

ERRATA.

October 14, 1911.

This may certify that I have found that, through a mistake in printing, the minutes of the meeting of the Board of Trustees of the University of Illinois, held Jan. 15, 1909, which as Secretary I presented to the Board for approval March 9, 1909, lack a sentence which should be inserted on page 88 after the sentence beginning "By general consent."

This sentence is, "On motion of Mr. Blair the report as amended was then adopted."

[Signed] W. L. PILLSBURY.

On page 209, "Budget for the year 1908-09," should read "Budget for the year 1909-10."

PROCEEDINGS
OF THE
BOARD OF TRUSTEES
OF THE
University of Illinois
FOR THE
YEAR ENDING AUGUST 31, 1909.

Meeting of September 29, 1908.

The regular meeting of the Board of Trustees of the University of Illinois was held at the University, beginning at 9:00 o'clock a. m. Tuesday, Sept. 29, 1908.

The members present were: Messrs. Abbott, Davison, Grout, Hatch and Lehman, and Mrs. Evans, Mrs. Alexander and Mrs. Busey; absent: Governor Deneen, Messrs. Madden, Blair and Meeker. President James was present.

Mr. Grout, who had been appointed by Governor Deneen to fill the vacancy occasioned by the death of Mr. McLean, had taken the oath of office before the meeting.

Mr. Madden, Mr. Blair and Mr. Meeker, who had been appointed by Governor Deneen to fill the vacancy occasioned by the death of Mr. Kerrick, sent letters stating that they were unavoidably absent.

The secretary presented the minutes of the regular meeting of June 8, 1908, and the special meetings of June 20, 1908, and July 3, 1908. The approval of the minutes was deferred until 2:00 o'clock p. m.

MATTERS SUBMITTED BY PRESIDENT JAMES.

The president presented the following matters for consideration:

C. P. A.

1. A communication from Professor Robinson, Secretary of the University Committee on Accountancy, concerning the protest made against the

conduct of the examination for certified public accountants in the State of Illinois, held in May, 1908, setting forth the action taken by the University Committee on Accountancy in regard to this protest.

No action was taken on this report, as a further report is to be made later.

VETERINARY COLLEGE.

2. Report of the trip authorized by the Trustees and made by the President of the University during the summer, for the purpose of inspecting the leading veterinary colleges of Europe.

3. A preliminary plan for the building for the veterinary college and research laboratory in Chicago, suggested by the Union Stock Yards Company.

The president closed with a recommendation that a committee be appointed on the veterinary college and research laboratory, and the recommendation was adopted.

NUTRITION INVESTIGATION.

4. A report from Professor H. S. Grindley concerning the progress of the nutrition investigation.

URBANA, ILL., Sept. 22, 1908.

President Edmund J. James, University of Illinois:

MY DEAR PRESIDENT JAMES—I transmit herewith a report of the present status of our saltpeter investigation. The nutrition club consisting of twenty-four men was maintained as planned until August 1, 1908. At that time the club was disbanded and the household furniture and other supplies used for the club were stored for the time being.

During the summer I have directed a large force of office workers in calculating and tabulating the results so that they may be properly brought before the commission. At present I have five hundred closely typewritten pages prepared, and I will have in the very near future approximately as much again or more, prepared, all of which will be available for the commission if they so desire.

At present there remains five thousand dollars (\$5,000) of the funds unexpended, twenty-five hundred (\$2,500) of which will be required to pay the members of the commission when they have completed their work. The remainder of the fund, namely twenty-five hundred (\$2,500) will be used as economically as possible in getting the vast amount of information in shape for presentation to the commission and in the publication of their report.

In this connection, I wish to make for your personal information the following statements as to the results of the investigation:

First—The investigation has been completed exactly in accordance with the original plans of the commission. Nothing has been left undone that it was thought would add in any way to the thoroughness, accuracy, and completeness of the investigation or to the value of the results to be derived from the same.

Second—It can be truthfully said with all due modesty that the University of Illinois has made this by far the greatest experiment of its kind. No experiments of this nature, up to this present time, have been made or planned which in any way compare with it in extent, character, thoroughness, and accuracy.

Third—Personally but unofficially until the commission passes upon the results, I fully believe that the investigation will clearly demonstrate without a shadow of doubt that the small amount of saltpeter occurring in the cured meats used in our experiment produced no abnormal or detrimental effects or influence upon the health or the normal metabolism of the members of the nutrition club.

Fourth—At present I expect to be able to get the results of the investigation into complete shape to present to the commission by the Christmas holidays at the latest, and if possible earlier than this date.

Fifth—The publication of the detailed results of the investigation will require several volumes. I am preparing a request to present to the Carnegie Institution at Washington, asking that the complete results of our work be published in full through that channel. This request will be placed in your hands for your approval in the near future. In the meantime much of the data will appear in condensed form in the various scientific journals from time to time.

Yours very truly,

H. S. GRINDLEY.

The report was referred to the Finance Committee.

President Abbott has reported to the secretary as members of the Committee on Veterinary College and Research Laboratory, Messrs. Abbott, Meeker and Hatch.

He has also reported to the secretary that he has assigned Mr. Grout to the standing committees on agriculture and on finance, and Mr. Meeker to the committees on pharmacy and medicine.

The board adjourned.

W. L. PILLSBURY,
Secretary.

W. L. ABBOTT,
President.

Meeting of December 8, 1908.

The regular meeting of the Board of Trustees of the University of Illinois was held at the Palmer House in Chicago, beginning at 9:00 o'clock a. m. Tuesday, Dec. 8, 1908.

The members present were: Messrs. Abbott, Blair, Davison, Grout, Hatch, Lehman, Madden and Meeker, and Mrs. Evans, Mrs. Alexander and Mrs. Busey; absent: Governor Deneen. President James was present.

Mr. Meeker, who had been appointed to fill the vacancy occasioned by the death of Mr. Kerrick, took the oath of office in the presence of the board.

The secretary, Mr. Pillsbury, presented the minutes of the meeting of Sept. 29, 1908. Mr. Lehman moved that the minutes be approved as presented.

Mrs. Alexander moved to amend by directing that the communication from Dr. Kemp, considered by the Board of Trustees at the meeting of March 10, 1908, be inserted. The president ruled the amendment out of order on the ground that the communication had not been presented at the meeting of September 29th.

The minutes were then approved.

Mr. Lehman presented the report of the Committee on Revision of the By-Laws of the University and the University Statutes, consideration of which was deferred to a later hour.

REVISION OF BY-LAWS AND STATUTES.

To the Board of Trustees of the University of Illinois:

Your Special Committee on Revision of By-Laws of the Board and Statutes of the University, appointed Dec. 12, 1907 (see page 441, Minutes), having had the subject matter under consideration, beg leave to submit herewith as the result of their labors, unanimously agreed upon:

1. A revision of the By-Laws governing the board, consisting of eight articles on twelve pages (typewritten form), with copies for the convenience of the members of the board.

We recommend its adoption in form and substance as submitted, and that one hundred copies be printed pamphlet form.

2. A revision of the Statutes of the University, submitted in the form of a copy of the published Statutes of 1902, showing modifications and amendments of the same since adopted in black ink and the proposed changes by revision, in red ink. Copies for the convenience of the members of the board are herewith submitted.

We recommend the adoption of this revision in form and substance as submitted, but that a new Index be prepared by the Secretary for the same, and that four hundred copies be printed in pamphlet form.

LEWIS L. LEHMAN,
FRED L. HATCH,
LAURA B. EVANS,
E. J. JAMES,
W. L. PILLSBURY,

Special Committee.

Mrs. Alexander then moved that the communication from Dr. Kemp, above referred to, be inserted in the minutes of this meeting. Mr. Lehman moved to lay this motion on the table, and his motion prevailed.

RESOLUTIONS CONCERNING THE DR. KEMP CASE.

Mr. Lehman offered the following resolutions:

WHEREAS, The case of Dr. G. T. Kemp was first called to the attention of this board, not by the President of the University, but by Prof. Kemp himself, in a letter setting forth his grievance and sent to the individual members of this board; and

WHEREAS, After a hearing and consideration extending through several sessions of this board and a summary of the situation by the President of the University, which did not contain charges, but reviewed the case, this board finally voted that in its opinion Dr. Kemp had no just grievance against the administration of the University; and

WHEREAS, Neither the President of the University nor any one else asked for Dr. Kemp's resignation, or suggested it; and

WHEREAS, Dr. Kemp resigned voluntarily, setting forth as his reasons that his salary was not raised and his department advanced in relation to others as much or as fast as he desired; and

WHEREAS, Dr. Kemp in his communications to this board and to "Science," a weekly periodical published in the city of New York, attacked the administration of the University and also alleged that academic freedom is suppressed; and

WHEREAS, The Senate of the University, in a set of resolutions herewith submitted and appended declared its confidence in the University administration and denied that academic freedom is suppressed; therefore, be it

Resolved, That further discussion of the case is unjustifiable, as it delays the important work of this board; is prejudicial to the interests of the University, and is likely to give the public wrong impressions of the case; and, be it further

Resolved, That the above summary of the facts of the case, together with the resolutions of the University Senate, above referred to, be spread upon the records of this board and a copy given to the public.

UNIVERSITY ADMINISTRATION.

At a meeting of the Senate of the University of Illinois, Thursday afternoon, Oct. 15, called at the request of the Committee on Educational Policy, the following resolutions were adopted:

WHEREAS, There is ground for apprehending that recent articles in the press may lead the public to think that academic freedom is suppressed or interfered with at the University of Illinois by the President, or that tenure of office is insecure because of autocratic administration; therefore, without entering at all into a discussion of the case referred to in said article, be it

Resolved, By the Senate of the University of Illinois (a body which includes all heads of departments and full professors in the University), that it is our belief that each member of the faculty has entire freedom of

opinion; that he is free to express his opinions on all matters of University administration and educational policy to his colleagues and to the President without interference and without fear that it will endanger his position.

Resolved, That we hereby express our confidence in the President of the University and our conviction that he administers his high office as a colleague rather than as a superior.

Resolved, That in the opinion of the University Senate the course of the administration has been such as to stimulate to a marked degree the higher scientific and educational interests of the University.

Resolved, That as members of the faculty we assure the President of our loyal and hearty support in the varied and difficult responsibilities imposed upon him as the executive head of this University.

ARTHUR H. DANIELS,
Secretary of the University Senate.

Mrs. Alexander moved to lay this on the table, and the motion was lost. The resolutions were then adopted by the following vote: Yeas, Messrs. Madden, Blair, Abbott, Davison, Lehman, Grout and Meeker; nays, Mr. Hatch and Mrs. Alexander, Mrs. Evans and Mrs. Busey; absent, Governor Deneen.

Mr. Hatch explained his vote as follows:

I have voted against these resolutions—

1. Because there has been whitewash enough applied in this case.
2. The matter has been previously settled by the Board.
3. I wish to protect the administration from cause for more newspaper notoriety.

PERMISSION TO URBANA AND CHAMPAIGN RAILWAY, GAS AND ELECTRIC COMPANY TO CROSS THE UNIVERSITY CAMPUS.

The special committee appointed to complete an agreement with the Urbana and Champaign Railway, Gas and Electric Company concerning the crossing of the south campus reported as follows:

URBANA, ILL., Dec. 1, 1908.

To the Board of Trustees:

The Board of Trustees on July 20, 1907, authorized the undersigned committee to complete an agreement with the Champaign and Urbana Railway, Gas and Electric Company regarding the crossing of the campus by a single track from California to Daniel street.

After long negotiations and careful examination we have finally reached an agreement which is herewith submitted to the Board of Trustees for its approval.

It was drafted Dec. 1, 1908, and reads as follows:

Dec. 1, 1908.

THIS INDENTURE made this.....day of December, 1908, between the Board of Trustees of the University of Illinois for and in behalf of the University of Illinois of the first part, hereinafter referred to as Trustees, and the Urbana and Champaign Railway, Gas and Electric Company, party of the second part, hereinafter referred to as Company.

WITNESSETH, That in consideration of the agreement of the Company hereinafter contained, the Trustees hereby grant to the Company for a period of twenty (20) years, permission to construct, maintain and operate a single-track electric railway across the south campus of the University, on the line of Daniel street extended easterly across the campus, and curving northward at Wright street, and south at Matthews avenue, with the center of the railway track coinciding with a center line described as follows:

"Starting from the intersection of Oregon street and Matthews avenue, the center line shall curve to the north on Matthews avenue, and run north in the west park way of Matthews avenue at a distance of not more than

five feet six inches (5 feet 6 inches) west of present west curb line of said Matthews avenue to a point east of the north end of the Agricultural building of the University of Illinois, thence turning westerly upon a seventy-five (75) foot radius curve and crossing the campus along a line coinciding with the center line of the present paved portion of Daniel street, extended, to a point not more than seventy-three (73) feet east of the present east curb line of Wright street from which point the line shall turn northward toward Wright street on a seventy-five (75) foot radius curve and run northward in the paved portion of Wright street west of the present east curb to John street."

In consideration of the permission to construct, maintain and operate an electric railway across the University campus granted by the Trustees to the Company, the Company agrees, in constructing the railway to be guided by specifications to be approved by the Trustees of the University respecting the location, grade or grades, kind of rails, trolley poles, etc. The Company will also, at its own expense, make all changes in and repairs to walks, drives, tunnels, sewers, pipes, etc., necessitated by the construction work. The Company further at its own expense will grade the approach to its track across said campus on either side so as to afford an easy slope on either side to said tracks and facilitate crossing the same, in accordance with specifications and directions furnished by the University; and in the event that the grade of said campus shall hereafter be changed by said University, said Company agrees to make the changes in the grade of its track necessary to conform to such altered grade of said campus. The trolley wires shall be supported on poles of ornamental design, placed on one side of the track only, and shall not carry feeder cable nor cables. A sheltered waiting room of approved design shall be erected when required by the Trustees at some convenient location to be designated by them at the time.

The permission hereby granted the Company to cross the campus with its track does not constitute an easement or exclusive right to the land so occupied, and although the Company agrees to gravel or sod, as required, the space between the rails and for a distance of three (3) feet on either side thereof, the Trustees do not waive their police nor other jurisdiction over this strip of land.

The Company further agrees that should the track as located be found to interfere with future building plans, it will, at its own expense and within twelve months after receiving written notice to that effect, move its tracks to a new location to be designated by the Trustees, so as to accommodate such new building plans, without materially altering or impairing the efficiency of the route herein specified.

The party of the second part would regard a route running immediately south of the present Agricultural building, and, if necessary, directly west across the campus to Wright street and thence north in Wright street as not "materially altering or impairing the efficiency of the route herein specified."

We recommend that the Board of Trustees approve of the agreement and that the officers of the board be authorized to execute the same.

(Signed) W. L. ABBOTT,
E. J. JAMES.

On motion of Mr. Madden the report of the special committee was approved by unanimous vote, and the executive officers of the board were authorized to sign the agreement.

The committee submitted to be printed as a part of the record in this case the following exhibits:

A. A letter of the president of the University, dated Nov. 10, 1908, to Hon. William B. McKinley, president of the Illinois Traction System, Champaign, Ill., as to conditions on which the Board of Trustees had indicated their willingness to grant the permit asked for by the Champaign and Urbana Railway, Gas and Electric Company.

B. Letter from William B. McKinley agreeing to conditions mentioned in the letter of November 10, but objecting to two provisions in the proposed agreement.

Alterations were made in accordance with these suggestions and the final form agreed upon as printed above.

C. Copy of letter from Hon. William B. McKinley, president of the Illinois Traction System, stating that he had signed in two copies the agreement printed above.

D. A letter from the supervising architect of the University, James M. White, stating that the proposed agreement printed above seems to him to conserve adequately the interests of the University.

E. A letter from Dr. O. A. Harker, counsel for the University, to the effect that the proposed agreement, printed above, does not endanger, in his opinion, any right or interest which the University has in the premises covered by or adjacent to the proposed line of railway.

F. A letter from Dr. T. J. Burrill, vice president of the University, in charge of the campus, dated December 5, giving as his opinion that the proposed form of indenture safeguards the interests of the University with the possible exception that nothing is said concerning what kind of cars or what traffic is permitted on the track.

URBANA-CHAMPAIGN, ILL., Nov. 10, 1908.

Hon. William B. McKinley, President, Illinois Traction System, Champaign, Ill.:

MY DEAR MR. MCKINLEY—Hon. W. L. Abbott, president of the Board of Trustees of the University of Illinois, has forwarded to me certain papers relating to the application of the Urbana and Champaign Railway, Gas and Electric Company for a permit to cross the grounds of the University of Illinois. He found that the draft of the agreement which he had prepared and which you signed was not entirely satisfactory to some of his associates.

He has asked me to put the matter into shape as soon as possible for final action by the Board of Trustees, and it is on this account that I am writing you at the present time.

I desire very much that the matter shall be closed up as soon as possible so that the track may be put in before cold weather and that the agreement may be framed in such a way as to command the unanimous approval of the Board of Trustees. I hope that this can now be done.

I am inclosing a draft of an agreement, therefore, prepared by the counsel for the University and containing an exact description in words of the route agreed upon between Mr. Abbott and Mr. Mattis, and approved by the Board of Trustees and outlined on the blue-print submitted by your engineer, which, if satisfactory to the street car company, you may sign and return at your early convenience for submission to the Board of Trustees at its next meeting.

There is a strong feeling on the part of many members of the board that surface railway lines should not cross the campus at more than two points, and that if permission is given to the street car company to cross the campus from California av. to Daniel street and the old right of way be continued in use, the line on Green street should be removed.

The Board of Trustees, at a meeting held July 20, 1907, authorized Mr. Abbott and myself to complete an agreement with the company in all details along the lines laid down in the report of the committee, which was approved in general by the board, and which was based upon the understanding with Mr. George A. Mattis, assistant treasurer and representative of the street railway company.

One condition of the making of this agreement, however, reads as follows:

"The granting of this right of way to be contingent on the part of the University upon the agreement with the railway company to remove their tracks from Green street as soon as the crossing on the south campus is completed."

[Dec. 8

It will be necessary, therefore, before we can submit this agreement to the board, that we have a statement signed by the proper officers of the company, which we can submit to the board at the same time with the agreement that this condition will be accepted and will be fulfilled. Otherwise, we may not be able to secure the ratification of this agreement by the Board of Trustees.

I am returning the papers signed by you which were sent to Mr. Abbott.

Faithfully yours,

E. J. JAMES.

MARTINSVILLE, IND., Nov. 12, 1908.

DEAR MR. PRESIDENT—I see no reason to object to your letter. [Of Nov. 10, 1908.]

Let me suggest that upon the second page of the contract you have provided that if you wish to do so you can locate our R. R. grade 5 feet or 10 feet higher than the present ground and require us to fill in the campus to that grade from the Auditorium to the old building; second, notwithstanding you have named a twenty year term in the lease, you provide that if you want to put us off, all you have to do is to give us a year's notice that you want to put a building (a hen house is a building) on the line of our track. You eliminated provision in former copy of contract that we were to be given a new route.

Have I properly construed these two changes from contract as previously drawn?

Respectfully,

W. B. MCKINLEY.

ILLINOIS TRACTION SYSTEM,

W. B. MCKINLEY, PRESIDENT.

CHAMPAIGN, ILL., Dec. 2, 1908.

President Edmund James James, University of Illinois:

MY DEAR MR. JAMES—I hand you herewith signed, two copies of the agreement as to crossing of University of Illinois campus, as agreed between us yesterday.

Very truly yours,

W. B. MCKINLEY.

[COPY.]

URBANA, ILL., Dec. 2, 1908.

MY DEAR PRESIDENT JAMES—The proposed form of agreement between the University of Illinois and the Urbana and Champaign Railway Gas and Electric Company, dated December 1, 1908, seems to me to adequately conserve the interests of the University.

Yours truly,

JAMES M. WHITE,

Supervising Architect.

[COPY.]

UNIVERSITY OF ILLINOIS, Dec. 2, 1908.

President James and the Board of Trustees of the University of Illinois:

DEAR SIRs—I am of the opinion that the indenture, dated Dec. 1, 1908, purporting to grant to the Urbana and Champaign Railway, Gas and Electric Company permission to construct and maintain a railway across the campus between California avenue and Daniel street does not endanger any right or interest which the University has in the premises covered by or adjacent to the proposed line of railway.

For the reason that there is no law authorizing the Board of Trustees to execute a grant of a right of way over lands held in trust for educational purposes this indenture when signed can have no greater force than a mere naked license, revocable at any time. Should it be acted upon the present

or any future Board of Trustees could on reasonable notice compel a removal of the tracks, poles and all other appliances placed upon the campus under its terms.

Respectfully submitted,

O. A. HARKER,
Counsel for University.

[COPY.]

URBANA, ILL., Dec. 5, 1908.

Edmund J. James, President, University of Illinois:

DEAR SIR—Upon the understanding that it is otherwise agreed that the street railway shall have the privilege of crossing somewhere the south campus, I am of the opinion that the proposed form of indenture submitted to me by you on Dec. 4, 1908, in regard to the subject, fully safeguards the interests of the University, with the exception that nothing is said concerning what cars or what traffic is permitted on the track.

Very truly yours,

T. J. BURRILL,
In Charge of the Campus.

APPROPRIATIONS.

On motion of Mr. Lehman, the appropriations asked for in "Paper I" were made.

REPORT OF THE EXECUTIVE COMMITTEE.

Mr. Abbott, chairman of the Executive Committee, made the following report with regard to action taken by the committee concerning the C. P. A. examination held in May, 1908.

CHICAGO, Nov. 18, 1908.

To the President and Trustees of the University of Illinois:

November 16th, I communicated with Mr. Lehman and Mrs. Carrie T. Alexander, members of the Executive Committee of the Board, regarding the desirability of appointing, without further delay, a special committee of the board to consider the testimony submitted concerning a question raised as to the fairness of that examination by some of the C. P. A. candidates, who failed to pass the examination held in May this year by the University C. P. A. examining committee.

The opinion of the Executive Committee was that to secure an early decision on this question, as requested by the petitioners, a special committee should be appointed to consider carefully the testimony in the case, and report its conclusions at the next meeting of the board. I have accordingly appointed a special committee, consisting of F. L. Hatch, Arthur Meeker and A. P. Grout, to each of whom I have written a letter notifying him of his appointment, giving a general history of the case to date, a copy of which letter is attached hereto.

I will ask that this letter, together with the letter attached, be made a part of the records of the board and be filed with the papers concerning this C. P. A. examination protest.

Very truly yours,

W. L. ABBOTT,
Chairman Executive Committee.

CHICAGO, Nov. 18, 1908.

Hon. F. L. Hatch, Hon. Arthur Meeker, Hon. A. P. Grout, Members Board of Trustees, University of Illinois:

GENTLEMEN—One of the duties laid upon the Board of Trustees of the University of Illinois by the State Legislature is that of awarding the degree of Certified Public Accountant to those candidates who pass such an examination in this subject as the University considers necessary to maintain the degree at a proper standard.

The University offers no course for this degree, but has placed the entire management of all affairs relating to examinations for the degree in the hands of the President of the University. The President in turn has delegated this duty to a committee of three members of the Faculty, who are known as the University Committee on Accountancy, and this committee is assisted by a board of examiners, two of whom are accountants and one an attorney, who prepare the questions and conduct the examinations.

One of the prerequisites which has been prescribed by the Legislature for candidates, before they may be admitted to examinations, is that they must have had the equivalent of a high school preparation, but at the last session of the Legislature a law was passed waiving the pre-educational requirements for candidates for the examination to be held in May, 1908, and May, 1909. This was to admit to examinations those men of middle age and of undoubted ability who now are, and have been engaged in accountancy, but who have not had a high school education.

In May of this year the first examination was held under this provision, and about seventy candidates appeared to take the examination, of whom less than 12 per cent were successful; whereupon many of the unsuccessful candidates formed an organization to protest the examination, alleging that it was unfair in many features because of bias on the part of the examiners against those candidates who applied for examination under the Waiver Act. Their protest was lodged with the University Committee on Accountancy, and by it referred to the President of the Board, who, acting under the

authority of the Executive Committee referred the matter back to the University Committee to obtain from the protesting examinees a full statement of their case, which would then be referred to the Examining Committee for such "statements and evidence as they care to offer in justification or explanation of their acts to which exception has been taken."

The last paragraph in the instructions to the Chairman of the University Committee was as follows:

"As the board will be obliged to pass upon the testimony your committee will not be required to draw conclusions."

The University Committee has carried out the instructions and has presented its report, which is now in the hands of President James at the University. All the papers make such a voluminous record that it would not be feasible to consider the case in a full board meeting, and as the matter has already dragged along unavoidably through several months, the Executive Committee has authorized the appointment of a special committee of the board to consider the evidence submitted, and report a recommendation to the next meeting of the board, which will be held some time in December.

I have, therefore, selected the three members whose names appear at the head of this communication as best fitted, both by temperament, and by not having come in contact with the case previously, to consider and pass upon the conflicting testimony offered.

I will ask Mr. Hatch, whom I appoint Chairman of the special committee, to get the papers in the case from President James, and lay the matter before the committee at an early date so that a report may be in the hands of the board not later than December 8th.

Very truly yours,

W. L. ABBOTT,
President Board of Trustees.

WALKS, REPAIRS, PHYSICS BUILDING, NATURAL HISTORY BUILDING.

The Committee on Buildings and Grounds made the following report, which was approved on motion of Mr. Hatch, and the additional \$5,000 of the appropriation for the Natural History building was assigned as recommended.

URBANA, ILL., Oct. 24, 1908.

To the Board of Trustees of the University of Illinois:

Your Committee on Buildings and Grounds beg leave to report that on this day a meeting was held at the University.

Upon a communication from the Supervising Architect with regard to walks and sundry repairs, referred to the Committee on Buildings and Grounds with power to act (see p. 6 of the Minutes of the meeting of Sept. 29, 1908), there was ordered:

In connection with the Physics building, the committee agreed to concur in authorizing an enlarged fan house, the changing of the attic roof so as to provide a photographic skylight, a revised entrance design, and a concrete floor over the entire basement area, the expense of these changes all coming within the \$10,000 appropriation of the trustees at their meeting, and placed at the disposal of the supervising architect, the State Architect, and the Buildings and Grounds Committee. (See p. 564, minutes of the meeting of July 3, 1908.)

The recommendation for the ventilating of the Natural History building was considered, but as the amount of money involved exceeded the \$5,000 placed at the disposal of the architects and the committee, no action was taken, although the committee agreed to recommend to the Board the appropriating of an additional \$5,000 for extras on the Natural History building, to be expended under the same supervision as the first \$5,000. (Ibid, p. 565.)

Respectfully submitted,

W. L. ABBOTT,
FRED L. HATCH,
LAURA B. EVANS,
LEWIS L. LEHMAN,

Committee on Buildings and Grounds.

VETERINARY COLLEGE.

The Committee on Veterinary College made the following report, which was approved:

CHICAGO, Nov. 13, 1908.

To the Board of Trustees of the University of Illinois:

Your Committee on Veterinary College begs leave to report that at a meeting of the committee held in the Palmer House, Chicago, November 13th, plans for a Veterinary College building were considered and approved in general with a few suggestions for changes.

It was decided to recommend to the board that the Veterinary College be open for students at the beginning of the college year, September, 1909, that a three-year course be offered, based upon a requirement of fifteen units for admission, and that a dean for the college be engaged as soon as possible.

There were present at the meeting Messrs. Hatch and Abbott of the committee, Dr. Davison and Mrs. Evans, members of the board, and President James.

Respectfully submitted,

W. L. ABBOTT,
FRED L. HATCH.

FIRE INSPECTION.

President Abbott presented the following communication, which was approved, and the appropriation made as recommended on motion of Mr. Madden:

CHICAGO, Dec. 7, 1908.

To the Board of Trustees, University of Illinois:

Agreeable to an order asked at a meeting of the board some time last spring I engaged a fire inspector to inspect the buildings of the University located on the campus at Urbana.

This inspection was made last July, and reported on July 16th. Copies of this report were furnished the superintendent of buildings and the supervising architect, but through an oversight it was not reported to the board. I therefore, attach hereto a copy of the fire inspector's report.

The report, which covers nine typewritten pages, states that a great improvement has been made in the condition of the property since the date of a previous inspection made in December, 1907, but that some of the conditions are still unsatisfactory. Many of the defects pointed out have since been corrected by the supervising architect, but others which would necessitate a large expenditure of money are still held in abeyance.

In the report of inspection of December 10th, the inspector recommended that the University procure a properly equipped conveyance to quickly transport the fire company with their equipment in response to a fire alarm. The inspector in his July report more strongly emphasizes the necessity of having such a conveyance, and on the occasion of the fire in October in the University hall the very great necessity for this equipment was made manifest.

In view of the strong recommendations of the fire inspector and by the demonstration of the necessity for this apparatus, I consider, that to further defer action on this important matter cannot be justified. I, therefore, recommend that the Building and Grounds Committee be directed to report at the next meeting upon the most desirable type of vehicle, kind and amount of equipment for the purpose.

The two inspections of our buildings, which have been made by a disinterested inspector, has resulted in greatly improving the conditions which heretofore existed, and as the expense of these inspections is comparatively small, I recommend that the chairman of the Building and Grounds Committee be authorized to have another inspection made at as early a date as is practicable, and I further recommend that \$50.00 be appropriated to defray the expense of this inspection.

Respectfully submitted,

W. L. ABBOTT,

President Board of Trustees.

STUDENTS' FEES FOR LABORATORY SUPPLIES.

Dr. Burrill made the following report with regard to students' fees for laboratory material furnished them, and the report was approved on motion of Mr. Lehman:

URBANA, ILL., Dec. 7, 1908.

To the Board of Trustees of the University of Illinois:

At the meeting of the board on July 3, 1908, (p. 567), a list of fees for laboratory materials to take the place of the deposits before required was authorized. This list when made out by the council of administration was to be approved by the Committee on Finance of the Board. The list so made and so approved was put into use at the beginning of the present semester. Later, it was found that no provision had been made for rebates, and that there were in some circumstances proper calls for them. The council of administration, therefore, took action upon the subject as follows:

"In case a student withdraws from a course or from a college during the first ten days of instruction as scheduled, the total amount of his fees for the work dropped shall be refunded; after ten days and before the middle of the semester, a rebate of one-half of the fees shall be made; and after the middle of the semester no rebate shall be allowed."

Since it seemed to be necessary, action according to this provision has been taken several times during the semester, but it is desirable that the whole matter be presented to the Board of Trustees for their information and for such action as may seem to them wise.

Very truly yours,

T. J. BURRILL,

Vice-President.

LINE FENCE ON THE SOUTH FARM.

Pursuant to authority given by the Board of Trustees (see pp. 475 and 476 of the minutes of the meeting of June 8, 1908), arrangement was made with Mr. William Sullivan for a determination of the disputed line by arbitration. A letter from Judge Harker, a copy of the agreement, and a copy of the finding of the surveyor are given below.

This agreement, and the finding with plat attached, was filed in the office of the Recorder of Champaign county, Nov. 21, 1908, and is recorded in Book 10 of Miscellaneous Records, p. 588.

The secretary was directed, on motion of Mr. Davison, to file the recorded agreement and plat.

UNIVERSITY OF ILLINOIS, Dec. 4, 1908.

To the Board of Trustees of the University of Illinois:

GENTLEMEN—Respecting the controversy between the College of Agriculture and William Sullivan over the boundary line between the S. E. $\frac{1}{4}$ of the N. E. $\frac{1}{4}$ of section 19, township 19 N., R. 9 E., owned by the University, and the N. E. $\frac{1}{4}$ of the S. E. $\frac{1}{4}$ of said section, referred to me by the Board of Trustees some time ago, I beg leave to submit the following report:

No agreement fixing a line between the two tracts of land could be reached with Mr. Sullivan because of his insistence that a line fixed by a survey of the Champaign county surveyor a few years ago was the correct boundary line. That survey differed from one made by Mr. L. G. Parker under direction of Professor Baker, and took from the University a strip nine feet in width across the entire forty acre tract belonging to it. Mr. Sullivan then employed Ray and Dobbins, lawyers of Champaign, to represent him, and a conference with Mr. Dobbins resulted in the selection of Charles Cottingham, civil engineer of Danville, Illinois, to survey the two tracts of land and establish the true lines and corners between them. A written agreement was drafted and subsequently signed by Mr. Abbott as president of the Board of Trustees and by Mr. Sullivan. Cottingham then made the survey, established the lines and corners between the two tracts and made a plat thereof, as provided by law. The agreement, plat and surveyor's report were under my direction as counsel for the University, recorded in the recorder's office of Champaign county. The proceeding was had under a recent act of the Legislature and permanently fixes the line and corners between the two tracts. I am glad to be able to report to you that the contention of the University made through Professor Baker and Mr. Parker was fully sustained by the work of Mr. Cottingham.

I submit with the report the written agreement of the parties and the plat and report of Mr. Cottingham, with the suggestion that they be carefully preserved.

Respectfully submitted,

O. A. HARKER,
Counsel for the University of Illinois.

AGREEMENT.

WHEREAS, A dispute exists between the Board of Trustees of the University of Illinois, the owner of the southeast quarter of the northeast quarter of section nineteen (19), township nineteen (19) north, range nine (9) east, Champaign county, Illinois, and William Sullivan, the owner of the northeast quarter of the southeast quarter of said section as to the boundary line between the said tracts of land; and

WHEREAS, The said parties desire to establish permanently the lines and corners between said tracts of land.

It is hereby mutually agreed that Charles Cottingham, of Danville, Ill., be employed by them to survey said tracts of land and establish the true lines and corners between the same, and that they, the said parties, will abide by such survey as the said Charles Cottingham may make.

It is further agreed that the said Board of Trustees of the University of Illinois will pay one-half of the cost and expense incident to such a survey, and one-half of the recorder's fees for recording this agreement, and the plat of the survey which shall be made by the said Cottingham, and that the said William Sullivan will pay the other one-half of said cost, expense and recorder's fees.

Witness the signatures and seals of the parties to this agreement this 3d day of August, 1908.

UNIVERSITY OF ILLINOIS,

(Seal) By W. L. ABBOTT,

President, Board of Trustees.

