DEC 4 1974

UNIVERSITY OF ILLINOIS  
AT URBANA-CHAMPAIGN

UNIVERSITY OF ILLINOIS REFERENCE FOLDER

No. 37

Revised to Nov. 1, 1973

1973-74

Prepared by the Offices of Public Information principally for news editors and writers, this folder is offered, also, to others to whom it might be useful.

CHARLES E. FLYNN, University Director

ADMINISTRATION OF THE UNIVERSITY

- President, John E. Corbally Jr., 364 Administration Building, Urbana 61801  
Vice-president for planning and allocation, Ronald W. Brady, 349 Administration Building, Urbana 61801  
Vice-president for governmental relations and public service, Eldon L. Johnson, 377 Administration Building, Urbana 61801  
Vice-president for academic development and coordination, Barry Munitz, 2732 University Hall, P. O. Box 4348, Chicago 60680  
378 Administration Building, Urbana 61801  
Executive assistant to the President, George H. Bargh, 364 Administration Building, Urbana 61801  
University Counsel, James J. Costello, 266 Administration Building, Urbana 61801  
Assistant to the President and University director of public information, Charles E. Flynn, 137 Davenport House, Champaign 61820  
Secretary of the University, Earl W. Porter, 354 Administration Building, Urbana 61801  
Chancellor at Chicago Circle, Warren B. Cheston, 2833 University Hall, P. O. Box 4348, Chicago 60680  
Chancellor at the Medical Center, Chicago, Joseph S. Begando, 414 Administrative Office Building, P. O. Box 6998, Chicago 60680  
Chancellor at Urbana-Champaign, J. W. Peltason, 107 Coble Hall, Champaign 61820

BOARD OF TRUSTEES members are elected by the people of the state and constitute the governing body of the University. They secure, so far as possible, the needed revenue and determine the ways it shall be applied. They formulate general policies for the University, but leave execution of these to the administrative officers.

Ex Officio: Daniel Walker, Governor of Illinois, Springfield 62706  
Michael J. Bakalis, Superintendent of Public Instruction, Springfield 62706

Term 1969-75: Earl M. Hughes, 206 North Hughes Road, Woodstock 60098  
Russell W. Steger, Suite 2140, 135 South LaSalle Street, Chicago 60603  
Timothy W. Swain, 411 Hamilton Boulevard, Peoria 61602

Term 1971-77: William D. Forsyth Jr., 1201 South Fourth Street, P. O. Box 2209, Springfield 62703  
George W. Howard III, Howard Building, Box U, Mount Vernon 62864  
Earl Langdon Neal, Suite 1525, 111 West Washington Street, Chicago 60602

Term 1973-79: Ralph C. Hahn, 1320 South State Street, Springfield 62704  
Park Livingston, 202 South Kensington, LaGrange 60525  
Mrs. Jane Hayes Rader, Windridge Farm, Route 2, Cobden 62920

Officers of the Board:

President, Earl M. Hughes, 206 North Hughes Road, Woodstock 60098  
Secretary, Earl W. Porter, 354 Administration Building, Urbana 61801  
Comptroller, Ronald W. Brady, 349 Administration Building, Urbana 61801  
Treasurer, R. R. Manchester, One First National Plaza, Chicago 60670  
University Counsel, James J. Costello, 266 Administration Building, Urbana 61801

University-wide holidays: Memorial Day, Independence Day, Labor Day, Thanksgiving Day, Christmas Day, New Year's Day. Three additional nonacademic holidays have been designated on each campus.

Events at Urbana-Champaign, 1974: University Day, Founders Day Memorial Service, Mar. 2; State High School Wrestling Tournament, Mar. 1-2; State High School Basketball Tournament, A, Mar. 15-16; State High School Basketball Tournament, AA, Mar. 22-23; Engineering Open House, Mar. 29-30; Veterinary Medicine Open House, April 5-6; Campus Mothers Day Weekend, Apr. 19-21; State Junior Academy of Science Exposition, May 10-11.

APPROPRIATIONS to the University by the Illinois General Assembly are made on an annual basis. From tax revenues the General Assembly appropriated \$183,431,544 for operations for FY1974. From student fees and other University income, by law deposited in the state treasury, \$24,918,000 was appropriated. In addition, \$1,958,000 was appropriated from the Agricultural Premium Fund for further support of Agricultural Extension.

For the 1974 fiscal year the University Trustees budgeted \$355,091,364 for operations, including the above appropriations. The remainder is from funds authorized by law to be retained in the University treasury, including money from research contracts, gifts, grants, federal appropriations, residence halls, union buildings and other auxiliary enterprises and self-supporting activities.

For capital improvements the legislature appropriated \$72,500 from tax revenues, plus unexpended balances of \$3,528,299 from previous capital appropriations. It also authorized \$15,095,839 of new construction through the Capital Development Bond Fund, plus authorization of \$27,739,300 previously approved projects from the Capital Development Bond Fund.

The legislature appropriated \$9,335,645 for rentals of buildings financed by the Illinois Building Authority.

Finances are under the direction of Ronald W. Brady, vice-president for planning and resource allocation.

INCOME, fiscal year ending June 30, 1973

Student fees . . . . .	\$ 24,084,648	7.1%
State appropriations from tax revenues . . . . .	169,031,376	49.9%

---

COMMITTEE ON INSTITUTIONAL COOPERATION (CIC) of the Council of Ten and the University of Chicago conducts interuniversity studies of educational and administrative problems of mutual interest to the 11 institutions. Under the CIC Traveling Scholar Program, graduate students have an opportunity to visit a neighboring CIC university to utilize a special resource or to take a course not available on the home campus. Barry Munitz, vice-president for academic development and coordination, is representative on the CIC from the University. Dean of the Graduate College on each campus is in charge of the administration of the Traveling Scholar Program.

---

STATE UNIVERSITIES RETIREMENT SYSTEM, established in 1941, has headquarters at Urbana-Champaign and covers 42,000 employees of the University of Illinois, universities governed by the Board of Governors of State Colleges and Universities, the Board of Regents of the Regency Universities System, Class I Junior Colleges, Southern Illinois University, State Surveys and associated organizations. Assets total more than \$404,000,000. Executive director is Edward S. Gibala.

---

UNIVERSITY CIVIL SERVICE SYSTEM OF ILLINOIS, with headquarters at Urbana-Champaign, covers over 22,000 positions of the University of Illinois, universities governed by the Board of Regents of the Regency Universities System, the Board of Governors of the State Colleges and Universities, Southern Illinois University and associated organizations. Director is Walter G. Ingerski.

ADMISSION to the University at Chicago Circle and Urbana-Champaign for beginning freshmen in September, 1974, will again be based on a combination of high school percentile rank and admission test score. Applicants approved for admission to regular programs must have at least a one-in-two (50 per cent) chance of achieving a 3.0 ("C") average for the first term in the college or curriculum to which they apply. For experimental and special programs, spaces may be reserved at each campus for applicants of different qualifications, not to exceed 10 per cent of the previous fall term entering freshman class on that campus. This provision is in concert with the Illinois Board of Higher Education's Master Plan for Higher Education which recommends that experimental and special programs can be developed for students "of lesser qualifications" than the Master Plan minimums. Experience has demonstrated the need to reserve a limited number of spaces at each campus for applicants entering programs for which admission decisions must be delayed. The policy provides this flexibility. To avoid the possibility of unused space, the University admissions policy also permits, under certain circumstances, the admission of applicants with at least a one-in-four chance of achieving a 3.0 ("C") first-term average.

ADMISSION OF TRANSFER STUDENTS to the University is "based on only the transfer work which is of such a nature as to prepare students to continue on to baccalaureate degree programs." Grades in other courses, such as technical courses similar in content and level to courses taught at the University, may be used in evaluation for admission upon recommendation of the dean of the college to which the student seeks admission. At Urbana-Champaign, preference will be given to students who have completed 60 or more semester hours of work, although a few students with less than 60 hours may be admitted to certain curricula, such as art and architecture, if they cannot continue in the curriculum at their present campus.

CLASS SIZE at the University is given serious consideration. Nearly all courses which offer large lectures also require participation in small discussion groups. Approximately 76 per cent of all class sections (78 per cent at Urbana-Champaign, 70 per cent at Chicago Circle) involve less than 30 students. Many students receive instruction individually in music practice, thesis, special project and similar courses. Distribution by size of section varies little from year to year, with class size for fall, 1973, as follows:

	<u>Percentage Of All Class Sections</u>										Avg. Reg. per Section
	<u>Having Registrations Of:</u>										
	1-5	6-9	10-14	15-19	20-29	30-39	40-49	50-99	Over 99		
Chicago Circle	16%	7%	8%	8%	31%	18%	4%	5%	3%	27	
Urbana-Champaign	9%	9%	14%	15%	31%	12%	3%	5%	2%	26	
Both campuses	11%	8%	12%	13%	32%	13%	3%	5%	3%	26	

DEGREES conferred by the University through June, 1973, total 277,938 with Chicago Circle conferring 16,985; Medical Center, 30,361; and Urbana-Champaign, 230,592. Since the University opened in 1868, approximately 533,000 students have come to it.

ENROLLMENT figures for fall, 1973:

	<u>Men</u>	<u>Women</u>	<u>Total</u>
<u>Chicago Circle</u>			
Undergraduate students . . . . .	11,099	6,468	17,567
Graduate students . . . . .	878	664	1,542
Total, Chicago Circle . . . . .	11,977	7,132	19,109
 <u>Medical Center, Chicago</u>			
Undergraduate students . . . . .	566	1,016	1,582

STUDENTS at the University of Illinois in fall, 1973, came from every county in Illinois, home state of 88.9 per cent. Others were from all other 49 states plus the District of Columbia, two U. S. possessions (Puerto Rico and Virgin Islands) and 98 foreign countries. Increase in the size of the student body over 1972 fall enrollment at Urbana-Champaign was 2.35 per cent; and Medical Center, Chicago, 10.11 per cent. A decrease in the size of the fall, 1973 student body at Chicago Circle was 4.41 per cent, the first decrease experienced at Chicago Circle.

