximum cost of \$9,000. Contract to be awarded to King and Petry.

(2) Appropriations from the unappropriated surplus of the Athletic Association for operating expenses in 1946-1947.

(a) Purchase of equipment necessary to establish a training table at the Stadium, total cost not to exceed the sum of \$1,500.

(b) A special appropriation to the Alumni Association in consideration of the ticket sales in the Illini Center in Chicago, and the services of the Alumni Field Secretaries. Amount of the appropriation, \$3,000.

Contracts, unless otherwise indicated, have been awarded on the basis of competitive bidding.

The above actions have been reviewed by the Comptroller, and he submits them for approval. I recommend approval.

On motion of Mr. Williamson, these awards were approved.

**APPROPRIATION FOR COOPERATIVE PROJECT
IN GENERAL EDUCATION**

(17) Developments during the last few years have greatly intensified national interest in general education. The experience of a number of colleges and universities in trying to provide programs of general education has resulted in fairly common agreement on the answers to certain questions that are raised in the process of developing such work. There is common agreement that the purpose of general education is to provide the education necessary for the intelligent layman and citizen. There is also common agreement that a major part of the educational emphasis through the fourteenth grade should be on general education. Experience has demonstrated that it is difficult, if not impossible, to get an adequate program of general education through the use of courses limited to specific subject fields and that general courses cutting across subject lines are usually necessary.

The Provost of the University has been meeting with representatives of about twenty other universities and colleges to discuss informally and without commitment the possible development of a cooperative project in general education. These discussions have now reached the point from which it is desirable to proceed on an official basis. The steps indicated are (1) to give official recognition to the organization of the project and the participation therein by the University of Illinois, (2) the assignment of \$500 to be matched by an equal assignment from each of the other institutions, the entire sum to be placed at the disposal of an Executive Committee for the expenses of the project, (3) designation of an official representative of the University of Illinois.

I recommend that the Board authorize the participation of the University in

this project and that an appropriation of \$500 be made from the General Reserve Fund to cover the University's share of the cost.

On motion of Dr. Luken, the participation of the University was authorized and the appropriation was made as recommended, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Grigsby, Mr. Livingston, Dr. Luken, Mr. McKelvey, Mr. McLaughlin, Dr. Meyer, Mr. Nickell, Mr. Williamson; no, none; absent, Mr. Green.

INCREASE IN FEDERAL FUNDS FOR EXTENSION WORK IN AGRICULTURE AND HOME ECONOMICS

(18) The internal budget for 1946-1947 includes a budget for Federal extension funds based on the same allotment received during 1945-1946. On June 7, 1946, the University was advised that the Bankhead-Flannagan funds allotted to the University of Illinois for the fiscal year beginning July 1, 1946, had been increased by \$125,089 to a total of \$249,859. At the time this notice was received, the preparation of the internal budget had progressed too far to include this additional sum, and a revised budget is submitted now.

It is proposed to allocate the increase in the funds as follows:

1. New positions (49 County Assistants for Farm and Home Advisers, Assistant Professor of Agricultural Engineering Extension, Assistant Professor of Crops Extension, and an Assistant State Leader in Charge of Extension Studies and Training).....	\$100 420

COMMITMENTS AGAINST ANTICIPATED APPROPRIATIONS

(24) At its meeting on June 15 the Board of Trustees authorized the inclusion in appointments to staff, orders, and other contracts involving funds appropriated in the 1946-1947 budget the following statement:

"You are advised that the University anticipates additional appropriations from the General Assembly in order to meet this appointment (order) and its payment may be contingent on such additional appropriation."

I recommend that this authorization be rescinded and that no such qualifying provisions be incorporated in University contracts.

On motion of Mr. Davis, the authorization to use the above reference to the anticipated appropriation was rescinded, and the use of the following was approved, to indicate that the members and officers of the Board were not individually liable for payment.

"The officers and members of the Board of Trustees of the University of Illinois are in no event to be personally liable for payments under this contract."

APPOINTMENTS OF ASSOCIATE DEANS IN DIVISION OF UNDERGRADUATE STUDIES IN CHICAGO

(25) Pursuant to authorization given the President of the University by the Board of Trustees (Minutes, May 29, 1946, page 1121) to employ the necessary personnel for the operation of a branch of the University in Chicago, the following major appointments have been made in the Division of Undergraduate Studies in Chicago:

R. P. HOELSCHER, now Professor of General Engineering Drawing, to the position of Associate Dean of Engineering Sciences and Professor of General Engineering Drawing, from July 1, 1946, through August 31, 1947, at an annual salary of \$8,250.

R. P. HACKETT, now Assistant Dean of the College of Commerce and Business Administration and Associate Professor of Accountancy, to the position of Associate Dean of Commerce and Business Administration and Associate Professor of Accountancy, from July 1, 1946, through August 31, 1947, at an annual salary of \$7,500.

An appointment will be made in the near future to the position of Associate Dean of Liberal Arts and Sciences.

On motion of Mr. Davis, these appointments were made as recommended.

FEEES FOR INSTITUTE OF AERONAUTICS FLIGHT TRAINING PROGRAM

(26) On May 29, 1946 (Minutes, page 1100), the Board approved fees for Institute of Aeronautics flight training courses on the basis of \$6.00 an hour for solo flight instruction and \$9.00 an hour for dual flight instruction. These basic rates led to variations in the total course fee for courses then approved from \$222 a term to \$345 a term.

¹ Executed under special authority for emergency contracts on housing program.

The Committee on Fees and Scholarships has now reviewed the entire program of instruction with Dr. Leslie A. Bryan, Director of the Institute of Aeronautics, and has studied a breakdown of the actual costs of instruction and operation for the courses offered by the Institute of Aeronautics.

The Committee on Fees and Scholarships recommends that the previous action of the Board be modified by establishing a materials and supply fee of \$250 a term for each of the following courses, namely, Institute of Aeronautics 1, 2, 3, 4, 5, and 6. The Committee further recommends that authorization be granted to establish the same fee for any further courses in flight instruction which are comparable with the courses already being given. All students registered in these courses also pay the usual tuition charges unless by reason of a scholarship they are exempted.

It is recommended that these changes in the program become effective beginning with the first semester of 1946-1947.

I concur in the recommendations.

The Provost presented this matter.

On motion of Mr. Williamson, these fees were authorized.

**REAPPOINTMENT OF PROFESSOR H. T. SCOVILL AS
ACTING DEAN OF THE COLLEGE OF COMMERCE
AND BUSINESS ADMINISTRATION**

(27) I recommend that Professor H. T. Scovill be reappointed as Acting Dean of the College of Commerce and Business Administration beginning September 1, 1946, and continuing until further notice under the same conditions as heretofore, namely, at a salary rate of \$1,000 a year for his services as Acting Dean in addition to his salary of \$7,750 for his services as Professor of Accountancy and Head of the Department of Business Organization and Operation.

On motion of Mr. Davis, this appointment was authorized as recommended.

GIFT OF ROBERT ALLERTON

(28) A report of the progress of discussion with Mr. Robert Allerton on the terms of his gift of land for the Robert Allerton Park and for the maintenance thereof. It seems most desirable to preserve and make use of the house, and it is hoped that the income from the land will be sufficient to maintain both park and house.

On motion of Mr. Williamson, the President of the University was authorized to have further conversations with Mr. Allerton and to report the result to the Board.

PROPOSED BRANCH AT GALESBURG

(29) The Provost, the Comptroller, and other officers have inspected the Mayo General Hospital at Galesburg, which is about to be released by the Army, and have found that the buildings are easily convertible for use in the housing and instruction of about 2000 students. There is no equipment suitable for use in instruction. The authorities of Galesburg, and of Knox College, are agreeable to the establishment of a branch of the University at the Mayo Hospital. We have reasonable assurance that the University could get the plant under a temporary lease, I feel that we should have more information before making a recommendation.

The Provost presented this matter.

On motion of Mr. McLaughlin, the President of the University was authorized to explore this project and to develop it as far as possible within the resources available.

**RESPONSIBILITY OF THE UNIVERSITY FOR HOUSING
RACIAL MINORITIES**

(30) A report on conferences which have taken place between University officials and representatives of various organizations relating to student housing policies and practices in Champaign-Urbana. Since these conferences began

before the President took office, he has not had an opportunity to participate in them but stated that they will be continued, and he is planning to confer with a number of interested parties at Urbana during the month of August.

Action on this matter was deferred.

FINANCIAL SITUATION

(31) We have asked for an early conference with the Governor to give the President of the Board and the President of the University an opportunity to present the need of the University for a supplemental appropriation of \$6,000,000 to enable it to take care of veterans and other students who want to attend. If a special session is out of the question, it would appear that the Governor and members of the General Assembly should make public announcement of their support of the program of the University.

The Provost and the Comptroller commented on this matter.

The Secretary read the resolution adopted June 15 (Minutes, page 1152).

On motion of Mr. Fornof, the Board reiterated the resolution adopted June 15, 1946, and instructed the Secretary to transmit the resolution and a statement of the facts to Governor Green.

HOSPITAL AND MEDICAL SERVICE INSURANCE

Mr. Williamson presented the following:

The finance committee has received from the Comptroller a report of bids secured by the Purchasing Agent on hospital and medical service insurance in the Urbana-Champaign departments for the year beginning September 19, 1946. Total premiums were stated on the basis of uniform benefits the same as in past years but with the following additions:

1. Extension of insurance to cover confinement in the individual's residence location for any period in which space is not available in a hospital in the University community.

2. A family rate covering spouse and children.

The lowest bid, allowing for estimated dividend at the close of the policy year, was submitted by the Liberty Mutual Insurance Company through Earl H. Clay, agent, of Chicago, for an estimated total of \$158,478.

The Finance Committee recommends acceptance of this bid.

On motion of Mr. Williamson, this bid was accepted as recommended.

Trelease, have been made to Robert E. Milligan to purchase these tracts of real estate, and each and both of them, and Robert E. Milligan has refused to accept the offers so made for the purchase thereof; and Robert E. Milligan has, in said negotiations, offered to sell and convey this real estate to the Board of Trustees of the University of Illinois for a consideration and price which the Board of Trustees has refused to pay therefor.

Be it further resolved, that it is hereby declared that compensation to be paid for the purchase of said property can not be agreed upon between this Board of Trustees and Robert E. Milligan, and that Robert E. Milligan and this Board of Trustees are unable to agree upon the purchase price to be paid Robert E. Milligan for the property.

It is further resolved by the Board of Trustees, that the necessary and appropriate action be taken for the acquisition of this property by proceedings in eminent domain, and that the Legal Counsel of the University and of the Board of Trustees, is hereby authorized to proceed accordingly and to employ legal counsel to assist in the prosecution of eminent domain proceedings.

Mr. Britton stated that the Resolution seeks to consolidate the various actions of the Board of Trustees with respect to the condemnation of the Milligan property.

Authority is granted in the Resolution for the appointment of outside counsel.

On motion of Mr. Williamson, this resolution was adopted by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Grigsby, Mr. Livingston, Dr. Luken, Mr. McKelvey, Mr. McLaughlin, Dr. Meyer, Mr. Nickell, Mr. Williamson; no, none; absent, Mr. Green.

QUIT CLAIM DEED TO HOWARD PROPERTY

The Legal Counsel presented also the request of Attorney Edwin W. Sale for a Quit Claim Deed to "South 55 feet and 1 inch of Lot 4 in

Minnie R. Murray's Replat of Lots 4, 5 and 6 in Block 5 of W. C. Barrett's Addition to Champaign, Illinois." Mr. Britton explained that this lot was left by the Will of Charles P. Howard to Hartwell C. Howard and the First National Bank of Chicago as Trustee for Hartwell C. Howard for life, with remainder interest in one-half of said lot to the Y.M.C.A. of Champaign and one-half to the University of Illinois.

The trust contained an unrestricted power of sale in the trustee. The trustee exercised the power of sale and sold the lot for \$3,500. This money is now held by the Northern Trust Company of Chicago.

The Quit Claim Deed is asked in order to clear up a technical objection to the title arising from the fact that one of the trustees, Hartwell C. Howard, was the life beneficiary, and that after the sale of the lot to the grantees, these grantees in turn conveyed the lot to Hartwell C. Howard who, in turn, now proposes to sell it to Charles L. Ferguson and his wife.

Mr. Britton stated that for the above information he was relying on a conference with Mr. Sale and a letter from Mr. Sale. He recommended that the Board of Trustees execute the Quit Claim Deed as requested, subject to his confirmation of the above information by examination of the terms of the trust instrument and other documents.

President Stoddard concurred in this recommendation.

On motion of Mr. Nickell, the Comptroller and the Secretary of the Board of Trustees of the University of Illinois were authorized and directed to execute the Quit Claim Deed on receipt of certification from the Legal Counsel that the University's interests were in no way adversely affected by the execution of such instrument. This motion was adopted by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Grigsby, Mr. Livingston, Dr. Luken, Mr. McKelvey, Mr. McLaughlin, Dr. Meyer, Mr. Nickell, Mr. Williamson; no, none; absent, Mr. Green.

**REPORT OF EXECUTIVE COMMITTEE MEETING
OF SEPTEMBER 20, 1946**

The Secretary presented for record the minutes of a meeting of the Executive Committee.

A meeting of the Executive Committee of the Board of Trustees of the University of Illinois was held at 2 p.m. on Friday, September 20, 1946, at the University Club, 76 East Monroe Street, Chicago.

Mr. Park Livingston, Chairman, General Chester R. Davis, and Dr. Karl A. Meyer, members of the Executive Committee, were present; also Mr. Lloyd Morey, Comptroller, and Mr. H. E. Cunningham, Secretary.

Matters Presented by Mr. Morey

The Executive Committee considered the following matters presented by the Comptroller.

**Use of Mayo General Hospital for Proposed
Undergraduate Branch at Galesburg**

(1) On July 30, 1946 (Minutes, page 17), the President of the University was authorized to explore the possibilities of securing from the government the Mayo General Hospital at Galesburg for use as an additional undergraduate branch of the University for a temporary period to aid in taking care of demands for admission to the University, especially by veterans, which exceed existing facilities.

The President reports that, in accordance with this instruction, he contacted the appropriate federal authorities and found that the Hospital had been assigned to the State of Illinois in response to its request for use by the Department of Public Welfare as a hospital. The President of the University and the President of the Board then conferred with Governor Green, who, after thorough consideration, released the Hospital to the University for a temporary period estimated at three to five years.

President Stoddard reports that he and other University officers have secured the necessary action by the federal agencies involved to turn over to the University on or about September 20, 1946, the land, buildings, equipment, and supplies constituting the Hospital, under conditions which University officers consider satisfactory.

Be it resolved, by the Executive Committee of the Board of Trustees of the University, that the actions of the President of the Board of Trustees and the President of the University in securing the allocation of the Mayo General Hospital at Galesburg to the University are hereby ratified and confirmed, and

Be it further resolved, that Park Livingston, President, and Lloyd Morey, Comptroller, of the Board of Trustees, be and are hereby authorized to execute any and all receipts, contracts, and other documents that may be required to complete the transfer to the University of the land, buildings, equipment, and supplies constituting the Mayo General Hospital at Galesburg.

The President of the University is further authorized, if the arrangements for the transfer of the Mayo General Hospital to the University are concluded, to approve and authorize the execution of contracts for reconstruction and remodeling, to authorize the purchase of equipment and supplies that may be necessary, and to authorize the appointment or employment of necessary personnel for instruction, administration, and operation of the Undergraduate Division at Galesburg, subject to the presentation of a complete budget to the Board of Trustees as soon as practicable.

The Comptroller is authorized to make payment on account of such contracts and other obligations, from existing funds of the University, with the understanding that a special additional emergency appropriation for this project will be requested of the General Assembly when it next convenes.

On motion of Dr. Meyer, these resolutions were adopted.

Engineering and Construction at Mayo General Hospital

(2) Proposals from the C-S Engineering Company, of Springfield, and from Ostrom and Maguire Construction Company, for engineering and construction,

respectively, necessary to adapt the Mayo General Hospital for University purposes. The Physical Plant Department requests authority to execute these contracts on the basis of proposals which it considers acceptable, at fixed fees in addition to the direct construction costs.

On motion of General Davis, the appropriate officers of the Board were authorized to execute these contracts.

The Executive Committee adjourned.

MATTERS PRESENTED BY PRESIDENT STODDARD

The Board considered the following matters presented by the President of the University.

GIFT OF ROBERT ALLERTON AND PURCHASE OF RUGS

(1) The University will soon receive from Mr. Robert Allerton his estate near Monticello, Illinois. This has been considered by the Board on a number of occasions, and the offer was formally accepted at the meeting on June 27, 1946. The estate consists of a large Georgian mansion which may be used for any purpose the University desires; a garden, forest, and prairie area of approximately 1,685 acres to be used for educational and research purposes, as a forest wildlife and plant reserve, as an example of landscape architectural gardening, and as a public park; approximately 4,500 acres of farm lands will endow the maintenance and operation of the estate.

For several weeks Mr. Allerton has been considering revisions in his proposed deed of gift, which will make it even more attractive than when his offer was accepted by the Board of Trustees. The original proposal provided that the income from the farms may be used only for the operation and maintenance of the park area. He is now providing that part of the income from the farms may be used for the operation and maintenance of the house, which is very important to the University. He is also making changes in the deed of gift which will eliminate the contingent interest of parties other than the University and the general public.

As a part of the acquisition of these splendid facilities for the promotion of educational, scientific, and general cultural interests, the University has been offered the opportunity of purchasing from the Chicago Art Institute an unusual collection of thirty-six oriental rugs. These rugs were originally purchased for the Allerton House but are now the property of the Art Institute. They are for the most part antique rugs of great value and have been offered to the University for the nominal sum of \$5,000, which is a small fraction of their original cost and of their present market value. They belong and are needed in the Allerton House, and if they were not acquired now, ultimately some other, and perhaps less suitable, floor coverings will have to be purchased at probably greater cost.

I recommend that the purchase of these rugs be authorized and that an appropriation of \$5,000 be made from the General Reserve Fund for this purpose. The University will receive during the current farm-year income from the endowment farms which will offset by several times the cost of these rugs.

Professor Britton outlined the terms of the draft of the deed as modified during conferences with Mr. Allerton and his attorney, all changes being favorable to the University, and stated that he expected to receive the final draft of the deed within the next few days.

On motion of Mr. Williamson, the terms outlined were approved.

On motion of Mrs. Grigsby, the purchase of rugs was approved, and the appropriation was made as recommended, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Grigsby, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Dr. Meyer, Mr. Williamson; no, none; absent, Mr. Green, Dr. Luken, Mr. Nickell.

AWARD OF CONTRACT FOR REMODELING OF NAVY PIER

(2) The Executive Committee of the Board of Trustees on August 22, 1946, authorized a contract with Michael J. McDermott and Company, Chicago, for the remodeling of that part of Navy Pier leased by the University for use as the "Division of Undergraduate Studies of the University of Illinois in Chicago."

Michael J. McDermott and Company are completely familiar with the Pier, having done much of the work of remodeling for the United States Navy. There was no opportunity nor time enough to secure competitive bids on this remodeling job if the Pier were to be ready for use on or about October 15. No other construction company could be chosen from among those who might be willing to accept the assignment, because the preparation of new drawings and specifications would consume a great deal of time, whereas Michael J. McDermott and Company could start the job immediately with their own previously prepared drawings.

In view of these considerations, the President of the University recommended and the Executive Committee approved a contract for the remodeling of Navy Pier with Michael J. McDermott and Company on the basis of cost plus fixed fee. The fee will be based on the estimated cost of the project as agreed upon by the contractor and the University. The University will pay the fixed fee plus the actual cost of the work which may ultimately be above or below the estimate.

On motion of Mr. Williamson, the Board concurred in the action of the Executive Committee.

**CLINICAL FACULTY OF THE COLLEGE OF MEDICINE
1946-1947**

(3) A recommendation that appointments be made (as printed in the Appendix, page 78) to the nonsalaried or clinical faculty of the College of Medicine for the academic year beginning September 1, 1946; and that the President of the University be authorized to make such additional appointments and other changes as are desirable and necessary.

On motion of Dr. Meyer, these appointments were made and authority was given as recommended.

APPOINTMENTS TO BOARDS OF EXAMINERS IN ACCOUNTANCY

(4) There are two vacancies on the Boards of Examiners in Accountancy to be filled. The term of Mr. Frank Ahlforth of the permanent Board has expired, and Mr. John W. Queenan of the Special Board has resigned. The faculty Committee on Accountancy recommends the following appointments:

WILLIAM F. G. ROSS, of the firm of Peat, Marwick, Mitchell, and Company, as a member of the permanent Board for three years from July 1, 1946, succeeding Mr. Frank Ahlforth.

ROY ANDREAE, resident-partner of the firm of Price, Waterhouse, and Company, to fill the unexpired period of Mr. John W. Queenan on the Special Board of Examiners.

ENGLISH REQUIREMENT FOR FOREIGN STUDENTS

(7) The University Senate recommends adoption by the Board of Trustees of the following policy requiring proficiency in English of foreign students:

1. A foreign student shall attain the proficiency in English necessary for adequate work in his other academic courses. The judgment of this proficiency shall be under the jurisdiction of the Senate Committee on Student English in conjunction with the college in which the student is registered. Such proficiency may on recommendation of the Committee on Student English be accepted in lieu of Rhetoric 1 and 2.

2. No student shall be allowed to register for a full academic program in other fields before attaining such proficiency.

3. The University is under no obligation to give special training for foreign students inadequately trained in English. Yet it is good university policy to do so,

for it is most important that the foreign students gain an appreciation of the language, culture, and the social ideals of our country.

4. The Department of English shall, therefore, be instructed to set up such course, or courses, as seem necessary for adequate training of foreign students.

5. On a student's completion of such courses, appropriate elective credit shall be assigned him by whatever college has jurisdiction.

6. It is further recommended that the University authorities on admission study the possibility of checking in advance the proficiency in English of foreign applicants and of limiting admission to such students as are sufficiently trained to profit by study in America.

7. Any adequate intensive language program is costly. Therefore, it is further recommended that the University administration consider the assessment of special fees for courses in English for foreigners.

I concur in this recommendation.

On motion of Mr. McKelvey, these recommendations were approved.

ADDITIONAL APPOINTMENTS TO MAJOR POSITIONS IN THE DIVISION OF UNDERGRADUATE STUDIES IN CHICAGO

(8) Pursuant to the authorization of the Board of Trustees, the President of the University has made the following appointments to major positions in the Division of Undergraduate Studies in Chicago:

H. W. BAILEY, former Director of the Student Personnel Bureau and Associate Professor of Mathematics, to the position of Associate Dean of Liberal Arts and Sciences and Associate Professor of Mathematics, beginning August 1, 1946, and continuing through August 31, 1947, at an annual salary rate of \$7,500.

J. O. JONES, former Instructor in Physical Education for Men, to the position of Director of Physical Education and Associate Professor of Physical Education for Men, beginning September 1, 1946, and continuing through August 31, 1947, at an annual salary rate of \$4,400.

H. E. TEMMER, former Assistant Director of the Division of Special Services for War Veterans, assigned to the Registrar's Office, to the position of Examiner and Recorder, beginning July 22, 1946, and continuing through August 31, 1947, at an annual salary rate of \$4,500.

D. K. MAXFIELD, to the position of Librarian, beginning September 1, 1946, and continuing through August 31, 1947, at an annual salary rate of \$4,500.

On motion of Mr. McLaughlin, the action of the President of the University in making these appointments was approved and confirmed.

BUDGET FOR UNDERGRADUATE DIVISION AT CHICAGO (NAVY PIER) FOR THE FISCAL YEAR 1946-1947

(9) The internal budget for the new Undergraduate Division of the University at the Navy Pier in Chicago for the fiscal year beginning July 1, 1946, and covering appointments for the academic year 1946-1947, is submitted herewith (see Appendix, page 90). The budget has been compiled by Dean Caveny with the assistance of Business Manager Hazleton on estimates supplied by the various educational officers at the branch and the general University offices represented there. It is summarized as follows:

Recurring budget for regular operating expenses:

Salaries and wages.....	\$1 512 366
Expense and equipment.....	588 360
<i>Total</i>	\$2 100 726
Nonrecurring expenditures for remodeling and equipment (this year only).....	1 453 452
<i>Grand Total</i>	\$3 554 178

Estimated resources for this budget are as follows:

Estimated income from student fees and compensation from U. S. Veterans Administration for veteran students.....	750 000
Special additional emergency appropriation from tax funds to be requested of the next General Assembly.....	\$2 804 178

This budget is considerably greater than the preliminary estimate of \$2,000,000 submitted to the Budgetary Commission on June 26 and to the Board of Trustees on June 27 (pages 1168-1169). Reasons for this increase may be summarized as follows:

1. The preliminary budget was compiled on very incomplete information and before any detailed review of the program had been completed.
2. The amount of space required for the division is considerably greater than that originally contemplated, thus requiring a considerable increase in rent.
3. The cost of remodeling and equipping the area is much greater than originally expected, due to the fact that many facilities were removed by the Navy which it was earlier thought would be available to the University.
4. Detailed studies have indicated that the original estimates for academic, administrative, and physical plant services were much too low.

I recommend:

1. That this budget be approved.
2. That the President of the University be authorized to (a) make such changes or adjustments as are needed, (b) make such additional appointments as may become necessary, and (c) accept such resignations as are offered, as the needs of the division may indicate from time to time, all within the total of the budget as submitted.
3. That the Comptroller be authorized to pay out of funds presently appropriated by the General Assembly, expenditures against this budget in anticipation of the additional income and special appropriations above indicated.

The Comptroller commented on this budget.

On motion of Dr. Meyer, this budget was approved, and authority was granted to the President of the University and the Comptroller as recommended, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Grigsby, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Dr. Meyer, Mr. Williamson; no, none; absent, Mr. Green, Dr. Luken, Mr. Nickell.

PETTY CASH FUND FOR GALESBURG BRANCH

(10) In connection with the proposed undergraduate division of the University at Galesburg, Illinois, a petty cash fund and local depository bank will be necessary. The University Statutes (Article 50-E) provide that the Board must approve each such fund of more than \$1,000 and designate the bank in which it is to be deposited.

It is difficult to anticipate the exact amount of fund that may be required, as the exact conditions of operation are yet subject to development. The Comptroller requests authority to establish a fund to such an amount as may be found necessary, not to exceed \$25,000, and requests an assignment from the General Reserve Fund for this purpose. He also recommends, on advice of Treasurer I. L. Porter, that the First Galesburg National Bank and Trust Company be designated as the depository for this fund.

Approval of these recommendations is requested.

On motion of Mr. Williamson, these recommendations were approved, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Grigsby, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Dr. Meyer, Mr. Williamson; no, none; absent, Mr. Green, Dr. Luken, Mr. Nickell.

ADMISSION TO THE UNDERGRADUATE DIVISIONS OF THE UNIVERSITY OF ILLINOIS

(11) The Provost of the University recommends the adoption of the following policy governing undergraduate divisions of the University of Illinois:

Priority of admission to the Undergraduate Divisions of the University of Illinois in Chicago and Galesburg will be given to former students of the University and to those who previously have been issued permits to enter in September, 1946, at Urbana. Other applicants who are nonresidents of Illinois will be admitted only if facilities are available after provision has been made for qualified residents of the State.

I concur in this recommendation.

On motion of Mr. Williamson, this policy was adopted as recommended.

HOSPITAL AND MEDICAL SERVICE FEE AND INSURANCE AT CHICAGO UNDERGRADUATE DIVISION

(12) In 1943 (Minutes, April 29, 1943, page 325), the Board of Trustees approved a recommendation for an assessment of a uniform hospital and medical service fee of \$5 a semester against all students in the Urbana departments. Exempted are certain groups of part-time and nonresident students, students who are also on the staff, and others who present evidence that they have insurance providing the same benefits as those provided by the University plan. On July 30, 1946 (Minutes, page 18), the Board approved an insurance contract for this service with the Liberty Mutual Insurance Company.

The Dean of Students has recommended that this fee and the service which it covers be extended to all students in the Undergraduate Division at Navy Pier in Chicago under the same conditions as those applying in the Urbana departments. The Dean of the Division and the Provost concur in this recommendation. The Liberty Mutual Insurance Company is willing to extend this policy for 1946-1947 to include this added division (as well as the Galesburg Division if established) at the same rates as previously quoted for Urbana. The Comptroller recommends that this offer be accepted.

I concur in these proposals and recommend that hospital and medical services and the uniform fee assessed for this purpose be extended to any undergraduate divisions of the University established at locations other than Urbana.

On motion of Dr. Meyer, these recommendations were adopted.

INSURANCE ON NOYES LABORATORY

(13) One policy of fire and extended insurance on the Noyes Laboratory requires renewal on October 1, 1946, covering the building for \$59,648 and contents for \$30,727. In addition there is other insurance on the building amounting to \$258,352 and on contents amounting to \$133,273. The policy is for five years on an 80 per cent co-insurance basis. The insurance is on a 75/25 per cent ratio between stock and mutual insurance companies, in accordance with the rules of the Board. Renewal of this insurance in a stock company is necessary to preserve this ratio.

All agencies quoted a uniform premium of \$1,092.02. The Purchasing Agent's office recommends that the insurance be placed with the Westchester Fire Insurance Company through the DeLong Insurance Company of Champaign, in order to maintain an equitable distribution among agencies and companies.

The Comptroller requests approval of this recommendation.

On motion of Mr. McLaughlin, this recommendation was adopted.

CONTRACT FOR COAL FOR TEMPORARY HOUSES

(14) The Purchasing Agent reports that he has secured bids on 1,750 tons of 3 x 2 lump coal required for the operation of temporary student houses for the current school year through June 30, 1947. Southern Illinois coal was specified as being needed for this purpose. The following quotations were received, all of which were subject to future price adjustments except those of the Acme Coal Company:

	<i>Delivered price per ton</i>	<i>Amount</i>
Acme Coal Company.....	\$7 55	\$13 212 50
Alpha Coal Company.....	7 25	12 687 50
LeBaugh Coal Company.....	7 00	12 250 00

The Purchasing Agent recommends, and the Director of the Physical Plant and the Comptroller concur, that the contract be placed with the lowest bidder, the LeBaugh Coal Company. Approval of this recommendation is requested.

After approval by the Board, the contract will be submitted to the Governor for approval in accordance with the requirements of the State constitution.

On motion of Mrs. Grigsby, this recommendation was approved.

CONTRACT FOR INSTALLATION OF UNDERGROUND STEAM SERVICE FOR PHYSICS RESEARCH LABORATORY (BETATRON BUILDING)

(15) Bids were received on July 9, 1946, for the installation of underground steam service and return in woodlog for the Physics Research Laboratory (Betatron Building). Specifications were prepared by Sargent and Lundy, engineers for this work, who also reviewed the bids received, which were as follows: Robert Gordon, Inc., \$18,892; Carson-Payson Company, \$26,269.

The lower bid is a firm bid without an escalation clause.

The Director of the Physical Plant and the Comptroller recommend acceptance of the bid from Robert Gordon, Inc.

In order to expedite the work on this contract, the matter was submitted to the Executive Committee of the Board, which approved the award to the lower bidder as recommended.

On motion of Mr. Williamson, this award was approved.

SPECIAL APPROPRIATIONS FOR NONRECURRING EXPENDITURES

(16) The Committee on Special Appropriations and Nonrecurring Expenditures recommends assignments from the General Reserve Fund for the following purposes, these appropriations to be available until January 1, 1947:

Speech Clinic—Equipment for research and training for testing and demonstration of hearing aids.....	\$2 500
College of Commerce—Calculating machines for use in the statistics laboratory in the Economics Department.....	2 700
College of Veterinary Medicine—Remodeling of classroom (for instruction in gross anatomy until new Veterinary Building has been constructed).....	3 000
<i>Total</i>	<u>\$8 200</u>

I concur.

On motion of Mr. McKelvey, these appropriations were made as recommended, by the following vote: Aye, Mr. Fornof, Mrs. Grigsby, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Dr. Meyer, Mr. Williamson; no, none; absent, Mr. Davis, Mr. Green, Dr. Luken, Mr. Nickell.

SPECIAL APPROPRIATIONS OF ATHLETIC ASSOCIATION APPROVED BY PRESIDENT TO JUNE 30, 1946

(17) In approving the Athletic Association budget for the previous year (Minutes, August 29, 1945, page 633), the Board of Trustees authorized the President to make changes and adjustments as recommended by the Association's Board of Directors within the total estimated income.

Following is a statement of the adjustments thus made to June 30, 1946, not previously reported:

Special Appropriations

Summer personnel work for veterans.....	\$ 400
<i>Additions to 1945-1946 Operating Budget</i>	
Summer recreational program for intramural and recreation.....	1 000
Increase in travel budget for track.....	1 200
<i>Total</i>	<u>\$2 200</u>

The following contracts were approved by the Executive Committee of the Athletic Association and emergency action was requested in order to complete the work prior to the opening of the football season. The Comptroller has approved these contracts:

1. Contract for the construction of a concrete driveway east of Memorial Stadium. Contract awarded to Mr. Lynne Meyer in the amount of \$13,123.75.
 2. Contract for the re-paving of the tennis courts east of Memorial Stadium. Contract awarded to the General Paving Company in the amount of \$29,224.
- Contracts were awarded in both cases to the lowest bidder.

On motion of Mr. Williamson, these adjustments and awards were confirmed.

**RELEASES OF FUNDS FROM STATE-WIDE PUBLIC WORKS
PROJECTS APPROPRIATION**

(18) A report that Governor Dwight H. Green has authorized the release of funds from the appropriation made to the University of Illinois by the 64th General Assembly in the "Act making appropriations for a State-wide system of public works projects, including all ordinary and contingent expenses relating thereto," as follows:

Release No. 243

To be used as designated in the title for this item.

Release No. 245

"For construction of students' residence halls and equipment.....\$1	500 000"

This is based on the action of the Board of Trustees of July 30 reviewing plans for providing emergency housing facilities and increasing the amount to be expended for temporary housing. The Governor has approved the cancellation of \$103,400 from Item 3 of Release No. 221, "For construction of permanent students' residence halls . . . \$356,275," leaving a balance of \$252,875 approved for expenditure in Item 3 of the above-mentioned release.

I recommend that these funds be appropriated by the Board for the expenditures specified in the releases.

On motion of Dr. Meyer, these appropriations were made as recommended, by the following vote: Aye, Mr. Fornof, Mrs. Grigsby, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Dr. Meyer, Mr. Williamson; no, none; absent, Mr. Davis, Mr. Green, Dr. Luken, Mr. Nickell.

**RESOLUTION FOR SECURING EDUCATIONAL FACILITIES FOR
VETERANS FROM THE FEDERAL GOVERNMENT**

(19) Public Law 697, approved by Congress on August 8, 1946, amended Title V of the Lanham Act to provide for assistance to educational institutions in relieving acute shortages of educational facilities required for persons who are being educated under the provisions of the Servicemen's Readjustment Act of 1944. The law provides that the required assistance will be in the form of structures or facilities including lands, improvements, equipment, materials, or furnishings, and the disassembling, transporting, and re-erecting of buildings. These buildings and facilities must be under the jurisdiction or control of any federal agency and no longer required by such agency. Administration of this part of the Lanham Act has been placed under the Federal Works Administration.

The extent to which such assistance can be secured for the University is problematical. The length of time required to secure certain facilities would make it impracticable to attempt to secure them under the authority of this bill. The Federal Works Administration has encountered some difficulty in securing surplus equipment to distribute since veterans have a higher priority in obtaining possession of surplus equipment.

Even though the extent to which assistance can be obtained is so uncertain, the University has filed with the Federal Works Administration documents indicating their needs. If these are approved it will be necessary for the University to file a formal application for the desired facilities. As a part of this application, it is necessary that the Board of Trustees adopt the attached resolution.

I recommend that this resolution be adopted.

RESOLUTION FOR VETERANS' EDUCATIONAL FACILITIES PROGRAM

Authorizing the Filing of an Application with the United States of America for Provision of Veterans' Educational Facilities, and Designating and Authorizing a Representative

Whereas, the University of Illinois (herein called the "Applicant"), acting by and through its governing body, upon the basis of available data, has found that there exists or impends an acute shortage of educational facilities required for persons engaged in the pursuit of courses of training or education under Title II of the Servicemen's Readjustment Act of 1944, as amended, and to relieve such shortage proposes to request the United States of America through the Bureau of Community Facilities, Federal Works Agency (herein called the "Government"), to provide educational facilities, pursuant to Public Law 697, 79th Congress (Section 504 of the Lanham Act, as amended), and in connection therewith, has examined and considered such law, the Regulations, the Information for Applicants, the form of application and the form of proposed agreement;

Now, therefore, be it resolved by the Board of Trustees of the Applicant (herein called the "Governing Body") that a justification of need and that an application or applications be filed, in such form as may be required by the Government, to provide such educational facilities as are required to alleviate such acute shortage, and that the Applicant will comply with the various requirements and conditions necessary to enable the Government to provide such facilities; and

Be it further resolved that Lloyd Morey, Comptroller, is hereby designated as the Applicant's Representative and is authorized in his capacity as such Representative to file with the Government a justification of need and an application or applications to negotiate, execute, and enter into an agreement or agreements with the Government in substantially the form of agreement considered by the Governing Body, to negotiate, execute and enter into such other agreements and instruments and to perform and do any and all acts as may be necessary to provide a suitable site and site preparation, streets or roadways, sidewalks, landscaping, utility mains, technical or engineering data, architectural or engineering services, necessary rights of entry and rights of way for Government operations, to accept on behalf of the Applicant ownership and possession of such facilities, to assure the Government that such facilities will be utilized by the Applicant to carry out the purposes of such law, and to do or perform any and all other acts that are necessary to accomplish the purposes of the Applicant's application, to perform the Applicant's obligations under its agreement with the Government, and to obtain the provision of such facilities.

On motion of Mrs. Grigsby, this resolution was unanimously adopted.

FINAL SETTLEMENT OF THE LYDIA E. BATES BEQUEST

(20) As previously reported to the Board (Minutes, April 28, 1941, page 271), the late Lydia E. Parker Bates bequeathed to the University the bulk of her estate to establish a fund to be known as "The Lydia E. Parker Bates Fund for the Advancement of Fine Arts." The trust estate which she established pro-

vided that the trustees should convert into cash all assets, and after all taxes, insurance, repairs, and other expenses and certain minor legacies had been paid, the bulk should be transferred to the Board of Trustees of the University of Illinois. The trustees have completed this liquidation and have submitted their final report.

The total receipts of the University from this trust amount to \$178,277.86. The sum of \$164,156.77 of this amount comes from the liquidation of the principal, and \$14,121.09 from the realization of income by the trust during this liquidation.

Since funds have been transmitted to the University of Illinois at various times during the life of the trust, the University has been able to invest, and since 1941, has realized endowment income of \$18,459.19. During this same period, scholarships have been paid in the total amount of \$6,845.00, leaving on hand a total of \$11,614.19. Of this balance \$10,000 is temporarily invested.

This report was received for record.

PURCHASES AUTHORIZED

(21) The following purchases were recommended by the Purchasing Agent and authorized by the Comptroller. Unless otherwise specified the purchases were made on the basis of lowest bids, ceiling prices, or because the items are non-competitive. Emergency action was necessary to secure delivery in time to meet specific needs or because prices quoted were subject to immediate acceptance.

CHANGE IN NAME OF COMMERCE BUILDING TO DAVID KINLEY HALL

(24) At the meeting of the Board on March 9, 1946 (Minutes, pages 1034-1035), the Board authorized the naming of the Commerce Building "Kinley Hall" as a memorial to the late Dr. David Kinley, former President of the University.

It is now recommended that this name be changed to "David Kinley Hall." A number of buildings in Champaign-Urbana have been constructed through the benevolences of the late Senator William B. McKinley and have been named for him, viz., the University Y.W.C.A. in Champaign which is also known as McKinley Hall, the McKinley Y.M.C.A. in Champaign, the McKinley Memorial Presbyterian Church in Champaign, and the McKinley Foundation. This has resulted in a confusion in names between these various buildings, and adding Kinley Hall might increase difficulties. However, "David Kinley Hall" would be quite distinctive.

On motion of Dr. Meyer, this change in name was authorized as recommended.

STATEMENT ON THE RESPONSIBILITY OF THE UNIVERSITY FOR THE HOUSING OF RACIAL MINORITIES

(25) The Board of Trustees of the University of Illinois has already expressed its general policy on the question of equal and fair treatment for all citizens of this country irrespective of race, creed, or color. In carrying out this policy the University fully appreciates the fact that it has certain responsibilities for action. In addition to the many specific actions it can take and does take as the need may arise, there are four large programs which would substantially modify the circumstances which now give rise to race tensions on and near the campus and to actions which might appear to be discriminatory.

1. It has been, and will continue to be, the obligation of the University to provide facilities for higher education for all qualified young people who may choose these facilities rather than the facilities of other colleges and universities.

2. The University will provide as many educational facilities on the Urbana campus as possible, especially in the professional fields of higher education which could not be offered elsewhere without duplication of buildings, equipment, specialized staff, and services at unnecessary expense to the taxpayer.

3. The University will expect to expand the use of its present facilities and of any new facilities it may secure by the addition of University owned and operated housing to which its own standards of health and of social and moral conduct can be applied.

4. The officers of the University will continue a policy of long standing which will favor and strengthen those attitudes and social philosophies which are necessary to create a community atmosphere in which race prejudice can not thrive.

On motion of Dr. Meyer, this statement of policy was approved.

PETITION FOR BUS SERVICE TO NAVY PIER

(26) A petition for bus service to Navy Pier.

On motion of Dr. Meyer, this petition was approved.

AGREEMENT WITH STATE DEPARTMENT OF REGISTRATION AND EDUCATION FOR CONSTRUCTION OF WATER SURVEY BUILDING

(27) The appropriations made by the 64th General Assembly of Illinois for the biennium of 1945-1947 for a "State-wide system of public works projects" include appropriations to the Department of Registration and Education for additions to the Natural Resources Building at the University of Illinois (which houses the State Natural History and State Geological Surveys), to the Geological Survey

Laboratory for applied research, and for the construction of a new office building and laboratory for the State Water Survey. By State law these three scientific surveys are administered by the State Department of Registration and Education and a Board of Natural Resources and Conservation, but are housed in University of Illinois buildings. In 1939-1940 a new Natural Resources Building was constructed at the University by the State of Illinois for which an appropriation, separate from University appropriations, was made, supplemented by a Federal grant. The construction work was directed by the State Department of Public Works and Buildings (which has charge of all State construction projects except those of the University of Illinois). Once constructed, that building became the property of the University, and the maintenance and servicing are the University's responsibility. Therefore, an agreement was entered into by the Board of Trustees of the University of Illinois and the Department of Registration and Education which, in addition to other conditions protecting the interests of both parties, provided that the plans, specifications, and contracts were subject to approval by the University.

A similar agreement has been prepared in relation to the construction of the State Water Survey building. The agreement has been approved by the Director of the Department of Registration and Education and is now submitted to the Board of Trustees. In the meantime, the Physical Plant Department has been working with the architects employed by the State to provide the architectural services for this building. A final understanding as to details covering the general work, drawings, and specifications subject to minor changes has been reached. The Physical Plant Department recommends approval of drawings for the general work and elevator installations; recommendations regarding plumbing, heating, ventilating, and electrical drawings and specifications will be submitted later.

I recommend that the Board of Trustees authorize its officers to execute an agreement with the State Department of Registration and Education relating to the construction of the State Water Survey building subject to the approval of that agreement by the Physical Plant Department and the Legal Counsel.

I further recommend approval of the drawings and specifications for the general work.

On motion of Dr. Meyer, these recommendations were approved and authority was granted as recommended.

HOUSING NEEDS FOR CHICAGO DEPARTMENTS

(28) Dr. A. C. Ivy, Vice-President in charge of the Chicago Colleges, has requested consideration of plans for meeting the urgent housing needs of the Chicago departments.

Dr. Ivy, being introduced, presented this matter and Mr. Todd Wheeler discussed possible locations.

The President of the University was requested to study the over-all needs of all departments of the University, and to present his recommendations to the Board.

President Livingston appointed as special committee to work with President Stoddard on this matter: Dr. Meyer, Chairman, Mr. Fornof, and Dr. Luken.

EXECUTIVE SESSION

The Board in executive session considered the following matters presented by the President of the University.

SUMMARY OF LEASE OF SPACE ON THE NAVY PIER

(29) Professor Britton's report on the lease of the Navy Pier.

Date of the Lease

When signed, the lease is to be dated August 1, 1946. The lease will be ready for signature as soon as the Navy releases the space. This document has

been drafted and submitted to Captain Ransford of Great Lakes, and orally agreed to.

Term

Until June 30, 1947, with the privilege to the University to renew for successive biennial periods until June 30, 1951, and for successive annual periods until June 30, 1954.

Space

The North Transit Shed, west of Frame 108; the frame building known as the New Mess Hall; office spaces in the head houses; loft space in south passenger building; boiler room at east end of South Transit Shed; the boiler shop; refrigeration and cold storage rooms at east end of North Transit Shed; passage-way along east end of Pier roadway; the Recreation Section; the Escort House underneath the approach ramp, and parking space northeast of North Head House.

	<i>Sq. ft.</i>
Original space selected.....	253,615
Additional space.....	<u>99,735</u>
<i>Total space on the Pier.....</i>	<i>353,350</i>
Plus parking space.....	<u>20,000</u>
<i>Total space leased.....</i>	<i>373,350</i>

Rental

The original agreement was 35¢ per square foot for the 253,615 square feet on the Pier, making a rental of \$88,765.25, plus 20,000 square feet for parking at \$5,000.00, making a total of \$93,765.25.

When the University acquired the 99,735 square feet of additional space, at the suggestion of the City it was agreed to state the rent, not in terms of a price per square foot, but as an annual rental. At 35¢ per square foot, 353,350 square feet would have been \$123,662.50. This sum, plus the rental for parking space of \$5,000.00 would be \$128,662.50.

The present agreed annual rental is \$117,000.00 per year. For the period ending June 30, 1947, the rental is \$115,000.00.

Additional Payments

Electricity: Current rates plus an additional charge of 5% on demand meter readings, and 3.5% on net energy readings, to cover pro rata share of line and transformer losses.

Gas: Current rates. (The University may contract direct with the Commonwealth Edison Company and the Peoples Gas Light and Coke Company.)

Water: Current rates.

Heat: Office spaces—\$100.00 per month. The University is to heat the City shop space.

Insurance

The University is to pay \$1,120.00 per year (30¢ per lineal foot) in lieu of insurance against loss to the City from fire, tornado, or other casualty on the Pier.

The University may carry its own Workmens' Compensation Insurance.

The University is required to take out Public Liability insurance for the protection of the City—\$100,000.00 for property damage, \$250,000.00 for personal injuries and death in any one accident, and \$50,000.00 for bodily injury.

Insurance companies are to be approved by the joint action of the Controllers of the City and of the University.

Termination

The University may terminate on six (6) months' notice. After four years, the City may terminate on any June 30, on six (6) months' prior notice.

Navy Property

The City agrees to leave on the Pier for use by the University, any property left there by the Navy, the University to be deemed a lessee thereof from the City, and to pay as rent therefor over a period of four (4) years, the amount that the Navy charges for such property.

Restoration

The University agrees to restore the Pier to the condition it was in when the Navy took possession. The University agrees to deposit in escrow with the First National Bank of Chicago \$100,000.00 on the signing of the lease and an additional \$100,000.00 on or before August 1, 1947, to guarantee restoration.

On motion of Dr. Meyer, the terms of this lease were unanimously approved.

PURCHASE OF ILLINOIS TERMINAL RIGHT-OF-WAY

(30) For a number of years the Illinois Terminal Railway Company has had a spur track extending through the business and residential part of Urbana to the University service area on North Mathews and North Goodwin Avenues, Urbana. Formerly the right-of-way extended to a section between Wright Street and Sixth Street in Champaign. When that was abandoned a few years ago, the University acquired the portion within its campus.

The owners of this right-of-way have asked whether the University wishes to acquire the right-of-way. The Physical Plant Department and representatives of the University Planning Committee agree on the desirability of owning this right-of-way which lies between two parts of University property. The property is needed for the service area of this locality. The recommendation is concurred in by the Purchasing Agent and the Comptroller. If the University does not acquire this property, undoubtedly it will promptly fall into other hands, which would be a distinct disadvantage to us.

I recommend that the officers of the University be authorized to negotiate for the purchase of this property and that an appropriation of \$2,500, or as much thereof as may be found to be required, be made for this purchase.

On motion of Mr. Williamson, this purchase was authorized and the appropriation was made, by the following vote: Aye, Mr. Fornof, Mrs. Grigsby, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Dr. Meyer, Mr. Williamson; no, none; absent, Mr. Davis, Mr. Green, Dr. Luken, Mr. Nickell.

SECRETARY'S REPORTS

The Secretary presented also the following lists for record, as printed in the Appendix:

1. Appointments made by the President of the University (page 58).
2. Resignations, declinations, and cancellations (page 76).
3. School teachers and administrators cooperating with the College of Education for the first eight weeks of the Summer Semester of 1946 (page 89).
4. Graduate scholars and fellows (page 90).
5. Degrees conferred at Urbana, August 17, 1946 (page 107).

The Board adjourned, to meet in Chicago on October 21 and 22.

**BUDGET FOR THE CHICAGO UNDERGRADUATE
DIVISION 1946-1947**

Explanatory Notes

Appropriations for salaries are available for the term indicated in each case but not for more than one year from September 1, 1946.

When appointments are made at salary rates less than the amounts provided in the budget, the unused balance lapses at that time.

Funds appropriated for positions in the salary budget which are not yet filled may, pending regular appointments, be drawn against by voucher to the Business Office for services of employees temporarily engaged to do the work contemplated by the position. Such temporary charges *may not exceed the amount of time provided* by the position unless indicated herein or otherwise approved by the President.

All unexpended balances remaining in the salary budget lapse at the close of each calendar month unless previously assigned or encumbered.

Departmental appropriations are made under the captions "Salaries," "Wages," and "Expense and Equipment." No transfers may be made between "Salaries" and other captions except with the approval of the President of the University. *Requests for such changes should be submitted to the Comptroller.* Adjustments may be made between "Wages" and "Expense and Equipment" upon written request to the Comptroller.

Appropriations for Expense and Equipment, Wages, and Nonrecurring Items are available for one year beginning July 1, 1946, and ending June 30, 1947. All unexpended balances in Wages appropriations lapse June 30, 1947, and *unencumbered* balances in Expense and Equipment appropriations lapse on that date. Allowable encumbrances for which funds will be carried forward on June 30, 1947, are only those for the purchase of equipment and other capital items.

All new positions classified as permanent and continuous should be included in the salary budget and must not be charged to any wages appropriation except in those departments submitting supplemental budgets detailing such wage appropriations.

Unless otherwise indicated in the Budget:

1. The service required under appointments in this budget to positions on the teaching faculty covers the academic year of the University, not including the Summer Semester. Salaries of such positions of the rank of Assistant Professor and above are paid in eleven equal monthly installments; salaries of other ranks, in ten equal monthly installments.

2. The service required in administrative, clerical, and service positions is for a full year of twelve months, with allowance for vacations, and salaries are paid in twelve equal monthly installments. All such positions in the academic budget are indicated by the letter "Y" following the tenure symbol.

Symbols:

A — Indefinite tenure.	Y — Indicates that services are re-
D — One year from September 1, 1946.	quired throughout the year, ex-
F — Ten months from October 1, 1946.	cept for allowable vacation,
G — Special tenure.	without additional compensa-
H — July 1, 1946, to June 30, 1947.	tion.
J — Eleven months from October 1, 1946.	

Part-time:

When any of the above symbols is combined with a number, the number indicates the fraction of time in per cent covered by the position.

MEETING OF THE BOARD OF TRUSTEES
OF THE
UNIVERSITY OF ILLINOIS

October 21-22, 1946

The October meeting of the Board of Trustees of the University of Illinois was held on Monday and Tuesday, October 21-22, 1946, at the University Club, in Chicago, according to the following schedule:

Monday, October 21, 6 p.m. — Executive session as in Committee of the Whole.

Tuesday, October 22, 11 a.m. — Open meeting.

On Monday evening, the following members were present: President Livingston, Mr. Davis, Mr. Fornof, Mrs. Grigsby, Dr. Luken, Mr. McKelvey, Mr. McLaughlin, Dr. Meyer, Mr. Williamson.

President Stoddard was present; also Mr. A. J. Janata, Assistant to the President, Mr. H. E. Cunningham, Secretary, Mr. I. L. Porter, Treasurer, Mr. Lloyd Morey, Comptroller, Dr. A. C. Ivy, Vice-President for the Chicago Colleges, Professor C. R. Griffith, Provost, Professor W. E. Britton, Legal Counsel, Professor W. C. Huntington, Chairman of the Building Committee, and Mr. F. E. Bell, Manager of the University of Illinois Foundation.

MATTERS PRESENTED BY PRESIDENT STODDARD

Following an informal discussion of the items on the agenda for the meeting on Tuesday, the Board took action on the following matters presented by the President of the University.

CONSULTATIVE COMMITTEE ON ARCHITECTURE

(1) In view of the many special demands on the University's Physical Plant Department for the construction of new buildings and other campus developments, it seems to me very desirable to have a consultative committee on architecture to be appointed by the President of the University. The personnel of the committee would include three or four architects of outstanding professional reputation, and experience in the construction of the kind of buildings the University of Illinois needs.

I recommend that the Board authorize appointment of such a committee and the payment of nominal honoraria and travel expenses for services. I do not wish to announce appointments at this time as I have not yet approached anyone.

On motion of Mr. Davis, the President of the University was authorized to select and appoint this committee under the terms recommended.

DEPOSIT OF UNIVERSITY FUNDS IN STATE TREASURY

(2) The organization act of the University provides that the University shall have a treasurer. The treasurer is made responsible for the custody of all funds received by the University and is required to make an accounting for those funds. He is required to give bond adequately protecting the University from loss. Disbursements are to be made by him on a warrant signed for the Board of Trustees by its president and its secretary.

Until about 1919 all funds of the University were handled in this manner. Even state appropriations were remitted to the University in quarterly allotments and the University submitted to the State Auditor for examination an itemized report of disbursements paid from such funds. At that time the act was changed to provide that disbursements from state appropriations (state tax funds) were to be made on vouchers certified to the Auditor of Public Accounts, the Auditor to draw his warrants to individual payees. For non-payroll items the warrants are mailed directly to payees by the Auditor. Payroll warrants are returned to the University for distribution to staff members and employees.

In 1933 the General Assembly passed an Act requiring the deposit of all University income, other than trust and Federal funds, in the State Treasury, to be held in a special fund from which appropriations are made at each session of the General Assembly. This Act permits the University to retain a "working cash fund," originally set at \$100,000. Additional legislation since that time has increased the working cash fund to \$200,000, and has authorized the retention by the University in its treasury of certain receipts required to meet debt obligations created as a lien against the income of self-liquidating projects such as residence halls, union building, etc.

As the University's business operations have grown in volume and complexity, it has become more difficult to operate under the Act of 1933, viz.:

1. The difficulty of making an accurate estimate of the receipts for the biennium. The outstanding example is the current biennium, 1945-1947, in which, as the result of greatly increased enrollment and increased compensation from the federal government for veteran students, the aggregate will be several million dollars more than the original estimate. This money accumulates in the State Treasury and can not be used for any other purpose and yet can not be disbursed until appropriated by the General Assembly.

2. The large volume of transactions through the working cash fund to meet payrolls and satisfy the needs of employees as well as other transactions requiring immediate payment. The capital of this fund is \$200,000, but the total

amount of transactions during the year 1945-1946 was \$1,566,000. This means a tremendous volume of items which must first be paid by the University, itemized receipts taken, and submitted to the State Auditor for reimbursement. Such transactions could be completely avoided if the income of the University were in its own treasury, since it could handle emergency transactions directly from these funds. It would relieve the State Auditor's Office of considerable office expense.

3. The requirement that receipts of residence halls, farms, stores, and other services be paid into the State Treasury also makes a very difficult problem of estimating. These transactions represent largely the turnover of cash and do not represent to any material extent net income available for general educational operations of the University, yet they are a part of the grand total of the State appropriations. At the present time receipts of union buildings and residence halls are exempt from the requirement of deposit in the State Treasury, because they are covered by trust indentures; however, when these arrangements terminate, such receipts will have to go into the State Treasury and this change will involve many difficulties of operation. All receipts from the new Undergraduate Divisions in Chicago and Galesburg must go into the State Treasury.

4. The public gets the impression that the State of Illinois is appropriating the gross amount of the appropriations to the University out of its tax revenues. In spite of all publicity efforts to the contrary, it is difficult to inform the public that University income makes up, at the present time for example, \$6,000,000 of the \$25,000,000 appropriated to the University.

The General Assembly should be requested to authorize a return to the former method of operation, thus making it possible for the University to retain all of its income in its treasury and make disbursements of that income from that point entirely instead of through the State Treasury.

Mr. Morey and Mr. Janata commented on this matter.

On motion of Mr. Williamson, the President of the University and the President of the Board were authorized to request the General Assembly to make this change.

REQUEST FROM PRESIDENT OF THE UNIVERSITY FOR LEAVE OF ABSENCE

(3) I have been appointed one of the five voting delegates to the First Session of the General Conference of the United Nations Educational, Scientific, and Cultural Organization which will convene in Paris in November. This is a public service which I feel it is a duty to perform, but before the appointment was made I received informal permission from the Executive Committee of the Board of Trustees to accept.

The conference will convene in Paris November 19 and the delegation will leave the United States between November 11 and 16. It is anticipated that this service will require my absence from the University for a period of about six weeks, and I am, therefore, requesting a leave of absence for that purpose.

On motion of Mr. Fornof, this leave was granted as requested, and the following resolution was adopted:

Whereas, President George D. Stoddard has been selected as one of five voting delegates to the first General Conference of the United Nations Educational, Scientific, and Cultural Organization, to convene in Paris in November, 1946, which selection is a signal recognition of Dr. Stoddard's high attainments in the educational world, gives him further opportunity for great service, and reflects honor on the University of Illinois, be it

Resolved, that the Board of Trustees hereby congratulates Dr. Stoddard on the honor that has come to him, and wishes him a happy and successful journey and a safe return; and be it further

Resolved, that the Secretary be instructed to spread this resolution on the minutes and to provide Dr. Stoddard with a copy thereof.

GIFT OF MR. ROBERT ALLERTON

(4) Mr. Robert Allerton of Monticello, Illinois, has given the University his beautiful country estate for educational and research purposes to be used as a forest, wild life, and plant life reserve, as an example of landscape gardening, and as a public park. This homestead includes an English-Georgian mansion, other buildings, and approximately 1,500 acres of garden, park, and forest areas. A part of the homestead area has been deeded to the Board of Trustees for the specific purpose of providing a site for a 4-H Club Camp and 4-H Club activities.

The homestead is described in his deed of gift as the "Woodland Property." At the suggestion of the University, it will be known as the "Robert Allerton Park." To endow this park, Mr. Allerton has also given the University farm lands, the income from which is to be used for the maintenance and operation of the park, including the house.

This is a magnificent gift to the University and to the general public. It will provide the University new facilities for educational and research services in many fields. It will also provide a unique center for conferences, institutes, and special activities.

The Board of Trustees has previously accepted Mr. Allerton's gift. I now present two indentures between Mr. Allerton and the Board of Trustees, one conveying to the University the "Woodland Property" and the endowment farms, and the other conveying to the Board of Trustees of the University the land to be used as a 4-H Club Camp and for 4-H Club activities. These deeds will be recorded in the Piatt County Court House. I suggest that they be printed in full in the minutes of the Board of Trustees. (See appendix, page 155).

In addition to the previous formal acknowledgment of this gift by the Board of Trustees, I should like to ask that the Board now record an expression of deep appreciation on behalf of the University and of the people of Illinois for this splendid gift made to them by Mr. Robert Allerton. I should like also to record my personal appreciation to Mr. Robert Allerton, Mr. John Gregg, and Mr. A. L. Green, Counsel for Mr. Allerton, for their fine attitude and cooperation in the negotiations we have had with respect to the terms of his gift.

On motion of Mr. McLaughlin, the Secretary, in collaboration with the President of the University and the Legal Counsel, was instructed to prepare a suitable resolution of appreciation of Mr. Allerton's generous gift and report it to the Board.

The Board adjourned, at 12:20 a.m., to meet at 11 a.m. on Tuesday.

SESSION ON TUESDAY, OCTOBER 22, 1946

When the Board convened at 11 a.m. on Tuesday, October 22, 1946, at the University Club, in Chicago, the following members were present: President Livingston, Mr. Davis, Mr. Fornof, Mrs. Grigsby, Dr. Luken, Mr. McKelvey, Mr. McLaughlin, Mr. Williamson. During the forenoon, Dr. Meyer and Mr. Nickell took their places with the Board.

President Stoddard was present; also Mr. A. J. Janata, Assistant to the President, Mr. H. E. Cunningham, Secretary, Mr. I. L. Porter, Treasurer, Mr. Lloyd Morey, Comptroller, Dr. A. C. Ivy, Vice-President for the Chicago Colleges, Professor C. R. Griffith, Provost, Professor W. E. Britton, Legal Counsel, Mr. D. E. Dickason, Director of Nonacademic Personnel, and Mr. J. F. Wright, Director of Public Information.

MATTERS PRESENTED BY PRESIDENT STODDARD

The Board considered the following matters presented by the President of the University.

APPOINTMENT OF DR. JOHN BARLOW YOUMANS AS DEAN OF THE COLLEGE OF MEDICINE

(1) A special committee of the faculty, appointed by the former Executive Dean and the President of the University, to study the qualifications of the candidates for the position of Dean of the College of Medicine, has recommended that Dr. John Barlow Youmans of Vanderbilt University School of Medicine be appointed Dean of the College of Medicine, Medical Director of the Research and Educational Hospitals, and Professor of Medicine, effective as soon as he can report for duty. The Vice-President of the University in charge of the Chicago Professional Colleges concurs in this recommendation.

I recommend approval of this appointment at a salary of \$15,000 a year, the appointment as Dean and Director to be until September 1, 1947, and thereafter on a biennial basis, and the appointment as Professor of Medicine to be on indefinite tenure. Since immediate action on this appointment was necessary, it was submitted to the Executive Committee which gave informal approval.

A biographical sketch of Doctor Youmans is attached.

On motion of Mr. Williamson, this appointment was made as recommended.