(Seal) WILLIAM SULLIVAN.

REPORT OF SURVEYOR.

I, Charles Cottingham, civil engineer and the person selected by the Board of Trustees of the University of Illinois, and William Sullivan, of Champaign, Ill., to make survey of land in accordance with the agreement hereto attached, do hereby certify that I did on Sept. 29, 1908, begin a survey of section nineteen (19), town nineteen (19) north, range nine (9) east of the Third Principal Meridian, Champaign county, Ill., for the purpose of fixing the boundary lines between the lands described in said agreement and completed such survey on Oct. 12, 1908; that I correctly found the northeast corner, the southeast corner and the southwest corner of said section, established by the original government survey; that I correctly established the corners and lines between the southeast quarter ($\frac{1}{4}$) of the northeast quarter ($\frac{1}{4}$) of said section, owned by the University of Illinois, and the northeast quarter ($\frac{1}{4}$) of the southeast quarter ($\frac{1}{4}$) of said section, owned by William Sullivan; that I planted at the southeast corner of the southeast quarter ($\frac{1}{4}$) of the northeast quarter ($\frac{1}{4}$) of said section a granite boulder weighing about sixty (60) pounds, sixteen (16) inches long and eight (8) inches in diameter, with a chiseled cross at the top; that I planted at the southwest corner of the southeast quarter ($\frac{1}{4}$) of the northeast quarter ($\frac{1}{4}$) of said section a granite boulder weighing about one hundred (100) pounds and about fourteen (14) inches in diameter, with a chiseled cross at the top; that the lines and corners were established in accordance with the above plat, and that the said plat is a true and correct representation of said survey as made by me. Measurements are given in feet, and distance shown by the government plat are in chains.

Signed at Danville, Ill., Nov. 11, 1908.

CHARLES COTTINGHAM.

IMPORTATIONS OF CHEMICALS AND APPARATUS.

4. Letter from E. J. Townsend, dean of the College of Science, approving a recommendation that Professor W. A. Noyes, director of the Chemical Laboratory, have authority to place through the proper officer of the University, an order for importation of chemicals and apparatus to an amount not exceeding ten thousand dollars (\$10,000) to be placed some time in January, 1909, goods to be delivered in May or June of the same year.

Voted on motion of Mr. Lehman that said authority be given.

WATER SURVEY.

5. Statement from Edward Bartow as to the scope and function of the Water Survey.

STATE WATER SURVEY.

The State Water Survey was organized in the latter part of September, 1895, as a division of the Department of Chemistry of the University of Illinois. It received its first special appropriation under an Act of the General Assembly of the State of Illinois entitled, "An Act to establish a Chemical Survey of the Waters of the State of Illinois," approved June 7, 1897. This Act authorized and directed the Trustees of the University of Illinois to establish a chemical and biological survey of the waters of the State in connection with the University. It was made the duty of the University to collect facts and data concerning the water supplies of the State; to collect samples of water from wells, streams and other sources of supply; to subject these samples to such chemical and biological examination and analysis as would serve to demonstrate their sanitary condition and to determine standards of purity of drinking waters of the various sections of the State; to publish the results of these investigations in a series of reports to the end that the condition of the potable waters of the State may be better known and that the welfare of the people of the various communities of the State may thereby be conserved. Reports have been prepared as follows:

No. 1. Chemical Survey of the Waters of Illinois. Preliminary Report.

No. 2. Chemical Survey of the Waters of Illinois. Report for the years 1897-1903.

No. 3. Chemical and Biological Survey of the Waters of Illinois. Report for year ending Aug. 31, 1906.

No. 4. Mineral Content of Illinois Waters. (In press.)

No. 5. Municipal Water Supplies of Illinois, 1907.

No. 6. Chemical and Biological Survey of the Waters of Illinois. Report, Sept. 1, 1906, to Dec. 31, 1907. (In press.)

No. 7. Chemical and Biological Survey of the Waters of Illinois. Report for year ending Dec. 31, 1908. (In press.)

The last Legislature appropriated \$6,000 per annum for the work of the Survey. One thousand dollars has been made available by the State Board of Health for bacteriological examinations and during the current year, in addition to furnishing rooms and a considerable amount of apparatus and chemicals, the University has allotted \$1,350 for additional equipment, for printing and for laboratory assistance.

The work done by the Survey may be considered as analytical and experimental, diagnostic, and educational. Under the first head, analytical and experimental, is included the analyses made at the instance of the Survey to determine normal constituents of the waters of the State, and special investigations of methods of analysis and methods of treating waters, as for example, a study of farm water supplies; the work for the Sanitary District of Chicago on streams examination; the study of methods for the determination of nitrogen as nitrates, etc.

Under the second head, diagnostic, would be included the large number of analyses made at the request of health officers or citizens of the State to determine the suitability of certain waters for drinking purposes. This class of work has increased greatly so that it occupies a large proportion of the time of the active staff.

The educational work of the Survey, in addition to the bulletins, includes the circulars on interpretation of results, which are sent out with each analysis, and lectures to communities on problems connected with the water supplies.

We believe that provision should be made for the annual examination of the water from each municipal water supply of the State; that investigations should be carried on to determine the proper method of treating each supply, to make it most suitable for domestic and manufacturing uses. No stream in the State furnishes without treatment a water suitable for domestic use. The Water Survey should examine these supplies at regular intervals, and not only give advice concerning methods of purification, but should have power to enforce its recommendations. Provision should be made that investigations may be carried on in connection with the Lake Michigan Water Commission, of which the director was made a member by executive appointment. In connection with the conservation of the resources, the State Water Survey should be authorized to investigate and control the pollution of the streams of the State by domestic sewage or manufacturing wastes.

GRADUATE SCHOOL FUNDS.

6. Communication from the dean of the Graduate School concerning the appropriation of the balance of the Graduate School fund.

Voted on motion of Mr. Madden that the balance of the sum appropriated by the Legislature for the maintenance of the Graduate School for the biennium 1907-09 be now appropriated for the provision of additional equipment in books, manuscripts, maps, apparatus and other supplies, and for the expenses—including extra help, cases, etc.—incidental to caring for this additional equipment, for the purpose of strengthening the departments represented in the Graduate School in order to put them into fair working condition as far as possible, and

that the fund shall be assigned among these departments upon the recommendation of the dean of the Graduate School approved by the president of the University.

ACOUSTICS OF AUDITORIUM.

7. Letter from James M. White, supervising architect of the University, accompanying a report from Dr. Watson upon investigations which he has made in regard to the improvement of the acoustics in the Auditorium.

8. Statement in regard to the salary of Mr. R. T. Stull in the Department of Ceramics.

Voted on motion of Mr. Blair that in view of the fact that Mr. Stull's work and responsibility are considerably increased by the resignation of Professor Bleininger in the department of ceramics, the salary of Mr. Stull for the present academic year be increased by four hundred dollars (\$400) above the amount fixed in the budget, making the salary two thousand dollars (\$2,000) per annum from Sept. 1, 1908.

OBJECTIONS TO THE CAR LINE ON GREEN STREET.

10. Communications from Professor W. F. M. Goss, dean of the College of Engineering, Dr. A. P. Carman, professor of physics, and Professors C. T. Knipp and F. R. Watson concerning the disturbing influence of the car line on Green street upon the work in the new physics laboratory.

URBANA, ILL., March 13, 1908.

President Edmund J. James, University of Illinois:

DEAR SIR—It has been commonly understood in the College of Engineering throughout a considerable period, that the street railway line now on Green street would ultimately be removed from that street. I myself have not been a factor in the discussions which have undoubtedly arisen from this general proposition, and I am not sure that I understand all of the considerations which have given rise to the understanding referred to. I do know, however, that the feeling that the track was to be removed has been a factor in determining the location of the physics building. It has not been definitely determined to locate the physics laboratory on Green street, and I shall hope that nothing will interfere with the carrying out of the original plan with reference to the railway track. The passage of heavy cars in close proximity to the physics building will constitute a serious interference with the work it is proposed to do in that building. There is, I think, no way that has thus far been devised, by which the delicate instruments of the physicist can be protected from the influence of the vibrations which result from the passage of heavy cars over rail joints in the immediate vicinity of the instruments. The fact that we are making a large investment for the Department of Physics in the expectation that the department will be able to undertake lines of work not hitherto contemplated and in the hope that fine and significant things for science can be done in the new building, emphasizes the desirability of protecting the building by the removal of the track.

Respectfully submitted,

W. F. M. Goss,

Dean of the College of Engineering.

URBANA, ILL., March 13, 1908.

President Edmund J. James, University of Illinois:

DEAR SIR—We respectfully call your attention to the desirability of removing the street car traffic from Green street, in front of the site for the

new physics building. Indeed, this is the one great menace to the use of the building for certain important classes of physics experiments. The vibrations produced by a street car pounding along the street are of the worst sort for our work, and should by all means be eliminated. While the electrical and magnetical disturbances may not be so serious as these mechanical disturbances, yet they do more or less limit the work that we can do. The removal of the direct current electrical lines to twice the distance will cut the disturbances down to a fourth and so on according to an inverse square law. Hence, we respectfully urge that you do all you can to secure the removal of this car line from Green street, in the interest of the high efficiency of the work for which the State is putting so much money in a physics building.

Respectfully submitted,

A. P. CARMAN,
CHAS. T. KNIPP,
F. R. WATSON,

Professor and Assistant Professors of Physics.

URBANA, ILL., Oct. 14, 1908.

President Edmund J. James, University of Illinois:

DEAR SIR—In a conversation which we had a few days ago you asked me to write you a note concerning the disturbances caused by the street car traffic on Green street. These disturbances are first, noise, and second, vibrations. The noise affects recitations in class rooms facing on the street. At times it is very great, particularly when a car goes by with worn gearing and wheels which are out of round (or "flat"). This affects a number of the recitation rooms in the Engineering building, and in the new Physics building, all of the recitation rooms face Green street.

In reference to the mechanical vibrations, I quote from a note which Doctors Knipp and Watson and myself sent you last March. We wrote:

"The street car traffic on Green street is the greatest menace to the use of the building for certain important classes of physics experiments. The vibrations produced by a street car pounding along the street are of the worst sort for our work, and should, if possible, be eliminated."

That these mechanical disturbances are not a mere possibility but a reality, Dr. Knipp and myself have found by experiments made within the last few days on the walls and piers in Engineering hall, and on the foundation and an experimental pier in the new Physics building. The magnetic disturbances are not so serious but would be decreased by removing the cars to a greater distance.

Yours respectfully,

A. P. CARMAN,
Professor of Physics.

There was also received a protest by citizens living on Green street against the removal of the car line from that street.

SHELVING FOR THE LIBRARY.

11. Communication from supervising architect, recommending that shelving be placed in the west basement room in the Library all the way around the outside and to the full height of the wall. He estimates that this will take 1676 lineal feet of shelving, and that the cost will probably be in the neighborhood of twenty-one hundred and sixty dollars (\$2,160).

Voted on motion of Mr. Madden that the supervising architect be directed to erect said shelving and that a necessary sum to defray the cost is hereby appropriated.

PEDESTAL FOR LONGFELLOW BUST.

12. A recommendation that a pedestal be made for the Longfellow bust which was presented to the University by the senior class of 1907.

Voted that said pedestal be made and that the sum of forty dollars (\$40) be appropriated to meet the expense of the same.

DINING HALL UNDER VESTIBULE OF AUDITORIUM.

13. Recommendation that the space in the Auditorium underneath the memorial vestibule be plastered and finished with a concrete floor, and properly lighted with electric lights so that it can be used as a dining hall.

Voted to refer said recommendation to the Committee on Buildings and Grounds with power to act.

ANNA J. VOODRY WILL.

14. Report from the counsel of the University, Judge O. A. Harker, relating to the will of Anna J. Voodry.

Voted that the counsel of the University be instructed to protect the interest of the University in this case.

SCHOLARSHIPS IN COLLEGE OF LAW.

15. Communication from the dean of the College of Law in regard to the students in the College of Law entitled to scholarships for excellence of work.

Voted on motion of Mrs. Alexander that the comptroller of the University be authorized to pay the amount of full scholarships to F. A. Wilson, O. Barth, F. P. Benjamin, B. A. Strauch; of half scholarships to J. L. McLaughlin, J. M. Powers, W. J. Barnett, C. A. Braden, C. R. Dewey; the full scholarships amounting to full tuition and the half scholarships to half tuition upon certificate from the dean of the College of Law that said parties are entitled to the full or half scholarships respectively.

CONTRACT FOR PRINTING UNIVERSITY STUDIES.

16. Communication from Dean Kinley recommending that a contract for the printing of University Studies be made with the Gazette Printing Company.

Voted that the proper officers of the University are hereby authorized to enter into such contract with the Gazette Printing Company.

ASSISTANTS IN THE LIBRARY.

17. Communication from the acting librarian requesting additional assistance in the Library.

Voted on motion of Mrs. Alexander that the president of the University be authorized to appoint an order assistant at a salary not to exceed eighty dollars (\$80) a month until Aug. 31, 1909; also a catalogue assistant at a salary not to exceed seventy-five dollars (\$75) a month, and a typist at not to exceed fifty dollars (\$50) a month until Aug. 31, 1909.

It was voted on motion of Mr. Madden to remit to Sister Mary Benigna \$50 of her fees as a special student in the School of Pharmacy.

A communication asking that the affiliation of the College of Physicians and Surgeons of Chicago be terminated was received and filed.

ACCOUNTANCY EXAMINATION MAY, 1908.

The committee appointed to examine and report upon the examination for C. P. A. diplomas held in May, 1908, reported as follows, and the report was unanimously adopted:

CHICAGO, Dec. 8, 1908.

To the Board of Trustees of the University of Illinois:

Your committee to which was referred the petition from the dissatisfied applicants for the C. P. A. diploma begs leave to report that the papers submitted have been carefully read and considered by each member of the committee. The committee unanimously denies the petition of the applicants, and confirms the finding of the Board of Examiners.

FRED L. HATCH,
A. P. GROUT,
ARTHUR MEEKER,

Committee.

EXTENSION OF SCHOLARSHIPS.

A request from W. E. Dalbey for extension of an agricultural scholarship was not granted.

LEGISLATIVE ASKINGS.

On motion of Mrs. Evans, the president was directed to appoint a committee of five on legislative askings. [Committee appointed since the meeting: Messrs. Blair, Grout, Hatch, Abbott and Mrs. Evans.]

REVISION OF BY-LAWS.

The report with regard to by-laws made by the Committee on the Revision of the By-Laws was then taken up and read.

Dr. Davison moved to adopt the by-laws as read.

Mrs. Busey moved to defer consideration until the next meeting.

This motion was lost, and the motion to adopt prevailed.

Mrs. Alexander asked to be recorded as voting no.

SEC. 2. These by-laws may be amended or repealed at any regular meeting of the board by a majority vote of record of all the members of the board constituting it by law: *Provided*, that copies of such amendments shall be submitted in writing and furnished each member at the beginning of such meeting.

REVISION OF STATUTES.

Mrs. Busey moved to adopt the revision of the statutes as presented. Mr. Madden moved to defer consideration until the next meeting, and his motion prevailed.

The board adjourned.

W. L. PILLSBURY,
Secretary.

W. L. ABBOTT,
President.

A special meeting of the Board of Trustees of the University of Illinois was held at the Palmer House in Chicago Dec. 28, 1908, pursuant to the following notice which was sent out by the secretary Dec. 21, 1908:

Mrs. Alexander protested against this action and asked to be recorded as voting no.

LAWS OF THE BOARD OF TRUSTEES.

INSTRUCTIONAL FORCE.

ORGANIZATION AND ADMINISTRATION.

1. All persons who give instruction in any department of the University shall constitute the general faculty.

2. The members of the general faculty shall be classified as follows: (a) the president; (b) the vice-president; (c) the dean of the graduate school; (d) the dean of undergraduates; (e) the deans of the separate colleges; (f) the dean of women; (g) professors; (h) associate professors; (i) assistant professors; (j) associates; (k) instructors.

3. The president, the vice-president, the dean of the graduate school, the dean of undergraduates, the deans of the separate colleges, and the dean of women shall constitute the council of administration.

4. The president, the deans, the high school visitor and the full professors of the University shall constitute the University senate.

5. The members of the general faculty associated with each college or school shall constitute the faculty thereof.

6. The president shall be the executive head of the University, and a member of each faculty thereof. It shall be his duty to secure efficiency in all of the departments, and orderly and economical administration and healthful development in all of the affairs of the University. He is clothed with all authority needful to that end, and for his acts is answerable to the Board of Trustees alone.

7. The vice-president shall exercise the functions of the president in his absence, and shall at all times be of such assistance to the president as he can, by the exercise of such functions as the latter may delegate to him.

8. The dean of undergraduates shall concern himself about the interests of individual students, and shall render such assistance to the president as that officer may desire.

9. The dean of each college shall be the executive officer of that college and shall be responsible to the president for carrying out all University policy and for the execution of all established rules or special directions given by any superior authority. The dean shall make an annual report to the president on or before the first day of June in each year, in which he shall fully treat of the work of his college. He may make report or advance suggestions at any time, and shall report to the president whenever requested so to do.

10. The ranking professor of a department shall, unless otherwise directed, be the head thereof and, subject to superior authority as to policy and course of procedure, he shall be responsible for the quality and efficient progress of the work of that department, and all subordinates in the department shall conform to his views touching department policy, while they exercise their own originality and genius in carrying it out. The ranking member of a department staff which is without a professor at its head shall,

for the time being, be the head of the department. Subordinates in a department, and particularly associate professors, shall be entitled to offer to the head professor thereof such suggestions as they may see fit concerning the general policy of the department; but the final determination of that policy shall rest with the head thereof and with the authorities superior to him. He shall make all department reports, prepare estimates for the expenses of his department, and be responsible for the distribution and expenditure of funds assigned to it.

COUNCIL OF ADMINISTRATION.

11. The members of the council of administration, other than the president, shall be associated with that officer in an advisory capacity touching the discharge of administrative duties. The council shall have exclusive jurisdiction over all matters of discipline. It shall not exercise general legislative functions, but when any matter arises which has not been provided for by rule or common usage or legislative action of the senate, and which can not be conveniently laid over until the next meeting of the senate, it may act upon the same according to its discretion, and its action in such case shall not be subject to reversal by the senate. It shall be the duty of the secretary of the council to report to the senate, or to particular officers, all items of its action when necessary to efficient administration.

UNIVERSITY SENATE.

12. The University senate shall exercise general legislative functions touching the educational policy of the University or any particular matter incident thereto.

COLLEGE FACULTIES.

13. The faculty of each college or school may exercise legislative functions touching any matter appertaining exclusively to the internal work of that college and the progress of students therein. It shall not however, have authority to take away from any student any University privilege, nor shall it do anything trenching upon the executive duties of the dean. It must be understood that the college organization is only for convenience within University circles, and that no college shall take action not well supported by rule or usage for which the general officers of the University may be called upon to answer. All matters of general policy, or matters involving the interests of outside parties, must be determined by general University authority.

DEAN OF WOMEN.

14. The dean of women shall be charged with the general oversight of all of the women students of the University. It shall be her duty to aid and advise them in their University life. She shall render such assistance to the president of the University as that officer shall desire.

TERMS OF EMPLOYMENT.

15. (a) In the absence of some special arrangement, the employment of members of the general faculty will be either continuous or for a period of ten months. Those continuously employed must hold themselves in readiness for service at any time during the year, and will receive their salary in twelve monthly installments. The others will receive their salary in ten monthly installments, and their employment will be from September 1 to July 1, within which period they must at all times be in readiness for any required service.

(b) It is assumed that all persons worthy of continuous employment will be interested above all else in developing the work of their departments, will have no interest incompatible therewith, and will give the utmost of their powers at all times to the promotion of that end.

(c) The importance of rest and recreation to teachers is recognized, and it is desired that all shall have reasonable vacations, and shall use their vacations rationally to promote the ends for which they are afforded; but it must not be supposed that the vacation of the general faculty extends from commencement day to the day when instruction begins in September. All members of the faculty will be expected to be in actual attendance up to the first day of July and on and after the first day of September, except on leave extended, for special reasons, by the president of the University; and that in July and August all, except instructors, will keep the president notified of their whereabouts and will respond quickly to any call for service.

(d) It is the desire and intention of the board that all competent and effective teachers shall feel secure in their positions and remain permanently in the service of the University; but experience shows that it is necessary to reserve the legal right to terminate service at any time for any reason which in the judgment of the board may be sufficient, and all employment must be accepted upon this condition. No summary dismissal will be made, except for conduct prejudicial to the University, or without opportunity for a hearing, if the facts are disputed. When service is terminated by the board for other cause than misconduct, notice will be given at the earliest time practicable; and in case a member of the general faculty intends to leave the service of the University it is but fair that the president of the University shall be advised, at least as soon as such purpose has been determined upon. In case a resignation is presented to take effect at some future time the board will exercise its right to terminate the service at that time, or at some earlier date, as may seem just to all the interests involved. In case a member of the general faculty enters upon regular employment elsewhere before the termination of service here, that fact will work a termination of service and cessation of salary here. Absence from ordinary service in the University, for any other cause than sickness, must be with the approval of the president, if for less than ten days; and if for a longer time, with the approval of the Board of Trustees. For any failure to comply with all the conditions of loyal and interested service, which are an honorable obligation upon all members of the general faculty, the Board of Trustees will feel free to withhold salary so far as the interests of the University and justice to others may seem to demand.

ALL UNIVERSITY POSITIONS ON MERIT BASIS.

16. (a) In the opinion of the board all University positions should be kept on the merit basis. No officer or employé should be removed except for good cause, and whenever an appointment is made it should be made solely with regard to special fitness.

(b) The board stamps with its strongest disapproval any disposition to make patronage out of University appointments. The appointment of a relative of a member of the board, or of any other person occupying an influential position in the University, is wholly disapproved. Political, social, fraternal, or church influences are to be altogether ignored, and every appointment must be made upon the merit basis. The president and other officers of the University are to feel fully assured that the trustees will heartily support them in acting upon this principle.

LEAVE OF ABSENCE FOR PROFESSORS.

17. A professor, associate professor, or assistant professor, who has served seven consecutive years, and requests it, may be given a leave of absence for the purpose of foreign study for one year on half pay; provided, that these permits shall only be given on the advice of the president, and

shall not be given so as to conflict with each other in any way, or to hamper the work of the University. Also, that a professor taking such leave of absence shall pledge himself to remain at the University for three years after his return, at the salary which he received for the year previous to his leave of absence, and that the University in return shall agree to retain him in its service during his leave of absence and for one year thereafter.

COMMUNICATIONS TO THE BOARD OF TRUSTEES REGARDING MATTERS OF BUSINESS
OR APPOINTMENTS.

18. All communications pertaining to matters of business or to appointments, to be presented to the Board of Trustees for action, shall be first presented to the president for his examination and recommendation, and such other suggestions as he may deem proper.

REPORTS—OF DEANS.

19. The president of the University may in the exercise of his free discretion send to the members of the Board of Trustees in advance of meetings such reports or parts of reports of deans or other officers as in his judgment will be likely to aid the trustees in the better understanding of matters to come before the board.

REPORTS—OF MEMBERS OF THE GENERAL FACULTY.

20. Any member of the general faculty shall report to any superior authority upon request. All communications to superior authorities, whether made pursuant to request or voluntarily offered, shall, unless otherwise specially directed, be transmitted through all intermediary officers, to the end that they may have knowledge thereof and an opportunity to comment thereupon if they think advisable.

UNIVERSITY SERVICE FOR OUTSIDE PARTIES.

21. All persons connected with the University shall be notified that when an application is made by any outside party for any service which the University can render, they shall not say whether the University will or will not undertake to render the service, or upon what terms it can be undertaken, but that all such matters shall be referred to the president of the University and the business manager, with power to act in each case, as may to them seem wise.

ATTENDING TEACHERS' ASSOCIATIONS.

22. Members of the University faculties should be disposed to attend, at least occasionally, and at their own expense, meetings of the National Educational Association and of the Illinois State Teachers' Association because of the obligations all teachers are under to sustain such associations, and the same rule should apply to attendance by a member upon a meeting of teachers of his own class held for the promotion of the particular line of work in which he is engaged, because such attendance is in the interest of his own efficiency rather than of University representation. Beyond this the president of the University is authorized to determine at what meetings it seems sufficiently desirable that the University shall be represented to justify the expense thereof; that he feel free to attend such meetings himself, if he thinks it desirable to do so; and if not, that he arrange for such representation as he thinks well, and that the expense thereof be a University charge.

SERVICES RENDERED THE UNIVERSITY.

23. No one connected with the instructional force of the University shall be employed in any work which does not naturally come within the scope of his duties, and for which additional compensation will be expected without the approval of the president of the University and the action of the Board of Trustees in regular session.

LIBRARY.

24. For the purpose of defining the Library policy of the University, it is determined:

(a) That all books, pamphlets, maps, etc., (other than account books and books of record), purchased with University moneys, shall be deemed to belong to the University Library.

(b) That all parts of the Library shall be in the custody of the Librarian, who shall be responsible for the condition of the same.

(c) That all reference books and all periodicals, magazines, and newspapers, shall be made as easy of access as practicable to all patrons of the Library, and that no limitations not necessary to their preservation shall be placed upon their free use.

(d) That all other books, except such as are referred to in the next paragraph, shall be delivered for use by the librarian or assistant only, upon a proper call.

(e) That books which are purely technical and relate to the work of a single department only may be taken to that department under such regulations and for such time as the librarian may determine; but the librarian shall not thereby cease to be responsible for their safe keeping and proper use.

GOLF CLUB.

25. (a) The University Golf Club is authorized to lay out and maintain a golf course upon the premises of the University, including the South Campus and Experiment Station grounds; subject, however, to the approval of the superintendent of grounds as to the location on the campus, and to that of the director of the Experiment Station as to the location on the Experiment Station premises.

(b) The use of the course by the members of the club is conditioned upon the establishment and maintenance of rules approved by the president of the University and by the director of the Experiment Station, which rules shall include a penalty of dismissal from the club and forfeiture of all rights to the course for trespass on Experiment Station property.

EXAMINATION BOOKS.

26. For the regular examinations at the end of each semester, for final examinations in courses continuing less than a full semester, and for entrance examinations, the business manager shall furnish examination books. He shall give out such books upon the written request of the head of each University department, which request shall state the size and the exact number of books needed for each class in his department. Examination books for entrance examinations shall be given out upon the request of the registrar and the principal of the preparatory school. Books drawn and not used, if any, shall be charged to the account of stationery and printing.

FUNCTIONS OF THE TRUSTEES AND OF THE PRESIDENT.

27. (a) The functions of the trustees are legislative and not executive. The board is to secure, as far as possible, the needed revenues for the University and is to determine the ways in which University funds shall be applied. It is to map out University policy, but it must, of necessity, leave

the execution of that policy to its executive agents. Such agents must be capable and, within the general line of policy laid down by the board, they should not be interfered with.

(b) The president of the University is the chief executive and responsible agent of the trustees. He is to have constant watch and care over every University interest, and particularly the fullest responsibility in the instructional work. He is to be ready to recommend suitable persons for vacancies in the faculty and, in case of an exigency, he is to fill a place so that the work of the University shall not be interrupted. He is to see that members of the faculty are competent and right spirited, and he is to hold all to the exact and full discharge of their duties; and if, in his judgment, the necessity arises, he is to initiate steps for a change of instructors. He is to attend the meetings of the trustees and take part in the discussion of matters under consideration. He is, of course, to follow the directions of the board given in any particular matter; but it is neither possible nor desirable for the trustees to direct most of the details of executive action; and so, in all matters, the president is expected to act with perfect freedom within the lines of general policy laid down by the board, following a custom which has been well commenced here, is usual in all large universities, and is imperative to secure their strong and healthy development.

CARE OF THE BUILDINGS AND GROUNDS.*

28. (a) The buildings and grounds of the University shall be in the immediate charge of two superintendents, viz.: (a) a superintendent of buildings; (b) a superintendent of grounds. These officers shall be appointed by the Board of Trustees, upon the recommendation of the president of the University, shall observe the general requirements of the Committee on Buildings and Grounds, and in the absence of such committee shall be under the direction of the president of the University. They shall appoint such assistants, janitors, watchmen, and other employés in their respective departments as are authorized by the trustees, and may also employ temporary workmen as may be needed, with the approval of the president and business manager of the University. They are enjoined to disregard all influences exerted in behalf of individuals and to make appointments solely upon the basis of merit and fitness. They will endeavor to retain competent and loyal employés indefinitely by assuring them permanency of position and giving them such confidence and recommending such rewards for them as may seem practicable. They shall suspend employés in their respective departments from employment when no longer needed, or at any time for cause. They shall be severally responsible for the physical condition and the efficiency of such parts of the University plant as are under their charge.

(b) The professors of architecture, mechanical engineering, electrical engineering, sanitary engineering, horticulture, etc., shall, as a part of their regular employment, stand in an advisory relation to the superintendents aforesaid touching such parts of the plant as are in character related to the work of their departments; they shall possess themselves of full information touching the details of such parts, shall at all times be free to recommend changes and improvements therein, and any unusual changes therein shall be made with their approval or they shall forthwith report the fact to the president in writing.

(c) The supervising architect shall be custodian in general of all the University buildings and other structures above and under ground, including fire alarm and fire protection apparatus, subways, tunnels, electric wiring, conduit, all steam, water, gas, and compressed air pipes, all light posts, etc. He shall make regular inspections and report to the president of the University at least once every quarter upon the structural and sanitary conditions of the buildings and other structures belonging to the University; and shall make recommendations from time to time

* For modification of (a) and (b), see (c) following them.

as to repairs and improvements. Upon the request of the president of the University he shall examine and report at any time upon any subject relating to said buildings or structures.

No alteration shall be made in any of the buildings or other structures of the University or in the fixtures pertaining to the same without a written permit from the office of said supervising architect specifying exactly what may be done and the manner in which it shall be done.

The said architect shall have the supervision of all alterations, reconstructions, and repairs to be made in the University buildings and other structures and no bill shall be paid for work or materials used in such repairs until it has been submitted to said architect for his approval. Said architect shall be the superintendent for the University, of all buildings erected on the campus, unless some other person shall be specially selected for that work, and he shall be advisor to the president and board in all matters relating to the plans for the erection of buildings.

POLICING BUILDINGS AND GROUNDS.

29. (a) Application shall be made by the president to the authorities of the cities of Urbana and Champaign for the appointment of the superintendents, and such members of their forces as may seem advisable, as special police officers, to the end that they may have power to arrest idlers, trespassers, marauders, disturbers of the peace, and any persons found on or about University property menacing the quiet and security of the University. When invested with such authority the superintendents and janitors shall be held accountable for good order about all buildings and grounds and for the safe keeping of all University property.

(b) No advertising signs shall be allowed upon University property, and no trespassing shall be allowed upon the lawns between the principal buildings of the University. All riders of bicycles shall be required to keep upon the roadways and never allowed upon the walks. No vehicles, loaded or otherwise, shall be allowed to enter the carriage ways of the University unless the same are for light pleasure driving alone, or are on business connected with the University; and the superintendents of buildings and of grounds are authorized to put up suitable notices or to take any proper steps necessary to secure the complete enforcement of this order.

SURVEYS, CHARTS, DRAINAGE, PLUMBING.

30. The immediate direction of the affairs of the station will rest with the director thereof. Recommendations of the several advisory committees provided by the Act of the General Assembly of Illinois, approved May 10, 1901, shall be immediately transmitted to the Board of Trustees for approval before being acted upon. All appointments of regular employes of the station will be made by the trustees upon the recommendation of the director of the station, approved by the president of the University, and all purchases of material shall be made by the business manager upon the requisition of the director, approved by the president of the University. (b) The treasurer shall collect, as it becomes due, the interest accruing on the money and securities (including land contracts) of the University, and shall collect the principal of said securities when it becomes due. He shall collect all general and special appropriations made to the University by the State and by the United States.

(c) The treasurer shall keep the accounts of the moneys in his custody in such separate funds as shall be indicated by the Board of Trustees, or as are desirable and necessary for the proper and systematic accounting for the moneys coming into the treasury.

(d) At each regular meeting of the board the treasurer shall report in detail the transactions of his office for the quarter preceding the meeting, and shall report the condition of the treasury at such time, and also at any other time the board may request.

(e) The treasurer shall report to the secretary, for record, a complete description of each of the securities the Finance Committee may place in his custody within ten days after such action of the Finance Committee.

(f) The treasurer shall pay out money on warrants signed by the chairman of the Board of Trustees and the secretary, and shall not do so otherwise; and he shall submit his paid warrants to the board for audit by the Finance Committee.

(g) The endowment fund shall be kept constantly invested by the treasurer and the Finance Committee of the board. The treasurer shall forthwith report all changes in investments to the secretary, who shall enter the same in his records. The committee shall report its action concerning the investment of funds at each regular meeting of the board, for approval.

* For modification of sections 33, 34, 35 and 36 see section 37.

(h) The secretary shall keep in a register an accurate account of each of the securities reported by the treasurer, and shall report maturing securities to the board at least one quarter before maturity. He shall report the amount of interest accrued on the securities of the University during the previous quarter.

(i) The business manager shall be the general business agent and financial accountant of the University. He shall collect and account for all moneys from dues, fees, tuition, and all other sources not required to be collected by the treasurer.

(j) The business manager shall report monthly to the treasurer the moneys received by him, turning over to him all money, except such as he and the treasurer may agree to be necessary for the proper conduct of the petty business of his office. Single transactions involving less than \$50.00 in money may be classified as "petty business."

(k) The business manager shall report to the board at its regular meetings the financial condition of the University, with such recommendations for appropriations as may be necessary; also the transactions of his office for the quarter preceding, and oftener if requested by the board. His report shall include a detailed statement of all moneys received and from what sources, shall show the amounts paid to the treasurer, and all accounts audited, warrants drawn, and balances standing to the credit of the different funds.

(l) The registrar shall report in detail to the board at each regular meeting after the close of a semester or a term of the University, the number of students who, during said semester or term, were indebted to the University for term fees, tuition, deposits, and all other financial obligations (with the amounts of each) imposed by their attendance upon the University.