TUITION for 1973-74 is \$248 a semester for Illinois residents and \$743 a semester for nonresidents at Urbana-Champaign. Tuition for the School of Basic Medical Sciences (Urbana-Champaign) is \$441 a semester for Illinois residents and \$936 a semester for nonresidents. Both residents and nonresidents pay an additional \$58 a semester for required fees. Total cost of a two-semester academic year at Urbana-Champaign for Illinois residents (excluding the School of Basic Medical Sciences) is approximately \$2,601 including \$1,260 for double room and board. At Chicago Circle, tuition is \$165 a quarter for residents of Illinois and \$495 a quarter for nonresidents. Required fees are an additional \$32 a quarter. No University housing is provided at Chicago Circle since it is designed as a commuter campus. Tuition at the Medical Center ranges from \$165 to \$294 a quarter for residents of Illinois, and from \$495 to \$624 a quarter for nonresidents depending on the curriculum in which the student registers. Required fees are an additional \$54 per quarter. Effective September 1, 1974, tuition will be increased 12 per cent.

COUNSELING through the Psychological and Counseling Center at Urbana-Champaign, the Student Counseling Service at Chicago Circle and Counseling Services at the Medical Center is available to enrolled students, staff members and persons considering college. They offer free scientific vocational and educational aptitude testing and counseling and help individuals select careers and fields of study in which they are most likely to succeed. They also help with study problems and with personal and psychological difficulties. Directors are Harold Klehr at Chicago Circle, William M. Gilbert at Urbana-Champaign, and Robert Sheverbush at the Medical Center.

---

JAMES SCHOLARS are designated at Urbana-Champaign, Chicago Circle and Medical Center campuses. Named for Edmund J. James, president of the University, 1904-20, James Scholars are permitted to enroll in courses and curricula designed to match their capacity to handle more sophisticated studies than the average student. Programs at the three campuses may include provision of special sections in existing courses, establishment of new courses, development of colloquia of a broad interdisciplinary nature, honors degrees, and independent study. Program director at Chicago Circle is Samuel Schrage. Acting director at Urbana-Champaign is King Broadrick. Coordinator at the Medical Center is Charles E. Johns.

---

FINANCIAL AID totaling \$56,777,832 assisted students on the three campuses of the University of Illinois in 1972-73 through 56,912 awards, although the actual number of students receiving awards was somewhat less since many received more than one type of award. About 33 percent of all of the financial aid funds distributed for 1972-73 came as the result of student employment. Over 14 percent was made available through various loans which, of course, will eventually be repaid. Federally-funded veterans benefit programs accounted for about 13 percent of the total. The remaining 40 percent of the total amount of financial aid assistance was awarded through scholarships, grants, fellowships, traineeships and tuition waivers.

Student Employment: Students on the three campuses of the University were employed 9,747 University-related jobs during 1972-73, earning a total of \$18,629,779.

Loan Programs: During 1972-73, 12,459 loans were made on the three campuses of University, with a total value of \$7,991,330. Almost 4,400 of these loans (valued at \$2,765,698) were made through federal funds such as National Defense Student Loans and Health Profession loans. About 3,112 loans, valued at \$3,739,165, were made through the Illinois State Guaranteed Loan Program and other outside agencies. The University administered a total of 4,951 long-term, short-term and intermediate-term loans, with a value of \$753,878.

Veterans Benefit Programs: Over 4,800 awards, valued at \$7,310,681, were made on the three campuses as a result of federally-funded veterans benefit programs.

Scholarships, Grants, Fellowships, Traineeships and Tuition Waivers: A total of 17,137 scholarships, grants, fellowships and traineeships were awarded on the three campuses in 1972-73, with a total value of \$15,051,543. Of the total number, 2,990 awards (valued at \$5,538,097) were made from federal funds; 11,233 (\$6,704,932) came from state funds; 509 (\$767,352) were University scholarships and fellowships; 1,816 (\$1,282,178) were made from private and industrial funds, including endowment funds, and it is estimated that 589 awards, valued at \$758,984, were given directly to the students by outside agencies with no assistance from the University. Tuition waivers established by the General Assembly valued at \$3,093,986 were received by 5,889 students. In addition, 6,828 students received University tuition waivers valued at \$4,700,513.

Directors: Robert H. Mahoney is director of student financial aids at Chicago Circle. Howard Bers, associate dean of student affairs, administers financial aid at the Medical Center, Chicago. Director of student financial aids at Urbana-Champaign is E. T. Sanford.

PRESIDENTS of the University have been: John Milton Gregory, regent, 1867-80; Selim Hobart Peabody, regent pro tempore, 1880-81; regent, 1881-91; Thomas Jonathan Burrill, acting regent, 1891-94; Andrew Sloan Draper, president, 1894-1904; Edmund Janes James, president, 1904-20; David Kinley, acting president, 1919-20; president, 1920-30; Harry Woodburn Chase, president, 1930-33; Arthur Hill Daniels, acting president, 1933-34; Arthur Cutts Willard, president, 1934-46; George Dinsmore Stoddard, president, 1946-53; Lloyd Morey, acting president, 1953-54; president, 1954-55; David Dodds Henry, president 1955-71; John E. Corbally Jr., president, 1971 to present.

AMERICAN ACADEMY OF ARTS AND SCIENCES, oldest organization of its kind in the nation, founded during the American Revolution under leadership of John Adams, elects outstanding Americans from all areas of arts and sciences. Those from Illinois are I. C. Gunsalus, Gregorio Weber, biochemists; Herbert E. Carter, Herbert S. Gutowsky, Nelson J. Leonard, Rudolph A. Marcus, Carl S. Marvel, chemists; Daniel C. Drucker, Nathan M. Newmark, civil engineers; Leigh E. Chadwick, entomologist; Joseph L. Doob, Maurice H. Heins, mathematicians; John Bardeen, Charles P. Slichter, physicists; C. Ladd Prosser, physiologist and zoologist; Charles E. Osgood, psychologist. (Total 16)

NATIONAL ACADEMY OF SCIENCES elects to membership America's foremost scientists in their respective fields and includes from Illinois: Herbert E. Carter, David Y. Curtin, Harry G. Drickamer, Reynold C. Fuson, I. C. Gunsalus, Herbert S. Gutowsky, Nelson J. Leonard, Rudolph A. Marcus, Carl S. Marvel and William C. Rose, chemists; Nathan M. Newmark, civil engineer; Gottfried Fraenkel, Robert L. Metcalf, entomologists; Joseph L. Doob, mathematician; John Bardeen, F. Wheeler Loomis, David Pines and Charles P. Slichter, physicists; Jack R. Harlan, plant geneticist; Charles E. Osgood, psychologist. (Total 20)

NATIONAL ACADEMY OF ENGINEERING is a companion organization to the National Academy of Sciences. Those from Illinois are William C. Ackermann, civil engineer and chief, Illinois State Water Survey; John Bardeen, physicist and electrical engineer; Sidney A. Bowhill, electrical engineer; Ven Te Chow, hydraulic engineer; Daniel C. Drucker, civil engineer and dean, College of Engineering; William L. Everitt, electrical engineer and dean emeritus, College of Engineering; John C. Frye, chief, Illinois State Geological Survey; William J. Hall, civil engineer; Nick Holonyak Jr., electrical engineer; Edward C. Jordan, electrical engineer and head of department; Nathan M. Newmark, civil engineer and head of department; Ralph B. Peck and Chester P. Siess, civil engineers. (Total 13)

NATIONAL MEDAL OF SCIENCE, established by Congress in 1959, is conferred by the President of the United States upon recommendation of the Awards Committee and includes from Illinois: John Bardeen, electrical engineer and physicist, 1965; William C. Rose, chemist, 1966; Nathan M. Newmark, civil engineer, 1968. (Total 3)

CENTER FOR ADVANCED STUDY was established in 1959 as a special unit of the Graduate College to encourage creative achievement and scholarship by recognizing scholars of the highest distinction and by providing incentives for the highest level of scholarly achievement. During its first eight years the Center fulfilled these aims and objectives through a program of Professors and Associates in the Center. In 1967 the program was enlarged to include a program of Fellowships, awarded to younger men and women of unusual promise who do not as yet have academic tenure. The scope of activities was also broadened to include these functions: 1) to sponsor conferences, seminars, symposia and lecture series in fields of current interest, especially involving interdepartmental or intercollege interests; 2) to bring to the University, for brief or extended periods, distinguished men and women from both academic and public life to interact and exchange views with students and faculty. The Center sponsors a Resident Studies program devoted to studies in selected scholarly and professional areas. During the current year the program includes Planning and Resource Allocation in the 70's; Policy Analysis and Initiatives in the Human Services and Teaching of Science to Non-Scientists. The Resident Associate in the 1973-74 Resident Studies Program is Franklin J. Reiss, agricultural economics. The Resident Fellows are: Colin H. Green, State University of New York at Buffalo; John R. Kimberly, sociology and Institute of Labor and Industrial Relations; Carl V. Patton, urban and regional planning and Frederick Reif, University of California at Berkeley. Professors in the Center are: John Bardeen, electrical engineering and physics; Joseph L. Doob, mathematics; Harry G. Drickamer, chemical engineering and chemistry; Nelson J. Leonard, chemistry; James W. Marchand, German; Nathan M. Newmark, civil engineering; Charles E. Osgood, psychology and Institute of Communications Research; Charles P. Slichter, physics; Jack Stillinger, English; Michio Suzuki, mathematics; Ledyard R. Tucker, psychology and educational psychology and Gregorio Weber, biochemistry. Associates for 1973-74 are: F. Neely Bruce, music; David F. Bushman, art and design; David Chandler, chemistry; James H. Davis, psychology; Stephen M. Gersten, mathematics; Charles Hamm, music; George Hendrick, English; M. Douglas Hilson, art and design; Charles W. Kisseberth, linguistics; George deVries Klein, geology; Frederick K. Lamb, physics; Joseph L. Love, history; Richard L. Merritt, political science; Jack M. Mochel, physics; Bruno Nettl, music and anthropology; Wilga M. Rivers, French; Lee A. Rubel, mathematics; Paul E. Schupp, mathematics; Brian Wilkie, English and Kung Chie Yeh, electrical engineering. Fellows for 1973-74 are: Robert Flick, art and design; Jordan Konisky, microbiology; Carol A. Kyle, English; Heinrich P. Lotz, mathematics; Dean McHenry, political science; Wayne J. Morse, accountancy; David F. S. Natusch, chemistry and Pierre Weisz, French. Director is Daniel Alpert.