CLINICAL FACULTY OF THE ILLINOIS EYE AND EAR INFIRMARY

(2) A recommendation that additional appointments (as printed in the Appendix, page 153) be made to the nonsalaried, or clinical, faculty of the College of Medicine, in the Illinois Eye and Ear Infirmary, for the academic year beginning September 1, 1946; and that the President of the University be authorized to make such additional appointments or other changes as are desirable and necessary.

On motion of Dr. Luken, these appointments were made, and authority was granted as recommended.

APPOINTMENTS TO MAJOR POSITIONS IN THE UNDERGRADUATE DIVISION OF THE UNIVERSITY OF ILLINOIS AT GALESBURG

(3) Pursuant to authorization given the President of the University by the Board of Trustees (Minutes, September 24, 1946, page 38) to employ the necessary personnel for the operation of a branch of the University in Galesburg, the following major appointments have been made in the Undergraduate Division at Galesburg.

FREDERIC R. HAMILTON, to the position of Dean beginning September 27, 1946, and continuing through August 31, 1947, at an annual salary of \$8,000.

MAURICE J. GALBRAITH, to the position of Director of Student Welfare beginning September 19, 1946, and continuing through June 30, 1947, at an annual salary of \$4,800.

LEWIS O. KERWOOD, to the position of Examiner and Recorder in the Registrar's Office beginning October 1, 1946, and continuing through August 31, 1947, at an annual salary of \$4,500.

WILLIAM J. ENGLISH, to the position of Business Manager beginning October 10, 1946, and continuing through August 31, 1947, at an annual salary of \$4,500. Since July 28, 1943, he has been on leave for military service and is now on terminal leave from the Army with the rank of Major. Before he went on leave for war service he held the position of Tabulating Machines Supervisor in the Business Office.

Appointments of an Associate or Assistant Dean and a Director of the Division of Special Services for War Veterans are yet to be made.

On motion of Mr. McLaughlin, these appointments were made as recommended.

**EASEMENT TO ILLINOIS BELL TELEPHONE COMPANY
FOR UNDERGROUND CABLE**

(4) The Illinois Bell Telephone Company has requested permission to place a buried cable across the 70-foot strip of land owned by the University which crosses the Ross property in Section 1 of Tolono Township, Champaign County, for the purpose of providing additional circuits to the Airport and to take care of the pole line along the east side of Route 45 which must be relocated due to the widening of this road from Champaign to the University Airport entrance road. This cable will be buried not less than 30 inches below the surface of the ground and the University-owned drainage tile will not be disturbed.

I recommend that the Board of Trustees grant the Illinois Bell Telephone Company an easement for this cable.

On motion of Mr. Davis, this recommendation was adopted.

TEST DRILL HOLE AND TUBULAR WELL AT AIRPORT

(5) Bids were called, on uniform specifications, for the construction of a test hole and a finished well to supply water to the University Airport. However, only the firm of Hayes and Sims submitted a bid. The Physical Plant Department has checked this bid and believes the quotations received are in line with what should be expected at this time. Additional test wells will be arranged for as may be necessary at the unit bid price by means of change orders. Funds are available in the Airport appropriation for all costs.

The Directors of the Institute of Aeronautics and of the Physical Plant Department recommend the award of a contract to Hayes and Sims on the basis of unit prices submitted, based on one rotary test drill well and one tubular well, at a total quotation of \$4,194, with the understanding that if water is not found work will be stopped and payment made only for the test well on a unit cost basis.

I concur and recommend that the Comptroller and Secretary of the Board be authorized to execute such a contract.

On motion of Mrs. Grigsby, this recommendation was adopted.

**COMBUSTION CONTROL AND GAUGE BOARDS FOR
ABBOTT POWER PLANT ADDITIONS**

(6) A proposal has been received from the Republic Flow Meters Company for furnishing of combustion control and gauge boards with instruments for the Abbott Power Plant Additions. This is a negotiated proposal and bids were not taken. Sargent and Lundy, our consulting engineers, indicate that it is impracticable to use the product of any other manufacturer in as much as the present combustion control is manufactured by Republic and any extension thereto must be their equipment. Furthermore, the gauge boards and instruments are essentially duplicates of similar items furnished by Republic in 1940. A good many engineering details, therefore, are already in their files and would greatly facilitate the necessary duplication in arrangement and appearance. The proposal is in strict accordance with the specifications.

The proposal includes a provision that any escalation in cost will be limited to 15 per cent of the proposal prices on equipment of Republic's own manufacture.

Sargent and Lundy consider this a fair proposal, and the Physical Plant Department requests authority to execute a contract with Republic Flow Meters Company for a total encumbrance of \$11,862.25, the base bid being \$10,315.00 plus an allowance for the maximum escalation of 15 per cent.

I recommend that the Comptroller and Secretary of the Board be authorized to execute such a contract.

On motion of Mr. Fornof, this contract was authorized as recommended.

SPECIAL APPROPRIATIONS FOR NONRECURRING EXPENDITURES

(7) The Committee on Special Appropriations and Nonrecurring Expenditures recommends assignments from the General Reserve Fund for the following purposes:

Replacement of direct current generator for Department of Electrical Engineering.....	\$ 8 000
Replacement of distilled water equipment in Noyes Laboratory.....	2 000
Equipment for Chemical Engineering.....	17 000
(This appropriation will be offset by a transfer to the General Reserve Fund of an equivalent amount from balances in funds received from the Federal Government for research on military problems.)	
For a study of teacher-appointment methods and practices by the College of Education.....	1 250
<i>Total</i>	<u>\$28 250</u>

On motion of Mr. Davis, these appropriations were made as recommended, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Grigsby, Mr. Livingston, Dr. Luken, Mr. McKelvey, Mr. McLaughlin, Mr. Williamson; no, none; absent, Mr. Green, Dr. Meyer, Mr. Nickell.

**PURCHASE OF HENRY BALDWIN WARD LIBRARY
COLLECTION IN PARASITOLOGY**

(8) The late Henry Baldwin Ward, for many years Professor and Head of the Department of Zoology in the University, left a notable library in the field of parasitology. The executors of the estate have offered to sell this library to the University at a price of \$15,000. The collection consists of at least 15,000 volumes of books and journals and an estimated 35,000 classified reprints. The price offered for the library is considered very reasonable and its purchase is strongly recommended by the Director of the University Library, R. B. Downs.

The financial position of the University with respect to the difficulty of funds has been discussed with the executors. They have offered an option of purchase to the University under a contract which would include the following conditions:

1. That the purchase of the library be definitely accepted in writing by the University of Illinois, or definitely rejected in writing before February 15, 1947.
2. That the library remain where it is now housed until the purchase thereof is accepted by the University of Illinois, or until 45 days after the purchase is definitely rejected by the University of Illinois.
3. That the Executors of the Henry Baldwin Ward Estate have the privilege of showing the library to other persons who may be interested bidders therefor, in the event that the same is not ultimately purchased by the University of Illinois.
4. That the library receive the same care and protection which is presently provided by the University of Illinois.

I recommend:

1. That the Board of Trustees authorize the Comptroller and the Secretary of the Board to conclude a contract for the purchase of this library with the foregoing conditions which it is noted include the provision that the University may have the right to reject the purchase before February 15, 1947. This will protect us with respect to the possibility of getting additional funds that will be necessary for this purpose.
2. That an appropriation of \$15,000 be made by the Board out of the General Reserve for this purpose, with the provision that it will become effective only when and if sufficient funds are available in the General Reserve beyond other essential commitments which make possible this allocation.
3. When and if such funds do become available, that the Director of the Library be authorized to conclude the purchase and take over the library.

On motion of Mrs. Grigsby, these recommendations were adopted, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Grigsby, Mr. Livingston, Dr. Luken, Mr. McKelvey, Mr. McLaughlin, Mr. Williamson; no, none; absent, Mr. Green, Dr. Meyer, Mr. Nickell.

AUTHORIZATION OF SIGNATURES FOR GALESBURG UNDERGRADUATE DIVISION PETTY CASH FUND

(11) On September 24 (Minutes, page 44) the Board of Trustees authorized a petty cash fund for the Business Office at the Galesburg Undergraduate Division, and designated the First Galesburg National Bank and Trust Company, of Galesburg, Illinois, as depository. That bank has requested that the Board, by resolution, designate the authorized signatures on checks against that fund.

The Comptroller requests approval of the following resolution:

Whereas the Board of Trustees on September 24, 1946, designated the First Galesburg National Bank and Trust Company of Galesburg, Illinois, as depository for a petty cash fund for the Galesburg Undergraduate Division of the University;

Be it resolved that Lloyd Morey, Comptroller, is authorized to delegate to the person who from time to time shall be duly appointed and acting as Business Manager of the Galesburg Undergraduate Division, authority to sign checks against the said petty cash account, and

Be it further resolved that Lloyd Morey, Comptroller, specifically is authorized to delegate such authority to Lyle M. Dahlenburg for the period in which he may serve as Acting Business Manager, and to William J. English during the period of his incumbency as Business Manager.

On motion of Mr. Williamson, this resolution was adopted.

REPORT OF AUDIT OF ATHLETIC ASSOCIATION

(12) The Committee on Athletic Activities has received a copy of the report on the examination of the accounts of the Athletic Association of the University of Illinois for the year ended June 30, 1946, by Arthur Young and Company, auditors. The report is supplemented by a report from the University Auditing Division covering the detailed audit of ticket sales for the year. The report of Arthur Young and Company includes a certification of the balance sheet and statement of income, expenses, and operating surplus. The report of the University Auditing Division shows that all matters relating to ticket sales have been satisfactorily handled.

This report was received for record.

STAFF HOUSING FOR UNDERGRADUATE DIVISION AT GALESBURG

(13) The Federal Public Housing Authority is holding for the University 110 temporary housing units of family type and has agreed to erect these units at Galesburg where they will be seriously needed for accommodation of staff members required at that place. The Physical Plant Department has recommended that these units be accepted. The cost of moving and erection is borne by FPHA, but the cost of utility connections and certain other expenses must be borne by the University. These expenses will be included in the budget of the Galesburg division when presented.

Because of the urgency, I authorized the acceptance of this offer. I request approval of my action and authorization to the Comptroller and Secretary of the Board to execute the necessary contracts with FPHA and any other contractors from whom service will be required for their erection.

On motion of Mr. McLaughlin, the action of the President in authorizing the acceptance of this housing was approved and confirmed, and authority was granted as recommended.

AMENDMENT OF RULES FOR THE CLASSIFIED CIVIL SERVICE

(14) The Director of Nonacademic Personnel recommends the following change (indicated by italic type) in the rules for the classified Civil Service as originally adopted by the Board of Trustees December 16, 1941:

X. PROMOTION

The Board shall, by its rules, provide for promotions whether to fill vacancies or otherwise, solely on the basis of ascertained merit. To that end, it shall fix lines of promotion wherever practicable. Employees who are promoted in accordance with this section shall have their seniority determined by the length of service in the promotional line.

Any change of a classified employee from a position of one class to a position of another class *within the promotional line* requiring an increase in compensation, an increase in duties or responsibility, or a combination of both, shall be deemed a promotion. Promotions shall be made from promotional registers and determined on merit and ability, to be ascertained by examinations in which the employee's service rating, education, personal qualifications, seniority, and personnel history are all considered.

The University's regulations implement the State Civil Service law, and the above change is recommended to bring these regulations more in line with the provisions of the law.

I recommend that this be referred to the Committee on Civil Service and Employees. The Director of Nonacademic Personnel met with this Committee today, preceding the Board meeting.

On motion of Mr. McLaughlin, the rules were changed as recommended.

AMENDMENT OF "POLICY AND RULES RELATING TO COMPENSATION AND WORKING CONDITIONS OF NONACADEMIC EMPLOYEES"

(15) The Director of Nonacademic Personnel recommends certain changes in the "Policy and Rules Relating to Compensation and Working Conditions of Nonacademic Employees," adopted by the Board of Trustees June 30, 1945, as amended.

I recommend that this be referred to the Board Committee on Civil Service and Employees. The Director of Nonacademic Personnel met with this Committee today, preceding the Board meeting.

On motion of Mr. McLaughlin, certain sections of the rules on nonacademic employees were amended to read as follows:

IV-4-B. "Eight-hour day or four-hour half-day shift, 40-hour week within the period Monday morning through Saturday noon inclusive."

IV-4-C-a. "Employees now working under a basic 44-hour week, and wishing to be permanently transferred to Plan B, will be so transferred upon request to the Department Head, who shall notify the Office of Nonacademic Personnel of all such transfers. Employees now working under a basic 44-hour week, and eligible for a month's vacation, who are thus transferred, will suffer no reduction in total weekly or monthly compensation as a result of such transfer."

VI-2-B. "Other employees, except administrative employees employed in classifications listed under Schedule U-IX and C-VI, will be compensated at time and a half, payable in cash in addition to regular compensation."

VII-1. "Vacations are granted only to permanent and continuous employees who complete not less than eleven consecutive months of service. In the case of seasonal employees whose services are not required for eleven consecu-

five months, service shall be regarded as consecutive if (1) period of seasonal operations in which he is employed is at least six consecutive months; (2) the individual is employed for six consecutive months during the entire period of seasonal operations; and (3) the only breaks in employment are due to seasonal layoffs."

VII-2-A. "One calendar month vacation in each year of service. . ."

VII-2-B. "Progressive vacation schedule: Two work weeks in each of the first two years of service; three work weeks in each of the next two years of service; one calendar month in the fifth and each succeeding year of service."

VII-2-C. "Two work weeks vacation in each year of service."

VIII-1-B. "Such employees may elect to use portions of allowances for disability provided under sub-section 2 hereof to supplement payments made under the Workmen's Compensation Act, provided that in no case during a period of disability shall total payments exceed the full compensation paid the individual at the time the disability occurred."

VIII-2-A. "Each full-time permanent and continuous employee is entitled to a disability leave of two work weeks with pay in each year of service, no part of which shall be cumulative. Each permanent and continuous employee employed regularly but on a part-time basis is entitled to such fraction of two work weeks with pay as is represented by the relationship between this part-time employment and the full-time schedules in his classification. Any permanent and continuous employee who is disabled before completing his first year of service will be allowed the same proportionate amount of the two work weeks disability leave as the portion of the year completed."

VIII-3-b. "Disability benefits from the System are payable to any participant for mental or physical disability arising from any cause as a result of which the individual is unable to perform the duties of his position. Benefits begin 60 days after the beginning of the disability, provided an application has been filed and salary suspended. Benefits amount to 50% of the earnings at the time the disability occurred and continue during the disability until the total paid is 50% of the total earnings during service credited in the Retirement System."

IX-2. "Leaves of absence with pay on account of death or illness of relatives may be granted by the Director of Nonacademic Personnel to the extent considered reasonable and necessary in each case, taking into consideration length of service, condition of work in the department, previous leave granted the employee, and recommendation of department head. Such leaves when granted shall be charged against the employee's annual disability leave in accordance with Section VIII-2-A, unless otherwise approved by the Director of Nonacademic Personnel."

XIII. "Grievances shall consist of all matters of dispute affecting the employer-employee relationships, excepting those set out in Section III to Section IX inclusive, other than questions of interpretation of those sections or their applications to individual cases and except as stated in paragraph 5 of this section. If any employee has a grievance which he desires to have considered, he shall present it in the following manner:"

XIII-5. "Cases of suspension or cases arising under section III-3-C may be appealed by or on behalf of an employee in accordance with paragraphs 1 to 3 of the foregoing procedure. The Director of Nonacademic Personnel is authorized to make final decision in such cases."

XIV. "Employees shall acquire seniority rights retroactive to date of employment after the completion of the probationary period of six months as provided in the University Civil Service Rules. Seniority shall be by length of service in the promotional line; and seniority rights shall be limited to the locality in which the work is performed, that is Urbana, Galesburg, the Chicago professional colleges, the Chicago Undergraduate Division, the Agriculture Experiment Station at Dixon Springs, and any other locations which now are, or may be, established by the University. If an employee is on disability leave, or is on leave for service in the armed forces of the United States, the tenure for seniority will continue as though he were continuously employed. If the employee is laid off for lack of work, or if a leave, other than a disability leave or

for service in the armed forces of the United States is granted at the request of the employee, seniority will be based on the actual months of service in the promotional line.

"If an employee accepts a position in a classification outside the promotional line, he may be given a leave for one year from his old classification in order that he may preserve seniority for the months of service in the promotional line of which that classification is a part. After one year's service in the classification outside the promotional line, the employee's continuation in that classification will be deemed a waiver of seniority rights in the old promotional line."

CHANGES IN CIVIL SERVICE CLASSIFICATION

At this point, Mr. McLaughlin reported that the Committee on Civil Service and Employees of the Board of Trustees received from President Stoddard the revised classification descriptions of University positions which were put into effect during the past year by the Director of Nonacademic Personnel for the purpose of bringing such positions into accord with current requirements. After a review of this report the Committee recommended that it be received for record.

On motion of Mr. McLaughlin, this list of revised descriptions was received for record.¹

BIENNIAL BUDGET FOR OPERATIONS, 1947-1949

(16) I present the biennial budget for the operation of the University of Illinois for the two years beginning July 1, 1947, covering all funds for which appropriations must be made by the General Assembly. This estimate is submitted as the proposed basis for the budget to be filed with the Department of Finance by November 1, 1946, as required by law.

In accordance with the principles outlined in this report and on the basis of detailed schedules presented to the Board, I recommend a total operating budget for 1947-1949 of \$65,083,818. Of this amount, the sum of \$48,083,818 would come from the tax funds of the State and \$17,000,000 from the University's own income.

The original appropriation for 1945-1947 was \$25,407,250, of which \$19,207,250 came from tax funds and \$6,200,000 from University income. However, early in the 1947 session of the General Assembly, the University will request supplementary appropriations presently estimated at \$9,903,146 which, when granted, will bring the total appropriations for the current biennium to \$35,310,396. This means that the total requested increase for 1947-1949 over 1945-1947 is actually about \$30,000,000. In view of the extraordinary increase in educational services to be rendered in the coming biennium, as indicated in this report, the increase is not out of proportion. It also should be noted that the extra sum of nearly ten million dollars is needed entirely for the second year of the present biennium.

PRINCIPLES GOVERNING BUDGET

Many complex and diverse problems face the University with respect to its budget for 1947-1949. Among these may be mentioned the following:

1. *Increased Enrollment.* Appropriations to the University for 1945-1947 were based on the assumption of the Illinois Budgetary Commission that the enrollment would remain static at about 8,000 students during that period. Accordingly no provision was made for increased staff, and relatively little for supplies and equipment. Actually, we will be serving during 1946-1947 approximately 26,000 students, or over three times the number on which the current biennial appropriation is based. Of this number 18,500 at Urbana will continue through 1947-1949. Material additions must be made to enable the University to serve satisfactorily this greatly increased body of students. The increase requested for this purpose is \$4,389,712 annually or for the biennium \$8,779,424.

¹ This action was rescinded at the meeting of December 28, 1946, page 195.

2. *New Undergraduate Divisions.* To take care of the greatly increased enrollment, two new undergraduate divisions have been established at Chicago and Galesburg. As already authorized by the Board, additional emergency appropriations for the second year of the current biennium will be requested when the General Assembly convenes. For 1947-1949 it will be necessary to place these appropriations on a biennial basis. Students in the new divisions are in the freshman and sophomore classes only. We plan to provide for 4,000 students at Navy Pier and 2,000 at Galesburg. During the next biennium provision must be made for serving many of these students in the upper classes of the University at Urbana. This will result in an increase in the average cost per student on the Urbana campus. The amount requested annually for the new undergraduate divisions is \$3,837,372, or for the biennium — \$7,674,744.

3. *Chicago Professional Colleges.* While the enrollment of the Chicago professional colleges is relatively stable at about 1,500 students, a considerable increase in the budget is necessary to carry out an adequate program and maintain personnel. A major increase is needed in the budget of the Research and Educational Hospitals to enable the hospitals to serve patients satisfactorily and provide adequate material for research and instructional purposes. An annual increase of \$946,694 is requested, or for the biennium — \$1,893,388.

4. *Increased Operating Expenses.* The added student load, additional new buildings being erected, and increased wage scales and cost of supplies necessitate major increases in the budgets of the Library, the Physical Plant, and administrative offices. In the Physical Plant there is also the problem of deferred maintenance and rehabilitation costs resulting from the fact that material and labor have not been available in recent years to keep the plant as a whole in a satisfactory condition of repair. A considerable addition to the item of contributions to the Retirement System also is necessary to cover the increased number of retirement annuities and increased costs due to larger University staff and payroll. An annual increase of \$1,886,791 is requested, or for the biennium — \$3,773,582.

5. *Salary and Wage Scales.* Salaries of academic staff in the University have not kept pace with the increase in living costs in recent years. Also they are inadequate to meet competition from industrial, governmental, and professional, as well as other institutional employment. To maintain the high level of morale in the faculty, a major increase in salaries for the coming biennium is essential. The Board has already received petitions from the faculty which have been referred to the President and by him to the University Council for study and recommendation.

The Council recommends the following increases which are included in the budget estimates submitted herewith:

(a) Cost of living adjustment in 1946-1947 salaries:

30% of the first \$4,000 of each salary.

20% of the next \$1,000.

10% of the next 1,000.

No adjustment on the portion of any salary which is above \$6,000.

(b) Deans, directors, and general administrative officers shall be authorized to recommend such reductions in the above schedule as are appropriate in the salaries of those staff members who have been added to the staff during the current year at higher than the usual rates or whose salaries have been especially adjusted to meet unusual circumstances.

(c) New minimum salaries for full-time service during the regular academic year beginning in September and ending in June for the various ranks are recommended as follows:

<i>Rank</i>	<i>Present Minimum</i>	<i>Proposed Minimum</i>
Full-time assistant	\$1 800	\$2 400
Instructor	2 000	3 000
Assistant professor	3 000	4 000
Associate professor	3 800	5 000
Professor	4 600	6 000

Suitable adjustments may be made in salaries if service is required through the entire year, i.e., from September through August.

(d) A substantial amount should be available for merit increases over and above the recommended cost-of-living increases and for the correction of inequities produced by such increases and for adjustments of salaries of administrative officers on the recommendation of the President.

The annual amount requested for academic salary increases is \$2,776,386, or for the biennium — \$5,552,772.

While nonacademic salaries and wages on the whole have been adjusted more adequately than faculty salaries in recent years, there is still need for considerable adjustment in this area. Provision also must be made for wage adjustments in prevailing rate groups to meet local wage agreements. The annual amount requested for increases in rates paid to prevailing rate groups is \$282,610, or for the biennium — \$565,220.

The Director of Nonacademic Personnel, after a thorough survey of the situation, has recommended that funds be provided which would make possible cost-of-living adjustments for non-prevailing rate employees by July 1, 1947, averaging 25% of the salary as of July 1, 1946, subject to individual adjustment to correct inequities and to provide merit recognition. The amount requested annually for nonacademic salary increases is \$1,320,690, or for the biennium — \$2,641,380.

6. *Improved Educational Programs.* In 1945 the University made an effort to secure funds to strengthen its educational programs at many points in order to provide opportunity for better instruction and to develop research in certain fields not now adequately covered. Only a moderate part of the amount requested at that time was secured. A restudy of the whole situation has been made and a sum of \$856,530 is recommended for this purpose annually, or for the biennium — \$1,713,060.

7. *Auxiliary Enterprises.* Because the receipts from many auxiliary self-supporting activities go into the State Treasury, it is necessary that the budget include the estimated amount of the operations of these activities for the biennium. For 1947-1949 these activities in the new Undergraduate Divisions at Chicago and Galesburg, such as food service and housing, must be included. These activities do not require appropriations from State tax funds since their operations are covered entirely by their own income. This income is deposited by the University in the State treasury. The annual appropriation necessary is \$3,105,360, or for the biennium — \$6,210,720.

8. *General Considerations.* As pointed out in connection with the 1945-1947 budget, through successive biennial periods since 1933, the University's biennial appropriations have been materially less than requested by the Board of Trustees. During the two periods 1943-1945 and 1945-1947, appropriations were increased but not sufficiently to take care of the backlog of accumulated and deferred needs. In the meantime, the tremendous increase in student enrollment has resulted in a vast increase in teaching load and other responsibilities. It is my judgment that we should present to the State a budget which represents what is necessary to place the University in a secure financial position and enable it to meet its responsibilities in instruction, research, and public service.

The educational portion of the budget as here submitted has been reviewed by the Provost and the entire budget was submitted to and endorsed by the University Council. The schedules submitted were prepared by the Comptroller.

On motion of Mrs. Grigsby, the biennial operations budget was unanimously approved as presented, to be filed as a tentative biennial budget under the State Finance Act, and the President of the University and the President of the Board were requested to take charge of the matter from now on.

REPORT OF SPECIAL COMMITTEE ON HOUSING

At this point, Dr. Meyer presented the following report.

The Special Committee on Housing appointed to consider and report on student and staff housing at the Chicago Professional Colleges and at Urbana-Champaign reports as follows:

1. We recognize the need of new permanent housing for 3500 men, 1500 women, and 450 graduate students and staff at Urbana, and for 320 men, 300 nurses, and 100 staff at Chicago; the total cost is estimated to be \$26,000,000.

2. We recommend for the 1947-1949 biennium provision for 2,000 students and 400 graduate students and staff at Urbana, and for 320 men and 300 nurses at Chicago; the total cost is \$14,100,000, of which \$10,060,000 would be derived from State appropriation and \$4,040,000 from borrowing; the necessary utility services are to be provided separately.

3. We recommend that the Board request extension of its borrowing power by the General Assembly to cover as much as possible of the total cost of the housing program.

KARL MEYER, *Chairman*
JOHN R. FORNOF
MARTIN G. LUKEN

On motion of Dr. Meyer, this report was adopted.

TRIBUTE TO HENRY E. WILSON

At this point, Mr. McKelvey presented the following.

In the recent death of Henry E. Wilson, for thirty years General Secretary of the University Y.M.C.A., the University of Illinois lost a loyal friend. While not an official member of the University staff, Mr. Wilson's contribution to the University's welfare and student life has been far-reaching and outstanding. His able leadership brought him, and the University, national and world-wide recognition in Y.M.C.A. circles, and the Association he so ably led has had top rank rating for many years.

Mr. Wilson's chief concern was that the Y.M.C.A. should serve the University by providing leadership and a program in the area of moral and spiritual values.

The beautiful building which is the house of the Y.M.C.A., while a gift of friends interested in the moral and spiritual life of students, is also a testimonial of the dreams and the untiring efforts of Mr. Wilson.

Therefore, be it resolved, that the Board of Trustees hereby records its appreciation of Mr. Wilson's contribution to the life of the University over so many years, and directs its Secretary to spread this resolution on the minutes and to send copies to Mrs. Wilson and to the officers and directors of the Y.M.C.A.

On motion of Mr. McKelvey, this resolution was adopted by unanimous vote.

To have and to hold the said property upon the following charitable trust, terms and conditions, viz.:

1. The Woodland Property shall be used, maintained, preserved, operated, improved and developed by the Grantee for educational and research purposes, as a forest, wild and plant-life reserve, as an example of landscape gardening, and as a public park.

2. The Grantee may carry on such educational and research activities on the Woodland Property as the Grantee, in its sole discretion, may deem desirable and may change such activities from time to time as it chooses.

3. The Grantee may, at its sole expense, construct on the Woodland Property and maintain and use thereon such building or buildings for educational and research purposes as the Grantee may deem necessary or desirable, provided that such buildings are erected eastward of the entrance drive (which runs from the gardener's lodge to the main house) and northward of the main house, and that such buildings are similar in appearance to the main house and gardener's lodge.

4. The trees on the Woodland Property shall be well cared for and cultivated to the end that the forests thereon will be preserved.

5. The statues, garden ornaments, ornamental garden buildings, paths and roads on the Woodland Property shall, so far as practicable, be kept, maintained and preserved as they are on the date hereof. The Grantee shall be under no obligation to replace or restore any of the property mentioned in this paragraph which has been destroyed, removed, or damaged by fire, windstorm, flood, other casualty or by the act of any person, if, in the judgment of the Grantee, the damage, destruction or removal of such property is of such a nature or extent as to make restoration impossible or impracticable. The Grantee may, however, substitute other property for that damaged, destroyed or removed if, in the judgment of the Grantee, the substituted property will harmonize with the property then located on the Woodland Property.

6. The Grantee may construct on the Woodland Property and maintain thereon pavilions, shelters, toilets, other structures, roads and paths and may keep, preserve, maintain and use the greenhouses, gardeners' houses, garages, garden house, pavilions, sheds and similar buildings which are now on the Woodland Property and may rebuild and replace them at any time or times. All said buildings and structures shall be used for the maintenance, preservation, operation, improvement, development or use of the Woodland Property as a public park, but the appearance of all new buildings and structures shall be in harmony with the forests and landscaping and other buildings and structures on the Woodland Property.

7. The Grantee may defer opening the Woodland Property to the public as a park until November 15, 1947, but from and after said date the Woodland Property shall be open to the public as a public park, provided that the Grantee may establish reasonable rules and regulations for the use and enjoyment of said Property.

8. The Grantee shall at all times employ and use a sufficient number of men for the maintenance and preservation of the Woodland Property and the trees and gardens thereon. The net income from the Farm, after payment of expenses for the management, care, preservation, maintenance, use and operation of the Farm, or such portion of said net income as may be necessary, shall first be devoted to the purposes of this Paragraph 8 before any thereof is used for any of the other authorized purposes set forth in Paragraph 9 hereof.

9. The Grantee shall maintain and operate the Farm and, except as hereinafter provided, shall use the income therefrom solely for the management, care, preservation, maintenance, use, operation, improvement and development of the Farm and the Woodland Property, except that none of said income shall be used for the management, care, preservation, maintenance, use, operation, improvement, development or construction of the buildings and structures referred to in Paragraph 3 hereof and except that not more than 15% of the net income from the Farm may be used for the care, maintenance, preservation, insurance, operation and use of the Main House or a building which replaces it. If any portion of the income from the Farm is not expended by the Grantee for the foregoing authorized purposes during the calendar or fiscal year in which such income accrues or is received by the Grantee, the unused portion of such income may be held as a reserve by the Grantee; and such reserve, or any part thereof, may be used by the Grantee for the foregoing authorized purposes in any subsequent year or may be invested and reinvested by the Grantee and the income from and proceeds of such investments used by the Grantee for the foregoing authorized purposes in any subsequent year. If and whenever said reserve shall comprise cash and/or investments whose aggregate value is in excess of the then estimated expense of carrying out the foregoing authorized purposes during the ensuing five years, such excess may be used by the Grantee for such educational, scientific and research purposes as it in its sole discretion may determine.

10. The Grantee may, with the written approval of the President of the Alumni Association of the University of Illinois and the Chief Justice of the Supreme Court of the State of Illinois, sell the Farm or any portion thereof at any time by public or private sale for such price and upon such terms as the Grantee in its discretion may deem advisable and the President of the Alumni Association of the University of Illinois and the Chief Justice of the Supreme Court of the State of Illinois shall approve. The proceeds of such sale shall be put, kept, invested and reinvested by the Grantee in income-bearing securities selected by the Grantee and approved by the President of the Alumni Association of the University of Illinois and the Chief Justice of the Supreme Court of the State of Illinois without restriction as to the kind or character of investment, and the net income arising therefrom shall be used by the Grantee solely for the management, care, preservation, maintenance, use, operation, improvement and development of the Woodland Property and for the other authorized purposes set forth in Paragraph 9 hereof.

11. The Grantee shall have the right and privilege of using but shall not be obliged to use income and funds from sources other than the Farm to accomplish and carry out the purposes of this gift.

12. The Woodland Property shall be designated and known as the Robert Allerton Park.

13. If the Woodland Property, the Farm, any portion of either or the trees or improvements thereon are damaged or destroyed by fire or other casualty, the Grantee shall, within a reasonable time thereafter, repair the damage and restore the loss to the extent that it is practicable to do so.

14. Whenever but only so long as the Grantee is prevented by causes beyond its control, including but not restricted to, acts of God or of the public enemy, fires, floods, epidemics and acts of the government, from performing any of the conditions or covenants hereinabove set forth, the Grantee shall be excused from performance thereof.

15. At such of the times referred to in Paragraph 10 hereof as the Alumni Association of the University of Illinois shall not be in existence, the President, or other Chief Executive if there [is] no President, of the association of alumni of the University of Illinois which comprises a larger number of such alumni than any other association of such alumni, shall act in lieu of and shall have the same rights and authority as are vested, by said Paragraph 10, in the President of the Alumni Association of the University of Illinois.

16. The said ROBERT ALLERTON, Grantor, expressly gives, grants and conveys to the said BOARD OF TRUSTEES OF THE UNIVERSITY OF ILLINOIS, Grantee, the Main House on the Woodland Property, to have and to hold the same and to maintain, preserve and use said Main House for any purpose for which the Grantee is organized. If the said Main House is destroyed or removed, the Grantee may replace it with a new building or buildings and may from time to time replace such new building or buildings with other buildings, provided that the appearance of all buildings constructed on the land underlying said Main House shall be in harmony with the forests, buildings and other structures on the Woodland Property. Such new buildings may be used by the Grantee for any purpose for which the Grantee is organized, but, except as provided in Paragraph 9 hereof, the expense of constructing, maintaining, preserving and using the Main House and said new buildings shall be borne solely by the Grantee. If for a continuous period of more than five years, the land underlying the Main House shall be vacant, said land shall thereafter be used by the Grantee for the same purposes and in the same manner as the other premises comprising the Woodland Property.

17. The Grantee shall have the right to and is hereby authorized to convey and assign the Woodland Property, Main House, and Farm to the STATE OF ILLINOIS subject to all the terms, conditions and covenants hereinabove set forth, and upon completion of such conveyance and assignment the STATE OF ILLINOIS shall be vested with the right, title and interest herein conveyed to the BOARD OF TRUSTEES OF THE UNIVERSITY OF ILLINOIS and be subject to and bound by all the terms, conditions and covenants of this instrument. In the event of such conveyance and assignment, the term "Grantee", wherever used in this instrument, shall refer to and designate the STATE OF ILLINOIS. (The term "Farm" whenever used in this Paragraph 17 and in Paragraphs 8 and 9, includes not only the real estate, buildings, improvements and personal property hereinabove described on Pages 5 and 6 hereof and referred to as the "Farm" but also the proceeds of any sale of said Farm or of any portion thereof, the securities purchased therewith or substituted therefor and all unexpended income therefrom).

The Grantee hereby accepts the said property upon the said trust, terms and conditions, all of which the Grantee agrees to keep and perform.

IN WITNESS WHEREOF, the said Grantor has hereunto set his hand and seal and the Grantee has caused this instrument to be executed by its duly authorized officers, the day and year first above written.

Provost C. R. Griffith was present, acting for President Stoddard, also Mr. A. J. Janata, Assistant to the President, Mr. H. E. Cunningham, Secretary, Mr. Lloyd Morey, Comptroller, Professor W. E. Britton, Legal Counsel, and, during the open session, Mr. J. F. Wright, Director of Public Information.

During the executive session, the Board discussed items on the agenda, and took action on the following matters.

SITE OF HEALTH AND PHYSICAL EDUCATION BUILDING

Mr. McKelvey reported a recommendation of the Committee on Buildings and Grounds that the site designated by the Faculty Committee on the Campus Plan for the Building for Health and Physical Education, immediately north of the Memorial Stadium, be officially approved by the Board.

On motion of Mr. McKelvey, this recommendation was adopted.

MATTERS PRESENTED BY PROVOST GRIFFITH

The Board considered the following matters presented by the Provost, acting for the President of the University.

PATENTABLE DISCOVERIES

(1) The Faculty Committee on Patents has submitted the following recommendations:

1. Release to Dr. Robert G. Kesel, Professor of Applied Materia Medica and Therapeutics and Head of the Department, the right to file application for a patent on a discovery of a method for the prevention of dental caries. He proposes to work out with the University of Illinois Foundation a plan for financing the cost of securing a patent and for the promotion of the sale of the product when and if a patent is obtained. If it is successful the Foundation will benefit financially.

2. Release to Mr. R. H. Reed (formerly Assistant Professor and Assistant Chief in Agricultural Engineering), now on the faculty of the University of Wisconsin, the right to apply for a patent on his invention of a special pickup finger used in picking up hay before it is delivered to the crushing rolls. This invention is an outgrowth of work done by Mr. Reed and others on the development of a horse-drawn quick haymaker. The Board of Trustees on June 4, 1940, released to the inventors all rights to two inventions in connection with this work. Mr. Reed will negotiate with the University of Illinois Foundation for financing the patent application and marketing the product if a patent is issued.

Mr. Britton commented on this matter.

On motion of Mr. Williamson, these patents were released as recommended.

PURCHASE OF ILLINOIS TERMINAL RIGHT OF WAY

(2) On September 24, 1946 (page 57), the Board authorized negotiations for the purchase of the right of way of the Illinois Terminal Railway Company within the campus, and appropriated \$2500 for this purchase. It has developed during the negotiations that all the right of way between Mathews Avenue and Harvey Street, a total area of 41,580 square feet, can be purchased for \$4000.

I recommend that this purchase be made, and that \$1500 additional be appropriated from the General Reserve Fund to meet the cost.

The Comptroller commented on this matter.

On motion of Dr. Meyer, this purchase was authorized. The appropriation was made by the following vote: Aye, Mr. Fornof, Mrs. Grigsby, Mr. Livingston, Dr. Luken, Mr. McKelvey, Dr. Meyer, Mr. Williamson; no, none; absent, Mr. Davis, Mr. Green, Mr. McLaughlin, Mr. Nickell.

OPEN SESSION, NOVEMBER 22, 1946

When the Board convened in open session at 11:30 a.m. on November 22, 1946, the same members and officers were present as were enumerated on page 163 above.

MATTERS PRESENTED BY PROVOST GRIFFITH

The Board considered the following matters presented by the Provost, acting for the President of the University.

AWARD OF CERTIFICATES OF CERTIFIED PUBLIC ACCOUNTANT

(1) The Committee on Accountancy recommends that the Certificate of Certified Public Accountant be awarded to the following who have qualified for the same under Section 5 of the Accountancy Act of 1943, by presenting evidence that they hold valid and unrevoked certificates issued by some other state or territory on the basis of having passed written examinations and evidence that they comply with other requirements of the law:

RICHARD STANLEY ANDERSON	LOWELL NICHOLS
WILLIAM THEODORE BINGHAM	MICHAEL SILVER
LEO JOHN DERVIN	RAYMOND LEO STANHOPE
THOMAS EDWARD McDONALD	CHARLES BENJAMIN TREITLER
HARRY MOSS	

On motion of Dr. Meyer, these certificates were awarded as recommended.

ADDITIONAL DELEGATION OF SIGNATURES

(2) The Comptroller requests adoption of the following resolution as an addendum to the resolution for delegation of signatures approved by the Board on March 9, 1946. The purpose of this addendum is to provide for the preparation and issuance of checks against the University Treasurer by the Business Office at Galesburg in connection with funds relating to that division. The officers to whom the proposed deputies are responsible have concurred in this arrangement. All employees thus deputized are placed under suitable bond.

Resolved that the President of the Board of Trustees is authorized to delegate to William J. English and to James E. Osborn, of the Galesburg Division, authority to sign his name as President of the Board of Trustees, to checks drawn against the account: "University of Illinois, I. L. Porter, Treasurer, Galesburg Division," in the First National Bank of Chicago; the Secretary of the Board of Trustees is authorized to delegate to L. O. Kerwood and to Lois Herron, of the Galesburg Division, authority to sign his name as Secretary of the Board of Trustees, to checks drawn against the same account.

On motion of Mr. Williamson, this resolution was adopted.

STUDENT ACTIVITIES SERVICE FEE IN UNDERGRADUATE DIVISIONS AT CHICAGO AND GALESBURG

(3) A recommendation that beginning with the second semester, 1946-1947, there be levied and collected from students in the Undergraduate Divisions at Chicago and at Galesburg a student activities service fee of \$2.00 a semester, to be used in general accord with the principles followed for Union Building service fees at Urbana and at the Chicago Professional Colleges, to be held in trust as a student organization fund and to be expended under the direction of a joint student-faculty committee.

On motion of Mrs. Grigsby, this fee was authorized as recommended.

CONSTRUCTION OF EMPLOYEES' DRESSING AND LOCKER ROOMS IN ILLINI UNION BUILDING

(4) The Director of the Physical Plant Department recommends the construction of employees' dressing and locker rooms in a ground-floor area, now partly used for storage, in the Illini Union Building, the cost to be paid from the Illini Union operating surplus. Present permanent dressing room facilities are not adequate. Some of the guest rooms on the fourth floor are being used as employees' rooms because they were not furnished, but furniture is now available to equip them as sleeping rooms. Within a few years the added income from them will equal the capital expenditure for converting the storage area into dressing and locker rooms.

An estimate of \$7,638 has been secured from Clarence H. Siems, contractor, Urbana, for the construction of employees' dressing and locker rooms. The Director of the Physical Plant Department recommends, and the Comptroller concurs, negotiating a contract with Mr. Siems for the construction of these rooms at an estimated cost of \$7,638. Bids have not been taken and it is unlikely that competitive bids can be secured.

I approve and recommend that the President and Secretary of the Board of Trustees be authorized to execute a contract with Clarence H. Siems in accordance with this proposal.

On motion of Mr. McKelvey, this contract was authorized as recommended.

BUILDING POLICY

(5) The University of Illinois has a tremendous educational building program responsibility to the public and it is important that this be pushed as rapidly as possible. Experience has demonstrated that under present conditions it is practically impossible to obtain firm prices or lump-sum bids on building projects. If fixed bids are obtained, they are so high as to render the system of competitive bidding impracticable. The Physical Plant Department recommends continuing the use of the practice of the guaranteed maximum, plus fixed fee, form of contract which has been used for the past year or two. Under such form of contract the contractor assumes any cost beyond the guaranteed maximum, and any savings are divided between the contractor and the University. The Physical Plant Department has, therefore, proposed the following procedure:

1. The University will take fixed bids for an entire project on a guaranteed maximum, plus fixed fee, basis.

2. The University will take alternate bids to reduce the amount of the immediate contract to funds available, even though this will involve major portions of the contract in some cases. A clause will also be included giving the University the right to reinstate such omissions in the contract by August 1, 1947. The award in general would be made on the lowest bid for the completed project.

Thus the University could enter into contracts within funds available and yet secure bids for a completed building, so that if additional funds are not provided the work will not proceed beyond the original contract.

Present Federal regulations require government approval to begin construction. Priorities can be obtained by the University only on veteran housing projects. On all other projects the University can obtain "authorization to begin construction" if sufficient justification is shown. Regardless of the form of authorization, there is still the problem of securing materials and labor.

The President of the University has authorized the Physical Plant Department to follow the policy and procedure outlined above for taking bids, provided that recommendations for awards of contracts shall be made through the usual channels as heretofore.

On motion of Dr. Meyer, the action of the President of the University in authorizing this procedure was approved and confirmed.

PURCHASES AUTHORIZED

Unless otherwise specified the purchases were made on the basis of lowest bids, ceiling prices, or because the items are non-competitive. Emergency action was necessary to secure delivery in time to meet specific needs or because prices quoted were subject to immediate acceptance.

FIRE PROTECTION FACILITIES AND WATER STATION IMPROVEMENTS

(9) Bids were received on November 11, 1946, for cast iron pipe and specials, gate valves, and fire hydrants for the fire protection facilities project and the water station improvements.

Alvord, Burdick, and Howson, our consulting engineers, recommend the award of the following contracts:

United States Pipe and Foundry Company, Chicago, Illinois — 12" and 14" cast iron pipe in accordance with their base bid.....	\$13 319 16
McWane Cast Iron Pipe Company, Chicago, Illinois — 8" and 6" cast iron pipe and all cast iron special fittings in accordance with their base bid.....	13 658 48
M & H Valve and Fittings Company, Anniston, Alabama — Gate valves, valve boxes, and fire hydrants in accordance with their base bid.....	5 305 55

The above-listed costs are base bids to which escalation of 10 to 15% will need to be added for encumbrance purposes at the time of preparation of the contract. A total of \$12,000 of the above base bids is to be charged to the Special State Appropriation "Water Station," and the balance to "Fire Protection Facilities," funds for which are available.

I recommend that the Comptroller and the Secretary of the Board be authorized to execute these contracts.

The Comptroller presented this matter.

On motion of Mr. Fornof, these contracts were authorized.

CONTRACT FOR CONSTRUCTION OF MEDICAL EXHIBIT IN MUSEUM OF SCIENCE AND INDUSTRY

(10) A proposal has been received from the C. W. Haynes Company for work to be done in connection with the University's Medical Exhibit in the Museum of Science and Industry. Funds for this work have previously been allotted, and the proposal meets with the approval of Vice-President Ivy.

Considerable difficulty has been experienced in obtaining any quotations whatsoever on this work. Drawings were sent to numerous contractors, and bid openings were set for August 14, 1946, but no bids were received. Major Lohr of the Museum of Science and Industry then recommended several contractors who do work for the Museum. Of all the contractors contacted, the following three proposals were received:

William H. Koenig — guaranteed upset price of.....	\$33 000
C. W. Haynes Company.....	25 404
The Alexander Hendry Company.....	14 375 ¹

The proposal from the C. W. Haynes Company suggested that this work be done on a cost-plus basis with a guaranteed upset price. This firm submitted a proposal based on this suggestion involving several alternates. The Physical Plant Department recommends that a guaranteed upset price of \$25,586 be accepted in lieu of the lump sum bid with the additional potential cost to the University of \$1,100 in order to: (a) substitute materials at the job that are available on the market in order to expedite completion of work; (b) obtain the completed job with the standards desired by the University and the Museum of Science and Industry in these days of increasing prices; (c) obtain the work

¹ The lowest bid. However, this firm later stated that it would have to increase its bid and would be forced to withdraw its estimate.

specified at the least possible expense to the University of the quality desired in these times of material and labor shortages; (d) avail the University of the offer of Major Lohr with the services of his staff in assisting us in the supervision and in the substitution of materials that are available.

The Physical Plant Department recommends that a contract in the amount of \$25,586 on a guaranteed maximum basis be awarded to the C. W. Haynes Company for the above-described construction work on the Medical Exhibit. I concur and recommend that the Comptroller and Secretary of the Board be authorized to execute such a contract.

The Comptroller presented this matter.

On motion of Mr. Fornof, this contract was authorized.

REPORT OF AUDIT OF UNIVERSITY ACCOUNTS

(11) The Secretary of the Board reports that he has received from Arthur Young and Company, auditors of the University, the report of their examination of the accounts of the University for the year ended June 30, 1946. Copies of the report have been sent to President Stoddard and all the members of the Board of Trustees. The report includes a certification of the balance sheet, a statement of current income and expenditures and current funds surplus, and summaries of transactions of all departments.

This report was received for record.

QUARTERLY REPORT OF THE COMPTROLLER

(12) The Comptroller presents his quarterly report to the Board as of June 30, 1946. Copies of this report have been sent to all members of the Board in advance of this meeting.

This report was received for record.

ESTIMATES OF ENROLLMENT CHANGES FOR THE PERIOD FROM 1946-1950

(13) At the request of President Stoddard, I present herewith two sets of data on the flow of students through the University of Illinois during the period from 1946-1950. There is also submitted a flow chart on which these data are shown.

The first set of data is as follows:

A. PREDICTED FLOW OF STUDENTS, 1946-1950

(Excluding high school extension freshmen but including expected survivals coming to the Urbana campus)

Year	Fresh.	Soph.	Juniors	Seniors	Grad. & Prof.	Chicago Prof.	Totals
1946-1947	II 500	5 250	3 500	2 050	2 200	I 500	26 000
1947-1948	5 271	9 045	4 559	3 175	2 450	I 500	26 000
1948-1949	5 365	4 918	7 203	4 004	2 950	I 500	26 000
1949-1950	5 317	5 061	4 279	6 343	3 500	I 500	26 000

If, as is not beyond the range of probability, *postwar* demands for higher education in Illinois should reach the *prewar* demands in California—a state which closely resembles Illinois in many population, industrial, financial, and other respects—the following situation might prevail:

B. POSSIBLE FLOW OF STUDENTS, 1946-1950

(Excluding high school extension freshmen but including expected survivals coming to the Urbana campus)

Year	Fresh.	Soph.	Juniors	Seniors	Grad. & Prof.	Chicago Prof.	Totals
1946-1947	II 500	5 250	3 500	2 050	2 200	I 500	26 000
1947-1948	7 700	9 500	4 700	3 250	2 450	I 500	29 100
1948-1949	6 750	II 100	9 000	4 350	3 000	I 500	35 700
1949-1950	5 500	10 625	10 100	7 800	3 550	I 500	39 075

The two tables presented above are based on the following assumptions:

1. The first table assumes that the total enrollment of students under the direct control of the University will be 26,000, divided as follows: Urbana campus, 18,500; Chicago Pier, 4,000; Galesburg campus, 2,000; Chicago Professional Colleges, 1,500. (The data show 2,000 students for Galesburg even though only 460 are now enrolled. It is anticipated that from 1,500 to 2,000 will be enrolled in February.)

2. The survival rates for veterans from class to class, based on previous experience, are expected to remain as follows: freshman to sophomore, 71.5%; sophomore to junior, 78%; junior to senior, 85%. (Note: There are some signs that survival rates may be even higher than these.)

The comparable data for nonveterans are: freshman to sophomore, 55%; sophomore to junior, 70%; junior to senior, 85%.

3. The distribution of transfer and former students with advanced standing is likewise based on previous experience.

4. It has been assumed that the first obligation of the University is to all the freshmen now under the direct auspices of the University, and to the freshmen now enrolled in the high school extension program. It has been further assumed that, after this year, the first obligation of the University will be to survivors into the sophomore, junior, and senior classes from this year's entering class.

The typical prewar distribution (1940-1941) of students by classes is as follows: freshmen, 3,772; sophomores, 2,312; juniors, 2,546; seniors, 1,993; graduate and professional, 1,611; Chicago professional, 1,193; total, 13,327.

5. It follows from these assumptions that available openings for new freshmen must be limited by the capacities of various campuses as listed in "I," above. In order to protect the University from an excessive flow of advanced students later on, it has been necessary to suggest a limited enrollment of freshmen in the high school program for the years after 1946-1947. The figure has been set at 1,500. This figure is to be compared with potential demands on the part of freshmen of the following order: 1947-1948, 17,500; 1948-1949, 17,800; 1949-1950, 18,400.

6. It has been assumed that the building program projected for the present biennium will be completed, *without fail*, by September 1, 1948. It has also been assumed that the University will proceed promptly to secure adequate staff housing. It is further assumed that there will be no substantial additions to housing facilities for students.

7. It has been assumed that the departments, especially in the scientific fields, can actually provide for the maximum number of sophomores, juniors, and seniors listed in the above data. This is not certain at the moment, but studies are in process on this point.

These data suggest a number of conclusions which are crucial to future plans for the University. They are submitted to the Board of Trustees at this time for its information. They show:

1. That the only cushion for a larger number of freshmen lies (a) in the high school extension program, (b) in an expanded junior college program, (c) in a small number of regional institutes of the terminal technical type, or (d) in larger facilities at the University of Illinois by increased construction or by a reduction in advanced students, or both.

2. That the University of Illinois will increasingly become a senior college and graduate school, including the several professional schools. In 1948-1949, the junior, senior, and graduate divisions of the University will enroll more students than were enrolled in the entire University in 1940-1941.

The 1947-1949 biennial budget estimates for the University of Illinois have been based on approximately the figures submitted in Table A above. Any major decisions which would change the above estimates would call for an equally major change in the budget estimates. The only decision that could materially decrease the budget would be one in favor of drastic screening at all levels.

3. That the completion of the projected building program of the University on three fronts, viz., student housing, faculty housing, educational buildings (including power plant and utilities), is absolutely imperative.

4. That a system of screening both for initial admission to the University and for admission to its several divisions is unavoidable unless the whole structure of higher education in the State is revised to meet the predicted demand.

5. That presently crowded quarters, especially in engineering, in the basic sciences, and in commerce and business administration, will continue to be used to capacity. This holds true both of existing facilities and of the facilities to be added according to the schedule prepared by the University Building Program Committee.

These conclusions suggest certain questions of policy which are presented to the Board of Trustees at this time for its information:

1. Shall the present limits of 18,500 at Urbana, 4,000 at the Pier, and 2,000 at Galesburg remain fixed for the next biennium? If so, what devices shall be used for admission to each of the several campuses, and under what conditions shall an extension of the high school program be approved?

2. In addition to possible support of a new junior college bill, shall the University of Illinois advocate and assume temporary administration of three to five regional institutes of the technical, terminal (two-year) and subprofessional type?

3. Shall plans be made to absorb on the Urbana campus all transfers from the branches, including the high school program, the junior colleges, and the institutes, or (a) shall a four-year program be planned for Chicago or for Galesburg, or for both, and (b) shall the high school program be increased to include two years, or (c) shall Galesburg be maintained only as a freshman unit?

4. If, by accepting transfers to the campus at the sophomore, junior, and senior levels, the number of new Urbana freshmen to be admitted must be reduced, how approach (a) fraternity and sorority problems in relation to housing; (b) admission of special students (foreign students, nonstate students, athletes, scholarship holders, etc.); (c) the present staff and laboratory balance in favor of a heavy load of freshman and sophomore instruction?

5. Shall a ceiling be fixed for the Graduate School and the Urbana professional schools? If so, by what selective criteria? If not, how proceed with a reconstruction of Urbana facilities and when?

6. In February, a limited number of new students can be admitted to the Pier, and a much larger number at Galesburg. Shall new students be admitted at Urbana?

The above data have not taken account of new students that might be admitted on any campus, and especially on the Urbana campus, in June for the summer session. Shall new students be admitted in June?

The choice in these two instances is not between full utilization of all student housing versus nonutilization to capacity, but between a smaller and a larger burden of advanced students one and two years from now. Each new student admitted in February and June adds to the total number to whom we will be committed in subsequent semesters.

7. In case new facilities are not provided, what form of selective admission shall be adopted:

(a) For entrance into the University? (i) High school rank. (ii) Ability and achievement tests. (iii) Residents of the State.

(b) For distribution to the branches and to the several Urbana divisions? (i) Higher standards with greater mortality. (ii) Requests from Deans and Directors for closing registration at a specific figure. (First come, first served.) (iii) Achievement.

8. What will be the policy of the Board of Trustees toward the bill to be proposed to the next General Assembly on State aid to junior colleges?

9. Should a screening policy be devised for terminal curricula, and if so, should Galesburg or the Pier or some other facility be set aside for terminal training? Should new facilities be sought?

In the midst of these complex and confusing issues, one fact remains wholly clear. The demand of students for higher education—general, terminal, technical, and professional—now exceeds and will continue to exceed the available facilities. The alternatives are to make the facilities meet the demand

of students, or screen the student demand so that it will be reduced to the size and character of the facilities. If the student demand is reduced, then the supply of trained personnel will not equal another demand, the demand of commerce, industry, agriculture, the professions, and of the public welfare for a far larger number of educated people.

President Stoddard and his administrative assistants are making a far-flung study of this whole problem, toward the following ends:

1. Increased strength in the foundations of higher education at the elementary and secondary school levels.
2. Increased strength for the University of Illinois in those lines of work it is best qualified to do.
3. Diversion of that portion of the potential college population which could profit more greatly thereby into junior colleges and regional institutes, thus reducing the wasteful part of the upper-class program at the Urbana campus.
4. Financial support for a State-wide system of education at all levels adequate to the wealth and the culture of the State, and to the demands of the post-war world for trained personnel.

This report was discussed in detail in connection with item 14 by the members of the Board and the officers of the University; at the end of the discussion, action was taken as shown on page 175, below.

ADMISSION OF NEW STUDENTS

(14) In preparing for the second semester of 1946-1947, it is necessary to establish policies and procedures which will limit the admission of students to the number that can be taught with available instructional staff and other facilities in the several courses and curricula. The following administrative actions have been taken by the Provost, acting for the President:

1. No permits to enter will be issued to new students of advanced standing (i.e., students desiring to transfer from other colleges and universities) who if admitted would be on probation because of previous unsatisfactory scholastic records.

This is simply an extension of an existing policy of long standing. Students with previous unsatisfactory scholastic records have been permitted to transfer to the University of Illinois only upon recommendation of the dean of the college or director of the school in which such student desires to enroll. The present policy will automatically exclude such students without consideration of individual cases.

2. In several curricula it is necessary to limit enrollments.

COLLEGE OF ENGINEERING

No new undergraduate students will be admitted in February, 1947.

No students now in other colleges of the University of Illinois will be permitted to transfer to the College of Engineering except in special cases where commitments have been made. Most of these exceptions will be in the Division of Special Services for War Veterans, which enrolled students who could not be accepted by the College of Engineering for the first semester, 1946-1947, with the understanding that they would later be permitted to transfer to engineering.

COLLEGE OF FINE AND APPLIED ARTS

Architecture.—No new students will be admitted in February, 1947, and no students will be permitted to transfer from other colleges of the University except to carry out previous commitments as in the College of Engineering.

Landscape Architecture.—No new students will be admitted in February.

Art.—The Department of Art will admit 50 new students in February.

COLLEGE OF LAW

The number of new first-year students accepted for the second semester, 1946-1947, will be limited to 75.

SCHOOL OF JOURNALISM

The present enrollment is 253, and in the Director's opinion the School of Journalism can accommodate up to 285 students, in addition to any students

transferring from the Division of Special Services for War Veterans, who will be admitted without limitation. The Director and the Registrar have been authorized to close enrollments when the quota of new students is reached.

SCHOOL OF PHYSICAL EDUCATION

In the professional curricula, the number of new first-year students entering in February will be limited to 50 (15 women; 35 men) who will be admitted only upon approval of the Director. All transfer students with at least two semesters of credit for advanced standing, and who will not be on probation, will be admitted without limitation as to numbers.

The University of Illinois will admit new freshmen to the Undergraduate Divisions at Galesburg and the Navy Pier and to the Urbana campus in February, 1947, with the following exceptions. Because of limited facilities on the Urbana campus, new freshmen will not be admitted to any of the curricula in the College of Engineering or to the curricula in the Department of Architecture. The number of new freshmen that can be admitted to Physical Education, Art, and Music will be restricted to the facilities available, as indicated above. Because of the limited facilities on the Urbana campus, the University reserves the right to assign new freshmen to Galesburg or to the Navy Pier.

New students with advanced standing will be admitted to the Urbana campus in February, 1947, except that no such students can be accepted for curricula in Engineering and in Architecture and except that restrictions must be placed on the number that can be accepted in Law, Journalism, Physical Education, Art, and Music. Students completing two years at Galesburg or the Navy Pier will have priority in transferring to Urbana.

In the College of Law and the School of Journalism, the restriction on the number to be admitted will apply both to new and to former students. The College of Engineering and the Department of Architecture will not accept transfers from the other schools and colleges on the Urbana campus excepting cases of individual students to whom commitments have already been made.

On motion of Mr. Davis, the President of the University was requested to formulate and present to the Board at the earliest possible moment a complete plan for an educational system for the State of Illinois, at all levels, adequate to the wealth and culture of the State and to the demands of the post-war world for trained personnel, with estimates of the funds involved for all branches and recommendations to be made to the General Assembly, and the President of the University and the President of the Board were authorized to discuss this matter with the Governor and other State authorities.

CONTRACT WITH VETERANS ADMINISTRATION

(15) The Comptroller reports that he and the Bursar, with the assistance of the Legal Counsel, have concluded a contract with the Veterans Administration under Public Law 346 which provides for the payment to the University by the Veterans Administration of costs of teaching personnel and supplies necessary in the training of veterans under the G.I. Bill. This payment is in lieu of tuition and is in addition to the Union Building, matriculation, and hospital fees, which are also paid by the Veterans Administration. The contract covers the second semester of 1945-1946 and subsequent terms.

Costs of teaching personnel and supplies, following the instruction of the Veterans Administration, were arrived at by adding the total salaries paid the teaching staff of the University during the most recent semester prior to the contract, which was the first semester of 1945-1946, excluding the portion of any such salaries devoted to administration, research, or extension, and dividing by the total credit hours earned by all University students during such period. The regulation directed that 15 per cent be added to this amount to provide for personnel related to actual teaching, and supplies; and the result gives a teaching cost per credit hour. The resulting rate is \$9.65 a credit hour. This rate will be revised annually.

The tuition so paid to the University is approximately 80 per cent more than that which would be paid under the arrangement previously existing, under which the Veterans Administration paid the University the regular nonresident tuition, but the rate of \$9.65 a credit hour contracted for does not yet pay half of the total cost of education of the veteran. A rate of \$17.09 a credit hour would be necessary to reimburse the University for all cash expenditures incidental to instructional service in departments of the University during the same period, excluding all research, extension, and auxiliary enterprises. Furthermore, this rate does not contain any provision for depreciation of buildings and other capital assets. The State of Illinois is still, therefore, contributing more than half of the cost of the G.I.'s training, after the receipt of the \$9.65 a credit hour from the Veterans Administration.

The payment of such fees by the Veterans Administration has no effect on the total amount of subsistence benefits available to the veteran, so long as the total of such charges, plus incidental fees and books and supplies does not exceed \$500 for any two semesters or \$764 for any three-semester year, since if total costs do not reach these amounts, no credit is given to the individual veteran for the amounts not so used. The \$9.65 results in total tuition of \$150 to \$165 a semester, so that ordinarily the charges for training are well within the allowed annual maximum.

The Veterans Administration will not pay any fees which are in the nature of fines or fees incurred because of some action of the veteran, such as late registration, lost book charges, library fines, and change fees, and such charges will be collected directly from the veteran by the University.

The Comptroller presented this report, which was received for record.

APPROPRIATION OF AGRONOMY DEPARTMENT INCOME

(16) The Agronomy Department has an unused accumulated balance of income of previous years from sales of products amounting to \$18,368. The Head of the Department and the Dean of the College request that this balance be appropriated to the Department for the following nonrecurring purposes for the current year subject to adjustment within the total: soil maps and other bulletins, \$8,606; equipment, \$9,762.

During the war it has not been possible to keep up the regular flow of printing of soil maps initiated many years ago as a long-time project ultimately to cover the entire state. Two maps and one soil report are now in process of completion, and funds are needed to cover their cost. Four other important bulletins also are in preparation.

With respect to equipment, many items of farm and laboratory equipment were not available during the war and are now urgently needed to carry on the department's experiment station and research program.

The Comptroller concurs in this recommendation and approval is requested.

On motion of Mrs. Grigsby, this appropriation was made as recommended, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Grigsby, Mr. Livingston, Dr. Luken, Mr. McKelvey, Dr. Meyer, Mr. Williamson; no, none; absent, Mr. Green, Mr. McLaughlin, Mr. Nickell.