(m) No department of the University shall receive any funds unless specially authorized by the business manager, in writing, so to do. In all such cases he shall furnish the department so authorized a book in which the proper person shall enter a record of all transactions, specifying the date, the person from whom the money was received and the purpose or consideration for which it was received, and at the end of each month, or oftener, if the business manager shall request, the department receiving such money shall report to the business manager, upon a proper blank to be prepared for the purpose, a transcript of his memorandum book, and account, and pay over the moneys so received, and the business manager shall keep said reports on file in his office and shall enter in his books the funds so received.

(d) The business manager shall issue an order for purchase to persons authorized by the board to make purchases, but shall not do so unless the records of the board show that the purchase has been authorized and that the money for payment thereof has been appropriated. The order shall clearly set forth the articles or materials ordered and shall state the fund

from which the account is to be paid. The order of the business manager shall accompany all bills of account for purchases, (or said bills shall refer to said orders), on presentation of such bills for audit and payment. But no order for the purchase of furniture, apparatus, or equipment, unless specifically ordered by the Board of Trustees, shall be made unless the advisability of such purchase is approved by the president of the University, nor unless the price which it is proposed to pay is approved by the business manager.

(e) The persons composing the force of administrative officers, and the clerks and other employes of the departments, and the general faculty, shall be employed and salaries fixed by the board. The monthly pay roll of such persons shall be approved by the president of the University, but he shall not approve the pay of any person who has not rendered prescribed service during the month, unless such service has been previously formally excused by the board or by the president of the University, under the rules for the government of the instructional force. The business manager shall prepare the pay roll for the approval of the president each month, setting forth for each person the amount of salary for the month, as fixed by the board.

(f) All help employed, exclusive of the persons referred to in the preceding rule, shall be employed by the superintendents of buildings and of grounds with the approval of the president of the University, provided that before doing so the superintendent shall secure the certificate of the business manager that the employment has been authorized and the money therefor appropriated by the board. At the time of employment of each person by him he shall determine the price to be paid, except in cases where the same has been determined by the board, and he shall keep in a suitable book to be provided for the purpose, a record of the name of the person so employed, the time when employed, the length of service, and the amount to be paid, and he shall report the same to the business manager whenever requested. He shall also prepare and deliver to the business manager the pay rolls covering such help at the termination of the employment or at such other time as he may be requested so to do.

(g) The employes of the Agricultural Experiment Station shall be appointed by the Board of Trustees, or by the director of said station when authorized by said board. The business manager and the secretary of the Board of Trustees shall, upon application, afford information to the advisory board of the Experiment station, or to the director, touching the action of the Board of Trustees, and the condition of the funds in which the station may be interested. The pay roll of said employes shall be made and certified by the director of the station to the business manager at such times as that officer may request.

(h) The employes of the State Laboratory of Natural History shall be appointed by the director of the Laboratory, but not until such appointments shall have been authorized by the Board of Trustees; and the pay roll of said employes shall be made out and certified by the director and delivered by him to the business manager at such times as that officer may request.

(i) Purchasers to an amount exceeding \$100.00 shall be let by contract, after competition, unless the character of the materials or articles renders competition impracticable. Contracts shall be let by the board or by a committee appointed by the board, and shall be signed for the University by the chairman and secretary of the Board of Trustees, unless other persons or committees are authorized by the board to perform that service.

(j) Contracts shall be filed with the business manager by the officers of the board authorized to enter into the contracts, and payment in full or in part shall be made on contracts only on the certificate of some person authorized by the board to make a certificate that the contract or a part thereof has been acceptably filled, and that under the terms of the contract a certain stated amount is due and payable.

(k) The business manager shall act as auditor for the board, and all bills shall be presented to him for audit, but no bills relating to labor upon buildings and grounds shall be paid unless approved by the superintendents

of buildings and of grounds, and all other bills must have the approval of the president of the University, unless they are for continuing salaries, contracts, or other running accounts specially authorized by the board; and in all cases payment of any bill or account shall be suspended on the request of the president of the University pending the action of the Board of Trustees.

(l) Bills of purchases, when rendered, must be accompanied by the order hereinbefore provided for; and if for materials or articles delivered, then also by the receipt of the officer, member of the instructional force, or employé who received them, that the same were received by him in good condition, and that they were of the quality, kind, and price prescribed.

(m) (1) When any account against the University is found to be just and due, created by the authority of the board, and one that an appropriation has been made to pay, and is presented in accordance with the requirements of the board, and has been approved by the proper officer, the business manager shall approve and audit the same, stamp his approval upon the face of the bill, issue a warrant against the treasurer for the amount thereof, and send said warrant to the chairman of the Board of Trustees for signature. The chairman shall sign the same if he thinks proper, and in that event he shall forthwith forward it to the secretary. In case he declines to sign the same he shall return it to the business manager with his reasons for such declination. The secretary shall, as soon as he receives a warrant, make a proper record thereof in his books, sign the same and deliver it to the business manager who shall enter the same in his warrant book giving its number, for what issued, to whom payable, and the appropriation from which it is to be paid.

(2) Separate warrant books shall be kept for the University, the School of Pharmacy, the Agricultural Experiment Station, the College of Medicine, and the State Laboratory of Natural History.

(3) The business manager shall deliver the signed warrants which he receives to the payee therein named in exchange for such receipts or evidences of discharge as may be required to meet the needs of the University accounts.

(4) When a bill or claim is for less than \$50 the business manager may, at his discretion, pay the same in cash, if in his opinion the business of the University will be better expedited thereby. Before such payment, the secretary shall, however, make a record of said bill and soon after payment, certainly as often as once in each month, and as much oftener as he prefers, the business manager shall make a statement of all such payments, accompanied by the vouchers therefor, draw a warrant to his own order for the sum thereof, and forward both to the chairman of the Board of Trustees for approval and signature. If the payments are approved the chairman shall endorse his approval upon said statement, shall sign the accompanying warrant and forward both to the secretary, who shall also sign both and note the fact against the previous record, and deliver said statement and warrant to the business manager, who shall make proper entries of their receipt in his books, file the statement in his office, endorse the warrant and deliver the same to the treasurer, who shall receive the same as cash and credit the business manager with the amount thereof.

(n) The business manager, treasurer and secretary shall report fully to each regular meeting of the board, and their reports shall be examined by the Finance Committee of the board, and said committee shall forthwith report its findings and recommendations to the board for approval.

(o) The fiscal year of the University shall begin on the 1st day of July in each year and end upon the 30th day of June next succeeding, but all reports shall be made as required by law.

(p) The officers of the board shall cause new account books to be prepared, shall open the same and transfer all balances to them at the beginning of the next fiscal year, and shall prepare all blank forms necessary for carrying the foregoing rules into effect.

(q) The foregoing rules shall be observed from the time of their adoption, so far as practicable, and shall be fully in effect from and after the first day of December, 1908.

BONDS, LAND CONTRACTS.

*35. (a) The secretary shall provide himself with a suitable book in which to record bonds and other documents of like importance.

(b) The business manager shall have charge of the land contracts and shall make collections thereon.

INVENTORIES OF PROPERTY.

36. (a) There is a standing rule of the board requiring the head of each department of the University to keep an inventory book, in which to enter in detail all apparatus and other property belonging to said department.

(b) In addition to keeping said book, as required by said rule, the head of each department shall present to the board, at its annual meeting in September, an inventory of all apparatus and other property belonging to said department, together with a statement of the condition thereof. Said reports shall be delivered to the business manager on or before July 1 previous to said annual meeting, and it is the duty of the business manager to present these reports.

REORGANIZATION OF BUSINESS OFFICE.

37. The duties previously performed by the business manager are now assigned to the following officers: the comptroller, chief clerk, and purchasing agent. Their duties are as follows:

The comptroller shall have general charge of the business operations of the University. He shall certify for the payment of all bills and pay rolls of the University on account of which warrants are to be drawn. He shall report quarterly to the board, as is now required of the business manager. He shall assist the Finance Committee as it may desire, in the audit of the accounts of the University.

The chief clerk shall be the general financial accountant of the University. He shall collect and account for all money from dues, fees, tuition and all other sources not required to be collected by the treasurer. He shall keep the financial books of the University and make out, under the direction of the comptroller, all required financial reports of the Board of Trustees, the State government, and the United States government.

The purchasing agent shall make or shall issue an order for the purchase of all articles and materials for the University, in all cases where the board has not given this authority to some other persons or committees.

FORBIDDING PRIVATE USE OF UNIVERSITY PROPERTY.

38. No one connected with the University, in any capacity, shall use for his own pleasure or for any other personal purpose any University property of whatever description; and no one shall be permitted to remove from the buildings or grounds any property belonging to the University, even though it may seem to be of no value, unless it be temporarily and pursuant to some well-established regulation or usage, or with the distinct approval of the president or business manager of the University.

POLICY CONCERNING RECEIVING STUDENTS UNDER DISCIPLINE BY OTHER INSTITUTIONS.

XV. WHEREAS, Inter-university courtesy and the maintenance of a proper standard of discipline require that students under discipline, by suspension or expulsion, by one university, shall not be admitted to another during the period of discipline, without consultation with the authorities of the institution which inflicted the penalty; and

WHEREAS, In many cases, students under discipline by one institution may suffer irreparable injury to their future careers if they are, because of this discipline, barred from entering all others; and

WHEREAS, It is not infrequently the case that students suspended or expelled from one institution may be permitted to continue their education in

another, under new conditions and in an environment altogether different, without injustice to the institution which disciplined them, and without injury to the institution which receives them; and

WHEREAS, Under such circumstances every effort should be made to save the student under discipline from losing his educational opportunities, provided it may be done without injury to the students of the institution which he seeks to enter; and

WHEREAS, The authorities of every institution of learning to which students under discipline may apply for entrance are and must be free to pass judgment upon each case on its merits, with regard to the particular conditions of their own institutions, and must determine for themselves whether students under discipline elsewhere may enter their institution without injury to other students; therefore, be it

Resolved, That the University of Illinois stands ready in all cases to furnish all the facts concerning the record, suspension, or dismissal of any student disciplined, and does not consider the action of any sister institution in such cases, whatever it may be, as a reflection upon its own course; and, be it further

Resolved, That in the opinion of the authorities of the University of Illinois, justice and courtesy require that this should be the rule of conduct governing all such cases between colleges and universities.

Meeting of January 15, 1909.

A special meeting of the Board of Trustees of the University of Illinois was held at the Palmer House in Chicago Jan. 15, 1909, pursuant to the following notice which was sent out by the secretary Jan. 9, 1909:

By order of the president, Mr. W. L. Abbott, there will be a special meeting of the Board of Trustees of the University of Illinois at the Palmer House, in Chicago, at 1:00 o'clock p. m., Friday, January 15, 1909, to consider the report of the Committee on Legislative Askings and such other business as may be duly presented.

When the board met pursuant to this call the following members were present: Messrs. Abbott, Blair, Davison, Grout, Hatch and Lehman, and Mrs. Evans, Mrs. Alexander and Mrs. Busey; Mr. J. M. Crebs, recently elected president of the State Board of Agriculture, was also present; Mr. Meeker came in a little later; absent, Governor Deneen. President James was present.

The secretary, Mr. Pillsbury, presented the minutes of the meeting of Dec. 28, 1908, which were approved on motion of Mr. Blair.

AUDIT REPORTS.

CHICAGO, Jan. 15, 1909.

To the Board of Trustees of the University of Illinois:

Your Committee on Finance submits herewith the reports of the Audit Company of Illinois of its examinations of the books and accounts of the University covering the period from July 1, 1907, to July 1, 1908, and including the letter of the company to the Finance Committee dated December 15, 1908. Your committee calls special attention to the last clause of this letter and also to Exhibit H, "reconciliation of difference of \$934.68 as appearing in the treasurer's account of June 30, 1906, and in subsequest reports."

We recommend that said letter and this Exhibit H be spread at large upon the minutes of the board as disposing of a difference in the accounts of late Treasurer Keith not cleared up until now.

We also submit correspondence with the audit company relating to its bill of expense.

We have authorized the comptroller to cause quarterly examinations to be made as tending to facilitate correctness of work.

L. L. LEHMAN,
A. P. GROUT,
MARY E. BUSEY,

Committee on Finance.

The report of the committee was adopted on motion of Dr. Davison.

CHICAGO, Dec. 15, 1908.

Mr. Lewis L. Lehman, Chairman, Finance Committee, University of Illinois,
Maitton, Illinois:

DEAR SIR—Upon examination of the records and accounts of the University of Illinois, we find their condition as reflected in the following exhibits:

Exhibit "A"—Trial balance of Dec. 31, 1907: all cash credit entries, warrant charges and transfer and adjustment entries for the six months subsequent to that time and the final correct trial balance as at June 30, 1908.

Exhibit "B"—Is a detailed statement of cash receipts and expenditures showing balance of cash available, in hands of chief clerk and on deposit to the credit of the University in the State Bank of Chicago.

Exhibit "C"—Reconcilement of chief clerk's cash balance as shown on cash book, June 30, 1908.

Exhibit "D"—Reconcilement of treasurer's cash in bank with debit to his account as represented in the general ledger.

Exhibit "E"—Statement of students' fees and deposits for session of 1907-1908, unpaid at Nov. 6, 1908.

Exhibit "F"—Statement of missing and unreceipted vouchers.

Exhibit "G"—Summary of warrants outstanding of the several different funds with schedules of outstanding warrants for each fund attached.

Exhibit "H"—Reconcilement of difference of \$934.68 as appearing in treasurer's account June 30, 1906, and in subsequent reports; and the following schedules supporting Exhibit "G:"

Schedule "1"—Outstanding warrants, general fund, June 30, 1908.

Schedule "2"—Outstanding warrants, College of Medicine, June 30, 1908.

Schedule "3"—Outstanding warrants, School of Pharmacy, June 30, 1908.

Schedule "4"—Outstanding warrants, Agricultural Experiment Station, June 30, 1908.

In Exhibit "D" we have taken all adjusting entries into consideration, thus eliminating the difference of \$934.68 appearing in previous reports.

The treasurer's balance should be reconciled with the chief clerk's records at the close of every quarter. This, on account of the large increase in the number of warrants issued, would do away with any difference arising in this account. An audit after every quarter would no doubt prove more economical and satisfactory in the end.

The treasurer's quarterly reports of warrants paid during has administration we found to be inaccurate, and in order to obtain a correct list of warrants outstanding we found it necessary to have the treasurer's records brought to Champaign.

The statement of outstanding students' fees and deposits as shown in Exhibit "F" must be taken as tentative, the records which were submitted by the registrar being kept on loose sheets and made up by the registrar's department. These were checked against the chief clerk's records.

The old difference of \$934.68, as reconciled in Exhibit "H," was caused by errors in previous statements of outstanding warrants and by incorrect entries made on the general books of the University. With the reports and lists of warrants paid which were submitted during Mr. Keith's administration, it was impossible to verify the treasurer's account.

Very truly yours,

C. W. KNISELY, C. P. A.,
President.

Professor S. W. Shattuck, Comptroller University of Illinois, Urbana, Illinois:

DEAR SIR—We have examined the books and accounts of the comptroller's office for the period from July 1, 1907, to Dec. 31, 1907, and submit the following statements as reflecting their condition:

*Balance to the debit of the treasurer's account on the general ledger of the University.

Exhibit "A"—Trial balance July 1, 1907, with cash and warrant entries to Dec. 31, 1907, with trial balance as at Dec. 31, 1907.

Exhibit "B"—Statement of cash receipts and disbursements, July 1, 1907, to Dec. 31, 1907.

Exhibit "C"—Reconcilement of chief clerk's cash balance.

Exhibit "D"—Reconcilement of treasurer's cash balance.

Exhibit "E"—Vouchers not approved by comptroller, and missing vouchers.

Exhibit "F"—Differences between records of registrar and chief clerk for first semester ending Jan. 30, 1908.

Exhibit "G"—Differences between records of registrar and chief clerk for summer session ending Aug. 31, 1907.

Exhibit "H"—Differences between records of registrar and chief clerk for first semester, 1907-8, (Academy).

Exhibit "I"—Errors on records of chief clerk.

Exhibit "J"—Students' fees and deposits for first semester, unpaid at May 21, 1908.

Exhibit "K"—Students' fees and deposits, Academy and Filipino, unpaid at May 21, 1908.

Exhibit "L"—Students' fees and deposits for summer session ending Aug., 1907, unpaid May 21, 1908.

We have made a careful examination and comparison with the warrant register of all disbursements, and find them to have been properly made out and entered, and duly authorized, with exceptions as noted in Exhibit "E."

Receipts for students' deposits and fees for first semester and summer session of 1907-8 were compared with the records of the registrar, and also checked against cash book entries, the errors and exceptions being noted in Exhibits "E," "F," and "G."

In making count of cash May 8, 1908, and reconcilement, we find that cash was over \$17.28 on Dec. 31, 1907, as per Exhibit "C." For errors of record of chief clerk's cash book, and subsequent corrections, we refer you to Exhibit "I."

Taking up the item of old balance, \$934.68 in reconcilement of the treasurer's account (see Exhibit "D"); this should be eliminated, but as it appears to have originated back in the year 1905, or prior, it would involve the labor of a thorough checking of all warrants for that period, which the lack of time and authority from your trustees forbade at this audit.

Respectfully submitted,

C. W. KNISELY, C. P. A.,

President.

REPORT OF EXECUTIVE COMMITTEE.

CHICAGO, Jan. 14, 1909.

To the Board of Trustees of the University of Illinois:

REPAIRS AND IMPROVEMENTS.

URBANA, ILL., Dec. 19, 1908.

To the Board of Trustees of the University of Illinois:

Your Committee on Buildings and Grounds begs leave to report that it met at the University this day, all the members of the committee being present.

The committee voted that the amount due English Bros. on the Auditorium contract should be paid on the approval by Judge Harker of the papers submitted as sufficient to protect the interests of the University.

The committee reports that it considers an electric fire patrol wagon the most desirable type of vehicle for the purposes of the University.

With regard to the communication from the city council of Champaign concerning a detention hospital, the committee recommends that the board say in reply that it deems it inexpedient to accept the proposition at this time.

The committee voted to locate the drop testing machine, now building for the Department of Railway Engineering, north of the Engineering Experiment Station buildings, but far enough away so as not to interfere with adding two additional bays thereto.

The committee, with the approval of the State Architect and the supervising architect, authorized the supervising architect to get the opinion of an expert on the plans proposed for the ventilation of the addition to the Natural History building, and assigned \$250 for that purpose.

Regarding the request for appropriations for repairs made by the supervising architect at the meeting of December 8th and referred to the committee with power, the following appropriations were made:

Screening the Library tower.....	\$138 00
Repairing tower spiral stairway.....	30 00
New gutters on the Materials Testing Laboratory building.....	160 00
Covering high pressure steam mains in Chemistry building.....	250 00
Railing in public office of College of Literature and Arts.....	25 00
Four screens for the platform in the Auditorium.....	160 00
A pulpit for the platform.....	75 00

The committee also recommends that a carpet be purchased for the Auditorium stage—about one hundred and fifty (150) yards—and that Mrs. Evans, Mrs. Alexander and Professor White be a committee to purchase it.

Respectfully submitted,

W. L. ABBOTT,
CARRIE T. ALEXANDER,
FRED L. HATCH,
LEWIS L. LEHMAN,
LAURA B. EVANS,

Committee on Buildings and Grounds.

The report of the committee was adopted on motion of Mr. Blair by the following vote: Yeas: Messrs. Abbott, Blair, Crebs, Davison, Grout, Hatch, Lehman and Meeker, and Mrs. Alexander, Mrs. Evans and Mrs. Busey; nays: none; absent: Governor Deneen.

STATE WATER SURVEY.

The committee to which was referred the communication from Professor Bartow with regard to the work of the State Water Survey department reported as follows, and the report was adopted:

CHICAGO, Jan. 15, 1909.

To the Board of Trustees of the University of Illinois:

Your special committee to which was referred the communication from Professor Edward Bartow, director of the State Water Survey, submitted by President James, reports as follows:

Your committee approves the recommendations of Professor Bartow, except that sanitary analyses should not be confined to municipal water supplies, but should be extended to private wells and water supplies when there is any suspicion that there is danger to health.

Respectfully submitted,

CHARLES DAVISON,
FRED L. HATCH.

URBANA, ILL., Dec. 19, 1908.

President Edmund J. James, University of Illinois:

MY DEAR PRESIDENT JAMES—The demand for water analysis of various kinds has so increased that the staff is kept busy with routine analyses and cannot make investigations on its own initiative as it should. For this reason I would respectfully submit the following statement for your consideration:

The State Water Survey was established to make a chemical and biological survey of the waters of Illinois, with special reference to the general public welfare. It is our belief that the general public welfare is not conserved by the analyses of three classes of waters.

First—The waters from wells used by but few people, if the analysis is desired merely from curiosity.

Second—Water from wells used by manufacturers in their own boilers.

Third—A water, of which the composition of the mineral content is desired, that it may be commercially exploited as a medicinal water.

I would recommend that the public work of the State Water Survey be confined to the following classes:

First—Sanitary analyses of water supplies of any municipality, whether sent by health officers, city officials, or private parties.

Second—Sanitary analyses of any waters sent by or with the approval of State, county or municipal health officers, the analyses to be made in accordance with the cooperative agreement with the State Board of Health.

Third—The analyses of the mineral content of the municipal water supplies.

Fourth—Analyses of water from streams, wells or springs, collected by or for the Water Survey, for the study of the normal waters of a section of the State or of a geological stratum.

Analyses not covered by sections one to four should be made in the laboratory of the State Water Survey only when paid for by the parties interested. Fees for such work should be credited to the Water Survey funds and used for the maintenance of the work of the Survey.

Very respectfully yours,

EDWARD BARTOW,

Director, State Water Survey.

President James's bill, covering the expenses of his European trip for inspection of veterinary colleges in Europe, was received and referred to the Finance Committee on motion of Mr. Lehman.

FIRE INSPECTION.

Mr. Abbott, having asked Mr. Blair to take the chair for the time being, made a statement with regard to the report of the person employed to make a fire inspection of the University buildings, and recommended an appropriation of \$3,000, or so much thereof as might be needed, for the purchase of an electric fire patrol wagon.

The motion was adopted by the following vote: Yeas, Messrs. Abbott, Blair, Crebs, Grout, Lehman and Meeker, and Mrs. Alexander, Mrs. Evans and Mrs. Busey; nays, none; absent, Governor Deneen and Dr. Davison.

LEGISLATIVE ASKINGS.

The Committee on Legislative Askings made the following report:

CHICAGO, Jan. 15, 1909.

To the Board of Trustees of the University of Illinois:

Your Committee on Legislative Askings recommends that the Board of Trustees ask of the General Assembly appropriations as indicated in the bills printed below, namely:

For general fund.....\$2,163,400

For building fund.....1,000,000

Your committee also approves the agricultural bill, namely:

Agricultural College and Experiment Station.....\$757,300

Respectfully submitted,

F. G. BLAIR,

LAURA B. EVANS,

FRED L. HATCH,

A. P. GROUT,

W. L. ABBOTT.

The report was considered part by part.

An amendment, offered by Mrs. Busey, putting the item with regard to University Hall first in the list of buildings asked for, was adopted by the following vote: Yeas, Messrs. Abbott, Blair, Crebs, Lehman, and Mrs. Alexander, Mrs. Evans and Mrs. Busey; nays, none; absent, Governor Deneen and Messrs. Davison, Grout, Hatch and Meeker.

By general consent the item was changed to read: "Addition to University Hall (or a new University Hall) \$250,000."

It was understood; however, that the amount of \$200,000 for agricultural buildings might be changed to the agricultural bill if the advisory boards of the several agricultural departments so desired.

CHICAGO, Jan. 15, 1909.

To the Board of Trustees of the University of Illinois:

Your Finance Committee returns herewith the bill presented by President James, and recommends the payment of the balance due thereon, \$255.00.

LEWIS L. LEHMAN,
A. P. GROUT,
MARY E. BUSEY,

Committee on Finance.

The recommendation of the committee was adopted, on motion of Mrs. Evans, by the following vote: Yeas, Messrs. Abbott, Blair, Crebs, Lehman, and Mrs. Alexander, Mrs. Evans and Mrs. Busey; nays, none; absent, Governor Deneen and Messrs. Davison, Grout, Hatch and Meeker.

NEW BUILDINGS.

It was stated that Mr. W. Carbys Zimmerman, State Architect, had resigned his position as such, to take effect Jan. 1, 1909, and, on motion of Mr. Blair, it was ordered that the Committee on Buildings and Grounds should, if it found it advisable to do so, continue the employment of the present clerk of works in the interests of the University and should employ an architect.

And the committee was also charged with the supervision of the construction of the new buildings.

COMMUNICATIONS FROM PRESIDENT JAMES.

1. A recommendation that Dr. Arthur Stanley Pease be appointed assistant professor in the classics at the salary of \$2,000 a year, services to begin Feb. 1, 1909.

On motion of Mr. Crebs, and by the following vote, the recommendation was adopted and the appointment made: Yeas, Messrs. Abbott, Blair, Crebs and Mr. Lehman, and Mrs. Alexander, Mrs. Busey and Mrs. Evans; nays, none; absent, Governor Deneen and Messrs. Davison, Grout, Hatch and Meeker.

RESIGNATION OF PROFESSOR S. A. FORBES.

2. I present the following letter of resignation from Professor Forbes.

President Edmund James James, University of Illinois:

DEAR DOCTOR JAMES—In view of the fact that the way seems now to be open to considerable enlargement of the work of the Natural History Survey, in progress under my direction, and the further fact that the work of the State Entomologist's office, for which I have been for many years responsible, has been lately much increased in scope and importance, it seems clear to me that I should ask to be relieved from further duty as head of the Department of Zoölogy, in which capacity I have served the University for nearly twenty-five years.

The trustees have previously been so considerate as to lessen my University duties from time to time, at my request, by accepting my resignation as dean of the College of Science in 1905, and later by reducing to a minimum my duties as Professor of Zoölogy; but I am now convinced that both the interests of my scientific work and those of the department can best be served by my withdrawal from my University professorship. I have the honor, consequently, to tender to you my resignation as professor of Zoölogy, to take effect the first of September, 1909.

In thus severing my present connection with the work of zoölogical instruction I beg to express to you and to the University trustees my grateful appreciation of the cordial support and kind assistance which both you and they have never failed to give me in all the divisions of my work, and my hope that by this action I may help to make possible a pronounced development of this important university department under the leadership of a professor able to give to it all his time, and to take his full share in its work of instruction.

With kindest regards, I am

Sincerely yours,

S. A. FORBES.

The resignation was accepted on motion of Mr. Blair, who offered, with regard to the resignation, the following minute, which was also adopted:

In accepting the resignation of Dr. S. A. Forbes as professor of Zoölogy in the University of Illinois, the Board of Trustees desire to record their high appreciation of the great services he has rendered to the cause of science and the material welfare of the State during his more than a quarter of a century of connection with this University. His devotion to truth, his patience in research and his success in applying the results of his investigations to the economic needs and conditions of the State have done much towards giving this University a name and standing amongst the Universities of the world.

We desire further to express our keen satisfaction in the fact that his life and work are to continue in close association with the life and growth of the University, and to congratulate the State of Illinois upon being able to have and to hold such a man in its service.

LECTURE AND MUSEUM BUILDING IN THE COURT OF NATURAL
HISTORY BUILDING.

3. A request from the professors in the College of Science that the Board of Trustees erect in the court of the present Natural History building a building to be known as a lecture room and museum building, 55x46 feet, and three stories high, in accordance with the general plan herewith submitted by Supervising Architect White, this building to contain a basement, a lecture room to seat two hundred persons, and a museum room over the lecture room.

The money for the erection of this building will be available out of the appropriation for the addition to the Natural History building, if the furnishings of the building can be provided for from other funds.

By the following vote this request was approved and referred to the Committee on Buildings and Grounds for investigation and with power to act in case the proposition was found feasible and advisable; but on condition that the plans which have been approved in a preliminary way for the fan ventilating apparatus be not carried out at present and that the sum set apart for this purpose be devoted to the building of this lecture room and museum addition: Yeas, Messrs. Abbott, Blair, Crebs and Lehman, and Mrs. Alexander, Mrs. Evans and Mrs. Busey; nays, none; absent, Governor Deneen and Messrs. Davidson, Grout, Hatch and Meeker.

The board adjourned.

W. L. PILLSBURY,

Secretary.

W. L. ABBOTT,

President.

The Committee on Buildings and Grounds made the following report, which was received for record:

URBANA, March 9, 1909.

To the Board of Trustees of the University of Illinois:

Your Buildings and Grounds Committee begs leave to report that at a meeting held at the University, Jan. 23, 1909, it instructed the Supervising Architect, Mr. James M. White, to authorize Mr. Jobst, contractor on the Physics building, to proceed with the following extras:

Your committee acting under instructions given by the board (see p. 93 of the minutes of the meeting of Jan. 15, 1909) authorized Mr. Abbott, chairman, to employ an architect for the buildings. Pursuant to this action Mr. W. Carby's Zimmerman has been engaged as consulting architect for the University on terms named in the following letter:

CHICAGO, Jan. 30, 1909.

Mr. W. Carby's Zimmerman, Architect, Steinway Building, Chicago:

DEAR SIR—Agreeable to our recent conversation on the subject, you are hereby appointed Consulting Architect of the University of Illinois, on the Physics building and the Natural History building, now under construction.

It is understood that the Supervising Architect of the University will himself supervise the construction work and pass on and decide all matters of minor detail, and will approve contractors' bills for payment, but that in any emergency which may arise or in matters pertaining to more important changes in design the University will consult with you, for which consultations you are to be paid a reasonable fee.

Very truly yours,

W. L. ABBOTT,

President Board of Trustees.

With regard to the proposition to erect a Museum and Lecture Building in the court of the Natural History building (see p. 95 of the minutes of the meeting of Jan. 15, 1909) the following resolution was adopted:

Resolved, That we approve a system of direct radiation for heating the building, approximately in accordance with the first plans prepared by the State Architect.

That we approve the plans submitted by the Supervising Architect for ventilating the building and instruct that bids be obtained upon them; also that a separate figure be received on the ducts which must be built into the walls.

Also that the architect be instructed to prepare plans, specifications, and receive bids on the proposed building in the court of the Natural History building, and that he be paid not to exceed two per cent on the cost for his services.

Respectfully submitted,

W. L. ABBOTT,

FRED L. HATCH,

LAURA B. EVANS,

LEWIS L. LEHMAN,

CARRIE T. ALEXANDER,

Committee on Buildings and Grounds.

The Executive Committee also presented the following report, which was received for record:

URBANA, March 9, 1909.

To the Board of Trustees of the University of Illinois:

Your Executive Committee begs leave to report that at a meeting held at the Palmer House in Chicago, Friday, Jan. 15, 1909, action was taken as follows upon recommendations presented by President James:

1. A recommendation that Mr. Phineas Lawrence Windsor, librarian at the University of Texas, Austin, Texas, be appointed University librarian and director of the Library School at a salary of \$3,000 per annum.

Voted that the recommendation be approved and said appointment be made, work and salary to begin when Mr. Windsor reports for duty.

2. A recommendation from the President that the graduate faculty be authorized to make the same announcement with regard to fellowships and scholarships for the coming year as was made for the present year, as to number, amount, etc.

Recommendation approved.

Your committee also reports that, since Mr. W. Carby Zimmerman, who has been engaged as consulting architect for the new buildings, has stipulated that it shall not be his duty to issue certificates to contractors engaged on these buildings, it has, therefore, authorized Supervising Architect James M. White to make estimates of work completed and issue certificates to contractors therefor.

Your committee also reports that in response to a letter from Dr. S. A. Forbes, director of the State Laboratory of Natural History, in which he referred to volume three of the Natural History Survey, and asked authority to distribute the edition of two thousand volumes comprising the report referred to, and made recommendation as to how it should be done, and asked whether the entire report be sent out gratuitously or a portion offered

to the public at cost price, it authorized the distribution of the report as suggested by Dr. Forbes, and left it entirely to him to say whether or not a charge should be made for a portion of the edition.

Respectfully submitted for record,

W. L. ABBOTT,
CARRIE T. ALEXANDER,
Executive Committee.

NATURAL HISTORY BUILDING.

The question of what should be done with regard to the ventilation of the Natural History building and with regard to the building in the court of the Natural History building, a lecture room and museum, was considered at length. Action was deferred with regard to the building until more definite information could be had with regard to the cost for both the ventilation and for the new building.

On motion of Mrs. Alexander, and by the following vote, \$1,060 was appropriated to pay for the ducts for ventilation and heating purposes placed in the walls of the Natural History building, and \$124 for a pent house on the roof: Yeas, Messrs. Abbott, Davison, Grout, Hatch and Moore, and Mrs. Alexander, Mrs. Evans and Mrs. Busey; nays, none; absent, Governor Deneen, Messrs. Crebs, Blair and Meeker.

On motion of Dr. Davison the question of heating and ventilation was referred to the Committee on Buildings and Grounds with power to act, by the following vote: Yeas, Messrs. Abbott, Davison, Grout, Hatch and Moore, and Mrs. Alexander, Mrs. Evans and Mrs. Busey; nays, none; absent, Governor Deneen, Messrs. Crebs, Blair and Meeker.

DEAR SIR—I have the honor to inform you that Fred Kauffman, Chicago, Ill., contractor for University uniforms for the years 1907-8 and 1908-9, has completed his contract to my entire satisfaction.

It is suggested that the time is approaching when it will be necessary to call for bids for uniforms for the ensuing two years.

Yours very respectfully,

E. G. FECHET,

Lieut. Col. U. S. A. retired, Professor of Military Science.

Respectfully submitted,

S. W. SHATTUCK,

Comptroller.

APPROPRIATIONS.

On motion of Mr. Grout, appropriations were made as requested by the comptroller in his Paper "I," the vote being as follows: Yeas, Messrs. Abbott, Davison, Grout, Hatch and Moore, and Mrs. Alexander, Mrs. Evans and Mrs. Busey; nays, none; absent, Governor Deneen, Messrs. Crebs, Blair and Meeker.