---

JANE ADDAMS SCHOOL OF SOCIAL WORK, begun in 1944, offers master's and doctor's degree programs accredited by the Council on Social Work Education on both the Urbana-Champaign and Chicago Circle campuses. On the Urbana campus an undergraduate major in social welfare is offered in cooperation with the College of Liberal Arts and Sciences. Director is Mark P. Hale. Associate director in charge at Chicago Circle is George Magner.

---

LIBRARY of the University of Illinois contains more books and materials than that of any other state university, is third among all American universities (exceeded by Harvard and Yale), and fifth among all American libraries. Collections, June 30, 1973, total 8,237,020 items. Included are 5,660,351 volumes, also pamphlets, prints, films, microtexts, manuscripts, music scores, maps, aerial photographs, broadsides and sound recordings. In main and departmental libraries at Chicago Circle, 1,103,001 items; Medical Center, Chicago, 250,492; Urbana-Champaign, 6,883,527. University librarian at Chicago Circle is William B. Ernst Jr.; University librarian at the Medical Center, Chicago, Irwin H. Pizer, and University librarian at Urbana-Champaign, Lucien W. White.

MILITARY TRAINING, required of all able men students since the University opened in 1868, became voluntary in September, 1964. Students may join Army, Navy or Air Force Reserve Officers' Training Corps.

Army ROTC. The University of Illinois Corps of Cadets has been in continuous existence since 1868. A four-year course of general military science instruction leading to a commission as a U. S. Army Reserve Officer or Regular Officer is offered at both Urbana-Champaign and Chicago Circle. A two-year program leading to a commission is available to selected students who may apply with two years remaining at the University. Two-year program students and four-year program students enrolled in the advanced course receive \$100 a month subsistence pay. Four-, three-, two- and one-year scholarships are offered to selected students and provide for payment of tuition, fees, books and \$100 a month subsistence pay. Professor of military science is Colonel Thomas R. Woodley. Associate professor of military science at Chicago Circle is Lieutenant Colonel Windle J. Kirk.

Air Force ROTC started as a separate unit in 1949. Qualified students (male and female) may take either a two-year or four-year training program which will qualify them for a commission in the Air Force Reserve and give them the opportunity to enter pilot or navigator training (except female students) or to enter an Air Force career field based on their academic training. Qualified students are eligible to be selected for a four-, three-, or two-year AFROTC college scholarship of free tuition, fees, books, and \$100 a month tax-exempt subsistence payment. During their last two years of the program all students receive the \$100 a month tax-exempt subsistence payment. The unit is Detachment 190, Air Force ROTC, under the Air University command. The professor of aerospace studies is Colonel Joseph J. DeJonghe.

Naval ROTC, established at Illinois in 1945, offers several programs leading to a commission in the Navy or Marine Corps. The Scholarship Program, through annual nationwide competition, provides selected students (male and female) with tuition, fees, books and \$100 per month for four academic years. Scholarship students serve four years on active duty following commissioning as Ensign, U. S. Navy or Second Lieutenant, U. S. Marine Corps. The College Program selects students already admitted, or planning to be admitted, to the University. College Program students receive \$100 per month during the last two years of college and serve three years on active duty after commissioning in the Naval Reserve or Marine Corps Reserve. The NROTC Two-Year Program substitutes a summer training program for the first two years of the College Program and provides the same benefits. Students in the latter two programs are eligible for nomination to the Scholarship Program by Captain Christopher Withers, professor of naval science.

---

SURVEY RESEARCH LABORATORY, University-wide unit established in 1964, provides training and instruction in survey methods; plans, conducts and processes surveys for research projects; assists agencies in using survey methods to solve problems of social and public policy, and conducts and promotes research in survey methodology. Its Social Science Data Archive serves as a Census data processing center and has developed a summary data storage and retrieval system on Illinois, Indiana and Iowa as well as the county groups of the Public Use Sample for the entire Midwest. An interdisciplinary executive committee appointed from the University's three campuses advises the Laboratory on policy and long-range planning. Director is Robert Ferber.

---

UNIVERSITY BUREAU OF INSTITUTIONAL RESEARCH supports University-wide planning and resource allocation activities, primarily through a series of analytical studies and the coordination of historical planning data. Director is Gustav J. Froehlich. Associated offices of administrative studies on each campus collect and analyze data relative to faculty and staff activities, department teaching loads, program costs and other aspects of campus operation. Director at Chicago Circle is Carlton M. Berg. Director at the Medical Center, Chicago, is Larry L. Phemister. Director at Urbana-Champaign is John E. Terwilliger.

CONTINUING EDUCATION AND PUBLIC SERVICE is organized at University-wide and campus levels. Various activities and services of statewide scope are carried on by most units of the University, with some of the most involved being the Cooperative Extension Service of the College of Agriculture, Bureau of Business Management, Institute of Labor and Industrial Relations, Institute of Government and Public Affairs, Small Homes Council-Building Research Council, Division of Services for Crippled Children, and the Center for Educational Development in the College of Medicine (see Cover Index for page numbers).

---

UNIVERSITY CONTINUING EDUCATION is headed by the vice-president for governmental relations and public service. Reporting to him, the University coordinator of continuing education administers free-standing units--the Police Training Institute, Firemanship Training, Civil Defense Training, Visual Aids Service, and Correspondence Study. The associate vice-president for public service directs the statewide University Continuing Education and Public Service field staff. Eldon Johnson is vice-president for governmental relations and public service; Stanley C. Robinson is University coordinator of continuing education; John Claar is associate vice president for public service.

---

OFFICE OF CONTINUING EDUCATION AND PUBLIC SERVICE was established July 1, 1973, and has overall responsibility for continuing education, extension, and public service activities carried on by units located on the Urbana campus. The director of that office, as an associate vice-chancellor for academic affairs, helps to relate outreach efforts at college, campus, and University levels. The Office contains some units which, during the past 40 years, had been parts of the former Division of University Extension--Extramural Classes, Conferences and Institutes, Continuing Education in International Affairs, Continuing Education in Music, Continuing Education in Engineering, Continuing Education in Visual Arts, and the Allerton House Conference Center. Director and associate vice-chancellor is Alan B. Knox.

Continuing education and public service programs have been conducted over the years, from the Urbana-Champaign campus, in almost every field of study available at the University--agriculture, home economics, youth work, community development, business, labor, government affairs, housing, engineering, education, international affairs, veterinary medicine, and many more.

---

OFFICE OF EXTENSION on the Chicago Circle campus has responsibility for continuing education programs related to and emanating from that campus. Director is Tunis Dekker.

---

CONTINUING EDUCATION on the Medical Center campus provides extension and public service programs in appropriate fields of study available from that campus, principally on a post-professional level. Donald J. Caseley, is vice-chancellor.

---

UNIVERSITY COUNCIL ON PUBLIC SERVICE includes representatives from the three campuses and is headed by the vice president for governmental relations and public service, Eldon Johnson.

---

VISUAL AIDS SERVICE, a rental film library, is part of University Continuing Education. The library consists of 11,000 titles and 27,000 prints available to teachers and organizations on a rental basis. Director is Thomas H. Boardman.

MOTION PICTURES, MUSICAL PROGRAMS AND TRAVELING ART EXHIBITS are available through sections of the Office of Continuing Education and Public Service located at the Urbana-Champaign campus. For schools, churches, civic groups and clubs no charge is made for the use of two films: "Beyond Teaching" (research) and "The Dedicated" (health sciences). The University's Centennial Year film, "Hosts of Earnest Men" is available for a \$3.00 handling charge. These and other educational films are distributed by the Visual Aids Service, 1325 S. Oak Street, Champaign. The service has also released its first film, "Geology Is...", produced by the U. of I. Motion Picture Production Center. Available for an \$11.25 rental fee, the color film defines geology through examination of five different aspects of the science, combining the photographic techniques of animation, live action and multiple image. Musical programs, such as off-campus concerts by University organizations, are arranged through Continuing Education in Music, 608 S. Mathews Street, Urbana. Traveling art exhibits may be scheduled through Continuing Education in Visual Arts, 127 Fine Arts Building, Champaign. Some musical programs and exhibits involve charged to cover expenses.

---

UNIVERSITY OF ILLINOIS ALUMNI ASSOCIATION was founded in 1873. Officers are: Alan M. Hallene '51, president; William D. Holmes '51, vice-president; Philip E. Fess, M.S. '55, Ph.D. '60, treasurer; James E. Vermette '60, executive director; Donald R. Dodds '53, director at Urbana-Champaign; Frank J. Geltner Jr., Circle '67, director at Chicago Circle; Mrs. Dorothy DiIorio '49, director at the Medical Center, Chicago; Louis D. Liay, M.Ed. '62, director of special programs; Donald W. Grabowski, Circle '67, coordinator of Chicago area programs; Joe C. Sutton, M.S. '53, editor, Illinois Alumni News; Miss Colleen Traugher '73, editor, MC News; Grover E. Shipton '38, editor, The Circle.

---

UNIVERSITY OF ILLINOIS CITIZENS COMMITTEE provides University officers an opportunity to inform 350 influential citizens of the state about the University's accomplishments, aspirations and needs and to reflect citizen points of view to the University administration. Members are appointed by the Board of Trustees. Committee director is Charles E. Flynn, assistant to the President.

---

UNIVERSITY OF ILLINOIS FOUNDATION was established in 1935 to encourage gifts to the University, assist in management of patents and negotiate loans. Officers are: Harry O. Bercher '28, Chicago, president; Charles J. Merriam, Chicago, vice-president; Ronald W. Brady, U. of I. vice-president for planning and allocation, treasurer; Robert D. Franks, U. of I. assistant to the vice-president for planning and allocation, and Robert N. Parker, U. of I. chief accountant, assistant treasurers; Joseph W. Skehen, executive director; James C. Colvin, staff associate; R. Ross Mayor, secretary and director for annual giving; Robert A. Gordon Jr., assistant secretary and director for planned giving; Gene Vance, assistant secretary and director for the Urbana-Champaign campus; Donald L. Blank, director for the Medical Center, Chicago; Susan Sundman, director for Chicago Circle, and T. Dwight Eddleman, director, grants-in-aid.

---

UNIVERSITY OF ILLINOIS PRESS, with offices at Chicago Circle and Urbana-Champaign campuses, publishes scholarly books, journals and monographs; nonfiction books of general interest, and a series of paperbacks under the title Illini Books. Since it was established in 1918, the Press has published 1,200 books, five series of monographs and seven quarterly journals. Director is Miodrag Muntyan.