OFFER OF FUNDS FROM NATIONAL FOUNDATION FOR INFANTILE PARALYSIS

(17) The Cook County Chapter of the National Foundation for Infantile Paralysis, Inc., after negotiations with Vice-President Ivy and Hospital Administrator Millizen, has agreed to pay the University of Illinois the sum of \$143.84 a day for a period of ninety days, or a total of \$12,945, for hospital care for poliomyelitis patients. This sum is based on the estimated per diem cost of 16 patients a day in the Research and Educational Hospitals.

The University has agreed to make available 16 beds in the Hospital for infantile paralysis cases. However, this arrangement has necessitated the opening up of an unused portion of the Hospital so as to make space available for the 16 beds needed. In addition, the National Foundation for Infantile Paralysis has agreed to make available some equipment to be used in connection with the patients' care.

The opening of the 16-bed convalescent unit for the use of these patients will result in extra expense to various departments of the Hospital and the Physical Plant. The Business Manager of the Chicago Colleges recommends that the estimated income of the University be increased by \$12,945, and that temporary assignments be made as follows:

Research and Educational Hospitals:	
Administration:	
Expense.....	\$2 636
Wages.....	600 \$ 3 236
Nursing—Wages.....	4 272
Dietary Department—Expense.....	2 589
Central Supply—Expense.....	259
<i>Total, Research and Educational Hospitals.....</i>	<u>\$10 356</u>
Physical Plant.....	2 589
<i>Total.....</i>	<u>\$12 945</u>

The Comptroller concurs in this recommendation, and approval of the increased appropriations is requested.

On motion of Mr. McKelvey, these recommendations were adopted, and the appropriation was made by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Grigsby, Mr. Livingston, Dr. Luken, Mr. McKelvey, Dr. Meyer, Mr. Williamson; no, none; absent, Mr. Green, Mr. McLaughlin, Mr. Nickell.

SPECIAL APPROPRIATIONS FOR NONRECURRING EXPENDITURES

(18) The Committee on Special Appropriations and Nonrecurring Expenditures recommends assignments from the General Reserve Fund for the following purposes:

1. Equipment for College of Liberal Arts and Sciences..	\$22 000
2. Equipment for College of Engineering.....	25 000
3. Building studies and campus plan studies for the housing program in the Colleges of Medicine, Dentistry, and Pharmacy.....	25 000
<i>Total.....</i>	<u>\$72 000</u>

Reports from the Committee explaining the reasons for each of these items are attached.

On motion of Mr. Fornof, these appropriations were made as recommended, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Grigsby, Mr. Livingston, Dr. Luken, Mr. McKelvey, Dr. Meyer, Mr. Williamson; no, none; absent, Mr. Green, Mr. McLaughlin, Mr. Nickell.

CONTRACT FOR ERECTION OF BOILER AND MISCELLANEOUS EQUIPMENT FOR ADDITION TO POWER PLANT

(19) Bids were received and publicly opened at 2:00 p.m. October 8, 1946, for the erection of boiler and miscellaneous equipment in connection with the addition to the power plant. Bids received are summarized as follows:

Oberle-Jordre Company.....	\$38,507 (See Note A)
American Boiler & Tank Co.....	45,750 (Firm proposal)
Henry Pratt Company.....	48,790 (See Note B)

Note A: Subject to escalation in prices and certain other additional expense.

Note B: "This amount is based on an estimated average hourly labor rate of \$1.85. Should the actual average hourly labor rate (total COMPANY payrolls divided by total hours worked) paid by the COMPANY for the erection of this contract vary from that given above, the amount to be paid by the PURCHASER for the erection shall be increased or decreased proportionately.

"If during the performance of work covered by this Proposal, the local labor crafts employed have duly authorized, recognized and approved rulings requiring the payment of carfare, expense and/or other compensation besides wages for work performed, the Company shall be reimbursed for such extra expense at actual cost, plus 15 per cent."

It is the opinion of Sargent and Lundy, engineers on this project, that if the contracts should be awarded to Oberle-Jordre Company that the University should anticipate an escalation of approximately 25 per cent over the amount listed in the above tabulation.

Due to the fact that the proposal from the American Boiler & Tank Company is a firm proposal and the proposal from the Oberle-Jordre Company, the lowest bidder on this work, is subject to unlimited escalation, Sargent and Lundy recommended, and the Physical Plant Department and the Comptroller concur, that this contract be awarded to the American Boiler & Tank Company in the amount of \$45,750 for the erection of boiler and miscellaneous equipment.

Funds are available in the existing funds released for the power plant addition project for the award of this contract.

I concur and recommend that the Comptroller and Secretary of the Board be authorized to conclude a contract with the American Boiler & Tank Company in accordance with their proposal.

On motion of Mr. Williamson, this contract was authorized as recommended.

CONTRACT FOR PURCHASE OF COAL FOR UNDERGRADUATE DIVISION OF UNIVERSITY AT GALESBURG

(20) Bids were invited from 33 concerns for 15,000 tons of 1¼" to 0" coal screenings as required during the period October 1, 1946, through June 30, 1947, inclusive, to be delivered at the rate of one car a day, for the Undergraduate Division of the University located at Galesburg.

The only quotation received was from the Central Indiana Coal Company of Galesburg, Illinois, at a price of \$2.45 f.o.b. mine, plus 79¢ freight, or a total cost of \$3.24 a ton f.o.b. Galesburg, subject to price adjustment.

It is recommended by the Director of the Physical Plant and the Comptroller that the contract be awarded to the Central Indiana Coal Company at an approximate cost of \$49,100.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to conclude a contract with the Central Indiana Coal Company, in accordance with the foregoing proposal. The contract is subject to approval by the Governor.

Because of its urgency, this recommendation was submitted to and approved by all members of the Executive Committee on October 30. Confirmation by the Board is requested.

On motion of Mr. Davis, this award was approved and confirmed.

EMPLOYMENT OF UNIVERSITY AUDITORS

Mr. Williamson, for the Finance Committee, presented a recommendation that Arthur Young and Company be employed as auditors, for the fiscal year ending June 30, 1947, with the understanding that their fees (including traveling expenses) will not exceed the following amounts:

University of Illinois.....	\$7 000
University of Illinois Foundation.....	500
Athletic Association.....	700

On motion of Mr. Williamson, this recommendation was adopted.

EASEMENT OF LAND FOR ROUTE 45

Mr. McKelvey presented a recommendation of the Committee on Buildings and Grounds that the following resolution be adopted, to facilitate the widening of Route 45 leading to the University of Illinois Airport.

Whereas, The Board of Trustees of the University of Illinois is the owner of a strip of land Seventy and One-half (70.5) feet in width running West (W) from the West (W) right of way line of Route Forty-five (45), being located in the Southwest Quarter (SW $\frac{1}{4}$) of Section One (1), Township Eighteen (18) North, Range Eight (8) East of the Third Principal Meridian, Champaign County, Illinois and

"All of the above-described tract of land lies in the S.W. $\frac{1}{4}$ Section 1, T. 18 N., R. 8 E. of the 3rd P.M., Champaign County, Illinois, and contains 0.037 acres, more or less."

On motion of Mr. McKelvey, this resolution was adopted, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Grigsby, Mr. Livingston, Dr. Luken, Mr. McKelvey, Dr. Meyer, Mr. Williamson; no. none; absent, Mr. Green, Mr. McLaughlin, Mr. Nickell.

MEETING OF THE BOARD OF TRUSTEES
OF THE
UNIVERSITY OF ILLINOIS

December 28, 1946

10:00 a.m. — Executive session as in Committee of the Whole.

12:00 m. — Open session.

When the Board convened, the following members were present: President Livingston, General Davis, Mr. Fornof, Mr. McKelvey, Mr. McLaughlin, Mr. Nickell. Dr. Meyer took his place with the Board during the morning.

President Stoddard was present; also Mr. A. J. Janata, Assistant to the President, Mr. H. E. Cunningham, Secretary, Mr. I. L. Porter, Treasurer, Mr. Lloyd Morey, Comptroller, Professor C. R. Griffith, Provost, and Professor W. E. Britton, Legal Counsel.

MINUTES APPROVED

The Secretary presented the minutes of the meetings of October 21 and 22 and November 22, 1946.

On motion of Mr. Davis, the minutes were approved as printed on pages 113 to 190 above.

MATTERS PRESENTED BY PRESIDENT STODDARD

The Board considered the following matters presented by the President of the University.

**CONTRACTS FOR GENERAL AND ELECTRIC WORK FOR
REMODELING DAVENPORT HOUSE AND ALTERATIONS
AT 1202 WEST GREEN STREET, URBANA**

(1) Bids were received and publicly opened at 3 p.m., November 19, 1946, for the general and electric work in the remodeling of Davenport House and alterations at 1202 West Green Street, Urbana. Bids received are summarized as follows:

ELECTRIC WORK				
<i>Bidder</i>	<i>Guaranteed Maximum Cost</i>	<i>Fixed Fee</i>	<i>Bid Deposit</i>	
R. A. Bland Electric Co.....	\$4 994	\$2 497	\$249	
Anderson Electric Co.....	8 311	2 150	525	

GENERAL WORK				
<i>Bidder</i>	<i>Fixed Fee</i>	<i>Estimated Cost</i>	<i>Completion Date</i>	<i>Bid Deposit</i>
Clarence H. Siems.....	\$4 435	\$39 060	180 work days	\$2 175
C. A. Petry & Sons	5 080	39 810	150 work days	2 000

The electric bid is on a basis of a guaranteed maximum plus fixed fee, while the general work bid is based on a fixed fee plus estimated cost. For this reason, the Physical Plant Department recommends that the total be considered in connection with electric work which would result in the Bland Electric Company's being lowest at a guaranteed maximum cost of \$4,994 plus \$2,497, or \$7,491.

On the general work bid, Clarence H. Siems is lowest at a fixed fee of \$4,435, the total additional cost estimated at \$39,060 (the latter figure of course is not fixed). On this basis, a total cost of \$43,495 is indicated for general work.

These changes are a part of the program for relocating the Health Service, funds for which are provided in the State Building Appropriation for 1945-1947. The Home Economics Department (which now occupies Davenport House) will be moved to 1202 West Green; the Health Service will be moved to Davenport House; and the present Health Service Building will be razed to make room for the new Electrical Engineering Building.

I recommend that the Comptroller and Secretary of the Board be authorized to conclude a contract with the Bland Electric Company in the amount of \$7,491 in accordance with their proposal, and a contract with Clarence H. Siems at a total cost of \$43,495, in accordance with that proposal.

On motion of Mr. Fornof, these contracts were authorized as recommended.

**CONTRACT FOR PLUMBING, HEATING, AND VENTILATING
FOR REMODELING DAVENPORT HOUSE
(HEALTH SERVICE RELOCATION)**

(2) Bids were taken on November 26, 1946, for plumbing, heating, and ventilating in the remodeling of Davenport House, in which the Health Service will be relocated.

Only one bid was received, from the Champaign Plumbing and Heating Company bidding on the basis of a total estimated cost of \$19,261 including a fixed fee of \$3,571, the work otherwise to be on a cost basis. The Physical Plant Department considers this a satisfactory estimate. It was therefore recommended that the contract be awarded to the Champaign Plumbing and Heating Company.

On motion of Mr. McKelvey, this contract was awarded as recommended.

RETIREMENT OF DIRECTOR F. B. STIVEN

(3) Professor Frederic B. Stiven, Director of the School of Music, has requested that he be retired from active service beginning September 1, 1947, under the provision in the law creating the University Retirement System of

Illinois which permits retirement "on or after the attainment of age sixty-five (65) in exceptional cases and for substantial cause at the request of the Employer and upon certification of the Employer."

Professor Stiven will be 65 years of age on July 17, 1947, and has requested retirement because of his health. At the end of the current academic year Professor Stiven will have been in the service of the University 26 years.

I recommend approval.

On motion of Mr. Nickell, this request was granted.

GIFT FROM MR. AND MRS. MERLE J. TREES

(4) Mr. and Mrs. Merle J. Trees offer the University of Illinois \$10,730 to be added to the endowment fund established by them last year and accepted by the Executive Committee of the Board of Trustees December 11, 1945 (Minutes, page 937). The income from this fund is to be used for the maintenance of the "Emily Nichols Trees (Class of 1905) and Merle Jay Trees (Class of 1907) Collection of Paintings" which they established in 1937 and to which they have added paintings from time to time.

Mr. and Mrs. Trees suggest that as soon as possible the money they have contributed this year be invested in United States Savings Bonds, Series F, of which the sum given would purchase an amount of bonds which, if held to maturity, would have a par value of \$14,500 and would represent an average annual return of 2.53%.

I recommend acceptance of this gift with an expression of deep appreciation to Mr. and Mrs. Trees for their continued generosity to the University of Illinois. I also recommend approval of the investment.

On motion of Mr. Davis, these recommendations were adopted.

CONTRACT WITH THE ALUMINUM COMPANY OF AMERICA

(5) The Aluminum Company of America, 801 Gulf Building, Pittsburgh, Pennsylvania, has offered the University the sum of \$30,000 for a cooperative investigation "to determine the suitability of aluminum for equipment, devices and structural parts for use under the conditions found in and around farm buildings; to make improvements in design; test specific devices; find practical new uses for aluminum and study its value and limitations for various products."

The company desires a contract with the University covering this research project which will conform with the established policy of the University governing research sponsored by outside agencies except for the following modification with respect to patentable discoveries: (a) joint action by the University and the sponsor on decisions as to making patent applications, and (b) joint ownership of patents and issuance of a royalty-free, nonexclusive, irrevocable licenses to any applicant. Thus the sponsor will not derive any commercial value from patentable discoveries. The policy of the University and the rights of the public are adequately safeguarded.

I recommend approval of the contract in accordance with these modifications.

On motion of Mr. Davis, this contract was authorized under the terms recommended.

ARCHITECTURE OF ENGINEERING BUILDINGS

(6) A letter from Mr. Leo M. Bauer, of the Class of 1914, concerning the architectural design of the new Engineering buildings.

FREE PRESS BUILDING, DETROIT 26
October 22nd, 1946

*The Board of Trustees
University of Illinois
Administration Building
Urbana, Illinois*

Attention: Harrison E. Cunningham, Secretary

GENTLEMEN:

I have given long and careful consideration to the subject matter of this communication before addressing it to the Board. As an Alumnus of the University of Illinois and as an Architect, I wish to record here my vigorous protest relating to the style of architecture which it is proposed to incorporate

into a large contemplated building program. The designs of some of these buildings were published in the September issue of the Illinois Alumni News.

The present Campus development was begun many years ago under the direction of one of America's most distinguished Architects, Mr. Charles A. Platt, whose coming to Illinois was the foresight of Professor James M. White, then Supervising Architect of the University. It is well known that prior to Mr. Platt's initial work at the University, the buildings of the Campus had no particular design or arrangement. Under his able guidance and direction the Illinois Campus has become one of the most renowned in the land, so distinguished by the elegance and charming simplicity of the Georgian Period.

The proposed program is a trend away from those traditions which made of Illinois a center of culture. Such a sinister departure is repellent to those who hold a justifiable pride in the aesthetic value of the University.

It is my considered opinion that your Honorable Body has been poorly advised or is lacking in appreciation of the charm and the beauty of the notable buildings which bear Mr. Platt's influence. Inasmuch as the ultimate cost of the proposed buildings represents a huge investment to the taxpayers of the State of Illinois, it would be better that their design be corrected now at additional cost rather than to place a blight on the remainder of the Campus structures through their execution as now planned.

I refuse to believe that the Board of Trustees of this great Institution will commit the error of permitting the construction to proceed of the design as now formulated. I am prompted in my criticism in the interest of the people as a whole, and from a professional standpoint in support of what I believe to be fine architecture.

Very respectfully,

LEO M. BAUER
Class of 1914

On motion of Mr. Davis, this letter was received for record, and the Secretary was instructed to inform Mr. Bauer that the matter would receive consideration from President Stoddard and the advisory committee of eminent architects recently authorized by the Board.

BIDS ON RESIDENCE HALL FOR WOMEN

(7) The University's capital appropriations for 1945-1947 (Senate Bill 417) include \$1,500,000 for "students' residence halls and equipment." There is submitted herewith a schedule of bids received December 6, 1946, on a residence hall for women at Urbana covering: (1) foundation and related work only, and (2) balance of general work to complete building.

* Estimated.

¹ Bid not acceptable because bidding conditions were not met.

² University and contractor to share 75/25 in savings.

³ Period to complete, 180 days from starting.

⁴ Included in preceding column.

⁵ Bids good until August 1, 1947.

The lowest qualified bidder is Warner Construction Company at a guaranteed limit cost of \$180,000 for foundation, and \$1,820,000 for balance of general work, contractor to receive fixed fees as stated in the schedule, the University and contractor to share 75 per cent and 25 per cent respectively in any savings under maximum totals.

An estimate of other costs in addition to those covered by bids indicates that the final cost of this building for 498 students and 10 residents and counselors may total \$3,600,000. The University now has only about \$600,000 of funds available for this project. (See Board Minutes, July 30, 1946, page 3.) A special appropriation of \$1,000,000 will be requested of the next General Assembly to replace in part funds expended under this appropriation with the Governor's approval for temporary housing. Further appropriations are being requested for 1947-1949 to supplement building appropriations made for 1945-1947, and \$7,550,000 to extend the residence halls program. Authority now exists to borrow up to \$1,500,000 for residence halls construction. A loan can not be secured unless it is possible to complete a project which will produce sufficient income to service the loan and then only to the extent that such income makes possible. The project can not be completed without additional appropriations.

The situation has been reviewed in detail by the Provost, the Comptroller, the Chairman of the University Building Committee, and the University Architect. Because of the housing situation and the importance of getting additional projects started at once, these officers recommend, and I concur:

1. That a contract for the foundation work on the women's residence hall be awarded to Warner Construction Company, the lowest bidder, subject to the following conditions:

(a) When and if additional funds are available prior to August 1, 1947, the University will extend the contract by acceptance of the contractor's bid for the balance of the general work to complete the building.

(b) If funds are not available prior to August 1, 1947, the contractor may refuse to accept the additional work, and the contract will terminate with completion of work authorized to that date.

2. That University officers negotiate with the contractor to secure structural steel or do other work which can be done within the limits of available funds before the close of the current biennium.

The proposed contract conforms with the principles governing construction contracts approved by the Board on November 22, 1946.

The Comptroller presented this matter.

President Stoddard discussed the policies involved, and stated that he felt the situation to be critical, and that it was most important to start construction of the foundation.

On motion of Mr. McLaughlin, the award of contracts for the construction of the foundation was authorized, and the procedure recommended was approved.

REPORTS ON LEGAL MATTERS

At this point, Professor Britton, on request of President Livingston, reported on the following legal matters.

CHANGES IN CIVIL SERVICE CLASSIFICATION

Professor Britton recommended that the Board reconsider and rescind its action of October 22, 1946 (Minutes, page 125), receiving for record a list of revised descriptions of University Civil Service classified positions.

On motion of Mr. McLaughlin, the action of October 22, 1946, recited above, was reconsidered.

This matter was discussed at length.

On motion of Mr. McLaughlin, the action of October 22, 1946, was

rescinded, and the changes in Definition, Duties by Example, and Classification of the following named classified Civil Service positions were approved.

| 24. Senior Clerk-Stenographer | 48. Inventory Clerk |

Detailed information covering these changes shall be available in the office of the Secretary of the Board of Trustees, at Urbana, Illinois.

In connection with the discussion of this matter, Professor Britton raised the question of the nature and function of the Board when acting on Civil Service matters, as to whether or not the Board then became a Civil Service Commission for the University, under the Civil Service amendment of 1941, and whether or not the minutes covering such actions should be more distinctly separated (while still incorporated in the general minutes of the Board).

During the discussion of this matter, Dr. Meyer took his place with the Board.

On motion of Mr. Davis, this matter was referred to the President of the University, for consideration with the Legal Counsel and for recommendation to the Board.

CONDEMNATION OF LAND

Professor Britton reported also that the suit for the exercise of eminent domain on land in Urbana required as a site for the Chemical Engineering Building would be in court on January 13, 1947, and that Mr. H. I. Green, who is acting as special counsel in this suit, recommends that as many of the members of the Board as can do so arrange to be present.

LEASE OF NAVY PIER

Professor Britton reported also that the lease for the Navy Pier had not yet been executed, and that certain matters pertaining to the valuation of personal property left by the Navy were still under discussion

by the Navy and the City of Chicago. Also that the lease for the use of the drill hall for athletics would be considered by the City Council of Chicago on December 30.

Mr. Morey made a statement on these matters.

LEGISLATIVE BUDGET

Mr. Nickell stated that there had been some discussion of the effect of the increased program of the University on the private colleges of the State, and that some apprehension had been expressed lest the smaller colleges might not survive in competition. The suggestion had been made that the University should seek a larger proportion of its income through large increases in the tuition fees.

President Stoddard discussed this matter in some detail, referring to the total college and university enrollment in Illinois as compared to other states, where the ratio to the total population is shown to be much higher.

This matter was referred to President Stoddard, to study in connection with the over-all plan for an educational system for the State.

President Livingston, being called to the telephone, requested General Davis to take the chair.

OPEN SESSION

When the Board convened in open session, the same members and officers were present as during the morning; also Mr. J. F. Wright, Director of Public Information, Mr. F. E. Bell, Manager of the University of Illinois Foundation; Dean M. T. McClure, and Major L. R. Lohr.

MATTERS PRESENTED BY PRESIDENT STODDARD

The Board considered the following matters presented by the President of the University.

ADVISORY COMMITTEE FOR COLLEGE OF VETERINARY MEDICINE

(1) The Dean of the College of Veterinary Medicine recommends the appointment of the following to the Advisory Committee of the College for the year 1946-1947:

C. R. COLLINS, Dixon	OSCAR LINN, Canton
C. E. DILLE, Cairo	R. V. MCKEE, Varna
C. E. FIDLER, Lewistown	P. J. MEGINNIS, Cicero
C. C. HASTINGS, Williamsville	D. E. SISK, Mansfield
G. W. JENSEN, Antioch	

I concur.

Mr. Davis moved that these nominations be approved, with the addition of several names suggested by him; he also suggested three names to be added either to the Agricultural Advisory Committees or to the General Advisory Committee. President Stoddard stated that he would accept these nominations and make them part of his recommendation, subject to clearance with the respective deans, and the motion was passed.

APPOINTMENT TO COLLEGE OF PHARMACY ADVISORY COMMITTEE

(2) The Dean of the College of Pharmacy recommends the appointment of Mr. Edwin Brown, Quincy, Illinois, as a member of the College of Pharmacy Advisory Committee for a term of five years from December 1, 1946. The other members of the Committee are:

DALE RUEDIG, *Chairman*, Vice-President, Eli Lilly & Company, 164 North Wacker Drive, Chicago

CHARLES R. WALGREEN, JR., President, Walgreen Drug Company, 744 East Bowen Avenue, Chicago

OTTO PELIKAN, Retail Pharmacist, 918 Columbian Avenue, Oak Park

JACK READER, Retail Pharmacist, 1001 East 61st Street, Chicago

L. E. THROCKMORTON, *Member ex officio*, President, I.Ph.A., Retail Pharmacist, 600 Main Street, Peoria

Mr. Davis moved that this appointment be made, and suggested the addition of six other names to the committee. President Stoddard stated that he would accept these nominations and make them part of his recommendation, subject to clearance with Dean Serles, and the motion was passed.

COMPENSATION FOR SUMMER SESSION TEACHING

(3) The University of Illinois Statutes specify that salaries for teaching in the summer session shall be approximately 16 per cent of the annual salaries for the ranks involved, with a maximum of \$900. This is for eight weeks of summer teaching. When the University increased the period of the summer session as a part of the accelerated program, this formula was used for extending the maximum of summer teaching appointments beyond eight weeks on the basis of \$112.50 a week maximum salary.

The Director of the Summer Session recommends that the maximum for eight weeks of summer teaching be established at \$1200 and that this be used as the basis for calculating maximum compensation for assignments beyond eight weeks. Reasons for this recommendation are:

(a) The previous maximum was based on a salary schedule which, in general, was much lower than the 1945-1947 schedule, and will be even further out of line if any substantial upturn in salaries is possible during the next biennium.

(b) The extension of the summer session to a full sixteen-week period means almost continual service on the part of the members of the staff, and while it is true that some of this extension is already recognized in increased salaries, nevertheless the virtual elimination of vacation periods for the last five years has placed an undue burden on the staff.

(c) The Director points out that it is becoming increasingly difficult to recruit a summer session staff because of the increased number of opportunities for remunerative employment in government service and in industry. This outside pressure is particularly troublesome in the technical fields. This is one of the main reasons why other institutions have been forced to raise the maximum for the supplementary stipend for summer session service.

The total amount required to meet this maximum increase in stipend is \$31,600. Provision for it has been included in the biennial budget estimates for 1947-1949.

I concur in this recommendation.

On motion of Mr. Fornof, this recommendation was adopted.

PHYSICAL EDUCATION PROGRAM IN COLLEGES OF MEDICINE AND DENTISTRY

(4) The University Senate has recommended adoption of the following program in Physical Education for the Colleges of Medicine and Dentistry and I concur in this recommendation:

1. All men students in the Colleges of Medicine and Dentistry are required to secure 6 hours (two academic years) credit in Physical Education. One hour credit must be in Physical Education Theory and 5 hours in Physical Education Practice. All classes are to meet two times (for one hour) a week. All courses in Physical Education carry one hour credit each quarter.

2. All entering men students are required to take a Health Examination before registration. (This examination is to be given by the Department of Health Service.)

(a) Students with seriously handicapping defects (e.g., organic cardiac condition, arrested tuberculosis, or total blindness) are to be permanently ex-

cused from the Physical Education requirement by the Department of Health Service.

Students with slightly handicapping defects (e.g., functional cardiac conditions) or improvable defects (e.g., partial paralysis or inguinal hernia) or minor handicapping defects (e.g., absence of one hand) or temporary handicapping conditions (e.g., post-operative cases) will be assigned to the course "Prescribed Exercise and Sports" by the Department of Health Service.

Students with temporary handicapping conditions (e.g., broken ankle) may be temporarily exempted from enrolling in Physical Education (e.g., one quarter) by the Department of Health Service.

(b) Students enrolled in regular classes who develop a slightly handicapping condition (e.g., post-operative cases) may be transferred to the course "Prescribed Exercise and Sports" at any time by the Department of Health Service. An activity program will be prescribed for these individuals by the Health Service. This program will be carried out by the Department of Physical Education.

(c) Students enrolled in "Prescribed Exercise and Sports" may be removed at the end of any quarter by the Department of Health Service. (Such students would then register in regular Physical Education courses.)

3. The Department of Physical Education will carry out the recommendation of the Department of Health Service in excusing, readmitting, assigning, and reassigning students in Physical Education courses. Students who are not excused from Physical Education courses, or who are not assigned to a particular course or category of courses, will be enrolled in Physical Education courses as prescribed by the Department of Physical Education.

4. All entering students except those permanently excused by the Health Service are required to take a Physical Fitness Test. This test is to be given by the Department of Physical Education in Chicago. Men students who fail to pass the Physical Fitness Test must register in Physical Education Practice. Men students who pass the Physical Fitness Test will receive one hour credit in Physical Education Practice. A student may continue to receive credit for one hour in Physical Education Practice by repassing the Physical Fitness Test each quarter.

5. All women students of the College of Medicine are required to take Physical Education Theory (1 hour). All women students except those permanently excused by the Department of Health Service, are required to take a Physical Fitness Test. Due to the present limited facilities, no course in Physical Education Practice can be offered to women students. The findings of the Physical Fitness Test with recommendations will be reported to each student by the Department of Physical Education in Chicago.

The new program differs from the present one as follows:

1. At present the physical education requirements are up to each college to determine. In the future physical education will be included in the requirements for graduation.

2. The College of Pharmacy already requires two years of physical education for graduation.

On motion of Dr. Meyer, this program was approved as recommended.

CHANGES IN POLICY AND RULES FOR NONACADEMIC EMPLOYEES

(5) The Director of Nonacademic Personnel submits for approval a proposed change in Section IV, paragraph 4 of the "Policy and Rules Relating to Compensation and Working Conditions of Nonacademic Employees" for Chicago Professional Colleges as approved by the Board of Trustees on June 30, 1945, to be effective January 1, 1947.

The effect is to provide for a basic five-day work week with two weeks' vacation for nonacademic employees other than administrative groups, in lieu of the generally prevailing five and one-half day work week with progressive vacation now in effect. The plan as proposed has met general acceptance by both employer and employee groups concerned. The proposed changes are the result

of extended conferences between the Director, the Vice-President in charge of the Chicago Professional Colleges, deans and heads of departments in Chicago, and other general administrative officers, and employee groups.

Because of the urgency of the problem and the delays incident to completion of details, employees have been advised that the Board would be requested to authorize this change. Funds are available within budgets of the current year for the increased cost of the change, estimated at \$180,000 a year (\$90,000 for one-half year, 1946-1947). It is covered by the proposed budget for 1947-1949.

The Director also requests approval for making the work schedules supplementary to the basic "Policy and Rules" instead of being included as an integral part therein. This will do away with the necessity of printing separate, complete editions of the Policy for each campus and will make it possible to revise detailed schedules from time to time as required as supplementary to the main policy. The authority for approving such revisions of detailed schedules already has been delegated to the Director of Nonacademic Personnel by the Board.

By way of clarification, the Policy and Rules Relating to Compensation and Working Conditions of Nonacademic Employees, Chicago (effective July 1, 1945), IV, Hours (page five), Paragraph 1, should be revised to read as follows:

1. The University recognizes work schedules as set forth in this section. Each employee classification is allocated to an appropriate work schedule as to the work day and the work week. See pages 17-22 for schedules showing which work schedule applies to any specific classification. Changes in these schedules will be made as to prevailing rate groups when prevailing local practices change and the University is notified accordingly. Changes affecting other groups may be made by the Board on the recommendation of the Director of Nonacademic Personnel and the President. Employees in groups concerned will be notified of all such changes.

I concur in these recommendations and request approval.

On motion of Dr. Meyer, these changes were approved.

APPLICATION FOR FEDERAL FUNDS FOR PREPARATION OF PLANS FOR NEW BUILDINGS

(6) The Bureau of Community Facilities of the Federal Works Agency has been given the responsibility for the administration of Title V of the War Mobilization and Reconversion Act of 1944. The purpose of the Act is to encourage States, their agencies, and the political subdivisions of the States to complete the plan preparation of specific public works and to take other steps necessary to enable them to undertake the construction of their public works.

This Act authorizes the Federal Works Administrator to make advances of Federal funds to non-Federal public agencies to assist in the preparation of plans for specific public works and to issue regulations for the purpose of carrying out the provisions of Title V of the Act. The Act specifically provides that the making of advances shall not in any way commit the Federal Government to assist in the construction of the public works so planned. The Act and regulations provide that advances shall be repaid to the Federal Government if and when construction is undertaken either under contract or by the applicant's forces.

If the University of Illinois applies for and receives funds, it will be possible to start now on the preparation of plans for those buildings included in the requests for state appropriations for the biennium 1947-1949. If an appropriation is received, construction can be started at an earlier date than otherwise would be possible. If the appropriation is deferred, plans will be ready whenever funds are available.

The extent to which the University can receive funds from the Federal Works Agency under this program is not known. Representatives of the FWA have indicated that \$179,000 has been set aside for the State of Illinois and that it appears that the foremost need in the State of Illinois is at the University of Illinois.

The Comptroller recommends, and I concur, that the University attempt to obtain funds under this program. It is requested that the Board adopt the fol-

lowing resolution indicating their desire to participate in the program and designating the Comptroller as the official representative:

The Comptroller discussed this matter.

On motion of Mr. Nickell, the following resolution was adopted.

RESOLUTION

Whereas, the Board of Trustees of the University of Illinois, having become familiarized with Public Law 458, 78th Congress, as amended, and the regulations promulgated by the Federal Works Administrator pursuant thereto, and having determined that such law and regulations are applicable to the University of Illinois in the planning of non-Federal public works, and

Whereas, the University of Illinois has for a period of time recognized the need for additional building to provide a more comprehensive, economic, and practicable facility serving the educational needs of the University of Illinois, and

Whereas, the University of Illinois has been and is unable to initiate such plan preparation because of its inability to provide funds for the purpose, and

Whereas, the University of Illinois is requesting an appropriation from the State legally empowering it to plan, construct, finance, operate, and maintain the public works under consideration, and

Whereas, pursuant to the above-mentioned law administered by the Federal Works Agency, Bureau of Community Facilities, advances of public funds are made available for public works plan preparation in order to make advance provision for the construction of non-Federal public works, not including housing.

Now, therefore, be it resolved, by the Board of Trustees of the University of Illinois as follows:

1. That an application be submitted to the Bureau of Community Facilities of the Federal Works Agency for an advance of funds to prepare plans and specifications for any or all University buildings for which appropriations are being requested of the General Assembly.

2. That Lloyd Morey, Comptroller, is hereby designated as the official representative of the University of Illinois for this purpose and is hereby authorized to sign such application and all other documents required in obtaining the advance of funds referred to and to furnish the Government with such general, technical, and financial information and data as may be requested; and

3. That in accordance with Section 8 of the Regulations of the Bureau the University of Illinois plans and reasonably expects to initiate the construction of the proposed public works within four years after receipt of the advance and to prosecute the public works to completion.

RELEASES OF FUNDS FROM STATE-WIDE PUBLIC WORKS PROJECTS APPROPRIATION

(7) A report that Governor Dwight H. Green has authorized the release of funds from the appropriation made to the University of Illinois by the 64th General Assembly in the "Act making appropriations for a State-wide system of public works projects, including all ordinary and contingent expenses relating thereto," as follows:

Release No. 288

"For contingencies to cover expenditures for purposes for which the amount appropriated in any item above enumerated is or becomes insufficient \$500 000"
 Amount cancelled 127 000

This money was previously released (Release No. 116) to supplement other funds for the remodeling of the old power plant into a Naval Science Building. The Navy Department is attempting to secure an allotment of Federal funds to aid in this construction.

Release No. 289

"For contingencies to cover expenditures for purposes for which the amount appropriated in any item above enumerated is or becomes insufficient \$500 000"
 Amount released 33 000

This is to be used to augment Release No. 217 in the amount of \$42,000, for the removal of the Health Service Station to another University building, the original release having proved insufficient to complete the project.

I recommend that these funds be appropriated by the Board for the expenditures specified in the release.

On motion of Mr. Fornof, the amount released (\$33,000) was appropriated as recommended, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Dr. Meyer, Mr. Nickell; no, none; absent, Mr. Green, Mrs. Grigsby, Dr. Luken, Mr. Williamson.

AUTHORIZATION FOR GRADUATE SCHOLARSHIPS AND FELLOWSHIPS

(8) The Dean of the Graduate School requests an appropriation of \$150,000 for graduate scholarships and fellowships for the academic year 1947-1948.

The biennial budget for 1947-1949 as approved by the Board of Trustees includes a provision for graduate scholarships and fellowships at the rate of \$150,000 a year. It is necessary to set up provisions for scholarships and fellowships well in advance of the regular budget because of the common practice among universities of making scholarship and fellowship appointments on April 1 of the year preceding that in which the appointments will be held. Consequently it is necessary to plan for scholarships and fellowships prior to the action of the General Assembly of Illinois on the biennial budget.

I do not believe it is advisable to make a commitment for the full amount of the budgetary provision, but I recommend at this time authorization of appointments to graduate scholarships and fellowships for 1947-1948 not to exceed \$100,000.

On motion of Mr. Davis, this authorization was made as recommended.

SUPPLEMENTARY APPROPRIATION FOR CIVIL ENGINEERING SUMMER SURVEYING CAMP, 1946

(9) The Board of Trustees made an appropriation of \$10,000 for construction and equipment for the Civil Engineering Camp on December 11, 1945 (Minutes, page 945). Actual costs were \$13,809.48.

The work included four toilet and bathrooms, a kitchen building, including construction of a walk-in refrigerator and installation of equipment, remodeling one barracks into staff quarters, and constructing a building for hot water supply and laundry. Unexpected expenditures were necessary on the power plant because the local electric company was unable to supply current. It was expected that equipment could be secured from two prisoner-of-war camps near the surveying camp. This equipment, however, was taken away and stored, and efforts to secure it proved futile. The necessary cots, mattresses, dishes, kitchen equipment, and truck had to be purchased.

Operation and maintenance expenditures totaled \$9,091.16, while charges to students resulted in an income of only \$6,488.42.

The Civil Engineering Department has paid these excess costs from its current year's budget, but as a result is left without sufficient funds to complete the year. It requests an additional appropriation of \$3,810 for construction and equipment and \$2,603 additional to its current budget to cover the deficit on camp operations.

The Committee on Special Appropriations and Nonrecurring Expenditures has concurred in the request and recommends approval. I concur and request nonrecurring appropriations from the General Reserve in the amounts stated.

On motion of Mr. Fornof, this appropriation was made as recommended, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Dr. Meyer, Mr. Nickell; no, none; absent, Mr. Green, Mrs. Grigsby, Dr. Luken, Mr. Williamson.

**REPAIRS ON GREENHOUSE AT COOK COUNTY
EXPERIMENT STATION**

(10) The Head of the Horticulture Department and the Dean of the College of Agriculture request an appropriation of \$1,360 from accumulated unappropriated income of the Department of Horticulture for repairs on the greenhouse at the Cook County Experiment Station.

The Comptroller concurs in the recommendation and requests authority for himself and the Secretary of the Board to conclude a contract with Thomas P. Winandy of Chicago for this work, to be done in accordance with specifications, at a price of \$1,360.

On motion of Mr. McKelvey, this appropriation was made, and authority given as recommended, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Dr. Meyer, Mr. Nickell; no, none; absent, Mr. Green, Mrs. Grigsby, Dr. Luken, Mr. Williamson.

QUARTERLY REPORT OF THE COMPTROLLER

(15) The Comptroller presents his quarterly report to the Board as of September 30, 1946. Copies of this report have been sent to all members of the Board in advance of this meeting.

This report was received for record.

ADMISSION OF STUDENTS TO THE COLLEGE OF ENGINEERING

(16) It is impossible to expand instructional staff and other educational facilities to provide for more students in the College of Engineering than are now enrolled, plus those in the undergraduate divisions in Chicago, Galesburg, and in the high-school extension centers to whom the University has definite obligations to permit their transfer to the College of Engineering as sophomores and juniors.

Further restrictions on enrollments in that division are necessary and the following are recommended:

1. No permits to enter, or to transfer with advanced standing from other colleges and universities (other than divisions of the University of Illinois) will be issued to candidates for admission to the College of Engineering for the summer session of 1947. This is an extension of restrictions already applicable to new admissions for the second semester, 1946-1947.

2. When new students are again permitted to enroll in the College of Engineering, permits to enter will be issued to nonresidents of Illinois only as follows:

(a) To those ranking in the upper twenty per cent scholastically in their high-school classes, if applying for admission as first-year students.

(b) To students applying for admission with advanced standing by transfer from other colleges and universities who have a scholastic average equivalent to B (or 4.00) in the University of Illinois grading system.

The College of Engineering Executive Committee recommended even more stringent restrictions, but the above are as much as I recommend for the present.

The Provost commented on this matter.

On motion of Mr. Davis, these recommendations were adopted.

ACTIVITIES AT THE PIER AND AT GALESBURG

On request of Mr. McLaughlin, the Provost reported on activities at the Chicago and Galesburg branches.

MEETING OF THE BOARD OF TRUSTEES
OF THE
UNIVERSITY OF ILLINOIS

January 25, 1947

The January meeting of the Board of Trustees of the University of Illinois was held on Saturday, January 25, 1947, at the University Club, 76 East Monroe Street, Chicago, according to the following schedule:

10 a.m. — Executive session, as in Committee of the Whole.

11:30 a.m. — Open session.

When the Board convened, the following members were present: President Livingston, General Davis, Mr. Fornof, Mrs. Grigsby, Mr. McKelvey, Dr. Meyer, Mr. Nickell. Mr. McLaughlin took his place with the Board early in the forenoon. On invitation of the Board, Mrs. Doris S. Holt, Trustee-elect, was present during the day.

President Stoddard was present; also Mr. A. J. Janata, Assistant to the President, Mr. H. E. Cunningham, Secretary, Mr. Lloyd Morey, Comptroller, Professor C. R. Griffith, Provost, Professor W. E. Britton, Legal Counsel, Mr. Ernest L. Stouffer, Architect, Mr. Howard A. Hazleton, Business Manager of the Chicago Colleges, and Mr. Norval D. Hodges, Assistant Legal Counsel. Professor Phillips Bradley, Director of the Institute of Labor and Industrial Relations, was present during part of the day.

MINUTES APPROVED

The Secretary presented the minutes of the meeting of December 28, 1946.

On motion of Mr. Davis, the minutes were approved as printed on pages 191 to 214 above.

MATTERS PRESENTED BY PRESIDENT STODDARD

The Board considered in executive session the items on the agenda and took action on the following matters presented by the President of the University.

ADDITIONAL APPROPRIATION FOR PURCHASE OF CLARK PROPERTY

(1) On June 30, 1945 (Minutes, page 506), the Board of Trustees approved the purchase of the so-called Clark property in Urbana adjoining the property at the corner of Goodwin and Green Streets (Fay property) acquired for the apartment building project. At that time it was expected that the property could be secured for \$25,000, and an appropriation providing this amount was made. There was an appropriation of \$60,000 for the Fay property but only \$55,095 was required.

A further resolution indicating the necessity of this purchase was approved by the Board on August 29, 1945 (Minutes, page 633), this resolution being necessary to enable the Conservator for the owner of the Clark property to apply for a permit to sell.

The court has made an independent survey of the value of this property, as a result of which it appears that the cost will be between \$35,000 and \$40,000. The Director of the Physical Plant Department and the Comptroller feel that this addition is necessary to provide the minimum amount of ground necessary for the apartment project and request an additional appropriation of \$10,000, or so much thereof as may prove to be necessary, which, together with the unused balance from the Fay property, should be sufficient to cover the outside possible cost of the Clark property.

I concur and recommend such an appropriation from the General Reserve Fund.

On motion of Mr. Davis, this matter was referred to the Committee on Buildings and Grounds for consideration and recommendation to the Board.

PURCHASE OF KNIPP PROPERTY

(2) A recommendation from the Faculty Committee on Special Appropriations and Nonrecurring Expenditures that the residence of Professor C. T. Knipp at 1003 West Nevada Street, Urbana, be purchased, and that an appropriation of \$20,000, or so much thereof as may be necessary, be made for the purchase and remodeling of this property.

This property is in the range of development of future women's residence halls, being two properties removed from our present holdings and immediately adjoining the forestry on the north. The original price asked was \$22,000, but a tentative offer of \$19,000 was made by University representatives, which offer the owners have indicated they would accept. The price is reasonable as compared with other purchases made by the University.

It is proposed to use this property for the remainder of 1947 and to September, 1948, for faculty housing. At that time it will be assigned to the Bureau of Educational Research, since by that time the Bureau must be found a new location to replace its present location in Gregory Hall which will be required for other purposes.

On motion of Mrs. Grigsby, this matter was referred to the Committee on Buildings and Grounds for consideration and recommendation to the Board (see page 219 below).

SALE OF LAND IN ROSELAWN CEMETERY

(3) The Board of Trustees has approved disposing of the University's holdings in Roselawn Cemetery at a price sufficient to recover the University's investment and expenses incurred in holding the property, and has referred the matter to the Finance Committee, which reports as follows:

The Board of Trustees has referred to the Finance Committee for recommendation the problem of disposing of land owned by the University in Roselawn Cemetery near Champaign. The Board had previously indicated that the

University should "recover its present investment and expenses incurred in holding this property" (Minutes, February 24, 1945, page 364).

Since that time continued efforts have been made by University officers to secure an offer which would accomplish this result. This has not been found possible. The best offer received is from Russell L. Earl of Champaign to buy all land owned by the University in the Cemetery, consisting of 789 quarter lots, 239 single lots, and a small, unplatted area in the northwest corner for a purchase price of \$14,000, payable, cash on execution of contract, \$5,000, balance within three years with 3% interest on the unpaid balance, a contract to be drawn mutually satisfactory to the University and the purchaser.

On this basis, the University would not realize its complete investment expenses by \$2,204.15. However, it has not been necessary to expend any part of the appropriation of \$2,220 made by the Board for improvement of the Cemetery in May, 1945; consequently, that expense has been saved.

The Legal Counsel has advised that it is not possible for the University to attempt to recover any land, in which interments have been made or use any vacant lots now or formerly owned by the University, for building purposes. For that reason, it seems highly desirable to dispose of the University's holdings at the earliest possible date.

The Finance Committee recommends that the offer of Russell L. Earl for the purchase of this land be accepted and the officers of the Board authorized to conclude a contract and execute all necessary documents.

FRANK H. MCKELVEY, *Acting Chairman*
CHESTER R. DAVIS
K. E. WILLIAMSON

The President recommended that this offer be accepted.

On motion of Mr. McKelvey, this sale was authorized as recommended, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Grigsby, Mr. Livingston, Mr. McKelvey, Dr. Meyer, Mr. Nickell; no, none; absent, Mr. Green, Dr. Luken, Mr. McLaughlin, Mr. Williamson.

LEASE OF NAVY PIER AND PURCHASE OF NAVY EQUIPMENT

(4) Officers of the University have been negotiating a lease with officials of the City of Chicago for a portion of Navy Pier for use by the Chicago Undergraduate Division. They have also been discussing with them and with officials of the Navy Department a basis for purchase of certain equipment left on the Pier by the Navy, which the University needs. Complete agreement has now been reached by representatives of all parties, the principal conditions of which are:

1. The lease of approximately 373,350 square feet of space at a rental of \$115,000 for the 11 months ending June 30, 1947, and \$117,000 a year thereafter, from August 1, 1946, to June 30, 1951, with renewal privilege for three additional years.

2. The University is to pay for electricity, gas, water, and heat.

3. The University is to pay \$1,120 a year in lieu of insurance, and to provide public liability insurance protection to the City.

4. The University is to pay the cost of restoration of the Pier to the condition when Navy took possession, which is estimated at \$200,000, the sum of \$100,000, to be deposited in escrow with the First National Bank of Chicago on the signing of the lease, and an additional \$100,000 on or before August 1, 1947.

5. All equipment left on the Pier by the Navy Department to be sold by the City to the University for the sum of \$85,000, with the provision that the University may sell surplus equipment and credit proceeds against this payment to an amount not in excess of \$22,000, any realization in excess of this amount to be paid to the City. The University will use at least seventy-five per cent of this property.

I recommend that this lease and purchase be approved, that the Comptroller and the Secretary of the Board be authorized to execute the lease when approved by the Legal Counsel, and that the Comptroller be authorized to conclude the

purchase of equipment from the Navy as described, with the understanding that immediate sale of equipment not wanted for educational purposes be made.

During the presentation of this item, Mr. McLaughlin took his place with the Board.

Mr. Morey, Mr. Britton, and Mr. Hodges commented on this matter.

On motion of Mr. Fornof, the lease was approved and authority was given as recommended.

ARCHITECTURAL AND ENGINEERING SERVICES FOR APARTMENT BUILDING

(5) On June 30, 1945, the Board of Trustees authorized the employment of architectural and engineering firms for designing and planning buildings and other permanent improvements in the University's building program for 1945-1947. This authorization included employment of Skidmore, Owings, and Merrill, Chicago, as architects for an apartment building for married students. A contract for professional services was executed as of August 6, 1945.

Subsequently the University's housing plans changed. The sudden termination of World War II necessitated providing quickly a great deal of housing for both married and unmarried veterans. Available funds were used for installation of temporary housing secured through the Federal Public Housing Authority. Work on the plans for the permanent apartment building project was suspended after Skidmore, Owings, and Merrill had already done some preliminary work for which the firm has been paid \$1,604.84.

Recently the apartment building project has become again active due to the interest of lending agencies in financing it. Therefore, the contract with Skidmore, Owings, and Merrill, which had been suspended, has been reactivated.

On motion of Dr. Meyer, the continuation of these services was approved.

INSTALLATION OF PRESIDENT

(6) A request that the Board of Trustees authorize ceremonies for the installation of the President of the University, and appropriate funds to cover the cost of the same.

A two-day affair would be in order, with one day devoted to ceremonies in Chicago in which the Chicago Professional Colleges of Medicine, Dentistry, and Pharmacy and the Undergraduate Division at Navy Pier would participate, and the other the formal inaugural on the following day at Urbana-Champaign. On both occasions it would be appropriate to have addresses by distinguished educators, scientists, and public officials. It is difficult to make an accurate estimate of the cost, but an appropriation of \$10,000 is suggested.

It is proposed also to have a meeting of the Citizens Advisory Committee on the day following the installation, to sum up, in terms of interest of the entire state, the significance of the ceremonies.

On motion of Mr. Davis, this appropriation was made, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Grigsby, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Dr. Meyer, Mr. Nickell; no, none; absent, Mr. Green, Dr. Luken, Mr. Williamson.

The President of the University was authorized to make all arrangements, in conference with committees of the Board, the Faculty, and the Citizens Committee.

ADVISORY COMMITTEE FOR INSTITUTE OF LABOR AND INDUSTRIAL RELATIONS

(7) The faculty council and advisory committee on the Institute of Labor and Industrial Relations recommends the appointment of an advisory committee of five representatives each from labor, management, and the public. I have asked Dr. Phillips Bradley to present this matter to the Board.

Dr. Bradley presented the names of the proposed members, and explained the method of selection.

After discussion, President Stoddard suggested that Dr. Bradley, in conference with the faculty council, revise the list so that it does not contain more than one person from any company or city (except Chicago), and to recommend varying terms for the first appointees, looking toward a regular term of three years, with one member from each group appointed each year, with alphabetical rotation within each of the groups.

On motion of Mr. Davis, the President of the University was requested to submit the revised personnel of this committee to the Executive Committee for approval.

PURCHASE OF KNIPP PROPERTY

At this point, Mr. McKelvey reported that the Committee on Buildings and Grounds approved the purchase of the Knipp property as recommended (see page 216 above).

On motion of Mr. Davis, this recommendation was adopted (subject to confirmation of the appraisal), and an appropriation of \$20,000 was made, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Grigsby, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Dr. Meyer, Mr. Nickell; no, none; absent, Mr. Green, Dr. Luken, Mr. Williamson.

CONDEMNATION OF LAND

Professor Britton reported that in the trial of the suit for condemnation of land in Urbana to be used as a site for the Chemical Engineering Building, the jury had returned a verdict placing valuations on the property at 606 South Mathews Avenue at \$45,000 and on that at 1201-1203 West California Avenue at \$42,750, a total of \$87,750.

After discussion, on motion of Mr. Fornof, the Executive Committee was authorized to take all necessary and advisable action in this matter pending the next meeting of the Board.

OPEN SESSION

MATTERS PRESENTED BY PRESIDENT STODDARD

The Board continued, in open session, its consideration of matters presented by the President of the University.

ARCHITECTS FOR BUILDING PROGRAM FOR CHICAGO PROFESSIONAL COLLEGES

(1) The Director of the Physical Plant Department recommends that contracts be made with the following architectural firms:

1. *Shaw, Naess, and Murphy, Chicago*.—Preparation of building studies and detailed working drawings to the extent funds will permit for the student residence halls for the Colleges of Medicine, Dentistry, and Pharmacy.

This is an outstanding architectural firm in Chicago and has been selected because of its accomplishments in the housing field. This firm has furnished satisfactory services on the new women's residence hall now under construction at Urbana, and its architects are therefore familiar with the University's policies and standards. This will expedite their work.

2. *Schweikher and Elting, Melrose Park*.—Preparation of plans and specifications on the Experimental Research Building for the Drug Plant Experimental Station near the Morton Arboretum in DuPage County.

This firm has achieved a national reputation in the field of functional archi-

tectural design. The amount of land available for this project, the open and rolling character of the country, and the relation of building requirements to farming and other out-of-door activities point to the desirability of such style of architecture. This firm is located not far from the Drug Plant Experimental Station site. This will make it possible for them to give the project full attention during the construction stages.

I concur in these recommendations.

On motion of Mr. McLaughlin, these contracts were authorized as recommended.

**BUDGET FOR UNDERGRADUATE DIVISION AT GALESBURG,
FISCAL YEAR 1946-1947**

The appropriation was made by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Grigsby, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Dr. Meyer, Mr. Nickell; no, none; absent, Mr. Green, Dr. Luken, Mr. Williamson.

FEDERAL FUNDS FOR FARM LABOR EXTENSION PROGRAM

(3) Federal funds again have been made available for the Farm Labor Extension Program for the six-month period of January 1, 1947, to June 30, 1947, to be expended through the University Division of Agricultural Extension. The amount which has been made available for this period is \$101,173, and provision

for carrying on this program after June 30, 1947, will depend on the action of Congress.

The following budget is submitted covering the estimated expenditures from January 1 to June 30, 1947:

Salaries (including supervisors, assistant supervisors, and clerical help for the central office, appointments to be approved by the President).....	\$ 78 933

<i>Total</i>	<u>\$101 173</u>

The foregoing budget has been submitted by the Dean of the College of Agriculture and Director of the Extension Service in Agriculture and Home Economics, and has been reviewed by the Comptroller. I recommend its approval subject to adjustment within the total.

On motion of Mr. McKelvey, this budget was approved as recommended, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Grigsby, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Dr. Meyer, Mr. Nickell; no, none; absent, Mr. Green, Dr. Luken, Mr. Williamson.

2. Installation of a public address system in observation gallery of University High School..... 815
3. Special equipment in Electrical Engineering..... 15 000

On motion of Mr. Davis, these appropriations were made as recommended, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Grigsby, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Dr. Meyer, Mr. Nickell; no, none; absent, Mr. Green, Dr. Luken, Mr. Williamson.

CHANGES IN BUDGET (SPECIAL APPROPRIATIONS) OF THE ATHLETIC ASSOCIATION

(5) The Board of Directors of the Athletic Association requests approval of the following additional special appropriations from its funds for the current year:

1. For an intramural program at the Chicago Undergraduate Division for the remainder of the current year.....\$2 452 85
2. For an intramural and recreational program at the Galesburg Undergraduate Division for the remainder of the current school year.... 750 00
3. For championship awards in wrestling and football for the 1946 season, including the Rose Bowl Game..... 2 646 52

I recommend approval of these appropriations.

On motion of Mr. Fornof, these changes in the Athletic Association budget were approved.

CONTRACT FOR REMODELING ROOM 215 ELECTRICAL ENGINEERING LABORATORY

(6) On July 30, 1946 (Minutes, page 9), the Board appropriated \$50,000 for remodeling Room 215 Electrical Engineering Laboratory to provide facilities for research programs in that department. Bids received on January 14, 1947, for this work were as follows:

<i>Basis</i>	<i>C. H. Siems</i>	<i>C. A. Petry & Sons</i>	<i>E. N. DeAtley</i>
1. Guaranteed maximum cost plus fixed fee:			
Cost		\$23 000
Fixed fee		3 400
2. Fixed fee with estimate only of the total cost, without guarantee:			
Fixed fee	\$ 2 230	3 200
Estimated cost	19 440	21 500
3. Fixed sum basis		25 760	\$21 657

The Physical Plant Department and the Department of Electrical Engineering recommend that the contract be awarded to E. N. DeAtley, whose bid by analysis is the lowest and is for a fixed sum.

The Comptroller presents this recommendation for approval, and I concur in the recommendation.

On motion of Mrs. Grigsby, this contract was awarded as recommended.

CANCELLATION OF SABBATICAL LEAVES OF ABSENCE

(7) The following members of the faculty who were granted sabbatical leaves of absence during the academic year 1946-1947 have requested that their leaves be postponed:

MILES C. HARTLEY, Assistant Professor of Education and Head of the Department of Mathematics in the University High School, leave on one-half pay, second semester, 1946-1947.

E. J. WORKING, Professor of Agricultural Economics, leave on full pay, second semester, 1946-1947.

These requests are made for the convenience of the University because of the shortage of instructional staff.

I recommend cancellation of these leaves without prejudice as to reinstatement of these leaves in the future.

On motion of Mr. Davis, this recommendation was approved.

APPOINTMENTS TO PROFESSIONAL ADVISORY COMMITTEE OF THE DIVISION OF SERVICES FOR CRIPPLED CHILDREN

(8) The Board of Trustees has authorized the appointment of a Professional Advisory Committee of the Division of Services for Crippled Children to work with the Superintendent of the Division in providing necessary contacts between it and the University. REAPPROPRIATION OF BIENNIAL CAPITAL APPROPRIATIONS

(13) Of the total of \$16,809,000 of capital appropriations approved by the General Assembly in 1945, the sum of \$916,606.31 was actually expended as of December

31, 1946. A further sum of \$1,662,891.04 was encumbered. Releases by the Governor to that date total \$7,817,077.

Present conditions make it impossible to expend these funds for the projects for which they were appropriated prior to September 30, 1947, when the unexpended balances will lapse unless reappropriated. With the exception of the appropriation of \$38,000 for the telephone extension service, which will be expended in full by the end of the present biennium, and the appropriation of \$140,000 for the purchase of student housing, which will not be used, all of the appropriations are needed for their original purposes and should be kept available.

Bids have recently been taken on some of the projects and bids will be taken within the next few months on others, but few if any can be completed and paid for by September 30, 1947. It is necessary that the funds be reappropriated before the contracts are executed. Hence, it is recommended that the Board authorize a request to the present General Assembly for the reappropriation of balances existing on June 30, 1947, in the several projects remaining uncompleted at that time. The estimated maximum total of reappropriation which may be required is \$15,626,500 (see Schedule A, page 226).

The rate of progress on the various construction projects during the coming biennium will be determined by the amount of labor and material available and the delivery dates on material required. Under present conditions if all projects are initiated at approximately the same time all will proceed at a very slow rate. Certain projects must be completed by September, 1948, if the University is to meet its commitments to maintain the present student enrollment.

In view of these facts, it is necessary to establish a priority with respect to the schedule of construction of all University projects, both those included in present appropriations and those being requested for the coming biennium. I have conferred with the University officers concerned and submit a schedule of priorities which I recommend be adopted (see Schedule B, page 227).

It is noted that all projects are classified under three headings:

AAA—Construction to begin as soon as possible with the expectation that they will be ready for use in the fall of 1948 or earlier.

AA—Construction to begin only as soon as such construction will not interfere with progress of AAA projects.

A—Construction to begin to the extent that funds become available and at such time as they will not interfere with the progress of either AAA or AA projects. It is doubtful that any of these A projects can be completed during the coming biennium.

The necessity of such priority of construction applies only to Urbana-Champaign. Conditions in Chicago do not require such classification, and all construction projects there may proceed as rapidly as plans are completed and funds made available.

It is understood that architectural and engineering work will proceed on all projects as rapidly as possible, but bids will not be taken until construction conditions permit.

The completion date of all projects will be determined primarily on the availability of brick masons and the delivery of structural steel. Accordingly, it is recommended that orders for steel on AAA projects be placed as rapidly as possible, in advance of the taking of bids for construction of the buildings.

With respect to any contracts and orders executed, it should be recognized that the same situation will exist as was faced with the women's residence hall, namely, that construction may have to be started before sufficient funds are made available to complete the project.

In order to complete AAA projects in the time indicated, all other local competition must be eliminated in so far as possible. Accordingly, it is recommended that the Natural Resources Board be requested to defer construction of the three buildings for which funds have been appropriated to them, for approximately one year, in consideration of the University's critical needs for completing certain classroom buildings to provide for instruction of veteran students.

On motion of Mr. Davis, these recommendations were approved and adopted, and priorities were established as recommended.

CONTRACTS FOR UTILITIES DISTRIBUTION SYSTEM

(14) Bids were received in the office of Sargent and Lundy on January 13, 1947, for the construction of additions to the Utilities Distribution System at Urbana, for which an appropriation of \$791,000 was made for the current biennium.

It is recommended that contracts be awarded as follows:

1. Piping in steam distribution tunnels, to William A. Pope Company, Chicago, the only bidder, \$94,038, with escalation clause for maximum increase of 18% over current labor and material prices.

2. Insulation for piping in tunnels, Asbestos and Magnesia Materials Company, Chicago, the lowest bidder, \$52,362 (firm bid).

3. Electrical distribution system, A. S. Schulman Company, Chicago, the lowest bidder, \$133,850, with escalation clause to a maximum of 16.4%.

4. Construction of tunnels and conduits, Warner Construction Company, Chicago, \$354,511. This concern is considered to be the lowest responsible bidder on the complete program.

The total of these contracts, \$634,761, is within the appropriation for the Utilities Distribution System. The requests for capital appropriations for 1947-1949 include a provision for additional funds for extension of the Utilities Distribution System sufficient to cover the total cost of this project plus additional services to buildings contemplated in the 1947-1949 building program.

Extension of the Utilities Distribution System is necessary to service adequately existing buildings as well as new buildings to be constructed in various campus areas.

Mr. Stouffer discussed this item and Item 15 together.

On motion of Mr. Nickell, these contracts were awarded as recommended.

CONTRACTS FOR ELECTRICAL ENGINEERING BUILDING

(15) Bids were received on January 21 for construction contracts and for structural steel for the Electrical Engineering Laboratory, for which a State appropriation of \$875,000 is available during the current biennium. A schedule of the bids and a report from the Director of the Physical Plant Department are submitted herewith.

The present estimate of the total cost of this project is \$1,615,775. The Board of Trustees has authorized a request for an additional appropriation of \$5,100,000 to supplement funds appropriated for the current biennium to cover the increased cost of building construction, which includes an allocation of \$325,000 for the Electrical Engineering Laboratory.

The Director of the Physical Plant Department recommends the award of contracts, to the lowest bidder in each case, within the total of the present available funds and after allowing for the cost of architectural and engineering services, as follows:

1. John Felmley, Bloomington, Illinois, construction and structural steel, \$401,000, with the provision that an addition to the contract of \$347,600 may be made at any time prior to August 1, 1947.

2. Carson-Payson Company, Danville, Illinois, heating and ventilating, \$106,000, with provision for an increase in the total contract up to \$176,954. This includes a fixed fee of \$19,661.

3. Leverenz Electric Company, Danville, Illinois, electrical wiring, \$67,000, with a provision for an increase in the total contract up to \$111,869.

4. W. T. Mahoney and Sons Company, Chicago, Illinois, plumbing, \$33,000, with provision for an increase in the total contract up to \$54,400, and with an escalation clause allowing for adjustments to cover increases in costs of labor and material.