CADET UNIFORMS.

Dr. Davison moved that the president, comptroller and Colonel Fechet be authorized to make a contract for furnishing uniforms for the University regiment for the two following years on receipt of a satisfactory bid and bond for the faithful performance of the contract.

In the following condensed statement we illustrate the cash transactions during the period, as represented by the books, showing the cash balance on hand, July 1, 1908, the receipts and disbursements to Sept. 30, 1908, and the cash balance as at the latter date.

CHIEF CLERK'S CASH ACCOUNT.

The condition of the chief clerk's cash account is shown in the following condensed statement which represents the transactions in totals, and illustrates the balance of cash on hand, July 1, 1908, the receipts from various sources, the disbursements for the debit of the various accounts, and the balance of cash on hand, Sept. 30, 1908, as shown by the books.

Owing to the chief clerk's illness, and his confinement in a hospital, we were unable to balance and verify his cash account during our audit of the period under review until the morning of Jan. 20, 1909. On this date we balanced the account, verified the cash by actual count, obtained a certificate from the First National Bank of Champaign, certifying to the bank balance as at the close of business, Jan. 20, 1909, and found the balance to be as represented in the following condensed statement:

CONDENSED STATEMENT OF CHIEF CLERK'S CASH ACCOUNT JAN. 20, 1909.

The item "checks and warrants," \$2,016.82, represents checks and warrants received but not deposited. The item "paid and receipted bills," \$1,434.83, represents receipts for cash disbursed and not yet vouched or charged to the various operating accounts.

We examined all vouchers for disbursements made during the period under review and found that all were accounted for, receipted, and properly approved by the Comptroller, and, in addition, approved by the Purchasing Agent, the actuaries, or heads of the various departments.

We compared the vouchers with the sums entered in the various warrant registers, and found all to be correctly entered.

To further verify the correctness of the vouchers paid, we proved the additions of all vouchers covering two or more items or invoices and tested the extensions on many, particularly all payments for coal, freight on coal, and contract coal hauling, and found all computations to be correct and as recorded in the sum total on the voucher.

We compared the Journal entries made from the various warrant register footings at the close of the period, and checked the postings from the Journal and cash book to the ledger and found all correct.

We proved the additions in the ledger and took off a trial balance as at Sept. 30, 1908, as illustrated by Exhibit "C."

We compared the warrants paid during the period with the records of the treasurer in Chicago, and submit below a reconciliation of his balance with that of the books of the University as at Sept. 30, 1908.

THE CARNEGIE FOUNDATION FOR THE
ADVANCEMENT OF TEACHING.

576 FIFTH AVENUE.

NEW YORK, Feb. 24, 1909.

MY DEAR SIR—I have the honor to acknowledge your letter of Feb. 22, enclosing the extract from the minutes of the Board of Trustees of the University of Illinois, in which they request the admission of that institution to the accepted list of the Carnegie Foundation, and in addition the joint resolution passed by the Senate and House of the State of Illinois and approved by the Governor. These papers are all in due form and fulfill that part of the requirement which Mr. Carnegie imposed in the case of state institutions relating to the action of the trustees and representatives of the state and governor. The admission of the University is now a matter to be determined by the Executive Committee of the Foundation after full information as to the academic standards of the University and of the relations of its professional schools to it.

All these matters I have no question are in a satisfactory status, but during the next six weeks several members of the staff of the foundation will visit the University in order to complete these details and formal action will probably be taken by the Executive Committee some time in May. Meantime, however, I think that the Executive Committee will be glad to grant customary retiring allowances to any professors in the University who may have had the required service and whom you may wish to recommend. I enclose for that purpose several of the blanks used in that connection, and beg that you will let me know at an early date whether you desire to make such recommendations at the end of the present year.

Very sincerely yours,

HENRY S. PRITCHETT.

President Edmund J. James, University of Illinois, Urbana-Champaign, Ill.

SCHOOL OF PHARMACY.

2. Recommendation that the officers of the board be authorized to execute a contract for the hire of quarters for the School of Pharmacy of the University upon the basis of recommendations made by the Medical Committee.

Referred on motion of Mrs. Busey to the Committee on College of Medicine and School of Pharmacy with directions to report to the Executive Committee.

COLLEGE OF MEDICINE.

3. Proposition from the College of Physicians and Surgeons for the alteration of the present contract between the College of Physicians and Surgeons and the University of Illinois.

Dr. Davison moved to accept the proposition of the College of Physicians and Surgeons. The motion was lost by the following vote: Yeas, Messrs. Abbott, Davison and Grout, and Mrs. Evans; nays, Messrs. Hatch and Moore, and Mrs. Alexander and Mrs. Busey; absent, Governor Deneen, Messrs. Blair, Crebs and Meeker.

FURNISHING PHYSICS LABORATORY.

4. Letter from Professor Carman endorsed by the Supervising Architect, asking for the assignment of thirty thousand dollars (\$30,000) from the appropriation for the erection of the Physics Laboratory, for various items connected with the building.

Referred to the Committee on Buildings and Grounds with power to act.

LEAVE OF ABSENCE, PROFESSOR DANIELS.

5. Request from Professor Arthur H. Daniels for leave of absence on half salary for the academic year 1909-10, for the purpose of study in Europe. This application is endorsed by Evarts B. Greene, dean of the College of Literature and Arts.

Voted on motion of Mr. Hatch that leave of absence on half salary for academic year 1909-10 for the purpose of study in Europe be granted to Professor Arthur H. Daniels on the usual terms.

RESIGNATION OF PROFESSOR BRECKENRIDGE.

6. Letter from Professor L. P. Breckenridge, resigning his position as Professor of Mechanical Engineering and Director of the Engineering Experiment Station, University of Illinois, to take effect Sept. 1, 1909.

Dr. Edmund J. James, President of the University of Illinois:

MY DEAR SIR—I herewith tender you my resignation as Professor of Mechanical Engineering and Director of the Engineering Experiment Station of the University of Illinois, to take effect Sept. 1, 1909.

Early last December I was approached by the authorities of Yale University in regard to my succeeding to the chair of Mechanical Engineering at Sheffield Scientific School in the place of Professor C. B. Richards, who, having reached the age limit, retires this coming June. Plans for the further development and extension of the work of the Mechanical Engineering Department were presented and discussed, and I was formally invited to take charge of the department. This invitation to return to my Alma Mater and bring to bear upon its future development the results of twenty-seven years of experience gained by contact, not only with the educational conditions and requirements of institutions in three great states, but also with the industrial and commercial needs of the engineering profession, irresistibly challenged my highest ambitions. After mature deliberation, with a keen sense of the losses involved in the severance of my connection with Illinois, I have deemed it my duty to accept the call.

In tendering my resignation to the Board of Trustees of the University of Illinois, I am confronted by a peculiarly difficult task. In the sixteen years of service rendered to this University, there have grown up around and about me, many strong attachments, the breaking of which affects me deeply. I feel myself a part of the work with which I have been so closely identified. My relations with my own colleagues in the College of Engineering and other officials of the University have been most delightful and agreeable, and any services which I may have been able to render have been made possible by their loyal and generous coöperation and support.

It means much to me to leave my own department, in the upbuilding of which I have centered my interests and ambitions. It means much to me to relinquish the work of the Engineering Experiment Station. I have put into it my best efforts from its inception until the present time when it is fairly launched on a successful career. The preliminary difficulties have been cleared away. Its continued progress is assured if the generous support it has hitherto received is continued.

I shall not expect to relinquish the friendships I have made here. I shall watch with eager interest the further growth of my department and college, and of this whole magnificent University. It cannot help become greater not only in material things, but because it accomplishes great things for the education of the people who support it.

To the trustees, the president and the officers of the University, to my colleagues, associates and students, I wish to express my sincere gratitude for their past confidence, helpfulness and loyal support, and I bespeak their sympathy and interest in my new field of labor.

Respectfully,

L. P. BRECKENRIDGE.

Voted on motion of Mrs. Busey that said resignation be accepted, and that the president of the board appoint a committee to draft resolutions expressing the appreciation of the board for the long and valuable service which Professor L. P. Breckenridge has rendered the University.

MINING RESCUE STATION.

7. Letter from W. F. M. Goss, dean of the College of Engineering, concerning coöperative work between the University, the State Geological Survey, and the United States Geological Survey in the establishment of a government station for mine rescue and mine accident investigations.

URBANA, ILL., Feb. 22, 1909.

President Edmund J. James, University of Illinois:

DEAR SIR—I beg to report that acting with your verbal approval, the College of Engineering, in conjunction with the State Geological Survey, has perfected a plan of coöperation with the United States Geological Survey, whereby a Government station for mine rescue and mine accident investigations has been established at the University.

The conditions under which the establishment has been secured, and upon which the work of the station is to proceed, are as follows:

(1) In the establishment of the station the United States Geological Survey coöperates jointly with the State Geological Survey and the College of Engineering of the University of Illinois.

The College of Engineering is to supply space in the Mechanical Engineering Laboratory for the necessary equipment, and is to furnish, without charge to the Federal government, this space, including heat, light, etc.

The College of Engineering is to supply also a gas-tight room, fitted up to resemble a mine, into which poisonous gases may be introduced.

(2) The United States Geological Survey will supply oxygen, helmets, electric safety lamps, stretchers, dummies, mine-props, oxygen resuscitation cases, and a general line of equipment for use in mine explosion experiments, and in resuscitation work.

The United States Geological Survey will also maintain a mining engineer in charge of the facilities thus brought together, with such assistants as may later be deemed necessary. This mining engineer will have charge of rescue work for the present in Illinois, Indiana, Michigan, West Kentucky, Iowa and Missouri, and he or his assistant is to be on duty at the station practically all of the time.

Responding to these general conditions, the College of Engineering in conjunction with the Engineering Experiment Station, has caused to be erected in the Mechanical Engineering Laboratory, a gas-tight room, 15x25 feet, in which the experiments of the rescue station are to be conducted. This gas-tight room is regarded as a piece of laboratory apparatus, and the expense of its construction has been borne by the College of Engineering. It has cost to date \$199.40, to which cost it may be necessary, within the next few weeks, to make some slight additions. I estimate that the total expenditure will be \$225.00. This is the extent of the investment that the College of Engineering will make in the working out of the plan of coöperation which has already been made effective.

Mr. R. Y. Williams, Mining Engineer of the United States Geological Survey, has established his headquarters in the office of Dr. Bain, and is in charge of the work of the station.

It is the purpose of the United States Geological Survey to employ the station as a means of demonstration. To this end, mine operators, mine inspectors, and mine bosses, and all others interested in mining, will be invited to visit the station. Each Saturday will be reserved for exhibit purposes, and the balance of the week will be taken up in giving systematic training to mine representatives in the use of the oxygen helmets.

It is my belief that the establishment of the station by the Government, under the conditions set forth, will permit the College of Engineering to render a large service to an important industrial interest of this and other states. I have the honor to be,

Very truly yours,
W. F. M. Goss,
Dean of the College of Engineering.

Voted on motion of Mrs. Alexander that the action of the president of the University in the matter be approved.

MUSEUM MATERIAL.

8. Request from Dean W. F. M. Goss, in the matter of accepting material for the museum.

URBANA, ILL., Mar. 5, 1909.

President Edmund J. James, University of Illinois:

DEAR SIR—The College of Engineering occasionally has opportunity to secure museum material of more or less significance. Such material may be in the form of machines or appliances which, having served their day and generation, will be scrapped or otherwise destroyed, unless some agency intercedes for their preservation. It occasionally happens also that such machines and appliances would, if preserved, be curiosities for the next generation, and their value as museum material would steadily increase as time goes on. By the exercise of a reasonable degree of watchfulness, such materials may usually be secured for the University by the payment of transportation charges, and by an agreement to the effect that the University will exercise the same care in their preservation that is given to its other property. In view of these facts, and because the collector must often act promptly if a desired result is to be accomplished, an important interest of the College of Engineering would be promoted if the Board of Trustees were to adopt a preamble and resolution somewhat as follows:

WHEREAS, Rapid changes are occurring in the forms and types of machines and appliances used in the arts and industries of this country; and,

WHEREAS, Many types of such machines and appliances, which have been extensively used, are in the process of disappearing from practice; and,

WHEREAS, Individual machines of typical designs might properly be preserved by the University as museum material for the information and instruction of coming generations; and,

WHEREAS, It may often happen that such materials may be obtained at little or no expense to the University; be it therefore,

Resolved, That the Dean of the College of Engineering be, and hereby is, authorized to accept gifts of such materials as may seem to him likely to be valuable as museum exhibits, provided that in so doing he shall not involve the University in expense in excess of that which can be met by the college from funds already set apart for its use, or which may hereafter be set aside for its use, and provided that the responsibility assumed for the safe keeping of such materials shall not be greater than that imposed upon the trustees as custodians of the other property of the State.

Respectfully submitted,

W. F. M. Goss,
Dean of the College of Engineering.

On motion of Mr. Hatch and by the following vote the recommendation was adopted: Yeas, Messrs. Abbott, Grout, Hatch and Moore, and Mrs. Evans and Mrs. Busey; nay, Mrs. Alexander; absent, Governor Deneen, Messrs. Blair, Crebs, Davison and Meeker.

HEATING CONTRACT, NATURAL HISTORY BUILDING.

SECOND TRACK ON OLD RIGHT-OF-WAY.

Mr. Abbott reported that pursuant to instructions given at the meeting of the board of March 31, he had conferred with Judge Harker, and also with the officers of the Illinois Traction System, and that as the result of this conference the work would not be carried on to completion across the University grounds until a further agreement was had between the University and the railway company. He also presented the following communications from Judge Harker and Mr. George M. Mattis, vice-president of the Illinois Traction System which were received for record:

URBANA, ILL., April 27, 1909.

To the Board of Trustees of the University of Illinois:

In obedience to your direction of March 31, 1909, I have investigated the matter of the Urbana and Champaign Railway, Gas and Electric Company laying an additional track across the campus on the old right of way, and beg leave to make the following report:

I find that in compromise of pending litigation between the company and the University, the company, in December, 1903, conveyed and quit-claimed to the University all its interest in the "strip of ground known as the old right of way of the street railway company, forty feet wide and extending from Wright street in Champaign east to what is known as Nelson or Mathews avenue in Urbana," and that the Board of Trustees of the University by resolution at its December meeting, 1903, granted to the company permission to lay a track and operate its cars over such strip of land. The grant was made subject to the option of the University to require the company to vacate the premises if desired for building purposes and was limited until a time when the city of Urbana should grant a franchise to the company to operate its line on certain parts of Mathews and Springfield avenues.

On investigation I find that the company has been doing considerable excavating on the strip of ground in question with a view of laying a second track. In a conference with Mr. W. B. McKinley, representing the road, I insisted that the right to lay a track did not give them the right to lay two tracks and that a continuation of the work was without any authority from the Board of Trustees. He stated that the operation of two tracks over the strip was necessary, in view of the proposed taking up of the track

on Green street, and promises to vacate Green street entirely on the board's allowing the company to construct and operate a second track on the old right of way.

So far as the legal features of the case are concerned it is quite clear to my mind that the company has no power to lay an additional track. The term, a track, clearly means one and not two tracks. There is no law to prevent the board, if it sees fit, from granting the permission to the company.

Respectfully submitted,
OLIVER A. HARKER,
Counsel for the University of Illinois.

ILLINOIS TRACTION SYSTEM.

CHAMPAIGN, ILL., April 26, 1909.

Mr. W. L. Abbott, 139 Adams Street, Chicago, Illinois:

DEAR SIR—As soon as I got your letter of the 21st, we stopped work on the double track through the University grounds, but are still working on the curve on the west side of the University grounds, which is necessary to come out on to Wright street in a southerly direction.

I would like to say that our starting to lay this track through the University grounds without securing permission from the trustees was because of our ignorance, although of course, this is no excuse. When the understanding with the University was arrived at in 1903, I was not with this company and Mr. Pepper seems to have known nothing about the negotiations; we were both under the impression that the right of way of which our track was laid belonged to the company, and we both realized that we could not take up our track on Green street, unless we had a double track through the University where our old right of way was, because it would be impossible for us to give to the University and the citizens of Champaign and Urbana the street car service which they are entitled to with a single track, because both our interurban cars and city cars would have to use this track, and there would be considerable delay, unless a double track was put in. Mr. McKinley was away at the time and he would not have permitted us to start this work without securing permission from the trustees.

Mr. McKinley has had a little conversation with President James and Judge Harker concerning this matter and it seems to us that it would be more satisfactory all around if we could enter into an agreement with the University authorities that we shall remove the track on Green street and shall be permitted to put a double track on this old right of way; in other particulars the agreement could embody the terms of the understanding arrived at in 1903.

As you probably know, the city of Urbana claims that that part of Green street which our track is laid on is a street, and that it is under their jurisdiction and not under the control of the University; personally, I have always thought the city of Urbana was right in their contention, as I can very well remember when it was a street and was open to the public.

Yours very truly,
GEO. M. MATTIS,
Vice-President.

The whole question was then referred to the Committee on Buildings and Grounds for investigation and report to the board.

Later Hon. W. B. McKinley, president of the system, was heard.

President Abbott announced that pursuant to the directions of the board he had appointed a committee to consider a plan of the grounds, and an arrangement of the new buildings thereon. The members of the committee are Messrs. W. C. Zimmerman of Chicago, chairman, D. H. Burnham, of Chicago, and C. H. Blackall, of Boston.

RECOMMENDATIONS BY PRESIDENT JAMES.

President James recommended—

1. That Albert V. Bleining be appointed Professor of Ceramics at a salary of \$3,000 a year, the compensation to begin when he enters upon the duties of the position.

The appointment was approved on motion of Mr. Hatch.

2. That Boyd H. Bode be appointed Professor of Philosophy at a salary of \$3,000 a year, service to begin Sept. 1, 1909.

This appointment was approved on motion of Mr. Blair.

3. That Stuart P. Sherman be made Associate Professor of English at a salary of \$3,000 a year from Sept. 1, 1909.

This recommendation was approved on motion of Mr. Blair.

4. That the salary of John C. Duncan, Assistant Professor of Accounting, be made \$2,500 from Sept. 1, next.

This recommendation was approved on motion of Mrs. Evans.

5. That Professor Thomas W. Hughes be paid \$250 for an extra class carried during the present semester.

This recommendation was approved on motion of Mrs. Busey.

The foregoing five recommendations were severally approved by the following vote: Yeas, Blair, Abbott, Davison, Busey, Hatch, Grout, Evans and Meeker; nays, none; absent, Governor Deneen, Messrs. Crebs and Moore, and Mrs. Alexander.

RESOLUTION CONCERNING MR. PILLSBURY'S RESIGNATION.

In accepting the resignation of W. L. Pillsbury as registrar of the University the Board of Trustees desire to make a permanent record of their appreciation of his great services. His work, although public attention has rarely been called to it, has had much to do with the remarkable growth of the institution. Conscientious, untiring, careful of details, holding in his memory the names and faces of the thousands of students as they have come and gone, courteous but firm, dealing fairly and justly with all, the Board of Trustees feel that they are justified in the statement that he represents the highest type of a public servant for the public good.

He has fairly earned an honorable retirement and with it the gratitude and good will of the students, the faculty, and the Board of Trustees of the University.

LAURA B. EVANS,

F. G. BLAIR,

Committee.

OPPOSITION TO APPROPRIATIONS.

The matter of opposition to the appropriations the University is asking for, made by a member of the board, was considered at some length and referred to a committee consisting of Messrs. Abbott, Grout and Meeker.

The board then took a recess until 4:30 p. m.

Afternoon Session, April 29, 1909.

When the board convened after recess, the same members were present as during the morning session. The committee appointed during the morning session to consider the matter reported as follows with regard to Mrs. Alexander's course:

WHEREAS, The Board of Trustees of the University of Illinois has been credibly informed that Mrs. Carrie T. Alexander, a member of this board, appeared yesterday before the House Appropriations Committee in Springfield and stated in effect that the University of Illinois has no legitimate need for the increased appropriations that it is now asking for; and,

WHEREAS, The University Appropriation Bill was carefully prepared by those most familiar with the needs of the different departments of the University, and was fully discussed and considered, item by item, and unanimously approved by all the trustees present, including Mrs. Alexander, at a special meeting held for that purpose, Jan. 15, 1909; and,

WHEREAS, The other members of the board believe that they were elected to represent the interests of the University and do not consider that they would be discharging their obligation faithfully if they failed to ask for appropriations sufficient to meet the increasing demands made by the people of this State upon this great institution; be it

Resolved, That we again endorse our appropriation bill and that we condemn the attempt of one member of this board to discredit the unanimously expressed judgment of the entire board and to harass it in its efforts to maintain and build up a University worthy of the State.

Mrs. Busey voted no, giving as reason that she considered no action necessary.

The board adjourned.

W. L. PILLSBURY,
Secretary.

W. L. ABBOTT,

REPORT OF COMMITTEE ON BUILDINGS AND GROUNDS.

CHICAGO, ILL., June 4, 1909.

To the Board of Trustees of the University of Illinois:

Your Committee on Buildings and Grounds met at the University, Friday, May 7, the members present being Messrs. Abbott, Hatch and Davison and Mrs. Evans.

Your committee considered the request of certain citizens of Urbana that the track on Green street through the University grounds be not removed and begs leave to recommend to the board that the request be not granted.

Your committee considered the question with regard to allowing the Illinois Traction Company to lay a second track on the "old right of way," which was referred to the committee at the meeting of April 29, 1909, and

voted to recommend to the board allowing the company to lay a second track under such restrictions as might be formulated by Judge Harker and the Supervising Architect.

Your committee also met a special committee appointed by the Champaign Chamber of Commerce, which asked that the board agree for the University that the University bear its share of an extensive drainage system, which involved covering in with brick the boneyard for a considerable distance.

Your committee told these gentlemen that at present the University had no funds which could be used for such a purpose, and on so short notice, and with so little knowledge of what the University's share of the expense might be, it could not think of going to the Legislature and asking for a special appropriation for this purpose.

Respectfully submitted,

FRED L. HATCH,
CHARLES DAVISON,
LAURA B. EVANS,

Committee on Buildings and Grounds.

The items of the report were considered severally.

The first with regard to the track on Green street was adopted.

The second with regard to the additional track on the "old right-of-way" was referred again to Judge Harker.

The action of the committee with regard to the drainage proposition was approved.

WATER PIPE ACROSS SOUTH CAMPUS.

A communication was received from the clerk of the city of Champaign, and also one from the Champaign and Urbana Water Company asking that the water company be permitted to lay a water pipe across the south campus along the line of the railway track.

These communications were referred to the Committee on Buildings and Grounds with power to act.

MILITARY AND BAND SCHOLARSHIPS.

Upon request of the comptroller, Professor S. W. Shattuck, \$2,000 was by the following vote appropriated for the payment of military and band scholarships: Yeas, Messrs. Abbott, Crebs, Davison, Grout and Hatch, and Mrs. Alexander, Mrs. Evans and Mrs. Busey; nays, none; absent, Governor Deneen and Messrs. Blair, Meeker and Moore.

REPORT OF THE AUDIT COMPANY.

Mr. Grout, from the Committee on Finance, presented the report of the Audit Company for the quarter ending March 31, 1909.

May 22, 1909.

Mr. Albert P. Grout, Chairman, Finance Committee, University of Illinois:

DEAR SIR—In compliance with instructions, we have made an audit of the books of account of the University of Illinois for the period from Jan. 1 to March 31, 1909, being the third quarter of your fiscal year, and submit, herewith, our report, together with the appended exhibits and schedules showing the receipts and disbursements in detail for the quarter and in total from July 1, 1908 to March 31, 1909.

RECEIPTS AND DISBURSEMENTS.

We examined all vouchers for disbursements made during the period under review, and found that all were properly accounted for, properly receipted, approved, and correctly entered in the various warrant registers.

In the following condensed statement, we illustrate in totals the cash transactions of the period, as represented by the cash book and the various warrant registers, beginning with the cash balance on hand, Jan. 1, 1909:

CONDENSED STATEMENT OF CASH ACCOUNT.

Balance with treasurer, Jan. 1, 1909	\$562,196 11

CHIEF CLERK'S CASH ACCOUNT.

The chief clerk's cash transactions for the quarter, as represented by the books, are illustrated in totals in the following condensed statement, beginning with the balance on hand Jan. 1, 1909:

CONDENSED STATEMENT OF CHIEF CLERK'S CASH ACCOUNT.

Balance cash on hand Jan. 1, 1909	\$ 12,457 52

Balance on hand and in bank (Champaign)

\$9,906 18

We proved the additions in the cash book, compared all entries made during the period with the ledger postings and found all to be correct.

We compared all entries in the students' fees book, for the first semester, with the memorandum cash tickets (or triplicate receipts to students) of sundry fees and deposits received, which we found to be correct and properly accounted for. We did not, however, compare the memorandum cash tickets with the registrar's records of sums due from students. A copy of all fees and deposits due is prepared at the close of each semester, in the office of the registrar, but as the original records were not produced for our examination we did not feel free to take the copy as being correct.

We reconciled the chief clerk's cash account on May 10, 1909; proved the cash book footings from Feb. 19, 1909, (the date of our last reconciliation) to May 10, 1909; verified the cash by actual count; examined and proved the footings of the checks for deposit and the approved paid and receipted bills and invoices not yet recorded but in process. We called at the First National Bank of Champaign at noon on May 10th for the balanced pass book, cancelled checks and statement of the account as at that date—the cash on deposit being \$8,215.87.

The following statement illustrates the cash transactions from Feb. 19 to May 10, 1909, as represented by the books, and shows the balance at the

beginning, the receipts in detail, the disbursements and transfers to the treasurer in total, and the reconciliation of the account at noon on May 10, 1909:

APPRECIATION OF PROFESSOR BRECKENRIDGE.

Mrs. Busey presented the following minute for the records of the board with regard to Professor Breckenridge, and upon her motion, it was adopted:

As the time is drawing near when Professor Breckenridge is to leave Illinois to take up his work at Yale, his Alma Mater, the Board of Trustees desire to express their sincere appreciation of the valuable services he has rendered this institution during the sixteen years of his connection with it. While his chief work has been the building up of a strong department of Mechanical Engineering, his activity in other directions has been of great service to the University. His was the first mind to conceive of the idea of an Engineering Experiment Station, and the establishment of the station at Illinois, the first in the country, was largely due to his efforts. His work in connection with the burning of Illinois fuels and smoke prevention has been of the greatest value; and his connection with the United States Geological Survey as engineer in charge of the fuel division has redounded to the credit of the University. His pleasant, genial manner, and ever kindly consideration of the feelings and opinions of all with whom he has come in contact, has won for him the highest regard and affection of his associates, and has caused his students to consider him as much their personal friend as their teacher. In accepting the resignation of Professor Breckenridge, we regret that the University of Illinois is to lose such a scholar, teacher and investigator from its service, but we extend to him our best wishes for as great a success in his new field of labor as was his in this University.

MARY E. BUSEY,
FRED L. HATCH,

Committee.

BOND OF TREASURER HAUGAN.

The secretary presented for print in the minutes the bond of Mr. H. A. Haugan, elected treasurer at the March meeting.

KNOW ALL MEN BY THESE PRESENTS, That we, Helge A. Haugan, as principal, and Leroy A. Goddard, Hauman G. Haugan, Theodore Freeman, George E. Rickords and William A. Peterson, as sureties, are held and firmly bound unto the University of Illinois, of Urbana, in the county of Champaign, State of Illinois, in the sum of one million five hundred thousand (\$1,500,000.00) dollars, good and lawful money of the United States, for the payment of which, well and truly to be made, we bind ourselves, and our heirs, executors and administrators, jointly, severally and firmly by these presents.

WITNESS our hands and seals this 20th day of March, A. D. 1909.

The condition of this obligation is such that whereas the above bounden Helge A. Haugan was, on the 9th day of March, A. D. 1909, duly elected to the office of treasurer of the University of Illinois, for a period ending on the 14th day of March, A. D. 1911, or until his successor shall be appointed and qualified, and is about to assume the duties of said office.

Now, if the said Helge A. Haugan shall well and truly perform and faithfully discharge the duties of treasurer of said University of Illinois during his term of office, and shall faithfully keep and truly account for all moneys, bonds, securities or other property coming into his hands as such treasurer during his term of office, and at the expiration of his term of office shall pay over to his successor in office, or to any other person duly authorized by the Board of Trustees of said University of Illinois to receive the same, all moneys, bonds, securities or other property received by him as such treasurer and not otherwise lawfully paid out or disposed of, and shall deliver to his successor in office or other person appointed to receive the same, the property, books, papers, and other things in his hands belonging to said office, and shall, at the expiration of his term of office, or oftener, if thereunto requested by the Board of Trustees of said Univer-

sity of Illinois, render a just and true account of his doings as such treasurer, then this obligation to be void; otherwise to remain in full force, effect and virtue.

REPORT OF THE EXECUTIVE COMMITTEE.

The president of the board, Mr. Abbott, made the following report of the Executive Committee, which was received for record:

CHICAGO, ILL., May 18, 1909.

To the Board of Trustees:

Your Executive Committee reports that the treasurer of the University, Mr. Helge A. Haugan, died in Chicago May 17, 1909.

Your committee met officers of the State Bank of Chicago today and arranged with the State Bank of Chicago and the bondsmen of Mr. Haugan to continue the payment of warrants against the treasurer, until such time as the board shall elect a new treasurer and he shall qualify for the office.

The following is presented as the action of the bondsmen in regard to this matter, which the bank and your Executive Committee accepted and agreed to:

CHICAGO, ILL., May 18, 1909.

To the University of Illinois, the State Bank of Chicago, and All Others Whom It May Concern:

The undersigned sureties on the bond given by the late Helge A. Haugan for the faithful performance of his duties as treasurer of the University of Illinois, hereby request that warrants drawn on said treasurer and payable at the State Bank of Chicago be paid in due course, notwithstanding said Helge A. Haugan's death, until a successor to him as such treasurer be elected and qualified, and in consideration of any and all such payments the undersigned hereby undertake and agree that the bond of said Haugan on which they are sureties as aforesaid, shall, so far as they are concerned, be held to be extended and continued in respect to all such payments, so that any liability which would have accrued to them on account thereof if Mr. Haugan had still been living and in office as aforesaid when the same were respectively made, shall accrue and be binding on them notwithstanding the death of said Helge A. Haugan.

In other words, to such an extent as warrants described as aforesaid shall be paid or shall have been paid since Mr. Haugan's death said bond shall stand and cover the same and all consequences of the payment thereof to the same extent as it would have done if Mr. Haugan had been still living and treasurer as aforesaid when they were respectively paid.

On motion of Mr. Abbott, Henry Alexander Haugan, vice-president of the State Bank of Chicago, was elected treasurer.

On motion of Mr. Abbott, it was ordered that the treasurer be required to give a bond of \$2,000,000, and the Finance Committee was instructed to attend to getting a satisfactory bond, and upon its receipt and approval, to transfer to the newly elected treasurer, the funds and other property of the University, in the hands of the bondsmen of Mr. Helge A. Haugan, deceased.

COMMUNICATIONS FROM PRESIDENT JAMES.

The president of the University presented the following items for consideration:

1. The following report upon the action of the Forty-sixth General Assembly concerning the University appropriations:

The subject of University appropriations excited more discussion during the sessions of the Forty-sixth General Assembly from January to June, 1909, than perhaps had ever taken place in any preceding assembly.

This arose from several circumstances. In the first place, the University asked for larger appropriations than ever before, and with the increasing amount of the appropriations requested, it is natural that there should be increasing question and increasing debate.

In the second place, the income of the State was, relatively speaking, very small, and the powers in control had determined that they would not be in favor of any considerable increase in the tax rate, and as there was no other source for an increase in the State revenue, there was little prospect that the estimates of income would be exceeded. Since the needs of all the State institutions have been steadily growing with the increasing population of the State, it was evident that an unusual effort would be made by each institution to obtain the amount ordinarily given, even where the total could not be increased. The natural result was that some of the institutions felt that they could improve their chances to get larger appropriations if in any way they could cut down appropriations for other institutions. This led to some friction and some opposition to the University, which took the double form of general criticism of its work and specific attacks upon individual items in the appropriation bills by various parties. Every such attack, of course, had its influence in creating an atmosphere which was unfavorable to increased appropriations.

The actual results, however, taken as a whole, were gratifying, and I should like to mention a few of these in order.

In the first place, the Legislature passed what was known as Senate Resolution No. 12, already printed in the minutes of the board, authorizing the trustees of the University to take such measures as would in their judgment attract to and retain in the service of the University and the State the best available talent in this or other countries.

There was some opposition to this resolution on the ground that the trustees had authority already to do whatever they pleased in the way of advancing salaries within the limits of the appropriations granted by the Legislature, but, so far as I know, with a single exception, no objection was raised by any one on the ground that the schedule of salaries at the University is adequate. On the contrary, there was general consent that the remuneration of members of the instructing staff at the University is not sufficient.

It will be remembered that the trustees of the University voted to ask for a special item in the general University bill for the increase of salaries of important positions. This item was approved by the trustees before the joint resolution concerning salaries was introduced into the Legislature.

The passage of this joint resolution seemed to many of the members of the Legislature to cover the whole ground, and the Legislature thought

that the wishes of the trustees would be fully met if in addition to these resolutions there was an increase in the general item for salaries and operating expenses of the University. This item was increased by seventy-five thousand dollars per year, and the special item asked for in the omnibus bill was dropped out. That the omission of this last item, however, did not proceed from any feeling that the salaries paid in the University were too high, is evident enough from the reports adopted by the appropriation committees in both House and Senate upon this particular topic.

The Senate Committee, in recommending an increase in item 1, made the following statement:

"Inasmuch as your committee will recommend that item 20 in the original bill, making appropriations for increase of salaries which was stricken out by the House be concurred in, believing that the trustees have full authority under this item to make such increase as in their judgment is deemed necessary, under Joint Resolution No. 12, passed by both Senate and House, believing that some increase is necessary, also, in view of the fact that items of the bill as introduced have been entirely stricken out or greatly reduced, your committee recommends that general item 1 in the House bill be increased to five hundred and twenty-five thousand dollars (\$525,000) per annum."