The educational missions of the University of Illinois--in teaching, research and public service--are all future oriented. The University is attempting to plan for the days and years ahead in terms of its best estimates of society's educational needs. A central aim is to admit young people who have great potential and to provide them with some of the skills, with some of the knowledge and with a large measure of the motivation needed to convert their potential into day-to-day contributions to mankind. The University's task has never been to create finished products but rather to produce individuals with the abilities and the inclination to continue a lifelong process of individual and societal growth and development.

TEACHING. First degrees from then Illinois Industrial University were granted on June 6, 1877. Illini Years, picture history of the University from its beginning in 1868 through 1950, notes "One of the requirements for graduation was the delivery of a 500-word oration in chapel during the senior year." Requirements and curricula have changed considerably since those early years. The U. of I., utilizing the strengths of an organic institution involving three distinct campuses, continues to open new doors to educational opportunities without the usual constraints of intercampus organization. At Chicago Circle, the College of Engineering has embarked on a cooperative program with the Medical Center campus in the area of bioengineering. . . a new College of Urban Sciences is another example of efforts at the campus to relate closely to its predominantly urban clientele. Scope of advances at the Medical Center, Chicago, includes construction of phase two of the new College of Dentistry building for graduate instruction and research, and opening of the new Library of the Health Sciences, one of the ten largest health sciences libraries in the United States. At Urbana-Champaign, a \$280,500 Carnegie Corporation grant is supporting an experimental program designed to allow undergraduates to earn a bachelor's degree in three years instead of the traditional four. . . construction of a new large animal clinic and hospital in the College of Veterinary Medicine will increase training opportunities in that profession.

RESEARCH. Current projects underway at the three campuses include . . . a study of bilingual children with support of \$125,758 from the National Institute of Education to Urbana-Champaign . . . continued research into problems of urban mass transportation with \$100,000 from the U. S. Department of Transportation to Chicago Circle . . . Center for Genetics at the Medical Center received \$69,739 in continued support from U. S. Public Health Service, which also allocated \$187,620 for emphysema and viral respiratory disease research . . . a global study of emotional reactions to words at Urbana-Champaign received \$168,000 in federal grants, bringing total funds for the project since 1963 to \$717,800 from National Science Foundation and \$777,097 from National Institute of Mental Health.

SERVICE. Annual statistics reported by a sample of University units . . . World Heritage Museum hosted 9,090 visitors while Krannert Art Museum recorded 86,638 visitors during 1972-73 at Urbana-Champaign. . . U. of I. Hospital at the Medical Center processed 829,629 laboratory tests and handled 282,030 clinic visits during the year . . . U. of I. Willard Airport at Savoy continued as third busiest in the state, logging 237,363 takeoffs and landings during the year, and serving nearly 200,000 passengers . . . more than 500 off-campus classes were offered through the Office of Continuing Education and Public Service at Urbana-Champaign and Extension Services at Chicago Circle, with more than 10,000 citizens participating, and another 13,000 individuals took part in conferences, short courses and institutes.

CHANCELLOR is Warren B. Cheston, 2833 University Hall, 996-3300. Vice-chancellor is Eugene Eidenberg, 2832 University Hall, 996-3200. Vice-chancellor for academic affairs is Arnold B. Grobman, 2703 University Hall, 996-3203. Vice-chancellor for operations is Robert P. Bentz, 2800 University Hall, 996-4884. Associate chancellor is Nan E. McGehee, 2801 University Hall, 996-4878. (Area Code 312)

---

THE CHICAGO CIRCLE CAMPUS was opened on February 22, 1965 as the successor to the Chicago Undergraduate Division which, during nearly 20 years of service to the college-commuting students of the Chicago area, provided the first two years of college and pre-professional work for more than 100,000 students attending Navy Pier. The 118-acre commuter campus is located on the southwest corner of the intersection of the Eisenhower, John F. Kennedy and Dan Ryan expressways and takes its name from this cloverleaf, known as the Chicago Circle.

To facilitate movement of large groups of students when classes change, the campus focuses on a lecture center whose roof provides a central "Great Court" connected by second floor walks to other buildings, parking areas and a Rapid Transit station. Around this court are low-rise classroom and laboratory buildings, a library and the student union. Classroom and laboratory buildings are usable for different types of courses-- there are no separate "biology" or "chemistry" buildings. Office and seminar rooms, used by smaller groups with more evenly distributed traffic, are in elevator-served high-rise buildings just off the campus center. Plant value is \$173,864,112. (See map, page 21.)

Work for the baccalaureate degree is offered in the colleges of Architecture and Art, Business Administration, Education (including the School of Physical Education), Engineering and Liberal Arts and Sciences. Master's programs currently are offered through the Graduate College in 30 fields of study; doctoral programs, available in 12 areas. The first commencement was held June 18, 1967, although some students were awarded degrees in June, 1966. 1973 fall quarter enrollment is 19,109. The total Circle complex consists of 26 buildings.

---

STUDENT SERVICES are provided by the dean of student affairs who integrates academic and social experiences of students. Included under the broad designation of student services are new student orientation, counseling, financial assistance, notary services, extra-curricular activities, and other related services. Offices under the dean of student affairs include Office of Financial Aid and Student Employment, Counseling Service, Health Service, Office of Veteran Affairs, Foreign Student Affairs, Dean of Men and Dean of Women. Dean of student affairs is Oscar Miller; associate deans are Warren O. Brown (dean of men) and Marie L. Johnson (dean of women). No housing is provided by the University, but housing listings are available from the dean of student affairs.

---

CHICAGO CIRCLE CENTER, 750 S. Halsted Street, is "home" to students between classes and at mealtime. Facilities in the block-long complex, composed of two buildings connected by an enclosed link, serve the recreational needs of the campus community, provide food service for all on the campus, offer cultural programs and accommodate student activities offices and lounges. Director is Dale N. Brostrom.

HEALTH SERVICE provides temporary day care for students and clinic services for both preventive medicine and treatment. The University does not provide hospital care for its students because the large majority are from families living in the Chicago area. Director is Vidvuds Medenis, M. D. Open Monday through Friday, 8 a. m. - 5 p. m.

JANE ADDAMS' HULL-HOUSE AND RESIDENTS' DINING HALL have been restored by the University of Illinois as a memorial to a great urban social work pioneer, Jane Addams, and to her associates and the programs they initiated. Inside the mansion visitors may view displays depicting the life and work of Miss Addams and walk through rooms restored to look as they did when she used them in her work. A library of materials about Jane Addams' Hull-House, its residents, neighbors and programs is located on the second floor of the main building. The building, located on the original site, was named a National Historic Landmark when it was reopened, June 14, 1967. More than 81,103 persons have visited it since then, including 15,778 in 1972-73. Curator is Miss Mary Lynn McCree.

GRADUATE COLLEGE offers master's programs in anthropology, bioengineering, biological sciences, chemistry, criminalistics, criminal justice, economics, energy engineering, English, ethnic studies and foreign literatures, geography, geological sciences, German, history, information engineering, linguistics, materials engineering, mathematics, philosophy, physics, political science, psychology, Russian, Slavic studies, social work, sociology, Spanish, Spanish-American studies, speech and theatre, and urban planning and policy. Doctoral work is offered in bioengineering, biological sciences, chemistry, engineering, German, history, information engineering, mathematics, philosophy, physics, psychology, and sociology. Additional master's and doctoral programs are being developed. Faculty includes adjunct professors associated with Argonne National Laboratory, Field Museum of Natural History, Morton Arboretum, private business, Rush Medical College and state agencies. Dean is Jan Rocek.

COLLEGE OF ARCHITECTURE AND ART serves as a center for study and investigation in visual and plastic arts and offers professional curricula in architecture and several specialized areas. Emphasis is on the creative process within a broadly cultural educational program. Principles and methodology are stressed rather than resultant form and changing styles. Dean is Bertram Berenson.

COLLEGE OF BUSINESS ADMINISTRATION has established its curricula to promote three objectives: 1) to provide its graduates with a liberal education background, 2) to equip them with a well-balanced foundation in functional fields of business together with a degree of competence in use of the analytical tools of management and 3) to enable them to acquire some specialized training in accounting, economics, finance, management, marketing or quantitative methods. Dean is Irvin L. Heckmann.

COLLEGE OF EDUCATION, established to provide professional study in education, offers the professional courses for students preparing to teach in elementary and secondary schools. Courses in general education and in the areas of specialization for students preparing to teach in secondary schools are administered by and taught in the various departments of the university. Students preparing to teach physical education enter the School of Physical Education, and those preparing to teach subjects in the secondary schools enter the College of Liberal Arts and Sciences. Dean is Van Cleve Morris.

SCHOOL OF PHYSICAL EDUCATION includes men's and women's programs designed to fulfill the students' interests and need for physical education activities. The School offers a professional curriculum leading to a bachelor's degree for students interested in teaching, coaching, research, dance, exercise therapy, recreation or related fields. The School also administers a complete program of intercollegiate athletics for men and women and a full intramural program. Director is Sheldon L. Fordham.

COLLEGE OF ENGINEERING has been organized on a basis which is essentially an alternative to the traditional organization along professional lines. Departmental structure and course offerings are organized along functional areas. Departments are energy engineering, information engineering, materials engineering and systems engineering. There is in addition a bioengineering program. Acting dean is Herbert J. Stein.

---

COLLEGE OF LIBERAL ARTS AND SCIENCES provides a program of breadth and depth in the tradition of liberal education. Additionally, the College is a service unit for other colleges in its offerings of fixed programs of preprofessional and professional training. Departments are anthropology, biological sciences, chemistry, classics, criminal justice, English, French, geography, geological sciences, German, history, linguistics, mathematics, music, philosophy, physics, political science, psychology, Slavic languages, sociology, Spanish, and speech and theatre; also programs in Black studies and Latin American studies. Acting dean is Richard M. Johnson.

---

COLLEGE OF URBAN SCIENCES is the newest college of the Chicago Circle campus. It was established to provide additional strength and sharpened focus to the urban mission of the campus. The multi-disciplinary core faculty is augmented by faculty from other departments of the campus and University system, as well as from business, public service, and governmental agencies of the metropolitan Chicago area. Research and community service activities initiated under the Center for Urban Studies continue as an integral part of the College. In addition, a new graduate level curriculum leading to a Master's of Urban Planning and Policy is offered as the College's first academic program. Dean is Charles J. Orlebeke.