These contracts will enable the University to proceed with the project within present financial limitations, and will also permit increasing the contracts on the basis of the bids received if additional funds for this project are made available for the biennium beginning July 1, 1947.

I request approval of these recommendations.

On motion of Mr. McLaughlin, these recommendations were approved.

AUTHORITY TO CONFER DEGREES

(16) A request for authority to confer degrees at all regular Commencement Exercises, beginning February 2, 1947, on candidates who qualify and are certified by the faculties for the same.

On motion of Mrs. Grigsby, this authority was granted as requested.

**BUDGET FOR THE GALESBURG UNDERGRADUATE DIVISION
1946-1947**

Explanatory Notes

Appropriations for Salaries are available for the term indicated in each case but not for more than one year from September 1, 1946.

When appointments are made at salary rates less than the amounts provided in the budget, the unused balance lapses at that time.

Funds appropriated for positions in the salary budget which are not yet filled may, pending regular appointments, be drawn against by voucher to the Business Office for services of employees temporarily engaged to do the work contemplated by the position. Such temporary charges *may not exceed the*

amount of time provided by the position unless indicated herein or otherwise approved by the President.

All unexpended balances remaining in the salary budget lapse at the close of each calendar month unless previously assigned or encumbered.

Departmental appropriations are made under the captions "Salaries," "Wages," and "Expense and Equipment." No transfers may be made between "Salaries" and other captions except with the approval of the President of the University. *Requests for such changes should be submitted to the Comptroller.* Adjustments may be made between "Wages" and "Expense and Equipment" upon written request to the Comptroller.

Appropriations for Expense and Equipment, Wages, and Nonrecurring items are available for one year beginning July 1, 1946, and ending June 30, 1947. All unexpended balances in Wages appropriations lapse June 30, 1947, and *unencumbered* balances in Expense and Equipment appropriations lapse on that date. Allowable encumbrances for which funds will be carried forward on June 30, 1947, are only those for the purchase of equipment and other capital items.

All new positions classified as permanent and continuous should be included in the salary budget and must not be charged to any wages appropriation except in those departments submitting supplemental budgets detailing such wage appropriations.

Unless otherwise indicated in the Budget:

1. The service required under appointments in this budget to positions on the teaching faculty covers the academic year of the University, not including the Summer Semester. Salaries of such positions of the rank of Assistant Professor and above are paid in twelve equal monthly installments; salaries of other ranks, in nine equal monthly installments.

2. The service required in administrative, clerical, and service positions is for a full year of twelve months, with allowance for vacations, and salaries are paid in twelve equal monthly installments. All such positions in the academic budget are indicated by the letter "Y" following the tenure symbol.

Symbols:

A — Indefinite tenure.	Y — Indicates that services are re-
D — One year from September 1, 1946.	quired throughout the year, ex-
F — Nine months from October 1, 1946.	cept for allowable vacation, with-
G — Special tenure.	out additional compensation.
H — July 1, 1946, to June 30, 1947.	

Part-time:

When any of the above symbols is combined with a number, the number indicates the fraction of time in per cent covered by the position.

Housing:

In a number of instances, as a practical and emergency arrangement, housing facilities are being temporarily furnished to staff members without charge, for the convenience of the University. As rapidly as possible, the arrangements are being revised, and final determination as to each case is being concluded.

10 a.m. — Executive session, as in Committee of the Whole.

12:30 p.m. — Open session.

When the Board convened, the following members were present: President Livingston, Mrs. Grigsby, Dr. Luken, Mr. McKelvey, Dr. Meyer. Mrs. Doris Holt, member-elect, was present during the entire day. President Stoddard was present; also Mr. A. J. Janata, Assistant to the President, Mr. H. E. Cunningham, Secretary, Mr. Lloyd Morey, Comptroller, Mr. I. L. Porter, Treasurer, Dr. A. C. Ivy, Vice-President, Professor C. R. Griffith, Provost, and Professor W. E. Britton, Legal Counsel.

The Board recessed.

MEETING OF THE EXECUTIVE COMMITTEE

FEBRUARY 27, 1947

The Executive Committee of the Board of Trustees of the University of Illinois met on Thursday, February 27, 1947, at the Blackstone Hotel, in Chicago, during the recess of the meeting of the Board on the same day. Mr. Park Livingston, Chairman, and Dr. Karl A. Meyer, member of the Executive Committee, were present; also the members and officers of the Board and the officials of the University enumerated above.

MATTERS PRESENTED BY PRESIDENT STODDARD

The Board considered the following matters presented by the President of the University.

CHANGES IN ACADEMIC RANKS OF ATHLETIC ASSOCIATION STAFF

(1) At the request of Professor Seward C. Staley, Director of the School of Physical Education, I recommend the following promotions in academic ranks of members of the staff of the Athletic Association who are also members of the University faculty, effective September 1, 1947:

DOUGLAS R. MILLS, Director of Intercollegiate Athletics, Head Basketball Coach, and Assistant Professor of Physical Education, to the rank of Professor on indefinite tenure.

RAYMOND ELIOT, Head Football Coach and Assistant Professor of Physical Education, to the rank of Associate Professor on indefinite tenure.

WALTER H. ROETTGER, Head Baseball Coach, Assistant Basketball Coach, and Assistant Professor of Physical Education, to the rank of Associate Professor on indefinite tenure.

BURTON A. INGWERSEN, Assistant Football Coach and Instructor in Physical Education, to the rank of Associate Professor on indefinite tenure.

LEO T. JOHNSON, Head Track Coach, Assistant Football Coach, and Associate in Physical Education, to the rank of Assistant Professor for two years from September 1, 1947.

The University of Illinois Statutes provide that an appointment as professor or as associate professor shall be for an indefinite term; provided, however, that when a person's first appointment in this University is to a professorship, or an associate professorship, such appointment may be for any limited term, but a reappointment following shall be for an indefinite term. Appointments below the rank of associate professor shall be made for a definite term. It is customary to make appointments to the rank of assistant professor for one or two years to coincide with the fiscal biennia.

On motion of Dr. Meyer, these appointments were approved as recommended.

ADJUSTMENTS IN SALARIES OF ATHLETIC ASSOCIATION STAFF

(2) The Board of Directors of the Athletic Association has authorized the following new schedule of salaries for members of the Athletic Association staff effective March 1, 1947, subject to approval by the Board of Trustees:

DOUGLAS R. MILLS, Director of Intercollegiate Athletics and Head Basketball Coach.....	\$12 500
RAYMOND ELIOT, Head Football Coach.....	11 000
BURTON A. INGWERSEN, Assistant Football Coach.....	9 000
WALTER H. ROETTGER, Head Baseball Coach and Assistant Basketball Coach.....	7 000
LEO T. JOHNSON, Head Track Coach and Assistant Football Coach.....	6 500
RALPH E. FLETCHER, Assistant Football Coach and Director of Placement Service.....	6 300
HARTLEY D. PRICE, Head Gymnastics Coach.....	4 800

H. E. KENNEY, Wrestling Coach.....	4 800
G. C. LAW, Assistant Wrestling Coach and Acting Personnel Director...	4 500

GEORGE A. LEGG, Assistant to the Business Manager.....	4 000

In the cases of joint appointments, that is, of staff members whose salaries are paid partly by the Athletic Association, the Board of Directors has also voted the assumption of whatever amounts are necessary to provide in full the increases recommended above. In other words, the Association assumes all the increases to be given until such time as the University makes changes in the salaries of staff members holding joint appointments.

On motion of Dr. Meyer, these salaries were approved as recommended.

UNIVERSITY OF ILLINOIS CIVIL SERVICE COMMISSION

(3) At the meeting of the Board of Trustees on December 28, 1946, the Legal Counsel raised the question whether the Board of Trustees, in acting on Civil Service matters, should not sit as a Civil Service Commission and have minutes of such meetings separately recorded. The Board directed that this be referred to the President of the University for consideration with the Legal Counsel and for report to the Board.

This question has been studied by the Legal Counsel, the Secretary of the Board of Trustees, and several other University officers. Memoranda from the Legal Counsel and the Director of Nonacademic Personnel are submitted herewith.

Having considered their report, I recommend:

1. That the minutes of actions of the Board of Trustees on Civil Service matters be published from time to time separately from other minutes of the Board of Trustees and that copies be supplied for distribution to persons who have legitimate reason for receiving them.

2. That following any meeting of the Board of Trustees at which action on Civil Service matters has been taken, the Secretary of the Board shall supply a report of such action for the information of persons who have a legitimate interest therein.

On motion of Dr. Meyer, these recommendations were adopted.

REPORTS OF PATENTABLE DISCOVERIES

(4) The Faculty Committee on Patents submits the following report and recommendations relating to patentable discoveries made by members of the staff:

1. A chemical process for making a culture medium used in growing a fungus from which streptomycin is made. This is a discovery by Professor H. H. Thornberry of the Department of Horticulture as a result of research work by himself and Professor H. W. Anderson on a project sponsored and financed by Eli Lilly and Company, Parke, Davis, and Company, the Upjohn Company, and the Abbott Laboratories. The sponsors have expressed a desire to have this discovery patented by the University and a willingness to pay the cost of securing patents in the United States and in certain foreign countries, in return for which the sponsors shall be given the use of the patent under a non-exclusive license. Such an arrangement is specifically permitted in the policy and regulations of the Board of Trustees relating to research sponsored by outside agencies. The Committee recommends that applications for patents be filed and that the officers of the Board of Trustees be authorized to sign all necessary documents relating thereto.

2. Certain antimalarial compounds by Mr. Peter Kovacic, employed in the Department of Chemistry on research work under a restricted contract (No. OEMcmr-321) with the Office of Scientific Research and Development of the United States Government. Under this contract the Government has the right

to determine whether or not a patent application shall be filed and to determine the disposition of the title to and the rights under any application or patent that may result. The Government has asked for an assignment by the discoverer of his rights in the discovery. The Committee recommends that the discoverer be authorized to execute such an assignment and that the University release to the United States Government any rights which it may have therein.

3. Methods for the preparation of sulfuryl fluoride, and a practical method for the manufacture of sulfamide, by Dr. Mark M. Woyski, Instructor in Chemistry. The Head of the Department of Chemistry is of the opinion that these methods are of scientific interest only and he doubts the practicability of these operations in any commercial processes. The Committee recommends that this discovery be released to the discoverer.

I concur in the recommendations of the Committee.

Professor Britton presented this matter.

On motion of Dr. Meyer, these recommendations were adopted.

AUTHORIZATION OF HONORARY DEGREES

(5) The University Senate has selected the following Committee on Honorary Degrees:

Professor ROGER ADAMS, Head of the Department of Chemistry, *Chairman*¹
Professor H. M. GRAY, Department of Economics, and Associate Dean of the Graduate School

Professor WILLIAM E. CARROLL, Department of Animal Husbandry, and Associate Director of the Agricultural Experiment Station

Professor HENNING LARSEN, Head of the Department of English

Professor WILLIAM L. EVERITT, Head of the Department of Electrical Engineering

Dr. ERIC OLDBERG, Professor and Head of the Department of Neurology and Neurological Surgery

I recommend that the Board of Trustees authorize the award of not to exceed eight honorary degrees to be conferred at the time of the installation of the President of the University, May 16, 1947, on the nomination of this Committee and the recommendation of the President of the University, and with the approval of the Executive Committee of the Board of Trustees if it becomes necessary to act between meetings of the full Board.

On motion of Dr. Meyer, this authority was granted as recommended.

PURCHASE OF CLARK PROPERTY

(6) The recommendation for an additional appropriation of \$10,000 to cover the outside possible cost of the purchase of the Clark property was referred to the Committee on Buildings and Grounds for appraisal and recommendation to the Board (Minutes, January 25, 1947, page 216).

Mr. McKelvey commented on this matter and recommended that the appropriation be made.

On motion of Dr. Meyer, this purchase was authorized, and the appropriation was made, by the following vote: Aye, Mr. Livingston, Dr. Meyer; absent, Mr. Davis.

APPROPRIATION TO ALUMNI ASSOCIATION

(7) The University of Illinois Alumni Association requested an appropriation of \$48,773 from University funds for operating expenses during the fiscal year beginning July 1, 1946, of which amount \$39,553 was appropriated. The officers of the Association have requested that because of the great increase in the cost of maintaining the Alumni Records the original request for an appropriation of \$48,773 be reconsidered.

I recommend that a supplementary appropriation of \$9,220 be made to the Alumni Records Office for the balance of the current fiscal year.

On motion of Dr. Meyer, this appropriation was made as recom-

mended, by the following vote: Aye, Mr. Livingston, Dr. Meyer; absent, Mr. Davis.

The Executive Committee adjourned.

PARK LIVINGSTON, *Chairman*
CHESTER R. DAVIS
KARL A. MEYER

SECOND SESSION, FEBRUARY 27, 1947

When the Board convened following the recess on February 27, 1947, the same members and officers were present as during the first session; also General Davis.

PURCHASE OF MILLIGAN PROPERTY

At this point the Board took up consideration of the acquisition of the Milligan properties at 606 South Mathews Avenue and 1201 to 1203 West California Avenue, in Urbana.

President Stoddard expressed the opinion that since prices had been established for these properties by due process of law in condemnation proceedings in circuit court, the Board of Trustees is now justified in purchasing the properties at the prices so fixed as a part of the site for the Chemical Engineering and Chemistry Buildings so that construction of these essential buildings will not be unduly delayed.

Mr. McKelvey, Chairman of the Committee on Buildings and Grounds, also expressed the opinion that the property should be purchased at the prices fixed by the jury.

The Comptroller stated that there were sufficient funds in the appropriation for the purchase of land to meet this expenditure.

On motion of Dr. Meyer, this purchase was authorized as recommended, by the following vote: Aye, Mr. Davis, Mrs. Grigsby, Mr. Livingston, Dr. Luken, Mr. McKelvey, Dr. Meyer; no, none; absent, Mr. Fornof, Mr. Green, Mr. McLaughlin, Mr. Nickell, Mr. Williamson.

MATTERS PRESENTED BY PRESIDENT STODDARD

The Board considered the following matter presented by the President of the University.

PURCHASE OF TEXACO PROPERTY

(1) The Director of the Physical Plant Department requests authority to offer the Texas Company \$40,000 for the property at the northeast corner of Green Street and Mathews Avenue, in Urbana, with the understanding that if this offer is not acceptable to the Texas Company, he may negotiate on their continued use of the site for a period not to exceed five years.

On motion of Mr. McKelvey, authority was given to Director Havens to proceed as recommended.

OPEN SESSION

The Board, at 12:30 p.m., declared that the meeting was open to the public.

MINUTES APPROVED

The Secretary presented the minutes of the meeting of January 25, 1947.

On motion of Mr. McKelvey, the minutes were approved as printed on pages 215 to 252 above.

MATTERS PRESENTED BY PRESIDENT STODDARD

The Board considered the following matters presented by the President of the University.

BEQUEST OF JOHN A. FAIRLIE

(1) The late Dr. John A. Fairlie, Professor of Political Science, *Emeritus*, who died on January 23, 1947, included the following bequest in his will:

ARTICLE FIVE

I give and bequeath unto the University of Illinois, a public corporation of the State of Illinois, with its principal offices in the city of Urbana, Champaign County, Illinois, the sum of Twenty Thousand (\$20,000.00) Dollars, the income from which shall be used under such rules and regulations as may be determined and promulgated by the said University of Illinois for the maintenance of a graduate fellowship in political science at said University of Illinois.

Professor Fairlie was one of the distinguished members of the University of Illinois faculty. His active service covered a period of 32 years from 1909 when he joined the faculty until 1941 when he retired. Many alumni of the University who had the privilege of studying under Doctor Fairlie will long remember him as a great teacher and scholar. I am sure we are all deeply grateful for his generous gift which will be instrumental in stimulating and rewarding scholarship in a very important field.

On motion of Dr. Meyer, this bequest was accepted, for the purposes stated by the donor.

**SUPPLEMENTARY EMERGENCY STATE APPROPRIATIONS
FOR 1945-1947**

(2) The 65th General Assembly has passed and it is expected that the Governor shortly will approve Senate Bill 17 making supplementary emergency appropriations to the University for the current biennium totaling \$9,903,146, of which \$5,933,996 will come from State tax funds and \$3,969,150 from University income.

These appropriations are for the following purposes:

1. Chicago Undergraduate Division at Navy Pier, covering the budget approved by the Board of Trustees on September 24, 1946 (Minutes, page 43).....	\$3 554 178
2. Galesburg Undergraduate Division at Mayo General Hospital, covering budget approved by the Board of Trustees on January 25, 1947 (Minutes, page 220).....	I 916 818
3. Auxiliary activities (food service and housing) at the Chicago and Galesburg Undergraduate Divisions (income only).....	I 432 150
4. Increase in University income allowed for in internal budget for 1946-1947 of Urbana-Champaign and Chicago Professional Colleges.....	I 500 000
5. Supplementary appropriation for increased operating costs in Urbana-Champaign and Chicago Professional Colleges.....	I 500 000
Grand Total.....	\$9 903 146

Of the above items, the entire amount has been appropriated by the Board, or is related to self-supporting auxiliary activities, except the last item of \$1,500,000. This is an additional appropriation from tax funds not yet appropriated by the Board or committed in any manner. It is based on the action of the Board of Trustees, March 9, 1946 (Minutes, page 1028), to be used for the following purposes:

(a) Staff additions.....	\$125 000
(b) Salary adjustments (academic and nonacademic).....	800 000
(c) Supplies, equipment, operation, maintenance, and replacement.....	575 000

The first item is required to provide for services through the second se-

mester of 1946-1947 of new staff members who were employed for the first semester, and for other necessary staff additions.

The last item of \$575,000 will be needed for emergency adjustments in regular departmental expense and equipment budgets for the remainder of the current year, and for nonrecurring items.

It is proposed to allocate the fund for salary adjustments to the various departments on the basis of the principles to be established by the President on the recommendation of the University Council.

I recommend that:

1. The appropriation of \$1,500,000 be added to the General Reserve Fund of the University.

2. The sum of \$800,000 be appropriated for salary adjustments of academic and nonacademic staffs in the Urbana-Champaign divisions and the Chicago Professional Colleges.

3. The President be authorized to make emergency adjustments out of the remaining funds for staff additions and departmental expense and equipment for the remainder of the year, all such adjustments to be reported to the Board.

Recommendations for nonrecurring appropriations from remaining funds will be submitted to the Board for consideration from time to time.

On motion of Mr. Davis, these recommendations were adopted, by the following vote: Aye, Mr. Davis, Mrs. Grigsby, Mr. Livingston, Dr. Luken, Mr. McKelvey, Dr. Meyer; no, none; absent, Mr. Fornof, Mr. Green, Mr. McLaughlin, Mr. Nickell, Mr. Williamson.

STAFF HOUSING PROJECT

(3) On May 29, 1946 (Minutes, pages 1113-1115), the Board approved a plan for the purchase of lots in residential areas in Urbana and Champaign and of 50 prefabricated houses to be constructed on these lots for rental or sale to University staff members. This project is being financed jointly by the University and the University of Illinois Foundation. The Board of Trustees appropriated \$176,000, and the Foundation has secured a mortgage loan of an equal amount. With this sum it was possible to finance only 44 houses.

The University has an opportunity to purchase an additional house of this type, located at 503 South Garfield, Champaign, which was constructed by a private owner for his use but who is now leaving the University. He is willing to sell the house for what it and the lot cost him—\$8,500. There may be some additional cost to the University in securing the transfer of title. An option which expires February 28 was secured on this house to control it for University staff use.

I recommend that the Board authorize the purchase of this house as a part of the staff housing project and that an additional appropriation of \$8,600, or so much thereof as may be necessary, be made for this particular acquisition.

On motion of Mr. McKelvey, this purchase was authorized and the appropriation made, by the following vote: Aye, Mr. Davis, Mrs. Grigsby, Mr. Livingston, Dr. Luken, Mr. McKelvey, Dr. Meyer; no, none; absent, Mr. Fornof, Mr. Green, Mr. McLaughlin, Mr. Nickell, Mr. Williamson.

SUPPLEMENTARY STAFF HOUSING PROJECT

(4) In spite of all efforts made by the University, the staff housing situation in the Urbana-Champaign departments remains acute. Heads of educational divisions indicate that the housing shortage presents one of the most serious obstacles to securing needed additions to the staff. The situation will be aggravated next year if the staff additions provided for in the biennial budget are realized.

The Provost has recommended that the University extend its staff housing program by the erection of an additional group of houses similar to the project approved by the Board on May 29, 1946 (Minutes, page 1113), and now nearing completion. At my request, the problem has been reviewed by the Comptroller, the Director of the Physical Plant, and the Provost, who jointly recommend that a new project of 25 prefabricated houses be authorized. This project is to be financed in part by a special State appropriation and in part by a self-

liquidating loan. The amount which can be amortized will be about one-third of the total.

Among the Federal housing units supplied to the University are 331 family units available for assignment to staff members if so needed. These units are now subject to (a) limitation by the government to veteran use, and (b) limitation to student use because the University funds used for their construction came entirely from a student residence hall appropriation. University officers have applied to the government for a relaxation of the ruling which permits only veterans to use these houses. (Such a relaxation has been secured for the Galesburg division.) It is now proposed that the special State appropriation be applied in part toward the Federal units to compensate for the use of a portion of them by members of the staff.

It is also proposed to incorporate the additional \$250,000 with the request for a State appropriation of \$2,200,000 for housing.

I recommend that the Board authorize an additional staff housing project to acquire 25 units according to the following plan:

1. Total estimated cost, \$238,450, including sites, buildings, and other necessary construction work.
2. Estimated net annual income available for debt service, \$8,236.
3. Estimated amount which can be borrowed and amortized on income, \$70,700.
4. A request to the General Assembly for an appropriation of \$250,000 for staff housing to be used in part for completion of the new project and in part for expenditures on Federal housing units that may be used for staff members, the understanding being that the present State appropriation of \$140,000 made for the purchase of student housing be allowed to lapse.
5. A request to the University of Illinois Foundation to cooperate in securing the needed loan for this project.

On motion of Dr. Luken, authority was granted as recommended.

AWARD OF CERTIFICATES OF CERTIFIED PUBLIC ACCOUNTANT

(5) The Committee on Accountancy recommends that the certificate of Certified Public Accountant be awarded the following candidates who have made applications therefor under the Accountancy Act of 1943 (Section 5), and who have presented evidence to the Committee that they hold unrevoked C.P.A. certificates issued by other states or territories of the United States or the District of Columbia (which certificates they obtained by passing written examinations) and satisfy other conditions contained in this section of the Act:

On motion of Mrs. Grigsby, these certificates were awarded as recommended.

APPROPRIATION FOR AUTOBIOGRAPHY OF DAVID KINLEY

(10) The University has a policy, established several years ago, of publishing biographies of former presidents. In 1923 it published "Selim Hobart Peabody, a Biography" by Mrs. Katherine Peabody Girling, his daughter, and in 1934, "The Life and Work of Andrew Sloan Draper" by Harlan Hoyt Horner. A biography of the first President, John Milton Gregory, by his daughter, was written and published elsewhere during the 1920 decade.

The Director of the University Press has the manuscript for the "Autobiography of David Kinley." He requests authority to publish it and an appropriation of not to exceed \$5,000 for that purpose.

I concur.

On motion of Mrs. Grigsby, this publication was authorized and the appropriation made, as requested, by the following vote: Aye, Mr. Davis, Mrs. Grigsby, Mr. Livingston, Dr. Luken, Mr. McKelvey, Dr. Meyer; no, none; absent, Mr. Fornof, Mr. Green, Mr. McLaughlin, Mr. Nickell, Mr. Williamson.

APPROPRIATION FOR BAND UNIFORMS

(11) In previous years members of the University of Illinois Bands were required to purchase uniforms. Students in the Reserve Officers' Training Corps are furnished Army uniforms by the War Department, but the War Department does not furnish Band uniforms. Students in the Bands receive credit for military training during their first two years and for this they are required to drill regularly and to perform at military ceremonies. In addition, Bands perform at numerous University functions each year for which the members re-

ceive no compensation. It does not seem to me, therefore, that they should be expected or required to buy their own uniforms. In previous years this was not a large item of personal expense, but now many students can not afford to buy uniforms.

I therefore recommend that the Board of Trustees make an initial appropriation of \$6,500, or so much thereof as may be necessary, toward the purchase of 200 Band uniforms and for the rehabilitation and replacement of overcoats and capes which were purchased over twenty years ago from funds contributed by alumni. It is estimated that the total cost will be \$13,000. The Athletic Association will contribute approximately one-half of the total funds required, from profits accruing to it from the football game in the Pasadena Rose Bowl on January 1, 1947.

Time is an important factor in the acquisition of these uniforms. Shortage of fabrics suitable for Band uniforms is also a factor. It is therefore recommended that this be considered a unique purchase and that the Board authorize a contract with DeMoulin Brothers Company, Greenville, Illinois, for the manufacture of uniforms. This company has supplied uniforms to Band members satisfactorily for a period of many years at prices as low as could be obtained anywhere, quality and service considered. It is believed that this manufacturer can best meet all specifications and requirements involved and that purchasing uniforms on the basis of competitive bids under present conditions would not be practicable.

On motion of Mr. Davis, this contract was authorized and the appropriation made as recommended, by the following vote: Aye, Mr. Davis, Mrs. Grigsby, Mr. Livingston, Dr. Luken, Mr. McKelvey, Dr. Meyer; no, none; absent, Mr. Fornof, Mr. Green, Mr. McLaughlin, Mr. Nickell, Mr. Williamson.

SPECIAL APPROPRIATIONS FOR NONRECURRING EXPENDITURES

(12) The Committee on Special Appropriations and Nonrecurring Expenditures recommends assignments from the General Reserve Fund for the following purposes:

Replenishment of the linen supply in the Research and Educational Hospitals.....	\$12 000
Addition to Agronomy Greenhouse.....	10 000
Equipment for College of Veterinary Medicine.....	6 285
Water softening system for Bevier Hall.....	4 100
<i>Total</i>	<u>\$32 385</u>

I concur.

On motion of Dr. Meyer, these appropriations were made as recommended, by the following vote: Aye, Mr. Davis, Mrs. Grigsby, Mr. Livingston, Dr. Luken, Mr. McKelvey, Dr. Meyer; no, none; absent, Mr. Fornof, Mr. Green, Mr. McLaughlin, Mr. Nickell, Mr. Williamson.

BARNES COLLECTION OF STUFFED ANIMALS

(13) The R. M. Barnes Collection, Lincoln, Illinois, of mounted birds, mammals, reptiles, amphibians, skins of birds, and birds' eggs has been offered to the University of Illinois and the State Museum at Springfield. The estimated value of the specimens and specimen cases to the University is \$6,620. It would be a valuable addition to the Museum of Natural History. The cost of moving the collection to the University and of making space usable for housing and displaying it for study is estimated at \$1,100.

I recommend acceptance of this collection and an appropriation of \$1,100 to cover the expenses incidental to its acquisition.

On motion of Mrs. Grigsby, this collection was accepted and the appropriation made as recommended, by the following vote: Aye, Mr. Davis, Mrs. Grigsby, Mr. Livingston, Dr. Luken, Mr. McKelvey, Dr. Meyer; no, none; absent, Mr. Fornof, Mr. Green, Mr. McLaughlin, Mr. Nickell, Mr. Williamson.

BIDS FOR FURNISHING STRUCTURAL AND REINFORCING STEEL FOR CONSTRUCTION OF MECHANICAL ENGINEERING BUILDING

(14) The following bids were received on February 5 for furnishing structural and reinforcing steel for the new Mechanical Engineering Building:

Bidder	Reinforcing Steel	Structural Steel	Delivery on Structural Steel
Joseph T. Ryerson & Son	\$21 100 49*	\$15 650 00*	September, 1947
Hansell-Elcock Co.	None	19 000 10	Five months
Duffin Iron Co.	None	21 620 00	Seven months
Bethlehem Steel Co.	None	14 900 00*	October, 1947

Subsequently, the Bethlehem Steel Company reported that their escalation on the structural steel would not exceed \$1,800, which would limit their maximum bid to \$16,700. Joseph T. Ryerson similarly reported that their escalation clause would be 10%, making their maximum bid \$17,215. On this basis, the bid of the Bethlehem Steel Company is lowest, and the University Architect recommends an immediate award to them on the basis of a base bid of \$14,900 subject to escalation, but not to exceed \$16,700.

The University Architect also recommends that the bid of Joseph T. Ryerson and Son for reinforcing steel be rejected, inasmuch as only one bid was received and it is in excess of previous preliminary estimates. He proposes to include reinforcing steel as a sub-bid in the general contract work for which bids are to be received on February 27.

Fugard, Burt, and Wilkinson, Architects for the Mechanical Engineering Building, concur in the above recommendations and further recommend that the contract for structural steel include a provision that it may be transferred to the successful general work contractor.

The Comptroller recommends approval of these proposals and I concur.

On motion of Mr. McKelvey, these proposals were approved as recommended.

PURCHASE OF STEEL FOR CONSTRUCTION OF BETATRON

(15) The betatron to be constructed in the new Physics Research Laboratory, which is moving toward completion, will be built under the supervision of members of the research staff of the Physics Department. Steel and other material are needed for this purpose. During 1945-1946, President Willard authorized members of the Physics staff to contact steel mills to determine where suitable steel could be obtained. These persons have conferred with officials of Carnegie Illinois Steel Company, American Rolling Mill Company, Wheeling Steel Company, and Allegheny Ludlum Company. Any order placed will be entered at the current price but will be accepted only with the understanding that billing will be at the price in effect at the time of delivery.

Representatives of the Physics Department recommend that orders be placed with the American Rolling Mill Company of Chicago, Illinois, as follows:

140,000 lbs. 29-gauge Armco Trancor XXX steel, to be supplied to the Allis-Chalmers Manufacturing Company, which has been doing preliminary work for the construction of the betatron. Estimated cost.	\$19 000
261,000 lbs. Armco Trancor 52-sheet steel, to be resquared, welded in coils and insulated. Estimated cost.	35 681
<i>Total cost.</i>	<i>\$54 681</i>

This recommendation is based on the following points:

1. No other company is prepared to supply transformer steel of sufficient width.
2. No other company can supply steel in lengths greater than 10 or 11 feet, whereas we need sheets of considerably greater length. Armco can supply in continuous coils of greater length.
3. The base price of transformer steel is the same for all companies. The

* Subject to escalation.

exact cost depends on extra charges for special widths, coiling, and cutting the edges as straight as possible. These were obtained only from Armco, since they were the only ones prepared to provide the correct widths.

The Purchasing Agent and Comptroller submit this recommendation with their endorsement. I concur and request approval.

On motion of Dr. Meyer, this purchase was authorized as recommended.

SUPPLEMENT TO GENERAL CONTRACT FOR PHYSICS RESEARCH LABORATORY

(16) On December 11, 1945 (Minutes, page 949), the Board approved a contract for general work on the Physics Research Laboratory with King and Petry, Champaign, on a cost plus fixed fee basis in the estimated amount of \$162,700. This was based upon a fixed fee of \$9,725. Increased material and labor costs require a revision in this estimate resulting in an increase of \$60,100 to date, which includes an increase in the contractor's fee in the amount of \$1,800, making the revised estimated cost of the work \$222,800, including a fixed fee of \$11,525.

This particular contract provides that the fixed fee shall be subject to adjustment if the total cost of the project including the fixed payment varies more than 20 per cent more or less than the original estimated cost. Adjustment of the fixed fee shall be on the basis agreed upon between the contractor and architect in advance and shall apply to only such costs which are more or less than the estimated cost, i.e., plus or minus 20 per cent. No adjustment is to be made if the cost is within the allowable variation. Since the total cost will run more than 20 per cent over the original estimates, an upward adjustment in the fixed fee is in order under the contract provisions.

The University Architect and the Comptroller recommend approval of this change in the estimate and fixed fee of the contract, the latter not being subject to reduction in case of saving under estimated cost.

Approval of the Board is requested.

On motion of Dr. Luken, these adjustments were approved as requested.

CONTINUATION OF OFFER OF FUNDS FROM NATIONAL FOUNDATION FOR INFANTILE PARALYSIS

(17) At the meeting on November 22, 1946 (Minutes, page 177), the Board approved an offer of funds in the amount of \$12,945 from the Cook County Chapter of the National Foundation for Infantile Paralysis, Incorporated, for hospital services for a 90-day period. The Foundation has requested a continuation through February 28, 1947, of the agreement entered into, in which the University of Illinois makes available 16 beds in the Research and Educational Hospitals for infantile paralysis cases.

The continuation of this agreement will involve the payment by the National Foundation for Infantile Paralysis to the University of Illinois the additional sum of \$5,796. The Business Manager of the Chicago Colleges recommends that the estimated income of the University be increased by \$5,796 and that temporary assignments be made as follows:

Research and Educational Hospitals:		
Administration:		
Expense.....	\$1 049	
Wages.....	400	\$1 449
Nursing—Wages.....		1 912
Dietary Department—Expense.....		1 275
Central Supply—Expense.....		290
<i>Total, Research and Educational Hospitals.....</i>		<u>\$4 926</u>
Physical Plant.....		870
<i>Total.....</i>		<u>\$5 796</u>

All officers concerned concur in this recommendation. In view of the fact that this is an extension of an arrangement previously approved by the Board, I

have approved the acceptance of the additional funds and of the increased appropriations as indicated. I request confirmation of my action.

On motion of Dr. Meyer, the action of the President of the University in this matter was approved and confirmed, by the following vote: Aye, Mr. Davis, Mrs. Grigsby, Mr. Livingston, Dr. Luken, Mr. McKelvey, Dr. Meyer; no, none; absent, Mr. Fornof, Mr. Green, Mr. McLaughlin, Mr. Nickell, Mr. Williamson.

(18) In approving the Athletic Association budget for the current year (Minutes, June 27, 1946, page 1172), the Board of Trustees authorized the President to make changes and adjustments as recommended by the Association's Board of Directors within the total estimated income.

Following is a statement of the adjustments thus made to December 31, 1946, not previously reported:

On motion of Mr. McKelvey, this report was received for record.

QUARTERLY REPORT OF THE COMPTROLLER

This report was received for record.

**UTILITY AND FIXED EQUIPMENT CONTRACTS
FOR WOMEN'S RESIDENCE HALL**

(22) Bids for utility and fixed equipment contracts for the new Women's Residence Hall were opened February 7. A complete schedule of bids is submitted herewith. The total of lowest bids is \$692,671, but funds are not now available for this amount. It is therefore proposed that contracts be made with lowest bidders for such work as can be completed within present appropriations and by September 30, 1947, with the understanding that when and if additional funds become available prior to August 1, 1947, the contracts will be extended to the full amounts of the bids. If additional funds are not received the contracts will be terminated and the actual amounts of work finished will be paid for as certified by the architects.

Following is a summary of the lowest bids and contracts recommended:

<i>Contractor</i>	<i>Contract</i>	<i>Total Bid</i>	<i>Recommended Initial Contract</i>
Frank S. Bellis.....	Plumbing	\$223 457	\$75 000
Gallaher & Speck, Inc.....	Heating	134 000	45 000
Bloomer Heating and Ventilating Co.....	Ventilating	34 350	12 000
Ernest Freeman & Co.....	Electrical wiring	108 000	36 000
Duparquet, Inc.....	Kitchen equipment	157 033 ¹	52 000
Westinghouse Electric Elevator Co..	Elevator	35 831 ²	12 000
<i>Totals</i>		<u>\$692 671</u>	<u>\$232 000</u>

These bids decrease the estimated cost of the building from \$3,600,000, as reported to the Board on December 28, 1946 (Minutes, page 195), to \$3,500,000. An additional State appropriation of \$2,200,000 is required, for which a bill is ready for introduction in the General Assembly.

These recommendations are submitted by the University Architect with the concurrence of the consulting architects, Shaw, Naess, and Murphy, and the Comptroller. I recommend approval and authorization to the Comptroller and the Secretary of the Board to execute the necessary contracts.

On motion of Dr. Meyer, these contracts were authorized as recommended.

ADDITION TO CONTRACT FOR SEWER AND WATER SERVICE CONNECTIONS TO TEMPORARY STUDENT HOUSING PROJECT 11306

(23) The Director of the Physical Plant reports that an addition of \$2,053.88 to the contract with Cutler and Price Plumbing and Heating Company for sewer and water service connections to the temporary student housing in the area north and west of the Stadium is necessary because of construction conditions found at the site. Following is a list of the items covered by this increase:

1. Furnishing and installing two six-inch water valves so that Projects 11277 and 11287 can be operated prior to the installation of water mains on Project 11306.

2. Revising the elevation of the main sewer line in order to give coverage at the highest point.

3. Relocating the water main at Fourth Street and Peabody Drive in order not to interfere with the installation of the steam tunnel for which a contract was recently awarded.

4. All water to the temporary housing on the west side of the campus is now fed from connections at Oak Street. This supply is inadequate to supply the housing on the drill field and southwest of the Stadium. Accordingly, a new service is to be provided extending across the south end of the drill field to connect to the main University water supply at Fourth Street.

5. FPFA revised the design of the dormitory buildings on the drill field in order to save their cost, reducing the toilet rooms from two to one a building, enlarging the one remaining. This causes changes in the service connections covered by this last item of the change order.

The original contract with this firm is on a cost basis with a guaranteed maximum. This change order will increase the amount of the guaranteed maximum. Payments, however, will be based on actual cost. Sufficient funds are available to take care of this increase.

The Comptroller recommends approval of this proposed increase, and I concur.

On motion of Dr. Meyer, this increase was approved as recommended.

¹ Duparquet, Inc. submitted two bids on kitchen equipment, a firm bid of \$175,825 and a base bid of \$157,033, plus escalation limited to 12 per cent. The maximum escalation would result in a total cost of \$175,877. It is, therefore, recommended that the bid with escalation clause be accepted as the maximum cost would be only \$52 over the firm bid and the escalation is not likely to run as high as 12 per cent.

² Escalation clause provides for a decrease as well as an increase, the maximum possible obligation being \$42,997.20.

**SPECIAL APPROPRIATIONS FOR NONRECURRING EXPENDITURES
(SUPPLEMENTARY)**

(24) The Committee on Special Appropriations and Nonrecurring Expenditures recommends assignments from the General Reserve Fund for the following purposes:

Microscopic equipment for the Chicago Professional Colleges...	\$ 3 829
Library stacks for the Medical Library at the Chicago Professional Colleges.....	11 000
Books, other publications, and binding for the University Library	35 000
Calculating machines for instruction and research in statistics..	6 000
<i>Total</i>	<u>\$55 829</u>

On motion of Mr. Davis, these appropriations were made as recommended, by the following vote: Aye, Mr. Davis, Mrs. Grigsby, Mr. Livingston, Dr. Luken, Mr. McKelvey, Dr. Meyer; no, none; absent, Mr. Fornof, Mr. Green, Mr. McLaughlin, Mr. Nickell, Mr. Williamson.

**APPROPRIATION FOR ERECTION OF TEMPORARY WAREHOUSE
THROUGH FEDERAL WORKS AGENCY**

(25) In accordance with action of the Board on September 24, 1946 (Minutes, page 47), authorizing the Comptroller to apply for needed additional facilities which might be available through Federal Works Agency, application was made for a temporary warehouse in order to help relieve the critical storage problem of the University and release for other use space in University buildings now used for storage. This request was approved and a temporary building providing space for about 13,000 square feet will be moved to the campus and erected by the Agency. It will be located in the Physical Plant service yard east of Goodwin Avenue, Urbana. The University must meet the expense of clearing the site, grading, drives or walks, heating, and lighting. Heating will be extended only to a portion of the building where material to be stored requires protection from extreme cold.

The preliminary estimate of the Physical Plant Department of the cost of this work, subject to receipt of bids on various items of construction, is \$15,000, which includes a fire alarm system and also necessary engineering and architectural services. The Committee on Special Appropriations and Nonrecurring Expenditures recommends an appropriation of this amount at this time so that necessary work can proceed at once. It is understood that the exact amount required may be less than this figure, or that some supplement to the appropriation may later be found necessary, after the exact bids are secured.

I concur and request an appropriation of \$15,000 from the General Reserve Fund for this purpose.

On motion of Dr. Meyer, this appropriation was made as recommended, by the following vote: Aye, Mr. Davis, Mrs. Grigsby, Mr. Livingston, Dr. Luken, Mr. McKelvey, Dr. Meyer; no, none; absent, Mr. Fornof, Mr. Green, Mr. McLaughlin, Mr. Nickell, Mr. Williamson.

**CONTRACT FOR ELECTRICAL WORK IN ELECTRICAL
ENGINEERING LABORATORY**

(26) Bids were received on February 4 for electrical work in connection with remodeling Room 215 Electrical Engineering Laboratory. (See Minutes, July 30, 1946, page 9, and January 25, 1947, page 221, for appropriation and previous bids.) Bids were received under three plans: (1) on the basis of a guaranteed maximum cost plus fee in addition; (2) cost plus fixed fee, with cost estimated only; (3) on a firm lump sum bid basis. The following bids were received:

	<i>Guaranteed Maximum</i>	<i>Plus Fee</i>	<i>Estimated Cost</i>	<i>Plus Fee</i>	<i>Lump Sum Bid</i>
Bean Electric Co.					\$13 525
Anderson Electric Co....	\$19 600	\$5 000 00	\$15 000	\$5 000	24 600
Band Electric Co.....	14 990	4 996 66	14 133	4 711	19 850

The Physical Plant Department recommends that a contract be awarded to the Bean Electric Company, the lowest bidder for the electrical work, on the basis of their lump sum bid of \$13,525. Funds are available in the present appropriation to cover this expenditure.

I concur and request authority to the Comptroller and the Secretary of the Board to execute this contract.

On motion of Mr. McKelvey, this contract was authorized as recommended.

BEQUEST OF MRS. LILLIAN M. LARSON

(27) The will of the late Mrs. Lillian M. Larson, widow of Professor Laurence M. Larson, former Head of the Department of History, includes the following bequest to the University:

"To the Trustees of the University of Illinois, in trust, the sum of Five Thousand Dollars (\$5,000.00) for the following uses and purposes, to-wit: The principal of said fund shall be kept intact and invested and the income from said fund used to provide a scholarship or scholarships for graduate students attending the University of Illinois and pursuing courses in medieval or English history and majoring in history. It is my hope that such students, with this aid, may carry on in a general way the work pursued by my late husband, Laurence M. Larson, and I establish this trust fund as a memorial for him to be designated as the Laurence M. Larson Scholarship Fund.

" . . . The above gift or trust fund is to have priority and be paid over and above other gifts herein. . . ."

Professor Larson was a distinguished member of the faculty of the University of Illinois. He came to the University in 1907 and served continuously until his retirement in 1937. From 1926 to 1937 he served as Head of the Department of History. He died in 1938. In reporting this bequest, I should like to express for the students, faculty, and, I am sure, the Board of Trustees, our appreciation of this generous gift.

On motion of Mrs. Grigsby, this bequest was accepted and dedicated to the purposes indicated by the donor.

APPRECIATION OF SERVICES OF MRS. GRIGSBY

At this point, Mr. Davis presented the following resolution and moved its adoption.

Whereas, Mrs. Helen M. Grigsby is now completing her third term of service as a Trustee of the University of Illinois; and

Whereas, that service has been marked by a public-spirited and intelligent interest in all the affairs of the University, and particularly in those matters affecting the welfare of the students; and

Whereas, the Board of Trustees considers that Mrs. Grigsby's service has been a substantial contribution to education in Illinois; therefore

Be it resolved, that the Board of Trustees hereby makes record of its appreciation of the able and gracious services of Mrs. Grigsby, and of its regret at their termination.

This resolution was adopted by unanimous standing vote.

Mrs. Grigsby expressed her appreciation, and spoke on the changes that have occurred in the University since she became a Trustee in 1921.

TUITION FEES

President Livingston stated that it had been suggested in the General Assembly that the Board give consideration to an increase in tuition fees.

President Stoddard reported that on his request the Secretary of the Board had prepared a report on the history of fees in the University, and the Provost had prepared a statement on the policies involved.

The Provost presented a summary of these reports and commented on them.

On motion of Mr. Davis, the President of the University was requested to study this matter and report at the next meeting of the Board.

EXPANSION OF FOOD SERVICE REQUESTED

The Secretary reported that he had received since the January meeting the following communication from Mrs. Frances Snell, a graduate student, together with a petition signed by approximately 1500 students.

*Board of Trustees
University of Illinois
Urbana, Illinois*

January 20, 1947
601 West Oregon
Urbana, Illinois

DEAR SIRs:

I am submitting to you a number of petitions signed by the students of the University of Illinois. These petitions arose because of the lack of sufficient eating facilities. The announcement of the purchase of a new mess hall has been received with enthusiasm.

An expansion of eating facilities to include service on Sunday with University facilities is a need felt by the students. The solution to this part of the problem is the one which we are now looking forward to.

Respectfully,
Mrs. FRANCES SNELL
American Youth for Democracy

PETITION

To the Board of Trustees of the University of Illinois

We, the undersigned faculty and students of the University of Illinois, ask for an immediate investigation of the eating facilities offered by the Student Union Building and the University. We further ask that the Board of Trustees publish a statement setting forth the means by which facilities will be expanded and a definite schedule of when such expansions may be expected by the student body.

On motion of Dr. Meyer, this matter was referred to the President of the University for consideration and report.

DATE OF ANNUAL MEETING CHANGED

On motion of Mr. McKelvey, the following resolution was adopted.

Whereas, the by-laws of the Board of Trustees of the University of Illinois provide in Section I thereof that

"The Board of Trustees shall hold an annual meeting on the second Tuesday of March unless the date of such meeting be changed by the Board"; and

Whereas, the Board has found that the annual meeting can not be held this year on the date specified without inconvenience to several members of the Board,

Therefore, be it resolved, that the date of the annual meeting of the Board of Trustees for the year 1947 be and the same is hereby fixed for the 27th day of March, 1947.

PARTIAL SETTLEMENT OF BEQUEST OF EDWARD C. EARL

Mr. Davis, for the Finance Committee, reported as follows.

Pursuant to authorization of the Board on May 26, 1945 (Minutes, page 485), Comptroller Morey has been serving as executor of the estate of Edward C. Earl. The entire estate was bequeathed to the University of Illinois for an endowment fund for prizes for architectural students.

Final settlement of the estate is not yet possible. The executor desires to make a partial distribution and requests the Board of Trustees to accept the transfer of the following assets of the estate, subject to final approval of his account as executor by the court having jurisdiction:

100 shares Northern Pacific Railroad Company common stock. Market value approximately \$2,100. Present dividend \$1.00 a share.

100 shares New York Central Railroad Company common stock. Approximate value \$2,000.
 100 shares Great Northern Railroad Company preferred stock. Estimated value \$4,800. Dividend \$3.00 a share.
 300 shares Pennsylvania Railroad common stock. Estimated value \$7,500. Dividend \$1.50 a share.
 \$200 par Pennsylvania Railroad 3½% bonds, due April 1, 1952.
 \$6,000 cash.

On motion of Mr. Davis, the Treasurer was authorized to accept this partial settlement, the securities to be sold and the proceeds to be reinvested as the Finance Committee and the Investment Counsel may recommend, and the following resolution was adopted:

RESOLUTION REGARDING DISPOSITION OF STOCKS AND BONDS RECEIVED IN
 PARTIAL DISTRIBUTION OF ESTATE OF EDWARD C. EARL

Whereas, the Board of Trustees of the University of Illinois has received from the Estate of Edward C. Earl and is the owner of the following securities:
 100 shares Northern Pacific R.R. Co. common
 100 shares New York Central R.R. Co. common
 100 shares Great Northern R.R. Co. preferred
 300 shares Pennsylvania R.R. Co. common
 \$200 par Pennsylvania R.R. 3½% bonds of 4-1-52

Whereas, the Board of Trustees approved the sale of the above indicated securities in its regularly called meeting on February 27, 1947,

Now, therefore, be it resolved by the Board of Trustees of the University of Illinois that Lloyd Morey, Comptroller, and H. E. Cunningham, Secretary, be and they are hereby authorized to execute any and all documents necessary to complete such sale.

The Legal Counsel recommended that the following resolution be adopted:

Whereas, Edward C. Earl, Deceased, by his Will devised certain land to the Board of Trustees of the University of Illinois, a Public Corporation, in the following form:

Absolutely and in fee simple, all of the Estate of which I may die seized or possessed," and

Whereas, the Board of Trustees of the University of Illinois has been advised by its attorney, Mr. Arthur L. Barton of New York that the land referred to in this devise is located in Prince George's County, Maryland, and is described as follows:

Patterson and Ruth W. Patterson, his wife, to Edward C. Earl, dated September 14, 1928 and recorded in Liber 324, Folio 174 of said land records," and

Whereas, on the advice of Mr. Arthur L. Barton and real estate appraisers selected by him, a Contract to convey said land on October 8, 1946 was entered into by Mr. Lloyd Morey, Executor under the Will of Edward C. Earl, Deceased, to Joseph E. Bouguignon and Pearl Bouguignon, his wife, for a consideration of Five Thousand Nine Hundred Fifty and 00/100 Dollars (\$5,950.00),

Be it therefore resolved, that Lloyd Morey and H. E. with said Contract, to deliver the same to Mr. Arthur L. Barton with authority to deliver said Deed to the Grantees named therein upon their full compliance with the terms of the Contract and Deed.

MEETING OF THE BOARD OF TRUSTEES
OF THE
UNIVERSITY OF ILLINOIS

March 27, 1947

The annual meeting of the Board of Trustees of the University of Illinois was held at the Blackstone Hotel, in Chicago, on Thursday, March 27, 1947, according to the following schedule:

10 a.m. — Executive session, as in Committee of the Whole.

12:30 p.m. — Open session.

The following members were present: President Livingston, General Davis, Mr. Fornof, Mrs. Holt (present for the first time as a member of the Board), Mr. McKelvey, Mr. McLaughlin, Mr. Nickell, Mr. Williamson.

President Stoddard was present; also Dr. A. C. Ivy, Vice-President in charge of the Chicago Professional Colleges, Professor C. R. Griffith, Provost, Mr. A. J. Janata, Assistant to the President, Mr. H. E. Cunningham, Secretary, Mr. I. L. Porter, Treasurer, Professor Lloyd Morey, Comptroller, Professor W. E. Britton, Legal Counsel, and, during part of the day, Mr. J. F. Wright, Director of Public Information.

MATTERS PRESENTED BY PRESIDENT STODDARD

The Board considered the following matters presented by the President of the University.

APPOINTMENT OF WILLARD B. SPALDING AS PROFESSOR OF EDUCATION AND DEAN OF THE COLLEGE OF EDUCATION

(1) I recommend the appointment of Dr. Willard B. Spalding, now Superintendent of Schools of Portland, Oregon, as Dean of the College of Education and Professor of Education effective June 1, 1947, at an annual salary of \$11,000. The appointment as Professor will be on indefinite tenure. The appointment as Dean will be set up in the budget for 1947-1948 on a two-year tenure in accordance with the statutory provision for the appointment of deans biennially.

The College of Education faculty is unanimous in its support of Doctor Spalding.

On motion of Mr. Nickell, this appointment was made as recommended.

TUITION FEES

(2) The Senate of the 65th General Assembly of Illinois in Senate Resolution No. 15 requested the Board of Trustees "to review carefully the rates of tuition to be charged students at said University, and to consider making such increases therein as will cause a reasonable and equitable portion of the increased cost of operation per student to be shared by the students and to report such action as may be taken pursuant hereto at the earliest possible opportunity."

The Board considered this resolution at its meeting on February 27, 1947. The Provost, who is Chairman of the Committee on Fees and Scholarships, presented a report prepared by the Secretary of the Board of fees in the University and of a study of the fee structure which had been made by the Committee.

The President of the University was requested to study this matter further and report at the next meeting of the Board.

In view of all factors involved, the President recommends that no action on tuition fees be taken at this time.

On motion of Mr. Williamson, the President of the University was requested to inform the Senate that this matter has been considered and that the Board does not deem it advisable to increase the tuition fees at this time. The President was requested to include in his reply full supporting data.

In accordance with this action, the President of the University sent the following letter to the President of the Senate under date of March 31, 1947.

*Honorable Hugh W. Cross
President of the Senate
65th General Assembly
Springfield, Illinois*

March 31, 1947

DEAR MR. PRESIDENT:

The Board of Trustees of the University of Illinois has considered at two separate meetings Senate Resolution No. 15 by Senator Wallace Thompson requesting the Board "to review carefully the rates of tuition to be charged students at said University, and to consider making such increases therein as will cause a reasonable and equitable portion of the increased cost of operation per student to be shared by the students and to report such action as may be taken pursuant hereto at the earliest possible opportunity." The Board has directed me to report the result of its deliberations to the Senate.

On March 27, 1947, the Board of Trustees voted that, in view of all factors involved, no action changing tuition fees charged at the University of Illinois be taken at this time. The Board based its conclusion on the following considerations:

1. The fees charged in the undergraduate colleges at the University of Illinois are about the average of fees charged by other state universities.

2. Nearly two-thirds of the students enrolled at the University of Illinois are veterans. The Government pays the University a part of the cost of instruction of these veterans. The annual reimbursement per veteran is more than the tuition fees he would pay. Consequently, an increase in tuition fees would not produce additional income from that source.

3. All students who are residents of Illinois and are veterans, who served in the armed forces during World War II and have been honorably discharged, are entitled by State law to receive military scholarships exempting them from paying tuition fees. They may elect to use these scholarships and defer accepting Federal aid. Over 600 students are now attending the University on military scholarships.

4. There are approximately 900 other students enrolled in the University of Illinois this year who are holders of General Assembly and County scholarships also established by law. There are 150 students attending the University of Illinois on scholarships established by the Board of Trustees.

5. Altogether there are 1,650 undergraduate students attending the University on scholarships this year, and 13,750 veterans receiving Federal benefits, making a total of 15,400 students who do not pay tuition fees. This represents approximately two-thirds of the total enrollment.

6. All non-resident students pay a tuition fee double that charged residents of the State. The State of Illinois "exports" twice as many students to state-supported universities elsewhere as it "imports" from other states. Stated otherwise, for every non-resident student at the University of Illinois there are two residents of Illinois attending state universities and colleges in other states.

7. It is clear that the burden of any increase would be carried by a minority of the students.

8. For students from families in modest circumstances, higher expenses would be a genuine hardship, and not conducive to the equalization of educational opportunity over the State.

The Board of Trustees respectfully requests that this communication be presented to the Senate and made a part of its record.

Sincerely yours,

GEORGE D. STODDARD
President

RETURN OF SCHOLARSHIP FUNDS TO REPRESENTATIVES OF DONORS

(3) The University has received funds for student aid in the College of Medicine as follows:

1. The Theodore Shnitzer Memorial Scholarship in memory of a former student in the College of Medicine. This is a scholarship of \$100 a year to be assigned to upperclass students in the College of Medicine of the Jewish faith. There is now a balance of \$400 in the fund. (Reported to the Board March 10, 1936, page 567.)

2. The Isador Janowitz Memorial Scholarship. This is a scholarship for fourth-year students of the Jewish faith in the College of Medicine. There is a balance of \$200 in this fund.

In my judgment it is contrary to sound public policy for the University to accept and administer funds for any purpose under conditions which require sectarian or religious tests.

I have therefore directed the authorities of the College of Medicine to discontinue awarding these scholarships and to return to the donors or their representatives the balances in these funds. Officials of the College of Medicine are authorized to assist any persons or agencies who may take over the administration of these scholarships by supplying information about scholastic records of candidates, but the University will not officially participate in the selection or the award.

On motion of Mr. Williamson, this action was approved and confirmed.

HONORARY DEGREES

(4) The University Senate Committee on Honorary Degrees has nominated to the Board of Trustees candidates for honorary degrees to be conferred at the installation of the President of the University on May 16, 1947.

It is not intended to confer these degrees unless the recipients are present at the installation, nor to announce the names in advance. The list is given to the Secretary of the Board for record.

On motion of Mr. Davis, honorary degrees were authorized as recommended.

RETIREMENT OF DIRECTOR OF UNIVERSITY PRESS

(5) The Retirement Act provides that persons shall retire on September 1 following their 68th birthday unless they request continuation and that request is approved by the employing institution.

Mr. H. E. Cunningham was continued for two successive years. He occupies a dual position: (1) Secretary of the Board, for which he is elected in March for a term of one year, and (2) Director of the University Press, to which he is appointed for one year as of September 1.

Only in rare instances has the service of persons been continued past the legal retirement age and then only for short periods. Practically all such requests have been denied, since any other procedure would tend to break down the whole retirement plan. With respect to Mr. Cunningham, I am allowing his retirement as Director of the University Press to take effect as of September 1, 1947.

I know that Mr. Cunningham would be pleased to continue as Secretary of the Board on a part-time basis. He would be entitled to receive any amount less than his retiring allowance without interfering with his pension. Such action is, of course, a matter for the Board of Trustees; it would not in any way embarrass us as we proceed to find a successor in the University Press.

On motion of Mr. Nickell, this arrangement was approved and authorized.

On motion of Mr. McLaughlin, the President of the Board and the President of the University were requested to prepare an expression of the Board's appreciation of the services of Mr. Cunningham as Director of the University Press during the past twenty-nine years, to be inserted in the minutes.

President Stoddard, on April 9, 1947, instructed the Secretary to incorporate the following expression in the minutes:

In re-electing Harrison E. Cunningham as Secretary of the Board of Trustees of the University of Illinois for another year, the Board takes note of the fact that Mr. Cunningham has been serving as its Secretary continuously since 1914, and as Director of the University Press since 1918. In both of these positions he has rendered faithful and meritorious service.

Members of the Board of Trustees desire to express and record their appreciation of Mr. Cunningham's services and of his personal courtesies to each member, and to wish for him and Mrs. Cunningham many years of happiness and good health.

PRIORITY OF ADMISSIONS FOR 1947-1948

(6) The Committee to Study the Student Registration System submits herewith certain recommendations to govern the priority of admission of new students for the first semester of 1947-1948 at Urbana.

The Provost presented this matter.

After discussion, action on these recommendations was deferred, pending the receipt of President Stoddard's report and recommendations on an educational system for the State of Illinois.

OPEN SESSION

When the Board convened in open session, on the afternoon of March 27, 1947, the same members and officers of the University were present as during the morning session.

MINUTES APPROVED

The Secretary presented the minutes of the meeting of February 27, 1947.

On motion of Mr. Nickell, the minutes were approved as printed on pages 253 to 300 above.

MR. PARK LIVINGSTON ELECTED PRESIDENT OF THE BOARD

On motion of Mr. McKelvey, Mr. McLaughlin was made chairman of the meeting for the election of a president.

Mr. Fornof nominated Mr. Park Livingston, of Chicago, for the office of President of the Board for the ensuing year.

On motion of Mr. Davis, the nominations were closed, and the Secretary was instructed to cast the unanimous vote of the meeting for Mr. Livingston as President. The ballot was cast, and Mr. Livingston was declared elected President of the Board.

Mr. Livingston took the chair and expressed his appreciation of the honor.

MR. HARRISON E. CUNNINGHAM ELECTED SECRETARY

On nomination of Mr. McKelvey and on motion of Mr. Davis, Mr. Harrison E. Cunningham, of Urbana, was elected Secretary of the Board for one year.

PROFESSOR LLOYD MOREY ELECTED COMPTROLLER

On nomination of Mr. Williamson and on motion of Dr. Meyer, Professor Lloyd Morey, of Urbana, was elected Comptroller for one year.

EXECUTIVE COMMITTEE ELECTED

Mr. Fornof nominated Mr. Chester R. Davis, and Mr. Davis nominated Dr. Karl A. Meyer, to serve, with the President of the Board as Chairman, as members of the Executive Committee for the ensuing year.

On motion of Mr. Nickell, the nominations were closed, and the Secretary was instructed to cast the unanimous vote of the meeting for Mr. Davis and Dr. Meyer as members of the Executive Committee. The ballot was cast, and Mr. Davis and Dr. Meyer were declared elected.

MR. IRVIN L. PORTER ELECTED TREASURER

On motion of Mr. Davis, Mr. Irvin L. Porter, of Chicago, was elected Treasurer for two years, under the same conditions of bond as at present.

TREASURER'S BOND

On motion of Mr. Nickell, the amount of the Treasurer's bond was fixed at \$3,000,000, and the Finance Committee was instructed to see that the Treasurer secure a satisfactory bond, and to report it to the Board for record.

AUTHORITY TO RECEIVE MONEY

On motion of Mr. Williamson, the following resolution was adopted:

Resolved, that the Treasurer of the Board of Trustees of the University of Illinois be, and he hereby is, authorized to receive and receipt for all moneys, and to endorse all orders, drafts, and checks due and payable to the Board of Trustees or to the University of Illinois, and especially all drafts drawn by the Treasurer of the United States payable to the Board of Trustees or the University of Illinois.

DELEGATION OF SIGNATURES

On motion of Mr. McKelvey, the following resolution was adopted:

Resolved, that the President and the Secretary of the Board of Trustees of the University of Illinois are authorized to delegate the signing of their names as President and Secretary, respectively, to vouchers to be presented to the State Auditor, and to warrants drawn on the Treasurer of the University, under the following conditions.

The President of the Board of Trustees is authorized to delegate to C. H. Pratt, to L. M. Dahlenburg, and to W. D. Green in Urbana, and to H. A. Hazleton, to J. F. Knight, and to H. J. Kasik in Chicago, authority to sign his name as President of the Board of Trustees to vouchers against the State Auditor; and to C. C. DeLong, to H. F. Thornes, and to R. W. Zimmer in Urbana, and to H. A. Hazleton, to J. F. Knight, and to H. J. Kasik, in Chicago, authority to sign his name to warrants on the University Treasurer covering vouchers approved in accordance with regulations approved by the Board.

The Secretary of the Board of Trustees is authorized to delegate to Anna L. Neuber, to Maude Archdeacon, and to Helen L. Smith, all in Urbana, and to G. R. Moon, to Ethel Engeljohn, to Helen Wyle, and to Velma M. Davis, in Chicago, authority to sign his name as Secretary of the Board of Trustees to vouchers against the State Auditor and to warrants on the University Treasurer, covering vouchers approved in accordance with regulations of the Board. And be it further

Resolved, that the First National Bank of Chicago as a designated depository of Irvin L. Porter, Treasurer of this Corporation, be and it (including its correspondent banks) is hereby requested, authorized, and directed to honor checks, drafts, or other orders for the payment of money drawn in this corporation's name, including those drawn to the individual order of any person or persons whose name or names appear thereon as signer or signers thereof, when bearing or purporting to bear the facsimile signatures of the two following: Park Livingston, President, and H. E. Cunningham, Secretary; and the First National Bank of Chicago (including its correspondent banks) shall be entitled to honor and to charge this corporation for all such checks, drafts, or other orders, regardless of by whom or by what means the facsimile signature or signatures thereon may have been affixed thereto, if such facsimile signature or signatures resemble the facsimile specimens duly certified to or filed with the First National Bank of Chicago by the Secretary or other officer of this corporation. And be it further

The following candidates hold unrevoked C.P.A. certificates issued by other states or territories of the United States and are recommended for the certificate under Section 5 of the Accountancy Act of 1943:

WILLIAM ANDREW CADDICK (Ind.)
 BENJAMIN FRANKLIN JACKSON (N.Y.)