The House Committee stated in its report concerning item 20:

"It seems to your committee that the trustees of the University, they being elected by the People to run the business of the University, should have the courage to use their discretion in regard to salaries."

It is, I think, a highly satisfactory result that the Legislature has thus approved the policy of paying adequate salaries at the University, not only by the passage of the joint resolution above referred to, but also by adopting the passages just read in both appropriation committees of the General Assembly, after a second full and thorough discussion.

Another question which had been raised in the course of the criticism upon the University, namely, whether the special items in the appropriation bill, such as that "For the maintenance and extension of the Engineering College and expenses of the Engineering Experiment Station," that "For carrying on the Water Survey," that "For maintenance of the Department of Social and Political Science and Industrial Economics," that "For maintenance of the School of Music," that "For equipment and support of the Law School," that "For equipment and maintenance of the School of Pharmacy," that "For equipment and maintenance of Chemical Laboratory," that "For maintenance of the Graduate School," could properly be used to pay salaries, was answered in the affirmative by the sub-committees of both Houses, by both appropriation committees and, so far as I know, by all the members of both Houses. In fact, it seemed strange to every member of the committee whose attention was called to the matter, that any question whatever should be raised on this point, considering the language of the bill itself.

The language for item 8 in the general University bill, "For maintenance and extension of the Engineering College and expenses of the Engineering Experiment Station" was formulated in this particular way, after a full discussion twice held in the Board of Trustees, and with a distinct understanding that this formulation permitted the trustees at their discretion to charge the entire item or any portion thereof either to salaries or equipment or expenses of the Engineering College or Engineering Experiment Station in any proportion in which it seemed best to the Board of Trustees to make such distribution. The language itself is perfectly sweeping in character, was approved by this board after full discussion and has twice been approved by both sub-committees, by the entire appropriation committees of both Houses and by both Houses of the Legislature without the slightest objection, so far as I have been able to ascertain, at any stage of the proceedings, upon the part of a single member of the General Assembly. I should not know how to make a general formulation of an appropriation bill better calculated and adapted to give to the trustees of the University

complete control over the sum granted in the furtherance of the College and Engineering Experiment Station by the application of the funds to any purpose which seems to them likely to further the general end, than does the language of this item.

This I found to be the view of every member of the Legislature with whom I talked.

The same thing is true of the other items mentioned, namely, item 10, relating to the water survey, item 12 for the department of social and political science, item 13 for the school of music, item 14 to the law school, item 15 to the school of pharmacy, item 16 to the chemical laboratory, item 17 to the maintenance of the graduate school. Whether 1 per cent or 10 per cent or 100 per cent of these respective sums is to be used in the payment of salaries in these particular departments, or used for the provision of equipment, or used for the payment of other expenses, is something which lies solely at the discretion of the Board of Trustees, under the language used in this grant. The whole of these appropriations can be used by the board either to pay salaries or purchase equipment or partly for one purpose and partly for the other, or to meet any other expense which may be incurred in the conduct of the respective departments. It is difficult to see how anyone could ever have raised a doubt as to the sweeping character of this grant.

The same thing is true of the items in the agricultural bill. When the Legislature grants an appropriation to conduct investigations, calculated to develop the beef, mutton, and wool and horse producing interests of the State with no other limitation upon the appropriation, it is certainly at the discretion of the board to decide what proportion of that shall be used in salaries and wages and what proportion shall be used in the purchase of feed for the animals. In a word, the entire distribution of the funds is left absolutely at the discretion of the board.

An act approved June 8, 1909, authorizes and directs the trustees to establish in the College of Engineering at the University a department of mining engineering, and appropriates for this purpose the sum of seven thousand five hundred dollars per annum. Whether that money shall be used in the payment of the salaries of professors in this department, or provide equipment for the department or partly for one purpose and partly for the other, is absolutely within the discretion of the board.

This is an important matter and I take it was fully and completely settled by the action of the Legislature.

Two or three other things were settled it seems to me by the action of this General Assembly in a very satisfactory manner. First of all, in answer to an attack made upon the graduate school the same sum was given for its support and maintenance as was granted by the Legislature two years ago, namely, fifty thousand dollars per annum, and so far as I was able to ascertain there was no vote in either house against this grant, in spite of the fact that there had been considerable discussion and some unfriendly criticism as an incident to the debate of an entirely different question.

I regard further the action of the Legislature concerning the law school as settling once for all the question whether the State of Illinois is willing to establish a center of legal instruction in the State University. When the trustees, nearly twenty years ago, desired to establish a law school, and asked the Legislature for ten thousand dollars with which to purchase a law library, suggesting that the school might be carried on from the proceeds of the fees paid by students, the Legislature refused to make the grant. Many of the members expressed it as their opinion that the State had no business to give instruction in law; that the State University was a school for agriculture and the mechanic arts alone, and that the introduction of any other subjects was not contemplated by the State or charter creating the institution.

The trustees, however, feeling that the charter of the institution and the acts under which they were constituted, made them judges as to what ought to be done in advancing the interests of higher education in connection

with the University, proceeded to establish this school. At the time there was much criticism of this action of the trustees in the Legislature. Time, however, has fully justified its wisdom and the Legislature has finally approved in a definite way the establishment of the law school, by an appropriation for its maintenance.

The University has expended thus far, i. e., to July 1, 1909, upon the support of the law school, not counting heat, light, janitor service or rent of building, about \$175,000.00. It has received from tuition fees and special legislative appropriations for the law school about \$110,000.00, leaving a net deficit of \$65,000.00, which has been met from general University funds.

The first recognition was in an appropriation bill passed by the General Assembly in 1901, for eight thousand dollars for reconstructing the old chemical laboratory so as to make it available for the college of law or the school of music. The board assigned it to the school of law. In 1903 the Legislature gave a small appropriation of twenty-five hundred dollars for furnishing and equipping the law building. This was the first definite recognition of the existence of a law school. In 1905 the Legislature gave ten thousand dollars per annum for further equipment of the law school. Half of this, however, was cut out by the Governor's veto. In 1907 the Legislature gave for equipment and support of the law school fifteen thousand dollars per annum. The board asked of the present Legislature two things, an increase in our appropriation for the general maintenance and support of the law school, and a further item for the purpose of erecting a fire-proof stack in the present law building, for the purpose of housing our valuable law school library. These items were cut out of the bill in the Senate, some men maintaining that the University ought not to support a law school anyhow. These were only the faint echoes of the old sentiment now more than ten years past, in regard to the true function of the State University in the field of legal education. One item had been cut out in the House bill, but finally when the bill went to the conference committee an increase of ten per cent was granted for equipment and support of the law school, and the item of ten thousand dollars for the erection of a fire-proof stack in the present law school building was also reinserted.

I regard this action of the Legislature as finally settling the question beyond the peradventure of a doubt that the University of Illinois should promote and foster the subject of legal education and legal learning as thoroughly and heartily as it fosters and promotes agriculture, engineering or general literary and scientific training.

Another significant act of this Legislature is to be found in the increase of the appropriation for the school of pharmacy. This is a department located in the city of Chicago. It was taken over by the University without authorization of the Legislature, after a full discussion as to the desirability of undertaking this branch of education. The school maintained itself and paid its own expenses until the rising standards required by modern conditions and the consequent decrease in attendance with the ever increasing expense of administering a better school made it necessary to apply to the Legislature for support. The Forty-fifth General Assembly granted ten thousand dollars for the biennium. The Forty-sixth General Assembly, the present one, has granted twenty thousand dollars, thus doubling the appropriation.

This is a significant action from several points of view. In the first place it is a recognition of the fact that it is the business of the trustees of this University under the charter given by the State, to take careful stock of the educational needs of the State, and when it feels that the interests of higher education or the interests of agriculture or industry in this State demand the establishment of new departments of instruction or new departments of investigation; whether here in Urbana or in the city of Chicago, or any other place in the State, it may properly undertake such work.

There was a determined effort made on the part of some members of the Legislature to cut down the appropriation for the purchase of books from

fifty thousand dollars for the biennium to ten thousand dollars. There was some plausible excuse for this in the mind of some members arising from the fact that our library building so far as stack room had been provided for, was full, and there seemed to be little or no opportunity for increasing our capacity for taking care of books.

After stating to the members that by completion of the stack in the present library building and by the addition of cases in the other rooms in the building we could take care of all the books which we could purchase with the sum asked, opposition to this item disappeared, and the University received the same sum as two years ago.

It is a matter of great regret that the University failed to get the buildings which it asked for. It was compelled to be content with one. A handsome appropriation was made for this. The sum of two hundred and fifty thousand dollars, for a building which perhaps by common agreement is the most necessary building for the University, namely, a new University hall.

The item asked for by the trustees for the maintenance and support of the veterinary college and research laboratory was lost. This is greatly to be regretted, as it represented an undertaking extremely important to the industry and health of this great commonwealth. The University asked for seventy-five thousand dollars per annum for the support and maintenance of a veterinary college and research laboratory. As to the research laboratory, we have had one at the University for more than ten years and desire very much the increased support this appropriation could have given. As to the request for the veterinary college, it was exactly such an appropriation as has been made by this Legislature in the law providing for the maintenance and support of mining engineering. We have no veterinary college. We have no department of mining engineering. In the latter case the grant made will enable the University to make a start. In the former, if the grant had been made, we should have been in a position to do for the people of Illinois and the United States one of the greatest possible services.

The Legislature appropriated in the general appropriation bill for the biennium, one million six hundred and forty-two thousand, five hundred dollars. In the building bill the sum of two hundred and fifty thousand dollars (\$250,000.00). In the agricultural bill the sum of three hundred and eighty-one thousand dollars (\$381,000.00). In the mining engineering bill, the sum of fifteen thousand dollars (\$15,000.00) for the biennium. In the general omnibus bill, providing for the support of the State departments, twenty-five thousand dollars was appropriated for the biennium for the department of ceramics. In addition the usual appropriation was made for the support of the State Laboratory of Natural History, and I understand that the appropriation made to the State entomologist for the purpose of curing and preventing insect attacks upon the trees of the State was also made.

The usual appropriation of interest on the endowment fund of the University was made and the usual law providing for the assignment of the federal funds granted in aid of colleges of agriculture and the mechanic arts, was also passed.

On the whole, considering the fact that the State had a smaller revenue than usual, and that it was unwilling to raise more revenue by increased taxation, considering the great pressure for money for new purposes and for the improvement and advance of old interests, the fact that the Legislature gave to the University about seventy thousand dollars including \$7,500.00 for mining engineering more than it ever gave before, is certainly a cause for congratulation, and I believe that there has never been a time in the history of the State when the interest of the citizens in the University and its work was as keen as it is now, and never a time in which their intelligent confidence was so great as at present.

Printed below is an abstract of the appropriations made, followed by the texts of the important bills.

THE CARNEGIE FOUNDATION FOR THE ADVANCEMENT OF TEACHING.

4. A letter from President Pritchett of the Carnegie Foundation for the Advancement of Teaching, concerning the admission of the University of Illinois to the benefits of the Carnegie Foundation.

576 FIFTH AVENUE,

NEW YORK, June 10, 1909.

DEAR PRESIDENT JAMES—At the meeting of the executive committee held on June 4, it found itself able to act in the case of only four institutions, the Universities of Wisconsin, Michigan, Minnesota and Toronto. In case of the Universities of Wisconsin and Minnesota the executive committee took no action toward the inclusion of the agricultural college. In taking this action it did not mean to take an antagonistic attitude toward agricultural education, but simply to indicate its belief that agricultural education was not yet sufficiently differentiated to enable it to act with certainty.

The reasons which induced the executive committee to delay action in the case of the University of Illinois were chiefly these:

1. The committee hesitates to approve, as admission to the foundation would imply, the arrangement by which, in maintaining on the campus a preparatory department, the University of Illinois intermingles secondary and college students and work. It is, in our judgment, questionable whether such overlapping is wholesome, whether viewed from the standpoint of the University, from that of the secondary school interests of the State, or from that of the individual students affected. At any rate, the subject is one upon which we desire further information.

2. The situation is more definite in respect to the University's relation to medical education. As to this there appears to us to be no doubt that the standards for which the University now makes itself responsible do not accord with our present policy in dealing with the professional departments of academic institutions.

I have also to report that I brought before the executive committee the recommendation for a retiring allowance in the case of William L. Pillsbury, Esq., registrar and secretary. He would, under the rules, be eligible to a retiring allowance in the case of an institution on the accepted list. The committee has, however, taken the position that it would not extend a retiring allowance to professors in institutions not upon the accepted list, except in the case of well-known men who had rendered extraordinary service as teachers, or in the case of men whose health was impaired and for whom further service was, therefore, a serious physical burden. The committee has felt that all other cases might well await the time when the institution had regularly completed its connection with the foundation. I am

Very sincerely yours,

HENRY S. PRITCHETT.

President Edmund J. James, University of Illinois, Urbana, Illinois.

Voted (1) that the question of the relation of the academy to the University be referred for consideration to the Committee on Instruction of the Board of Trustees and conference with a committee of the University Senate.

(2) That the question of the relation of the Medical School to the University be referred to the Committee on the College of Medicine for further report.

Further, that the dean of the Medical School be informed that the registrar of the University must approve all the applications for admis-

sion to the Medical School, either to the freshman class or to advanced standing, and that the registrar be instructed to require satisfactory evidence that all applicants have completed the fifteen units required for admission by the rule of the board.

Further, That the faculty of the Medical School are requested to put the medical laboratories as rapidly as possible into a thoroughly satisfactory condition.

The board then took a recess until 2:30 p. m.

Afternoon Session, June 24, 1909.

When the board met after recess the same members were present as during the morning session except Mr. Blair and, for a short time, Governor Deneen.

IN MEMORY OF HELGE A. HAUGAN.

Mr. Abbott presented the following, which was adopted:

Helge Alexander Haugan, late treasurer of the University of Illinois, was born in Christiana, Norway, in 1847. He came to America in early childhood and to Chicago in 1863, and from that time until his death, May 17, 1909, was a resident of the State of Illinois.

With scant educational advantages in his youth, but with energy, courage, and a clear and morally upright mind, he took a leading part in founding and building up a great commercial institution, of which he was the responsible head at the time of his death. Nor was he so absorbed in affairs of business that he neglected his civic and other duties, but gave freely of his time and means to the cause of good government and the moral up-building of his community.

Mr. Haugan represented the highest type of the race and of the immigrant to which this country owes so much, and although he was taken away in the prime of his mature usefulness, the good which he wrought remains as a heritage to the community in which he lived.

REPORT OF THE UNIVERSITY COMMITTEE ON ACCOUNTANCY, JUNE 12, 1909.

9. Report of the University Committee on Accountancy.

President Edmund J. James, University of Illinois:

DEAR SIR—The University Committee on Accountancy submits the following report upon the administration of the law relating to the certification of public accountants, State of Illinois, for the year 1908-1909:

Certificates Issued—Since our last annual report under date of June 8, 1908, the following certificates have been granted:

Diploma No. 115, to A. E. Andersen, 1730 Tribune bldg., Chicago, on July 7, 1908.

Diploma No. 124, to S. R. Hopkins, First National Bank bldg., Chicago, on March 18, 1909.

Diploma No. 125, to J. E. Sterrett, Philadelphia, Pa., on May 15, 1909.

Examinations—Two examinations have been held during the year: That of November 19, 20 and 21, 1908—at this examination seven candidates qualified and of these, one candidate received the percentages required by law and was granted the certificate; second, the regular annual examination prescribed by law on May 3, 4 and 5, 1909—at this examination, sixty-five candidates qualified and of these, one candidate decided at the last moment not to enter the examination. The returns from this examination are not yet in. When the last report was submitted the returns from the May, 1908, examination had not been received. The report of the Board of Examiners

came to this office on the twenty-sixth day of June, 1908. This report showed that of the sixty-two candidates seven had been successful in attaining the required grade in all of the subjects in which they were examined. In addition to these examinations three candidates were admitted under the waiver clause, making a total of eleven persons who have received the C. P. A. certificate during the year which this report covers.

Protest in Regard to the May, 1908, Examination—Soon after the May examination the committee began to receive informal complaints from some of the examinees stating that the examination was unduly long in certain subjects, and that certain questions were objectionable, owing either to the obscurity in their meaning or to difficulty which made it, in their opinion, impossible to answer them correctly, and in any case within the specified time limit. The examinees were advised that in the opinion of the committee it would be better to defer any action that might be contemplated until after the returns were in, and in case they then felt there was a cause for complaint, that it would be necessary for them to make a formal statement of their complaints if they wished the matter to be presented to the proper authorities for consideration. Immediately after the report of the board of examiners was approved and the returns sent out to the candidates a formal complaint from a committee of the protesting examinees was received under date of July 15, 1908. This was followed by a supplementary complaint dated July 20, 1908. These formal complaints were presented to the Board of Trustees, and for the purpose of securing evidence in regard to these complaints the Committee on Accountancy was directed to secure as full information upon both sides of the questions as it might be able to do and lay the same before the Board of Trustees. On the 10th of August the University Committee asked the Committee of Protesting Examinees to answer certain questions which were raised by their original complaint and to submit their replies in support of their original petition. The original complaints, together with the statements in support of the same, were later submitted to the board of examiners, with the request that they give the suggestions such attention as in their judgment seemed proper. The reply of the board of examiners, together with the original complaint and a statement from the University Committee analyzing the evidence, was presented to the committee appointed by the Board of Trustees on the 21st of November, 1908. After careful consideration of the evidence presented, the Board of Trustees decided that the charge made by the protesting examinees was not sustained, and therefore dismissed the complaint. Soon after this the Committee of Protesting Examinees informed the University Committee on Accountancy that they had decided to drop the complaint.

The Roberts Case—In our report of June, 1908, a statement was made in regard to the charge brought against Mr. William H. Roberts by Mr. John Everett, stating that the said Roberts had received his C. P. A. Certificate No. 84 contrary to the terms of the State law. Upon the presentation of Mr. Everett's charges and formal complaint the trustees asked the University Committee to arrange for a hearing to consider this petition. The hearing was arranged for the 17th of June, 1908. At this hearing both Mr. Everett, Mr. Roberts and the University Committee were represented by counsel. The hearing occupied two days and the stenographic record of the evidence presented filled 220 pages. After full consideration of the evidence the University Committee advised the Board of Trustees that in their opinion the charges presented by Mr. Everett were not sustained, and at their next succeeding meeting the trustees formally approved the action of the University Committee.

Financial Condition—Appended is a statement of the accountancy fund. This shows that on June 1, 1908, there was a balance of \$2,969.19 on hand; that the receipts during the year were \$2,038.80. Of this amount \$2,025 was received from fees, and the remainder from the sale of the bulletin containing the examination questions. Included in the receipts is a refund of \$21 for an advertising bill paid a second time by mistake. The expendi-

tures during the year amounted to \$1,294.33, of which \$125 were refunds of C. P. A. fees to men who failed to qualify for entrance to the examinations. Of the remaining expense \$580.89 for services of the board of examiners; \$111.70 for new office fixtures; and the balance for running this office. The total credit in favor of the C. P. A. fund is now \$3,713.36. Owing to the fact that the number of examinees will be much less in the future, it is probable that the expenses will be in excess of the receipts, and that this fund will be necessary to properly conduct the affairs of the office.

Board of Examiners—The term of Mr. S. S. Gregory as a member of the board of examiners expires July 1, 1909. Mr. Gregory was appointed to fill the vacancy caused by the death of Mr. Azal L. Hatch. Mr. Gregory has been an exceedingly efficient and capable member of the board of examiners, and it is with very great regret that your committee is obliged to inform you that Mr. Gregory finds it impossible to accept a reappointment to the office. Your committee wishes to express their high appreciation of Mr. Gregory's services during the years in which he has served the University in this capacity. Since commercial law is an important part of the examination, it has been customary for one of the board of examiners to be a member of the legal profession and especially versed in commercial law, it will be desirable to appoint as his successor a practicing lawyer, and for the sake of convenience it is desirable that such member of the board reside in or near the city of Chicago. Your committee has given considerable attention to the qualifications of men who would be able to serve the University and the State in this respect. We have not yet, however, been able to reach a satisfactory conclusion in regard to the person who would be best adapted to this position. We, therefore, wish to request that action upon this matter be postponed to an adjourned meeting, or the next following meeting, of the Board of Trustees, when we shall be able to present a number of names and make a definite recommendation.

All of which is respectfully submitted.

D. KINLEY, *Chairman*;

W. L. PILLSBURY,

M. H. ROBINSON, *Secretary*;

University Committee on Accountancy.

Ordered printed in the minutes.

STACK IN LAW LIBRARY.

10. A recommendation that the Committee on Buildings and Grounds be authorized to proceed immediately with the erection of the fireproof stack in the Law building, for which the sum of ten thousand dollars (\$10,000) was appropriated by the last Legislature and of which the preliminary plans were presented at this meeting.

By the following vote an appropriation of \$10,000 was made and the matter was referred to the Committee on Buildings and Grounds and the supervising architect with power to act: Yeas, Messrs. Abbott, Davison, Hatch, Grout, Meeker, Mrs. Evans and Mrs. Busey; nays, none; absent, Governor Deneen, Crebs, Blair, Moore and Mrs. Alexander.

FURNISHING NATURAL HISTORY HALL.

11. Recommendation from the supervising architect, Professor J. M. White, concerning the purchase of furniture for the Natural History building:

URBANA, June 11, 1909.

President Edmund J. James, University of Illinois:

No appropriation has as yet been made for the furniture for the Natural History building addition. I do not consider that the stock furniture manufactured by the State Board of Prison Industries is satisfactory for the general furnishing of this building. They could possibly manufacture furniture of a special design from our specifications, but this would involve a needless expense on our part and would probably result in the furnishings costing a good deal more than they would if selected in the open market, in addition to necessitating a much longer time for their manufacture than there is between now and the opening of school next fall. We have tried to get work done according to our plans and specifications on at least two occasions and the delay in filling the orders has invariably been very serious.

We have about sixty rooms to furnish in this building, aside from the general administrative offices of the University. Of these, about, thirty, besides the general administrative offices will require some general office furnishings, which should include desks, bookcases and filing cases.

I am advised that the State Board of Prison Industries manufactures no filing units, and as it is desirable to have all of the furniture in any one room harmonize in design, it seems to me we should be permitted to buy the bookcase units so they can be built up into sections with the filing units.

It seems to me it would be unreasonable to expect a State Board of Prison Industries to manufacture as high a grade of furniture as can be purchased from manufacturers employing the best skilled labor obtainable, and whose factories are equipped with the most modern machinery. That they are unable to compete with the regular dealers in quality has been conclusively proved by our experience. I do not think there is a single desk on the campus manufactured by the State Board of Prison Industries upon which we have not expended from \$1.50 to \$5.00 in repairs, in order to make the drawers and the roll top operate at all satisfactorily.

Considerable furniture will have to be built into some of the rooms in the building, and we should be free to place the order for this furniture with firms who will guarantee us a time delivery upon it. If the work is placed with the State Board of Prison Industries, we must abide their time for the delivery of the order, and if the material is not satisfactory when it comes, our past experience shows that there is no recourse.

Under these circumstances I feel that we are justified in urgently demanding a blanket release on all kinds of furniture for this building, which we have not found by experience to be manufactured satisfactorily by the State Board of Prison Industries.

It would be well to also include the Physics building, though there is far less furniture of the stock design required in that building, but the office furniture should be of a higher grade than that catalogued by the State Board of Prison Industries.

Yours truly,

JAMES M. WHITE,
Supervising Architect.

Voted, on motion of Dr. Davison, that said recommendation be approved.

On motion of Mrs. Busey and by the following vote the sum of \$10,000 was appropriated for the purchase of said furniture: Yeas, Governor Deneen, Messrs. Abbott, Davison, Hatch, Grout, Mrs. Evans and Mrs. Busey; nays, none; absent, Crebs, Blair, Meeker, Moore and Mrs. Alexander.

12. Recommendation from the supervising architect, Professor J. M. White, for needed repairs, etc., in the University buildings, which should be made in the course of the present summer.

URBANA, ILL., June 23, 1909.

President Edmund J. James, University of Illinois:

I submit herewith a general summary of the repairs which I recommend on the several University buildings, together with a more detailed statement of the needs with regard to each particular building.

Repairs to plumbing and heating apparatus cannot be delayed and so are taken care of from time to time as occasion arises. This of course is largely true with regard to repairs to roofs. This budget is therefore chiefly painting and of the whole amount, \$6,500.00 is for interior painting, and \$2,400.00 for exterior painting.

I do not consider it economical to use water color paint for interior surfaces, and in the last few years we have not used anything but the flat oil colors, so there is no need of washing off the walls before redecorating them; and it also makes it possible to paint portions of a room without doing the room all over again, as is necessary when water color is used. The cost of a coat of oil colors is less than the cost of washing off the water color and putting on a new coat, so that I believe our present plan is much more economical as well as the more sanitary one.

Our roofs constantly give us trouble and are responsible for considerable re-decorating of the interiors, so that I feel it is economy in the long run for us to put on the very best roofs possible to secure, not using any tin whatever in connection with them. Roofs put on with copper and slate ought not to give any trouble.

Leaky radiators are another source of trouble and in our new buildings we are using a system in which the air valves are all piped up to a return line, so that there can be no leakage of water from the radiators. I believe that this will materially assist in preventing damage to our ceilings.

Some of the recommendations are the result of criticisms made by the fire inspector in his inspection reports. It would be very easy to spend double the amount that I have recommended at the present time and even then our buildings would not be brought up to the standard which we would like to see, but I have taken our resources into consideration and recommend the things which seemed to me most urgent.

The Agricultural buildings on the South Farm:

These include the new circular dairy barn and residence, the old farm house and barns, together with the feed bins and shelters in the paddocks. All of these structures, with the exception of the new dairy barn and residence should be painted, which with a few minor repairs will cost \$375.00.

The double sliding doors on the circular dairy barn need to be rebuilt, which will cost about \$50.00.

The Agronomy building, Farm Mechanics building, Carriage House, Dairy buildings, Beef Cattle building, Horticultural building, and all of the barns and sheds west of the Beef Cattle building should be repainted, which including incidental repairs will probably cost \$800.00.

The south doors on the Beef Cattle building must be reconstructed at a cost of about \$35.00.

The Agronomy and Horticultural Green Houses just south of the Agricultural building are in such a bad condition that it is questionable whether they can be repaired. If it was certain that these buildings were to stay in this position, I would certainly advise reconstructing the buildings with steel frame work, but under the circumstances, I think it is best to prop them up so they will last a little longer, which will involve an expense for general repairs of \$150.00; and for painting \$150.00.

The brick potting house in connection with them is in good condition though it needs some general repairing and painting which will cost about \$100.00.

The main Agricultural building is in good condition, both on the exterior and interior, because of having been rather extensively remodeled and repaired two years ago. Nothing need be included at the present time for further improvements.

Armory—The Armory is not generally in very bad condition, though the roof cannot be expected to last much longer, as it is of tin and has about

reached the duration of the life of that material. We are constantly troubled with leaks. The general repairs on this building will amount to about \$50.00.

Auditorium—The Auditorium is already showing that it is unwise to try to get too much for our money in erecting University buildings. The tin roof is likely to be a constant source of trouble to us, and though it was tight at the time the building was accepted, we have had considerable trouble with leaks, especially around the electric light outlets. These leaks become so bad that I felt it necessary in order to save the plastering of the dome, to take the lights off of the ribs.

I have never felt satisfied with the dark color of the dome and if I can get some of our other University people to agree with me, I should like to paint it with aluminum paint, because in my opinion, it has never looked as well as it did with the bright tin roof upon it.

The walls on the interior should be touched up to conceal the effect of leaks, and the wall in the Auditorium, under the balcony, should be painted a different tone of red. The effect of the lime and plaster has been to materially change the color which was first put on, so that it is now quite a disagreeable tone; the wall is probably seasoned sufficiently now so that if re-painted, it would hold its color.

The building has never been satisfactorily heated and probably will not be until some system of ventilation is put in, but I believe it wise to provide some radiation on the stage against the south wall of the building. These improvements altogether would cost about \$400.00.

Professor Morgan Brooks has made quite a careful study of the lighting of the Auditorium, and recommends that fewer lights of higher candle power be used. He recommends eight 60 watt tungsten lamps on each of the large chandeliers, and the shortening of the stem of the chandelier to about one-half of its present length; he also believes that 100 watt tungsten lamps at the top of the arch over the stage, would, with proper reflectors, give adequate lighting both for the mural painting and for the stage. I believe the recommendations are along the right line, and recommend that there be appropriated for this purpose \$150.00.

We have talked of finishing up the space under the memorial vestibule, and this matter was referred to the Buildings and Grounds Committee for a report. The estimated cost of this work was \$900.00, but I am inclined to think it inadvisable to proceed with this until after our plans for the New University Hall are definitely settled.

Chemistry Laboratory—The Chemistry Laboratory is in fairly good condition structurally, although there are a great many rooms in the building which are sadly in need of having the walls cleaned and painted. The general repairs to the roof will amount to \$100.00; the incidental repairs on the interior to \$150.00 and for the painting of interior walls and ceilings there should be spent at least \$750.00.

We have discussed the advisability of building a storage room for inflammable material outside of the main building, which would cost \$500.00, but the chemistry people did not feel the need of it, and are not willing that such an expense should be charged against their appropriation, and I am not including this in my recommendation at this time. None of the items referred to in connection with this building are included in the plans which the department has made for the expenditure of their regular appropriation.

Electrical Laboratory—The Electrical Laboratory is in reasonably good repair, though the walls in the class rooms and offices on the second story are very dirty and badly stained. They still have the original water color upon them, which was put there at the time the building was re-constructed. One window opening on a fire escape should be changed to a casement window, and it is advisable to protect the partition at the head of the attic stairs with metal lath and plaster. These changes will involve an expenditure of about \$400.00.

Engineering Hall—The Engineering building is in reasonably good condition, but there are a large number of rooms which still have the original water color tinting upon the walls, and a portion of these should be cleaned off and painted.

The changes in the building necessitated by the removal of the Physics Department are chiefly the removing of partitions, with the exception of the sub-dividing of one room for the use of the commandant, and the construction of a vault for the storage of University drawings. This latter item, if we can use a door from one of the vaults in the present business offices, will cost about \$200.00, but it seems to me it is well worth doing.

General changes in the Engineering building, aside from the above item will cost about \$500.00, and there should be allowed for re-painting and varnishing on the interior of the building \$1,000.00.

Green House—The University Green House is inadequate for the demands made upon it, but until some permanent location can be decided upon for these buildings, it does not seem advisable to spend much money in additions. However, it will be necessary to make some repairs on this building and the exterior and interior should be re-painted, involving a total expense of \$275.00.

Gymnasium—The Men's Gymnasium is not included at this time, because we have a special appropriation for its re-construction.

Hydraulic Laboratory—The Hydraulic Laboratory is in reasonably good condition. New gutters were placed upon this building during the past year, but there are a few repairs necessary to the slating, and ventilators should be placed upon the ridge over the east end of the building, as at present the laboratory is too hot for use in summer. Three 36-inch ventilators would cost about \$150.00.

Another room should be partitioned off on the front of the second story for Professor Talbot's work, and it is also very desirable to build a vault for the safe keeping of the large amount of manuscript material which he keeps constantly in hand for reference. These items, together with the necessary painting of walls and ceilings, will amount to \$500.00.

Law Building—The Law building is in reasonably good condition, except for the interior appearance, and there should be a little painting done on the exterior, which together with some minor repairs, will cost \$260.00.

Judge Harker wishes the northwest room on the first floor divided, which will probably cost about \$80.00.

This is all entirely apart from the expense of the proposed new book stack, for which plans are now ready for approval, and which can be constructed within the appropriation.

Library—The Library building is now so crowded that it is not at all satisfactory for the purposes for which it is used. The toilet rooms are inadequate, and some improvements must be made in the ventilation. The floors not covered with cork carpet need re-varnishing, and a number of the walls need to be re-finished.

The roof inside of the tower, which forms the ceiling of Dean Kinley's Seminary room, is made of tin, and because there is considerable tramping over it, it has begun to give trouble, and I doubt if we can adequately repair it. This is the only tin work which was used about the building at the time of its construction, and it evidently was poor economy. To put a copper roof over this area would cost \$150.00; to re-finish the floors would cost \$200.00; general repair and improvements would amount to \$220.00.

We have discussed during the past year the advisability of finishing off a stack room and seminar room on the third floor, the cost of which I estimated (including stacks) at something like \$8,000.00. I have not included this in my recommendations, but insert it for the sake of record.

Metal Shop—The exterior metal work on the Machine Shop must be re-painted, and the interior of the machine shop should be cleaned and the entrance hall re-painted. These items will cost about the sum of \$250.00.

The electric wiring should be entirely re-constructed. It is now all open wiring, which has been criticised in every report of the fire inspector. To re-wire this building with conduit installation would cost \$500.00.

M. E. Laboratory—The M. E. Laboratory must be re-painted on the exterior, at a cost of \$250.00.

Most of the rooms in the east end of the building should have the walls re-tinted, and in some of them the doors and wood-work around the windows require re-varnishing. There is also some wiring in these rooms which should be replaced with conduit installation. These improvements will cost \$500.00.

Natural History Hall—The exterior of the Natural History building should have been re-painted last year, but on account of the construction of the addition, it was postponed in order that the colors might be uniform. There will also have to be quite a little interior painting and finishing, due to the re-arrangement of rooms for departments which will occupy them next year. There should be appropriated for this building \$750.00.

Observatory—The flat roofs on the wings of the Observatory should be replaced with new roofs, at a cost of \$150.00. The interior painting and general repairs to this building will cost about \$185.00.

President's House—I have already sent you a memorandum of the repairs on your residence, which includes the washing and painting of the exterior, \$180.00; the re-varnishing of oak floors will cost about \$150.00, and the interior papering, painting, and general repairs, including whitewashing the basement, \$130.00.

Reservoir—The storage reservoir, beside the boiler house, should have a roof over it, both to keep the water clean enough so that it will not be objectionable to pump into our service system in case of fire, and also to prevent danger to children who sometimes play around there, and try to skate upon the ice in the winter; it is a very deep reservoir and if a child should get in there, it would be in serious danger of drowning; this would cost about \$200.00.