---

ATHLETIC FACILITIES include a \$7 million Physical Education Building, opened in 1970, which houses a 2500-seat gymnasium, Olympic size swimming pool, auxiliary gymnasium and swimming pool, wrestling room, weight training room, six handball courts, two squash courts and a modern training room. Fields for baseball, soccer and field hockey are adjacent to the P.E. Building. Nine tennis courts are located across from the student union.

---

INTERCOLLEGIATE ATHLETICS involve 13 men's sports, including baseball, basketball, cross country, fencing, football, golf, gymnastics, ice hockey, soccer, swimming, tennis, track and field and wrestling. Five individual national titles and 27 All-American certificates have been earned by Chicago Circle athletes in the last three years. The women's program has teams in basketball, gymnastics, field hockey, softball, tennis, track and field and volleyball. A member of the volleyball team competed for the U.S. at the 1973 World University Games. Director of athletics is Walter G. Versen.

---

CHIKAS FOOTBALL SCHEDULE FOR 1974:

- Sept. 21. . . . At Grand Valley State College
  - Sept. 28. . . . Eastern Illinois University
  - Oct. 5. . . . At Valparaiso University
  - Oct. 12. . . . At University of Wisconsin-Milwaukee
  - Oct. 19. . . . At Milton College
  - Oct. 26. . . . Wayne State University
  - Nov. 2. . . . Southwest Missouri State College
  - Nov. 9. . . . Mankato State College
- (Home games are played at Soldier Field)

Vice-chancellor is Donald J. Caseley, 414 Administrative Office Building, 996-6400.  
Vice-chancellor for health services is H. Martin Engle, 115 Hospital Addition, 996-6801.  
Associate chancellor is Anthony J. Diekema, 414 Administrative Office Building,  
996-8060. (Area Code 312)

---

THE MEDICAL CENTER CAMPUS includes teaching, research and service units in the health sciences. This campus is part of the Medical Center district on Chicago's near West Side, one of the largest medical centers in the world. Four colleges of the University, the Graduate College, School of Public Health, hospital, clinics and other units are located in 14 major and several other buildings on 40 acres of land. Plant value is \$125,794,933. The campus has close working relationships with adjacent medical institutions such as Cook County Hospital and West Side Veterans Administration Hospital. 1973 fall quarter enrollment is 4,031. The campus can be reached via Douglas Park subway to Polk Street station or Congress subway to Ogden Avenue station. (See map, page 20.)

---

CHICAGO ILLINI UNION, 828 S. Wolcott Avenue, is the community center for out-of-class life on the University of Illinois Medical Center campus. The union includes food service, conference and meeting rooms, recreation areas, bookstore and other basic facilities. An information desk in the lobby serves visitors and guests Monday through Friday. Campus-wide tours begin in the union. Director is Clarence C. Leverenz.

---

STUDENT ASSISTANCE is available from deans and staffs of the various colleges and departments and from the Office of Student Affairs, 1737 West Polk Street. Major functions within the Office of Student Affairs are the Counseling Service, Dean of Women, the Office of Financial Aids, Foreign Personnel Office, Veterans' Affairs, and recognition and liaison with student organizations, including student councils. The dean of student affairs is William A. Overholt; dean of women is Mary E. Reeves.

---

HOUSING in residence halls accommodates 589 students. Staff apartments provide 145 units. Director, at 818 S. Wolcott Avenue, is Jack K. Sims.

---

HEALTH SERVICE, 840 S. Wood Street, is responsible for examinations, immunization and treatment of students at the campus. Students requiring hospitalization may be considered for admission to University of Illinois Hospital or may elect private hospitalization. The service also is responsible for examination, immunization and care of accidents or sudden illnesses of University employees. Hours are weekdays, 8:30 a. m. - 5 p. m.; Saturday, 8:30 a. m. - noon. The hospital emergency service cares for students and employees when the health service is not open. Director is Marvin J. Colbert, M. D.

---

LIBRARY OF THE HEALTH SCIENCES, 1750 West Polk Street, is one of the ten largest health sciences libraries in the United States. It serves all colleges, institutes, schools, the University of Illinois Hospital and other units of the campus, as well as all affiliated institutions in Chicago, Peoria, Rockford, and Urbana. It is one of the designated resource libraries of the Midwest Regional Medical Library. Over 3,000 current periodicals are received and the collections totals 250,492 volumes. The Library moved into a new \$6,000,000 building in September 1973. Irwin H. Pizer is University librarian.

---

SCHOOL OF PUBLIC HEALTH, 2035 West Taylor Street, is a graduate level program, including the Center for the Study of Patient Care and Community Health, which opened in fall of 1972 as the first of its kind in Illinois. Dean is Paul Q. Peterson.

GRADUATE COLLEGE, 1737 W. Polk Street, offers master of science and doctor of philosophy basic science programs in human anatomy, biological chemistry, microbiology, pathology, pharmaceutical chemistry, pharmacognosy, pharmacology, pharmacy, physiology, and in some applied areas. Curricula are designed especially for students planning academic careers in teaching and research. The emphasis is on the relationship between the basic medical sciences and their clinical applications. Dean is Arnold V. Wolf.

---

UNIVERSITY OF ILLINOIS HOSPITAL, 840 S. Wood Street, is a 600-bed institution concerned with patient care, education and research. It provides patient-centered educational experience for students enrolled in the health professions colleges and the School of Associated Medical Sciences. Facilities include the General Hospital, Eye and Ear Infirmary, Neuropsychiatric Institute and Orthopedic Hospital. There are 36 outpatient clinics and an emergency room that treats more than 40,000 persons annually. The hospital has a complement of 600 physicians and conducts an affiliated graduate training program which includes 418 interns and residents. Approximately 80 per cent of the hospital's patients come from the Chicago metropolitan area and 20 per cent from throughout the state. Chief executive officer is H. Martin Engle; administrator is William J. Hart.

---

COLLEGE OF MEDICINE, 1853 W. Polk Street, opened as an independent institution in 1881, became affiliated with the University in 1897. It has launched a reorganization and expansion program to more than double its enrollment by establishment of three new schools of clinical medicine (at the Medical Center, Peoria and Rockford) and basic medical sciences schools at the Medical Center and Urbana-Champaign campuses. Executive dean is William J. Grove.

THE ABRAHAM LINCOLN SCHOOL OF MEDICINE, 1853 W. Polk Street, three-year clinical curriculum. Acting dean is Melvin Sabshin.

PEORIA SCHOOL OF MEDICINE, 1400 W. Main Street, Peoria 61606, established in 1970 as a 3-year clinical school, present enrollment 70. Dean is Nicholas J. Cotsonas, Jr.

ROCKFORD SCHOOL OF MEDICINE, 1601 Parkview Ave., Rockford 61101, 3-year clinical curriculum opened in 1972. Also offers residency program in family practice. Current enrollment 51 undergraduates and 18 residents. Dean is Robert L. Evans.

SCHOOL OF BASIC MEDICAL SCIENCES, 1853 W. Polk Street, intensive one-year program involving the departments of anatomy, biological chemistry, microbiology, pharmacology and physiology, also the Center for Genetics. The school also offers basic science reinforcement teaching throughout the clinical years. Dean is Truman O. Anderson. A similar school opened at Urbana-Champaign in fall 1971.

METRO-SIX HOSPITALS, includes Chicago-area institutions (Illinois Masonic, Lutheran General, MacNeal Memorial, Mercy, Ravenswood and Weiss Memorial) which are affiliated with the College of Medicine and serve as a clinical resource to The Abraham Lincoln School of Medicine.

CENTER FOR EDUCATIONAL DEVELOPMENT, 901 S. Wolcott Ave., was established in 1959 to provide College of Medicine faculty with professional assistance in the design, implementation and evaluation of its educational programs. Director is George E. Miller.

SCHOOL OF ASSOCIATED MEDICAL SCIENCES, 808 S. Wood Street, offers six professional curricula leading to a baccalaureate degree--medical art, medical dietetics, medical record administration, medical laboratory sciences, occupational therapy, physical therapy. Pre-professional courses are offered by various undergraduate colleges at Chicago Circle and Urbana-Champaign; professional courses are given at the Medical Center. Pre-admission counseling is available through assistant dean Ruth M. French at the Medical Center or assistant dean Richard J. Schimmel at Urbana-Champaign. Dean is Thomas F. Zimmerman.

INSTITUTE FOR JUVENILE RESEARCH, 907 S. Wolcott Avenue, is operated by the State Department of Mental Health. The professional staff hold joint appointments in the department of psychiatry, division of child psychiatry. Director is Frank T. Rafferty.

---

COLLEGE OF DENTISTRY, 801 S. Paulina Street, was founded in 1892 as an independent institution, became affiliated with the University in 1901, a full college in 1913, moved into a new building in 1972. Nine College of Dentistry dental clinics offer service to Illinois citizens while providing training for students and opportunity for research. Dean is Seymour H. Yale.

---

COLLEGE OF NURSING, 845 S. Damen Avenue, was founded in 1943, became a college in 1954, moved into a new 11-story building in 1969. Four-year undergraduate and five-quarter master's degree curricula are offered. In addition, the college coordinates a program in the Graduate College that offers a doctorate in anatomy, microbiology and physiology for registered nurses with baccalaureate and master's degrees. Dean is Mary M. Lohr.

---

COLLEGE OF PHARMACY, 833 S. Wood Street, was founded in 1859 as an independent institution, became a part of the University in 1896, a college in 1932, is still the only such school in Illinois. Departments are medicinal chemistry, pharmacy, pharmacognosy and pharmacology, and pharmaceutical administration. The college operates a climate-controlled greenhouse located in the Morton Arboretum near Lisle. Dean is August P. Lemberger.

---

BIOLOGIC RESOURCES LABORATORY, 1840 W. Taylor Street, built in 1959 and expanded with a two-story addition completed in fall 1971, serves some 28 campus departments with centralized animal research facilities. Director is Robert F. Locke.