HENRY EDWARD NETTLES (La.)
 RAYMOND F. PAULEY (Wis.)

On motion of Mr. Williamson, these certificates were awarded as recommended.

CHANGE IN STATUS OF ROBERT B. BROWNE

(2) I recommend that Dr. Robert B. Browne, Professor of Education, Director of the Summer Session, and Director of University Extension, be appointed Dean of the Summer Session and of University Extension, effective April 1, 1947. These changes in administrative titles are recommended because:

1. The Summer Session is an integral term in the University's educational program and the chief administrative officer's duties are comparable with those of a college dean.

2. The Division of University Extension, established in 1933, extends University educational programs to students away from the campus through correspondence courses, extramural classes, speech aids, visual aids, and to persons in military service through the Armed Forces Institute.

3. The educational programs offered during the Summer Session and through the Division of University Extension are at the college and graduate levels, and these services should have the same administrative status as a college.

4. During the past year we have created deanships at the Navy Pier and at Galesburg—both undergraduate divisions. Doctor Browne has general supervision over about 3,000 University freshmen in twenty-five high schools.

Doctor Browne has been serving as Director of University Extension since this service was organized in 1933 and as Director of the Summer Session since 1938.

On motion of Mr. Nickell, this appointment was made as recommended.

BOARD OF DIRECTORS OF THE ATHLETIC ASSOCIATION

(3) The by-laws of the University of Illinois Athletic Association provide for the appointment of its Board of Directors by the Board of Trustees of the University of Illinois at its annual meeting in March of each year. Nominations are made to the Board of Trustees by the President of the University. There are seven members, three selected from the membership of the Alumni Association and four from the faculty of the University.

I submit the following nominations for reappointments and new appointments to the Board of Directors:

Faculty

LESLIE E. CARD, Professor of Poultry Husbandry

GEORGE B. WEISIGER, Professor of Law

FRANK H. BEACH, Associate Professor of Business Organization and Operation

CHARLES W. SANFORD, Associate Professor of Education and Coordinator of Teacher Education (*new appointment*)

Alumni

LOWELL A. SPURGEON, Class of 1938, Spengler-Loomis Manufacturing Company, Rockford

C. E. LOVEJOY, Class of 1920, Vice-President of Bill Brothers Publishing Corporation, 333 North Michigan Avenue, Chicago

MILTON M. OLANDER, Class of 1922, Director of Industrial Relations, Owens-Illinois Glass Company, Toledo, Ohio (*new appointment*)

Professor Sanford will replace Professor R. B. Browne, Director of University Extension, who has served as a member of the Board of Directors since July, 1941. Professor Sanford has been a member of the University faculty since 1930. From 1932 to 1943 he served as Principal of the University High School and for the past three and one-half years he has been Coordinator of Teacher Education.

Mr. Olander will replace Mr. Waldo B. Ames, who also has been a member of the Board of Directors since July, 1941. Mr. Olander is an alumnus of the University of Illinois, Class of 1922. While an undergraduate student he was on the Varsity Football Squad for four seasons and on the Freshman Track Team. He was also a member of the Coaching staff from September, 1924, until February, 1935, when he resigned to accept a position as Personnel Director for the Owens-Illinois Glass Company at Toledo. He is now Director of Industrial Relations of that company. Mr. Olander served for a short period (March 11 to July 15, 1941) on the Board of Directors of the Athletic Association, and it seems appropriate that he be reappointed at this time for a longer period.

On motion of Mr. Williamson, these directors were appointed as recommended.

SABBATICAL LEAVES OF ABSENCE

(4) The University Statutes provide that on recommendation of the Head of the Department, the Dean of the College, the President of the University, and with the approval of the Board of Trustees, a member of the faculty of professorial rank who has served at least six years since his original appointment or since termination of his last sabbatical leave may be granted a leave of absence for one year on one-half pay for the purpose of study, research, or other pursuit, the object of which enables him to increase his professional proficiency and usefulness to the University.

In lieu of this privilege, leave may be granted for a half-year for the same purpose, on full pay, provided, that the department in which the applicant is teaching or working undertakes to carry on, so far as practicable, during his absence and without increase in the departmental budget, such of his work as the interests of the University require to be continued without interruption.

A leave may also be granted for a half-year on one-half pay at the end of three consecutive years of service, provided that the granting of the leave does not involve expense to the University in excess of the portion of salary released.

A member of the faculty to whom a leave has been granted agrees to return to the University on the expiration of his leave and remain in its service for at least one year thereafter, and the University also agrees to retain him in service for at least one year after his return from leave.

During the war years few leaves were granted. In fact, the Board of Trustees voted to suspend the granting of sabbatical leaves for the duration of the war except in very special cases.

Sixteen applications for sabbatical leaves of absence during the academic year 1947-1948 have been received.

In accordance with long-established practice, the applications were submitted to the University Research Board for its advice to the President. The Research Board reviewed the program of study, research, or travel contemplated in each case, and its value to the University. The Research Board has recommended approval of the following applications for leave:

LEAVES OF ABSENCE FOR ONE-HALF YEAR ON FULL PAY

A. S. COLBY, Professor of Pomology, second semester.
 C. M. KNEIER, Professor of Political Science, second semester.
 J. G. RANDALL, Professor of History, first semester.
 F. W. TANNER, Professor of Bacteriology, second semester.
 OSWALD TIPPO, Assistant Professor of Botany, second semester.
 E. J. WORKING, Professor of Agricultural Economics, second semester.
 FLORIAN ZNANIECKI, Professor of Sociology, second semester.

LEAVES OF ABSENCE FOR THE FULL YEAR ON ONE-HALF PAY

W. G. JOHNSON, Assistant Professor of English.
 RUTH KELSO, Assistant Professor of English.
 B. E. PERRY, Professor of Classics, Acting Head of the Department.
 A. W. SECORD, Professor of English.
 ARLENE WOLFRAM, Home Adviser.
 P. T. YOUNG, Professor of Psychology.

Although some of the temporary replacements will be difficult, I am informed by the Provost that arrangements can be made in each case. With respect to Professor Perry, it is understood that his leave is contingent on the appointment of a Chairman of the Department of Classics by September 1.

With respect to all these leaves, the University will reserve the right of postponement, without prejudice, if in the judgment of the President and the Dean or Director concerned such postponement is necessary for the welfare of the University.

I concur and recommend that sabbatical leaves be granted to the thirteen staff members as indicated above.

On motion of Mr. McLaughlin, these leaves were granted as recommended.

DEPARTMENT OF SPEECH

(5) I recommend that the Board of Trustees authorize the establishment of a new Department of Speech in the College of Liberal Arts and Sciences to which would be transferred the present personnel and instructional programs in speech or public speaking, now a part of the Department of English.

I further recommend that Dr. Karl R. Wallace, now Chairman of the School of Speech and Drama at the University of Virginia, be appointed Professor and Head of the Department of Speech on indefinite tenure beginning August 1, 1947, at an annual salary of \$8,000.

On motion of Mr. Davis, this department was established and the head was appointed as recommended.

ARCHITECTS FOR NURSES RESIDENCE

(6) The Vice-President of the Chicago Professional Colleges and the Director of the Physical Plant Department recommend employment of the firm of Perkins and Will, 309 West Jackson Boulevard, Chicago, for architectural services for the Nurses Residence in Chicago. I concur in this recommendation.

Director Havens reports that Mr. John C. Goodall, an alumnus of the University of Illinois, Class of 1925, is a member of this firm.

On motion of Mr. Williamson, the employment of this firm was authorized as recommended.

CONSULTATIVE COMMITTEE ON ARCHITECTURE

(7) On October 22, 1946, the Board of Trustees of the University of Illinois authorized the President of the University to appoint a Consultative Committee on Architecture to advise him and other University officials on the construction of new buildings and campus development in general, in view of the extraordinary plans for the expansion of the University's physical plant. The following have been appointed:

HOWARD L. CHENEY, Class of 1912, Architect, 208 South LaSalle Street, Chicago, Illinois.

CHANCE S. HILL, Class of 1914, Landscape Architect, Oak Park, Illinois.

GEORGE L. HORNER, Class of 1928, Superintendent, Division of Planning and Construction, University of Iowa, Iowa City, Iowa.

ELIEL SAARINEN and J. ROBERT F. SWANSON, of Saarinen, Swanson, and Saarinen, Architects, Bloomfield Hills, Michigan. (Mr. Swanson, a partner of Mr. Saarinen, will represent him when the latter can not attend meetings.)

The first meeting of the Committee was held in Chicago on November 30 with Dr. A. C. Ivy, Vice-President in charge of the Chicago Professional Colleges, and other University officials to consider and advise on plans for the development of new buildings for those Colleges. Subsequent meetings of the Committee have been held on February 1 at Urbana-Champaign and on February 28 in Chicago. The University is fortunate in having the services of these men whose counsel is very valuable in making important planning decisions.

This report was received for record.

APPROPRIATION FOR CONSULTANT'S FEES

(8) The Board of Trustees has previously authorized the appointments of such advisory groups as the Advisory Board on Aeronautics, and the Consultative Committee on Architecture, and the payment of consulting fees and traveling expenses.

It is desirable for the President to employ from time to time the services of professional consultants in other fields on a per diem basis. No appropriation has been made by the Board for such purposes. I should like to ask the Board to set up an appropriation of \$2,500 a year for such expenses. It may be added to the President's incidental and emergency fund. For the balance of the current fiscal year an appropriation of \$1,500 will be sufficient.

On motion of Mr. Williamson, this appropriation was made as recommended, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Holt, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Mr. Nickell, Mr. Williamson; no, none; absent, Mr. Green, Dr. Luken, Dr. Meyer.

APPROPRIATION FOR PRINTING AND PUBLISHING

(9) There is regularly included in the University's operating budget an appropriation for General Printing and Publishing to cover cost and distribution of administrative publications. The appropriation at present is \$2,500. This is inadequate. In previous years it has been as much as \$5,000.

I request that a supplementary appropriation of \$5,000 be made for this purpose for the current fiscal year.

On motion of Mr. Fornof, this appropriation was made as recommended, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Holt, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Mr. Nickell, Mr. Williamson; no, none; absent, Mr. Green, Dr. Luken, Dr. Meyer.

APPROPRIATION FOR PUBLICATION OF UNIVERSITY HISTORY

(10) The Director of the University Press requests an appropriation of \$12,000 for the publication of 3,000 copies of the History of the University of Illinois, written by Mr. Carl Stephens, University Historian, assisted by Mr. Charles W. Paape.

It is estimated that the book will contain 600 pages of text. It will be liberally illustrated. This project was authorized by the Board of Trustees on January 24, 1942 (Minutes, page 759).

On motion of Mr. McLaughlin, this appropriation was made as recommended, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Holt, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Mr. Nickell, Mr. Williamson; no, none; absent, Mr. Green, Dr. Luken, Dr. Meyer.

PURCHASE OF PRINTING EQUIPMENT

(11) On November 18, 1941 (Minutes, page 704), Mr. John R. Fornof, as a special committee of one assigned to make an inspection of the University Press, made a report to the Board in which he recommended the ultimate consolidation of the mechanical equipment and production facilities of the University of Illinois Press and the Illini Publishing Company and making these facilities available to the School of Journalism for instructional purposes. As one step in this direction, I have authorized a plan to establish a closer relationship between the Illini Publishing Company and the School of Journalism and the use of the facilities jointly. This will require moving the equipment of the Company from its present location on the ground floor of Illini Hall (the old Illinois Union Building) to Gregory Hall and the employment of an editorial supervisor jointly by the School of Journalism and the Company.

It will be necessary for the Illini Publishing Company to replace its present newspaper press which was built in 1902 and purchased by it in 1920. It is neither feasible nor economical to move this press to Gregory Hall. Three possible types of replacement are considered: (1) a new flat-bed press of the type used now, (2) a used rotary press, and (3) a new modern unitubular rotary press. The most desirable would be a new unitubular press which could be used for experimental work, especially color printing, in the program of the School of Journalism; also for printing the Illinois Alumni News and other types of presswork now done by the University Press. It is, therefore, proposed that the University share with the Illini Publishing Company the cost of a new unitubular press to be used jointly by the School of Journalism, the University Press, and the Illini Publishing Company. It is estimated that the cost of the press and installation will be \$50,000.

I recommend that the Board authorize the purchase of such a press and that an appropriation of \$25,000 be made to the School of Journalism for the University's share, subject to release by the President of the University.

On motion of Mr. McKelvey, this purchase was authorized and the appropriation was made as recommended, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Holt, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Mr. Nickell, Mr. Williamson; no, none; absent, Mr. Green, Dr. Luken, Dr. Meyer.

ADDITIONAL APPROPRIATION FOR REMODELING ELECTRICAL ENGINEERING LABORATORY

(12) On July 30, 1946, a special appropriation of \$50,000 was made for remodeling the Electrical Engineering Laboratory in order to provide facilities for the vacuum tube research being carried on under government contracts.

The appropriation was based on the best estimate that could be made at that time. Subsequently, detailed plans and specifications were drawn indicating that the total cost will be approximately \$130,000. This is due in part to increased cost of construction and in part to a more exact statement of requirements for the research program, which were tentative in character at the time the original appropriation was made.

Between \$20,000 and \$25,000 will accrue to the University from these contracts to cover Physical Plant administrative costs over and above direct departmental expenditures for research. While the proposed facilities are necessary for this research program, they will be valuable to the department on a long-time basis.

Bids for the general work and electrical work already have been received and approved (Minutes, January 25, 1947, page 221, and February 27, 1947, page 271). Bids were received on March 11, 1947, for heating and miscellaneous piping, plumbing, and vacuum cleaning and air conditioning.

The lowest bidder on all work was the Carson-Payson Company for the following sums:

Heating and miscellaneous piping.....	\$16 094
(Estimated cost including fixed fee of \$2,683)	
Plumbing and vacuum cleaning.....	7 670
(Estimated cost including fixed fee of \$1,770)	
Air conditioning	44 125
(Estimated cost plus fixed fee of \$5,755)	

The Director of the Physical Plant Department and the Comptroller recommend approval of these contracts.

I concur and recommend an additional special appropriation of \$80,000 from the General Reserve Fund to complete the work.

On motion of Mr. Williamson, these contracts were approved and the appropriation was made as recommended, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Holt, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Mr. Nickell, Mr. Williamson; no, none; absent, Mr. Green, Dr. Luken, Dr. Meyer.

SPECIAL APPROPRIATIONS FOR NONRECURRING EXPENDITURES

(13) The Committee on Special Appropriations and Nonrecurring Expenditures recommends assignments from the General Reserve Fund for the following purposes:

Equipment in Mining and Metallurgical Engineering.....	\$5 700
Cleaning and overhauling of Recital Hall organ.....	3 600
Publication of bulletins in the College of Education.....	1 000

I concur and request appropriations as recommended.

On motion of Mr. McLaughlin, these appropriations were made as recommended, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Holt, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Mr. Nickell, Mr. Williamson; no, none; absent, Mr. Green, Dr. Luken, Dr. Meyer.

PURCHASE OF LAND FOR STAFF HOUSING

(14) On February 27 the Board approved the acquisition of 25 additional pre-fabricated houses for staff use. The Physical Plant Department recommends as the most satisfactory location for these houses 25 lots on the north and south sides of Hessel Boulevard between South Neil Street and South Elm Boulevard in Champaign. These lots are a short distance from the Stadium Drive subway under the Illinois Central Railroad.

This tract of land is offered by Lewis S. Colbert of the Twin City Real Estate Exchange under the following conditions:

1. Total purchase price, \$34,750, payable \$5,000 at the time of signing the contract and the balance on or before May 1, 1947, subject to a merchantable abstracted title for all the lots.

2. The University to contract with Mr. Colbert for the erection of 25 National Homes on said lots, contingent upon the University's securing an appropriation of \$250,000 now pending in the General Assembly. (It has passed in the House.) Price of said houses, including land, erection ready for use, gas gravity heat connected to each house, and public sidewalk in front of each lot, to be \$8,750 for a three-bedroom house and \$8,250 for a two-bedroom house.

3. This proposal is subject to acceptance on or before March 31, 1947.

Various types of prefabricated houses have been considered and the National Home is found to be the lowest in cost of any available. The total cost of lots and houses, including necessary additional construction work, will be well within the estimated total of \$238,450 reported to the Board on February 27.

In case the appropriation now pending before the General Assembly is not approved, it would be necessary for the University to pay for the land from general funds. There would be no further obligation under the proposed contract.

The Comptroller concurs in the recommendation and requests authority for himself and the Secretary of the Board to execute all necessary contracts.

I concur and request approval.

The Comptroller discussed this matter.

On motion of Mr. Davis, the purchase of this land was authorized and authority given as recommended, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Holt, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Mr. Nickell, Mr. Williamson; no, none; absent, Mr. Green, Dr. Luken, Dr. Meyer.

ALLOTMENT OF FEDERAL FUNDS FOR PLANS FOR NEW BUILDINGS

(15) Pursuant to Board authorization (Minutes, December 28, 1946, page 200), the Comptroller applied to the Federal Works Agency for funds for the preparation of plans and specifications for certain building projects approved by the Board of Trustees and included in the building appropriations requested for the biennium of 1947-1949.

Advice has been received of the following allotment of funds:

Staff apartments, Urbana.....	\$100 400
McKinley Hospital Addition, Urbana.....	16 400
Nurses Home, Chicago.....	56 000
Men's Residence Halls, Chicago.....	65 000

The regulations provide for an initial payment of 50 per cent of each allotment as soon as an acceptance has been signed. Further payments will be made to cover actual expenditures for preparation of plans and specifications. Whenever an appropriation is received for a project, the amount advanced is to be repaid to the Government from that appropriation. If no appropriation is secured and the project is not carried out, no repayment is required.

This report was received for record.

ALTERATIONS IN ILLINI UNION BOOKSTORE

(16) The Physical Plant Department, under whose supervision the Illini Union Bookstore is operated, requests approval of the following alterations in the Illini Union Bookstore:

- (a) Convert present corridor into storage room and office space, and build a fireproof partition in present storage room.
- (b) Extend the Bookstore into area previously occupied by office to provide additional sales space.

The estimated total cost of the work is \$10,000, to be paid from available funds in the Illini Union Bookstore. The Physical Plant Department recommends that the work be done under the standing cost-plus contracts, separately recommended, as follows:

C. A. Petry and Sons, for general work, estimated.....	\$8 982
R. A. Bland Electric Company, for electrical work.....	907

Approval of these changes and of the proposed contracts is requested.

On motion of Mr. Williamson, these recommendations were adopted.

CONTRACT FOR STRUCTURAL STEEL FOR POWER PLANT ADDITIONS

(17) The following bids have been secured on fabrication of steel for the Power Plant Additions. Bids were requested on the basis of price per pound on an estimated tonnage of four classes of steel.

	<i>Gage Structural Steel Co.</i>	<i>Duffin Iron Co.</i>
Structural members.....	10¢ lb.	11¢ lb.
Coal bunkers.....	14¢ lb.	15¢ lb.
Bracing members.....	12¢ lb.	12¢ lb.
Anchor bolts.....	14¢ lb.	14¢ lb.
Escalation.....	Firm price	Firm price
Shipping date:		
Start.....	12/1/47	9/17/47
Complete.....	12/15/47	10/17/47
<i>Total cost of estimated tonnage.....</i>	<i>\$21 140</i>	<i>\$22 840</i>

The Gage Structural Steel Company bid is \$1,700 lower than that of the Duffin Iron Company. However, their delivery date is approximately three months later than that of the Duffin Iron Company. The selection of the Duffin Iron Company, in the opinion of the Physical Plant Department, is necessary if utility service is to be available for the new buildings by September, 1948.

The Director of the Physical Plant Department and the Comptroller recommend that the contract be awarded to the Duffin Iron Company on the price per pound for steel indicated above, at an estimated total cost of \$22,840. Funds are available within the total estimated cost of this project which assumes additional appropriations in the 1947-1949 biennium as requested.

I concur and request approval.

On motion of Mr. McLaughlin, this contract was awarded as recommended.

AGREEMENTS WITH UNITED STATES DEPARTMENT OF COMMERCE COVERING RESEARCH PROJECTS

(18) The Industrial Research and Development Division of the United States Department of Commerce proposes to finance the following projects at the University of Illinois.

1. Investigation of concrete slab floor construction for houses without basements: \$20,000.
2. A study of the industry engineered house for the Producers' Council: \$40,000-\$50,000.
3. A study of size variation and lamination in clay products: \$16,000.

The first two are projects of the Small Homes Council. The third is a project of the Department of Ceramics.

The form of contract for each project drafted by the Department of Commerce contains three provisions which depart from the University's policy and regulations governing research. These variations are shown by the following quotations:

"ARTICLE 5. (c) . . . In the event that the Contractor and licensee are unable to agree on the terms of the license, they shall submit all differences to arbitration according to a mutually acceptable plan or to the rules of the American Arbitration Association, then obtaining.

"(d) The Contractor agrees to return to the Government at quarterly intervals fifty per centum (50%) of all royalty and other profit from any Subject or Related Invention or combination of Subject and Related Inventions until the portion of the contract funds, from the expenditure of which this invention developed, as determined by the Contracting Officer, is paid back to the Government in full.

"(e) The Contractor shall enter into a contract with each individual or organization owning the Related Inventions, so worded as to assure the ability of the Contractor to fulfill its obligations under paragraphs (b), (c), and (d)."

Sub-paragraph (b) reads as follows:

"The Contractor agrees to grant to the Government a non-exclusive, irrevocable, royalty-free license to make, use and sell for governmental purposes, according to law, all Subject and Related Inventions, and patents issued thereunder."

"Related Invention" means each invention improvement and discovery (whether or not patented or patentable), other than a "Subject Invention," which is necessary to or useful in connection with any manufactures and improvements based on the use of the subject matter of this contract or any subcontract for research hereunder.

The faculty Committee on Patents has considered these contracts and recommends that the Board of Trustees authorize their approval with the variations from the University standard form contract, as set forth above.

On motion of Mr. Davis, these contracts were authorized, with variations as recommended.

4-H CLUB CAMPS

(19) On November 23, 1945 (Minutes, page 912), the Board of Trustees was asked to accept a 4-H Club memorial camp for activities sponsored by the University Extension Service in Agriculture and Home Economics. The request

was referred to the President to consider in relation to other camps and for report to the Board.

Mr. Robert Allerton has given the University land for a 4-H Club camp and other 4-H Club activities. In the meantime, a group of farm and home advisers in northern Illinois has organized a nonprofit corporation and accepted a site for a camp near Kankakee. Camp sites in two other areas of the State, the southern and western sections, are being considered.

Problems present themselves as to (a) the program of soliciting funds, (b) an agency for receiving, holding, and disbursing funds, and (c) the plan of ownership, management, and operation of the camps.

It is proposed that a coordination committee be set up consisting of five farm advisers, five home advisers, and three members of the University staff engaged in agricultural extension work, to supervise the solicitation of funds for the acquisition and development of these camps.

It is further proposed that the funds be deposited with the University of Illinois Foundation to be held in trust and disbursed on the order of the aforementioned coordination committee. Donors will be permitted to specify the areas to which their gifts will go. If no designation is made, the committee will allocate the funds among the various camps.

The ownership of the property may take one of two forms: (a) The camp may be turned over to the Board of Trustees to hold and operate in a manner similar to the Allerton 4-H Club memorial camp. (b) Separate corporations may be set up in each area of the State to hold and operate the projects. In either event, the University's Extension Service in Agriculture and Home Economics would supervise programs.

The Board is asked to:

1. Request the University of Illinois Foundation to assume this responsibility of receiving, holding, and disbursing funds for these camp projects.
2. Authorize the acceptance of sites which may be provided for the various camps under conditions generally comparable to those of the Allerton gift.
3. Authorize farm advisers and home advisers and their successors in the respective areas to participate as individuals in nonprofit corporations, to own and operate such camps.

These proposals have been reviewed by the Dean of the College of Agriculture, the Legal Counsel, and the Comptroller, all of whom recommend their adoption.

I concur and request approval.

This matter was referred to the Committee on Agriculture.

BIDS ON MECHANICAL ENGINEERING BUILDING

(20) Bids were received on February 27, 1947, for construction contracts for the new Mechanical Engineering Building.

The Physical Plant Department recommends awards of contracts to the lowest bidders based on the following lump sum bids:

<i>Bidder</i>	<i>Contract</i>	<i>Part A</i>	<i>Total</i>
James McHugh Constr. Co.....	General	\$322 700 00	\$ 744 700 00
The Elevator Company of America..	Elevator	17 376 74	17 376 74
Robert Gordon, Inc.....	Heating	52 069 00	147 300 00
Frank S. Bellis.....	Plumbing	56 892 00	127 735 00
Schroeder's.....	Ventilating	64 430 00	64 430 00
Square Deal Electric Co.....	Electric	44 426 00	156 689 00
<i>Totals</i>		<u>\$557 893 74</u>	<u>\$1 258 230 74</u>

It recommends rejection of the bid of the Cleveland Tramrail Company for mechanical equipment. This bid is on equipment for the shop area if used as a Foundry, and change in use of this area has changed equipment requirements.

It is proposed that contracts be drawn for totals listed under "Part A," to keep contracts and other immediate expenditures within the total present appropriation of \$1,102,000. If construction should be terminated with the completion of these contracts as proposed, the building would not be completed but

additional appropriations will be requested in accordance with the authorization of the Board (Minutes, January 25, 1947, page 227). The additional sums would increase funds for this project to \$1,602,000.

Consideration is being given to changes in the internal arrangement and the exterior design of the building. These changes will not affect the basic structure of the building, and it is believed that their cost can be met within the total estimates.

The architects concur in the above recommendations.

The Governor has been requested to release the balance of the present appropriation for use in this construction; execution of contracts is contingent on such a release.

The Comptroller recommends approval of these proposed awards, and authority for the Secretary of the Board and himself to execute contracts when funds are available.

I concur and request approval.

On motion of Mr. Williamson, these recommendations were adopted.

CONTRACTS FOR MINOR ALTERATIONS

(21) The Physical Plant Department finds itself unable to do minor alterations and remodeling, because of the total of operation and maintenance work and the extra burden of major building projects in the Urbana-Champaign division. Many of the jobs are so small and of such character as to make competitive bidding impractical. The Department has recommended, and the Comptroller concurs, the award of standing contracts until June 30, 1947.

Bids have been solicited for the several types of services rendered on a cost-plus fee basis, the latter based on a fixed percentage of direct cost of labor and material, with a minimum in each case. The lowest bidders are as follows:

General Work—C. A. Petry & Sons and E. N. DeAtley (identical bids).

Ventilating—F. R. Inskip and Company.

Plumbing and Heating—Champaign Plumbing and Heating Company.

Electrical Work—R. A. Bland Electric Company.

Work under these contracts will be initiated on individual order from the Physical Plant Department, approved by the Comptroller, within Board appropriations. The Comptroller requests approval of the plan, the award of these contracts as listed above, and authority for himself and the Secretary of the Board to execute them.

I concur in these recommendations.

On motion of Mr. Nickell, these recommendations were adopted.

REMODELING IN THE MEDICAL AND DENTAL COLLEGE LABORATORIES BUILDING

(25) Following is a schedule of bids for the remodeling and equipping of Rooms 380, 386, and 387 of the Medical and Dental College Laboratories Building in Chicago (quarters for Dr. A. C. Ivy's research work):

<i>Bidder</i>	<i>Fee</i>	<i>Guaranteed Maximum Bid (including fixed fee)</i>
Mutual Contracting Company.....	\$2 300	\$14 387
C. W. Haynes Company.....	2 500	17 799
Kinnare Corporation.....	3 000	17 949
Alexander Hendry Company.....	17 400
Simpson Construction Company.....	3 000	24 250
L. J. Graf Construction Company.....	2 200	19 200

The Physical Plant Department recommends that the contract be awarded to the lowest bidder, the Mutual Contracting Company, at a guaranteed maximum cost of \$14,387, which includes a fixed fee of \$2,300. This cost would be charged to the appropriation of \$25,000 for physiology, authorized by the Board of Trustees on June 27, 1946.

I recommend approval and authorization to the Comptroller and Secretary of the Board to execute the necessary contracts.

On motion of Mr. McLaughlin, these recommendations were adopted and authority was granted as requested.

ENGINEERING SERVICES FOR FIRE ALARM SYSTEM

(26) The Physical Plant Department requests approval of the engagement of Graham, Anderson, Probst, and White of Chicago for mechanical services on a fire alarm telegraph system at the Urbana-Champaign campus. The estimated cost is \$6,100, payable from a special state appropriation for Fire Protection Facilities which has been released for expenditure. This firm has been approved by the Board for services on several other buildings.

I concur and recommend approval.

On motion of Mr. McKelvey, this recommendation was adopted.

SPECIAL APPROPRIATIONS FOR NONRECURRING EXPENDITURES (SUPPLEMENTARY)

(27) The Committee on Special Appropriations and Nonrecurring Expenditures recommends assignments from the General Reserve Fund for the following purposes:

Raising of level of walk on east side of Burrill Avenue
(north of Green Street).....\$8 000
Improvements in Bevier Hall for Child Development Laboratory.. 6 000

I concur.

On motion of Mr. Nickell, these appropriations were made as recommended, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Holt, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Mr. Nickell, Mr. Williamson; no, none; absent, Mr. Green, Dr. Luken, Dr. Meyer.

APPROPRIATION FOR ANNUAL REGISTER

(28) The Director of the University Press requests an appropriation of \$25,250 for printing the Annual Register, or catalog, of the University. This is for an edition of 50,000 copies of the 1946-1947 Register, estimated to cost \$23,000. An appropriation of \$19,000 was made for the 1945-1946 edition which proved insufficient, and an additional \$2,250 is needed to pay for that printing.

I recommend that this appropriation be made.

On motion of Mr. Williamson, this appropriation was made as recommended, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Holt, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Mr. Nickell, Mr. Williamson; no, none; absent, Mr. Green, Dr. Luken, Dr. Meyer.

FOOD SERVICE IN THE ILLINI UNION BUILDING

(29) The Board of Trustees at its meeting on February 27 received a communication which had been delivered to the Secretary of the Board (Minutes, page 273).

The Board referred the petition to the President of the University. The Manager of the Illini Union Building has reported on a study made of all possibilities of expanding the food service in that building. A copy of the full report is submitted herewith for the information of the Board and is given to the Secretary for record. It shows that a great deal has already been done during the past year to expand the food service in that building. For example, it is significant that the number of meals served has increased from approximately 3,000 a day in March of 1946 to over 7,500 a day in March, 1947. All logical possibilities for expansion have been considered. Any further expansion would require taking over areas in the building used by students for other purposes. All students pay the Illini Union Building service charge, but many of them do not eat in the building and their only use of it is for social and other extracurricular activities. It would not be fair to deprive them of the only facilities they use.

This report was received for record, and the Secretary was instructed to send a copy to Mrs. Snell.

REPORTS OF THE FINANCE COMMITTEE

Mr. Williamson presented the following reports of the Finance Committee.

INSURANCE ON NOYES CHEMISTRY LABORATORY

A. For a number of years, in accordance with action of the Board of Trustees, fire and extended coverage insurance has been carried on the Noyes Chemistry Laboratory. The insurance, totaling \$318,000, is distributed among six agencies and companies, and distributed between stock and mutual companies in accordance with Board policy. Policies are for five-year terms, staggered so that a uniform amount expires each year. Additional insurance of \$164,000 is carried on contents.

Since this insurance carries the 80% co-insurance clause, a recent appraisal was secured in order to determine whether the insurance is adequate. This report indicates a current replacement cost, less depreciation, of \$1,112,000. Accordingly, it is necessary to increase the amount of insurance by \$526,000, making a total of \$844,000.

One of the policies expires April 15, 1947. A request for quotations was submitted to all agencies which had requested an opportunity to quote on this insurance. The lowest offer is submitted by Boggs & Cogdal, of Urbana, for Hartford Fire Insurance Company, who now have this policy. On renewal, it is proposed to increase this policy from the present \$59,648 to \$158,250.

To secure the increased insurance necessary to adjust the present replacement costs, it is proposed to increase the policies for the unexpired period as per the following schedule:

Agent	Company	Expiring	Present	Proposed	New Amount	Estimated Cost
Boggs & Cogdal	Hartford Fire	4/15/52 ¹	\$59 648	\$98 602	\$158 250	\$ 975
C. A. Atwood	First National	4/15/49	63 600	None ²	63 600	...
Monier & Morrissey	Phoenix	4/15/52 ¹	None	94 650	94 650	935
Frank Terry	Hardware Dealers	4/15/50	39 753	None ³	39 753	...
United Mutual	United Mutual	4/15/50	35 703	135 544	171 247	800
George Franks	Century	4/15/51	59 648	98 602	158 250	780
C. H. DeLong	Westchester Fire	10/1/51	59 648	98 602	158 250	875
Total			\$318 000	\$526 000	\$844 000	\$4 365

In the future the annual premium for this insurance will be about \$2,000.

The Finance Committee recommends approval. No additional appropriation is required.

¹ New.

² This company does not care to accept insurance in addition to the present amount of \$63,600. It is recommended that a five-year policy for \$94,650 be placed with Monier & Morrissey. The selection was made by lot from the 10 companies quoting identical rates.

³ This company does not care to accept insurance in addition to the present amount of \$39,753.

On motion of Mr. Williamson, the placing of this insurance was authorized as recommended, subject to a check of the adequacy of the coverage.

SALE OF SECURITIES

B. The Finance Committee recommends that 180 shares of Loew's, Inc., Common Stock now held as an investment of the endowment funds of the University be sold and the proceeds reinvested in E. I. duPont deNemours Common Stock at approximately 190.

In order to complete such sale, the passage of the following resolution is necessary:

RESOLUTION REGARDING SALE OF 180 SHARES OF LOEW'S, INC., STOCK

Whereas, the Board of Trustees of the University of Illinois is the owner of 180 shares of Loew's, Inc., stock and,

Whereas, the Board of Trustees approved the sale of this stock in its regularly called meeting on March 27, 1946,

Now, therefore, be it resolved, by the Board of Trustees of the University of Illinois that Lloyd Morey, Comptroller, and H. E. Cunningham, Secretary, be authorized to execute any and all documents necessary to complete such sale.

On motion of Mr. Williamson, this resolution was adopted.

PURCHASE OF SECURITIES

C. The Finance Committee reports the purchase of the following securities as investments of endowment funds: \$19,200 U.S.A. 2½% Series G Savings Bonds, due 2-1-59; 35 shares U.S. Gypsum Common Stock at \$61 a share.

This report was received for record.

The Board recessed for luncheon.

AFTERNOON SESSION

When the Board convened in executive session at the Blackstone Hotel on the afternoon of March 27, 1947, the following members were present: President Livingston, General Davis, Mr. Forno, Mrs. Holt, Mr. McKelvey, Mr. Nickell, Mr. Williamson.

President Stoddard was present; also Mr. Janata, Professor Griffith, Professor Morey, Professor Britton, and Mr. Cunningham.

MATTERS PRESENTED BY PRESIDENT STODDARD

The Board considered the following matters presented by the President of the University.

LEASE OF NAVY PIER DRILL HALL

(1) The University has been using the Drill Hall at Navy Pier under an informal agreement with the Chicago municipal authorities since November, 1946, at an annual rental of \$15,000 for approximately 60,000 square feet of space. Negotiations for a formal lease have been going on for several weeks. In so far as possible, the terms of the Drill Hall lease are identical with the terms of the lease of other areas on Navy Pier. The essential terms and important variations are as follows:

1. *Subject of the lease.* The Drill Hall, with adjoining land totaling approximately 75,000 square feet.

2. *Term.* January 1, 1947, to June 30, 1947, renewable for successive biennial periods until June 30, 1951, and renewable annually thereafter until June 30, 1954. The term is the same as that of the Navy Pier lease, except that the latter began on August 1, 1946.

The most unusual feature of the Drill Hall lease is that it requires the University to vacate the main hall, 100' x 464', and the main floor office space,

31' x 40', for a period not to exceed two weeks at any one time, on thirty (30) days' notice to the University, for permitting conventions to occupy the premises during such period.

No representative of the University is satisfied with this arrangement, but Commissioner Hewitt has stated that he was committed to the policy of renting the Drill Hall to conventions, and that the University's acceptance of this arrangement was a condition to his granting a lease to the University.

This matter has been gone into thoroughly by those responsible for the conduct of Physical Education programs in the Drill Hall, and while they do not like it, they have acquiesced in Commissioner Hewitt's position because all things considered, it was the best thing they could do.

3. *Rent.* One Thousand Five Hundred Sixty-two and 50/100 Dollars (\$1,562.50) a month. The lease provides for certain deductions from the rent during the periods of time when conventions are occupying the Drill Hall. The University gets the following credits with the Lessor:

(a) The cost to Lessee of gas, electricity, water, and insurance, estimated at \$255 a week;

(b) Credit of \$262.50 a week during the first ten (10) weeks of convention usage in any one calendar year and \$485 a week for each week of convention usage in excess of ten (10) weeks.

These last two figures represent the credits for the cost of operation to be furnished by Lessee during such periods.

4. *Insurance.* The University agrees to carry fire, tornado, and casualty insurance, in the amount of \$200,000 for the benefit of the City of Chicago and the Board of Trustees of the University of Illinois as their interests may appear.

This provision differs from that contained in the lease on the Navy Pier in that, in the latter case, the University pays \$1,120 a year to the City in lieu of carrying insurance against fire, tornado, and other casualty.

5. *Repairs.* This lease obligates the Lessee "to make all necessary repairs and maintain the demised premises, except that the Lessee shall not be liable to make repairs of loss or damage to said premises resulting from occupancy thereof by conventions."

In the Navy Pier lease the City obligated itself to make all necessary structural repairs. Commissioner Hewitt refused to incorporate this provision in the Drill Hall lease. The University opposed this in numerous discussions, but to no avail. The University's added obligation here is to be read in connection with the Lessee's obligation to "yield up said premises to Lessor in as good condition and repair as when received, loss by fire or other casualty, and ordinary wear and tear excepted."

The Legal Counsel submits the following resolution authorizing the officers of the Board to execute the lease for the Drill Hall in accordance with the provisions summarized above.

BE IT RESOLVED:

That, the Comptroller and Secretary of the Board of Trustees are authorized to execute, on behalf of the Board of Trustees of the University of Illinois, a lease from the City of Chicago to the Board of Trustees of the University of Illinois of premises known as the Drill Hall situated on land adjoining the Chicago Navy Pier, together with adjacent land to be prescribed by the Commissioner of Public Works, said demised premises comprising approximately 75,000 square feet, for use by the University for educational purposes, for the term beginning January 1, 1947, and expiring June 30, 1947, with the privilege to the Lessee to renew at the expiration date for successive biennial periods up to June 30, 1951, and annually thereafter until June 30, 1954, upon sixty days notice in writing to the City, and subject however to temporary release by the University for such periods as the City desires the premises for letting for convention purposes, upon thirty days' notice in writing to the University of such desired use, and upon the understanding that a proportionate reduction in rent will be allowed the University during such convention occupancy, and provided that the City will utilize the premises and relieve the University from payment of rent for a period of not less than ten weeks during any one year, the space to be released to the City for convention occupancy to comprise the

main hall of said Drill Hall approximately 100 x 464 feet, plus main floor office space at the North East corner of the Drill Hall approximately 31 x 40 feet, plus use of toilet facilities; at a monthly rental of \$1,562.50, payable to the City monthly in advance; the University to maintain and keep in repair the demised premises during the term of the lease, heat and light the same, but to be allowed credit for the pro-rata costs and expenses of covering heat, light, fuel, power and water during convention occupancy; said lease to be on such other terms and conditions and form as shall meet the approval of the City Council, the Commissioner of Public Works and the Corporation Counsel, and the Board of Trustees of the University of Illinois.

The Legal Counsel presented this matter.

On motion of Mr. Williamson, the resolution was adopted as recommended by the Legal Counsel.

REPORT ON FUNDS FOR ELECTRICAL ENGINEERING BUILDING

(2) The General Assembly in 1945, in the Post-War Bill for Capital Appropriations, made an appropriation to the University for construction of an Electrical Engineering Building and equipment at Urbana-Champaign in the amount of \$875,000. This and all similar appropriations are subject to the following provision: "No contract shall be entered into or obligation incurred for any expenditure from any appropriation herein made until after the purpose and amount of such expenditure has been approved in writing by the Governor." On October 31, 1945, the Governor released the sum of \$39,375 for plans and specifications for that building. In anticipation of the need of this fund for construction purposes, the Comptroller on November 19, 1946, addressed a request to the Governor for the release of the balance of \$710,625 in this appropriation.

It is the practice of the Governor to refer all such requests to the Illinois Post-War Planning Commission for advice. On December 18, 1946, the Comptroller received a request from Mr. Oscar Nelson, Executive Secretary of the Commission, raising a question as to whether the balance of the appropriation would be sufficient to complete the building and also requesting that bids for the building be submitted to the Commission. The Comptroller informed Mr. Nelson of the status of this project and of the great importance of proceeding with construction as soon as possible, that additional funds would be necessary to complete it, and that a request for such funds is included in the biennial budget request of the University.

On January 25 bids were submitted to the Board showing a total cost of \$1,615,775 for the building. The Board approved the award of the contracts to the extent possible within the present appropriation on the understanding that the additional bids would be subject to acceptance by August 1, 1947. On January 27 the Comptroller transmitted to Mr. Nelson a copy of the schedule of bids, urging approval of the release of present funds.

No contracts have been signed with any of the successful bidders on this building. A letter of intent was issued by the Comptroller and the Architect to the John Felmley Company, general contractors, informing them of the action of the Board and authorizing them to "initiate work at the site in advance of the formal signing of the contract."

Hearing nothing from the request for release of these funds by March 1, the Comptroller took up the matter with various offices at Springfield. He was referred by the Post-War Planning Commission to the Governor's Office. The Governor's Office referred him to the Director of Finance. The matter was reviewed in detail with that office. The Director indicated that, if the President would address his new request to the Governor, outlining the situation on this building and all buildings of a similar status, he would present it at once to the Governor for the earliest possible action. Under date of March 12 such a report, in full detail, was sent to the Governor covering the Electrical Engineering, Mechanical Engineering, Chemistry, and Fine Arts buildings.

In the absence of word from either the Office of the Governor or the Director of Finance, the matter was followed continuously from March 14 on. The President was advised that the Governor had received the request but had referred it back to the Director of Finance for additional information. No

additional word could be secured from the Director of Finance. Further efforts on the part of the President to secure a conference with the Governor thus far have been unavailing.

Following the letter from the Architect and the Comptroller the contractor has moved his equipment on the site, moved the Health Service Building, started excavating, and done other work. Costs amounting to \$228,000 have been incurred to this date. Unless the release of funds can be secured, it will be necessary immediately to request the contractor to cease work. Every day's delay in the construction work on this building reduces the certainty of its completion by September, 1948, at which time the building is absolutely required for the necessary instructional work in electrical engineering for students (largely veterans) now registered in that curriculum. Much the same situation applies to the other three buildings mentioned, one of which, the Mechanical Engineering Building, is before the Board for consideration and award of bids at this meeting.

This report was received for record, and the matter of securing the release of funds was left in the hands of the President of the University.

MEETING OF THE BOARD OF TRUSTEES
OF THE
UNIVERSITY OF ILLINOIS

April 24, 1947

The April meeting of the Board of Trustees of the University of Illinois was held at the Blackstone Hotel, in Chicago, on Thursday, April 24, 1947, according to the following schedule:

10 a.m. — Executive session, as in Committee of the Whole.

12:30 p.m. — Open session.

The following members were present: President Livingston, General Davis, Mr. Fornof, Mrs. Holt, Mr. McKelvey, Mr. McLaughlin, Dr. Meyer, Mr. Williamson.

President Stoddard was present; also Professor C. R. Griffith, Provost, Mr. A. J. Janata, Assistant to the President, Mr. H. E. Cunningham, Secretary, Mr. I. L. Porter, Treasurer, Professor Lloyd Morey, Comptroller, Professor W. E. Britton, Legal Counsel, and, during part of the day, Professor J. C. Spitler, Associate Director of Extension Service in Agriculture and Home Economics, and Mr. J. F. Wright, Director of Public Information.

MATTERS PRESENTED BY PRESIDENT STODDARD

The Board discussed in executive session several matters included in the agenda, and took action on the following matters presented by the President of the University.

PURCHASE OF TEXACO PROPERTY

(1) Pursuant to action of the Board on February 27 (Minutes, page 257), an offer of \$40,000 was made to the Texaco Company for the property at the northeast corner of Green and Mathews, Urbana, on which there is a filling station. This land is needed as part of the site of the new Mechanical Engineering Building, contracts for which were approved at the March meeting. The Company, after careful consideration and after securing two independent appraisals of the property which exceeded the above offer, declined it. The Company states that it will sell the property to the University for \$45,000, possession to be given within sixty days.

The contractor states that unless this property is secured promptly, additional cost will be incurred because of extra storing and moving of equipment.

After thorough consideration, the Director of the Physical Plant and the Comptroller recommend that the offer of the Texaco Company be accepted, and the purchase of the property at \$45,000 be authorized. I concur.

The amount required for this and other necessary purchases for which a State appropriation of \$127,000 was made in 1945, exceeds this appropriation by \$25,000. An appropriation of \$25,000 from the General Reserve is therefore needed, and I so recommend.

On motion of Mr. Williamson, this purchase was authorized and the appropriation was made as recommended, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Holt, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Dr. Meyer, Mr. Williamson; no, none; absent, Mr. Green, Dr. Luken, Mr. Nickell.

LEAVE OF ABSENCE FOR PROFESSOR E. W. DOLCH

(2) I recommend that Associate Professor E. W. Dolch of the College of Education be given a sabbatical leave of absence on one-half salary for the second semester of 1947-1948 (March 1 through August 31, 1948).

On motion of Mr. Williamson, this leave was granted as recommended.

APPOINTMENT OF H. R. BOWEN AS DEAN OF COLLEGE OF COMMERCE AND BUSINESS ADMINISTRATION

(3) I request authority to appoint Howard Rothmann Bowen as Dean of the College of Commerce and Business Administration, for two years beginning September 1, 1947, and Professor of Economics, on indefinite tenure, at an annual salary of \$13,000.

On motion of Dr. Meyer, this appointment was authorized as requested.

BOARD OF TRUSTEES EXPENSE AND EQUIPMENT

The Secretary requested an additional appropriation of \$5,000 for Board of Trustees Expense and Equipment for the remainder of the fiscal year.

On motion of Mr. Davis, this appropriation was made as requested by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Holt, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Dr. Meyer, Mr. Williamson; no, none; absent, Mr. Green, Dr. Luken, Mr. Nickell.

4-CLUB CAMPS

Mr. McLaughlin presented the following report and recommendations of the Committee on Agriculture with respect to 4-H Club Camps.

The Committee on Agriculture has considered the recommendations of President Stoddard on this matter (Minutes, March 27, 1947, page 315), has conferred with

Professor Spitler and others, and recommends that the Board approve the following:

1. That the University of Illinois Foundation be requested to assume the responsibility of receiving, holding, and disbursing funds for these camp projects.
2. That the acceptance of sites be authorized, under conditions generally comparable to the gift of Robert Allerton.
3. That farm advisers and home advisers, and their successors, in the respective areas be authorized to participate as individuals in nonprofit corporations, to own and operate such camps.

Professor Spitler commented on this matter.

On motion of Dr. Meyer, these recommendations were approved and adopted, and the appropriate officers of the Board and of the University were authorized to execute and to carry out the program, without financial responsibility of the University for development or operation and maintenance beyond the limits of funds received for these purposes from gifts or camp income.

The President of the University was requested to have a study made of the responsibilities of the University arising from this program.

OPEN SESSION

When the Board convened in open session on the afternoon of April 24, 1947, the same members and officers were present as during the morning session.

MINUTES APPROVED

The Secretary presented the minutes of the meeting of March 27, 1947.

On motion of Mr. Davis, the minutes were approved as printed on pages 301 to 332 above.

TRIBUTE TO FRANK A. JENSEN

General Davis presented the following:

It is appropriate that the Board of Trustees pause in its deliberations today to pay tribute to the memory of a former colleague and friend, Frank A. Jensen, Superintendent of the LaSalle-Peru Township High School and LaSalle-Peru-Oglesby Junior College, and a member of the Board of Trustees of the University of Illinois from 1939 to 1945, who died suddenly at his home in Peru, Illinois, on Sunday, March 30, 1947.

Doctor Jensen was one of the great public school men of Illinois. He began teaching at an early age. All of his adult lifetime was given to education, as teacher and as school administrator. The last twenty-four years of his life, covering one-half of his professional career, were spent in Illinois as Superintendent of Schools of Rockford, Illinois, from 1923 to 1935, and as Superintendent of the LaSalle-Peru Township High School and the LaSalle-Peru-Oglesby Junior College from 1935 until his untimely death.

He was an outstanding citizen, a distinguished educator, a public leader, and a loyal friend. His devotion to education was far beyond the call of public or professional duty. Only two weeks before his death he was at the University participating in a conference on teacher education. He was the leader among public school men of Illinois in the movement for an expanded system of junior colleges needed to provide more adequate facilities for higher education in this State.

These same qualities of leadership, of unselfish devotion to public interest, and of doing more than his share of work marked his faithful service as a member of the Board of Trustees of the University of Illinois. During his six-year term he missed only one meeting, and that because of illness. Those members of this Board who served with him are grateful for the opportunity of having worked with an inspiring colleague and a loyal friend whom they will never forget.

Be it resolved by the Board of Trustees of the University of Illinois that this memorial be published in its records and a copy be sent by the Secretary to Mrs.

Jensen and her family, with an expression of the Board's sympathy in the great loss they have suffered.

On motion of General Davis, this resolution was adopted.

MATTERS PRESENTED BY PRESIDENT STODDARD

The Board considered the following matters presented by the President of the University.

BIENNIAL OPERATING BUDGET FOR 1947-1949

(1) On April 5, 1947, Senator Everett R. Peters, Chairman of the Illinois Budgetary Commission, held an all-day conference with officials of the University of Illinois to make an analysis and revision of the biennial budgetary requests. The following officials took part: Park Livingston, President of the Board of Trustees, George D. Stoddard, President of the University, Coleman R. Griffith, Provost, and Lloyd Morey, Comptroller.

At the close of the meeting, Senator Peters stated that he was convinced the lowest amount on which the University can operate during 1947-1949 is \$60,083,018. This is a reduction of \$5,000,000 in the original University budget approved by the Board of Trustees on October 22, 1946.

This change in the operating budget of the University would be made in the appropriation from tax funds, reducing it from \$48,083,018 to \$43,083,018. The appropriation of \$17,000,000 of the estimated income of the University for the biennium would not be changed.

The reduction indicated can be made without serious damage because not all of the staff additions anticipated when the budget was presented to the Board in October, 1946, can be secured.

Allocation of the total reduction will be determined after further study of the entire operating budget. Approximately \$4,000,000 will be taken from the salaries and wages section of the budget and the remaining \$1,000,000 from expense and equipment items.

I recommend that the action of the President of the Board and the President of the University, in assenting to this readjustment, be confirmed by the Board of Trustees.

On motion of Mr. Fornof, this action was approved and confirmed.

RELEASES FROM STATE BUILDING APPROPRIATIONS

(2) At the Board meeting on March 27 (Minutes, page 325) a report was made on the status of releases of building appropriations for 1945-1947. Subsequently the President of the University communicated with the Governor and conferred with the Director of Finance. The Director indicated that the State will follow the policy of releasing funds for construction work only if a sufficient appropriation is available to make possible the completion of a usable unit. He also requested that the University recommend a redistribution of its appropriations for 1945-1947 to provide sufficient funds for the total cost of each high priority project which should be completed within the 1947-1949 biennium.

In accordance with that request, the following schedule was presented, showing the minimum funds required for (1) completion during 1947-1949 of all projects in the AAA priority list approved by the Board of Trustees on January 25, 1947; (2) expenditures and commitments on other projects; (3) essential funds for those projects in Chicago which can be completed during 1947-1949 within available funds, including preparation of plans for the complete hospital addition; (4) use of existing appropriations for land (most of which already have been expended and all of which are encumbered); and (5) an amount for contingencies.

The schedule shows that after reallocation of the entire 1945-1947 appropriation (except for the \$140,000 for purchase of student housing which is being allowed to lapse in view of a special appropriation of \$250,000 for staff housing already passed and approved), there would be a deficiency of \$2,000,000. The Director of Finance agreed to recommend this readjustment of funds, including an addition of \$2,000,000, in the State budget for 1947-1949. It is understood that H. B. 175, a separate bill for an appropriation of \$2,200,000 for student residence

halls, will be considered as a special item and that the remaining items will be included in a new State-wide program of building projects for which appropriations would be requested for 1947-1949.

The Director of Finance stated that this may represent the total amount of capital funds that can be made available to the University through 1947-1949. This statement was not accepted as binding on the University, since the attached schedule was submitted without prejudice to further building needs.

Funds for the Electrical Engineering Building have been released in full, and we are advised that all releases will be granted promptly on request.

On motion of Dr. Meyer, this redistribution of funds was approved.

ADDITIONAL STATE BUILDING APPROPRIATION REQUESTS

(3) On October 22, 1946 (Minutes, page 129), the Board approved for filing as a part of the biennial budget for 1947-1949, a schedule of capital appropriations totaling \$29,450,000. This schedule is in addition to the reappropriation of all capital funds of the biennium 1945-1947.

As separately reported at today's meeting, the amount which probably will be included in the State budget for 1947-1949 in excess of reappropriations of \$16,631,000 is \$2,000,000, or a total of \$18,631,000. The reappropriation program does not include a number of projects for which appropriations were made in 1945 but the funds for which have had to be applied toward other projects of higher priority.

In assenting to the redistribution of funds, University officers indicated that a reservation would be made on submitting directly to the General Assembly a request for additional capital appropriations for 1947-1949. This problem has been reviewed in detail with the University officers concerned at Urbana and Chicago. As a result, a revised schedule of urgent capital appropriation needs for 1947-1949 is submitted. This includes:

1. The most urgent projects at Urbana-Champaign of *AAA* or *AA* priority which were omitted or reduced in the schedule recently submitted for the State budget.

2. Urgent projects for the Chicago Professional Colleges, also omitted in the schedule recently submitted.

With respect to the Urbana-Champaign campus, all projects included in the basic budget of \$18,631,000 are scheduled for completion by September, 1948. If no additional appropriations are made for 1947-1949, this will mean that little construction work can be carried on during the entire year of 1948-1949. This would be a mistake in view of the fact that the need for all projects will be increasingly serious as the next biennium progresses.

With respect to Chicago, it was found impossible to utilize the full amount appropriated (for Chicago) in 1945 because of the fact that, other than the atmospheric research unit and the completion of a part of the utilities distribution system, no unit could be carried to completion within existing funds. As already reported, the Department of Finance insists that no funds be released unless a sufficient appropriation is available for the completion of a usable unit. Thus, it became a question of either losing this sum or applying it at points where complete projects are assured. Hence, the sum of \$1,300,000 originally intended for the hospital addition in Chicago was reallocated to Urbana-Champaign projects. The transfer was done after consultation with Doctor Ivy and on assurance to him that the amount of this transfer would be added to appropriation requests for 1947-1949. Unless new appropriations are secured, no material progress will be made during 1947-1949 on the urgently needed program of the Chicago Professional Colleges.

I recommend that the President be authorized to seek the introduction and passage of an appropriation bill totaling \$20,472,000 for capital projects for 1947-1949 as set forth in the schedule submitted. This replaces the original schedule of \$29,450,000 approved and filed in October, 1946.

On motion of Mr. Davis, authority was given the President of the University as recommended.

**RELEASE OF FUNDS FROM STATE-WIDE PUBLIC WORKS
PROJECTS APPROPRIATION**

(4) Governor Dwight H. Green has authorized the release of funds from the appropriation made to the University of Illinois by the 64th General Assembly in the "Act making appropriations for a State-wide system of public works projects, including all ordinary and contingent expenses relating thereto," as follows:

Release No. 298

"For construction of Electrical Engineering Building and equipment....\$875 000"
Amount released (to be used as designated in the title for this item).... 710 625

I recommend that these funds be appropriated by the Board of Trustees for the expenditures specified in the release.

On motion of Dr. Meyer, these funds were appropriated as recommended, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Holt, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Dr. Meyer, Mr. Williamson; no, none; absent, Mr. Green, Dr. Luken, Mr. Nickell.

AWARD OF CERTIFICATES OF CERTIFIED PUBLIC ACCOUNTANT

(5) The Committee on Accountancy reports that the Board of Examiners has reviewed the examination papers of one of the candidates in the May, 1946, C.P.A. examination and has made a correction in the grade assigned to his Auditing paper. This change of grade makes Mr. Theodore John Banka, 2134 West Lyndale Avenue, Chicago, eligible for the Illinois C.P.A. certificate, and the Committee recommends that his name be presented to the Board of Trustees for the C.P.A. certificate, to be issued as of September 24, 1946, the date on which the Board approved other certificates for candidates in the May, 1946, examination.

The Committee also recommends that the following candidates, who have presented evidence that they hold C.P.A. certificates in other states, which certificates were obtained by passing the regular written examination, be granted the Illinois C.P.A. certificate under Section 5 of the Accountancy Act of 1943:

JEROME JOHN HALLISEY (Wis.)	EDWARD WILLIAM MOELLER (Mo.)
ORBIN BRYAN KEPLINGER (Ohio)	JOSEPH WILLIAM ROBERTSON (Ohio)
VICTOR OLIVER LOTHMAN (Ind.)	JOHN JOSEPH RUDOLPH (Ind.)

I concur.

On motion of Mr. McLaughlin, these certificates were awarded as recommended.

**APPOINTMENT OF GEORGE W. WHITE AS PROFESSOR AND
HEAD OF THE DEPARTMENT OF GEOLOGY**

(6) I recommend the appointment of Dr. George Willard White, Professor of Geology at Ohio State University, as Professor and Head of the Department of Geology on indefinite tenure beginning September 1, 1947, at an annual salary of \$8,500.

On motion of Dr. Meyer, this appointment was made as recommended.

**ADDITIONS TO CONTRACTS FOR ELECTRICAL WORK AND
PLUMBING, HEATING, AND VENTILATING WORK ON
PHYSICS RESEARCH LABORATORY**

(7) The Director of the Physical Plant Department reports that an addition, in the amount of \$17,828.94, is necessary to the contract with the Anderson Electric Company for electrical work on the Physics Research Building.

The Director also reports that an addition, in the amount of \$6,505.68, is necessary to the contract with the Carson-Payson Company for plumbing, heating, and ventilating work on the Physics Research Building.

The contract for electrical work was authorized by the Board on December 11, 1945 (Minutes, page 949), and the contract for plumbing, heating, and ventilating work, on December 17, 1945 (Minutes, page 956). The Board had previously authorized the construction of this building on a cost plus fixed fee basis. The additions to these contracts are necessary to provide for increased costs of labor and materials encountered since construction was begun.

The Comptroller recommends approval of these increases, and I concur. Funds are available in the special state appropriation for this building.

On motion of Mr. McKelvey, these increases to contracts were authorized as recommended.

STEEL WORK FOR NEW CHEMISTRY BUILDING

(8) Bids for fabricated structural steel for the new Chemistry Building were opened in the office of the architects (Graham, Anderson, Probst, & White) at Chicago on April 15, 1947, as follows:

<i>Contractor</i>	<i>Main bid</i>	<i>Time</i>	<i>Remarks</i>
Bethlehem Steel Co.....	\$127 895	245 days	Escalator clause up to \$10 a ton
Duffin Iron Co.....	144 440	210 days	
Midland Structural Steel.....	144 744	300 days	
American Bridge Co.....	7.45¢ lb. (delivered) 9.15¢ lb. (delivered and erected)	12 months	Escalator clause

It is the opinion of the architects that, on the basis of bids submitted, the Bethlehem Steel Company's bid is the most favorable, and they recommend that it be accepted. The Physical Plant Department concurs in this recommendation. Funds are available.

This building is one of highest priority included in the proposed readjustment of funds recently agreed upon with the Director of Finance. The contract should be awarded at once so that the steel will be ready when needed in the construction program.

I recommend approval and authorization to the Comptroller and Secretary of the Board to execute a contract.

On motion of Mr. Williamson, this contract was awarded and its execution authorized as recommended.

SUPPLEMENTARY STAFF HOUSING PROJECT

(9) On February 27, 1947 (Minutes, page 259), the Board of Trustees authorized a request to the General Assembly for a special emergency appropriation of \$250,000 for staff housing. The General Assembly has passed and the Governor has approved the appropriation.

On March 27, 1947, the Board authorized contracts for the purchase of sites and 25 prefabricated houses. The total cost of these houses is estimated at \$225,000, of which \$70,700 can be borrowed and amortized out of the net income which will be available from the rental of the houses. An appropriation of \$154,300 will be necessary from the State appropriation for staff housing to complete this project.

Since the original request for a supplementary appropriation was submitted to the General Assembly, the U. S. Department of Commerce has offered to advance funds to the University of Illinois for the purpose of studying the site fabrication of small houses. The purpose is to determine methods of reducing the man-hours required for the erection of small houses. It is proposed to build six small houses, three of frame and three of masonry construction. The houses will be built in the same area as the 25 prefabricated houses. The construction of the proposed six houses of a conventional type in this area will improve the appearance of the entire project as well as provide six additional houses for staff housing.

The Department of Commerce offers to advance \$45,000, \$19,200 of which can be used for construction labor in the erection of the houses. The remaining funds will be used for research costs.

The cost of the homes is estimated by Professor W. H. Scheick, Coordinator of the Small Homes Council, at \$10,025 a house, or a total cost of \$60,150, including the necessary land. The sum of \$19,200 to meet labor costs will be provided by the Department of Commerce, and \$40,950 must be provided from other funds. Based on estimates of net income which will be available from the rental of the completed homes, about \$13,000 can be borrowed and amortized within a ten-year period. To complete the project, an appropriation of \$27,950 from the supplementary appropriation for staff housing will be necessary.