State Entomologist's Building—The State Entomologist's building should be painted on the exterior, and it is also advisable to do quite a little painting on the interior, which altogether would cost \$200.00.

University Hall—There is never any limit to the amount of money which can be spent upon University hall. The exterior was painted last year and over \$800.00 spent on the interior decorating. We could easily spend \$3,000.00 this year in re-painting the interior.

The toilet rooms are inadequate and are poorly ventilated, and I have not yet devised any plan for overcoming the difficulty.

I recommend for interior painting, \$1,500.00; for general repairs, \$250.00; for sub-dividing the present Museum into class rooms, \$1,300.00; for rebuilding the east and west end stairways, so as to eliminate winders, \$400.00; and for general repairs in the Academy, \$230.00.

Woman's Building—The Woman's building is one of the buildings upon our campus which I feel should be kept in better order than any other and therefore there should be considerable cleaning and re-tinting of walls done, for which I recommend that \$500.00 be appropriated. More of the windows should be screened, and it is desirable to put in a spiral stairway from the gymnasium locker room to the basement. These two items would cost in the neighborhood of \$130.00.

Wood Shop—The metal work on the wood shop should be painted two coats and there is some patching of plastering to be done, which will necessitate some re-decorating. Nearly all of the interior natural wood finish in this building should be re-varnished. The general repairs would cost, \$90.00; and the exterior and interior painting, \$325.00.

Tunnel—The steam tunnel is crowded with pipes and wires up to the point where the connections for Engineering hall are taken off. There is a large amount of open wiring, which should be replaced by cable and this practically must be done before we can put in the cables necessary to supply the new buildings. With all this open wiring out of the way, I think the tunnel will be ample in size for some time. This will cost \$300.00.

Steam Connection to Greenhouse—The steam connection to the greenhouse, which is laid underground, is beginning to leak and will have to be

re-laid during the summer, which will necessitate excavating from the south end of the Electrical Laboratory across to the greenhouse; this will cost \$200.00.

This ends the specific recommendations with regard to buildings. The exterior painting is being done in accordance with the definite policy to paint exterior woodwork once in four years, and the metal work of roofs every second year. The interior painting is something which can be deferred without detriment to the building, but I am sure you will agree that we have not kept the interiors of our buildings up to a very high standard.

We should lay some additional walks this summer, and I trust the location of the new University Hall will make it possible for us to put in concrete walks to the Woman's building during the summer.

There should also be better lighting on the south campus and as soon as a campus plan can be reasonably definitely determined upon, I shall recommend the lighting of the south campus by means of incandescent lamps, at rather frequent intervals. The additional generator capacity which we expect to put in this summer, will make it possible for us to provide for the adequate lighting of the south campus.

I hope that at the next meeting of the Board of Trustees, the total amount of \$15,865.00 may be appropriated for repairs to be made under the direction of the Buildings and Grounds Committee.

Respectfully submitted,

JAMES M. WHITE,
Supervising Architect.

SPECIAL STUDENTS IN COLLEGE OF AGRICULTURE.

15. Recommendation from the College of Agriculture relating to special students.

URBANA, ILL., June 23, 1909.

Dr. Edmund J. James, President of the University of Illinois:

DEAR PRESIDENT JAMES—The faculty of the College of Agriculture today makes the following recommendations:

1. That non-matriculated students in the College of Agriculture be limited to a minimum age of 18 years.

2. That students below this age desiring instruction in agriculture be registered in the academy.

3. That suitable courses in secondary agriculture be offered in the Academy under a competent instructor, such courses being similar to those that are now proposed for high schools generally, such instruction being modeled after the best ideals of said instruction in such schools.

4. That Farmers' Institute scholarships should follow the student whether he is registered in the College of Agriculture or in the Academy.

This plan is entirely feasible from every standpoint which is known to the faculty. It serves the younger students even better than they are served now. We have this year but fifteen who are under 18 years of age, and while the number is not large, it is after all desirable to separate these students from the older people who are able to take our instruction from the standpoint of greater maturity.

It may involve an additional instructor at perhaps \$1,200.00, and I suggest that the President be given authority to employ such instructor.

If this plan can be put into operation it will improve the grade of instruction that we can give in our University classes, it will accommodate students who come for a short time in the winter season better than they are accommodated now, and it will in every way afford superior advantages to the younger student. Inasmuch as it involves but 15 students, it is not a sweeping action, and it is a step ahead in the natural evolution toward the admission of our students on the same basis as others. It does not mean large outlay for equipment because the same equipment can be used to a very large extent which is now at hand: Indeed, it is a small matter from every standpoint.

I may say that our faculty is a unit in believing that this will be a step ahead, not only in the quality of instruction but in the accommodation of this younger class of students.

Very truly yours,
E. DAVENPORT,
Dean.

Voted, on motion of Mr. Grout, that said recommendation be approved.

NUTRITION INVESTIGATIONS.

16. Report from Professor H. S. Grindley in charge of nutrition investigations and the research laboratory, with a request that the Board of Trustees authorize the printing in full of the results of the nutrition investigation carried on under the charge of the research laboratory during the past two years.

URBANA, ILL., May 8, 1909.

President E. J. James, University of Illinois:

DEAR SIR—Your commission, appointed to consider the effect of potassium nitrate and potassium nitrite as present in cured meats, upon the health of man, now in session at Urbana, begs to present for your consideration the following recommendation:

The commission, after careful survey of the recorded data obtained in the experimental study carried out during the past year, are greatly impressed with the desirability of an early publication in extended form of all the results collected, and would recommend that if possible the report of this investigation, when made public, be presented in detailed form, so that such general conclusions as may be drawn from the results may be accompanied by all the data upon which the conclusions are based.

The commission is fully aware that such a recommendation means considerable expense, but the members of the commission are convinced that such an expenditure will be more than justified by the scientific value of a report so presented. Rarely has such an extended scientific investigation in the field of nutrition been undertaken as the one now practically completed, and the University which has fostered the inquiry is not only deserving of congratulation upon the successful completion of such a large undertaking,

but should at the same time have full credit for all that has been accomplished. By publication of the detailed report, as suggested, the University of Illinois will secure for herself that public recognition to which she is justly entitled, and, in the opinion of the commission, such a method of publication is for many reasons eminently desirable.

Respectfully submitted,
R. H. CHITTENDEN,
A. P. MATHEWS,
THEOBALD SMITH.

URBANA, ILL., June 2, 1909.

President Edmund J. James, University of Illinois:

DEAR PRESIDENT JAMES—I respectfully request that this Laboratory be allowed a grant of \$15,000.00 to publish in full in the near future the results of the saltpeter investigation as suggested by the non-resident members of the Saltpeter Commission. To publish the full details of this investigation as requested by the commission will require four large octavo volumes (10x7 in.), each of 500 pages, including charts, diagrams, curves, tabulated data, etc. The printing of an edition of 1000 will cost approximately \$6,500.00. If the details are to be published in full by the University in the near future, as suggested by the commission, it will be necessary to devote much work to the preparation of the manuscript, beginning at once and continuing for one year. If the results of this investigation are to be published in detail within the next twelve months we must be given permission to begin work at once, and it will be necessary to arrange for us to have the following help:

First—I must be allowed two-thirds of my time for this work and therefore two-thirds of my salary (\$2,000.00) should be paid from the above requested grant.

Second—Dr. MacNeal must devote one-half his time to this work and he should be allowed \$1,200.00 for his services in this connection.

Third—Mr. F. W. Gill must devote all his time to assisting in the preparation of the manuscript. This will incur an expense of \$1,800.00.

Fourth—It will be necessary for me to have an assistant chemist in the editorial work at a salary of \$1,000.00 for the year.

Fifth—To be able to do this work within twelve months, and if it is undertaken at all in this way it must be done within twelve months, there will also be required one stenographer, one clerk, one calculator, and one draftsman, each at a salary of \$600.00 per year.

I earnestly request this grant for the following reasons: We have made in this connection in the Research Laboratory the most extensive, thorough, exhaustive, and scientific nutrition investigation upon man ever before made in the world. The results of this investigation, giving in detail the normal and abnormal nutritional activities of a group of twenty-four men for a period of 220 days, are of inestimable value to the clinician, the physician, the surgeon, the pathologist, the physiologist, the bacteriologist, the biological chemist, and to the sciences of human and animal nutrition, and to public health and sanitary science. I know positively that this statement is not too strong nor does it exaggerate the importance or value of this work.

The attitude taken by the non-resident members of the commission, entirely in every way of their own initiative, in their communication of May 8 to you, fully substantiates these statements.

The publication by the University of the details of this investigation, which will at once be recognized as a classical research, will be still another step in placing the University of Illinois in the front rank in scientific research work of the highest order.

Yours very truly,
H. S. GRINDLEY.

RESEARCH LABORATORY IN THE UNIVERSITY OF ILLINOIS.

The research work of this laboratory was started in 1897 in coöperation with the office of Experiment Stations of the U. S. Department of Agriculture. The first researches in animal nutrition of this laboratory were made to determine the food requirements of men. From 1897 to 1907, the U. S. Department of Agriculture assisted this Research Laboratory by granting during this period of ten years \$7,500.00 to aid our researches. December 14, 1898, the Board of Trustees of the University appropriated \$500.00 for investigations upon foods and the nutrition of man. (See twentieth report of the Board of Trustees of the University of Illinois, pages 27 to 40). July 21, 1905, the trustees further appropriated \$2,000.00 to continue the investigations in nutrition of this laboratory. (See the twenty-third report of the Board of Trustees of University of Illinois, page 130). In addition to the above appropriations, the University of Illinois, during the years 1903 to 1907 furnished this Laboratory \$6,000.00 for research work in nutrition upon man and the lower animals. During the two fiscal years 1907 and 1908, this research laboratory was granted by the Trustees of the University through the College of Agriculture, \$11,500.00 per year for investigations upon animal nutrition, and \$5,000.00 for the two years for researches upon human nutrition.

There has been published from this Laboratory thirty-six bulletins or papers (in all approximately 985 pages) giving the results of researches upon animal nutrition as related to man or the lower animals. At present we have the material necessary for the publication of eighteen additional bulletins and papers (in all approximately 2,750 pages). The manuscripts for somewhat more than half of these publications are now nearly ready for the printer.

Moved by Mr. Grout and seconded by Governor Deneen that the recommendation of Professor Grindley be concurred in, and that the sum be charged to the balance of the appropriation for the Veterinary College and Research Laboratory by the Legislature.

Before the vote was taken attention was called to the fact that a quorum was not present. Thereupon the matter was laid over until a subsequent meeting.

The board adjourned.

W. L. PILLSBURY,
Secretary.

W. L. ABBOTT,
President.

Meeting of July 14, 1909.

A special meeting of the Board of Trustees of the University of Illinois was held at the Palmer House in Chicago July 14, 1909, pursuant to the following notice which was sent out by the secretary July 7, 1909:

Upon the call of the president, Mr. W. L. Abbott, there will be a special meeting of the Board of Trustees of the University of Illinois at 10:00 o'clock a. m., Wednesday, July 14, 1909, at the Palmer House in Chicago, to hear reports of committees; to consider communications from the president, and to transact such other business as may be duly presented.

When the board met pursuant to the above notice, or shortly thereafter, the following members were present: Messrs. Abbott, Crebs, Davison, Hatch, Grout, Meeker and Moore and Mrs. Evans and Mrs. Busey; absent, Governor Deneen, Mr. Blair and Mrs. Bahrenburg. President James was present.

DISPOSITION OF SPECIAL ENGINEERING COLLEGE AND EXPERIMENT STATION FUNDS.

Dean Goss was, by invitation, heard with regard to the use of the \$160,000.00 especially appropriated for the maintenance and extension of the Engineering College and Experiment Station. He urged that none, or if that could not be, that very little of this special fund be used for the payment of salaries in the college and station.

COMMUNICATIONS FROM PRESIDENT JAMES.

The president of the University submitted the following matters for consideration:

1. A list of names, submitted by the University Committee on Accountancy, of suitable candidates for the appointment as member of the Board of Examiners, in place of Mr. Gregory, whose term has expired. The list submitted was: Silas H. Strawn, R. W. Childs, Fletcher Dobyns, all of Chicago.

Voted that the president of the University should invite these men in the order named, to serve in place of Mr. Gregory on the board of examiners.

2. A statement from Miss Mary M. Wetmore in regard to the action of the committee appointed by the Board of Trustees to pass upon the class memorial offered by the class of 1908.

Voted that the comptroller of the University may receive the money which was raised by the class, in case that it is desired by the members of the class of 1908, in trust for the class.

Voted further that the president of the University be authorized to consult with the class of 1908, and, in case it should be their desire, he be authorized to ask the treasurer of the class to turn over the fund to the comptroller of the University, and may undertake for the University to erect a memorial in the name of the class with the proceeds of the fund.

SCHOOL OF PHARMACY.

3. Letter from W. B. Day, stating that the Illinois Pharmaceutical Association at its recent annual meeting in Quincy voted to present to the University the following list of persons from whom a member of the advisory board of the School of Pharmacy should be chosen to succeed Mr. F. L. Coffinberry of Peoria, whose time expired July 1.

Paul G. Schuh, Cairo; Joseph F. Forbrich, Chicago; J. M. Miller, Bloomington; O. G. Freman, Chicago; E. L. Ladish, Chicago.

Voted that the president of the University be authorized to offer the position of member of the advisory board in place of Mr. Coffinberry to the gentlemen named on the list, in the order in which they are named, unless for some good reason it seems desirable to vary it.

Also a resolution adopted by the Illinois Pharmaceutical Association at its annual meeting June 16, 1909, concerning the erection of a special building for the School of Pharmacy.

Voted to receive and print the same in the minutes.

WHEREAS, The great State of Illinois with its vast resources, its magnificent cities and towns, its wonderful industrial development, its marvelous educational and state institutions, stands easily as the peer of any state in the middle west; and,

WHEREAS, The pharmacists of Illinois, some six thousand in number, proud of their native or adopted commonwealth, desire to do honor to the tradition and future greatness of their home State, herewith in annual convention assembled in the beautiful and hospitable city of Quincy; be it

Resolved, That we urge the trustees of the University of Illinois to include in their budget, an appropriation of \$200,000.00 for the purchase of a site and erection of a specially designed and equipped building for the School of Pharmacy of the University of Illinois, and we further pledge ourselves during this and such time as this measure is passed to work and use our influence in support of such an appropriation.

Also matters relating to the budget of the School of Pharmacy.

Referred for consideration to the Committee on the School of Pharmacy.

4. Proposal from the Graduate Club of 1907 in the University of Illinois to found a loan fund with a gift of seventy-five dollars as the initial gift, with certain suggestions as to its administration.

Voted to refer said proposal to the executive faculty of the Graduate School for a report.

5. Dr. Watson's report of progress on the study of the defects in the acoustics of the auditorium and the means of remedying them.

Voted to refer for further report to the supervising architect.

6. Request from Professor J. C. Blair to lease the present year the John H. Sawdon orchard lying two miles south of Griggsville in Pike county,

Illinois, at the yearly rental of one hundred dollars. This is at the same price and according to the same conditions as the present contract with him dated April 28, 1906.

On motion of Mr. Hatch and by the following vote the request was approved and authority was given to the proper officers of the board to sign said contract: Yeas, Crebs, Abbott, Davison, Hatch, Grout, Meeker, Moore and Mrs. Evans and Mrs. Busey; nays, none; absent, Governor Deneen, Blair and Mrs. Bahrenburg.

INSPECTION OF ORCHARDS.

7. A request that Professor J. C. Blair and Professor C. S. Crandall be authorized to make an inspection trip through the orchard regions of the far west during the present summer. It is estimated that the trip will cost seven hundred dollars, and it is suggested that the expenses be paid from the fund for orchard investigation receipts.

On motion of Mr. Grout and by the following vote the request was approved and the necessary appropriation was made: Yeas, Crebs, Abbott, Davison, Hatch, Grout, Meeker, Moore and Mrs. Evans and Mrs. Busey; nays, none; absent, Governor Deneen, Blair and Mrs. Bahrenburg.

REPORT OF STATE LABORATORY OF NATURAL HISTORY.

8. Report of the director of the State Laboratory of Natural History.

Voted that the report be received and printed in the minutes.

On motion of Mr. Hatch and by the following vote the salary of the director of the State Laboratory of Natural History was fixed at \$1,500.00 for the academic year 1909-10, and the director was given authority to carry on the work of the laboratory during the summer within the limits of the appropriation granted by the Legislature: Yeas, Crebs, Abbott, Davison, Hatch, Grout, Meeker, Moore and Mrs. Evans and Mrs. Busey; nays, none; absent, Governor Deneen, Blair and Mrs. Bahrenburg.

ILLINOIS STATE LABORATORY OF NATURAL HISTORY.

June 3, 1909.

President Edmund J. James, University of Illinois:

DEAR SIR—I had intended to prepare a rather full report on the operations of the State Laboratory of Natural History for the June meeting of the trustees of the University, but legislative delay in dealing with appropriations for the coming two years has made this impracticable. The omnibus bill is now, however, in a position such that the State Laboratory appropriation is practically determined for the next two years at the same sum as previously; namely, \$9,500.00 per annum.

I have been husbanding the current appropriation rather carefully, and find that I shall have an unexpended balance of something over a thousand dollars on the first of July.

I am preparing to continue and complete the forestry survey of the State begun last summer in coöperation with the United States Forest Service, and have an understanding to that effect with the director of that service. I am also making an arrangement for further special work on the census of Illinois birds, to cover some points not sufficiently worked out in 1906 and 1907; and am also preparing to re-commence work on the Illinois river

with our biological station equipment, now located at Havana. It is my purpose to make a general study of the Illinois river and its dependent waters from the economic standpoint as an item in the natural resources of the State, with a view to demonstrating its value as a piece of natural property and determining the means of its maintenance and improvement, and especially showing the necessity of a protection of the stream against injurious pollutions which now threaten it seriously, owing to the establishment of large manufacturing plants upon its course.

The forestry work is strongly endorsed and supported by the State Coal Operator's Association, and by the State Horticultural Society. The river work is cordially approved by the Governor, and I am also assured of all possible assistance from the State Fish Commission. The census work on the birds of the State has attracted wide attention throughout the country, and has called forth many expressions of interest and approval within the State.

The principal publications of the year have been a second report on the plankton of the Illinois river, by Dr. Kofoid, and a report on the fishes of the State by Mr. Richardson and myself, the first a volume of 360 pages of text, tables and plates, and the second containing 131 pages of introductory matter, 357 pages of text and figures, and 60 plates—41 of which are colored. This work on Illinois fishes has been received with enthusiastic approval both by ichthyological specialists and by persons interested in fishing and fisheries within the State. I have found it difficult indeed to protect the edition against an indiscriminate call from individuals. Two thousand copies were printed and bound by the State Board of Contracts without expense to the State Laboratory appropriations except for illustrations.

It is my intention next to prepare a similar volume on the entomology of the State, which shall bring into one report the more important entomological matter of economic and educational value now widely scattered through miscellaneous reports, most of which are out of print. I intend to illustrate this volume fully with colored plates, and hope to make it in every way equal, if not superior, in usefulness and attractiveness to our report on Illinois fishes.

I have no present recommendations to make with reference to changes, appointments, or salaries for the coming year, but shall have to ask authority from the trustees to make such arrangements for the summer work as are necessary and feasible within our appropriations.

Respectfully yours,

S. A. FORBES,
Director.

URBANA, ILL., July 13, 1909.

Dr. C. G. Hopkins, Vice Director, Agricultural Experiment Station:

DEAR SIR—Will you be good enough to transmit to those higher in authority in the University, a request from the Department of Horticulture for permission to proceed, without delay, with the erection of one additional experimental greenhouse for our experimental floriculture, the same to be the size of our present experimental houses, namely, 28x222 feet. This additional house is necessary in order to give sufficient room for the carrying out of our floricultural experiments, now in progress. The building would be located just 14 feet south of the present structures. For the purpose of constructing these houses, there should be appropriated from our special State funds for floriculture, \$4,500.00, or as much thereof as is necessary for this undertaking.

This entire matter was up for discussion in our Floricultural Advisory Committee meeting of yesterday, and met with the hearty and unanimous support of the members of this committee. Hence this recommendation by the department. I hope that the matter can be passed upon favorably by the Board of Trustees in their meeting of July 14th, so that the work may be put forward to completion and ready for occupancy early this coming fall.

Respectfully submitted,

J. C. BLAIR,

Head Department of Horticulture.

PREPARATORY COURSES IN AGRICULTURE AND HOUSEHOLD SCIENCE.

11. Report from the dean of the College of Agriculture concerning academy courses in agriculture and household science.

Voted, on motion of Mrs. Busey, that the College of Agriculture be authorized to offer such courses in the academy and that the expense of the same be charged to agricultural funds.

Further, That scholarships in agriculture be granted to University students only.

URBANA, ILL., July 3, 1909.

President E. J. James, University of Illinois:

DEAR MR. JAMES—I beg to present the following report concerning the academy offerings in agriculture and household science for the coming year:

ACADEMY COURSE IN AGRICULTURE.

By recommendation of the faculty of the College of Agriculture, also recommended by the Board of Trustees, all students desiring work in agriculture, if under 18 years of age and unable to matriculate or enter as conditioned freshmen, should register in the academy. To meet the needs of this class of students, and more especially to afford experience and practice in the adaptation of agriculture to secondary schools, the following academy offerings are suggested:

First—One year's work in the study of the production of the four principal crops: corn, wheat, oats and clover, and the soil physics management, etc., including the study of seeds and the methods of combating fungus and insect pests and the test for germination, treatment of oats and smut, etc., 1 unit.

Second—One year's work in animal affairs dealing principally with the breeds of domestic animals, the elementary questions of feeding, and the comparison of individuals for breeding, together with some work upon the planning and construction of suitable barns, 1 unit.

Third—Second semester work in plant propagation, pruning, grafting, budding, spraying, and the maintenance of the farm garden, ½ unit.

The detail plan involves such an arrangement of topics as will make it easy for the student to enter or leave at the middle of each semester, thus affording a special opportunity to a certain proportion of that class of students who spend with us only the winter months.

It is assumed that the instruction should be given by a man well qualified to teach the course thoroughly, and that the subject matter should be entirely distinct from the University offerings, the whole effort being conducted upon a plan which presumably is suitable for a high class secondary school.

In my communication of the other day, I recommended what seemed on the face of it a necessity, namely, that under this new arrangement, the agricultural scholarship should be allowed the student whether he were 18 years of age and enrolled in the college, or under 18 and enrolled in the academy. As I say, the point was not much discussed, but was rather

assumed as necessary to keep faith with the Farmers' Institute. Mr. Pillsbury, however, calls our attention to the fact that there are not now enough scholarships to satisfy all applicants, and he raises the question whether it would not be better to give the agricultural scholarships to those young men only who are 18 years old or over, or otherwise able to register in the college. He replies further that students registering in the academy could become suitable candidates for the scholarships whenever they had reached the suitable age, or were able to matriculate; that is to say, their registration in the academy would not bar them from receiving the scholarship later on. This point appears desirable to all of us, and I put the question to the Farmers' Institute officers. They all approve of our step in limiting the special student to 18, and to those who have had farm experience. Upon the point of scholarships, I have as yet heard from but one of the officers, but he is the superintendent, and I think may be fairly considered as expressing the opinion of the other officers on this point. Upon the strength of Mr. Hall's letter, which I enclose, I am inclined to recommend that hereafter the agricultural scholarships be limited to those who may register in the college. Even then there will not be enough to go around.

ACADEMY COURSE IN HOUSEHOLD SCIENCE.

For students who fulfill the academy requirements for registration, the Department of Household Science offers the following courses in cooking, sewing and the care and plan of the house.

COOKING.

These courses include the management and use of fuels; the care of utensils; methods of cooking (fruits, vegetables, cereals, milk, meat, eggs, breads, and food combinations); sources of food; processes of manufacture, adulteration and preservation.

A-1. Cooking: Fruits, fall vegetables, cereals and bread. I, first half; ($2\frac{1}{2}$); $\frac{1}{4}$ unit.*

A-2. Cooking: Milk, cheese, eggs and meat. I, second half; ($2\frac{1}{2}$); $\frac{1}{4}$ unit.*

A-3. Cooking: Winter vegetables, fish and poultry. II, first half; ($2\frac{1}{2}$); $\frac{1}{4}$ unit.*

A-4. Cooking: Breads and food combinations. II, second half; ($2\frac{1}{2}$); $\frac{1}{4}$ unit.*

SEWING.

These courses include plain sewing; the making of undergarments; the use and care of tools; the drafting and making of the shirt waist; the making of the unlined dress.

A-5. Sewing: Plain sewing; the making of undergarments; the use and care of machines and tools. I, first half; ($2\frac{1}{2}$); $\frac{1}{4}$ unit.*

A-6. Sewing (a continuation of A-5); the drafting and making of the shirt waist. I, second half; ($2\frac{1}{2}$); $\frac{1}{4}$ unit.*

A-7. Sewing (a continuation of A-6): The making of the unlined dress. II, first half; ($2\frac{1}{2}$); $\frac{1}{4}$ unit.*

THE HOUSE.

A-8. Care of the House. In this course the care of the separate rooms is considered. Some practice work is given in the Experimental House. In the second half of the semester the plan of a farm home is studied. I or II; (3); $\frac{1}{4}$ unit.*

*Any four of the academy courses in Household Science may be offered for one unit for entrance credit; but no entrance credit will be allowed until four courses are completed; and no more than one unit in Household Science will be accepted.

It is expected that Miss Pincomb will give the academy instruction in Household Science.

Very truly yours,

E. DAVENPORT.

BUDGET FOR THE YEAR 1909-10.

President James presented in part his budget for the year 1909-10 and some aspects of it were discussed, but there not being time to complete its consideration the whole was left for action at some future meeting.

To the Board of Trustees:

Your Committee on Agriculture, to which was referred the question as to the use of the funds appropriated to the department of Agronomy by the General Assembly, recommends that a portion of the money be used for the publication of results already ascertained in the soil survey of the State, instead of using all that can be devoted to this purpose for the extension of the survey.

FEES OF GRADUATE STUDENTS STUDYING IN ABSENTIA.

Upon recommendation of the dean of the Graduate School the fees of students studying in absentia were made \$24.00.

CADET UNIFORMS.

The report of the committee on awarding the contract for furnishing cadet uniforms for two years beginning Sept. 1, 1909, was received and ordered printed:

URBANA, ILL., June 14, 1909.

To the Board of Trustees, University of Illinois:

The committee "authorized to make a contract for furnishing uniforms for the University regiment for the two following years on receipt of a satisfactory bid and bond for the faithful performance of the contract," begs leave to report advertising for bids March 25th for the military uniforms for the ensuing two years commencing Sept. 15, 1909, the bids to be opened at 10:00 a. m., April 30, 1909.

The committee met at 10:00 a. m., April 30, 1909, in the office of the Commandant of Cadets; present, Professor S. W. Shattuck and Lieut. Col. E. G. Fechet, U. S. A.; absent, President E. J. James, and proceeded to open the bids in the presence of the bidders. An abstract of the bids with the original bids is attached hereto.

Only two bids received, although specifications were furnished on request to six or eight other firms.

From an examination of the papers mentioned it will be seen that the Pettibone Mfg. Co. of Cincinnati are the lowest bidders for the cadet uniforms, viz: \$14.50; while that of Mr. Kaufman is \$15.00.

In view of the following the board feel that the interests of the military department require that the bid of Mr. Kaufman should be accepted. Inasmuch as Mr. Kaufman has been the uniform contractor for our military department for the past nine years, and has given perfect satisfaction in every way, in quality of material, fit of garments and delivery within the specified time, gaining for the University the reputation of having the best uniformed corps of cadets among the land grant institutions of this country. This has been the consensus of opinion of the War Department inspectors for years past.

On the other hand the Pettibone Company had this contract for 1899-1900 and failed utterly in living up to the terms and specifications of their contract, both as to material and fit of garments. Their conduct at this time was such that for several years ensuing thereafter no attention was paid to their bids. They are known as manufacturers of cheap uniforms, and we do not believe that they can manufacture uniforms of the grade and standard required for the figures bid. In this matter it would be well to say that the junior member of this board has made a careful and exhaustive inquiry as to the cost of manufacturing uniforms of the grade demanded by our specifications. A statement in detail of the cost of material and manufacture amounting to \$13.66 is attached hereto. This, however, does not include the cost of transportation, collar clips and the cost of alterations. These items would add at least seventy-five cents to the cost of each suit, making a total of \$14.41. The statement of the cost of manufacture was submitted to the Messrs. Gulick of the Gulick Tailoring Company of Champaign who after carefully going into the subject assert that the figures are altogether too low, and express unhesitatingly their belief that the Pettibone Mfg. Company cannot handle the contract at their figures without loss, unless they lower the grade of material and make-up, and are able to get them accepted.

To give more emphasis to our contention we will say that the board is in possession of a letter of the M. C. Lilley & Co., one of the largest and most reliable manufacturers of uniforms in the United States, to the Gulick Tailoring Co., offering to make the University of Illinois uniforms for \$14.77 f. o. b. Columbus, net cash. To this amount would have to be added the distributors' commission, the cost of transportation, collar clips, and the cost of alterations, making a total, according to Messrs. Gulicks' estimate, of at least \$16.00.

Your committee felt that it would be unwise, if not detrimental, to change from a contractor who has given satisfaction for nine years to another who has been tried and found wanting, particularly where the difference is so small, and, after consulting with members of your board, awarded the contract to Mr. Kaufman, who on being advised of the acceptance of his bid completed a contract in accordance with the specifications required by this department (military). Mr. Kaufman also furnished a satisfactory bond, which with the original contract is now on file in the office of the secretary of the board.

S. W. SHATTUCK,
E. G. FECHET,
Committee.

PAYMENT OF HOSPITAL FEES.

The request of Clyde Conley for payment of hospital and surgical fees, amounting to \$31.00 in all, for medical treatment rendered necessary by an accident occurring in the performance of his duties at the

stables was approved and the money appropriated by the following vote: Yeas, Crebs, Blair, Abbott, Davison, Grout, Hatch and Moore and Mrs. Evans and Mrs. Busey; nays, none; absent, Governor Deneen, Mr. Meeker and Mrs. Bahrenburg.

EXCHANGE OF INSTRUCTORS.

The exchange of instructors for the year between Leland Stanford University and the University of Illinois by which Mr. Ponzer goes to Leland Stanford and Mr. Manning comes to the University of Illinois was authorized, each University to pay its own instructor.

FILLING VACANCIES.

The president was authorized to fill all vacancies according to the budget adopted and such as might occur because of resignation or declination.

FURNITURE.

The president was authorized to approve the purchase of furniture for Dean Clark's office, not to exceed \$400.00 in amount, by the following vote: Yeas, Crebs, Abbott, Davison, Grout and Moore and Mrs. Evans and Mrs. Busey; nays, none; absent, Governor Deneen, Messrs. Meeker, Blair and Hatch and Mrs. Bahrenburg.

The president of the University was also authorized to approve the request from the State Geological Survey for the furnishing of its new offices in the Natural History building, excluding items which belong under the head of scientific equipment rather than under the head of furniture.

MINING ENGINEERING DEPARTMENT.

The following proposition with regard to mining engineering prepared by Dean Goss was approved by the following vote: Yeas, Crebs, Abbott, Davison, Grout and Moore and Mrs. Evans and Mrs. Busey; nays, none; absent, Governor Deneen, Blair, Meeker, Hatch and Mrs. Bahrenburg.

URBANA, ILL., June 12, 1909.

President Edmund J. James, University of Illinois:

DEAR SIR—By an act of the Legislature the Trustees of the University of Illinois are "authorized and directed to establish in the College of Engineering at the University, a department of mining engineering," and the sum of \$7,500.00 per annum has been appropriated to carry out the purpose stated.

I recommend that the full sum appropriated be assigned to the purpose named, to be expended under the following conditions:

1. That the cost of the department in its specialized functions arising from salaries and other accounts, shall not exceed the amount appropriated.
2. That as a first step in the establishment of the department, there be appointed a professor of Mining Engineering at a salary of not less than \$3,000.00 nor more than \$4,000.00, and that later when courses shall have been arranged, there be appointed such instructors and assistants as may be needed, subject to the condition set forth in paragraph 1.

3. That the head of the department be given an opportunity to study with some care the requirements of the mining interests of the State before attempting to formulate a course in mining engineering.

4. That the course in mining engineering be made up of specialized subjects, to be administered by the mining engineering staff, and of subjects already offered by the several colleges of the University.

In explanation of these recommendations, I would say that if this general outline is approved, it will be my plan to announce at an early date the purpose of the trustees to establish a department of mining engineering, to define in general terms its scope, and to proceed with the several steps as rapidly as may be practicable, but with the understanding that a complete statement concerning courses might not become effective before the beginning of the second semester of the next school year. The fact that the course in mining engineering will not be expected to differentiate from existing courses until after the freshman year will permit the execution of such a plan without embarrassment to the prospective candidates of the course.

Respectfully submitted,

W. F. M. Goss,
Dean of the College of Engineering.

CERAMICS BUILDING.

The site of the new Ceramics building north of the Engineering Experiment Station and spanning the creek was approved and the Committee on Buildings and Grounds was authorized to proceed with the construction of the building, the cost to be charged against the special appropriation for ceramics, by the following vote: Yeas, Crebs, Abbott, Davison, Grout, Moore and Mrs. Evans and Mrs. Busey; nays, none; absent, Governor Deneen, Blair, Meeker and Hatch and Mrs. Bahrenburg.

NUTRITION INVESTIGATION.

The motion to approve the recommendation of Professor Grindley with regard to the publication of the results of the investigations and charge the same to the balance of the appropriations for the Veterinary College and Research Laboratory made by Mr. Grout and seconded by Governor Deneen just at the close of the meeting of June 24, 1909, and laid over for future consideration was then taken up.

Mrs. Busey moved that the question of using the appropriation in this way be referred to the Attorney General.

This motion was lost.