---

RESEARCH RESOURCES CENTER, 835 S. Wolcott Avenue, is a research, education and service support center in the areas of animal hospital, bioinstrumentation, environmental stress, electron microscopy machine shop, nuclear magnetic spectroscopy and digital computer facilities. Director is John P. Marbarger.

---

DIVISION OF SERVICES FOR CRIPPLED CHILDREN, 540 Iles Park Place, Springfield, reports to the Medical Center Chancellor. As the official state agency for utilizing federal grants-in-aid for the diagnosis, hospitalization and after-care of children who are crippled or suffering from conditions which lead to crippling, it conducts some 300 clinics throughout the state annually. Director is Edward F. Lis.

---

INSTITUTION FOR TUBERCULOSIS RESEARCH, 904 West Adams, was established in 1947 to pursue research in BCG vaccine and related studies in immunology. It is the only facility in the United States licensed to produce BCG vaccine. Current programs include tuberculosis prevention vaccination programs of children in the inner city of Chicago and study of the use of BCG as a stimulator of the immune system to prevent cancer and for cancer therapy in humans. Director is Ray G. Crispen.

---

ILLUSTRATION STUDIOS produces medical drawings for publications, slides, exhibits, teaching models and other graphic materials for all Medical Center departments. Printing Service is responsible for all campus printing. Head is A. H. Goodwin.

CHANCELLOR is J. W. Peltason, 107 Coble Hall, C., 333-6290. Vice-chancellor for academic affairs is Morton W. Weir, 107 Coble Hall, C., 333-6677. Vice-chancellor for administrative affairs is John W. Briscoe, 107 Coble Hall, C., 333-6536. Vice-chancellor for campus affairs is Hugh M. Satterlee, 310 Student Services Building, C., 333-1300.

THE URBANA-CHAMPAIGN CAMPUS is the oldest and largest campus of the University of Illinois. Seventeen colleges and schools offer undergraduate study, professional courses and advanced work. (See list inside front cover.) Here also are institutes, bureaus, experiment stations and headquarters for extension and other statewide services. The campus comprises 703 acres with 2,794 acres of agricultural experiment fields in the county and a total of 3,483 acres in Illinois. Nearby are timber reservations of 510 acres, 1,171-acre airport, 1,768-acre Allerton Park, 4-H Camp, 331-acre antenna research site, 15-acre Corps of Engineers Research Laboratory site, 476-acre radio telescope site, 82-acre optical telescope site and 41-acre radio direction finding and meteor radar site. The campus has 175 major buildings including residence halls. Plant centering here is valued at \$480,059,723. 1973 fall enrollment totals 34,651.

Urbana-Champaign is one community (population 89,332 in the 1970 Census) composed of two municipalities on opposite sides of a street (Wright Street) passing through the campus. Urbana is the official mailing address for this campus although individual offices may use the name of the city in which they are situated. The community is 136 miles south of Chicago, 86 miles east of Springfield. It is served by Amtrack, Illinois Central Gulf Railroad, Ozark Air Lines, Interstate Highways 57, 72 and 74, U.S. Highways 45 and 150, and Illinois Highways 10 and 130. (See map at center fold.)

ILLINI TRADITIONS include the University motto, "Learning and Labor," school colors, which are orange and blue, and its symbol, the Indian, representing the original inhabitants of Illinois who gave the state its name. From the Illini Indians (pronounced ill-eye-nye) come references to the University's football teams as the "Fighting Illini" and many other references involving the name Illini, as well as Indian-named honorary organizations and Illiniwek, chief of the Illini, symbolized by an authentically Indian-garbed student appearing with the football band and on other occasions.

STUDENT SERVICES are provided by deans and staffs of the various colleges and schools, the Health Service, the Psychological and Counseling Center, the campus ombudsman and other campus agencies. A professional staff is available to students through the Dean of Students Office and its divisions: Office of Student Personnel, Office of Student Programs and Services, Office of Foreign Student-Staff Affairs, Health Professions Information Office, Career Development and Placement Office, Student Financial Aids Office (including employment, loans and scholarships) and others. Staff includes Dean Hugh M. Satterlee, Associate Dean John Scouffas, Dean of Student Personnel Eunice Dowse and Dean of Student Programs and Services Daniel J. Perrino.

CAREER DEVELOPMENT AND PLACEMENT OFFICE assists liberal arts and other non-technical students and graduates, tying together activities of separate college and departmental placement offices. Services include a library of vocational information, a bi-weekly job bulletin, a "correspondence course" on the job search, career development and placement conferences for minorities, women, and government employment, on-campus employment interviews, and career counseling. Director is David S. Bechtel.

HEALTH SERVICE provides office treatment, mental health consultation and hospital care in McKinley Hospital for students. Employees are given treatment for on-the-job accidents and physical examinations and medical clearance for employment. Immunizations are available for both students and staff. Director is Dr. L. M. Hursh.

DIVISION OF ENVIRONMENTAL HEALTH AND SAFETY was created in 1973 to audit, inspect and render reports and recommendations on all aspects of health and safety on the campus including pollution control. Director is Henry H. Koertge.

U. OF I. DADS ASSOCIATION, founded in 1922, has approximately 5,500 members. It carries on activities to benefit students, parents and the University, including financing emergency loans, publishing the Dads Illini nine times each year, arranging Dads Day weekend events on campus and sponsoring special projects. During the Summer Advance Enrollment Program for new students, the Dads Association in cooperation with the Mothers Association conducts orientation meetings on campus each day for parents of new students. Through an advisory committee of approximately 275 county chairmen from all parts of the state, direct needs of parents can be brought to the attention of the association. Representation on the Chancellor's Parents Liaison Committee provides an effective channel of communication between the University administration and parents. Executive secretary is Stanley Rahn, 110 Student Services Building, C., 333-7060. President is Frank J. Babich, Downers Grove.

---

U. OF I. MOTHERS ASSOCIATION was founded in 1923 to serve the University and its students. The association maintains a personal relationship between University and parents as well as with all citizens of the state. Advisers to the executive board include 150 mothers, representing the 102 Illinois counties, who assist in the planning and implementation of the association's projects and activities. Ongoing projects and activities include undergraduate scholarships, contributions to the Student Aid Fund, Book Awards recognizing superior academic achievement of first-year freshmen, annual award of a Medallion of Honor to a person who by example and service has enriched the lives of others, and publication of a quarterly newsletter, Illi Notes, for members of the association. The group cosponsors area and county meetings with the Dads Association and cooperates with the Summer Advance Enrollment Program in meeting with parents during the parent orientation sessions. The association also cosponsors Mothers Day weekend activities with many student groups. Mothers weekend will be April 19-21, 1974. Executive secretary is Mrs. Elouise Worthy, 110 Student Services Building, C., 333-7060. President is Mrs. John Mosser, Danville.

---

STUDENT HOUSING is provided both privately and by the University. The Housing Division is in charge of all University-owned facilities and approves most other single undergraduate student housing. Various private homes, private residence halls, apartments and trailers house approximately 16,500 single and married students, both undergraduate and graduate 850 live with parents or relatives, 900 commute from neighboring communities. The 52 undergraduate and 2 graduate fraternities house 2,500 men the 25 sororities, 1,100 women. University residence halls for single undergraduates and graduates provide space for 5,527 men and 4,677 women. Permanent University housing provides accommodations for 985 married students. Other living arrangements of various types have been made by approximately 1,000 students. The University owns a number of houses locally which are leased on a short-term basis to new staff members until they find other homes in the community. Director is Sammy J. Rebecca.

---

VISITOR HOUSING is available in hotels, motels and a few private homes. Some University housing is available for groups and special meetings. Lists of hotels and motels with accommodations, rates, addresses and phones are available upon request from Urbana Association of Commerce, P.O. Box 459, 121 South Race Street, U., phone 328-3465, or from Champaign Chamber of Commerce, P.O. Box 37, 109 West University Avenue, C., phone 359-1791. A limited list of private homes with overnight housing is available from the Housing Information Office, 420 Student Services Building, C., open Monday through Friday, 8 a.m. - 5 p.m., 333-1420. The owners of these homes have signed pledges assuring the University that race, religion or national origin will not be considered in renting overnight accommodations in their homes to persons utilizing this listing service. Group housing in University facilities is arranged through the Conference Housing Office, Room 150, Clark Hall, C., 333-1766.

ILLINI UNION is front door to the campus and a community center for students, faculty, alumni and visitors. Built and furnished without cost to the state treasury, it includes lounges, food services, paperback book center, meeting and game rooms, browsing library, ticket sales, information desks and other services. Director is Earl F. Finder.

---

ASSEMBLY HALL is a multi-purpose building for such events as convocations, concerts, opera, ballet, stage productions, ice shows, basketball, exhibits and other activities. A wide range of major cultural and entertainment events are presented annually. It has the world's largest edge-supported dome, 400 feet in diameter, arching 128 feet above the activity floor. There are 16,000 permanent seats. Various set-ups within the building provide seating capacities of 3,600, 4,200, 7,700, 10,000, 16,000 and 17,000 people. Scenery and lights for stage productions are suspended from an electronically controlled grid at the center. The building, ultramodern and unique in design, was completed in 1963 at a cost of \$8,000,000. Since its opening, more than five million patrons have attended a wide variety of events. No tax funds were used in construction. Building income and student fees are used to pay for bonds and operations. Student and University activities have priority in use of the hall. Director is Thomas P. Parkinson.

---

KRANNERT CENTER FOR THE PERFORMING ARTS consists of four indoor theatres--the Great Hall, a concert hall seating 2,092; the Festival Theatre, 979; the Playhouse, 678; the Studio Theatre, 150, plus an open-air amphitheatre seating 560. The Center, which cost \$21 million, includes rehearsal rooms, scenery and costume shops, seminar and conference rooms, indoor parking for more than 600 cars and other technical facilities. It opened in April, 1969 and has attracted 540,896 people in audiences during the first four years of operation. Principal donors for the Center, which operates on a year-round basis as an educational facility for the University and cultural center for the community and the state, were Mrs. Herman C. Krannert and the late Mr. Krannert, Indianapolis. Director is Michael Brotman.

---

MUSEUMS AND EXHIBITS OPEN TO THE PUBLIC INCLUDE:

Illini Union has a formal art gallery on the first floor, open daily, 8 a. m. - 9 p. m., and a corridor exhibit near the cafeteria, open daily, 7 a. m. - midnight.