The Legal Counsel has given an opinion that, under the contract, the government will not have any title to, lien, or encumbrance on any of the houses thereunder, but that such houses will be the sole property of the University.

It is proposed to use the remaining funds in the supplementary state appropriation, estimated at \$67,750, for expenditures on federal housing units.

Approval of the revised project and appropriation of the funds to become available are requested.

APPROPRIATION TO UNIVERSITY RETIREMENT SYSTEM OF ILLINOIS
(10) The costs of operating the University Retirement System of Illinois, including benefits payments and administrative expenses, are distributed among the agencies in the System, and are included in their biennial appropriations. The charges against the University of Illinois were based on the staff and payroll during the biennium of 1943-1945; the annual total used in the computations was \$9,549,451. The actual salary and wage budget for 1946-1947 is approximately \$16,830,000.

The increase in this payroll affects the amount of disability costs, death benefit costs, and possibly retiring annuities. There is a surplus from previous years on death benefit costs, and there is no deficiency in the provision for retirement benefits, but there is an estimated deficiency of \$30,272 in the provision for disability costs. Administrative costs of the System have also increased as a result of the added number of participants and benefits. The University's share of this increased administrative expense is \$7,230.

The University has, therefore, been requested to increase its payment to the System for the current fiscal year from \$239,507 to \$277,009. I recommend that a supplementary appropriation of \$37,502 be made from the General Reserve Fund of the University for this purpose.

On motion of Mr. Fornof, this appropriation was made as recommended, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Holt, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Dr. Meyer, Mr. Williamson; no, none; absent, Mr. Green, Dr. Luken, Mr. Nickell.

APPROPRIATION FOR PUBLIC FUNCTIONS

(11) The General Assembly of Illinois will make its biennial inspection of the University on May 8 and 9. It has been customary for the University to pay the traveling and other expenses of these visits. I request that an assignment of \$2,000 be made from the General Reserve to the Public Functions fund of the President's Office to pay the expenses of this inspection and visit.

On motion of Mr. McLaughlin, this appropriation was made as requested, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Holt, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Dr. Meyer, Mr. Williamson; no, none; absent, Mr. Green, Dr. Luken, Mr. Nickell.

SPECIAL APPROPRIATIONS FOR NONRECURRING EXPENDITURES

(12) The Committee on Special Appropriations and Nonrecurring Expenditures recommends assignments from the General Reserve Fund for the following purposes:

Equipment for the School of Music.....	\$ 42 000
Remodeling in Agricultural Buildings.....	37 000
Remodeling and equipment for Chicago Professional Colleges.....	35 000
Additional parking facilities.....	30 000
Equipment for College of Liberal Arts and Sciences.....	28 400
Minor remodeling in various buildings and offices.....	23 500
Rare books for the Library.....	15 000
Equipment for Civil Engineering.....	15 000
Ventilation in Electrical Engineering Annex.....	8 000
Repairs and equipment for woodland tracts.....	4 500
Acoustical treatment for practice rooms and studios in Smith Music Hall.....	3 725
Alterations in mailing and shipping rooms of Alumni Association and University Extension in Illini Hall.....	1 100
<i>Total</i>	<u>\$243 225</u>

On motion of Mr. McLaughlin, these appropriations were made as recommended, by the following vote: Aye, Mr. Davis, Mr. Fornof,

Mrs. Holt, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Dr. Meyer, Mr. Williamson; no, none; absent, Mr. Green, Dr. Luken, Mr. Nickell.

At this point, President Livingston, being called from the room, asked Dr. Meyer to take the chair.

INSURANCE ON AIRPORT HANGAR

(13) The Board has previously authorized insurance on the hangar at the University Airport. The present insurance of \$80,000 expires July 1. It should be increased to \$160,000 in view of increased replacement costs. Insurance is on an 80 per cent co-insurance plan to be written for three years, premiums for second and third years deferred. All agencies requesting an opportunity to quote on this insurance were advised. From quotations received, the Purchasing Agent and Comptroller have recommended that the insurance be placed as follows:

<i>Agent</i>	<i>Insurance Company</i>	<i>Amount of Insurance</i>	<i>Annual Premium</i>
Burton & Trelease, Champaign	Insurance Co. of North America	\$30 000	\$582 60
Boggs & Cogdal, Urbana	United States Fire In- surance Co. of New York	30 000	582 60
Ferris, Whit, 401 Volkmann Bldg., Kankakee	American Insurance Co. of Newark, New Jersey	30 000	582 60
Smith, Frank, Champaign	St. Paul Fire and Marine Insurance Co. of St. Paul	30 000	582 60
United Mutual Insurance Company, Chicago		40 000	776 80

The Finance Committee recommends approval of this recommendation. No additional appropriation is required.

On motion of Mr. McKelvey, these awards were authorized as recommended.

PURCHASE OF COAL FOR GALESBURG UNDERGRADUATE DIVISION

(14) Bids have been requested on 15,000 tons of screenings (1¼" x 0") estimated as required during the period June 1, 1947, through May 1, 1948, for the plant at the Galesburg Undergraduate Division. Bids were requested from 35 concerns, known or thought to be interested in and possibly able to furnish this coal. The only bid received was from the Central Indiana Coal Company, Galesburg office, for coal from its Victoria, Illinois, mine at \$3.00 a ton, f.o.b. mine, subject to price adjustments, freight rate 88¢ a ton, estimated total of contract \$45,000, estimated total cost of coal delivered \$58,200.

A contract is necessary in order to be assured of a continuing supply. The period involved covers parts of two biennial periods. Hence an order will be issued for the estimated 600 tons required before June 30, 1947, and an additional contract for the remainder required after July 1, 1947.

The Business Manager of the Galesburg Undergraduate Division, the Purchasing Agent, the Director of the Physical Plant, and the Comptroller recommend approval of this contract. Under the state constitution the contract also must be submitted to the Governor for approval.

I concur and request authority for the Comptroller and the Secretary of the Board to execute the contract when approved by the Governor.

On motion of Mr. McKelvey, this contract was approved and its execution was authorized as recommended.

UNIVERSITY'S SHARE OF SEWAGE DISPOSAL COSTS

(15) Officers of the Urbana-Champaign Sanitary District have requested the University to assume a share of the operating cost of sewage disposal, for the following reasons:

A. The University did not contribute anything toward the cost of constructing the treatment plant and interceptors built in 1923-1924 and has likewise contributed

nothing toward the cost of plant maintenance and operation since that time. It did, in 1945, agree to bear its share of the cost of additional intercepting sewers now under construction.

B. The University as a state-supported institution would not be setting a precedent in making an annual contribution toward the cost of sewage treatment. The Southern Illinois Normal University pays the City of Carbondale a sum approximately equal to one-half the cost of its water bill. The State hospitals at Anna, Jacksonville, Lincoln, Kankakee, and Peoria, contribute toward the cost of sewage treatment provided by their cities.

C. For the past six years the Sanitary District has levied taxes in sufficient amount so that a portion could be set aside as a fund for "construction of additions." In 1945 this fund of some \$43,000 was expended to meet a portion of the cost of constructing additional interceptor sewers whose cost will be greater than anticipated at the time of financing. A normal population increase would have required some additional expansion at the treatment plant in about ten years. Due to the rapid increase in local population and unprecedented registration at the University, some additional plant expansion will probably be required within five years. It is therefore necessary to build up a fund for construction of additions as rapidly as possible. An annual contribution from the University, while based on the cost of sewage treated, would be used to restore the construction fund.

D. It seems reasonable that the University contribute its proportionate share for the cost of the operation of the plant.

E. The University now has arrangements for exchange of services with the local cities on fire protection, police service, and maintenance of the streets.

The Director of the Physical Plant and the Comptroller recommend that the University assume its proportionate share of the cost of operating the sewage disposal plant of the District, subject, however, to a determination of the sewage load from the University in relation to the total load. It is estimated that the cost to the University will be approximately \$6,000 a year.

I recommend that this proposal be approved with the understanding that the cost will be covered in the internal budget of the Physical Plant Department beginning July 1, 1947.

On motion of Mr. Williamson, this proposal was approved as recommended.

B. Purchases Authorized by the President of the University

The following purchases have been authorized by the President of the University on the recommendations of the Purchasing Agent and the Comptroller. Unless otherwise specified the purchases were made on the basis of lowest bids, ceiling prices, or because the items are noncompetitive.

On motion of Mr. Davis, the action of the President of the University in authorizing these purchases was approved and confirmed.

LANDSCAPING FOR TEMPORARY HOUSING UNITS

(18) Bids for the remainder of the landscaping work required in the veterans housing areas were invited, and only one bid was received. An analysis indicates it is an excellent bid, by a capable firm, and it is considerably below the Physical Plant Department's preliminary estimates. Several prospective bidders stated that they have too many previous contracts to undertake additional landscaping work.

This bid includes preparation of ground, planting of lawn, and setting of trees. This firm has previously done landscaping for the Illini Union Building, Gregory Hall, and the McKinley Hospital Addition. It has an excellent reputation.

The Physical Plant Department recommends award of the contract to Swain Nelson and Sons, Glenview, Illinois, on a base bid of \$33,214.88 with costs distributed among the various F.P.H.A. contracts. I concur and request approval and authority for the Comptroller and the Secretary of the Board to complete the contract.

On motion of Dr. Meyer, this contract was approved and authorized as recommended.

INCREASE IN PURCHASE PRICE OF GASOLINE TEST ENGINE AND DIESEL TEST ENGINE FOR DEPARTMENT OF MECHANICAL ENGINEERING

(19) An order has been placed with the Waukesha Motor Company for a gasoline test engine and a Diesel test engine for the Department of Mechanical Engineering. The price indicated on the order was \$15,558.80 and the transaction was approved by the Board of Trustees on March 9, 1946 (Minutes, page 1019). The order was placed subject to any increase in price which might be made prior to shipment, and the Purchasing Agent is now advised that the total price will be \$20,635.50. The Department of Mechanical Engineering reports that there is

urgent need for these machines and requests that the order be permitted to stand, the excess cost to be paid from the special building fund.

The Comptroller concurs in this request, and I recommend that the Board approve the purchase in spite of the increased price.

On motion of Mr. Davis, this increase in price was approved.

UNIVERSITY CENTER IN CHICAGO

(20) For several years the Alumni Association has been operating in the LaSalle Hotel an Illini Center as a headquarters for alumni activities in Chicago. When the University Placement Bureau was established by the Board it was understood that the Chicago end of this service would be a part of the Illini Center. A temporary arrangement was made within existing space. The fire in the LaSalle Hotel delayed the development of a complete program.

The Hotel is preparing to open in the near future. It has offered the University the complete space of about 3,000 square feet on the 20th (top) floor of the building. This is about four times the amount of previous space and is offered at a rental of \$4,500 a year, or about \$1.50 a square foot, which is reasonable in comparison to other rentals in the Loop. In addition to the interest of the Alumni Association and the Placement Bureau, the Extension Division has need of a Chicago headquarters. The Registrar also requires a center for information activities during several weeks in the spring. A number of general University officers are interested in having such space available.

It is desirable that the University have an attractive and well-located center in Chicago which can serve the needs of these various activities and constitute an informational headquarters for the University as a whole. Dining service is available on the floor below, and the Chicago Illini Club intends to establish its headquarters on that floor.

To make the project fully useful, an additional clerical position, telephone service, and minor incidental expenses are involved, representing a total budget of about \$7,350 a year. It is proposed to finance this budget by an equal distribution of \$1,850 a year among the Alumni Association, the Placement Bureau, the University Extension Division, and general University purposes, the latter including a present allotment of \$350 to the Registrar's Office. Thus, an additional appropriation of \$1,500 a year would be required. A nonrecurring appropriation also would be necessary for furnishings and for such remodeling and decorating as the Hotel might not be able to furnish, the amount of which should not exceed \$10,000. It is proposed to make the lease for a two-year period with an option of renewal.

All officers concerned have indicated their approval of the location and of the financial plan.

I recommend that the Comptroller be authorized, in conference with the officers concerned, to conclude a lease with the LaSalle Hotel under the conditions mentioned, effective July 1, 1947, or as soon thereafter as the space can be made available, with the understanding that provision for the expense will be included in the internal budget beginning with 1947-1948 and that at a later time a specific request for a nonrecurring appropriation for furnishings and other expense will be submitted.

On motion of Mr. Davis, this lease was authorized as recommended.

SALE OF STOCK RIGHTS

(21) The University holds 45 shares of American Tobacco Company stock on which rights have been issued to subscribe to one share of Common B stock for each five shares of stock held. The First National Bank of Chicago recommends that these rights be sold rather than to increase the holdings in this company, and the Finance Committee concurs in such recommendation.

In order to complete such sale, the approval of the following resolution is necessary:

RESOLUTION REGARDING SALE OF STOCK RIGHTS ON AMERICAN TOBACCO COMPANY STOCK

Whereas, the Board of Trustees of the University of Illinois is the owner of 45 shares of American Tobacco Company stock and has the right to subscribe to one share of Common B stock of such corporation for each five shares now held, and

Whereas, the Board of Trustees has approved the sale of such stock rights in its meeting of this date,

Now, therefore, be it resolved by the Board of Trustees of the University of Illinois that Lloyd Morey, Comptroller, and H. E. Cunningham, Secretary, be authorized to execute any and all such documents necessary to complete such sale.

On motion of Dr. Meyer, this resolution was adopted as recommended.

PROGRESSIVE ADMISSIONS PLAN

(22) Studies have been made by faculty committees and the other educational and administrative officers concerned to devise ways for utilizing the University's capacities most effectively in the admission of new students in all divisions.

The aim of the officers concerned was to admit all qualified students if any way could be found to achieve this goal, and if not, to suggest a *progressive plan of admissions* whereby the facilities of the University will be used to best advantage by the students most qualified to use them. The purpose of the plan is not to deny admission to any student. On the contrary, the purpose of the plan is to control admission so that all students will have the best possible chance to enter.

The University has a first obligation to those students now enrolled and in good standing in the colleges at Urbana-Champaign, in the undergraduate divisions in Chicago, and at Galesburg who are ready to transfer to Urbana, and to those enrolled in the University Extension Centers established by thirty-one high schools last year at the request of the University. It also has an obligation to accept former students in good standing who desire to continue their education. All these groups have stronger claims and higher priorities than new students who have not been previously enrolled.

Consequently, the approach to this problem has been to establish the maximum capacities in all divisions, estimating the number of students to whom the University is already committed for 1947-1948, and thus to determine the number of new students who may be admitted. The capacities and the number of new students who may be admitted are estimated as follows:

	<i>Capacities</i>	<i>Number of new students who can be admitted in 1947-1948</i>
Urbana-Champaign.....	18 500	5 400
Undergraduate Divisions:		
Chicago.....	4 000	1 300
Galesburg.....	2 000	1 400
Chicago Professional Colleges.....	1 500 ¹
	26 000	8 100

It has also been determined how the present capacities and facilities for new students can be used most effectively by the several colleges and schools at Urbana-Champaign.

Subject to the capacities established and to changes in these capacities resulting from student choices for programs of study within each division, every effort will be made to accommodate all qualified students who desire to enroll, but it must be recognized that the demand could easily exceed the facilities available. Hence, the following progressive admissions plan has been adopted, and the Registrar has been authorized to admit new students to the University of Illinois for the first semester of 1947-1948 in accordance with the schedule indicated below:

A. *Period I, up to June 15, 1947*

1. Veterans (whether entering as freshmen or as transfer students) who are residents of Illinois and who are eligible for admission under the present entrance requirements.

2. New freshmen — nonveterans who are residents of Illinois and who rank in the upper twenty-five per cent of their high school graduating class.

3. Transfer students — nonveterans who are residents of Illinois with not less than a 3.5 average in their college work in terms of the grading system of the University of Illinois.

¹The Chicago Professional Colleges (Medicine, Dentistry, and Pharmacy) with a total capacity of 1,500 are not included in this new admissions plan. The present admissions procedures, especially established for those colleges, will continue in effect.

B. Period II, from June 16 to July 15, 1947

1. Veterans (whether entering as freshmen or as transfer students) who are residents of Illinois and who are eligible under the present entrance requirements.
2. New freshmen—nonveterans who are residents of Illinois and who rank in the upper fifty per cent of their high school graduating class.
3. New freshmen—nonresidents of Illinois who rank in the upper twenty-five per cent of their high school graduating class, first priority to be given to children of alumni of the University of Illinois.
4. Transfer students—nonveterans who are residents of Illinois with not less than a 3.5 average in their college work in terms of the grading system of the University of Illinois.
5. Transfer students—nonresidents of Illinois with not less than a 4.0 average in their college work in terms of the grading system of the University of Illinois.

C. Period III, after July 15, 1947

1. Veterans (whether entering as freshmen or as transfer students) who are residents of Illinois and who are eligible under the present entrance requirements.
2. New freshmen—all residents of Illinois or graduates of accredited Illinois high schools who are eligible for admission.
3. New freshmen—nonresidents of Illinois who rank in the upper twenty-five per cent of their graduating class, first priority to be given to children of alumni of the University of Illinois.
4. Transfer students—nonveterans who are residents of Illinois with not less than a 3.5 average in their college work in terms of the grading system of the University of Illinois.
5. Transfer students—nonresidents of Illinois with not less than a 4.0 average in their college work in terms of the grading system of the University of Illinois.

Priority of admission for any group will not extend beyond the dates indicated for that group. For example, credentials received after June 15 but prior to July 15 for a resident of Illinois who ranks in the upper twenty-five per cent of his graduating class will be passed upon along with, but not prior to, credentials received for a student ranking in the upper fifty per cent of his class. To obtain the indicated priority, credentials must be received before the close of the priority period.

The date upon which an applicant's official credentials are received in complete form at the Registrar's Office is considered to be the date of application.

Summer Session of 1947

Permits for new freshmen and transfer students to enter the summer session of 1947 will be restricted to the following groups:

- (a) Veterans (whether entering as freshmen or as transfer students) who are residents of Illinois and who are eligible for admission under present entrance requirements.
- (b) High school graduates who are in the upper twenty-five per cent of their classes.
- (c) Transfer students—nonveterans who are residents of Illinois with not less than a 3.5 average in their college work in terms of the grading system of the University of Illinois.
- (d) Transfer students—nonresidents of Illinois with not less than a 4.0 average in their college work in terms of the grading system of the University of Illinois.
- (e) Students who will be registered for the summer session only.

The Provost commented on this matter.

On motion of Mr. McLaughlin, this plan was approved and adopted.

On motion of Mr. Williamson, authority was given to assess a nominal fee for the issuance of a permit to register, to be refunded only in case the candidate completed his registration and entered the University.

**ADMISSION OF STUDENTS FROM HIGH SCHOOL
EXTENSION CENTERS**

(23) At its meeting on May 29, 1946 (Minutes, page 1122), the Board of Trustees adopted as item 3 of a four-point emergency educational program, the following:

- "3. Provide for an expansion of postgraduate work in the high schools."

In accordance with the action of the Board, thirty-one High School Extension Centers have been in operation during the current year, enrolling for the first semester a total of about 3,000 students and for the second semester a total of about 2,000 students.

In the study of facilities in relation to the progressive plan of admissions submitted to the Board, eligible students from the High School Extension Centers have been treated as former students of the University of Illinois, provided they were enrolled in the High School Extension Centers as of September, 1946. Because of first priority granted to former students of the University, and because of limited facilities for taking care of sophomores and especially of juniors and seniors during 1947-1948 and 1948-1949, the University was compelled to announce that new students enrolling in the Extension Centers as of February, 1947, could not be looked upon as former students. In the progressive plan of admissions presented to the Board, such students will be accepted as transfer students.

In making plans for 1947-1948, school boards, superintendents, and principals cooperating with the University of Illinois have been told that the University can no longer look upon new students enrolling in the Extension Centers as former students. The effect of this announcement will be to discontinue the High School Centers in all cases, save those where a surplus of tax funds, the ability to employ additional staff, and the desire to work toward a junior college division make it possible for the high school concerned to operate on its own initiative. Beginning in September, 1947, postgraduate students who elect to go to such high schools will, upon completing their programs in the high schools, have the status of transfer students to the University of Illinois.

Full appreciation has been extended to all the cooperating schools for the splendid work that was done to meet the emergency in 1946. The emergency in 1947 may be even more intense, but the college preparatory character of the programs offered in the High School Extension Centers simply increases the burden on the University of Illinois at the upper-class levels and, since the facilities of these levels will be heavily overtaxed, the University can not afford to create even the moral obligation to provide for more students than already have a claim to admission at the upper-class levels.

The Provost presented this item.

This report was received for record.

APPOINTMENT OF DR. WILBUR SCHRAMM

(24) I recommend the appointment of Dr. Wilbur Schramm, now Director of the School of Journalism at the State University of Iowa, as Director of the University Press, Director of the Institute of Communications Research, with the rank of Research Professor of Journalism, and Assistant to the President, for one year beginning September 1, 1947, at a salary of \$10,000.

On motion of Dr. Meyer, this appointment was made as recommended.

TAXATION OF UNIVERSITY PROPERTY

After discussion, and on motion of Mr. McLaughlin, this matter was referred to the Committee on General Policy for consideration and recommendation.

MEETING OF THE BOARD OF TRUSTEES
OF THE
UNIVERSITY OF ILLINOIS

May 27, 1947

The May meeting of the Board of Trustees of the University of Illinois was held at the Abraham Lincoln Hotel, in Springfield, on Tuesday, May 27, 1947, according to the following schedule:

10:30 a.m. — Executive session, as in Committee of the Whole.

12 m. — Open session.

The following members were present: President Livingston, Mr. Fornof, Mrs. Holt, Mr. McKelvey, Mr. McLaughlin, Mr. Nickell, Mr. Williamson.

President Stoddard was present; also Professor C. R. Griffith, Provost, Mr. A. J. Janata, Assistant to the President, Mr. H. E. Cunningham, Secretary, Professor Lloyd Morey, Comptroller, Professor W. E. Britton, Legal Counsel, and, during part of the day, Dr. A. C. Ivy, Vice-President, and Mr. J. F. Wright, Director of Public Information.

MATTERS PRESENTED BY PRESIDENT STODDARD

The Board discussed in executive session several matters included in the agenda, and took action on the following matters presented by the President of the University.

PURCHASE OF HOUSING FOR FACULTY

(1) The Board of Trustees has made a number of important appointments to the faculty and more will follow. Most of these people will eventually buy or build homes in Champaign-Urbana, but in the meantime they need to rent homes for a year or two. Residence properties are for sale but not for rent at this time.

I request that the Board consider the purchase of a limited number of residences for rental to members of the faculty with the view to selling these properties when housing conditions improve sufficiently to warrant disposing of them. In the meantime, we would fix the rents at an appropriate carrying rate. Unless this is done, the University is in danger of losing the services of some of the top-flight men it has recently appointed. In fact, we have made appointments of deans with the understanding that suitable homes may be rented. Thus far, in spite of much discussion in faculty and community committees, the homes are not to be found.

A preliminary estimate of the maximum amount that might be needed or could be used for this purpose is \$150,000. I recommend that I be given authority to authorize negotiations for the purchase of properties to a total not to exceed this sum and payment for options where necessary, such negotiations when completed to be presented to the Executive Committee for approval and appropriation of necessary funds. I further recommend that the Executive Committee be given authority to approve the purchase of properties made under this proposal.

On motion of Mr. Fornof, authority was given to the President and to the Executive Committee as recommended.

APPOINTMENTS OF FACULTY COUNCIL AND ADVISORY COMMITTEE, INSTITUTE OF LABOR AND INDUSTRIAL RELATIONS

(2) The plan for the organization of the Institute of Labor and Industrial Relations as approved by the Board of Trustees provides for a Faculty Council to be appointed by the President of the University from the various colleges, schools, and departments of the University which have a part in the Institute and an Advisory Committee chosen from recognized leaders of public life, with equal representation from labor, management, and the public interests.

The following have been appointed as members of the Faculty Council of the Institute:

PHILLIPS BRADLEY, Director of the Institute of Labor and Industrial Relations,
Chairman

J. F. BELL, Professor of Economics

R. B. BROWNE, Dean of University Extension

H. M. GRAY, Associate Dean of the Graduate School

C. R. GRIFFITH, Provost

A. J. HARNO, Dean of the College of Law

At its meeting on January 25, the Board of Trustees received nominations from the Faculty Council for appointments to the Advisory Committee of the Institute. The President of the University was requested to submit a revised list of nominations for the personnel of this Committee to the Executive Committee of the Board for approval. It was the judgment of the Board that the list should be revised so that it will not include more than one person from any one company or city (except Chicago) and will provide for varying terms for the first appointees, looking toward regular terms of a specified number of years with one or more new members in each group appointed annually.

The Director of the Institute of Labor and Industrial Relations has submitted the following revised nominations which were presented by the President of the University to the Executive Committee for approval:

Labor

CLINTON BUSH, State Legislative Chairman, Brotherhood of Locomotive Firemen and Enginemen, 105 East 70th Street, Chicago

SAMUEL LEVIN, President, Illinois C.I.O. State Council, Chicago

 West Washington Street, Chicago
 VICTOR A. OLANDER, Secretary-Treasurer, Illinois State Federation of Labor, 666
 North Lake Shore Drive, Chicago
 REUBEN G. SODERSTROM, President, Illinois State Federation of Labor, Springfield

Management

HENRY BOLZ, Secretary, Decatur Association of Commerce, Decatur
 G. W. HOELSCHER, General Manager-Secretary, East Side Manufacturers' Association, Granite City
 WAYNE A. JOHNSTON, President, Illinois Central Railroad, Chicago
 LEVERETT S. LYON, Chief Executive Officer, Chicago Association of Commerce, Chicago
 OLIVER E. MOUNT, Vice President, American Steel Foundries, 410 North Michigan Avenue, Chicago

On motion of Mr. McLaughlin, this report was received for record.

LAND IN MEDICAL CENTER DISTRICT, CHICAGO

(3) On July 28, 1943 (Minutes, page 450), the Board approved a policy for the purchase of property in the block bounded by Wood, Polk, Taylor, and Hermitage Streets in Chicago, immediately east of the Professional Colleges and Research Hospital, as such property becomes available.

In the expansion of the Chicago Professional Colleges as approved by the Board on October 22, 1946 (Minutes, page 129), acquisition of land in additional areas in the Medical Center District is essential. Vice-President Ivy and Director Havens recommend that the Board now approve the policy of acquiring property, as it becomes available and as funds are provided, in the area bounded by Wolcott Avenue, Taylor Street, Damon Avenue, and Polk Street. This is an area of two blocks lying west of the Professional Colleges and Research Hospital in which the University already owns some property.

Because of the necessity of prompt action on certain properties, Vice-President Ivy and Director Havens request an appropriation for options and other expenses that have to be met before June 30, 1947. There is included \$300,000 for land in Chicago in the reappropriation capital budget of \$18,631,000 for 1947-1949; and \$500,000 is included in the additional capital budget of \$20,472,000 for the same biennium.

I concur in the above recommendations and request:

(a) The approval of property purchases in the area bounded by Wolcott Avenue, Taylor Street, Damon Avenue, and Polk Street.

(b) The appropriation of \$10,000 from the General Reserve Fund for necessary expenditures before June 30 on contracts for such purchases.

On motion of Mr. Williamson, these recommendations were adopted, and the appropriation made, by the following vote: Aye, Mr. Fornof, Mrs. Holt, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Mr. Williamson; no, none; absent, Mr. Davis, Mr. Green, Dr. Luken, Dr. Meyer, Mr. Nickell.

**APPOINTMENT OF LOUIS N. RIDENOUR AS PROFESSOR
 AND DEAN OF THE GRADUATE SCHOOL**

(4) I recommend the appointment of Louis N. Ridenour, now Professor of Physics at the University of Pennsylvania, as Professor of Physics on indefinite tenure and as Dean of the Graduate School for two years beginning September 1, 1947, at a total annual salary of \$12,000; provided that if Doctor Ridenour can begin his service prior to September 1, the effective date of his appointment will be advanced accordingly. This recommendation is made after consultation with

the Executive Faculty of the Graduate School as required in the University of Illinois Statutes.

During the discussion of this matter, Mr. Nickell took his place with the Board.

On motion of Mr. Nickell, this appointment was made as recommended.

**APPOINTMENT OF JOHN M. KUYPERS AS PROFESSOR AND
AS DIRECTOR OF THE SCHOOL OF MUSIC**

(5) I recommend the appointment of John M. Kuypers, now Professor and Head of the Department of Music at Cornell University, as Professor of Music on indefinite tenure and as Director of the School of Music from July 1, 1947, to August 31, 1949, at a total annual salary of \$8,500. This appointment is unanimously recommended by the Dean of the College of Fine and Applied Arts and a committee of the faculty appointed several months ago to study the qualifications of candidates for this position.

On motion of Mr. Williamson, this appointment was made as recommended.

HEARING OF CASE OF OTIS TAYLOR

Professor Britton made an oral report on the proceedings in the case of Otis Taylor, and recommended that the following resolution be adopted:

Be it Resolved by the Board of Trustees of the University of Illinois:

That the action of its President Park Livingston in appointing the Advisory Committee for the Division of Nonacademic Personnel, the members of which are: Professor R. N. Sullivan, *Chairman*, Mr. Lloyd Morey, Director C. S. Havens, Professor E. B. McNatt, Professor F. B. Seely, Professor E. W. Lehmann, Professor H. W. Bailey, Dr. E. H. Shideler, Dean E. R. Serles, or any of them, to arrange for a Hearing on the complaint of C. S. Havens, Director of the Physical Plant, and Donald E. Dickason, the Appointing Officer, against Otis Taylor, an employee of the Physical Plant Department of the University of Illinois, in which the Complainants ask that Otis Taylor be discharged for just cause as charged in the Complaint and the Amended Complaint, and on the Answer of the Respondent, be and the same is hereby affirmed, ratified, and approved, and

That the action of the Director of Nonacademic Personnel, in extending the period of suspension of Otis Taylor from May 7, 1947, to June 5, 1947, be and the same is hereby affirmed, ratified, and approved, and

That the suspension of Otis Taylor is hereby continued until terminated by the Board of Trustees of the University of Illinois, and

That all actions of the Hearing Committee in calling and conducting the Hearing, in making findings of fact and conclusions of law with respect thereto and reporting their recommendation to the Board of Trustees of the University of Illinois, be and the same are hereby affirmed, ratified, and approved.

On motion of Mr. Williamson, this resolution was adopted.

OPEN SESSION

The Board considered in open session the following matters presented by the President of the University.

RETIREMENT OF ASSOCIATE PROFESSOR WILLIA K. GARVER

(1) Miss Willia K. Garver, Associate Professor of Library Science and Assistant University Librarian for Acquisitions, has requested that she be retired from active service on September 1, 1947, under the provision in the law creating the University Retirement System of Illinois which permits retirement "on or after the attainment of age sixty-five (65) in exceptional cases and for substantial cause at the request of the Employee and upon certification of the Employer." Professor Garver will be 67 years old next July, and at the end of the current academic year will have been in the service of the University for 28½ years.

I recommend approval and that Miss Garver be retired September 1, 1947, with the rank of Associate Professor *Emerita*.

On motion of Mr. Nickell, these recommendations were adopted.

AWARD OF CERTIFICATES OF CERTIFIED PUBLIC ACCOUNTANT

(2) The Committee on Accountancy recommends that the certificate of Certified Public Accountant be awarded the following who have made applications therefor under Section 5 of the Accountancy Act of 1943 and who have submitted satisfactory evidence that they hold valid and unrevoked C.P.A. certificates issued by other states on the basis of their having passed the regular written examinations:

PAUL JAMES ADAM (Mo.)

EDWARD SAUNDERS REINHARD (N.Y.)

FRANK ANTON FURAR (Ohio)

WILLIAM TEMPLETON (Ore.)

JEROME MALEVAN (Mo.)

GERRIT VAN DETH (N.Y.)

I concur.

On motion of Mr. Williamson, these certificates were awarded as recommended.

RESIDENCE CLASSIFICATION OF MILITARY PERSONNEL APPLYING FOR ADMISSION TO THE UNIVERSITY

(3) Army and Navy personnel stationed in the vicinity of the University who desire to enroll as students are classified as temporary residents of Illinois for the purpose of assessment of tuition fees, by specific authority of the Board of Trustees (Minutes, August 5, 1941, page 421; October 21, 1941, page 673). The Board has also authorized classifying as temporary residents of Illinois the children of military personnel during the time they are stationed at posts in the State of Illinois regardless of the fact that previous residence may have been outside of Illinois.

Unless otherwise specified by the Board of Trustees, this special residence classification would entitle such persons to all the privileges of residents of Illinois for purposes of registration in the University, including the new priorities of admission approved by the Board under the progressive admissions plan. The Registrar therefore recommends that, except for Army and Navy personnel assigned to the University staff for R.O.T.C. and N.R.O.T.C. duty, the special residence provision for military personnel be discontinued. The residence of such persons will then be determined on the basis of their residence when they entered the service.

I concur in this recommendation.

On motion of Mr. McLaughlin, this recommendation was adopted.

CHANGES IN SCHEDULES OF FEES AND SCHOLARSHIPS

(4) The Faculty Committee on Fees and Scholarships submits the following recommendations:

1. *Adjustment in Student Activities Service Fee Charged Students in the Undergraduate Divisions at Chicago and Galesburg*

The Board of Trustees at its meeting on November 22, 1946 (Minutes, page 165), approved a recommendation authorizing the collection from students in the Undergraduate Divisions at Chicago and Galesburg a student activities service fee of \$2 a semester.

To provide athletic participation for students in the undergraduate branches of the University, both Divisions have under consideration a program of inter-collegiate and intramural athletics. The Committee on Fees and Scholarships recommends that in order partially to finance this program, the service fee of \$2 a semester in the Undergraduate Divisions at the Pier and at Galesburg be increased to \$4 a semester, effective September 1, 1947. This fee is to include admission to all home-ground athletic contests on presentation of student identification cards. The amount collected will be transferred to the Athletic Association, which will finance the entire program.

2. *Discontinuation of Matriculation and Graduation Fees and Increase in Laboratory, Library, and Supply Fee*

For many years the University has charged a matriculation fee of \$10 payable by every new student, which fee is not refundable. It has also charged, at the

time of graduation, a graduation fee of \$10. Collection of the latter fee involves special entries and accounting in both the Registrar's and Business Offices and therefore adds to administrative expenses.

In line with its previous recommendations for simplification of the fee structure of the University, the Committee on Fees and Scholarships recommends that the matriculation and the graduation fees be discontinued, effective September 1, 1947.

To offset this and provide a suitable adjustment in total fees payable, the Committee further recommends that the laboratory, library, and supply fee of \$5 a semester charged at Urbana-Champaign and at the Undergraduate Divisions in Chicago and at Galesburg be increased to \$8 a semester. This fee would be refundable under the same conditions as tuition fees. Students in extramural courses will also pay the laboratory, library, and supply fee of \$8, except that \$5 of that fee may be waived by the Dean of University Extension where no instructional materials are supplied by the University.

The Committee recommends that in the case of the Chicago Professional Colleges the matriculation and graduation fees be also discontinued, effective September 1, 1947, that the laboratory materials fee charged in those Colleges be changed to "laboratory, library, and service fee," and that the fee be increased by \$6 a year in each college. This additional amount would be refundable to students withdrawing from the University.

3. *Scholarships*

(a) Increase in number of University Scholarships. The Illinois State Academy of Science and the Chicago Academy of Sciences are cooperating to extend to Illinois the National Science Talent Search, conducted each year by the Science Clubs of America. During the present year, Illinois had four winners and 13 honorable mentions in the national contest. Of the remaining large group of entrants, many were outstanding students and many were also residents of Illinois. It is from this group that the Illinois State Academy of Science plans to select scholarship winners in Illinois. In view of the rigid basic requirements and the careful judging by both national judges and the State committee, it is felt that the students selected will be highly worthy of consideration for scholarships by colleges and universities in Illinois. The University of Illinois has been asked to consider the possibility of making available one or more scholarships for students selected by the State committee.

On September 27, 1940 (Minutes, page 45), the Board established new undergraduate scholarships known as "University scholarships," the number being limited to ten each year. The Committee recommends that these scholarships be increased by two each year for four years in order to give consideration to providing scholarships for outstanding students recommended by the Illinois State Academy of Science.

(b) Scholarships for foreign students. In April, 1946, the Committee on Fees and Scholarships recommended that the number of scholarships available to foreign students be increased from ten to 25, as of September, 1946, and to 50 as of September, 1947. After consideration of this recommendation, the Board voted to defer any increase in scholarships for foreign students until 1947.

The Committee on Fees and Scholarships recommends that the number of scholarships available to foreign students be increased to 25 as of September, 1947. Members of the Committee are still of the opinion that the reception of as many foreign students as possible would be a genuine contribution to international good will.

4. *No Special Fee for Courses in English for Foreign Students*

On September 24, 1946 (Minutes, pages 42-43), when the Board approved the adoption of English requirements for foreign students, it recommended "that the University administration consider the assessment of special fees for courses in English for foreigners."

The Committee on Fees and Scholarships has considered this but recommends that no special fee be assessed for courses in English which are designed for foreign students.

I concur in these recommendations.

On motion of Mr. Nickell, these recommendations were approved

with the exception of Section 3 (b) (foreign scholarships); this matter was referred to the faculty committee for further consideration and recommendation to the Board.

PER DIEM CHARGE FOR SERVICE AT RESEARCH AND EDUCATIONAL HOSPITAL

(5) All patients treated in the Research and Educational Hospital are admitted on recommendation of their family physicians. A significant number of the patients carry hospital prepayment insurance. It would appear proper for the University to collect this insurance. The Executive Committee of the Hospital and the Vice-President in charge of the Chicago Professional Colleges have submitted the following recommendation:

"That patients admitted to the University Research and Educational Hospital may be required to pay an established per diem cost of hospital care and other services, excepting doctors' services, or such proportions thereof as may be properly charged according to a liberal interpretation of their ability to pay, such ability to include coverage of hospital prepayment insurance, similar plans, or other resources; provided, however, that no restriction be placed on the admission of patients without charge when such admission is otherwise indicated."

To collect this insurance it is necessary for the University to establish a per diem hospital charge for patients, but there will be relatively few occasions for putting it into practice except in cases of insured patients. This proposal has been approved by the Council of the Chicago Medical Society.

I recommend approval.

On motion of Mr. McKelvey, this recommendation was adopted.

CHANGES IN UNIVERSITY CLUB CONTRACT

(6) Pursuant to action of the Board on October 29, 1943, the University executed, effective December 1, 1943, a contract with the University Club of Urbana under which the property was leased to the Club, subject to certain conditions, included in which was the following statement:

"The Club will operate the building and property described in this agreement and make available food service and living quarters thereon, for all of which it will assume full financial responsibility. . . ."

Since the execution of the agreement, the Physical Plant Department through the Illini Union Building organization has taken over, on an invoice basis, the janitor service at the request of the Club. This arrangement has proved satisfactory. The Club has now asked that the Physical Plant Department, through the Union Building management, also assume the responsibility for food service at the Club. It is proposed that the Union accept all financial responsibility for the operation, assuming losses and receiving profits resulting from the operation. Such a proposal will necessitate a change in the contract with the University Club.

The acceptance of such a proposal involves the following:

(a) Capital expenditures (equipment) in the amount of approximately \$16,000.

(b) Assumption of possible operating losses. To date the Club has not been able to operate the food service on a self-supporting basis. The best estimate of the operation indicates an annual deficit of approximately \$1,800.

As authorized by the Board on August 31, 1943, the University pays to the Illini Union the service charges for staff members, which the Union concluded it should not attempt to collect. The Union Building, with the increased student enrollment, is unable to serve the demands of the entire faculty and students. It seems reasonable, therefore, in view of the lack of adequate facilities in the Union Building for use by staff members, that the Union assume, at least on a trial basis, the responsibility for operating the food service at the University Club, as requested.

The Director of the Physical Plant and the Comptroller recommend:

(1) That the contract with the University Club be amended to place responsibility for food service at the Club on the University through the Illini Union, subject to termination at the end of any University year.

(2) Authorization of the expenditure of approximately \$16,000 for necessary equipment from the surplus funds of the Illini Union.

I concur in these recommendations and request authorization of the Comptroller and Secretary of the Board to execute the necessary addendum to the University Club contract.

After discussion, this matter was referred to a special committee, consisting of Mr. Fornof, Mr. Williamson, and Mr. McKelvey, for consideration and recommendation to the Board.

**ADDITION TO CONTRACT FOR ELECTRICAL CONNECTIONS
AT UNIVERSITY AIRPORT**

(7) The University has a contract with Hecker and Company, Inc., for the installation of an electrical distribution system at the University of Illinois Airport.

The Director of the Institute of Aeronautics and the Director of the Physical Plant Department request an increase of \$4,292 in this contract to cover additional work necessary to provide electrical connections to (1) a brick residence and garage; (2) a frame residence and old well house; (3) new well house;—all at the Airport. This was not included in the original contract as authorized by the Board of Trustees on October 18, 1945 (Minutes, page 874).

Funds are available and the work can be completed by August 31, 1947. The Comptroller recommends approval of this increase. I concur.

On motion of Mr. Williamson, this increase in contract was authorized as recommended.

**CONTRACT FOR DRAWINGS AND CONSULTING SERVICES
IN CONSTRUCTION OF BETATRON**

(8) Engineering services are needed in the preparation of the design and working drawings for the betatron, the principal item of equipment in the new Physics Research Laboratory. The Allis-Chalmers Manufacturing Company of Milwaukee, Wisconsin, is qualified to do this work satisfactorily because of its wide experience in building heavy electrical equipment and the excellent engineering work of that company on the 20-million-volt betatron developed during the war.

This company has estimated that the cost of making the detailed design of the principal parts of the 300-million-volt betatron, following specifications determined from calculations and work on models by the Physics Department, is \$35,000, but the company has proposed a contract which can be increased by not more than 30 per cent if the costs run above the stated figure, and which would be reduced if the costs are less.

The contract will cover consulting services in the design of the betatron; the preparation of detailed working drawings; consulting services during erection of the betatron; and in the interpretation of the drawings or alterations of design and drawings, if necessary. It will not cover cost of fabrication and erection.

Professor F. W. Loomis, Head of the Department of Physics, Professor Donald W. Kerst, inventor of the betatron, Dean M. L. Enger of the College of Engineering, and Comptroller Lloyd Morey recommend acceptance of this offer as a basis for a contract. I concur and recommend that the Comptroller and Secretary of the Board be authorized to execute a contract along the general lines indicated herein, subject to approval of the contract by the Legal Counsel as well as the other officers mentioned above.

On motion of Mr. McLaughlin, this contract was authorized.

**STRUCTURAL STEEL AND CELLULAR FLOOR SYSTEM
FOR NEW FINE ARTS BUILDING**

(9) The following bids have been received for fabrication and delivery of structural steel and for the cellular floor system for the new Fine Arts Building:

<i>Structural Steel Work</i>	<i>Amount</i>	<i>Delivery</i>
Duffin Iron Co.	\$68 950	210 days
Midland Structural Steel Co.	62 713	200 days
 <i>Cellular Floor System</i>		
H. H. Robertson Co.	42 942	

Only one bid was received for the cellular floor system, as this is a patented construction, available only from the H. H. Robertson Company.

These bids have been checked and are considered satisfactory. They contain a 30-day acceptance clause, extending from the bid opening date, after which the bids may be withdrawn by the bidders.

The Physical Plant Department recommends immediate award of contracts to the Midland Structural Steel Co., the lower bidder for structural steel on the basis of the lump sum quotation at \$62,713, and to the H. H. Robertson Co. for the cellular floor system on the basis of the bid of \$42,942.

I concur in these recommendations and request authority for the Comptroller and the Secretary of the Board to execute the contracts as recommended, subject to release of funds, a request for which has been submitted to the Governor.¹

On motion of Mr. McKelvey, these contracts were authorized.

STRUCTURAL STEEL FOR PHYSICAL ENVIRONMENT ADDITION

(10) The following bids have been received for furnishing and delivering of fabricated structural steel for the Physical Environment Unit of the Research and Educational Hospital in Chicago:

<i>Bidder</i>	<i>Base Bid (per lb.)</i>	<i>Delivery Date</i>	<i>Remarks</i>
American Bridge Co.	\$.085	12 months	No warehouse price
Bethlehem Steel Co.0763	Complete Decem- ber 31, 1947	Escalation not to ex- ceed \$11 a ton
(With escalator clause)	.0818		
Duffin Iron Co.082	Start 150 days; complete 160 days	No warehouse; add ½ of 1% for perform- ance bond
Vierling Steel Works.091	April, 1948; com- plete May, 1948	No warehouse

Although the Bethlehem Steel Company's bid (\$.0818 a pound) is slightly lower than that of the Duffin Iron Company, the architects recommend that the award be made to the Duffin Iron Company, based on their delivery date of 150 days, or approximately October 1, if the contract is awarded immediately. The Bethlehem Steel Company delivery date is December 31, approximately three months later. The Physical Plant Department approves the recommendations of the architects.

I concur and recommend that the Comptroller and Secretary of the Board be authorized to execute a contract as soon as funds are available. This recommendation will involve a total encumbrance of \$11,800, based on an estimate of 72 tons. A request has been submitted to the Governor for the release of the entire appropriation for this project.

On motion of Mr. Nickell, these recommendations were adopted.

NEW SMOKESTACKS FOR TEMPORARY HOUSES

(11) During the entire period of operating the temporary veterans' housing units there has been trouble with the metal smokestacks. Last fall some of the stacks were replaced with stacks designed to eliminate the trouble, but results have not been satisfactory.

The Physical Plant Department has concluded that it is necessary to construct stacks with vitreous enamel exterior. Only one proposal has been secured — from the Gas Service Company of Champaign.

The Director of the Physical Plant Department recommends the award of a contract for \$3,681 for the replacement of 275 smokestacks within the budgets established and approved by FPHA for repairs, maintenance, and replacements under this project.

I concur and request authority for the Comptroller and Secretary of the Board to complete such a contract.

On motion of Mr. Fornof, authority was granted as recommended.

¹ See page 370.

**RELEASE OF FUNDS FROM STATE-WIDE PUBLIC WORKS
PROJECTS APPROPRIATION**

(12) Governor Dwight H. Green has authorized the release of funds from the appropriation made to the University of Illinois by the 64th General Assembly in the "Act making appropriations for a State-wide system of public works projects, including all ordinary and contingent expenses relating thereto," as follows:

Release No. 361

"For construction of Mechanical Engineering Building and equipment..\$1 102 000"
Amount released (to be used as designated in the title for this item)... 957 410

Release No. 377

"For construction of Fine Arts Building and equipment.....\$ 740 000"
Amount released (to be used as designated in the title for this item)... 706 700

I recommend that these funds be appropriated by the Board of Trustees for the expenditures specified in the releases.

On motion of Mr. McKelvey, these funds were appropriated as recommended, by the following vote: Aye, Mr. Fornof, Mrs. Holt, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Mr. Nickell, Mr. Williamson; no, none; absent, Mr. Davis, Mr. Green, Dr. Luken, Dr. Meyer.

**PURCHASE OF ILLINOIS TERMINAL RAILWAY COMPANY
RIGHT-OF-WAY**

(13) On November 22, 1946 (Minutes, page 164), the Board authorized the purchase of a part of the right-of-way of the Illinois Terminal Railway Company within the campus which has become available as a result of the discontinuance of the use of the track through this right-of-way. At that time the University purchased all the land that was offered to it. It now develops that an additional tract of a total area of 12,740 square feet can be purchased at a price of \$1,000. The land extends from the west line of Harvey Street about halfway to Gregory Avenue in Urbana. The land is needed for additional storage space adjacent to the present Physical Plant yard.

The Director of the Physical Plant Department and the Comptroller recommend this purchase. I concur and request an appropriation of \$1,000 from the General Reserve Fund to meet the cost.

On motion of Mr. McLaughlin, this purchase was authorized and the appropriation made, by the following vote: Aye, Mr. Fornof, Mrs. Holt, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Mr. Nickell, Mr. Williamson; no, none; absent, Mr. Davis, Mr. Green, Dr. Luken, Dr. Meyer.

PURCHASE OF AIRCRAFT AND AVIATION INSURANCE

(14) The Purchasing Agent recommends the purchase of aircraft and aviation insurance effective July 1, 1947, for one year as follows:

Aircraft Insurance—Liberty Mutual Insurance Company of Chicago, the lowest bidder, with a bid of \$2,037.80, less 20 per cent at the termination of the policy, or a net premium of \$1,630.24.

Aviation Insurance—Associated Aviation Underwriters of Chicago, represented by H. R. Bresee Agency, Champaign, one of the lowest bidders, at a premium of \$3,293.80. However, Bresee requires no deposit premium for the admitted liability (accident insurance to University members), while the others make such requirement.

The aircraft insurance covers the following:

A. Hull coverage, including all-risk insurance on the planes, covering against fire, lightning, windstorm, hail, and so forth, while the plane is on the ground. Also, coverage against fire to the plane while in flight. Coverage includes the plane, its instruments, and equipment ordinarily attached thereto.

B. Hangar keepers' legal liability, covers the University's legal liability for any aircraft in the care or custody of the University, damaged or destroyed by fire, windstorm, land damage, theft, and so forth. This does not cover the actual loss occasioned by the elements but only the University's legal liability.

The aviation insurance covers the following:

A. Aircraft liability for any accident caused by the operation of aircraft both on and off the premises, owned, leased, or operated by the insured, covering bodily injury with \$50/250 limits and property damage to the extent of \$50,000. Also includes admitted liability in the amount of \$5,000, covering all members of the University of Illinois who may ride in an aircraft.

B. Airport liability for accidents occurring on the University's premises and adjoining ways by reason of accidents resulting from the use, maintenance, and control of the premises, covering bodily injury liability with \$50/250 limits and property damage to the extent of \$50,000.

C. Products' liability, covering the sale of defective gas, oil, and so forth; also improper repairs and service of parts, to the extent of \$50/250 public liability and \$50,000 property damage.

D. Accident insurance for student flyers, in the principal amount of \$3,000, with medical benefits of \$500.

The Comptroller recommends approval and has submitted the proposal to the Finance Committee, which has indicated its approval. Confirmation by the Board is requested.

On motion of Mr. Williamson, the purchase of this insurance was authorized as recommended.

PURCHASE OF BUILDERS' RISK INSURANCE ON WOMEN'S RESIDENCE HALL

(15) The Purchasing Agent recommends the purchase of builders' risk insurance, including fire, estimated coverage, vandalism, and malicious mischief, on the women's residence hall now under construction, from the following four lowest bidders:

<i>Insurance Agent</i>	<i>Insurance Carrier</i>	<i>Amount of Insurance</i>	<i>Estimated Net Premium</i>
Lumbermen's Mutual.....	Central Manufactures	\$800 000	\$ 955
Monier & Morrissey.....	United States Fire	800 000	1 200
Burton & Trelease.....	Insurance Company of North America	800 000	1 275
George Franks.....	American Eagle Company	800 000	1 275

The above companies meet our requirements and quote identically low vandalism rates. Lumbermen's is the only mutual company quoting on this risk that will accept a full one-quarter of the risk.

The amount of insurance is based on an ultimate valuation of \$3,200,000, completion estimated at September 1, 1948, with any unearned premium to be cancelled on a short rate basis. The earned premium is to be calculated on an estimated insurable valuation of \$2,800,000.

Under its usual contracts with builders, the University carries such insurance. This is more advantageous than requiring various contractors to carry the insurance and including it in their cost charges to the University.

The Comptroller has recommended approval and has submitted the proposal to the Finance Committee, which has indicated its approval. Confirmation by the Board is requested.

On motion of Mr. Nickell, the purchase of this insurance was authorized as recommended.

APPROPRIATION FOR MILITARY STABLES REPAIR AND REPLACEMENT OF EQUIPMENT DAMAGED BY FIRE

(16) The Military Stables on the south campus were constructed by the University in 1919-1922 (the inventory value as of June 30, 1946, was \$48,600) to house horses assigned to the University of Illinois for the training of students in the Cavalry and Field Artillery Units of the Reserve Officers Training Corps. Several

years ago when the Cavalry and Field Artillery were mechanized, the horses were removed. A part of the Stables was assigned to the Chemical Engineering Division of the Department of Chemistry during the war for use in research work on military problems for the United States Office of Scientific Research and Development. The rest of the building was used for storage. Since the war the Chemical Engineering Division has continued to use part of the building for graduate research work.

Early in the morning of April 30 a fire originated in the northeast wing in the space assigned to Chemical Engineering. The fire apparently originated in or around equipment used in the development of a new sulphur burner. Other sections of the building were also seriously damaged. They had been used for the temporary storage of furniture received from the Federal Public Housing Authority, storage of materials purchased in connection with the Physics Research Laboratory, and general storage.

The north unit and connecting center area are a complete loss and in the judgment of the Director of the Physical Plant Department, in which the Professor of Military Science has concurred, the University would not be justified in expending funds for rebuilding this unit now, although at some future time expenditures may be necessary to provide housing for mechanized equipment. He estimates the cost of repairs and replacements necessary as follows:

Repairs to and replacement of housing equipment.....	\$ 250
Replacement of doors and other construction materials purchased for the Physics Research Laboratory.....	2 300
Replacement of insulating materials purchased for temporary warehouse being constructed as a Federal Works Agency project	525
Removal of north section of Stables and repairs to south unit..	14 800

The Director recommends that:

1. The south unit be repaired to the extent necessary for its use as a warehouse; and that the north and center units not be rebuilt.

2. The cost of replacing the destroyed and damaged materials purchased for the Physics Research Laboratory be charged against funds for the construction of that building.

3. The repairs and replacement of the temporary housing equipment be charged against the State appropriation for student housing.

4. A special appropriation of \$15,325 be made for (a) removal of debris and reconstruction of south unit, and (b) replacement of insulating material purchased for the temporary warehouse.

Losses of chemical research equipment will be charged against Government funds provided for the research programs for which the equipment was being used. Contracts with the Government provide allowances for indirect costs of such projects and these funds are available to apply on the loss.

I concur in these recommendations, including the appropriation requested.

On motion of Mr. Fornof, these recommendations were approved and the appropriation was made, by the following vote: Aye, Mr. Fornof, Mrs. Holt, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Mr. Nickell, Mr. Williamson; no, none; absent, Mr. Davis, Mr. Green, Dr. Luken, Dr. Meyer.

FIELD OFFICE FOR SMALL HOMES COUNCIL

(17) The Small Homes Council was established by the Board of Trustees in September, 1944, to coordinate the resources of the several divisions of the University and focus their research and other services on the small home problem. In May, 1945, the Board authorized setting up a "Home Research Center" for demonstration and experimentation. On June 30, 1945, a special appropriation of \$50,000 was made by the Board for the Home Research Center of the Small Homes Council; \$20,500 was assigned for the purchase of property, and the balance was set aside as a reserve for purchase of other properties and to develop the physical services such as drainage, drives, and other improvements required for the construction of the first technical research homes.

These funds have been used for some of the purposes indicated and there remains approximately \$17,000. The Coordinator of the Small Homes Council requests the use of this balance for the construction of a field office for the Small Homes Council and a research house. The field office has been designed to provide facilities for the advancement of housing research, not as quarters for the Small Homes Council. Plans have been prepared for an attractive, efficient, service-type building which is not of permanent construction and which can be erected in a short time.

I recommend that the Board authorize the use of the remaining funds in the appropriation for the Home Research Center for the construction of a field office and another research house.

On motion of Mr. McLaughlin, the use of these funds was approved for the purposes requested.

CHANGES IN THE BUDGET OF THE ATHLETIC ASSOCIATION

(18) The Board of Directors of the Athletic Association requests approval of the following actions:

1. An appropriation of \$6,752 to cover the cost of rehabilitating and strengthening all of the bleachers owned and used by the Athletic Association on the campus to bring them up to the minimum specifications set by the committee appointed by President Stoddard, the contract for the work to be awarded to the Leavitt Manufacturing Company, from whom most of the bleachers were purchased.

2. An appropriation of \$2,000 for the Intramural Festival, which was a combination of the intramural activities for the Galesburg Division, Chicago Undergraduate Division and the Medical College, and the Champaign-Urbana Division.

3. An appropriation of \$1,250 for the intramural and intercollegiate activities at the Galesburg Division. The original appropriation for this purpose was in the amount of \$750 and was intended to cover only the intramural activity. The additional appropriation is necessary to cover the cost of the intercollegiate activities, particularly basketball, and will bring the total amount appropriated to \$2,000, which is approximately the same as that appropriated for athletic activities in Chicago.

4. An appropriation of \$3,000 to the Alumni Association for the services rendered to the Athletic Association by the Field Secretary of the Alumni Association during the fiscal year 1946-1947.

The above actions have been reviewed by the Comptroller, and he submits them for approval. I recommend approval.

On motion of Mr. Williamson, these changes in the budget of the Athletic Association were approved.

QUARTERLY REPORT OF THE COMPTROLLER

(21) The Comptroller presents his quarterly report to the Board as of March 31, 1947. Copies of this report have been sent to all members of the Board in advance of this meeting.

This report was received for record.

EMERGENCY LOAN FUNDS

(22) The Finance Committee has authorized the Comptroller, as an emergency measure, to transfer from long-term loan funds to emergency loan funds any balances necessary to provide for the demand for emergency loans. Such authorization permits the transfer of any student loan funds, except those in which the deed of gift prohibits such action, and makes available approximately \$150,000 for such purposes if there is sufficient demand for such amount.

On September 30, 1936, the Board authorized the transfer of \$10,000 from long-term loan funds which, together with several small loan funds given specifically for emergency purposes, has until recently been adequate. Due to the delays experienced by veterans in receiving subsistence checks from the Veterans Administration, at times the demand for the emergency loan service maintained in the Bursar's Office becomes unusually heavy. Experience shows that such loans are almost without exception paid promptly when the subsistence checks are received, within 60 to 90 days after the loan is made.

The demand for long-term loans is at present negligible, and approximately only 12 per cent of the funds administered at Urbana are lent to students, the balance being invested in government bonds or carried as cash.

Confirmation of this action is requested.

On motion of Mr. McLaughlin, the action of the Finance Committee in transferring these funds was approved and confirmed.

CONTRACT FOR CONSTRUCTION OF SUB-STRUCTURE OF POWER PLANT ADDITION

(23) The following bids have been received on the sub-structure of the Power Plant Addition: Kuhne-Simmons Company, \$56,825; John Felmley Company, \$61,600. Both are firm bids, and the contractors state that they can start work 10 days after the award of the contract and complete the work in 15 weeks.

Funds are available for this work. The Director of the Physical Plant Department recommends the award of the contract to the Kuhne-Simmons Company in the amount of \$56,825. I concur and request that the Comptroller and Secretary of the Board be authorized to execute such a contract.

On motion of Mr. Williamson, this award was authorized and authority given as recommended.

SPECIAL APPROPRIATIONS FOR NONRECURRING EXPENDITURES

(24) The Committee on Special Appropriations and Nonrecurring Expenditures recommends assignments from the General Reserve Fund to the Chicago Professional Colleges for the following purposes:

Building for storing and sorting linens.....	\$ 6 200
Replacement of outworn X-Ray therapy unit.....	9 500
Patient history indexing—soundex guides.....	1 415
Reconversion of radium bomb.....	8 000
Hospital furniture and equipment.....	10 000
<i>Total</i>	<u>\$35 115</u>

I concur.

On motion of Mr. Nickell, these appropriations were made as recommended, by the following vote: Aye, Mr. Fornof, Mrs. Holt, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Mr. Nickell, Mr. Williamson; no, none; absent, Mr. Davis, Mr. Green, Dr. Luken, Dr. Meyer.

REPLACEMENT OF RESEARCH FACILITIES IN CHEMICAL ENGINEERING

(25) The fire at the Military Stables on April 30 (see page 371) destroyed facilities which were used for research work under a contract with the United States Navy. New facilities for this project must be found. It is proposed that space for this be provided in a new building to be erected as an extension to one of the Quonset Huts which is being constructed for the Department of Aeronautical Engineering at the University Airport. This location is desirable because:

1. The nature of the work on this contract is closely related to the research in Aeronautical Engineering. Much of the equipment that is needed by the two research groups can be used in common. The Navy is furnishing a large part of the equipment for our contract. The facilities that are being installed by Aeronautical Engineering in the new building will provide us with a greater supply of high pressure air than we can obtain at any place on the campus because of limitations in electrical power.

2. A part of the program on this contract will require work at supersonic velocities and will produce a noise of high intensity that may be objectionable in the residential areas.

3. By planning an extension to the new building before construction is started, the additional cost will be held to a minimum and the University will be able to supply facilities for work on the contract without a major expenditure of funds. When the work on the Navy contract is terminated, the additional space will be useful to the Department of Aeronautical Engineering.

Dr. H. F. Johnstone, Professor of Chemical Engineering, who is in charge of this research, requests that \$12,000 be assigned from funds accumulated under Government contracts covering research in Chemical Engineering for the construction and equipment of an extension to the Aeronautical Research Laboratory at the University Airport. The building itself will cost approximately \$7,000 and the extension of utilities (electric power, heat, water, telephone) will cost approximately \$5,000.

It is further proposed that the purchase of the additional building be made in conjunction with buildings for Aeronautical Engineering authorized by the Board on April 24. This plan is approved by Professor Roger Adams, Head of the Department of Chemistry, Professor H. S. Stillwell, Head of the Department of Aeronautical Engineering, and Director L. A. Bryan of the Institute of Aeronautics.

I recommend approval of the program and the assignment of \$12,000 from Government contract funds as proposed.

On motion of Mr. Fornof, these recommendations were adopted, and the appropriation was made by the following vote: Aye, Mr. Fornof, Mrs. Holt, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Mr. Nickell, Mr. Williamson; no, none; absent, Mr. Davis, Mr. Green, Dr. Luken, Dr. Meyer.

DISPOSAL OF STOCK RIGHTS IN PACIFIC GAS AND ELECTRIC COMPANY STOCK

(26) The University is the owner of 100 shares of Pacific Gas and Electric Company common stock. Rights are being issued to subscribe for one additional share common stock for each 10 shares held and thus the University will receive rights to subscribe to 10 additional shares. The First National Bank of Chicago recommends that the rights, currently selling at around \$1 a share, be sold, and the Comptroller concurs.