The original motion was then adopted by the following vote: Yeas, Crebs, Abbott, Davison, Grout, Moore and Mrs. Evans; present and not voting, Mrs. Busey; nays, none; absent, Governor Deneen, Meeker, Blair and Hatch and Mrs. Bahrenburg.

PROCEEDINGS
OF THE
BOARD OF TRUSTEES
OF THE
University of Illinois
FOR THE
YEAR ENDING AUGUST 31, 1910.

Meeting of September 14, 1909.

The quarterly meeting of the Board of Trustees, was by direction of the President of the board, Mr. W. L. Abbott, called to meet in Chicago at the Palmer House at 10:00 o'clock a. m., Tuesday, Sept. 14, 1909.

When the board met pursuant to the call, no quorum was present, and adjournment was taken to 10:00 o'clock, a. m., Sept. 21, 1909, at the Palmer House.

ADJOURNED SESSION, SEPTEMBER 21, 1909.

When the board met pursuant to adjournment there were present, Messrs. Abbott, Blair, Crebs, Davison, Hatch, Meeker and Mrs. Bahrenburg and Mrs. Evans; Mr. Moore came in a little later; absent, Governor Deneen, Mr. Grout, and Mrs. Busey. President James was present.

In the absence of the secretary, Mr. Pillsbury, who was detained attending to registration at the University, Mr. Blair was made secretary *pro tem*.

The minutes of the meetings of July 14, 1909, and July 21, 1909, were presented; the approval, however, was deferred until later.

REPORT OF COMMITTEE ON BUILDINGS AND GROUNDS.

To the Board of Trustees:

Your Committee on Buildings and Grounds begs leave to report that at a meeting of the committee held in Chicago, Aug. 27, 1909, at which there were present Mrs. Evans, Dr. Davison and Mr. Abbott, action was taken as follows:

NEW PLANT.

The supervising architect submitted recommendations that the contracts be entered into as follows:

Babcock & Wilcox Boiler Company, two 500 H. P. boilers	\$10,121 00
Alphonse Custodus Chimney Construction Co., radial brick chimney, ten feet in diameter by one hundred seventy-five feet high	7,615 00
V. Jobst & Son, heating Natural History Museum building	1,710 00
V. Jobst & Son, electric wiring and lighting fixtures for Natural History Museum building	995 50
Snead & Company Iron Works, book stack for Law School library	2,912 00

The committee approved the recommendations.

GYMNASIUM REPAIRS.

The supervising architect recommended that \$600.00 of the fund appropriated for repairs in the men's Gymnasium be used for the coping to the swimming tank. The committee authorized the supervising architect to make the expenditure.

CERAMICS BUILDING.

A letter from Professor Rolfe was read concerning the proposed Ceramics building. The letter stated that according to plans drawn by the supervising architect and approved by Professor Rolfe, the building would cost \$14,250.00, but as the department had only \$10,000.00, which it could well spare for the construction of the building, Professor Rolfe requested that the University appropriate \$4,250.00 from the general fund for this purpose.

The committee appreciates the importance of the work undertaken by the Ceramics department, and if the money could be spared would gladly recommend the appropriation from the general fund of a sufficient amount to erect the proposed building according to the original plans, but because of the smallness of the estimated budget surplus, such a large appropriation is not considered advisable.

The committee does, however, recommend that \$2,000.00 be appropriated for the above purpose, providing a sufficient amount of money can be spared from the ceramics fund to make up the necessary amount required to construct the building.

COAL CONTRACT.

Eight bids for the coal supply for the ensuing year were received, ranging in price from \$1.58 to \$1.20 a ton delivered in the University coal bunkers.

The most favorable bid was considered to be that of The Electric Coal Company at \$1.20 per ton, and that company was awarded the contract on the bases of \$1.10 per ton for coal delivered on the tracks at the boiler house; the University to do the unloading.

W. L. ABBOTT,
CHAS. DAVISON,
LAURA B. EVANS.

Mrs. Evans moved the adoption of the report.

After a statement by President James, the motion was amended to approve all the recommendations except the one relating to the Ceramics building.

The motion as amended was adopted by the following vote: Yeas, Messrs. Abbott, Blair, Crebs, Davison, Hatch, Meeker and Mrs. Bahrenburg and Mrs. Evans; nays, none; absent, Governor Deneen, Messrs. Grout and Moore, and Mrs. Busey.

Fourth—Howard V. Canter, associate in the classics for the term of two years beginning Sept. 1, 1909, at a salary of eighteen hundred dollars (\$1,800.00) in place of Dr. F. H. Allen, resigned.

Meeting of the Executive Committee.

A meeting of the Executive Committee of the Board of Trustees of the University of Illinois was held at the University the afternoon of Friday, Nov. 26, 1909.

The members of the committee present were Messrs. Abbott and Grout; absent, Mrs. Bahrenburg. Other members of the board present were Governor Deneen, Mr. Hatch, Mr. Moore and Mrs. Evans. President James was present and the State architect, W. Carlys Zimmerman.

Action was taken as follows:

PURCHASE OF FARM FOR HORTICULTURAL DEPARTMENT.

1. It appeared, after some informal discussion, that the sentiment of the members present was in favor of purchasing the so-called White farm for horticultural purposes. This farm is situated on the main

road just one-half mile east of the city limits of Olney, on what is known as the Vincennes and St. Louis road, in section thirty-six (36) and thirty-five (35), township four (4) north, range ten (10) east.

ADDITIONAL SHELVING IN THE LIBRARY.

2. In answer to an urgent request from the University librarian for additional shelving in the library, an appropriation of two thousand dollars (\$2,000) was made for this purpose.

3. Dr. W. J. MacNeal was appointed assistant professor of bacteriology in the University for one year, beginning Sept. 1, 1909, with no increase in his remuneration beyond that fixed at the time he was appointed assistant chief in the agricultural experiment station.

PAVEMENT ON FOURTH STREET.

4. The committee voted upon recommendation of the Committee on Buildings and Grounds in regard to a request from the city of Champaign concerning the pavement of a portion of Fourth street, along the west side of the University property, that nothing should be done in this matter until an appropriation be obtained from the Legislature to defray the expense of such pavement.

NEW UNIVERSITY HALL.

5. Mr. Zimmerman presented a plan for the new University hall, for which the sum of two hundred and fifty thousand dollars was granted by the General Assembly at its last session.

He made the following recommendations:

1. LOCATION. That the new building shall be located on the west side of Burrill avenue, south of the present woman's building, in such a way that the eastern facade shall face Burrill avenue, at a distance of 70 feet from the center line of Burrill avenue. The building shall be 230 feet, more or less, in length, with two wings 127 feet long from the front facade to the rear of the wings. The width of the wings shall be approximately 52 feet 4 inches, and the axis of the north wing shall coincide with the center line of the paved portion of Chalmers street prolonged.

This location leaves a space of approximately 140 feet between the north wall of the new University hall and the south wall of the present Woman's hall, and the distance from the southeast corner of the new hall to the nearest point of the Auditorium will be approximately 114 feet.

2. PLAN OF BUILDING. That the plan for the new building submitted by him at this meeting be approved. This is the third plan prepared by the State Architect in pursuance of the direction of the board, and it has been carefully worked over with the representatives of all the various interests to be housed in this building, and has finally been approved by Dean E. B. Greene of the College of Literature and Arts, and the supervising architect of the University.

The plan involves the expenditure of two hundred thousand dollars, more or less, in the erection of the building, including heating and lighting, and fifty thousand dollars, more or less, in the equipment and furnishing of the same, the whole not to exceed the sum of two hundred fifty thousand dollars granted for this purpose. The plan involves assigning the building, generally speaking, for the use of those departments in the College of Literature and Arts which are at present suffering greatly for lack of accommodation, especially in their advanced work, namely: English, Romance languages, Germanic languages, History, Economics, Political and Social Science, Philosophy and Psychology.

The building will include primarily seminary rooms, conference rooms, class rooms, study offices, with two museums in the attic of the building in the fourth story of the wings, one for archeology and the other for history.

The building will be provided with ample elevator and the grand stair case facing the entrance with the two stair cases, one in each wing, will provide ample facilities for the circulation of students.

3. NAME. That the name of Abraham Lincoln Hall be given to this building. The appropriation for this building was obtained during the centennial year of the birth of Abraham Lincoln. It will be a noble structure, and it would be quite proper to name the hall after him. The plan involves a handsome vestibule and entrance hall, which may very properly be planned and ornamented with reference to its being a memorial hall in honor of our great president.

Voted that the above recommendations of the State Architect be hereby approved and that he be directed to elaborate and submit working drawings as soon as possible.

The committee adjourned.

W. L. ABBOTT,

A. P. GROUT,

Executive Committee.

All the members of the Executive Committee were present, Messrs. Abbott and Grout, and Mrs. Bahrenburg. Another member of the board, Mr. Hatch, was present. President James was present.

1. Recommendation by W. C. Zimmerman, State Architect, that the contract for placing the ceiling lights in the vaulted portion of the museum room in the addition to the Natural History hall be let to L. J. Millet, lowest bidder, for the sum of \$480.00.

Said recommendation approved.

2. A report of the Engineering Committee was presented, recommending the appointment of Dr. Ernst Julius Berg as Professor of Elec-

trical Engineering and head of the Department of Electrical Engineering in the University of Illinois at a salary of \$4,000.00 per annum, for a term of three years. Said appointment to become effective as soon as Dr. Berg may report for duty at the University.

Said report was approved, and the appointment of Dr. Berg to said position was made.

3. A report of the Agricultural Committee was received, recommending the purchase of the A. V. White farm at Olney, for the purpose of agricultural experiments, on the terms indicated in the preliminary offer made by Mr. White.

Voted that the Executive Committee recommend to the Board of Trustees that this farm be purchased for said purpose.

4. A recommendation was presented from the supervising architect, that the sum of \$400.00 be appropriated for the purchase of book-cases to be placed behind the loan desk and in the former librarian's office, for the use of the University library.

Said recommendation was adopted.

MINING ENGINEERING.

5. A recommendation from the president of the University that the sum of \$15,000.00 granted by the last Legislature for the establishment and maintenance of the Department of Mining Engineering be hereby appropriated for said purpose, to be expended upon recommendations made by the Dean of the College of Engineering, and approved by the president of the University.

Said recommendation was adopted.

6. It was voted to fix George Huff's salary as director of Physical Training for the academic year beginning Sept. 1, 1909, at the sum of \$3,000.00.

7. It was voted to extend, beginning Feb. 7, 1910, the exemption from tuition in the Graduate school to members of the staffs of auxiliary bureaus and scientific stations connected with the University, who may be enrolled as regular students in the Graduate school.

8. The sum of not to exceed \$75.00 was appropriated for the purpose of procuring dies for the University gold medal, and the Military Commandant was authorized to procure such dies.

APPROPRIATION FOR FIREPROOF BOOK-STACK IN LAW BUILDING.

9. Money granted by the last Legislature for the construction and furnishing of a fireproof book-stack in the law building was appropriated for this purpose, and the comptroller was authorized to approve bills contracted for this purpose, approved by the supervising architect.

The committee adjourned.

PAVING OF FOURTH STREET.

Mr. Abbott read a communication from Mr. Odernheimer of Champaign, asking for a definite statement from the Board of Trustees with reference to the pavement of Fourth street in Champaign, along University grounds, and, on motion of Mr. Abbott, the following was adopted:

The board hereby declares its intention to ask of the next General Assembly an appropriation of \$5,740 for the purpose of defraying its part in the paving of Fourth street along the University grounds provided an assessment for said paving has already been made and approved and the contract let therefor.

REPORT OF COMMITTEE ON BUILDINGS AND GROUNDS.

To the Board of Trustees of the University of Illinois:

Your committee begs leave to make this report of a meeting held at the University at 10:00 o'clock a. m., Nov. 13, 1909:

A communication from the Urbana city council regarding a site and building for fire station was considered.

Professor J. W. Garner, alderman, member of the Urbana city council, appeared to discuss this subject. It appeared from a preliminary estimate that an adequate site and building, if purchased and constructed outside of the campus, might cost upwards of eight thousand dollars, and the operating expenses around two thousand dollars per annum.

Alderman Garner did not think that the city council of Urbana would be likely to favor any large expenditure for this purpose. After some further discussion it was suggested that Alderman Garner find out exactly what equipment should be placed in such a fire station and how much the city council of Urbana would be willing to expend for this purpose, and report later.

In the afternoon Alderman Garner, and W. H. Roughton, head of the fire department of the city of Urbana, appeared and discussed the subject fully with the committee. They stated that the city council of Urbana would be willing to place one machine, one team of horses, and one man in such a house to be provided by the University upon a site provided by the University, and that they would undertake to have two members of the volunteer fire company connected with this station.

After further discussion it was decided to make no recommendation on this matter at the present time.

The superintendent of buildings, Joseph A. Morrow, reported that the Electric Coal Company, which furnished coal to the University during the past year had failed to furnish coal up to the grade required in the contract, and that according to a provision of this contract the sum of \$734.33 would be deducted from the bill rendered. It appears that the quality of the coal was in some respects above the grade required. The committee voted to recommend to the board that an allowance be made for superior quality on the one hand and a deduction made on account of excessive ash on the other, so that the total reduction be reduced by \$212.57 for superior quality, making a net deduction of \$521.76.

Professor J. C. Blair proposed that authority be given to the horticultural department to sell the surplus flowers of the department on terms most advantageous to the University.

After considerable discussion it was suggested that the matter be presented by the President of the University to the Board of Trustees in the form of a definite recommendation.

Supervising architect J. M. White presented the matter of giving to the Champaign and Urbana Water Company a right of way across the campus back of the auditorium.

Voted that the supervising architect should make the best preliminary agreement possible with the Champaign and Urbana Water Company and submit the contract to the University counsel for his approval.

Upon the recommendation of supervising architect J. M. White, it was voted to recommend to the board that the sum of \$170.00 be voted for lightning protection on the Physics building, and \$150.00 for the Natural History building, and also \$157.00 for lightning rods on the new stack to be constructed in connection with the new heating plant.

Respectfully submitted,
W. L. ABBOTT,
CHARLES DAVISON,
LAURA B. EVANS,
FRED L. HATCH,

Committee.

The report of the committee was adopted by the following vote: Yeas, Messrs. Abbott, Crebs, Grout, Hatch and Moore, and Mrs. Busey and Mrs. Evans; nays, none; absent, Governor Deneen, Messrs. Blair, Davison and Meeker and Mrs. Alexander-Bahrenburg.

PURCHASE OF WHITE FARM.

The proposition to purchase the White farm, near Olney, for the use of the Horticultural department of the University (see page 470 of the minutes) was considered.

At a meeting of the Horticultural Advisory Committee, held on July 29, 1909, in the Baltimore and Ohio Southwestern railway station of the city of Olney, those present being Messrs. Jolly, Perine, Graham and Tanner, it was voted unanimously to recommend to the Board of Trustees of the University of Illinois the purchase of the so-called White farm, about one and one-half miles east of Olney, containing seventy-six acres, more or less, at a maximum price of sixty-five dollars (\$65) per acre, for a permanent experimental farm.

This farm is owned by A. J. White, and is situated on the main road from the city of Olney, one-half mile east of the city limits of the city of Olney, one and one-half mile east of the court house in Olney, on what is known as the Vincennes and St. Louis state road.

The following is the description of the tract:

The west half ($\frac{1}{2}$) of the southwest quarter ($\frac{1}{4}$) (except the ten (10) acres out of northeast corner), section thirty-six (36). Also a certain piece of land commencing at a point 12 chains south of northwest corner of east half ($\frac{1}{2}$) of southwest quarter ($\frac{1}{4}$) of section thirty-six (36); township four (4) north, range ten (10) east; thence south 28 chains and 19 links; thence east 4 chains and 26 links; thence north 28 chains and 19 links; thence west 4 chains and 26 links, and containing 12 acres. Also a certain other parcel of land beginning at northeast corner of southeast quarter of section 35, township four (4) north, range ten (10) east; thence running south 40 chains to township line; then west one chain; then north 40 chains; thence east one (1) chain to place of beginning, containing 4 acres and containing in all 86 acres more or less (except a certain piece of land conveyed to Henry M. Leathers in the northwest corner of said land, being 11 acres more or less, and recorded in Deed Record 51, page 12).

It is proposed to charge the purchase price to the horticultural fund granted by the last Legislature.

The recommendation of the Advisory Committee had been approved by the department of horticulture and by the director of the experiment station.

The matter had been considered by the Committee on Agriculture of the Board of Trustees, which recommends its purchase; and it had also been recommended by the Executive Committee of the board.

On motion of Mr. Grout and by the following vote, the executive officers of the University were authorized to conclude the purchase, if advised so to do by the chairman of the Committee on Agriculture: Yeas, Messrs. Abbott, Crebs, Grout and Moore, and Mrs. Busey and Mrs. Evans; nay, Mr. Hatch; absent, Governor Deneen, Messrs. Blair, Davison and Meeker, and Mrs. Alexander-Bahrenburg.

Yours very truly,

THE AUDIT COMPANY OF ILLINOIS,

By C. W. KNISELY, C. P. A.,

President.

Mr. Albert P. Grout, Chairman, Finance Committee, University of Illinois:

DEAR SIR—We have made our regular quarterly audit of the books and records of account of the University of Illinois for the first quarter (ended Sept. 30, 1909) of the fiscal year, and submit herewith our report thereon, together with the appended exhibits and schedules, showing the receipts and disbursements in detail.

We reconciled the chief clerk's cash account on the morning of Nov. 8, 1909, proved the cash-book footings from Aug. 23 to Nov. 8, 1909, verified the cash in office by count, examined and proved the footings of checks listed for deposit, and the approved paid and receipted bills and invoices in process of entry. We obtained a certificate from the First National Bank of Champaign, certifying to the balance of cash on deposit to the chief clerk's credit, at the beginning of business, Nov. 8, 1909, the balance being \$10,309.85.

The following statement illustrates the cash transactions of the chief clerk from Aug. 23 to Nov. 8, 1909, as represented by the books, and shows the balance on hand, in bank, and in office.

We examined all vouchers for disbursements made during the quarter, and found all on file except number 416 (C. Rayburn, \$11.39 for milk); all were properly receipted, and all approved by the comptroller. We compared the vouchers with the sums entered in the various warrant registers, and found all correctly entered. To further verify the correctness of the vouchers paid, we tested the extensions and additions of many, and found all computations correct and as recorded.

We compared the journal entries made from the various warrant register footings, at the close of the quarter, compared the postings with the ledger entries, and found all correct. We proved the balances in the ledger and drew off a trial balance as at Sept. 30, 1909, as illustrated by Schedule 10.

Of the missing vouchers reported as at June 30, 1909, all have been accounted for except number 14682 (J. H. Nelson, \$30.00 salary).

In our report on the audit of the quarter ended Dec. 31, 1908, we reported uncollected fees for the first and second semesters of 1907-1908 amounting to \$2,386.10.

Total collected.....		\$115 24
Balance of fees due from 1907-1908.....		\$2,270 86

We compared all warrants paid during the quarter year with the list submitted to the secretary; we also obtained from the assistant cashier of the State Bank of Chicago a certificate as to the balance of cash on hand to the credit of the treasurer at the close of business Sept. 30, 1909, viz.: \$610,173.49 (which sum agrees with the credit balance as reported by the treasurer in his report to the board Sept. 30, 1909).

The following statement is a reconciliation of the treasurer's account with the books of the University at the close of business Sept. 30, 1909:

MATTERS PRESENTED BY PRESIDENT JAMES.

The president of the University presented the following matters for consideration.

IMPORTATION OF CHEMICALS.

1. A request from Prof. W. A. Noyes, head of the Chemical Department, asking for authority to place an order for the importation of chemicals and apparatus for the year 1910-11, for the use of the University of Illinois, to an amount not exceeding \$10,000.00.

The order will be placed sometime during the next two or three months, but the goods are to be paid for from the appropriation for the year 1910-11. It is necessary to place these orders many months in advance in order to

have the goods here in time for the beginning of the work in the autumn. Corresponding orders placed during the past year amounted to about \$9,000.00.

Authority to place the order was given by the following vote: Yeas, Messrs. Abbott, Crebs, Grout, Hatch and Moore, and Mrs. Busey and Mrs. Evans; nays, none; absent, Governor Deneen, Messrs. Blair, Davison and Meeker, and Mrs. Alexander-Bahrenburg.

BLUE PRINTING.

2. A request from Prof. S. W. Parr in charge of the Department of Blue Printing and Photography for an appropriation of \$1,500.00 for the use of the said department, to be paid from the current receipts turned in to the University from the sale of photographic and blue print material.

Accompanying this is a statement of the receipts and expenditures of the Blue Print Department for the year ending June 30, 1909, and an estimate of the same for the year ending July 1, 1910:

CHEMICAL LABORATORY, Dec. 13, 1909.

Dr. Edmund J. James, President of the University of Illinois:

DEAR PRESIDENT JAMES—I enclose herewith Exhibit "A," being a statement of the receipts and expenditures for the year 1908-1909; and Exhibit "B," being an estimated statement of the cost for the year 1909-1910.

Under Exhibit "A" I may call your attention to the fact that Mr. Gearhart was on appointment by the board, and, therefore, his wages did not come out of the receipts of the Photographic Department. The account balance, therefore, turned in by the department was sufficient to pay this salary with the exception of \$16.95, shown as an item of deficit. I may say further that the bills outstanding and in process of collection on July 1, 1909, in favor of the Photographic Department amounted to \$625.00. Doubtless a somewhat similar amount remained outstanding at the beginning of the year, July 1, 1908, hence Exhibit "A," I take it, is a fair representation of the receipts and expenditures for that year.

As I understand it, the board desires all funds turned into the University treasury, and re-appropriated for the work of this department. It is the plan, as indicated under Exhibit "B," to pay all wages by monthly pay roll instead of being an annual appointment, as was the case with Mr. Gearhart. For the current months, the cost of labor has averaged \$175.00 a month, and this will increase slightly for the remainder of the year, making a labor cost of \$2,250.00. In order to meet this item, together with the cost of materials, moving into the new quarters, etc., the appropriation for the current funds of this department is asked for as indicated in my letter of December 10th, amounting to \$1,500.00.

Very respectfully yours,

S. W. PARR,

Professor of Applied Chemistry.

The Committee on Buildings and Grounds was authorized to accept the addition to the Natural History building and the Physics building from V. Jobst & Sons, when satisfied that the jobs were completed in accordance with contracts therefor.

It was also voted that \$28,000 of the 15 per cent on these contracts might now be paid to the contractors.

The board adjourned.

COLLEGE OF MEDICINE.

The president of the University presented the following papers:

1. A copy of a letter from the president of the University, dated Jan. 17, 1910, to Dr. William E. Quine, dean of the University Medical School, appended to which is a copy of a letter received from N. P. Colwell, secretary of the Council on Medical Education of the American Medical Association, dated Jan. 15, 1910.

URBANA-CHAMPAIGN, ILL., Jan. 17, 1910.

Dr. Wm. E. Quine, 103 State street, Chicago, Illinois:

MY DEAR DOCTOR—I am inclosing a copy of a letter received from Mr. Colwell. It explains itself.

Faithfully yours,

EDMUND J. JAMES.

P. S.—I wish you would lay this communication before the executive faculty of the medical school and ask them what will be their recommendations as to these three points: First, entrance requirements in regard to which I think we have come to an understanding; second, admitting students to advanced standing from low grade medical schools; third, participation of members of the faculty of the P. and S. in instruction in low grade medical schools.

E. J. J.

[COPY.]

355 DEARBORN AVENUE, CHICAGO, Jan. 15, 1910.

President Edmund J. James, University of Illinois, Urbana, Illinois:

DEAR SIR—At our next conference to be held at the Congress Hotel Annex, Monday, Feb. 28, 1910, the Council on Medical Education expects to present a report showing which medical colleges of the United States and Canada are acceptable and which are not acceptable. After a very careful investigation of the College of Physicians and Surgeons of Chicago, we regret to find among other things three main defects which we feel are of too serious a nature to permit us to include that college in our acceptable list. We are writing you about these points, hoping that there may be some way to have them corrected.

The first defect is an apparent non-enforcement of entrance requirements, which matter, however, we understand you have already taken up with the college. The second defect is that advanced standing is sometimes granted for work done in low grade medical schools, which is hardly consistent with University standards, and which is a discrimination against the college's own full-course students. The third and most serious defect, however, is that six members of the faculty of the College of Physicians and Surgeons are also on the faculty of the Jenner Medical College, a night school, and one of the five or six lowest grade and poorest equipped medical colleges in the United States. Some of these men are among those who are in chief control of the latter institution, and who are therefore responsible for its existence. We feel that such conditions are not in accordance with the best interests of medical education. We cannot believe that the faculty

of the college has full knowledge of these defects, since to our knowledge it contains a large number of men of high ideals who hold prominent places among educators and who, we feel sure, would heartily support you in any effort to bring about better conditions.

Knowing your personal interest in higher educational standards we are writing you frankly about these matters, since it is our desire to aid in any way we can in the building up of our medical schools. We very much hope to receive the assurance that the defects alluded to will be corrected, whereupon we would be enabled to continue the college in our list of acceptable schools.

Awaiting with interest your reply and with best wishes, we are,

Yours very sincerely,

COUNCIL ON MEDICAL EDUCATION,

Per N. P. COLWELL,

Secretary.

2. Copy of a letter dated Jan. 27, 1910, from the president of the University to Dr. William E. Quine, dean of the University School.

[COPY.]

URBANA-CHAMPAIGN, ILL., Jan. 27, 1910.

Dr. Wm. E. Quine, 103 State street, Chicago, Illinois:

MY DEAR DOCTOR QUINE—I have received the notice of the meeting of the executive faculty of the medical school to be held tomorrow evening.

I am very sorry that I do not feel quite well enough to undertake the trip to Chicago. I should have been glad to meet with the executive faculty on this occasion, for I feel that you have before you some extremely important matters which call for very careful deliberation and perhaps heroic action at one or two points. I wish you would submit the following communications to the executive faculty, read the same and have them fully discussed.

1. The following extracts from a letter just received by me from President Henry S. Pritchett of the Carnegie Foundation, dated Jan. 24, 1910.

[COPY.]

"DEAR PRESIDENT JAMES—Since seeing you I have had the medical department of the University re-examined, and with one small and unimportant exception this re-examination confirms the facts brought out by the first, and the dean of the school was quite willing to admit this. * * * I hope to show you that we are willing to go to every possible exertion to do full justice to the University of Illinois in this matter. At the same time I am bound to say that as the situation now stands it seems to me that the University of Illinois is injuring medical education in the State, not helping it, by the continuance of its medical school.

"Very sincerely yours,

HENRY S. PRITCHETT."

This indicates in a general way what the present attitude of the foundation is on the subject of the medical school of the University of Illinois.

2. The report of the Carnegie Foundation upon the medical school, a copy of which I sent you sometime ago, and which I presume you have in your files.

It is a very severe criticism upon the school, and although it is in some respects incorrect, yet with these minor corrections, the foundation will undoubtedly stand by its criticisms.

3. The letter from the council on medical education of the American Medical Association, received from the secretary, a copy of which was sent you, and an additional copy of which I am inclosing, calling attention to three defects in the College, which will not permit the American Medical Association to include the college in its acceptable list.

In this they think that, first, we do not enforce strictly our preliminary requirements; second, advanced standing is granted for work done in low grade medical schools; and, third, members of the University faculty teach in low grade schools.

4. I have received an informal notice which I presume will be followed by a formal notice, that the present attitude of the University Medical School is not satisfactory to the Association of American Medical Colleges on the ground that its standards are decidedly lower than those set as the minimum which ought to be accepted by that association.

All these things point to the fact that the medical school of the University will have some difficulty in making good its claim to rank among the good medical schools of the country.

It would seem as if something ought to be done in the premises.

You will remember also that the Board of Trustees last year asked the medical faculty to make in its next budget more ample provision for the underlying scientific work of the college, including better teaching in the first two years of the course, better facilities, and the employment of a larger teaching force.

I think the medical faculty will recognize that all these things taken together point to a very serious condition indeed with which this faculty ought to wrestle in earnest.

It is quite certain that in the long run the University cannot accede to a standard in the medical department which is distinctly lower than that insisted upon by the average run of good medical schools in the country, and of course it is desirable that it should stand in the front rank of the better medical schools and not at the lower end.

I have also received an inquiry from the Association of American Medical Colleges as to the standard of admission which the University is going to insist upon in its medical school. They say that they received notice from the medical college that beginning in the autumn of 1910 a year's additional work would be required over and above the completion of a high school course, but that they have heard lately from some source that the medical college does not propose to carry out the promise made at that time.

I find that the last announcement on this subject in the University catalog, the register for 1908-09, page 180, is to the effect that beginning with the session of 1910, one year of nine months of college work will be required, consisting of chemistry, biology, physics and modern language, preferably German, in addition to the high school diploma.

This action of the faculty has been in effect approved by the Board of Trustees. I know of no action rescinding this rule, which has been approved by the board. What is the fact in the case?

It would seem that we ought to advance at least to this standard since the other university medical schools, Michigan, Wisconsin and Minnesota require two years.

Faithfully yours,

EDMUND J. JAMES.

3. Copy of a letter received by the President of the University from Dr. William E. Quine, dean of the Medical College of the University of Illinois, dated Jan. 29, 1910, as follows:

Jan. 29, 1910.

President E. J. James:

DEAR SIR—Our executive faculty has voted to recommend to the trustees that henceforth every applicant for admission to the College of Medicine be required to furnish proof of a satisfactory high school education; that no credits be accepted from colleges of inferior standing; and that no member of the teaching force of the College of Medicine be permitted connection with any other institution. Your demand that better teachers and more of them and better equipment be furnished for the freshman and sophomore courses of instruction has been referred to the Committee of University Relations, (Pusey, chairman) and you will be informed in due time of the action taken by the faculty on this question.

It is my opinion the College of Medicine ceased to be self-supporting last night and that it will never be self-supporting again.

In my opinion the college cannot furnish better teachers and more of them and better equipment, out of its earnings.

It has already gone beyond its powers in trying to satisfy the demands of the University.

Courteously yours,

WM. E. QUINE.

4. Recommendation that the Board of Trustees approve the recommendations of the executive faculty as follows:

First—That no person shall be admitted as a freshman to the Medical College of the University of Illinois, who shall not have completed the curriculum of an accredited high school with the standard four years course, or have obtained an equivalent education, and who shall not also have presented sufficient evidence either by satisfactory certificate or by examination that he has completed fifteen units of acceptable preparatory work.

The question whether the additional requirements which were set by the action of the faculty of the Medical College, dated May 1, 1908, as to be demanded in September, 1910, shall be insisted upon or not, and if so when, will be left open for further consideration.

Second—That no person shall be admitted to advanced standing in the Medical College of the University of Illinois who shall not present satisfactory evidence that he had completed the fifteen units of acceptable preparatory work before he began the medical study for which he wishes to receive advanced credit.

Third—That the Registrar of the University shall supervise the admission of students to the Medical College, and secure the strict enforcement of the above regulations.

Fourth—That no student shall be admitted to advanced standing in the Medical College upon the basis of credits received in colleges of inferior standing.

Fifth—That no member of the teaching force of the Medical College of the University of Illinois shall be connected with any other medical school.

The foregoing recommendations were adopted.

Sixth—Correspondence regarding a requirement of one year of college work for admission.

[COPY.]

URBANA-CHAMPAIGN, ILL., Nov. 23, 1909.

Dr. F. B. Earle, Secretary, 903 Monroe St., Chicago, Illinois:

MY DEAR DOCTOR—Will you kindly send me by return mail a copy of the action taken by the executive faculty of the Medical School of the University of Illinois by which they required, beginning in the autumn of 1910, one year's work in college as a condition of admission to the medical school?

Kindly give me an exact transcript, with date, etc., of the passage of this resolution, and let me have it if possible by return mail.

Faithfully yours,

EDMUND J. JAMES.

COLLEGE OF PHYSICIANS AND SURGEONS,

CONGRESS AND HONORE STS.

CHICAGO, Nov. 24, 1909.

Dr. Edmund J. James, President University of Illinois, Urbana, Illinois:

In reply to your letter received today, I beg leave to quote the following, from the minutes of the executive faculty of the College of Physicians and Surgeons held May 1, 1908.

DR. C. S. WILLIAMSON,
Secretary.

"REPORT OF THE COMMITTEE ON COLLEGE POLICY.

[COPY.]

May 1, 1908.

Dr. C. S. Williamson, Secretary:

The Committee on College Policy begs leave to submit the following report:

The committee has held several meetings by itself and with Dr. Bevan, chairman of the Committee on Medical Education of the American Medical Association. After giving the subject most extended and careful consideration—the committee was unanimous in recommending to the executive faculty the following resolution.

1. *Resolved*, That on and after the session 1910-1911, the College of Physicians and Surgeons require, in addition to the four year high school course, one year of nine months of college work, consisting of Chemistry, Physics, Biology, Modern Languages, preferably German, for admission to the freshman year. The intent is to bring the admission requisites of the College of Physicians and Surgeons into harmony with the plan recommended by the Committee of Medical Education of the American Medical Association and adopted by most of the important medical colleges of the United States."

The foregoing action was rescinded by the executive faculty of the College of Physicians and Surgeons, at their annual meeting in May, 1909.

Yours very truly,

FRANK B. EARLE,
Secretary.

Meeting of March 8, 1910.

The annual meeting of the Board of Trustees of the University of Illinois was called to meet at the Beardsley hotel in Champaign, Ill., at 8:00 o'clock p. m., March 8, 1910.

When the board met pursuant to the call the members present were Mrs. Busey and Mrs. Evans.

There being no quorum present, the board adjourned to meet at the University at 10:00 o'clock a. m., Wednesday, March 9, 1910.

SESSION OF WEDNESDAY, MARCH 9, 1910.

When the board met pursuant to adjournment, the following members were present: Messrs. Abbott, Davison, Grout, Hatch and Moore, and Mrs. Busey and Mrs. Evans; absent, Governor Deneen and Messrs. Blair, Crebs and Meeker, and Mrs. Bahrenburg. President James was present.

The secretary presented the minutes of the regular meeting of Dec. 14, 1909, and the special meeting of Feb. 13, 1910.