Krannert Art Museum provides galleries for the University's permanent art collections and special exhibitions. The building was financed by gifts from alumni, principally Mrs. Herman C. Krannert and the late Mr. Krannert, Indianapolis, the Merle J. Trees family, Chicago, and the Class of 1908. Open Monday through Saturday, 9 a. m. - 5 p. m.; Sunday, 2-5 p. m. Closed on national holidays. Director is Allen S. Weller.

Library corridors present rotating exhibits in literature and fine arts. Open Monday through Saturday, 8 a. m. - 5 p. m.; Sunday, 2-11 p. m.

Natural History Museum, third and fourth floors and corridor exhibits in the Natural History Building, U. Main display galleries are rooms 319, 436 and 440. Open Monday through Saturday, 8 a. m. - 5 p. m. Leaders of group tours should make an appointment in advance. Director is D. F. Hoffmeister.

World Heritage Museum, 484 Lincoln Hall, U., is open during the academic year Monday through Friday, 9 a. m. - noon, 1-5 p. m.; Saturday, 9 a. m. - noon; Sunday, 2-5 p. m. Summer session hours are Monday through Friday, 10 a. m. - noon, 1-3:30 p. m. Escorted tours are available by advance appointment. Director is Georgette Meredith.

---

UNIVERSITY THEATRE, Krannert Center for the Performing Arts, presents a subscription series of full-length productions during the academic year, plus a series of six full-length experimental productions and two productions for children. In addition, it stages approximately 20 bills of short pieces in the Armory Theatre. During the summer session, it presents several additional productions. University Theatre is the producing agent for the department of theatre and is a student activity.

COMPUTER-BASED EDUCATION RESEARCH LABORATORY, established in 1967, is responsible for the development and implementation of PLATO, a sophisticated computerized teaching system. It is anticipated that the system will have 4,000 graphic-display terminals connected to a single central computer system by 1975. Director is Donald L. Bitzer.

---

GRADUATE COLLEGE was formally established in 1908, although the University had been offering advanced courses since 1874. Graduate faculty is composed of selected members of faculties of the various colleges. Associated with the College are the Center for Advanced Computation, Center for Advanced Study, Children's Research Center, Committee on Housing Research and Development, Committee on Natural Areas, Department of Computer Science, Illinois Historical Survey, Laboratory for Atmospheric Research and Office of Laboratory Animal Care. Acting dean is George A. Russell.

CHILDREN'S RESEARCH CENTER, established in 1963, is an interdisciplinary unit of the Graduate College concerned with both basic research and its application in service settings. Satellite operations, in addition to the campus laboratory and office facility, include a day care center, nursery schools, classes for exceptional children, laboratory facilities in state institutions and mobile laboratories for field work. Director is Robert L. Sprague.

DEPARTMENT OF COMPUTER SCIENCE was established in 1949 to carry out research and teaching in design of high-speed computers and components and research and teaching in numerical analysis and programming associated with use of a high-speed digital computer. The Department currently offers research and degree programs which provide broad coverage of the discipline of computer science. Department head is James N. Snyder.

---

INSTITUTE FOR ENVIRONMENTAL STUDIES, established in 1972, includes the Metals Task Force, the Toxic Substances Task Force, the Water Resources Center and the Center for Human Ecology. Director is Benjamin B. Ewing.

---

INSTITUTE OF GOVERNMENT AND PUBLIC AFFAIRS, established in 1947, undertakes research on problems of state and urban government and politics, contributes to preparation of students for public service and arranges conferences for officials and others concerned with public affairs. It furnishes a consulting service to the elected officials of Illinois state and local governments. Director is Samuel K. Gove.

INSTITUTE OF LABOR AND INDUSTRIAL RELATIONS was established in 1946. Its functions include graduate professional training, research on industrial relations topics and extension services in cooperation with the Office of Continuing Education and Public Service. It arranges classes, short courses and conferences and publishes results of research. Director is Melvin Rothbaum.

---

COLLEGE OF LAW was established in 1897. Applicants for entrance must have a bachelor's degree from an accredited four-year college or university. Work in the College takes three years to complete. The College publishes the quarterly Law Forum with each issue devoted to a current professional problem discussed by experts in the field. The College offers J. D., M. C. L., LL. M. and J. S. D. degrees. Dean is John E. Cribbet.

---

GRADUATE SCHOOL OF LIBRARY SCIENCE started in 1893 at Armour Institute, Chicago, was the first library school west of the Alleghenies. It became a part of the University in 1897 and offers M. S., C. A. S. (certificate of advanced study), Ph. D. and D. L. S. (doctor of library science) degrees. Director is Herbert Goldhor.

COLLEGE OF VETERINARY MEDICINE was established in 1944 with the first class accepted in 1948. Present enrollment is 321 professional college and 38 graduate and post-graduate students. Departments are biological structure, clinical medicine, pathology and hygiene, and physiology and pharmacology. The Diagnostic Laboratory of the college receives many specimens from throughout the state and conducted an estimated 60,500 tests on 12,700 accessions during 1972. Veterinary medical clinics provide training for students and opportunity for research, at the same time offering service to citizens of the state. In 1972-73 the Small Animal Clinic handled 10,233 patients, 1,305 were treated in the Large Animal Clinic and 21,759 through the farm service program of the Ambulatory Clinic. Dean is L. Meyer Jones.

---

COLLEGE OF AGRICULTURE was one of the original units when the University opened in 1868. Departments are agricultural economics, agricultural engineering, agronomy, animal science, dairy science, food science, forestry, home economics, horticulture and plant pathology. Other areas under the college are agricultural communications, international agricultural programs, entomology research and extension, veterinary research and extension, and vocational agriculture services. Dean is Orville G. Bentley.

AGRICULTURAL EXPERIMENT STATION was established in 1888 and coordinates research in agriculture, home economics and veterinary medicine, emphasizing the economic and sociological aspects of man and his environment. The research is conducted on the campus and at statewide field facilities. Results are distributed later through the statewide educational activities of the Cooperative Extension Service and in scientific journals. Director is G. W. Salisbury.

COOPERATIVE EXTENSION SERVICE was established in 1914. It has state specialists and supervisors in agriculture, home economics, 4-H Club work and community resource development plus extension advisers serving all the state's 102 counties. Director is John B. Claar.

4-H CLUB activities, organized in 1915 under the leadership of the Cooperative Extension Service, are carried on through 4,500 clubs located in every county, involving 78,000 youths and more than 17,000 adult leaders. State leader of 4-H work is Richard O. Lyon.

FARMS and agricultural fields consist of 2,600 acres, including 1,850 acres adjoining the campus in Champaign County. Experimental areas are located in Cumberland, DeKalb, Edwards, Fayette, Hancock, Hardin, Henry, Lee, Logan, Mercer, Saline, White and Will counties. A horticultural experiment station and an agronomy research center, located in Jackson County, are operated jointly with Southern Illinois University.

DIXON SPRINGS AGRICULTURAL CENTER in Southern Illinois includes 5,000 acres of land leased in the Shawnee National Forest area. The Center continues to be a valuable research and demonstration site with emphasis on good land use through agronomic and livestock production activities. Director is Clarence J. Kaiser.

OFFICE OF INTERNATIONAL AGRICULTURAL PROGRAMS was formally organized in 1966, although the College of Agriculture long has been involved in international programs. Staff members are involved in the MUCIA project in MUCIA-AID-INDONESIAN HIGHER AGRICULTURAL EDUCATION PROJECT in Indonesia. INTSOY, an international soybean program, promotes soybeans as a source of protein to improve human nutrition on a world-wide basis. Efforts continue to expand opportunities for overseas experience for students. Director is W. D. Buddemeier.

---

OFFICE OF INTERNATIONAL PROGRAMS AND STUDIES has since 1962 been serving as a clearinghouse for information to students, faculty and the general public and as campus-wide coordinator of resources and interests in the international area. Director is George K. Brinegar.

COLLEGE OF COMMERCE AND BUSINESS ADMINISTRATION was established in 1915. Departments are accountancy (including the Center for International Education and Research in Accounting), business administration, economics and finance. Dean is Vernon K. Zimmerman.

BUREAU OF BUSINESS MANAGEMENT of the College of Commerce was established in 1948 to assist Illinois businesses with management problems. It presents conferences, institutes and short courses through the Office of Continuing Education and Public Service and other University agencies, assists chambers of commerce and business associations, publishes monographs for small businesses, does applied research in business, carries on management counseling and other activities. Director is Joseph O. Weisenberg.

BUREAU OF ECONOMIC AND BUSINESS RESEARCH of the College of Commerce was established in 1921. As the research department of the College, it promotes and supports faculty research. It also studies business and general economic problems, particularly on subjects of interest to Illinois, and transmits findings and data to businessmen and others interested. Regular publications are the monthly Illinois Business Review and the Quarterly Review of Economics and Business. Director is V. Lewis Bassie.

EXECUTIVE DEVELOPMENT CENTER of the College of Commerce was established in 1957 to be an educational center for business administrators. Its interest is management education in business, government, military and other types of institutions and organizations. Activities include month-long summer Executive Development Program and other sessions for outstanding business executives. Director is Edward L. Allen.

---

COLLEGE OF COMMUNICATIONS was established as the School of Journalism in 1927, became the College of Journalism and Communications in 1957, then the College of Communications in 1968. It includes the departments of advertising, journalism and radio-television, the Institute of Communications Research and the Division of University Broadcasting. Dean is Theodore Peterson.

INSTITUTE OF COMMUNICATIONS RESEARCH, a pioneer research unit in communications, was established in 1947 to encourage an interdisciplinary approach to basic research in all aspects of human communications. Staff members hold joint academic appointments in the behavioral and social sciences and in journalism. It includes the Center for Comparative Psycholinguistics. Director is James W. Carey.

BROADCASTING activities of the University were begun in 1922. WILL, 580 kilohertz, 5,000 watts, is an educational, noncommercial station operating Monday through Sunday, 7 a. m. - local sunset. Bimonthly program schedules are free on request. WILL-FM, 90.9 megahertz, 105,000 watts E. R. P., carries similar cultural and educational programs Monday through Friday, 3-10 p. m.; Saturday, 1-10 p. m. WILL-TV, channel 12, 316 kilowatts, presents noncommercial programs Monday through Friday, 9 a. m. - 10 p. m.; Sunday, 4-10 p. m. The Motion Picture Production Center is in charge of producing films for educational uses. Broadcasting director is Donald P. Mullally.