Authorization to sell such rights and approval of the following resolution is requested:

Whereas, the Board of Trustees of the University of Illinois is the owner of

100 shares of Pacific Gas & Electric Company common stock and has the right to subscribe to one share of stock for each 10 shares of stock held, and

Whereas, the Board of Trustees has approved the sale of such stock rights in its meeting of May 27,

Now, therefore, be it resolved by the Board of Trustees of the University of Illinois that Lloyd Morey, Comptroller, and H. E. Cunningham, Secretary, be authorized to execute any and all documents necessary to complete such sale.

The University often receives rights to subscribe to common stock held and very often the Investment Counsel recommends that such rights be sold. The selling price is usually nominal. In order to complete sale of such rights, a resolution of the Board is necessary, and present procedures are such that a separate resolution must be approved for each such sale. It is requested that the Board approve a blanket resolution authorizing the Comptroller and Secretary of the Board to execute all documents necessary to complete the sale of stock rights so received. This authority is requested with the limitation that it is to be used only for the sale of stock rights after such sale has been recommended by the Investment Counsel and approved by the Finance Committee of the Board and only in those cases where the amount to be received as the result of such sale does not exceed \$1,000.

If such action is authorized, the following blanket resolution should be approved:

Whereas, the Board of Trustees of the University of Illinois, as the owner of shares of stock of corporations, becomes the recipient of rights issued to stockholders of such corporations to subscribe to other shares of stock in such corporations, and

Whereas, the Board of Trustees wishes to delegate to its Secretary and Comptroller the authority to sell such rights to subscribe,

Therefore, be it resolved, that any of the persons now or hereafter holding the offices of Secretary and Comptroller of the Board of Trustees of the University of Illinois be, and they hereby are, fully authorized and empowered to transfer, endorse, sell, assign, and deliver any and all rights to subscribe to shares of stock now or hereafter standing in the name of or owned by the Board of Trustees of the University of Illinois, and to make, execute, and deliver, under the corporate seal of this Corporation, any and all written instruments of assignment and transfer necessary or proper to effectuate the authority hereby conferred.

On motion of Mr. Williamson, these resolutions were adopted and authority given as recommended.

ADDITIONAL STATE BUILDING APPROPRIATION REQUESTS

(27) A recommendation that the amounts provided in the schedule of revised capital appropriation requests approved April 24, 1947 (Minutes, page 339), for the addition to the Research and Educational Hospital and Equipment (\$5,800,000) and Experimental Research Building (\$500,000) on the Chicago campus be reconsidered and distributed as follows: Chronic Illness and Geriatrics Research Hospital and Equipment, \$2,500,000; Cancer Detection, Treatment, and Research Hospital and Equipment, \$3,800,000. The total remains the same.

Dr. Ivy discussed this recommendation.

On motion of Mr. Fornof, the changes in the schedule were approved as recommended, and the total requests were reaffirmed.

PURCHASE OF SECURITIES

Mr. Williamson presented the following report.

The Finance Committee of the Board of Trustees reports the following transactions involving securities, which are investments of endowment funds:

<i>Purchases</i>	<i>Price</i>

HEARING OF CASE OF OTIS TAYLOR

Professor Britton presented the report of the Hearing Committee (Professor R. N. Sullivan, Professor H. W. Bailey, and Professor F. B. Seely) in the proceedings for the discharge of Otis Taylor from the University of Illinois Civil Service.

Conclusion of law: The Committee concludes that the unjustified striking of Walter Kieback by Otis Taylor constitutes just cause for discharge from the classified civil service of the State in relation to the University of Illinois.

Recommendation: The Committee therefore recommends that the employee, Otis Taylor, be discharged, and that this decision of the Board be certified to the appointing officer and be enforced by him.

On motion of Mr. McKelvey, the defendant in this proceeding was allowed thirty days to file in writing in the office of the Secretary of the Board his objections to the findings, conclusions of law, and recommendations of the Hearing Committee.

MINUTES APPROVED

The Secretary presented the minutes of the meetings of April 24 and May 27, 1947.

On motion of Mr. McLaughlin, the minutes were approved as printed on pages 333 to 386 above.

MATTERS PRESENTED BY PRESIDENT STODDARD

The Board discussed in executive session several matters included in the agenda, and took action on the following matters presented by the President of the University.

RESEARCH HOUSES AND FIELD OFFICE FOR SMALL HOMES COUNCIL

(1) A report of action of the Executive Committee, pursuant to authorization by the Board on April 24, 1947 (page 341), and May 27, 1947 (page 372), awarding contracts to lowest bidders and authorizing the Comptroller and the Secretary to execute contracts as follows:

General work on six research houses in staff housing project to Mr. R. E. Worsham for \$5,700.

General work on field office and slab laboratory to C. A. Petry & Sons for \$12,060.

General work on one research house to C. H. Siems for \$870.

This report was received for record.

TRAINING OF TEACHERS OF AGRICULTURE

(2) On October 20, 1939, the President of the University informed the Board of Trustees that two of the state teachers colleges had announced intentions to establish courses in agriculture that would meet State and Federal requirements for Smith-Hughes teacher-training. Existing facilities at the University of Illinois were amply sufficient at that time and still are to meet the demand for Smith-Hughes teachers. The Board of Trustees requested the President of the University to inform the Governor and the members of the State Board for Vocational Education that the Board considered the proposed expansion an unnecessary duplication of educational offerings (Minutes, October 20, 1939, pages 642-644).

Recently the State Board for Vocational Education has approved such work for the Illinois State Normal University.

I recommend that the Board of Trustees again recognize the priority of the University of Illinois for teacher-training in vocational agriculture, and that the President of the University be authorized to address letters of protest on behalf of the Board to the Governor, to the Superintendent of Public Instruction, to each of the members of the State Board for Vocational Education, and to each of the presidents of the teachers colleges and normal universities.

The reasons for this request are contained in Exhibits A, B, and C (see page 448).

After full discussion, and on motion of Dr. Meyer, the Board reaffirmed its opposition to the dilution and weakening of agricultural education in the State of Illinois that would follow the unnecessary duplication of the program of the University in the state teachers colleges and normal universities, and authorized the President of the University to take measures to oppose the proposal, including presentation of the position of the University to the State Teachers College Board and the State Board for Vocational Education.

PURCHASE OF RESIDENCE PROPERTIES FOR STAFF HOUSING

(3) The Board of Trustees on May 27, 1947, authorized the purchase of a limited number of residence properties in Urbana-Champaign for rental, possibly for resale eventually, to administrative officers who have recently been appointed. Under this authorization options have been secured on the following properties:

- 1108 West Green Street, Urbana.....\$38 000
(William F. Schulz, Owner)
This property consists of a house and two lots, one a vacant lot adjoining it which the University should have.
- 1001 West Nevada Street, Urbana..... 22 000
(Chester W. Richards, Owner)
- 601 Haines Boulevard, Champaign..... 22 000
(R. L. Patterson, Owner)

508 South Ridgeway, Champaign.....	21 000
(L. J. Haworth, Owner)	
608 West Church Street, Champaign.....	20 000
(L. H. Wise, Owner)	

All these houses are suitable for occupancy by University officials. In addition, the first two have the advantage of being in areas which the University needs to acquire for future expansion.

The purchase prices of the first two have been checked by Newton C. Farr of Chicago, who is retained as consultant for this purpose and who personally inspected them. Appraisals have been secured on the other three by independent Urbana-Champaign real estate experts. I recommend the purchase of these properties and that an appropriation of \$125,000, or so much thereof as may be necessary, be made from the General Reserve Fund to cover the purchases and expenses incidental thereto, including the University's share of taxes. I also request that the Comptroller and Secretary of the Board be authorized to conclude contracts for the purchase of these properties, the University to secure possession not later than September 1, 1947.

In approving this program on May 27, 1947 (page 362), the Board of Trustees authorized a total investment of \$150,000. It is recommended that the Executive Committee be authorized to purchase one additional house and that an appropriation of \$25,000 or so much thereof as may be necessary, be made from the General Reserve Fund for this purchase.

On motion of Mr. Davis, these recommendations were approved and adopted. The appropriation was made by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Holt, Mr. Livingston, Mr. McLaughlin, Dr. Meyer, Mr. Nickell; no, none; absent, Mr. Green, Dr. Luken, Mr. McKelvey, Mr. Williamson.

PLANS FOR RESEARCH AND EDUCATIONAL HOSPITAL ADDITION

(4) The revised schedule of new capital appropriations requested for the biennium of 1947-1949, as approved by the Board on April 24, 1947, included an item of \$5,800,000 for an addition to the Research and Educational Hospital and equipment. The plans and working drawings for this addition have been under way and are nearing completion. The total cost of the plans to date is \$220,075. To complete them will cost \$12,400 more.

On recommendation of the Vice-President in Charge of the Colleges of Medicine, Dentistry, and Pharmacy, the Board of Trustees has approved a revision of the new appropriation for buildings on the Chicago campus to include provisions for the following:

Chronic Illness and Geriatrics Research Hospital and Equipment.....	\$2 500 000
Cancer Detection, Treatment, and Research Hospital and Equipment....	3 800 000

The addition to the General Hospital would be postponed. The total of the appropriations for the Chicago Colleges remains the same, \$13,000,000.

Inasmuch as the plans for the General Hospital are so near completion, it is recommended that we expend the additional sum of \$12,400 for this purpose. It is my understanding that the General Hospital will still be needed.

On motion of Dr. Meyer, this expenditure was authorized as recommended.

LEGAL SERVICES IN MILLIGAN CONDEMNATION SUIT

(5) The Henry I. Green Law Office has rendered a bill for services and expenses in the condemnation suit for the Milligan property in Urbana, in the amount of \$3,516.73. The Legal Counsel advises that he considers the bill satisfactory. The Director of the Physical Plant advises that land appropriations are insufficient to cover it and requests a special appropriation from the General Reserve Fund.

I recommend approval of the bill and an appropriation for it.

On motion of Mr. Davis, this bill was approved as recommended, and the appropriation was made, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Holt, Mr. Livingston, Mr. McLaughlin, Dr.

Meyer, Mr. Nickell; no, none; absent, Mr. Green, Dr. Luken, Mr. McKelvey, Mr. Williamson.

PURCHASE OF CLARK PROPERTY

The Legal Counsel reviewed the negotiations by the University for the purchase of the following properties owned by Alice V. B. Clark:

The North half (N½) of the East Eighty-five (E 85) feet of Lot Eleven (11) in W. M. Goodwin's Addition to Urbana in Champaign County, Illinois;

The South half (S½) of the East Eighty-five (E 85) feet of Lot Eleven (11) in W. M. Goodwin's Addition to Urbana in Champaign County, Illinois.

Mr. Chaney L. Finrock, an Urbana attorney, is the Conservator of Alice V. B. Clark and of her estate. Negotiations, over a period of some months, for the acquisition of these properties, have been conducted with the Conservator. A committee, appointed by the County Court of Champaign County, appraised the two properties at \$40,000. It is recommended that the Board of Trustees authorize an offer of \$38,000 to the Conservator for both properties as set forth in the Proposal herewith submitted to the Board of Trustees.

On motion of Mr. Davis, the Board approved this Proposal and authorized the Comptroller and the Secretary of the Board to submit the same to the Conservator as its offer to buy the properties on the terms therein stated.

CASE OF OTIS TAYLOR

The Secretary reported that he had received the objections to the findings, conclusions of law, and recommendations of the Hearing Committee in the case of Otis Taylor (Minutes, May 27, 1947, page 380), had referred the objections to the Legal Counsel, and had received the answer of the Legal Counsel to the objections.

Professor Britton discussed this matter, which was referred to the Committee on Civil Service and Employees for consideration and recommendation to be made to the Board at the next meeting.

INSTALLATION OF PRESIDENT STODDARD

Dr. Meyer, for the Special Committee on the Installation of the President (Dr. Meyer, Mr. Davis, Mr. Fornof), presented the following report.

The Chairman of the General Committee on the Installation of the President has submitted an estimate of \$28,500 as the total cost of all the ceremonies. These include the professional conferences at the Colleges of Medicine, Dentistry, and Pharmacy, the convocation and functions at the Chicago Undergraduate Division (Navy Pier), the formal installation ceremony at Urbana, the symposium on higher education at Urbana, and the reception for visiting delegates and other official guests at Robert Allerton Park. The figure also includes the cost of the first edition of the Robert Allerton Park brochure which was distributed to the guests at the reception, and an estimate of \$2,000 for the publication of the proceedings of the entire installation. The Board of Trustees made a preliminary appropriation of \$10,000, so that a supplementary appropriation of \$18,500 is necessary.

On motion of Dr. Meyer, this appropriation was made, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Holt, Mr. Livingston, Mr. McLaughlin, Dr. Meyer, Mr. Nickell; no, none; absent, Mr. Green, Dr. Luken, Mr. McKelvey, Mr. Williamson.

OPEN SESSION

When the Board convened in open session, the following members were present: President Livingston, Mr. Fornof, Mrs. Holt, Mr. McLaughlin, Dr. Meyer, Mr. Williamson.

The same officers were present as during the executive session.

MATTERS PRESENTED BY PRESIDENT STODDARD

The Board considered the following matters presented by the President of the University.

APPOINTMENTS TO THE 1947 SUMMER SESSION

(1) There is submitted for approval recommendations from the Dean of the Summer Session for appointments to the teaching staff for the 1947 Summer Session. This budget provides for a 16-week session at Urbana, an 8-week session at the Galesburg and the Chicago Undergraduate Divisions, and for some graduate teaching in the College of Pharmacy. Salaries recommended have been computed as follows:

1. For 12-month appointees,¹ it is proposed that a base amount of 1/48 of the annual salary be paid for each week of teaching.

2. For appointees on tenure of less than 12 months a base monthly salary is proposed equal to that paid during the regular session.

3. The maximum salary of \$1,200 for eight weeks' service was used as a basis for calculating maximum compensation for assignments other than eight weeks. (This maximum was approved by the Board of Trustees on December 28, 1946, page 198.)

4. A minimum salary of \$275 for half time for eight weeks and \$550 for full time for eight weeks is proposed, this minimum to be used as a basis for computing the minimum compensation for assignments other than eight weeks.

The total of the proposed appointments is \$783,820. This exceeds the amount allotted in the internal budget for 1947-1948 by \$188,370. The Dean of the Summer Session requests an appropriation of \$190,000 to cover the deficiency and to make other minor adjustments which may be necessary. I recommend that:

1. The appointments for the Summer Session be approved as submitted (for list, see page 452).

2. All appointments or contracts for service during the Summer Session include a provision permitting reduction in time and salary or cancellation of the contract in the event that enrollment in certain courses or sections thereof does not warrant continuation of the appointment on the basis originally recommended.

3. An appropriation of \$190,000 be made from the University General Reserve Fund to the budget of the Summer Session.

4. The President of the University be authorized to make such changes and adjustments, including additional appointments and acceptance of resignations, as are necessary in accordance with the needs of the University.

On motion of Mr. Fornof, this program was approved and authorized. The appropriation was made by the following vote: Aye, Mr. Fornof, Mrs. Holt, Mr. Livingston, Mr. McLaughlin, Dr. Meyer, Mr. Williamson; no, none; absent, Mr. Davis, Mr. Green, Dr. Luken, Mr. McKelvey, Mr. Nickell.

EXEMPTION OF STAFF MEMBERS FROM PAYMENT OF TUITION FEES

(2) By authority of the Board of Trustees, members of the University staff and of the staffs of allied surveys and laboratories on the University campus in the lower salary brackets, and scholars and fellows in the Graduate School, are permitted to take graduate work without payment of tuition, laboratory, library, and supply fees.

The Board of Trustees has specified from time to time the salary rates to which the exemption will apply. At present the exemption applies to staff members receiving annual salaries of \$1,800 or less. A new minimum salary for full-time assistants of \$2,400 has been established. I therefore recommend the fee-exemption regulations be amended to read as follows:

"Persons on the academic and administrative staffs of the University in any capacity, or who are on scholarship or fellowship appointment in the Graduate School, or who are on permanent employment on the nonacademic staff, may

¹Teaching faculty whose services are required during the two semesters of the academic year (September-June) but whose salaries are paid in twelve monthly installments.

register in University courses for which they are eligible for admission without payment of the tuition fee and the laboratory, library, and supply fee, provided their annual salary is \$2,400 or less."

I recommend that this become effective immediately so that it will apply to the 1947 Summer Session. This is desirable because the supplementary salary adjustments made effective as of September 1, 1946, affect the status of regular University employees who are now registered in the Summer Session.

On motion of Mr. Williamson, the regulations were amended as recommended.

REQUIREMENTS FOR GRADUATION IN THE SCHOOL OF JOURNALISM

(3) The University Senate recommends that Section (2) of the requirements for graduation from the School of Journalism be amended to read as follows:

"(2) complete 64 semester hours of work in a curriculum in the School of Journalism including not less than 30 nor more than 40 hours of credit in professional courses of junior-senior level, and the balance in social studies, arts, sciences, and other subjects approved by the faculty."

I concur.

On motion of Mr. Fornof, this recommendation was adopted.

ADMISSION TO THE COLLEGE OF LAW

(4) Limitations of classroom and laboratory facilities make it necessary to limit the enrollment in the College of Law according to the following plan:

1. Applicants must file requests for admission on forms furnished by the College not less than sixty days before the opening of the term to which admission is sought.

2. In selecting the persons to be admitted, preference will be given to applicants demonstrating the greatest ability, to veterans, and to residents of the State of Illinois. Nonresident applicants to be considered must present outstanding scholastic records.

The University Senate recommends that the Board of Trustees adopt the following requirements for admission to the College of Law.

GENERAL REQUIREMENTS

Applicants to be eligible to apply for admission must have achieved a grade average of 3.5 in all college work taken and must meet the following quantitative requirements:

1. For admission to the four-year curriculum: The completion in residence of one-half the number of hours required for a bachelor's degree at the University of Illinois or one-half the number of hours required for a bachelor's degree in a college approved by the University.

2. For admission to the three-year curriculum: Graduation from, or senior standing in, a college of the University of Illinois or a college approved by the University.

SPECIAL CONSIDERATIONS APPLYING TO VETERANS

A veteran is defined, for purposes of admission, as one who has had active service since September 16, 1940, in the Armed Forces of the United States or one of its co-belligerents, and has been released or discharged therefrom under conditions other than dishonorable.

1. In meeting the general requirements stated above, a veteran who applies for admission

(a) may count credit acceptable to the University of Illinois, based on an evaluation of educational experience, general educational development, and correspondence work taken while in the Armed Forces, provided that the applicant for admission has completed one academic year of work in residence in the University of Illinois or in a college approved by the University;

(b) will be permitted to disregard the grades in work passed before entering the service, provided that he has completed at least one academic year of college work after release from service with a grade average of at least 4.0.

2. A veteran may also apply for admission to the three-year curriculum on satisfying all the following requirements:

(a) Active service for at least twelve months during the period of active hostilities;

(b) Attendance in residence for a period of two academic years in a college of the University of Illinois or in a college approved by the University, and the completion in residence of one-half of the number of hours required for a bachelor's degree by the institution attended; and

(c) Attainment of a grade average in college work of at least 4.0.

In meeting the requirements of 2 (a) and 2 (b) above, the period a veteran was assigned for a course of education or training under the Army Specialized Training Program or the Navy College Training Program or as a cadet or midshipman in one of the service academies may be counted in satisfaction of either the requirement for resident study in an approved college or university or the requirement of one year of active military or naval service, but not both.

I concur.

On motion of Mr. Williamson, these recommendations were adopted.

MASTER OF FINE ARTS

(5) The Executive Faculty of the Graduate School and the University Senate recommend the establishment of the degree of Master of Fine Arts (M.F.A.).

I concur.

On motion of Mrs. Holt, this degree was established as recommended.

CHANGE IN REQUIREMENT FOR ADMISSION TO UNDERGRADUATE COLLEGES

(6) On January 23, 1943 (Minutes, page 240), the Board of Trustees approved a recommendation from the University Senate that the requirements for admission to the undergraduate colleges be amended to permit the admission of selected pupils who had achieved senior standing in high school prior to their graduation from high school. This was adopted as a war emergency measure to permit students of superior scholarship to secure a year or more of college training before going into military service.

The reasons for this special provision no longer exist, and the University Senate recommends that it be rescinded.

I concur.

On motion of Mr. Williamson, this provision was rescinded as recommended.

MINIMUM UNIVERSITY SCHOLARSHIP REQUIREMENTS

(7) The University Senate recommends the adoption of the following minimum University scholarship requirements. These regulations, in so far as they affect graduation, shall apply to all students who enter the University after October 1, 1947, and as they affect probation, to all students registered in the University after that date. They are being reported to the Board as a matter of information and for record.

1. *Graduation Requirement:* A minimum average of 3.0 shall be required for graduation from all curricula.

2. *Probation:* If at the end of any semester a student's average for that semester falls below 3.0, he shall be placed on probation for the following semester.

3. *Continuance in the University:* If at the end of a semester on probation a student's average for the semester is 3.0 or above, he shall be removed from probation unless the college in which he is registered requires a higher average for removal from probation. If his average is below 3.0, he shall be dropped from the University.

4. *Rules for Computing Averages:* All letter grades received by the student at the end of the semester shall be used in computing the averages for the probation rules (A=5.0; B=4.0; C=3.0; D=2.0; E=1.0). The average for graduation is to be computed for those courses which are actually counted as fulfilling the requirements for graduation. When a student repeats a course, only the final grade

received shall be used in computing the average for probation and graduation. Courses in which the student receives credit as a result of special or proficiency examinations shall not be considered in computing averages either for probation or graduation. Colleges operating under the grade-point system shall maintain standards substantially equivalent to those stated in (2) and (3) above.

5. *Readmission of Students Dropped for Poor Scholarship*: Readmission of students to the University who have been dropped under the above regulations shall be at the discretion of the Deans and Directors of the respective colleges.

6. *Higher Scholastic Standards*: These regulations establish minimum requirements only, and the practice of requiring higher scholastic standards in certain colleges, schools, or curricula shall not be considered contrary to these regulations.

On motion of Mr. Williamson, this minimum requirement was adopted under the conditions recommended.

CURRICULUM IN FOOD TECHNOLOGY

(8) The University Senate has adopted the following curriculum in food technology in the College of Agriculture leading to the Degree of Bachelor of Science in Food Technology (for curriculum, see page 477).

The larger concerns engaged in the processing of foods will in general employ specialists; for example, bacteriologists and chemists for control work, chemical engineers for technical operation, and holders of the doctor's degree for research. The standard lines of training for these professions are all prescribed.

In the smaller plants it will not be possible to employ highly trained specialists for each particular job, but the technical operation and control will have to be directed by individuals with some general training in the fundamental sciences and perhaps a moderate degree of specialization in some particular line of food processing.

I recommend approval.

On motion of Mr. McLaughlin, this curriculum was approved as recommended.

SCHOLARSHIPS FOR FOREIGN STUDENTS

(9) At its meeting on May 27 the Board considered certain recommendations from the Faculty Committee on Fees and Scholarships, including one that the number of scholarships available to foreign students be increased from 10 to 25 as of September, 1947. This was referred to the Faculty Committee for further consideration and recommendation to the Board.

The Committee has reviewed the whole question again and renews its original proposal that the number of scholarships available to foreign students be increased from 10 to 25. In support of this the Committee has submitted a report on the records of foreign students who have held such scholarships since 1941-1942. This record shows that:

1. During the earlier years preference was given to South American students because the scholarships were originally established for students from Latin-American countries.

2. During more recent years there has been a wider distribution of countries represented, with Chinese students representing the largest number.

3. There have been a few bad scholastic records, especially among South American students. In each case this was due to language difficulties and as a rule the scholarship was discontinued after one semester. Recently language difficulties have been overcome by offering a special course in rhetoric for foreign students.

4. On the whole, the holders of scholarships have done extremely well at the University of Illinois. The degrees that have been earned are a noteworthy contribution to the countries from which the candidates have come.

On motion of Mrs. Holt, the number of scholarships available to foreign students was increased to twenty-five as recommended.

TITLE OF UNIVERSITY PURCHASING OFFICER

(10) The University Statutes, Section 50, specify the title of "Purchasing Agent" for the principal purchasing officer of the University, acting under the direction of the Comptroller. The Statutes provide that this officer "shall purchase or issue

orders for the purchase of all articles and materials for all departments of the University in all cases where the Board has not given this authority to some other person or committee."

It is necessary to issue purchase orders directly from the Chicago Professional Colleges and from the Undergraduate Divisions in Chicago (Navy Pier) and at Galesburg, and it is desirable that the officer in charge of purchasing at each of these branches have the title "Purchasing Agent." The Purchasing Agent works under the direction of the Business Manager of each branch and also under the general advisory guidance of the chief purchasing agent of the University.

The Comptroller recommends, and I concur, that the title of the chief purchasing officer of the University be "Director of Purchases," leaving the way to appoint a "Purchasing Agent" at each of the other divisions of the University.

A draft of proposed changes in the University Statutes to accomplish this is submitted for approval, and a few additional minor changes are incorporated to bring the Statutes up to date (see page 478).

On motion of Mr. Williamson, the Statutes were amended as recommended, effective July 1, 1947.

3. Storm sewers:

G. L. Tarlton Construction Co., St. Louis, Mo.....	16 100
Warner Construction Co., Chicago, Ill.....	18 920
W. H. Hall, Atwood, Ill.....	30 594
Mid-Continent Construction Co., Berwyn, Ill.....	12 066

Funds are available and have been released for items 1 and 2, and funds are included in the capital appropriations requested for 1947-1949 for item 3.

The proposal from G. L. Tarlton Construction Co. was based on acceptance of "all or none" of the work. On June 2, 1947, they expressed willingness to accept a contract for items 1 and 2 with the understanding that a contract will be awarded to them for item 3 if funds are made available within the construction period.

The Director of the Physical Plant recommends the award of the contracts for the laying of cast iron water pipe and for the concrete reservoir to the G. L. Tarlton Construction Co. on the basis of their lowest bid and the award of the contract for the construction of the storm sewers to the same company subject to availability of funds. If they are not available by August 1, 1947, the storm sewers award shall be null and void.

I concur in these recommendations and request authorization of contracts in accordance with the conditions outlined above.

On motion of Mr. Williamson, these contracts were awarded and authority granted as recommended.

**ADDITION TO CONTRACT FOR PIPE AND FITTINGS REQUIRED
FOR FIRE PROTECTION FACILITIES**

(15) The Physical Plant Department has requested an increase of \$1,575 in the contract with McWane Cast Iron Pipe Company for pipe and fittings required for the Fire Protection Facilities. The increase is to provide for additional lengths of pipe and fittings which are necessary because of changed requirements determined since the original contract was written (approved by the Board on November 22, 1946, at a base bid with an escalation clause). Funds are available for this increase, and it is approved by the Director of Purchases.

The Comptroller recommends approval of this increase and I concur.

On motion of Mrs. Holt, this addition to the contract was authorized as recommended.

**ADDENDUM TO CONTRACT FOR ARCHITECTURAL SERVICES
ON NEW CHEMISTRY BUILDING**

(16) The agreement with the architects, Graham, Anderson, Probst, and White (approved by the Board on June 30, 1945, and by the Committee on General Policy on November 23, 1945) for architectural services on the Chemistry Building does not cover services on laboratory equipment, which is a large item in this project.

The Director of the Physical Plant Department feels it is desirable to concentrate responsibility and has asked the architects for an estimate of the cost of this equipment, and a quotation for their services. They have estimated the equipment cost at \$217,000 and ask a fee of 8 per cent, or approximately \$17,360. The University Architect believes this fee is satisfactory for this type of work. Funds are available to cover this expense.

I recommend approval and authorization of an addendum to the contract with Graham, Anderson, Probst, and White.

On motion of Mr. Fornof, this addendum to the contract was approved and authorized as recommended.

**ADDITION TO CONTRACT FOR ELECTRICAL INSTALLATIONS IN RE-
MODELING ROOM 215 ELECTRICAL ENGINEERING LABORATORY**

(17) The Director of the Physical Plant Department has requested an increase of \$2,637 in the contract with the J. M. Bean Electric Company covering the installation of three transformers required for the remodeling of Room 215 Electrical Engineering Laboratory. This work was not included in the original contract approved by the Board on February 27, 1947 (Minutes, page 271).

The J. M. Bean Electric Company has the transformers available for installation. Funds are available for this increase.

The Comptroller recommends approval of this increase and I concur.

On motion of Mr. Williamson, this increase was authorized as recommended.

**SURFACING WALKS, ROADS, AND PARKING AREAS OF
TEMPORARY HOUSING PROJECTS**

(18) On June 3, bids were opened for surfacing walks, roads, and parking areas of certain of the temporary housing projects (Nos. 11287, 11277, 11254, and 11306). Although approximately a half-dozen firms were approached, only one bid (Frank A. Somers Co., Inc., in the amount of \$30,418) was received. This bid has been checked with previous work by the same firm on other temporary housing projects and it is in agreement therewith. Funds are available for this work.

The Physical Plant Department recommends that a contract be awarded to Frank A. Somers Co., Inc., in the amount of \$30,418 for the above-described work. I concur and request authority for the Comptroller and Secretary of the Board to execute such a contract.

On motion of Mr. McLaughlin, these recommendations were adopted.

**ADDITION TO CONTRACT FOR SERVICE EXTENSIONS TO
TEMPORARY CAFETERIA BUILDING**

(19) The Physical Plant Department has requested an increase of \$2,350 in the contract with A. S. Schulman Electric Company for new service connections to the Temporary Cafeteria Building. The original contract (approved by the Board on January 25, 1947) did not provide for such connections, since the requirements for service connections were not known. They have now been determined and the requested increase provides for them. Funds are available for this increase.

The Comptroller recommends approval of this increase and I concur.

On motion of Mr. Williamson, this increase was authorized as recommended.

PURCHASE OF COAL FOR URBANA CAMPUS

(20) Bids have been requested on 38,000 tons of screenings coal for use at the Abbott Power Plant, Urbana-Champaign, delivery as required during the period from July 1, 1947, to June 30, 1948. Invitations to bid on our specifications were submitted to 23 concerns and advertisements were run in Chicago papers.

Only one bid was received, from the Bell & Zoller Coal Co. of Murdock, Illinois, for 8,000 tons at \$2.90 f.o.b. mine, freight cost 85¢, delivered price \$3.75.

Two additional quotations were received, not based on specifications (i.e., without allowing for price adjustments on the basis of quality of coal delivered):

	<i>F.o.b. Mine</i>	<i>Freight</i>	<i>Delivered</i>
Taylor-English Coal Company (30,000 tons):			
Danville screenings.....	\$2.95	\$.75	\$3.70
Danville mine-run.....	3.15	.78	3.93
(Mine-run to be supplied when screenings are not available.)			

Lafayette Coal Company (5,000 tons):

Livingston screenings.....	3.00	1.55	4.55
Pana screenings.....	3.00	1.43	4.43
(Vendor reserves right to ship from either mine.)			

The above prices are based on miners' wages in effect at the time of the bids and are subject to any subsequent changes in such rates.

The Director of Purchases, the Director of the Physical Plant, and the Comptroller recommend that contracts be awarded as follows:

	<i>Tons</i>	<i>F.o.b. Mine</i>	<i>Freight</i>	<i>Delivered</i>	<i>Approx. Total</i>
Taylor-English Coal Company (estimated division)..	20,000 screenings	\$2.95	\$.75	\$3.70	\$74,000
	10,000 mine-run	3.15	.78	3.93	39,300
Bell & Zoller Coal Company screenings	8,000	2.90	.85	3.75	30,000
					\$143,300

Approval of this recommendation is requested. Under the requirements of the State Constitution, the approval of the Governor also is required on such contracts.

On motion of Mr. Williamson, these contracts were authorized as recommended, subject to constitutional provisions.

PURCHASE OF COAL FOR CHICAGO PROFESSIONAL COLLEGES

(21) Bids were taken on 9,000 tons of screenings coal (ten per cent more or less of 1¼" or 1½" freshly-mined Illinois washed screenings) for the Chicago Professional Colleges, to be delivered as required and in accordance with specifications. Invitations to bid were submitted to nine concerns. Four bids were received:

	<i>Firm</i>	<i>Delivered Price</i>
Consumers Company.....		\$6.57
Fleming Coal Company.....		7.45
Silver Creek Coal Company.....		7.99
Roth Adam Fuel Company.....		7.24

The Business Manager of the Chicago Professional Colleges recommends that the contract be awarded to the Consumers Company, 228 North LaSalle Street, Chicago, Illinois, the lowest bidder, at the quoted price of \$6.57 a net ton delivered, or a total expenditure of \$59,130. The quotation of this company represents the most British Thermal Units per one cent, computed in accordance with the formula in the call for bids. This coal is produced by the Pyramid Coal Corporation, Pinckneyville, Illinois. The Director of the Physical Plant Department and the Comptroller concur in this recommendation.

Approval of this recommendation is requested. Under the requirements of the State Constitution, the approval of the Governor is also required on such contracts.

On motion of Mr. Williamson, this contract was awarded as recommended, subject to constitutional provisions.

WATER SURVEY BUILDING

(23) The Act of the 64th General Assembly making appropriations for a state-wide system of public works projects includes funds for the construction of a State Water Survey Building on the University campus. This is not a part of the University's building program but is in the building program for the State Natural History Survey, State Geological Survey, and the State Water Survey, which by law are located at the University but are administered by the State Department of Registration and Education and the State Board of Natural Resources and Conservation.

On April 6, 1945, the Board of Trustees assigned as a site for this building the area between Wright Street and Burrill Avenue, fronting on Springfield Avenue, across from the Men's Old Gymnasium (now occupied by the Varsity tennis courts), subject to the execution of an agreement between the Board of Trustees of the University of Illinois as one party and the Department of Registration and Education and Board of Natural Resources and Conservation as the other party, which shall provide that all plans and specifications for the construction of the building and for future expansion shall be subject to approval by the University.

This question of site has recently been reconsidered and it is now proposed by the Director of the Physical Plant Department, the Dean of the College of Engineering, and the Chairman of the Campus Planning Committee that the University acquire property fronting on Springfield immediately west of Wright Street as a site for the new Water Survey Building for the following reasons:

1. The site presently assigned will be needed for the development of the facilities of the College of Engineering. The proposed new site would not block such expansion.

2. It is desirable that the Water Survey Building be located close to the College of Engineering buildings, so that its facilities, which will include a hydraulic laboratory, will be conveniently accessible to certain departments, particularly Civil Engineering. The proposed new site offers this advantage.

3. The utilities distribution lines must eventually be extended across Wright Street into this area to service the new Fire Station which will be located adjacent to the proposed site. Funds have been included in the University's building program for the extension of the utilities service to the Fire Station.

4. This is one of the logical areas for future University expansion. It is more suitable for a scientific survey building than an academic building.

5. The new site is acceptable to the Chief of the State Water Survey.

The relocation of the Water Survey Building as here proposed will require the purchase by the University of land at an estimated cost of \$75,000. On the other hand, the construction of the Water Survey Building in the area presently allocated will require the construction of tennis courts elsewhere and it is estimated that this would cost \$33,162.

I concur and recommend approval.

On motion of Mr. Williamson, this building was relocated as recommended.

RESIDENCE HALL REPLACEMENT FUND

(24) The first student residence hall in the University was placed in operation in 1919 (Mary E. Busey Hall). Evans Hall was added in 1926. During the years prior to 1932-1933, the net income of these halls was accumulated in a surplus fund with the intention of applying it toward building a new hall. The amount thus accumulated represented the excess of income over current expenditures without reserves for replacements.

On March 14, 1933, because of the acute financial situation of the State and the University, the Board of Trustees voted to transfer the balance of this accumulated surplus to the general funds of the University, where they were used for general operating expenses. The amount thus transferred was \$240,045.68 (Comptroller's Report, June 30, 1933, page 26).

Beginning with 1934, the sums for building repairs and equipment replacements on a reserve basis have been set aside out of each year's income. A study has been made of the operations of all halls from their beginning, as a result of which it has been determined that a deficiency of \$116,637 exists in present reserves, due to the fact that reserves were not set aside during the early years of operation and that in some other years the amount set aside was inadequate. The Director of the Physical Plant, the Dean of Students, and the Comptroller have recommended that this reserve be reinstated as soon as practicable. Since the funds that should have been applied to this reserve from the earnings of the halls were used for general University purposes as above stated, it is appropriate that they be replaced out of the General Reserve Fund.

As a partial step in this direction, it is recommended that one-half of the total accumulation at this time be appropriated from the General Reserve Fund to the reserve fund of Student Residence Halls. To that end I recommend such an appropriation in the amount of \$58,319.

It is the intention, if funds permit, to recommend a similar appropriation during the biennium of 1947-1949, thus completing the adjustment.

On motion of Mrs. Holt, this appropriation was made as recommended, by the following vote: Aye, Mr. Fornof, Mrs. Holt, Mr. Livingston, Mr. McLaughlin, Dr. Meyer, Mr. Williamson; no, none; absent, Mr. Davis, Mr. Green, Dr. Luken, Mr. McKelvey, Mr. Nickell.

CALLING OF ILLINI UNION BUILDING AND RESIDENCE HALL LOANS

(25) The following loans on University buildings are callable on quarterly interest dates on or after the dates indicated:

Illini Union Building 3¾% (callable on October 1, 1947, at a premium of 2% of unpaid balance).....	\$481 800
Men's Residence Halls 3¾% (callable on September 1, 1947, at a premium of 2% of unpaid balance).....	525 300

In the case of the Illini Union Building, accumulated funds will make possible some additional payment, so that the new loan will be somewhat less than the outstanding balance.

The present loans are mortgage loans, originally made through the University of Illinois Foundation, but later assumed by the Board of Trustees. The new loans will be in the form of revenue bonds issued under the special act of 1945, recently amended.

It is also necessary to borrow about \$700,000 additional to provide for completion of the new women's residence hall now under construction. It may be desirable to consolidate this requirement with refunding of the amount now outstanding on the men's residence halls. Income of present women's residence halls is merged with men's residence hall income for financing the existing loan.

The Comptroller recommends that the calling of these loans be authorized on or as soon as practicable after the first call date, the loans to be offered for bids by all interested parties, under such conditions as may be approved by the Finance Committee, the Committee to review and recommend to the Board an award after bids are received.

Approval of this recommendation is requested.

On motion of Mr. Williamson, this recommendation was approved.

CHANGE IN "POLICY AND RULES RELATING TO COMPENSATION AND WORKING CONDITIONS OF NONACADEMIC EMPLOYEES"

(26) The officials of the College of Agriculture recommend that the farm employees be placed on a 44-hour base work week schedule, instead of the present 48-hour schedule, effective July 1, 1947. The Director of Nonacademic Personnel approves this change, and I concur.

An increase in hourly (or monthly) rates is contemplated July 1, as a result of which the total earnings of this group will be approximately the same for the reduced schedule as the present one.

On motion of Mrs. Holt, this change was approved as recommended.

NEW SALARY SCALES IN CIVIL SERVICE POSITIONS

(27) The Director of Nonacademic Personnel requests approval of new scales of minimum and maximum salaries in Civil Service classifications effective July 1, 1947, to replace the salary scales originally established in 1944 and modified from time to time.

These new salary ranges have been established after a thorough evaluation of our own positions as compared to similar ones in other services and in consultation with administrative officers who are concerned with these classifications. The changes will bring the University salary ranges up to date in the current labor market (see page 479 for list).

I recommend approval.

On motion of Mr. Williamson, these scales were approved as recommended.

SUPPLEMENTARY AWARD OF CONTRACTS FOR SMALL HOMES CONSTRUCTION

(28) Following is a summary of additional bids received for the construction of the plumbing needed in the Small Homes Council Field Office and Research Residence:

Field Office

Frank Clancy.....	\$1 523 75
Reliable Plumbing & Heating Company.....	I 212 00

It is recommended that the contract for this work be awarded to the lowest bidder, the Reliable Plumbing & Heating Company.

Research Residence

Frank Clancy.....	\$1 610 75
Reliable Plumbing & Heating Company.....	I 265 00

It is recommended that the contract for this work be awarded to the lowest bidder, the Reliable Plumbing & Heating Company.

On motion of Mr. Fornof, this recommendation was approved.

AWARD OF CONTRACTS FOR ADDITIONAL PARKING FACILITIES

(29) On April 24, 1947, the Board approved a special appropriation of \$30,000 for additional parking facilities in Urbana-Champaign. Bids have been received from two local companies, and the low bid on each project is as follows:

	<i>Car Capacity</i>	<i>Amount</i>
Champaign Asphalt Co. (using 4" crushed rock and 2" asphalt concrete):		
Wesley Foundation.....	107	\$11 853
Frank A. Somers Co., Inc. (using 8" pit run gravel and 2" traffic bound stone):		
Mathews Avenue.....	86	5 060
Southeast of Mumford Hall.....	109	10 404
South of Architecture Building.....	91	4 863
North of Physics Building.....	28	3 995
Extension of Sixth Street parking lot.....	23	3 276
Reconstruction of present Sixth Street parking lot.....	40	1 211
<i>Total</i>		<u>\$40 662</u>

In view of the fact that these bids would exceed the amount appropriated, the Director of the Physical Plant recommends the omission, at this time, of two of the above-mentioned lots (the lot southeast of Mumford Hall and the lot north of the Physics Building), which would reduce the total of the two contracts to \$25,263.

The Director of the Physical Plant and the Comptroller recommend the award of these contracts at a total cost of \$25,263. I concur and request authority for the Comptroller and Secretary of the Board to execute the necessary contracts.

On motion of Mr. McLaughlin, these awards were authorized and authority granted as recommended.

AUTOMOBILE FLEET INSURANCE

(31) Specifications were sent to 41 interested agencies for automobile fleet insurance, including comprehensive public liability and property damage with \$25/50,000 and \$5,000 limits respectively; comprehensive fire and theft (non-collision except on a few automobiles) on a stated value-per-car basis; and public liability with \$15/20,000 limits covering motor propelled equipment not subject to State Vehicle Registration.

Quotations were received from ten companies. The lowest bids in companies meeting the minimum requirements as to financial status are:

Public Liability and Property Damage:	<i>Premium</i>
Travelers Indemnity (R. C. Knight, Chicago, Agent)	\$2 355 36
Fire, Theft, and Collision:	
Travelers Fire (R. C. Knight, Chicago, Agent)	561 00
	<u>\$2 916 36</u>

The insurance is for one year beginning July 1, 1947. The premium is chargeable to the budget appropriation of the Physical Plant Department.

The Director of Purchases and the Comptroller recommend approval of this insurance.

I concur.

On motion of Mr. Fornof, these contracts were awarded as recommended.

AWARD OF CONTRACTS BY THE EXECUTIVE COMMITTEE

(32) The Executive Committee reports the award of contracts as follows. The Secretary and the Comptroller of the Board have been authorized to execute these contracts.

General Construction Work on the Physical Environment Unit. — Contract awarded to E. H. Marhoefer, Jr., Company, Chicago, the lowest bidder, in the amount of \$206,325. Contract award is subject to release of funds by the Governor for this project.

Automatic Fire Detection System in the W. A. Noyes Laboratory of Chemistry. — Contract awarded to the Gamewell Company, Newton Upper Falls, Massachusetts, the lowest bidder, in the amount of \$16,705. Funds are available in the Physical Plant Department budget for this purchase.

Fire Alarm Telegram Equipment. — Contract for equipment in the buildings at Urbana-Champaign awarded to the Gamewell Company, Newton Upper Falls, Massachusetts, in the amount of \$15,535.60. Two bids were received as follows: the Autocall Company, \$12,453.50; the Gamewell Company, \$15,535.60. The Executive Committee awarded the contract to the Gamewell Company because it made a firm bid and guaranteed delivery of all equipment within 100 days. The Autocall Company bid included an escalator clause, and the company could not make delivery in less than 9 to 12 months. Funds are available in the Physical Plant Department budget for this purchase.

General Work on Finishing Fourth Floor in Mumford Hall. — Contract for general work awarded to C. A. Petry and Sons, the lowest bidder, in the amount of \$21,084. The Board of Trustees on April 24 (Minutes, page 342) made an appropriation for this improvement.

REAPPROPRIATION OF BUILDING FUNDS

(33) On January 25, 1947, the Board of Trustees authorized a request to the 65th General Assembly of Illinois for the reappropriation of funds remaining unexpended as of June 30, 1947, in the appropriations made by the 64th General Assembly for the biennium of 1945-1947 for buildings and other capital improvements.

On April 24, 1947, the Board authorized a redistribution of the funds to be reappropriated so as to provide sufficient funds for the total cost of each high priority project which should be completed within the 1947-1949 biennium. This was done at the request of the Director of the State Department of Finance, following conferences with the President and other University officials. The State Administration had adopted the policy of releasing funds for construction work only if a sufficient appropriation was available to complete a usable unit.

The Director of Finance agreed to recommend this readjustment of funds in the State budget for 1947-1949, together with an addition of \$2,000,000 for

student residence halls. These items were in the budget recommended by the Governor to the General Assembly and in the omnibus bill introduced by the State Administration.

The Director of Finance had stated that this might represent the total amount of capital funds to be made available to the University during the biennium of 1947-1949. The statement was not accepted as binding on the University and the Director was so advised in writing by the President.

The total of the reappropriation requested by the University under the agreement with the Director of Finance was \$15,287,920. The original schedule of new capital appropriations to be requested for the biennium of 1947-1949 as approved by the Board on October 22, 1946, totaled \$29,450,000. This was reduced by the Board on April 24 to \$20,472,000. A bill for such an appropriation has been introduced in both houses of the General Assembly. It is now on the order of third reading in the House of Representatives, having been approved unanimously by its Committee on Appropriations.

On June 17 the Senate Committee on Appropriations voted to reduce all building appropriations by 15 per cent. University officials were given a hearing by the Senate sitting as a Committee of the Whole on June 19. Following this hearing, University officials were requested to submit a schedule of reductions in the aggregate of 15 per cent of the total sum.

I present herewith a schedule of the revision in these appropriations for basic building funds for 1947-1949, carrying out the mandate of the Senate.

The effects of this reduction were discussed by the President of the University, the Vice-President, and the Provost.

On motion of Mr. Fornof, the action of the President in consenting to the revision of Senate Bill 662 was approved and confirmed, and the President was authorized to issue a statement on the seriousness of the situation. The following telegram was sent, over the signatures of the members of the Board, to the Governor, President of the Senate, President *pro tempore*, Speaker of the House, Chairman of the Appropriations Committees, to the Majority and Minority Leaders of the Senate and the House, and to the Senators and Representatives from

the second and twenty-fourth districts and to the Honorable Peter C. Granata of the seventeenth district.

The Board of Trustees of the University of Illinois has received the report of the President of the University with respect to the re-allocation of items in Senate Bill 662 in conformity to the action of the State Senate on June 19th reducing the total sum for the University from \$15,287,920 by \$2,293,188. The Board has approved the redistribution in full recognition of the fact that the Senate action will damage the effectiveness of the University's program in the next biennium. The elimination of the fine arts building alone will reduce the facilities at Urbana in 1948 by 25 classrooms.

The Board respectfully calls your attention to the urgency of the University building items in H. B. 844. This includes \$13,000,000 for crucial medical needs on the Chicago campus and \$7,000,000 for Urbana-Champaign. The latter includes \$1,400,000 for a veterinary building.

We vigorously urge that full consideration be given in the House and the Senate to House Bill 844. The items in this bill are identified with mounting demands for the instruction of veterans, doctors, nurses, veterinarians, teachers, and others whose services are everywhere in such short supply as to endanger the public welfare. The Board of Trustees and the officers of the University will welcome a hearing on these issues. We believe that we speak on behalf of the public interest as we are expected to do in matters of educational policy.

CHANGES IN UNIVERSITY (MEN'S) CLUB CONTRACT WITH UNIVERSITY

Mr. Fornof, for the special committee appointed May 27, 1947 (Minutes, page 367), to consider a change in contract with the University Club, reported as follows:

On May 27, 1947, the Board referred to the undersigned a recommendation of the President for a change in the contract of the University with the University (Men's) Club of Urbana, whereby the University would assume responsibility for food service at the Club. The original proposal placed on the University the probability of an operating loss estimated at \$1,800 a year in addition to capital expenditures of approximately \$16,000. That loss resulted chiefly from the provision that meals would be served to members of the Club at 10% less than menu prices.

This provision has been withdrawn by the Club, which has agreed that meals will be served to members and non-members at the same price, and on a self-supporting basis. The University (through the Illini Union which will operate the food service) will extend credit privileges to all Club members.

With these changes in the proposal, the special committee recommends that the recommendation of the President of the University be approved.

JOHN R. FORNOF
FRANK H. MCKELVEY
KENNEY E. WILLIAMSON

On motion of Mr. Fornof, this recommendation was approved and adopted.

RELEASE OF PATENT ON WATER PURIFICATION PROCESS TO GOVERNMENT

The Legal Counsel presented the following report:

The Faculty Patent Committee had a meeting on June 13 to discuss the release of a discovery of Mr. Herbert E. Hudson, Jr., of a Water Purification Process and Apparatus, which discovery was made under Contract OEMsr-593.

The Committee considered the matter and voted to recommend to the President and the Board of Trustees that the same be released and that the Government be authorized to file an application for patent in the name of the discoverer, that the discoverer be directed to execute the necessary assignment to the Government, the Government to sustain all the costs incident thereto.

This matter was referred to the Committee on Patents for consideration and report.

TRAINING OF TEACHERS OF AGRICULTURE*(For action of the Board, see page 388.)***EXHIBIT A****EXCERPT FROM***University of Illinois Board of Trustees Fortieth Report, 1938-1940**October 20, 1939, pages 642-644*

(31) Although the necessary approval of the Federal Office of Education and the State Board for Vocational Agriculture has not yet been secured, one of the five State Normal Schools in Illinois has, in the following words, announced its intention of establishing a curriculum in agriculture: "At latest by the end of the year all State and Federal requirements will be met with specialization in the following fields: . . . agronomy, horticulture, dairy, animal husbandry, agricultural economics, agricultural engineering." A mimeographed summary of steps taken in this direction further states: "A complete offering, the equivalent of any first-class college of agriculture, will be available to meet all State and Federal requirements."

Another Illinois Normal School has recently indicated its intention to establish courses in agriculture that will meet State and Federal requirements for Smith-Hughes teachers. The president of a third Normal School is reported to have said, in effect, that he did not favor this type of duplication of University work and facilities, but if other Normal Schools established such training in agriculture he would be compelled to do likewise. It is obvious that once such a practice is established in any of the State Normal Schools it may be extended to include all five Normal Schools.

Leading students of education have clearly pointed out the costly dangers involved in such competitive activity. In many cases the institutions enter new fields as the result of outside pressure groups, such as alumni associations and chambers of commerce, which insist that the particular school should equal or excel every other school in every field of study. This has resulted in much duplication of effort and unwarranted expenditure of money. One of the best examples is the development of forestry schools in the United States. During recent years more men, well-trained in forestry, have been graduated from these schools than could be absorbed by the industry, and yet the establishment of more forestry schools goes on at public expense. Obviously, State and National economy will soon demand drastic action in regard to this problem. An effective analysis and discussion of the policy and the expensive futility of duplication in program and facilities may be found under the title of "Cooperation and Coordination in Higher Education" in the Studies of the American Council on Education, Series I, Volume II, Number 5, April, 1938.

Those responsible for teacher training in agriculture at the University of Illinois believe, notwithstanding the fact that not all available Federal funds have

been used, that teacher training in agriculture in Illinois has been expanded as rapidly as is wise. It must not be overlooked that each dollar of Federal vocational funds must be matched by another dollar from the State.

At present only about fifty new teachers in Smith-Hughes agriculture are needed annually for replacement and for manning new departments of agriculture in Illinois high schools. One hundred fourteen seniors in the University of Illinois College of Agriculture have applied for practice teaching during 1939-1940, and their present course of study, if completed satisfactorily, will qualify all of them for Smith-Hughes positions. The University of Illinois is, therefore, training ample numbers of Smith-Hughes teachers to meet all present and prospective needs in this State.

If the Normal Schools in Illinois enter this field, it is certain that the annual expenditure for agricultural education will be tremendously increased in Illinois and the average quality of training will be lowered unless the State be willing to expend large sums for essential equipment and facilities not now available at these schools. In past years the requests from other States for Illinois-trained Smith-Hughes teachers and the increase of Smith-Hughes high school units in our own State created an abnormal demand for teachers. This is rapidly diminishing. There is now positively no excuse for training greater numbers of Smith-Hughes teachers in Illinois. Increasing the quality of training can always be justified. Lowering the average quality of the training of our Smith-Hughes teachers by accepting men from schools where the staff for teaching vocational agriculture must be limited and where the equipment and scientific program are materially below that available at the University, not only lowers the dignity of the teaching profession, but robs the coming generations of Smith-Hughes students of their rightful educational opportunity. The University of Illinois College of Agriculture has been building up the quality and number of its staff and its equipment over a long period of time and at great expense to the State. Also the staff and equipment of the Illinois Agricultural Experiment Station and the Agricultural Extension Service materially increase the opportunities for superior training in agriculture at the University of Illinois. Teachers need as good subject-matter training as other workers in agricultural fields.

A college located within a great university with a number of professional curricula, as well as liberal arts courses, accords its students a great variety of educational disciplines and provides a better background for vocational guidance, a problem with which Smith-Hughes teachers have to contend.

Training teachers of vocational agriculture in the Land-Grant College will tend to promote cooperation between them and members of the Extension Service, which is necessary for the most effective contributions of both agencies in the community.

Existing facilities at the University are amply sufficient to meet the demand for Smith-Hughes teachers, and there seems no justification for increased expenditures of State or Federal funds in this field. If increased expenditures for education in agriculture are warranted, it may be shown that there is greater need for money in fields other than Smith-Hughes teacher training. For example, there are only about half as many practicing veterinarians in Illinois as there were twenty years ago. This decrease has resulted from lack of replacements coming into the profession in this State, and has been due largely to inability of qualified graduates of Illinois high schools to secure admittance to colleges of veterinary medicine in other States. Careful study of the veterinary situation in Illinois shows the need for some remedial action, but those who have been most concerned with the problem believe that it is desirable to consider the possibility of regionalization of veterinary colleges before asking for appropriations to increase the number of State schools in this field.

In these critical times, when the States and the Federal government are struggling with serious budgetary problems, those of us who are in educational work, as well as responsible persons in the public service, should cooperate without stint with officials who face the serious task of carrying on essential governmental activities without further increasing the tax burden. We can best do this by scanning closely every new educational program involving the expenditure of public funds, and scrupulously avoiding duplication of efforts and facilities where obviously, as in the case at hand, the public interest cannot possibly be served by such duplication.

On motion of Mr. Cleary, the President of the University was requested to send to the Governor and to the members of the State Board for Vocational Agriculture a statement of the Fact that the Board of Trustees considers this proposed expansion an unnecessary duplication of educational offerings which is most undesirable from a standpoint of public policy.

EXHIBIT B

SOME REASONS FOR CONTINUING THE UNIVERSITY OF ILLINOIS AS THE ONE INSTITUTION IN ILLINOIS FOR QUALIFYING TEACHERS OF VOCATIONAL AGRICULTURE¹

1. The arrangement for training teachers of vocational agriculture for Illinois has operated successfully.

(a) From 1918 to 1947 the number of teachers of vocational agriculture in Illinois has increased from 15 to 409 and the number of schools teaching vocational agriculture has increased from 15 to 419. In addition, approximately 300 special teachers of farm veterans are now employed in connection with the Illinois program of vocational education in agriculture. There have, at times, been shortages of teachers but there have also been periods when more than enough teachers were being trained.

(b) During the period from September 1, 1945, to August 31, 1946, 139 new teachers of vocational agriculture were added in Illinois, probably the largest number of new teachers added in any state during that period. In the current year (1946-1947) approximately 60 new teachers will be qualified, almost enough and possibly quite enough to fill all vacancies in the state for the school year, 1947-1948. While there has been a shortage of teachers of vocational agriculture due to the war, in Illinois as in every other state, no long-time shortage of these teachers is in prospect. Institutions approved now for teacher-training could not get into efficient operation before the shortage will be eliminated. We should not let a temporary difficulty lead us to establishing a permanent system which will lead to permanent difficulties. If there had been a persistent shortage of teachers of vocational agriculture in Illinois, it would be expected that teachers would have been attracted from other states. Approximately 7 per cent of the Illinois teachers in 1946-1947 had received their training for teaching in other states before entering the teaching of vocational agriculture in Illinois.

(c) Approximately 40 per cent of the graduates of the College of Agriculture of the University of Illinois qualify for the teaching of vocational agriculture. This is probably the highest percentage in any of the larger colleges of agriculture.

(d) The quality of the students preparing for the teaching of vocational agriculture is somewhat above the average of the students as a whole in the College of Agriculture of the University of Illinois.

(e) The University of Illinois has given strong support to the training of teachers of vocational agriculture. Since 1938 the full-time teacher-training staff has been increased from two to six, and two more positions are provided in the budget for 1947-1949. In recent years the University has been increasing its expenditures for teacher-training without consideration of the possibility of receiving additional federal funds for teacher-training.

(f) The teacher-training staff of the University of Illinois has maintained a close liaison with the Agricultural Education Staff of the State Board of Vocational Education. It will be much harder to maintain close relationships between administration and teacher-training if there are several teacher-training institutions.

(g) Because teacher-training has been done in connection with the College of Agriculture of the University, close relationships have been maintained with other agricultural and agricultural education agencies in the State. If teachers are trained in other institutions, the harmonious relationships among agricultural and agricultural education groups may disintegrate.

2. Adding teacher-training institutions increases costs and decreases efficiency.

(a) If Illinois State Normal University is approved for teacher-training, it can be expected that Southern Illinois Normal University and Western Illinois State Teachers College will also be approved. There are better arguments for approving them than for approving Illinois State Normal University, particularly

¹ Statement by H. M. Hamlin, Professor of Agricultural Education, University of Illinois.

because Illinois State Normal University is only 50 miles from the University of Illinois while the other institutions are 145 to 200 miles from the University of Illinois.

(b) The facilities of the College of Agriculture of the University of Illinois could be duplicated at the other institutions only at enormous and unjustified expense. To provide facilities at the other institutions appreciably poorer than those at the University would be to lower materially the quality of teacher-training.

(c) Adding other teacher-training institutions would lead almost immediately to a surplus of teachers of vocational agriculture and a reduction of teachers' salaries. It could be expected that in a few years the salaries of teachers of vocational agriculture would be so low that only inferior persons could be attracted into the field.

3. A legislative commission which surveyed Illinois institutions of higher education in 1943 recommended strongly against the approval of additional institutions for preparing teachers of vocational agriculture. The professional staff of the Commission was headed by Dr. George A. Works, who spent much of his professional life in the field of agricultural education. The special study of teacher-training in agriculture was made by Dr. C. B. Gentry, Vice-President of the University of Connecticut, whose teaching experience has been divided between a teachers' college and a land-grant university.

4. A satisfactory arrangement for transferring students from two teachers' colleges to the University is now in effect. Working with the officials of Southern Illinois Normal University and Western Illinois State Teachers College, University officials have developed satisfactory working arrangements whereby students spend two years at these institutions and then transfer to the University, where they may qualify as teachers of vocational agriculture without loss of time. The officials of Illinois State Normal University have been interested instead in retaining their students for four years. The University of Illinois is probably the most liberal land-grant college in the United States in accepting credits from teachers' colleges and applying them toward graduation from an agricultural curriculum. A minimum of only 35 semester hours is required to be taken at the University if the student has completed at another institution the subjects he may take there.

EXHIBIT C

EXCERPTS FROM

Report of the Commission to Survey Higher Educational Facilities in Illinois January, 1945, pages 15, 37-38

The University of Illinois should have responsibility for the State's teacher-education work in agriculture. The State Board for Vocational Education should approve no institution in the State, other than the University of Illinois, for the preparation of teachers of vocational agriculture. None of the State Teachers Colleges should attempt to provide more than two years of education for teachers of vocational agriculture.

Reference was made above to the need for over-all coordination of the activities of the State's institutions which prepare teachers, and for proper allocation of certain functions among the institutions. An illustration of undesirable duplication due to lack of effective coordination is furnished by the situation in agricultural education. The University of Illinois is the only institution in the State that has received acceptance by the United States Office of Education for the preparation of teachers of vocational agriculture. The evidence indicates that the entire demand in the State for teachers of vocational agriculture can be met by the University. Nevertheless, Illinois State Normal University has developed a four-year program for the preparation of teachers in this field, and two other Teachers Colleges, Western Illinois State Teachers College and Southern Illinois Normal University, offer three years of a four-year program. Students preparing for the teaching of vocational agriculture at a State Teachers College may qualify by completing their work at the University of Illinois. Illinois State Normal University has been seeking approval of its program, but such acceptance has not yet been granted by the United States Office of Education.

C. B. Gentry of the University of Connecticut made an appraisal of the agricultural education situation in the State for the Commission. His major recommendations are:

1. That the University of Illinois have responsibility for the undergraduate teacher-education work in agriculture;
2. That none of the Teachers Colleges should attempt to provide more than two years of education for teachers of vocational agriculture;
3. That the Teachers Colleges should continue to teach agriculture. Such work should be designed: (1) as introductory work in the field of agriculture for prospective vocational agriculture teachers who plan to transfer to the University to complete their education; (2) to provide education for non-vocational agriculture teachers; (3) to meet the needs of rural school teachers; (4) to provide illustrative material for teachers of subjects such as biology, chemistry, physics, geology, and social studies;
4. That an adequate offering of terminal education should be provided in such centers as the Teachers Colleges to meet the needs of their former clientele on a regional basis. For the most part this would be a terminal two-year or shorter program. Those who need a more extensive program than the Teachers Colleges offer should transfer to the University College of Agriculture;
5. That teaching personnel, laboratory, and other facilities at the Teachers Colleges should be brought into line with the objectives outlined above for the teaching of agriculture. In some Teachers Colleges this would mean a reduction of staff and facilities, while in others, additional staff and facilities might be needed. (The addition of such facilities in those institutions where they are not now available would provide for a regional service of the type discussed earlier in this chapter. It should be emphasized that this additional service should be provided only after adequate provision has been made for the primary function of the Teachers Colleges. This, as was pointed out above, is the preparation of elementary and high-school teachers.)
6. That the State Board for Vocational Education approve no institution in the State, other than the University of Illinois, for the preparation of teachers of vocational agriculture.

MEETING OF THE BOARD OF TRUSTEES
OF THE
UNIVERSITY OF ILLINOIS

August 5, 1947

The August meeting of the Board of Trustees of the University of Illinois was held at the Blackstone Hotel, in Chicago, on Tuesday, August 5, 1947, according to the following schedule:

4 p.m. — Executive session as in Committee of the Whole.