These minutes were approved as presented.

ELECTION OF OFFICERS.

The election of officers of the board for the ensuing year being in order, Mrs. Evans nominated for president Dr. Davison. Dr. Davison declined the nomination and nominated Mr. Abbott, who was elected.

On motion of Mrs. Evans, Mr. W. L. Pillsbury was elected secretary of the Board of Trustees and registrar of the University for the ensuing year.

For the two members, who with the president of the board should constitute the Executive Committee, Messrs. Grout, Hatch and Moore, and Mrs. Bahrenburg were put in nomination. A ballot, each member voting for two persons, resulted in the election of Messrs. Grout and Hatch.

On motion of Mrs. Busey, Professor S. W. Shattuck was elected comptroller.

On motion of Mrs. Evans, Mr. O. E. Staples was elected chief clerk, and by the following vote the Committee on Finance was instructed to secure for the chief clerk a satisfactory bond and money to pay for

same was appropriated: Yeas, Messrs. Abbott, Davison, Grout, Hatch and Moore, and Mrs. Busey and Mrs. Evans; absent, Governor Deneen, Messrs. Blair, Crebs and Meeker, and Mrs. Bahrenburg.

Meetings of the Executive Committee

Mr. Abbott, chairman of the Executive Committee, presented reports of meetings held as follows by the committee:

Dec. 14, 1909, printed with the minutes of the meeting of that date.

Feb. 3, 1910, printed with the minutes of that date.

Feb. 25, 1910, as follows:

To the Board of Trustees of the University of Illinois:

Your Executive Committee begs leave to report that it held a meeting at the University, Feb. 25, 1910, at which all members of the Committee were present.

SETTLEMENT WITH COAL COMPANY.

Mr. Abbott, chairman of the Committee on Buildings, presented the following report from that committee:

To the Executive Committee of the Board of Trustees, University of Illinois:

The Electric Coal Company, of Danville, which had the contract for supplying the University with coal last year, and has the contract for the present year, has not accepted the settlement of the last year's account which the board authorized, viz, the deduction of \$5,76, because of the coal failing in some ways to come up to the contract specifications.

The Coal Company questions the accuracy of our sampling, and in December of last year a different method of sampling was adopted, which showed an apparent change in favor of the Coal Company of about 2½ per cent, and this, applied to last year's business, would just about wipe out the deduction which the Buildings and Grounds Committee recommended, and which the board authorized.

In view of all the circumstances in the case, the Buildings and Grounds Committee is of the opinion that it would be policy to allow the Coal Company the benefit of the doubt and authorize the payment in full of their last year's bill.

Very truly yours,

W. L. ABBOTT,

Chairman.

Mr. Grout moved that payment be made to the Electric Coal Company of Danville, in accordance with the foregoing, and the motion prevailed, Mrs. Bahrenburg voting no.

SETTLEMENT WITH V. JOBST & SON.

After listening to a statement by Professor J. M. White, supervising architect, to the effect that the contracts for the erection of the Physics building, and for the addition to the Natural History building, were very nearly completed, on motion of Mrs. Bahrenburg it was recommended that the contractors be paid, with the approval of the Buildings and Grounds Committee, \$20,000.

The committee adjourned.

W. L. PILLSBURY,
Clerk.

W. L. ABBOTT,
Chairman.

March 3, 1910, as follows:

March 9, 1910.

To the Board of Trustees of the University of Illinois:

Your Executive Committee begs leave to report that on March 3, President James, finding that there would be no board meeting on that date, advised the chairman of the Executive Committee that President Taft had offered to Dr. David Kinley an appointment as a member of the Pan American Conference to be held at Buenos Ayres during the coming summer and fall. President James recommended that Dr. Kinley be permitted to accept the appointment and be given a leave of absence from June 1 to November 1, 1910.

As immediate action was necessary to secure the appointment for Dr. Kinley, the other members of the Executive Committee were communicated with by telegraph with the result that the recommendation of President James was concurred in.

W. L. ABBOTT,
Chairman.

REPORT OF THE COMMITTEE ON BUILDINGS AND GROUNDS.

URBANA, ILL., Feb. 25, 1910.

To the Board of Trustees, University of Illinois:

At a meeting of the Committee on Buildings and Grounds held at the University this day, Dr. Carman submitted a statement of the accounts of the Physics building, showing a balance of \$18,416.09, subject to the jurisdiction of the Buildings and Grounds Committee, and recommended that \$6,400.00 be reserved for completion of the structure and embellishment of the same under the direction of the supervising architect; and that \$12,000.00 of the remainder be appropriated at this time for appliances, apparatus, fittings, furnishings and equipment; to be expended under the direction of the head of the Department of Physics, and with the approval of the dean of the College of Engineering.

The above appropriations are available over and above all requisitions and items which have been ordered in accordance with previous appropriations.

The Buildings and Grounds Committee concurs in this recommendation, and further recommends that the previous appropriations on account of the State Physics Building appropriation, over and above the amounts for which requisitions have already been drawn, shall be cancelled.

The report of the comptroller under date of Feb. 2, 1910, shows expenditures on account of the State Natural History Building appropriation, authorized and paid to date, amounting to \$149,081.71.

The Buildings and Grounds Committee directs that all outstanding obligations for furniture, over and above the \$10,000.00 appropriation for same, shall be charged against the proper departmental accounts, with the understanding that there is a sufficient balance in the State appropriation to take care of the building accounts.

Appropriations for the Museum addition to date have amounted to \$27,823.50.

In addition thereto, liabilities have been incurred as follows:

Building window frames so that curtains could be put up for darkening the room.....	\$ 41 00
Pointing the east wall of the building with red mortar.....	45 00
Partition in basement (Dr. Burrill's instructions of Oct. 26, 1909) ..	37 00
Blackboard moldings.....	8 25
Curtains for darkening room.....	104 00
Blackboards, chart racks, demonstration desk and its furnishings..	485 38

Total \$720 63

The Buildings and Grounds Committee recommends that an appropriation be made to cover the amount of the foregoing items.

The supervising architect recommended the acceptance of the Natural History building and the Museum addition to same from the contractors, and that the comptroller and supervising architect be authorized to make final settlement, subject to the filing by the contractors of the necessary surety bonds to protect the University, as provided for in their contract.

The Buildings and Grounds Committee direct the acceptance of the buildings, and the making of a final settlement as recommended by the supervising architect.

The supervising architect recommended that the Physics building be accepted from the contractors and that they be paid from the balances due on all three contracts, an amount aggregating \$20,000.00 at the present time; and that the comptroller and supervising architect be authorized to make the final settlement whenever the building shall have been completed in all its details; the necessary surety bonds filed in accordance with the terms of the contract, and all settlements shall have been effected with sub-contractors.

The Buildings and Grounds Committee direct the acceptance of the building, and the making of a final settlement as recommended by the supervising architect.

On motion of Mr. Abbott and by the following vote the committee report was adopted: Yeas, Messrs. Abbott, Davison, Grout, Hatch and Moore, and Mrs. Busey and Mrs. Evans; nays, none; absent, Governor Deneen, Messrs. Blair, Crebs and Meeker and Mrs. Bahrenburg.

ABRAHAM LINCOLN HALL.

Mr. Abbott presented the following letter from the State Architect, Mr. Zimmerman:

CHICAGO, March 8, 1910.

Mr. W. L. Abbott, President, Board of Trustees, University of Illinois, Urbana, Ill.:

DEAR SIR—Referring to the contractor's competition for the building of the new Abraham Lincoln hall at the University, beg to say that twenty-one contracting firms applied for plans and specifications, and that eleven of these submitted bids for the work, varying in amounts from \$306,000.00 to \$275,536.00. Certain alternates asked for brought this lowest bid down to about \$233,000.00, which is \$33,000.00 more than the amount allowed out of the appropriation for building purposes. It appears that there is a possibility of still further cutting the cost of the building to somewhere near the amount appropriated for it by making further changes in the type of construction and character of the building. Unless you direct otherwise, I will ask those contractors who figured the work to submit revised estimates on these further changes. It will take two or three days to prepare revised plans and specifications and the contractors should be allowed about eight days to figure the work.

Respectfully,

W. CARBYS ZIMMERMAN.

After some discussion of this letter, further consideration was deferred until afternoon, in order that Dr. Greene, Dean of the College of Literature and Arts, and Dr. Kinley, Dean of the Graduate school might be heard with regard to the amount of money needed for the equipment of the building.

COLLEGE OF MEDICINE.

President James presented some matters with relation to the College of Medicine, and a discussion followed.

The board then took a recess until half past one o'clock.

Afternoon Session, Wednesday, March 9, 1910.

When the board met after the recess, the same members present as during the morning.

Dr. Green and Dr. Kinley were heard, as proposed at the morning session, and supervising architect, Professor White, presented a schedule of expenditures that must be made in order to complete the building ready for occupancy.

On motion of Mr. Grout it was voted that the State Architect be told that for the building complete, including items in the schedule, \$205,000 were available.

President James and President Abbott were appointed a committee to consider the whole matter with Mr. Zimmerman.

COMPTROLLER'S REPORT.

The comptroller presented his report which was referred to the Finance Committee.

7. A report of progress from Professor H. S. Grindley, head of the research laboratory, upon the nutrition investigations now proceeding in the laboratory.

UNIVERSITY OF ILLINOIS, March 8, 1910.

President Edmund J. James, University of Illinois:

DEAR PRESIDENT JAMES—I wish hereby to report progress in the work of the Nutrition Investigations of this Laboratory. The report of the saltpeter investigation has been pushed as rapidly as possible, so that at present we have 2,780 pages of manuscript, including tables, charts, diagrams, etc. The labor involved in attempting correctly and logically to arrange and discuss these experimental data, amounting to 1,850 printed pages (10x6 $\frac{7}{8}$ in.), is proving to be enormous. We have found it necessary to have the advice of Dr. Rietz of the Department of Mathematics in interpreting our results from the statistical standpoint.

The first copy of the manuscript of the first four volumes of the report has been prepared while the manuscript of the first volume is now being typewritten for the last time. It is probable that this first volume will be approved by the commission and placed in the hands of the printers by May 1st.

The results of this investigation are proving, upon continued study, to be more extensive and of greater fundamental importance to this field of research than was at first anticipated. We have published up to the present time sixteen papers based upon the data obtained from this saltpeter investigation. I enclose herewith the titles of these publications. In addition, since Sept., 1907, twenty-two other papers have been published from this laboratory. At present our editorial force is not sufficient in number and capacity to prepare promptly and accurately for publication the large mass of experimental data that we have on hand.

Yours very truly,

H. S. GRINDLEY.

Comptroller.

Appropriations were made as requested by the comptroller and by the following vote: Yeas, Messrs. Abbott, Davison, Grout, Hatch Moore, and Mrs. Bahrenburg, Mrs. Busey and Mrs. Evans; nays, none; absent, Governor Deneen, Messrs. Blair, Crebs and Meeker.

THE RELATION OF THE UNIVERSITY TO THE COLLEGE OF PHYSICIANS AND SURGEONS.

On the evening of Tuesday, April 12, 1910, an informal conference was held between the members of the Board of Trustees of the University of Illinois and the members of the Board of Directors of the College of Physicians and Surgeons at the La Salle Hotel in Chicago. There were present from the Board of Trustees of the University of Illinois, Messrs. Abbott, Grout, Davison, Blair, Hatch, and Mrs. Evans. From the Board of Directors of the College of Physicians and Surgeons, Messrs. Steele, Byford, Bacon, King, Pusey and Davis. The president of the University was also present.

After a full discussion of the present situation, a joint committee was appointed consisting of the president of the Board of Trustees of the University of Illinois, Mr. W. L. Abbott, and Dr. D. A. K. Steele of the College of Physicians and Surgeons, with such other members as these two should appoint.

Subsequently Messrs. Hatch and Davison of the Board of Trustees of the University of Illinois, and Messrs. Pusey and Quine of the Board of Directors of the College of Physicians were appointed on said committee.

After various conferences this joint committee succeeded in coming to a tentative agreement which was incorporated in the following memorandum:

Memorandum of agreement entered into April 26, 1910, by Dr. D. A. K. Steele, Dr. Wm. E. Quine, Dr. W. A. Pusey, Dr. Chas. Davison, Fred L. Hatch, and W. L. Abbott, which agreement it is proposed shall be recommended to the Board of Trustees of the University of Illinois and to the Board of Directors of the College of Physicians and Surgeons, as a basis for a new contract to supersede, on July 1, 1910, the existing contract between the two parties:

First—The existing contract to be terminated.

Second—The College to give to the University a two years' lease of its real and personal property and of its name and good will, which lease at the end of two years is to be renewable for a like period, and again at the end of that extension for another two year period, all at an annual net rental of \$18,500.00.

Third—The College will turn over its plant to the University in a good state of repair. The University will pay all taxes (not including assessments for local improvement), will maintain the property in good condition and will keep it insured in the name of the college, but will not be responsible for repairs necessitated by fires, or by other causes not incident to the occupancy of the property as a school building.

Fourth—All notes and any accrued interest on same, owing to the University by the college to be converted into a convenient form of non-interest bearing indebtedness, which can be applied as 5 per cent of the purchase price of the property of the college should such purchase be made by the University at any time.

Fifth—Any funds belonging to the college and held by the University shall be returned to the college and used by it to reduce its floating debt.

This memorandum was submitted by the president of the University to the Governor of the State of Illinois for his consideration, and in answer to a request for his opinion the following communication was received:

SPRINGFIELD, ILL., May 13, 1910.

DEAR SIR—Your favor of recent date enclosing a copy of a memorandum of the agreement entered into April 26, 1910, by Dr. D. A. K. Steele, Dr. William E. Quine, Dr. W. A. Pusey, Dr. Charles Davison, Hon. Fred L. Hatch and Hon. W. L. Abbott, which agreement it is purposed shall be recommended to the Board of Trustees of the University of Illinois and the Board of Directors of the College of Physicians and Surgeons as a basis for a new contract to supersede on July 1, 1910, the existing contract between these two parties, has been received.

In answer to your request for my opinion on this proposition I beg to say:

First—I think it desirable that the present contract under which the College of Physicians and Surgeons has certain rights in the management of the Medical School be abrogated. If the University is to conduct a medical school it should be under the control of the trustees of the University as are other schools and departments of the institution.

Second—I think the proposition to replace the present lease by one which shall not exceed the period of two years, the length of time for which the Legislature under the State Constitution may make appropriations, is a good one. Such a lease should be a lease of the College of Physicians and Surgeons for the use of the University Medical School and should not concede to the College of Physicians and Surgeons any voice in the management of the school.

It would, I think, be well to reserve for the University the right to renew the lease on the same terms for succeeding periods. I should think that the words "if desired by the Board of Trustees of the University" should be inserted in the third line of provision 2 of the memorandum, after the word "renewable," making the line read, "which lease at the end of two years is to be renewable if desired by the Board of Trustees of the University for a like period." It would be well to strike out the word "net" between "annual" and "rental" in the last line of provision 2, making the statement read, "all at an annual rental, etc."

(I would call attention to the fact that appropriations expire at the end of the first fiscal period after the adjournment of the General Assembly, that is, the present appropriation will, in all probability, expire on Sept. 30, 1911, or practically one year and four months from this date.)

Third—I think that the University should make sure by a careful preliminary examination that the plant of the College of Physicians and Surgeons, which it is proposed to lease for the period of two years, is really in a good state of repair, which will maintain the building without any expenditures for this purpose during the lifetime of the lease.

It seems to me that the College of Physicians and Surgeons should itself pay all taxes, including assessments for local improvements, maintain the property in good condition, and keep it insured.

Fourth—I think it would be wise for the University to reserve to itself the right to purchase the plant of the College of Physicians when authorized by the Legislature to do so, at a fixed price, which shall not in any case exceed the actual value of its material plant for the purposes of a medical school.

This will probably necessitate a careful valuation of the present plant of the College of Physicians and Surgeons for the purpose of a medical school, distinguishing between (a) the value of the ground; (b) the value of the buildings; (c) the value of the furnishings and equipment.

You will see from the above statements that in my opinion if the University is to undertake in any adequate and comprehensive way the promotion of the public health by the maintenance and development of a modern scientific medical school and by the creation and conduct of modern scientific medical laboratories, at all comparable with the similar work done by other state universities, notably Michigan and Minnesota, it is necessary that the University should be entirely free from any obligations to the College of Physicians and Surgeons and any complications with it, beyond those involved in a simple lease of their plant for this work, for a definite time and a definite rental.

Yours truly,

C. S. DENEEN.

Dr. Edmund J. James, Urbana, Illinois.

There seems to be practically unanimous agreement on the part of both the Board of Trustees of the University of Illinois and the Board of Directors of the College of Physicians and Surgeons that the present contract between the University and the College of Physicians and Surgeons should be terminated. Furthermore, that no contract which is to take its place, involving financial obligation on the part of the University, should be or could be legally made for a longer period than two years, the maximum time for which any particular legislature of Illinois under the present constitution may make appropriations. Appended to this communication is a copy of a letter received from the controller in regard to item 5 of the memorandum of agreement, according to which there is in his opinion no fund belonging to the College of Physicians and Surgeons held by the University.

This matter will be submitted to the Board of Trustees at its next meeting on Wednesday, June 1, 1910, at the La Salle Hotel in Chicago, for its further consideration.

The consideration of the communication on relations of the University to the College of Physicians and Surgeons was then taken up, and during the discussion which followed, Professor Ward of the Zoölogy department was heard at length upon the condition of the Medical College and upon its needs.

The Board went into a Committee of the Whole. When the committee arose, Mr. Abbott, who had been chairman of the committee, being ready to report, the question of no quorum was raised, and it being found that there was no quorum present, the board thereupon adjourned.

W. L. PILLSBURY,
Secretary.

W. L. ABBOTT,
President.

CHICAGO, June 1, 1910.

To the Board of Trustees of the University of Illinois:

A meeting of the Executive Committee of the Board of Trustees of the University of Illinois was held at the LaSalle hotel in the city of Chicago on Wednesday, June 1, 1910, at 6 p. m. Present, all the members of the committee; also other members of the board, Dr. Davison, Mrs. Bahrenburg and Mrs. Evans.

NEW CONTRACT WITH THE COLLEGE OF PHYSICIANS AND SURGEONS.

At the meeting of this committee, Mr. W. L. Abbott, president of the board, presented a report from the Committee of the Whole of the Board of Trustees, concerning a new contract between the University of Illinois and the College of Physicians and Surgeons. The report was adopted as a basis for negotiation.

Mr. Grout moved that the matter of a new contract between the University and the College of Physicians be referred to a committee consisting of President W. L. Abbott, Dr. Charles Davison and Mr. Fred L. Hatch, with authority to negotiate a contract for a new lease to replace the present one, and to be submitted to the Board of Trustees for its approval.

The motion was carried.

MATTERS PRESENTED BY PRESIDENT JAMES.

The president of the University presented the following matters for consideration:

PRICES OF PUBLICATIONS.

1. A communication from the Council of Administration recommending that authority be given to affix a price to the publications issued by the University.

Voted that said authority be given to the persons entrusted with the supervision of said publications.

CADET UNIFORMS.

2. A communication from the Military Commandment concerning cadet uniforms:

MILITARY DEPARTMENT, May 16, 1910.

President E. J. James, Ph. D., LL. D., University of Illinois:

SIR—For the information of yourself and the Board of Trustees, I have the honor to report that Fred Kauffman, Chicago, Ill., contractor for cadet uniforms for the two years ending June 30, 1911, has satisfactorily completed the uniforming the cadet corps for the current year.

Mr. Kauffman has had this contract for ten years, and by his good work in fitting and faithful adherence to specifications has gained for this University the credit of having one of the best uniformed corps among the Land Grant Institutions. This is the consensus of opinion of the War Department Inspectors for the past nine years.

Inasmuch as Mr. Kauffman was awarded the contract over a lower bidder (Messrs. Pettibone and Co., Cincinnati, Ohio), on my earnest recommendation, I will thank you to lay this matter before the Board of Trustees.

Yours very respectfully;

E. G. FECHET,

*Lieut. Col. U. S. A., Retired,
Professor of Military Science.*

Voted that said communication be printed in the minutes of the Board of Trustees.

SUMMER SESSION SCHOLARSHIPS.

3. A request from the director of the Summer Session that the scholarship privileges now extended in the Summer Session to those who have been teaching during the past year in the State of Illinois, be extended to those who have contracts to teach during the coming year, and also to those who graduate from the various State normal schools in Illinois in June, 1910.

Voted that said request be approved.

ADMISSION TO LIBRARY SCHOOL.

4. A request from the faculty of the Library School that the privilege of admission to the Library School be conditioned upon previous graduation from reputable American colleges, or an equivalent course of training.

Voted that said request be approved.

EXPENSES OF ADVISORY BOARD.

5. A letter from Professor Hopkins asking that the Board of Trustees authorize the payment of the traveling expenses of the State Advisory Commission on soil and crop investigations to visit certain stations in the state of Ohio.

Voted that this specific request be granted.

COL. E. G. FECHET.

6. A statement that the Military Commandant, Col. E. G. Fechét, requested that he be relieved from duty as soon as a successor can be found.

Voted that the president of the University be authorized to ask the War Department of the United States to relieve Colonel Fechét as soon as a successor shall be appointed.

APPOINTMENT OF NEW COMMANDANT.

7. A recommendation that the Board of Trustees authorize the president of the University to approve the appointment of Major B. C. Morse of the 27th U. S. Infantry, now stationed at Fort Sheridan, Ill., in case the president of the University considers the appointment a desirable one after a personal interview with Major Morse.

Voted that said recommendation be approved.

REAPPOINTMENTS.

8. That the president of the University be authorized to reappoint to the present positions at the present salaries such persons as may be recommended for such reappointment by the proper authorities.

Voted to give the authority.

REPORT OF THE EXECUTIVE COMMITTEE.

Mr. Abbott, chairman of the Executive Committee presented a report of the Executive Committee meetings held June 1 and 13 and 14, 1910, as printed on pages 368 to 383 of the minutes of the meetings of June 13 and 14.

MATTERS PRESENTED BY PRESIDENT JAMES.

President James presented the following matters for consideration:

LEASE OF THE PROPERTY OF THE COLLEGE OF PHYSICIANS AND SURGEONS.

1. A draft of a new lease and supplementary agreement between the Board of Trustees of the University of Illinois and the College of Physicians and Surgeons, to take the place of the existing contract between said parties.

Mr. Crebs moved that the committee which has had charge of this matter heretofore, should make some minor changes which it was said were necessary and complete the lease and agreement with the College of Physicians and Surgeons, and that the executive officers of the board be instructed to sign and execute the lease and agreement when thus completed.

Governor Deneen, after stating that there was one point in the lease which he thought objectionable, and that he had consulted with the Attorney General with reference to it, moved that the term of the lease extend to Sept. 30, 1911, instead of for two years as proposed.

The amendment prevailed, and the motion as amended was adopted by the following vote: Ayes, Messrs. Abbott, Crebs, Davison, Deneen, Grout, Hatch, Meeker and Mrs. Evans; present and not voting, Mrs. Bahrenburg; absent, Messrs. Blair and Moore, and Mrs. Busey.

THE BUDGET FOR 1910-11.

[Persons of professorial rank and associates, whose title and salary remain unchanged, are not included.]

3. Opinion of Judge O. A. Harker, counsel of the University, concerning the power of the Board of Trustees to regulate the use of the University drive-ways by automobiles, motor cycles and other vehicles.

URBANA, ILL., May 31, 1910.

Dr. Edmund J. James, University of Illinois.

DEAR SIR—In compliance with your request I am pleased to submit to you the following:

OPINION as to the power of the Board of Trustees to regulate the use of automobiles and motor cycles within the University grounds.

The Board of Trustees has legal and exclusive control of all the University grounds except where traversed by public highways. As I understand it, the right of easement in the public streets extends only to Springfield avenue and that part of Green street lying east of the Engineering Hall in the entire body of land bounded by University avenue on the north, Wright street on the west, Romine street and Mathews avenue on the east, and a direct line from the south end of Wright street to the south end of Mathews avenue on the south. Over the remainder of the University grounds north of the public highway extending east and west immediately north of the cemetery the public have no right to easement whatever.

The mere fact that the University authorities have laid out walks and driveways over its grounds for the accommodations of students, teachers,

University officials, and visitors, does not justify an assumption that the public have been given a right of easement. Nor can a use of them by the public, without interference on the part of the University, ripen into such a right. The University may at any time abandon its driveways or close them against public use altogether. If it keeps them open it may determine what character of vehicles shall travel them and at what rate of speed.

Inasmuch as the University has heretofore allowed the use of its driveways by automobiles and motor cycles, I advise, in the event the Board of Trustees should decide to exclude them, that there be placed at each driveway entrance a large bill-board notice, as follows:

"UNIVERSITY OF ILLINOIS PRIVATE DRIVEWAY.

Its use by Automobiles and Motor Cycles is Forbidden."

If the board should decide to allow the use of driveways as heretofore, but decides to limit the speed, there should be displayed at each entrance a notice, something like the following:

"UNIVERSITY OF ILLINOIS PRIVATE DRIVEWAY.

Speed Limit for Automobiles and Motor Cycles, 8 Miles per Hour. Persons Exceeding Speed Limit will be Prosecuted According to Law."

A violation of any condition imposed for use of the driveways would subject the offender to a civil prosecution, only. What I mean by that is, that if the board should see fit to allow the use of the University driveways by automobiles at a rate of speed not exceeding eight miles per hour, a driver exceeding the speed limit could not be fined, and the only redress would be a civil suit for damages.

Respectfully submitted,

OLIVER A. HARKER,
University Counsel.

Voted that the University Council of Administration be requested to draft a set of proposed regulations on the subject which, after approval by Judge O. A. Harker, the counsel of the University, shall go into effect when so ordered by the Committee on Buildings and Grounds of the Board of Trustees of the University.

ACOUSTICS OF THE AUDITORIUM.

11. Report from Dr. Watson on the investigation of the acoustic properties of the Auditorium:

URBANA, ILL., Feb. 25, 1910.

President Edmund J. James:

DEAR SIR—I am presenting to you herewith a further report on the investigation of the acoustics of the Auditorium. The work has progressed along the lines indicated in my previous report of May 15, 1909.

I have perfected the apparatus whereby a response is obtained by a tuned electric circuit when a sound of definite pitch is set up. This apparatus is useful in mapping out the positions of concentrations of sound in an auditorium. The results of the work were presented before the meeting of the American Physical Society at the University of Illinois in November, 1909.

Further investigation and reading have pointed more clearly to the methods that will afford a solution for the difficulties. The method of curing faulty acoustics in a building may be written down as follows: (1) Introduction of absorbing material; (2) changing the shape of the building, including the introduction of partitions and the alteration of the wall surfaces; (3) introduction of a directed stream of air.

As has already been noted, the subject is one that leads an investigator into great mathematical and experimental difficulties. Thus we read in the works of Lord Rayleigh, the greatest authority on acoustics: "The accurate experimental investigation of aerial vibrations is beset with considerable difficulties which have been only partially surmounted hitherto." (Theory of Sound, Vol. II, p. 282.) "The general problem of the vibrations of a variable medium is probably quite beyond the grasp of our present mathematics." (Theory of Sound, Vol. II, p. 270.)

My investigations have shown that it is almost hopeless to trace out the paths of ordinary sounds in a closed room, because of the diffraction, or scattering, of rays when they strike an obstacle. They will bend almost at right angles around an obstacle, whereas a stream of light will bend scarcely at all. This is due to the large wave length of the ordinary sound. By working with sounds of a small wave length, I have been able to approximate the conditions of light waves and have secured a more certain control of their action. Thus I have been able to generate a sound in one room, project it into a hall, reflect it twice at angles of forty-five degrees and bring it into a room adjacent to the first and secure a sure response.

The use of sounds of short wave length is a distinct advance in the investigation, for it allows experiments to be made in a small laboratory and on a small scale. Ordinary sounds as given by the voice or by musical instruments are of long wave length, and if these sounds were used experimentally, there would be needed large dimensions of reflecting surfaces, great quantities of absorbing material, etc., with greater difficulty of manipulation. Results obtained by using the short waves may be interpreted for larger waves, and the final solution for the Auditorium acoustics hastened by this process.

The principle of diffraction indicates that the echo in the Auditorium may be stopped by altering the form of certain walls. Thus by introducing panels in the walls of the dome with rather deep recesses, the sound would be widely scattered. It is my intention to try this effect first on a small scale with short wave lengths, and then make deductions that will apply to the larger problem in the Auditorium.

The use of sounds of small wave length also affords a means of testing conveniently on a small scale the effect of a stream of air on sounds. Additional information along this line confirms the opinion advanced in the earlier report that the introduction of a directed sheet of air in the Auditorium will help the acoustics.

The investigations outlined in the previous paragraphs will take time and will defer the final solution. One line of investigation has suggested itself to me that may lead to a more speedy, though perhaps a partial, relief to the annoyance now experienced in the Auditorium. By directing a sound of a short wave against certain walls, an echo can be set up. Then by interposing large sheets of canvas, it seems probable that this sound may be intercepted and the echo stopped. Such a canvas, or some substitute, might be hung in the Auditorium until a better cure is found.

Respectfully submitted,

F. R. WATSON.

NUTRITION INVESTIGATION.

12. Report of progress of the nutrition investigation:

JUNE 28, 1910.

President Edmund J. James, University of Illinois:

DEAR PRESIDENT JAMES—I wish hereby to report progress in the work of the nutrition investigations of the Laboratory of Physiological Chemistry. During the last fiscal year the Nutrition Investigation Commission has had two meetings. It has approved the general form of publication for the report, viz, that volumes 1 and 2 of the report will contain a detailed, readable presentation of the entire investigation, giving condensed summary tables of the experimental results, while the remaining three volumes will give, in scientific, technical form, the detailed experimental results of the entire investigation. The commission has approved for publication three volumes of the report and has also made a detailed study and approved parts of the remaining two volumes. I enclose herewith Exhibit A, which gives a brief summary of the contents of the several volumes of this report.

At present, negotiations are under way with publishers and printers with a view to ascertaining how the completed report may be best published. I am firmly convinced that, if it is possible, it will be best to have the report put out by such prominent publishers as MacMillan, Appleton, Longman, Green, or Lippincott and Company. Unless unforeseen difficulties arise, three volumes of the report will be placed in the hands of the publishers within the next six weeks.

On account of the unusually large mass of data which has been collected in connection with this experiment and the difficulty attending the proper interpretation of such data, due to the "individual idiosyncrasy" or "functional variability" of the subjects experimented upon, it has been found necessary to obtain the advice of Dr. Rietz, statistician of the Agricultural Experiment Station. Dr. Rietz and Mr. Mitchell of this laboratory have applied to the interpretation of the data of this investigation mathematical methods which will be of much value in arriving at correct and logical conclusions in connection with this, as well as other, investigations of a similar nature. The results of their study of the mathematical methods available for such work are to appear in print in the near future in a noteworthy contribution from this laboratory.

Up to the present time sixteen papers based upon the data obtained from this nutrition investigation have been published from this laboratory.

I enclose herewith, in Exhibit B, the titles of these papers. In addition, since September, 1907, when this investigation was undertaken, twenty-two papers have been published from this laboratory.

In this connection I wish to state that we have on hand a very large amount of excellent experimental data relating to the nutrition of man and also of lower animals, which should have been published before, but which we have been unable to publish on account of the fact that our present editorial force is not sufficient in number and capacity to properly and accurately prepare the material for publication.

Yours very truly,

H. S. GRINDLEY.

SUMMER SESSION.

13. Report of the director of the Summer Session:

URBANA, ILL., June 28, 1910.

President E. J. James, Natural History Building:

DEAR PRESIDENT JAMES—I beg to submit the following report on the work of the Summer Session since the opening on Monday, June 20.

The number of students now enrolled at the University is 616. At the Biological Station at Havana there were at the close of last week thirty-nine students in attendance, making the total enrollment for the session at the present time at least 655. This is already a slight gain over the total enrollment of last year, which, at the end of the ninth week, amounted to just 650.

Of these 655 students I believe that fully one-half are teachers, although I am unable to state the exact proportion. Up to the present time 205 scholarships have been accepted in lieu of the tuition fee. Those who have been teaching in the State during the past year or who are under contract to teach during the coming year are entitled to these scholarships, provided that they are qualified to enter the University as regular students. The enrollment from outside of the State is about equal to that of last year's Summer Session. The number of graduate students is approximately three times as large this summer as it was last summer. From present indications, I believe that we could extend the usefulness of the Summer Session by offering more work in the College of Agriculture. There has been a very marked demand for agricultural courses this year. I visited the Biological Station last Friday and Saturday and found that the work was progressing favorably, although the enrollment is not so large as had been hoped. From the standpoint of quality, however, the students are all that could be desired. There were thirty-nine students enrolled at the close of the week and all of these were either teachers or students preparing to teach. A large number of them are graduate students—in fact, the staff of instruction at the station could not very effectively look after a larger number of graduate students than is now enrolled. The elementary courses, however, are not nearly so well attended. The student body seemed to be very enthusiastic over the way in which the work had started and I am confident that with their aid in making the work of the station known during another year, next summer's enrollment would show a large increase if it were decided to continue the work at Havana.

Respectfully yours,

W. C. BAGLEY,

Director, Summer Session.

RESIGNATION OF THE REGISTRAR.

18. I present the resignation of the registrar, Mr. Pillsbury:

W. L. Abbott, Esquire, President Board of Trustees, University of Illinois, Chicago, Illinois:

DEAR SIR—I beg leave to hand you herewith my resignation of the office of registrar in the University of Illinois to take effect Sept. 30, 1910.

Sept. 1, 1893, the office of registrar in the University of Illinois was created and I was appointed to the position, which I have held ever since. I am asking to be allowed to withdraw from this position at this time solely on the ground that advancing years have made it seem to me to be desirable to withdraw from quite so active a life as I have been pursuing for now a good many years.

I wish to thank the Board of Trustees for the confidence in me it has shown by re-electing me year after year from 1893, and my only hope is that I have not proved an unworthy servant of the University.

Very respectfully yours,

W. L. PILLSBURY.

The resignation was accepted.