8:30 p.m. — Open session.

The following members were present: President Livingston, General Davis, Mr. Fornof, Mrs. Holt, Mr. McKelvey, Mr. McLaughlin, Mr. Nickell, Mr. Williamson.

President Stoddard was present; also Dr. A. C. Ivy, Vice-President in Charge of the Chicago Professional Colleges, Professor C. R. Griffith, Provost, Mr. A. J. Janata, Assistant to the President, Mr. H. E. Cunningham, Secretary, Mr. Lloyd Morey, Comptroller, Professor W. E. Britton, Legal Counsel, and, during part of the day, Mr. J. F. Wright, Director of Public Information.

MINUTES APPROVED

The Secretary presented the minutes of the meeting of June 23, 1947.

On motion of Mr. Nickell, the minutes were approved as printed on pages 387 to 484 above.

ACTIONS OF EXECUTIVE COMMITTEE

The Secretary reported for record that the Executive Committee had taken action approving the following recommendations of the President of the University.

1. *Award of contract for reroofing cattle feeding plant barn and feeding shed.* Bids have been received on reroofing the cattle feeding plant barn and feeding shed, one of the projects on the University's remodeling and rehabilitation schedule:

The Raymond Development Company, Inc., bid \$7,612.50 for reroofing with wood shingles, with an alternate of \$100 for installation of new metal valleys. They also bid \$7,500 for reroofing with asphalt shingles.

The Industrial Roofing Company bid \$14,497 for reroofing with asphalt shingles.

The Director of the Physical Plant Department and the Comptroller recommend the award of the contract to the lowest bidder, the Raymond Development Company, Inc., at a total cost of \$7,712.50. The President concurs.

2. *Addition to contract for construction of piping in steam distribution tunnels to Temporary Cafeteria Building and new Fine Arts Building.* The Physical Plant Department has recommended an increase of \$16,291 in the contract with W. A. Pope Company for construction of piping in the steam distribution tunnels to the Temporary Cafeteria Building which is being set up west and north of the College of Fine and Applied Arts Building. Of this amount \$3,291 is to be charged to the Illini Union Building operation budget and \$13,000 to the State appropriation for 1945-1947 for the Fine Arts Building which will be available until September 30, 1947. A part of this cost is a proper charge against this State appropriation because the tunnel is being constructed large enough to accommodate the new Fine Arts Building when the latter is built. The original contract was for the main distribution tunnels and was approved by the Board on January 25, 1947. The addition to the contract now proposed is for the branch line to the buildings. This work can be completed by September 1, and funds are available.

3. *Award of a contract, in the amount of \$14,020, to the Connery Construction Company, Philadelphia, Pennsylvania, the lowest bidder, for flues, ducts, coal valves, and spreaders for the Addition to the Power Plant.*

MATTERS PRESENTED BY PRESIDENT STODDARD

The Board discussed in executive session several matters included in the agenda, and took action on the following matters presented by the President of the University.

APPOINTMENT OF DR. FRANCIS CORNELL AS PROFESSOR AND DIRECTOR OF THE BUREAU OF RESEARCH AND SERVICE

(1) I recommend the appointment of Dr. Francis Cornell, formerly a member of the staff of the United States Office of Education and more recently Education Expert for the United States Senate Committee on Labor and Public Welfare, as Professor of Education and Director of the Bureau of Research and Service in the College of Education, on indefinite tenure, beginning September 1, 1947, at an annual salary of \$10,500. This Bureau is the reorganization of the former Bureau of Educational Research.

On motion of Mr. Nickell, the President of the University was authorized to conclude negotiations and make this appointment.

APPOINTMENT OF DR. ALLAN G. BRODIE AS DEAN OF THE COLLEGE OF DENTISTRY

(2) The Vice-President in charge of the Chicago Professional Colleges recommends the appointment of Dr. Allan G. Brodie as Dean of the College of Dentistry and as Professor and Head of the Department of Orthodontia, on part time, at an annual salary of \$10,000 beginning September 1, 1947. The appointment as Professor and Head of the Department of Orthodontia is on indefinite tenure. The appointment as Dean is for two years from September 1, 1947, conforming to the statutory provision relating to the tenure of deans.

Doctor Brodie has been serving as Acting Dean of the College of Dentistry since September 1, 1944. A special committee of the faculty, appointed by the Vice-President to study the qualifications of candidates who might be considered for the deanship of the College of Dentistry, has unanimously recommended the appointment of Doctor Brodie. I concur in this recommendation.

On motion of Mr. McLaughlin, this appointment was made as recommended.

MAJOR APPOINTMENTS AUTHORIZED

(3) I request authority to appoint heads of the departments of Geography, Food Technology, and Dairy Husbandry. Negotiations are now under way with desirable candidates.

On motion of Mr. Fornof, the President of the University was authorized to make these appointments.

BOARD MEMBERS NOT TO SERVE ON COLLEGE COMMITTEES

After discussion of matters connected with the appointment of college and departmental advisory committees, the Board, on motion of General Davis, voted that the appointment of members of the Board to serve on such committees was not consistent with the best public policy.

DISCHARGE OF OTIS TAYLOR

Mr. McLaughlin presented the following report.

The Committee on Civil Service and Employees, having reviewed the Charges against Otis Taylor, an employee of the University of Illinois, preferred against him by the Appointing Officer of the University, the Answer thereto, the evidence and exhibits introduced at the Hearing on the Charges before the Hearing Committee duly appointed by the Board of Trustees, the Report of the Hearing Committee, the Objections thereto by the Respondent and the Reply thereto by the Appointing Officer, and the entire Record in the case, (1) concurs in the Findings of fact, conclusions of law and Recommendations of the Hearing Committee, and (2) recommends to the Board of Trustees the adoption of the following resolution:

Be it resolved that Otis Taylor be and he is hereby discharged from his employment by the University of Illinois as of the date of his suspension therefrom and that the Appointing and other Officers of the University are hereby directed to take such steps as may be necessary to carry this Resolution into effect.

WALTER W. McLAUGHLIN, *Chairman*
FRANK H. McKELVEY
JOHN R. FORNOF

On motion of Mr. McLaughlin, this resolution was adopted.

DISCHARGE OF R. C. ELLIOTT

Mr. McLaughlin, as Chairman of the Committee on Civil Service and Employees, reported to the Board that on June 27, 1947, Ronald C. Elliott, a janitor employed by the University, was suspended for a period of thirty days on a charge of converting to his own use certain property owned by third parties then lawfully on the premises of the University of Illinois; that on the same date there was filed with the Secretary of the Board by Donald E. Dickason, Director of Non-academic Personnel and the Appointing Officer of Ronald C. Elliott, an application for the discharge of Ronald C. Elliott; that an investigation showed that Mr. Elliott was guilty of the charges and confessed thereto; that Ronald C. Elliott did not demand a hearing on said application for discharge; that the time for filing such demand has expired.

Mr. McLaughlin further reported that his Committee has studied

the documents in the file and they find thereon that the charges have been established, and accordingly, recommend that the Board of Trustees ratify the extended suspension from July 28, 1947, and that Mr. Ronald C. Elliott be discharged from the service of the University of Illinois as of the date of his original suspension.

On motion of Mr. McLaughlin, these recommendations were approved and adopted.

RIGHT OF WAY ON NAVY PIER

The Legal Counsel presented the following resolution and recommended its adoption.

Whereas, there is included in the lease of space on the Navy Pier from the City of Chicago to the Board of Trustees of the University of Illinois, the area designated as Bay No. 115, which area is now occupied by the University as a boiler room, and

Whereas, the City of Chicago desires to lease to the Detroit and Cleveland Navigation Company for dock and berthing space on the south side of Navy Pier opposite Bay No. 115 with use of passage and gangway through said Bay No. 115 from dock to the center line of the pier, and

Whereas, permission of the University is necessary to make possible the execution of this lease from the City of Chicago to the Detroit and Cleveland Navigation Company, and

Whereas, the use of such passageway from the south side of the Navy Pier opposite Bay No. 115 by the Navigation Company, its employees, agents, and patrons may increase the risk of accidental injury and death to persons and the risk of damage and loss of property;

Therefore be it resolved by the Board of Trustees of the University of Illinois that its duly authorized officers are hereby authorized to consent to the use of this passageway through Bay No. 115 in accordance with the terms of the lease between the City of Chicago as Lessor and the Detroit and Cleveland Navigation Company, on the condition that the Detroit and Cleveland Navigation Company shall execute releases satisfactory to the University from liability on the part of the University of Illinois, its officers, staff, agents, and students and shall furnish evidence of such indemnification satisfactory to the Comptroller of the University against such liabilities and risks as such officers deem it expedient in the interest of the University should be covered.

On motion of Mr. Williamson, this resolution was adopted.

OPEN SESSION

MEMORIAL TO JAMES W. ARMSTRONG

Mr. McKelvey presented the following:

The Board of Trustees of the University of Illinois records with profound sorrow the death on May 30, 1947, of Mr. James W. Armstrong, a former member of this Board.

Mr. Armstrong was an alumnus of the University of Illinois, Class of 1893. Throughout his lifetime he was devoted to his Alma Mater. To him Illinois Loyalty meant service to the University.

He served as a member of the Board of Trustees of the University of Illinois two full terms from 1923 to 1935. There were many other services he performed throughout his lifetime which are not of public record but which were significant contributions to the welfare of his University.

Be it resolved by the Board of Trustees of the University of Illinois that this memorial be published in its records and a copy be sent by the Secretary to Mr. Armstrong's family, with an expression of the Board's sympathy in the great loss they have suffered.

On motion of Mr. McKelvey, this resolution was unanimously adopted.

The Board considered in open session the following matters presented by the President of the University.

INTERNAL OPERATING BUDGET FOR 1947-1948

(1) I present the University's internal operating budget for all divisions and funds for the fiscal year beginning July 1, 1947, and for academic and administrative appointments beginning September 1, 1947. This budget has been prepared by the Provost and the Comptroller in accordance with policies approved by the President and in conference with deans, directors, and other administrative officers.

APPROPRIATIONS FOR EQUIPMENT — 1947-1948

(2) The biennial budget for 1947-1949 includes provisions for equipment and other nonrecurring items for the purpose of "catching up" on replacements and additions which were impossible during the war period. Many departments submitted items of that kind with their regular internal budget requests for 1947-1948. In some instances these equipment items in the regular budget requests were reduced with the intention of providing nonrecurring appropriations.

All such requests have been reviewed in detail by the Provost and the Comptroller in conjunction with the review of the regular internal budget. They submit the following summary of recommendations for nonrecurring appropriations in the total amount of \$100,465.

(3) The budget of the Division of Services for Crippled Children for the fiscal year beginning July 1, 1947, has been prepared by the Director of the Division, Dr. Herbert R. Kobes, and is endorsed by Vice-President A. C. Ivy. It is summarized as follows:

I recommend that:

BUDGET OF ATHLETIC ASSOCIATION

(4) The Director of Intercollegiate Athletics submits on behalf of the Board of Directors of the Athletic Association the proposed budget of the Association for 1947-1948, which is summarized as follows with comparative figures for the preceding year:

	<i>1946-1947</i>		<i>1947-1948</i>
	<i>Original Estimate</i>	<i>Revised Estimate</i>	<i>Proposed</i>
<i>Income</i>	\$366 850	\$549 100	\$529 800

<i>Excess of income over expenditures</i>	\$ 4 270	\$ 36 160	\$ 1 499

On July 1, 1946, the Association had a net operating surplus of \$169,185, a reserve of \$50,955 for maintenance and replacement of plant, and a reserve of \$45,621 for equipment replacement. It is estimated that on June 30, 1947, the operating surplus will be \$205,345, the reserve for plant maintenance and replacement will be \$50,955, and the reserve for equipment replacement will be \$39,951.

I recommend that this budget be approved and that the President of the University be authorized to make such changes and adjustments as are necessary, including new appointments and acceptances of resignations as are recommended by the Board of Directors of the Athletic Association within the total estimated income.

On motion of Mr. Davis, this budget was approved as recommended, and authority was given to the President as requested.

**APPOINTMENT OF DR. CHAUNCEY MCKINLEY LOUITT AS
PROFESSOR OF PSYCHOLOGY AND DEAN OF THE
GALESBURG UNDERGRADUATE DIVISION**

(5) In announcing the retirement of Dean Frederick R. Hamilton I wish to express appreciation of his faithful performance of the many arduous tasks associated with this unique undertaking. The Undergraduate Division at Galesburg has met every test; it is a branch of the University of which we may well be proud.

I recommend the appointment of Chauncey McKinley Louttit, recently Dean of the Faculty at Sampson College, one of the Associated Colleges of Upper New York, as Professor of Psychology on indefinite tenure and Dean of the Galesburg Undergraduate Division for two years beginning September 1, 1947, at an annual salary of \$9,000.

On motion of Mr. Williamson, this appointment was made as recommended.

PURCHASE OF PROPERTIES AS SITE FOR WATER SURVEY BUILDING

(7) On June 23, 1947, the Board authorized the purchase of properties fronting on the south side of Springfield Avenue between Wright and Sixth streets, Champaign, at an estimated cost of \$75,000, as a site for the Water Survey Building. The purchase of two properties at 603 and 607 East Springfield Avenue will provide an area of land 105 feet by 132 feet, which is sufficient for the first unit of the Water Survey Building.

The following purchases and other expenditures incidental to the acquisition of this land and for the extension of utilities to the site are recommended:

607 East Springfield Avenue, Champaign.....	\$30 000
603 East Springfield Avenue, Champaign.....	18 000
Reimbursement to tenant at 603 East Springfield Avenue to secure possession by September.....	260
Extension of utilities service to the site.....	11 740
<i>Total</i>	<u>\$60 000</u>

The comparatively higher price of the property at 607 East Springfield Avenue is based on its present rental income of \$400 a month and was the lowest price the owner would consider.

Since the Board had authorized this land acquisition program, options were secured on these properties which expired August 1, and required the payment of \$1,000 on signing of the contracts, the balance to be paid on September 1 when possession of properties is given. The Executive Committee of the Board authorized the acceptance of these options, the execution of contracts for purchases, and the payment of \$1,000 on each contract.

I recommend that these actions be confirmed and that an appropriation of \$60,000 from the General Reserve Fund be made for this property acquisition program, including the extension of utilities to the site.

On motion of Mr. Nickell, these actions were confirmed and the appropriation was made, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Holt, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Mr. Nickell, Mr. Williamson; no, none; absent, Mr. Green, Dr. Luken, Dr. Meyer.

PROGRESSIVE ADMISSIONS PLAN

(8) Reports from the Registrar and from the Deans and Directors of the undergraduate colleges and schools indicate that the Progressive Admissions Plan authorized by the Board of Trustees on April 24, 1947 (Minutes, page 349), to govern the admission of new students to all undergraduate divisions for the first semester, 1947-1948, is working well.

It was the understanding that the plan would be studied on the basis of experience during the summer and modified if it appeared necessary to do so in order to carry out effectively the University's policy to admit, within the limits of its resources and capacities, all qualified students desiring to enroll. As of July 16, the beginning of the third period of admission, it appeared that it would be possible to admit to certain curricula a number of students who are now barred because of their previous scholastic records. It seemed logical that any relaxation should favor residents of Illinois, who desire to transfer to the University and who are required to have a scholastic average of 3.5 (between B and C) in previous college work. It will be recalled that beginning on July 16, Illinois high school graduates are admitted regardless of rank in class, but there is no such relaxation for transfer students who are residents of the State.

Consequently, as an administrative action I have authorized the Registrar of the University to admit to the University, beginning with the third period on July 16, transfer students, residents of Illinois, whose scholastic standing in previous college work meets the minimum standards of the University of Illinois curricula in which they desire to enroll. This authorization, of course, can be effective only to the extent that the capacities in the various divisions will permit the admission of students whose applications are pending, and who can be admitted under a general ruling applicable to all such cases.

This report was received for record.

REPORT ON THE TRAINING OF TEACHERS IN VOCATIONAL AGRICULTURE

(9) In accordance with the action of the Board of Trustees on the training of teachers in vocational agriculture (Minutes, June 23, 1947, page 388) I sent a letter summarizing the University's position to Governor Dwight H. Green, Superintendent Vernon L. Nickell, the members of the Teachers College Board,

the members of the State Board for Vocational Education, and the presidents of state normal universities and teachers colleges.

Under date of July 15, 1947, the Provost was instructed to represent and be spokesman for the University of Illinois at a special meeting of the Board for Vocational Education called by the Honorable Frank G. Thompson, Director of the Department of Registration and Education, and Chairman of the State Board for Vocational Education. One of the purposes of the special meeting was to hear one representative from the University of Illinois, as briefly as possible, at 1:30 p.m. on July 23 in Room 112 Capitol Building, Springfield, Illinois. The Provost did represent and speak for the University of Illinois at this meeting. He was accompanied by Dean H. P. Rusk of the College of Agriculture, Dean W. B. Spalding of the College of Education, Associate Dean R. R. Hudelson of the College of Agriculture, and Professor H. M. Hamlin of the College of Education. During the same session the State Board for Vocational Education heard Mr. Charles B. Shuman, President of the Illinois Agricultural Association. Mr. Shuman joined the University of Illinois in protesting against the proposed action of the State Board for Vocational Education in recognizing Illinois State Normal University as qualified to offer a four-year program in the training of teachers of vocational agriculture.

Should the State Board for Vocational Education reaffirm its previous action, the effect will be to continue the standards which prevailed during the five-year period from 1942 to 1947 and to make it possible for Illinois State Normal University to qualify for the training of teachers of vocational agriculture at or near the minimum set forth by the standards.

On motion of Mr. Fornof, and after discussion, this matter was referred to the President of the University and the Committee on Agriculture for study and recommendation to the Board.

APPOINTMENT OF PROFESSOR HENNING LARSEN AS DEAN OF THE COLLEGE OF LIBERAL ARTS AND SCIENCES

(10) On June 30, I presented to the Executive Committee of the Board of Trustees a recommendation for the appointment of Professor Henning Larsen, now Head of the Department of English, as Dean of the College of Liberal Arts and Sciences for two years from September 1, 1947, at an annual salary of \$12,000.

Professor Larsen has been a member of the University of Illinois faculty since September 1, 1939. He became Acting Head of the Department of English in April, 1945, and permanent Head on September 1, 1946. He will continue to serve as Head of the Department of English for the time being.

The Committee approved this appointment, and its action is hereby reported for record.

This report was received for record.

INSTITUTE OF GOVERNMENT AND PUBLIC AFFAIRS

(11) The increasing complexity of social life, resulting in greater demands on government at all levels for more expert services to the public, and the leadership of the United States in world affairs imposes on all branches of government greater and more difficult responsibilities than ever before in history. The University of Illinois through its professional colleges and schools provides training which is a valuable background to a student who later elects to enter public service, but the University has no organized program directed specifically to train students for public careers. Information and guidance has been provided for a number of years to students through an Advisory Council on University Training for the Public Service and through a bulletin on University Training for the Public Service, but this is a limited service and is inadequate for present needs.

The State of Illinois officially recognized the need for adequately trained personnel in government service by the adoption of House Joint Resolution No. 17, 65th General Assembly, creating a commission to study the appropriateness of establishing at the University of Illinois a "Curriculum in Government." The report of this commission, submitted May 28, 1947, recommends that the University proceed as rapidly as possible to develop a broad program of teaching, research, and extension in government and public affairs. It is therefore proposed

that there be established an Institute of Government and Public Affairs along the following lines, and I so recommend.

A. FUNCTIONS

1. *Teaching*

(a) General instruction in government for all students, at the junior college level.

(b) Specialized professional training, at the senior college level, for students desiring to prepare for government service.

(c) Graduate training, both research and professional, for especially qualified students who desire to prepare themselves for higher administrative and research positions in various types of public service.

2. *Research*

To investigate specific, practical problems that arise at all levels of government—local, state, federal, international—and to make the results of such studies freely available to all governmental agencies and public officials who may need such information.

3. *Extension*

(a) To provide general instruction in government for those whose circumstances make it impossible for them to study on the campus.

(b) To provide technical, on-the-job training for those engaged in government service with a view toward improving their professional competence.

(c) To make available to all agencies of government technical information and counsel to assist them in the solution of problems with which they are confronted.

B. ORGANIZATION

The Institute shall be an autonomous body under a Director responsible to the President, as provided in the statement of Policy adopted by the Board of Trustees on December 11, 1945 (Minutes, page 950). It shall have broad powers in respect to staff, educational program and budget, and shall not be subject to veto by departments, schools, or colleges.

There shall be an Advisory Committee, appointed by the President after consultation with the Director, composed of faculty members who are active participants in the program. Funds for the support of the Institute shall be budgeted separately and the Director shall be responsible for the budget.

The Institute shall be responsible for the development of an adequate educational and research program and for the administration of that program. While every effort should be made to utilize as fully as possible existing courses and personnel, and to bring about the maximum degree of interdepartmental cooperation, the Institute should not be dependent on departmental resources or be limited in its operations by departmental interests.

I further recommend that Professor H. M. Gray of the Department of Economics and Associate Dean of the Graduate School be appointed Director of the Institute of Government and Public Affairs. His combined position and salary will be Professor of Economics on indefinite tenure, Associate Dean of the Graduate School, and Director of the Institute of Government and Public Affairs for two years from September 1, 1947, at a total annual salary of \$10,000.

On motion of Mr. Williamson, these recommendations were approved and adopted.

APPOINTMENT OF HEAD OF DEPARTMENT OF ANIMAL SCIENCE

(12) The Dean of the College of Agriculture recommends that the name of the Department of Animal Husbandry be changed to the Department of Animal Science and that Dr. Leslie E. Card, Professor of Poultry Husbandry in the College and Chief of Poultry Husbandry in the Agricultural Experiment Station, be appointed head of the department on indefinite tenure beginning September 1, 1947, at an annual salary of \$8,500. Dr. William E. Carroll, former head of the department, has been appointed Associate Director of the Agricultural Experiment Station.

I concur in these recommendations.

On motion of Mr. McLaughlin, these recommendations were approved and adopted.

**APPOINTMENT OF DIRECTOR OF DIVISION OF SPECIAL SERVICES
FOR WAR VETERANS**

(13) Professor H. W. Hannah, Director of the Division of Special Services for War Veterans, has asked that he be relieved of this service and be permitted to return to his former position of Associate Professor of Agricultural Economics on a full-time basis effective September 1, 1947. I recommend approval.

I also recommend the appointment of Dr. Robert G. Bone, Associate Professor of History, to the combined position of Director of the Division of General Studies in the College of Liberal Arts and Sciences and Director of the Division of Special Services for War Veterans for two years, effective September 1, 1947, at an annual salary of \$7,500. Doctor Bone has been serving as Director of the Division of General Studies on one-half time since September 1, 1946.

On motion of Mr. McKelvey, these recommendations were approved and adopted.

**APPOINTMENT OF DR. WILLIAM F. HUGHES, JR., AS PROFESSOR
AND HEAD OF THE DEPARTMENT OF OPHTHALMOLOGY**

(14) I request confirmation of the appointment of Dr. William F. Hughes, Jr., as Professor and Head of the Department of Ophthalmology, on indefinite tenure, beginning July 1, 1947, at a salary of \$10,000 a year.

On motion of Mr. Nickell, this appointment was confirmed as recommended.

**SABBATICAL LEAVE OF ABSENCE FOR
PROFESSOR JOHN T. BUCHHOLZ**

(15) On April 18, 1946 (Minutes, page 1075), the Board of Trustees approved a sabbatical leave of absence for Professor John T. Buchholz of the Department of Botany for the first semester of 1947-1948 on full pay. Professor Buchholz has requested that in lieu of this he be given a leave of absence for the full academic year 1947-1948 on one-half pay.

I recommend approval.

On motion of Mr. Williamson, this recommendation was adopted.

DIRECTOR OF ADMISSIONS AND RECORDS

(16) The University of Illinois Statutes provide for the appointment of a Registrar and specify in general his functions. This officer is more than a Registrar, since much of his work has to do with the admission of students and the administration of entrance requirements. I therefore recommend that the title of the Registrar's Office and of the Registrar be changed to "Office of Admissions and Records" and "Director of Admissions and Records." This will require the following changes in the Statutes:

21. (a) The *Director of Admissions and Records* shall be appointed by the Board of Trustees on the recommendation of the President.

(b) He shall conduct general correspondence with prospective students, pass upon the credentials of students entering the colleges and schools, supervise their entrance examinations, and have charge of their matriculation, registration, and their academic records.

(c) The *Director of Admissions and Records* shall assess all term fees, tuition, and other fees of students imposed by their attendance on the University and shall report the same to the Comptroller for collection. He shall keep detailed records of all such fees assessed and shall submit these original records for audit at the time the accounts of the Comptroller and the Treasurer are audited.

On motion of Mr. Nickell, this recommendation was adopted and the Statutes were amended as recommended.

AWARD OF CERTIFICATES OF CERTIFIED PUBLIC ACCOUNTANT

(17) The Committee on Accountancy recommends that the certificate of Certified Public Accountant be awarded the following who have made applications therefor under Section 5 of the Accountancy Act of 1943 and who have submitted satis-

factory evidence that they hold valid and unrevoked C.P.A. certificates issued by other states on the basis of their having passed the regular written examinations:

EDGAR GEORGE FJELDE (Iowa)	WIRT L. PETERS (Okla.)
ORVILLE EDWARD HELMICH (Mo.)	EDWIN ENGELBERT STEINBRECHER (Ohio)
JEROME J. KERN (N.Y.)	ANN ELIZABETH TAYLOR (Mo.)
ERNEST EMANUEL LETT (Ohio)	AUGUST JOHN WIETZKE (Wis.)
GEORGE WILLIAM MOORE (Tenn.)	

I concur.

On motion of Mr. Williamson, these certificates were awarded as recommended.

AMENDMENT OF ATHLETIC ASSOCIATION BY-LAWS

(18) The Board of Directors of the Athletic Association has voted that Article VI, Section 6, of the By-Laws of the Athletic Association be amended as follows:

Section 6. Working Fund. The Business Manager may be allotted a working fund of not more than \$10,000, the amount of which shall be determined by the Board of Directors. Its purpose shall be the payment of petty and emergency items for which it shall be reimbursed from time to time by regular voucher and check for the Association.

With the increased operations of the Athletic Association it has been found that the working fund is inadequate to take care of needs in a satisfactory manner. For this reason, an increase in the fund is needed. The Comptroller recommends approval of the change and I concur. The By-Laws of the Association provide that amendments shall be submitted to the Board of Trustees for consideration before taking effect.

On motion of Mr. McKelvey, these amendments were authorized.

SPECIAL APPROPRIATIONS AND AWARD OF CONTRACTS FOR THE ATHLETIC ASSOCIATION

(19) The Board of Directors of the University of Illinois Athletic Association requests approval of special appropriations from the unappropriated surplus of the Athletic Association for the following purposes:

1. For remodeling office space to be used by the Director of Publicity and the Director of Athletics, \$1,025.

2. For the purchase of 150 dozen ribbed No. 798 Cannon towels from the Pleetox Products Company, St. Louis, Mo., \$1,057. These towels are to be name woven and the manufacturer has guaranteed delivery not later than August 15, 1947, which is well in advance of the opening of the football season.

3. A donation of \$500 to the Military Bands for the purchase of special football music and the repair of instruments for use during the football season.

The Comptroller recommends approval and I concur.

On motion of Mr. Nickell, these appropriations were approved as recommended.

ADJUSTMENTS IN ATHLETIC ASSOCIATION BUDGET TO JUNE 30, 1947

(20) In approving the Athletic Association budget for the current year (Minutes, June 27, 1946, page 1172), the Board of Trustees authorized the President to make changes and adjustments as recommended by the Association Board of Directors within the total estimated income.

Following is a statement of the adjustments thus made to June 30, 1947, not previously reported:

<i>Special Appropriations</i>	
For lightning rods at Stadium.....	\$1 500 00
For postage metering and sealing machine.....	573 95
For band music.....	500 00
<i>Total</i>	<u>\$2 573 95</u>

Additions to 1946-1947 Operating Budget

For additional coach for spring football.....\$ 150 00

On motion of Mr. McKelvey, the action of the President of the University in authorizing these changes was approved and confirmed.

REMODELING PHYSICS LIBRARY

(21) On February 24, 1945, the Board of Trustees authorized the remodeling of the Physics Library, but no appropriation was made. The work could not be undertaken at that time until priorities on materials and equipment were secured, and these did not materialize. The project is one of long standing and has been recommended by the Committee on Special Appropriations and Nonrecurring Expenditures.

The following bids have been received for the general construction work: E. N. DeAtley, \$6,600; C. H. Siems, \$8,690.

Following is a recommended budget for this project giving the estimates of the total cost:

Movable equipment.....	\$ 2 300
General construction work.....	6 600
Fluorescent lighting fixtures.....	350
Rubber tile floor for new area.....	600
Rubber tile floor replacing present linoleum.....	1 200
Moving costs.....	150
Architectural engineering expense.....	600
Contingencies	<u>1 200</u>
<i>Total</i>	<u>\$13 000</u>

The Director of the Physical Plant Department and the Comptroller recommend award of the contract for the construction work to E. N. DeAtley in the amount of \$6,600, and an appropriation in the amount of \$13,000 for the improvements outlined above.

I concur and recommend approval.

On motion of Mr. Williamson, these recommendations were adopted, and the appropriation was made, by the following vote: Aye, Mr. Fornof, Mrs. Holt, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Mr. Nickell, Mr. Williamson; no, none; absent, Mr. Davis, Mr. Green, Dr. Luken, Dr. Meyer.

**REMODELING AND FURNISHING OF UNIVERSITY CENTER
IN CHICAGO**

(22) On April 24, 1947, the Board authorized a lease with the LaSalle Hotel, Chicago, for space to be used as a University Center and to house offices of various University activities in Chicago. This approval was with the understanding that later a request for a nonrecurring appropriation for furnishings and other expense would be submitted.

Estimates have been made of the costs necessary for this work as follows:

General Work.....	\$15 000
Electrical Work.....	2 000
Public Area Furnishings.....	<u>2 000</u>
<i>Total</i>	<u>\$19 000</u>

These estimates are preliminary and not based on bids. It is expected that the management of the hotel will assume a part of this expense although the exact amount has not yet been determined.

I recommend an appropriation of \$15,000 at this time and request that the President of the University be authorized to supplement this appropriation by such an amount, not in excess of \$4,000, as may be necessary to meet the University's share of this expense.

This matter was referred to the Executive Committee with power to act when complete estimates are received.

APPROPRIATION FOR BOOKLET ON ROBERT ALLERTON PARK

(23) An illustrated brochure on Robert Allerton Park was published and distributed to guests at the garden party at the Park on May 16, one of the events of the Installation of the President. The cost of this printing was charged against the appropriation for the installation.

The supply of this brochure is nearly exhausted. The type is still standing and another edition of 5,000 copies can be printed for \$1,000. This brochure is needed for public distribution, particularly when Robert Allerton Park is opened to the public. I recommend that the University assume the cost as a general public service and that an appropriation of \$1,000 be made from the General Reserve Fund.

On motion of Mr. Williamson, these recommendations were adopted, and the appropriation was made, by the following vote: Aye, Mr. Fornof, Mrs. Holt, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Mr. Nickell, Mr. Williamson; no, none; absent, Mr. Davis, Mr. Green, Dr. Luken, Dr. Meyer.

WORKING CASH FUND AT CHICAGO UNDERGRADUATE DIVISION

(24) Operations at the Chicago Undergraduate Division at the Navy Pier have become of such a nature that a separate working cash fund appears essential. During the past year such operations have been handled through the \$15,000 working cash fund at the Chicago Professional Colleges. This fund is inadequate to take care of the combined operations, and it is inconvenient to handle the transactions through a single fund for both places.

The Business Manager of the Chicago Divisions requests a working cash fund of \$5,000 for the Undergraduate Division to be established under the rules for working cash funds in the University Statutes. The Comptroller endorses this and recommends that the First National Bank of Chicago be approved as the depository for this fund. It will be drawn against by the Assistant to the Business Manager at the Chicago Undergraduate Division. The present fund now designated for "Chicago Departments" and also deposited in the First National Bank of Chicago will henceforth be designated as "University of Illinois Medical Center Working Cash Fund."

I concur in and recommend approval of these recommendations and the transfer of the sum involved from the General Reserve Fund.

On motion of Mr. Fornof, these recommendations were approved, by the following vote: Aye, Mr. Fornof, Mrs. Holt, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Mr. Nickell, Mr. Williamson; no, none; absent, Mr. Davis, Mr. Green, Dr. Luken, Dr. Meyer.

INCREASE IN WORKING CASH FUND FOR GALESBURG UNDERGRADUATE DIVISION

(25) On September 24, 1946, the Board approved a working cash fund of \$25,000 for the Galesburg Undergraduate Division. Experience has proved that this sum is insufficient to take care of the needs of that division, including service to veterans in cashing their government warrants. The Comptroller requests authority to increase this fund to \$35,000. I recommend approval of this request.

On motion of Mr. McKelvey, these recommendations were approved, by the following vote: Aye, Mr. Fornof, Mrs. Holt, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Mr. Nickell, Mr. Williamson; no, none; absent, Mr. Davis, Mr. Green, Dr. Luken, Dr. Meyer.

REPORT ON UNIVERSITY OF ILLINOIS LEGISLATION

(26) As a matter of official information and record, I report the passage by the 65th General Assembly, and the approval by the Governor, of the following legislation which affects the University of Illinois:

Appropriation Bills

SENATE BILL 17. An Act appropriating \$9,903,146 (\$5,933,996 from State tax revenues and \$3,969,150 from University income) for the biennium of 1945-1947.

This was an emergency bill passed early in the session to make a supplementary appropriation to the University for the current biennium and was reported to the Board on February 27.

SENATE BILL 130. An Act establishing an institution for tuberculosis research for the production, distribution, and application of the bacillus Calmette-Guerin (BCG) and other methods and materials for the prevention of tuberculosis and for conducting research in tuberculosis. The Act appropriates \$32,000 for the biennium of 1947-1949 to the State Department of Public Health for operation and maintenance expenses. The Act directs the University to acquire land for the use of the Institution in the City of Chicago, erect a building, equip, maintain, and operate it. Senate Bill 662 appropriates to the State Department of Finance \$21,250 for the purchase of land for the Institution and \$340,000 to the State Department of Public Health for the construction of the building.

Because of the distribution of responsibilities and of the funds for this enterprise, negotiation and agreement with the various departments concerned will be necessary to carry out the objectives of the legislation. The State Auditor of Public Accounts has already credited the appropriation of \$32,000 for operation to the University.

SENATE BILL 360. An Act appropriating \$60,083,818 (\$43,083,818 from State tax revenues and \$17,000,000 from University income) to the University of Illinois for the biennium of 1947-1949. This is the biennial operating appropriation for the following purposes:

HOUSE BILL 240. An Act appropriating \$250,000 to the University of Illinois to provide through purchase, construction, or otherwise, housing facilities for staff members. This was reported to the Board of Trustees on April 24.

Other Legislation

SENATE BILL 196. An Act authorizing the Board of Trustees of the University of Illinois to acquire by purchase or otherwise, construct, equip, complete, operate, control, and manage any student residence hall, staff housing facility, dormitory, health and physical education building, or other revenue producing building or buildings, and providing for and authorizing the issue of bonds for the purpose of defraying the cost of construction, acquisition, or equipment of any such building or buildings, payable solely from the revenues derived from the operation thereof, and providing for and authorizing the refunding of any such bonds.

The Civil Service law relates only to nonacademic positions.

SENATE BILL 603. An Act amending the Civil Service law by repealing present provisions authorizing the Board of Trustees to prescribe rules for promotions, and stating the basis on which promotions are to be made, which basis is the same as now being followed.

SENATE BILL 604. An Act increasing from \$200,000 to \$300,000 the Working Cash Fund which the University is authorized to withhold from its receipts and to retain in its treasury for use as a revolving fund.

HOUSE BILL 567. An Act amending the General Assembly scholarship law making further provisions for appointments to vacant scholarships. Previously the law provided that only the member of the General Assembly who made the original appointment may fill a vacancy and only while he is still a member of the General Assembly. The amendment provides that vacancies may be filled by his successor or successors.

HOUSE BILL 579. An Act to provide annually one scholarship in the University for each county of the State for the benefit of the children of persons who served in the Armed Forces of the United States during the Civil War, World War I, or any time between September 16, 1940, and the termination of World War II, preference to be given to children of deceased or disabled veterans. This is an extension of an old scholarship law making its benefits applicable to children of veterans of World War II.

HOUSE BILL 764. An Act providing for reciprocal allowance of credit for retirement, death, and disability benefits between the State Employees' Retirement System of Illinois, the University Retirement System of Illinois, and the Teachers' Retirement System of the State of Illinois, making it possible for an employee who transfers from one system to another to retain equity earned prior to transfer.

This report was received for record.

RELEASES OF FUNDS FOR BUILDINGS

(27) The 65th General Assembly, in Senate Bill 662, has made appropriations totaling \$12,994,732 to the University of Illinois for buildings and other capital improvements. This is a reallocation of funds appropriated for the biennium, 1945-1947, only a small part of which could be used before they will lapse. It is in accordance with the plan and schedule of projects totaling \$15,287,920 reported to and approved by the Board of Trustees on April 24, 1947, except that by action of the State Senate (as reported to the Board on June 23, 1947) this building program was reduced by 15 per cent which resulted in the elimination of the Fine Arts Building and reductions in other items.

The appropriations were made with the provision that "No contract shall be entered into or obligation incurred for any expenditure from any appropriation herein made until after the purpose and amount of such expenditure has been approved in writing by the Governor." The Governor has approved the release of funds appropriated for the following projects:

Construction of a new Chemistry Building.....	\$ 2 500 000
Construction of a new Electrical Engineering Building.....	1 100 000
Construction of a new Mechanical Engineering Building.....	1 150 000
Construction of temporary student housing, including all necessary costs and charges incident to the completion thereof.....	250 000
Construction of student residence halls.....	2 000 000
Enlargement of Power Plant by constructing an addition thereto....	775 000
Construction for the enlargement and extension of the existing Utilities Distribution Systems.....	1 550 000
Construction of Water Station improvements.....	110 000
Construction of fire protection facilities.....	71 162
For purchase of fire ladder truck.....	24 725
Completion of the construction of Physics Research Laboratory.....	65 000
Completing construction of the Betatron and associated equipment..	984 000
Construction of addition to present Hospital Building for Research in Physical Environment (Chicago).....	323 000
Construction for enlargement and extension of existing Utilities Distribution System (Chicago).....	279 000
Acquisition of land for extension of campus in Chicago.....	150 000
For plans and specifications for future capital building projects.....	206 000
<i>Total Released</i>	<i>\$11 537 887</i>

I recommend that the Board authorize the appropriation of said funds for the projects specified.

On motion of Mrs. Holt, these funds were appropriated as recommended, by the following vote: Aye, Mr. Fornof, Mrs. Holt, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Mr. Nickell, Mr. Williamson; no, none; absent, Mr. Davis, Mr. Green, Dr. Luken, Dr. Meyer.

BIDS ON NEW CHEMISTRY BUILDING

(28) Bids were received on July 15 and July 22 for the new building for chemistry and chemical engineering for which funds totaling \$2,776,000 are included in the building appropriations for 1947-1949, of which \$2,500,000 has been released by the Governor. A tabulation of bids is given below.

The Physical Plant Department has reviewed its estimate of total cost of the building and finds that the bids submitted, allowing for other necessary costs estimated, will exceed available funds by approximately \$75,000. In addition, approximately \$50,000 will be needed for movable equipment, not included in the building budget but requested by the Chemistry Department. The University Architect states that \$25,000 of construction work can be omitted or deferred, leaving a net deficiency of about \$100,000, including provision for equipment.

Since 1940 the Department of Chemistry has done a great deal of research work on military problems for the United States Government. The contracts with the Government provided for payments in excess of direct costs of the research work to cover administrative and other overhead expenses. The total payments for indirect costs accumulated under such contracts for research work in

chemistry approximate \$482,000, of which \$56,327 has been expended and \$150,000 has been transferred to the General Reserve Fund, leaving a balance of about \$275,000 which is held in trust. A part of this may be claimed by the Government as a result of additional audits but in the opinion of the Comptroller it would be feasible and entirely appropriate to assign up to \$100,000 from this source toward the construction and equipment of the new Chemistry Building.

The Physical Plant Department and the Comptroller recommended that contracts be awarded to the lowest bidders in each of the respective categories, as follows, subject to reductions of \$25,000 in construction work to be effected through change orders after contracts are drawn:

John Felmley Co.	General contract work	\$982 400
W. T. Mahoney & Sons.	Plumbing work	375 683
The Carson-Payson Co.	Heating work	407 839
Hans Zack Co.	Ventilating and air con- ditioning work	220 000
Elevator Manufacturing Co. of America	Elevator and dumbwaiter	23 640
Leverenz Electric Co.	Electrical work	179 980

The Comptroller further recommends that \$100,000 of the funds accumulated under contracts with the United States Government for research work in chemistry be applied toward construction costs and equipment purchases for the new Chemistry Building, as above indicated.

I concur.

On motion of Mr. McKelvey, these recommendations were approved and the appropriation was made, by the following vote: Aye, Mr. Fornof, Mrs. Holt, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Mr. Nickell, Mr. Williamson; no, none; absent, Mr. Davis, Mr. Green, Dr. Luken, Dr. Meyer.

EMPLOYERS' LIABILITY INSURANCE

(29) Under a contract with the Research Division of the Navy Department, the University is required to maintain employers' liability insurance. The University now carries such insurance with the Liberty Mutual Insurance Company. A year ago this firm's bid was lower than any of the few bids then received. This year, however, no company except Liberty Mutual has bid for the insurance.

The Director of Purchases recommends the purchase of an employers' liability (occupational disease coverage included) and a scheduled general liability and property damage policy providing maximum coverage of \$50,000 for one individual and up to \$100,000 for two or more, effective August 7, 1947, for one year, to protect the operations necessary in research work under a contract (No. 60RI-71) with the Office of Research and Inventions of the United States Navy Department, from Liberty Mutual Insurance Company at an estimated gross premium of \$1,918.58. This company meets our rating requirements.

This recommendation was submitted by the Comptroller to the Finance Committee and approved by all members.

I concur and recommend approval.

On motion of Mr. Williamson, these recommendations were approved.

BOILER AND MACHINERY INSURANCE

(30) On June 22, 1944, the Board approved the purchase of boiler and machinery insurance from the Lumbermen's Mutual Casualty Company, which policy expires July 31, 1947. This insurance covers boiler and machinery located on University premises, owned, operated, or controlled by the University, subject to certain location insurance limits and sequence of indemnity payments. Requests for bids were sent to a number of insurance firms and 12 bids were received.

The Director of Purchases, the Director of the Physical Plant Department, and the Comptroller recommend acceptance of the offer of the Lumbermen's Mutual Insurance Company, the low bidder meeting rating requirements, on the basis of a gross premium of \$10,200, subject to an estimated 20% dividend at policy period termination, or a net premium of \$8,160. This premium will be paid from the Physical Plant Operation and Maintenance appropriation.

I concur and recommend approval.

On motion of Mr. McLaughlin, this award was authorized as recommended.

CONTRACT FOR LIBRARY BINDING

(31) The contract for library binding for the past biennium with Ernst Hertzberg and Sons terminated June 30, 1947.

The following binderies were invited to submit proposals on our specifications for binding work for the two-year period beginning July 1, 1947, covering all requirements for Urbana, the Chicago Professional Colleges, the Chicago Undergraduate Division, and the Galesburg Undergraduate Division:

Ernst Hertzberg & Sons, Chicago	} Bid on Chicago Professional Colleges and Chicago Under- graduate Division only.
Edwin Allen Company, Chicago	
Burgmeier Book Bindery, Inc., Chicago	
Pfisterer's Bindery, Galesburg	Bid on Galesburg Undergrad- uate Division only.
New Method Book Bindery, Inc.	No bid.

A careful analysis of the bids received has been made and the bid submitted by Ernst Hertzberg & Sons is low except for the binding for the Galesburg Undergraduate Division. The Director of Purchases recommends, therefore,

that a contract be awarded to Ernst Hertzberg & Sons for all binding except for the Galesburg Undergraduate Division. The total expenditure involved for the two-year period is approximately \$100,000. This company has been doing most of the binding for University of Illinois libraries for a great many years and has always provided good service and quality work.

The Director of Purchases also recommends that a contract for binding of books for the Galesburg Undergraduate Division be awarded to Pfisterer's Bindery, Galesburg. The total expenditure on this contract will be approximately \$1,500. The location of this bindery will result in good service and their price on this group is low.

The Director of the Library and the Comptroller concur in this recommendation and I recommend approval.

On motion of Mr. Fornof, these recommendations were approved.

PURCHASES

(32) There are submitted herewith: A. Recommendations for purchases for approval by the Board; B. Purchases authorized by the President of the University.

A. Purchases Recommended

The Director of Purchases has proposed and the Comptroller recommends the following purchases. Unless otherwise specified, the purchase in each case is recommended on the basis of lowest bid, or because the item is noncompetitive, or to obtain earliest delivery. I concur in the recommendations.

AUTHORIZATION OF PLAN OF OPERATION OF DIVISION OF SERVICES FOR CRIPPLED CHILDREN

(33) The Children's Bureau of the United States Department of Labor makes grants to the Division of Services for Crippled Children. As a basis for these grants, it requires a certificate by an executive officer of the University. Responsibility and general oversight of the Division has been placed in Vice-President A. C. Ivy, who therefore may appropriately sign such certificates. The Children's Bureau requires that the Attorney General of the State certify as to the legality of the plan of operation of the Division. The Attorney General asks that the Board of Trustees, by resolution, designate the officer to certify documents on its behalf. Approval of the following resolution therefore is requested:

Whereas the General Assembly of the State of Illinois, by making appropriations to the University of Illinois for the Division of Services for Crippled Children, has placed the responsibility for operation of that Division on the University, and

Whereas it is necessary that the Board of Trustees designate an officer of the University to act as executive officer in supervising the work of the agency and in executing documents required, particularly for the purpose of securing Federal grants;

Therefore, be it resolved by the Board of Trustees of the University of Illinois that A. C. Ivy, Vice-President of the Professional Colleges of the University, be and hereby is, authorized to act as executive officer of the Division of Services for Crippled Children and to sign any and all documents required in connection with securing funds for that Division.

On motion of Mr. Nickell, this resolution was adopted as recommended.

PARTIAL DISTRIBUTION OF BEQUEST OF EDWARD C. EARL

(34) On May 26, 1945 (Minutes, page 485), Comptroller Lloyd Morey was authorized to serve as Executor of the Estate of Edward C. Earl. On February 27, 1947, a partial distribution of assets received by the Executor was made to the University.

One of the assets of the Estate was a house and lot in Mt. Ranier, Maryland. This property has now been sold and the proceeds amounting to \$5,633.86 have been received from the attorney. The check, in favor of the Board of Trustees, was not handled through the accounts of the Executor but was deposited directly with the Treasurer of the University and credited to the principal of the Earl endowment.

This has been invested in securities approved by the Finance Committee for investment.

This report was received for record.

**BIDS ON FURNISHING MAIN SWITCH-GEAR FOR
ELECTRICAL DISTRIBUTION SYSTEM,
CHICAGO PROFESSIONAL COLLEGES**

(36) The following bids have been received for furnishing the main switch-gear for the 4,000-volt initial electrical distribution system to be installed on the Chicago Professional Colleges Campus:

<i>Bidder</i>	<i>Bid price</i>	<i>Shipping date</i>
Allis-Chalmers Manufacturing Company	\$38 498	20 months
General Electric Company	38 593	15 months
Westinghouse Electric Corporation	38 641	16 months

The Allis-Chalmers' detailed proposal includes an extra charge of \$315 to meet the specifications for enclosed terminal boxes for the current transformer leads. The other bidders included this cost in their bids. The Allis-Chalmers' proposal increases their bid to \$38,813, changing their bidding position from low to high.

The time of delivery of the switch-gear is also important, as the installation will be necessary before power can be supplied to the new Physical Environment Addition to the Hospital. The Physical Plant Department recommends the contract award to the General Electric Company, the lowest bidder and the firm giving the shortest delivery time, based on their bid price of \$38,593, f.o.b. Chicago Campus.

In the General Electric Company's transmitting letter of July 14, 1947, they have taken exception to the bid documents involving the guarantee and supervision clauses and the performance bond. The Physical Plant Department recommends that the contract be awarded with the stipulation that the contract terms would be similar to those incorporated in the turbine-generator contract for Unit 3 of Abbott Power Plant, since in that contract they were willing to accept the clauses and bond as originally submitted.

Funds are available in the 1947-1949 appropriation for the Electrical Distribution System, Chicago, to cover the above contract.

I recommend approval of the foregoing recommendations and authorization to the Comptroller and the Secretary of the Board to execute the contract.

On motion of Mr. McKelvey, these recommendations were approved and authority granted as recommended.

ILLINI UNION BUILDING REFUNDING LOAN

(37) As authorized by the Board of Trustees on June 23 (Minutes, page 403) and in accordance with invitations approved by the Finance Committee, the following bids were received on July 30, 1947, on \$425,000 revenue bonds of the Illini Union Building, Urbana, to be dated October 1, 1947, due serially through October 1, 1957.

<i>Bidder</i>	<i>Range of Interest Rates</i>	<i>Interest Cost</i>	<i>Premium</i>	<i>Net Cost</i>	<i>Effective Rate</i>
Julien Collins & Company } White, Weld, & Company }	1½%-1¾%	\$32 925 00	\$ 313	\$32 612 00	1.5204
The Milwaukee Company } Farwell Chapman & Company } Martin Burns & Corbett, Inc. }	1½%-2%	35 900 00	222	35 678 00	1.66331
Hurd-Clegg & Co.					
John Nuveen & Company	1¾%	37 537 50	1 207	36 330 50	1.69372

The low bid is offered by Julien Collins & Company and White, Weld, & Co., both of Chicago, as a joint bid, at an effective interest rate of 1.5204 for all bonds; bonds maturing 1948 through 1956 to bear interest at 1½% and for 1957 at 1¾%; entire issue to be purchased at par plus a premium of \$313.00.

The Finance Committee has reviewed the bids and finds that the one offered by the low bidders meets all requirements. The Finance Committee recommends that the award be made to the lowest bidders.

The bidders have proposed that the bonds, principal, and interest be payable at the Northern Trust Company of Chicago, and the Finance Committee recommends approval of that proposal.

The offering was made with the provision that the bonds will be delivered with the approving opinion of Chapman & Cutler, attorneys, of Chicago. The Finance

Committee recommends that the employment of this firm for all necessary services in connection with this issue be authorized.

The new issue will result in a saving over the remaining life of the obligation estimated at \$75,200 on interest cost under that of the present loan.

On motion of Mr. Williamson, the award was made as recommended, subject to a confirming opinion to be secured from Chapman and Cutler.

RELEASE OF PATENTABLE DISCOVERIES

(38) The Faculty Committee on Patents submits the following recommendations on patentable discoveries by members of the University staff which have been reported to and considered by the Committee.

1. Low reactance shunt, a device which permits a recording instrument to record only a fraction of the total current; thyatron controlled automatic positioner, a device for the accurate control of arc voltage (used in arc welding) by "positioning" the welding head in general situations in which high speed "positioning" is necessary. These are joint discoveries by Gilbert H. Fett, Associate Professor, and Robert J. LaPlante, Special Research Assistant, in the Department of Electrical Engineering, and are the result of research work under contract No. N6OR1-71-EE with the Bureau of Ships of the Navy Department. In the opinion of the discoverers, these devices do not offer sufficient possibilities of commercial exploitation to warrant the University in expending funds to secure patents. The Committee recommends that these discoveries be released to the Navy Department.

2. High speed counter, a joint discovery by Gilbert H. Fett, Associate Professor, and Nathan Rynkowsky, Special Research Assistant, in Electrical Engineering. This discovery resulted from research work under Contract No. W28-099-AD-132 with the Air Materiel Command of the United States Army Air Forces. This is a restricted contract covering research work of a highly confidential nature, and it provides that any patentable discoveries shall become the property of the United States. The Committee therefore recommends that this discovery be released to the Army.

3. Colonel George W. Gardes, Judge Advocate, General Division, Chief, Patents Group, presented through the office of the President of the University, a request that the University of Illinois release its right to file an application for a patent on a discovery described as a "Water Purification Process and Apparatus" which was made by Mr. H. E. Hudson, Jr., in the performance of the work contracted for by the University of Illinois with the Government of the United States in Contract No. OEMsr-593. It is recommended that this discovery be released, and that the Government be authorized to file an application for patent in the name of the discoverer, and that the discoverer be directed to execute the necessary assignments to the Government. The Government is to sustain all of the costs incident to the application for patent.

On motion of Mrs. Holt, these patents were released as recommended.

PRINCIPLES GOVERNING RESEARCH CONTRACTS

(39) It is recommended that the following principles governing research contracts be submitted to the Board of Trustees to supersede Section VI of the policy relating to research contracts approved by the Board of Trustees October 18, 1945.

All research contracts are to be classified by the Director of the University research agency involved or by the Chairman of the University Research Board after consultation with those directly concerned and with the dean of the college involved. In the case of contracts involving the Chicago Professional Colleges only, the Vice-President in charge of the Chicago Professional Colleges will make this classification. Considering the direct value that accrues to the donor and in accordance with the scientific benefits resulting to the University and to the public, each contract should be classified as follows:

I. Those mainly for the benefit of outside donors with little or no research objectives involved from the standpoint of the University.

II. Those which fit University research objectives but from which the sponsor derives some benefit.

III. Those which are supplemental to University research programs and provide funds for desirable expenditures which the University otherwise would not be able to make or, in some instances, would relieve the University of expenditures that it might otherwise make and thus release University funds for other or additional research expenditures.

Notwithstanding the classification of any particular contract, the accrual of indirect costs will be recognized and the University officers involved should suggest to the grantor that all or a portion of such costs be met from contract funds. Projects in Group I should be charged with an amount that will compensate the University as fully as possible for all indirect costs to which it has been put in carrying out the project.

The rate and amount of indirect costs, if any, to be paid to the University on projects in Groups II and III will be determined by the administrative officer of the research agency involved after consultation with the Business Office. Such consultation will not be required in the case of research investigations involving total payments of less than \$5,000.

Subject to the principles stated above, any University staff member who has been authorized by the proper administrative officer to negotiate with a prospective sponsor of an investigation shall prepare a budget for all estimated direct costs and to this amount shall be added the provision, if any, for indirect costs. Indirect costs include general, college, and departmental administrative costs, physical plant operating costs, and use of departmental, college, and general University facilities.

The following distribution of funds collected on account of indirect costs is to be made:

Thirty per cent will be made available to the University department conducting the investigation, for use as approved by the administrative officer of the college. Costs of research investigations, not charged thereto as direct costs, and property purchased from contract funds for use on investigations, title to which remains with the donor, which is acquired by the University at the termination of the contract by purchase, will be charged to this allocation.

Thirty per cent will be transferred to a general research fund to be allocated by the University Research Board for research purposes to any individual or department of the University.

Balances remaining in the above allocations at the close of each fiscal year will be subject to reappropriation by the Board of Trustees.

Forty per cent will periodically lapse to general University income. Any administrative or physical plant costs which result from such research activities may be charged directly to these funds.

Certain contracts are negotiated, particularly with Federal agencies, in which a provisional rate of reimbursement for indirect costs is stated, to be subject to later review. Any amounts allocated in accordance with the above will be subject to such review and renegotiation of rates, if applicable.

Employer contributions to the University Retirement System of Illinois for retirement annuities and disability and death benefits, covering the salaries of participants in the System paid from contract funds, are to be considered as direct costs of all research contracts with outside sponsors.

To provide for possible losses under the Workmen's Compensation Act, $1\frac{1}{2}\%$ of all payments for personal services from contract funds will be assessed against such funds as direct costs. Such charge will not be made if the research contract provides indemnity to the University for any losses incurred under such Act, or if the interests of the University do not appear to require it. Such rate may be reduced if justified by experience, or if in the individual projects the probability of loss is small. The sums thus accumulated will be carried in a reserve account from which such claims will be paid.

These principles will be effective July 1, 1947.

This matter was referred to the President of the University and the Finance Committee for consideration and report.

PURCHASE OF PROPERTY AT 805 WEST PENNSYLVANIA AVENUE

(40) The 65th General Assembly of Illinois has failed to make any appropriation to the University of Illinois for the biennium of 1947-1949 for the construction of a Veterinary Science Building. This was the top priority item on the Urbana

Campus in the \$20,472,000 building program requested by the University for the biennium of 1947-1949. An appropriation of \$750,000 was made by the 64th General Assembly for a veterinary building and equipment, but it was not possible to construct a building during the biennium of 1945-1947 and the appropriation was insufficient to construct a complete usable unit. This appropriation will lapse except for funds which have been expended for architectural services.

It is necessary for the College of Veterinary Medicine to have some facilities for a research laboratory for its staff and for advanced students. I therefore recommend that the Board authorize the purchase of the property at 805 West Pennsylvania Avenue, Urbana, at a price of \$57,500 for use as a temporary research laboratory by the College of Veterinary Medicine.

This is a three-story and basement brick building on a lot 120 feet wide and 140 feet deep. The building was formerly a sorority house. In the basement are a large dining room, kitchen, chapter room, and a heating plant, with coal storage space. On the main floor are a living room, reception room, two bedrooms, and a bath. On the second floor are fourteen studies (or bedrooms), baths, showers, and toilets. On the third floor are five studies (or bedrooms) and a large dormitory or bedroom area. The house is equipped to accommodate about 40 students. The building is modern and in reasonably good condition and is unoccupied at the present time. It has been appraised by Mr. Newton C. Farr, Chicago Realtor, who reports that the price is substantially less than the replacement cost less depreciation based on age and condition, and he recommends its purchase.

When a new veterinary building has been provided, the building at 805 West Pennsylvania Avenue can be used for student housing.

In a preceding memorandum I have recommended an appropriation of \$80,000 for the purchase of this building and for the remodeling necessary to adapt it for use as a College of Veterinary Medicine Research Laboratory.

On motion of Mrs. Holt, this report was received for record.

APPRAISAL OF NOYES CHEMISTRY LABORATORY

Mr. McKelvey presented the following report.

In connection with the problem of insurance on the Noyes Chemistry Laboratory, approved by the Board on March 27, 1947 (Minutes, page 322), the need of an appraisal of the building has become apparent. The Director of Purchases and the Comptroller have suggested the firm of Marshall & Stevens, valuation engineers, of Chicago. The cost would be \$692 plus nominal expenses.

Marshall & Stevens state that, after a thorough survey of the structure is made by their engineers at the property, they would supply us with a building report and contents report, both of which would be in complete detail and furnish a sound evaluation of the structure and its contents.

Such an appraisal should furnish complete information for the proper placement of insurance, assure us that we are complying with the coinsurance requirements of our insurance contracts, and would provide valuable descriptive and inventory data in the event of a partial or complete loss of the structure and its contents.

The Buildings and Grounds Committee has considered this proposal and recommends that Marshall & Stevens be retained to appraise the Noyes Chemistry Laboratory and its contents, and a special appropriation of \$800 for this purpose.

On motion of Mr. McKelvey, this appraisal was authorized and the appropriation was made by the following vote: Aye, Mr. Fornof, Mrs. Holt, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Mr. Nickell, Mr. Williamson; no, none; absent, Mr. Davis, Mr. Green, Dr. Luken, Dr. Meyer.

The Board adjourned.

THE UNIVERSITY BUDGET FOR 1947-1948

(Approved by the Board of Trustees August 5, 1947, page 489)

EXPLANATORY NOTES

This budget consists of: Summaries of all divisions; General University Administration; Urbana-Champaign Academic and Administrative Salaries, Wages, Expense, and Equipment; Urbana-Champaign Nonacademic Salaries; Chicago Professional Colleges and Schools; Chicago Undergraduate Division; and Galesburg Undergraduate Division.

Appropriations for Salaries are available for the term indicated in each case but not for more than one year from September 1, 1947.

When appointments are made at salary rates less than the amounts provided in the budget, the unused balance is lapsed at that time, resulting in a reduction in the budget.

Funds appropriated for positions in the salary budget which are not yet filled may, pending regular appointments, be drawn against by voucher to the Business Office for services of employees temporarily engaged to do the work contemplated by the position. Such temporary charges *may not exceed the amount of time provided* by the position unless indicated herein or otherwise approved by the President.

All unexpended balances remaining in the salary budget lapse at the close of each calendar month unless previously assigned or encumbered. Such lapses do not result in a reduction in the budget.

Departmental appropriations are made under the captions "Salaries," "Wages," and "Expense and Equipment." No transfers may be made between "Salaries" and "Expense and Equipment" except with the approval of the President of the University. Requests for such changes should be submitted to the Comptroller. Adjustments may be requested between "Salaries" and "Wages" and between "Wages" and "Expense and Equipment" upon notice to the Comptroller.

Appropriations for Expense and Equipment and for Wages are available for one year beginning July 1, 1947, and ending June 30, 1948. All unexpended balances in Wages appropriations lapse June 30, 1948, and *unencumbered* balances in Expense and Equipment appropriations lapse on that date. The only allowable encumbrances for which funds will be carried forward on June 30, 1948, are those for the purchase of equipment and other capital items.

Unless otherwise indicated in the budget:

1. The service required under appointments in this budget to positions on the teaching faculty covers the academic year of the University, not including the Summer Session. Salaries of such positions of the rank of Associate and above are paid in twelve equal monthly installments; salaries of other ranks, in ten equal monthly installments.

2. The service required in all positions in experiment stations and bureaus of research, and in research positions in other departments, is for a full year of twelve months, with allowance of one month for vacations, and salaries are paid in twelve equal monthly installments. In these positions the letter "Y" follows the tenure symbol.

3. The service required in all other positions, unless otherwise indicated—administrative, clerical, and service positions—is for a full year of twelve months, with allowance for vacations, and salaries are paid in twelve equal monthly installments. All such positions in the academic budget are indicated by the letter "Y" following the tenure symbol.

Symbols:

- A — Indefinite tenure.
- B — Two years from September 1, 1947.
- D — One year from September 1, 1947.
- E — Ten months from September 1, 1947
- G — Special tenure.
- H — July 1, 1947, to June 30, 1948.
- I — Present salary sub-total includes 1946-1947 positions discontinued.

Y — Indicates that services are required throughout the year except for allowable vacation, without additional compensation.

Part-time:

When any of the above symbols is combined with a number, the number indicates the fraction of time in per cent covered by the position.