---

ILLINI PUBLISHING COMPANY was incorporated in 1911 to publish the student newspaper at the Urbana-Champaign campus. Its operation includes The Daily Illini, tabloid newspaper now in its 103 year of publication, issued five mornings a week during the academic year and four mornings a week during the summer session, a member of the Associated Press, Chicago Daily News, Sun Times Press Service, Inland Daily Press Association, American Newspaper Publishers' Association, The Advertising Bureau; The Illinois Technograph, published four times each academic year, an engineering student magazine; Illio, student yearbook, and WPGU, student radio station. WPGU, 107.1 megahertz, with an effective radiated power of 3,000 watts, covers a 40-mile radius of Urbana-Champaign. It is affiliated with ABC and UPI, is a member of the National Association of Broadcasters and operates 24 hours a day. Richard Sublette is IPC general manager.

COLLEGE OF EDUCATION was established in 1905. Departments are administration and supervision, educational psychology, elementary education, history and philosophy of education, secondary and continuing education, special education, vocational and technical education. Separate administrative units are Bureau of Educational Research; Center for Instructional Research and Curriculum Evaluation; Curriculum Laboratory, including University High School; Institute for Research on Exceptional Children, and the Office for the Study of Continuing Professional Education. Dean is J. Myron Atkin.

---

BUREAU OF EDUCATIONAL RESEARCH, established in 1918, conducts studies in curriculum and instruction, educational psychology, educational sociology and anthropology, school administration and finance of education, vocational-technical education and aesthetic education. Research is directed toward advancement of knowledge that contributes to analysis of problems in education and to the preparation of teachers and other professional leaders. Director is William P. McLure.

---

CENTER FOR INSTRUCTIONAL RESEARCH AND CURRICULUM EVALUATION works with national curriculum projects and individual schools on effects of curriculum innovations. It scores tests for schools, helps with interpretation and through its Statewide Testing Program in 1972-73, gave educational and aptitude tests to some 30,000 students in more than 300 high schools in Illinois. Director is J. T. Hastings.

---

CURRICULUM LABORATORY was established in 1965 to promote and coordinate innovative activities in four areas: 1) school curriculum design, development and evaluation; 2) pre-service education of teachers and graduate and postdoctoral education of future educational leaders and researchers; 3) research on evaluation of curricula and research on diffusion of the results of work in the above three areas to schools, and 4) assistance to individual schools and school systems on problems related to curricula. The Laboratory is comprised of the English Curriculum Development Project, Social Studies Curriculum Development Project, UICSM Mathematics Projects, the Madison Project (mathematics), University High School, the Booker T. Washington School Project, a Teacher Center Project, a PLATO Courseware Project, a project on the cognitive development of children and a project on curricula in non-school settings (especially prisons). Director is Robert B. Davis.

UNIVERSITY HIGH SCHOOL, established in 1921 as a laboratory school for the College of Education, serves as the primary secondary school laboratory facility for the Curriculum Laboratory and has a 1973 enrollment of 188 students. Major emphasis is on research and development in curriculum and organizational design. Acting principal is Russell E. Zwoyer.

WASHINGTON SCHOOL TEACHER EDUCATION CENTER is a joint project by Champaign Community Unit School District No. 4 and the University through the department of elementary education of the College of Education. Its role is to research and evaluate teacher needs for continuing professional growth, to design and implement strategies to meet these needs and to evaluate the effect of the strategies. It includes research and dissemination of research, inservice courses, workshops, individual consultations and material development. Coordinator is Susan Marks.

---

INSTITUTE FOR RESEARCH ON EXCEPTIONAL CHILDREN, established in 1952, is world's first institute for research on education of both handicapped and gifted children. It carries on activities in cooperation with state departments of public instruction and mental health. Additional support has been received from U. S. Department of Health, Education and Welfare and other national organizations. Director is Keith G. Scott.

COLLEGE OF ENGINEERING was one of the original units when the University opened in 1868. The college includes the departments of aeronautical and astronautical engineering, ceramic engineering, civil engineering, electrical engineering, general engineering, mechanical and industrial engineering, metallurgy and mining engineering, physics and theoretical and applied mechanics, and the nuclear engineering program. The college jointly administers agricultural engineering with the College of Agriculture and chemical engineering with the School of Chemical Sciences. All except general engineering offer doctoral degrees. These degree programs also include courses of study in the interdisciplinary areas of bioengineering, materials engineering, fluid dynamics and environmental engineering. The college also operates two major interdisciplinary research laboratories: Coordinated Science Laboratory and Materials Research Laboratory. Dean is Daniel C. Drucker.

ENGINEERING EXPERIMENT STATION, established in 1903, coordinates the overall research program of the College of Engineering, involving 10 degree-granting curricula and two major interdisciplinary laboratories. The station conducts more than 600 research projects involving \$14,400,000, of which approximately \$10,700,000 is from the federal government, \$758,000 is from private nonprofit organizations, business and industry, \$1,071,000 from state appropriated funds separately budgeted for research, \$325,000 from state contracts and \$1,529,000 from institutional funds. Director is Ross J. Martin.

HIGHWAY TRAFFIC SAFETY CENTER coordinates, on a University-wide basis, present and future programs in the field of highway traffic safety. The center works with public and private agencies, conducts research, short courses and conferences and advises on traffic safety problems. Director is John E. Baerwald.

JUNIOR ENGINEERING TECHNICAL SOCIETY (JETS), nationwide organization to acquaint high school students with engineering, has state headquarters in the College of Engineering. This office coordinates and provides service and information to chapters, their advisers and professional engineers to assist chapters. State director is David C. O'Bryant; Chicago area coordinator, Dean Henry A. Setton, Chicago Circle campus; Peoria area coordinator, Joseph T. Emanuel, Bradley University.

PRAIRIE OBSERVATORY, located 40 miles southeast of campus, near Oakland, has two optical telescopes. The main instrument is a 40-inch reflector, equipped with direct camera, photoelectric photometer and a Cassegrain spectrograph. In addition, a four-inch wide angle camera is available, for both direct and diffraction-grating photography.

VERMILION RIVER OBSERVATORY, five miles southeast of Danville, is the site of a 120-foot steerable radio telescope. This project is under the departments of astronomy and electrical engineering. The department of electrical engineering also maintains the Geophysical Observatory on campus to collect satellite radio data.

---

COLLEGE OF FINE AND APPLIED ARTS was established in 1931. In it are the departments of architecture, art and design, dance, landscape architecture, theatre and urban and regional planning; Krannert Art Museum (p. 27); Krannert Center for the Performing Arts (p. 27); School of Music; Small Homes Council-Building Research Council, and University Bands. Dean is J. H. McKenzie.

UNIVERSITY BANDS is in the College of Fine and Applied Arts. The five bands--Large Symphonic, Small Symphonic, First Concert and two sections of Second Concert--include members from all colleges in the University. The Marching Illini Football Band is organized from members of the five concert groups. Harry Begian is director.

SCHOOL OF MUSIC, established in 1895, became a part of the College of Fine and Applied Arts in 1931. Faculty and staff direct programs in teaching, research and performance, offering extensive opportunity to the professional undergraduate and graduate musician. Music students have individual instruction and supervision as well as opportunity to participate in programs and activities provided by a large university. Students in other colleges are eligible for special courses in music theory, literature, applied music and for a wide variety of ensembles. Director is Thomas Fredrickson.

PERFORMING MUSIC ORGANIZATIONS include the University Symphony Orchestra, Chamber Orchestra, Wind Ensemble, Oratorio Society, Concert Choir, Varsity Men's Glee Club, Women's Glee Club, Illinois Opera Theatre, University Chorus, Percussion Ensemble, Jazz Band and various chamber music groups, both contemporary and noncontemporary. An active and varied concert season including regular performances by the Walden String Quartet, the Faculty Woodwind Quintet, faculty and student artists and ensembles provide students with an integrated series of events related to their educational and professional growth.

---

SMALL HOMES COUNCIL-BUILDING RESEARCH COUNCIL, established in 1944, is a research, information and public service agency working for improvement of housing and building. It conducts research projects for trade associations and governmental agencies and cooperates with other units of the University doing related work. The council presents short courses in the building field; develops informational programs for consumer groups; publishes research reports and technical notes, and compiles a series of illustrated non-technical circulars for home planners and home owners. Director is Rudard A. Jones.

BUREAU OF URBAN AND REGIONAL PLANNING RESEARCH (formerly the Bureau of Community Planning), established in 1934, has as its major functions: 1) a range of public service and educational activities, often in cooperation with other University units; 2) the conduct of applied research related to a variety of urban and regional problems, and 3) publication of research monographs, institute and conference proceedings, manuals and other planning-related documents to aid professionals, students and the general public. In September of 1970 the bureau was merged with the department of urban and regional planning, and serves as the principal outlet for that department's research and service activities. Director is Michael P. Brooks.

---

COLLEGE OF LIBERAL ARTS AND SCIENCES was established in 1913 by combining the College of Literature and Arts and the College of Sciences, two of the original four units of the University when it opened in 1868. Today, offering both degree curricula and service courses for students in other units, this is the largest college of the University. Departments: anthropology, astronomy, biochemistry, botany, chemical engineering, chemistry, classics, English, entomology, French, geography, geology, Germanic languages and literatures, history, linguistics, mathematics, microbiology, philosophy, physiology and biophysics, political science, psychology, Slavic languages and literatures, sociology, Spanish, Italian and Portuguese, speech communication, speech and hearing science, and zoology. In addition, the college includes the School of Chemical Sciences, the School of Life Sciences, the School of Humanities, the Asian Studies Center, the Latin-American Studies Center and the Russian and East European Center. Among special programs are those in African studies, comparative literature, religious studies and the teaching of English as a second language. The Language Laboratory is a joint facility for the modern language departments and includes a large PLATO facility. Curricular innovations in the form of special educational experiences for undergraduate students include the individual plans of study, the general curriculum, the Unit I residence hall program and the three-year baccalaureate degree program. Administered by the college are the Speech and Hearing Clinic, the Psychological Clinic, the Natural History Museum and the World Heritage Museum (p. 27). Dean is Robert W. Rogers.

SCHOOL OF CHEMICAL SCIENCES, established in September, 1970, includes the departments of biochemistry, chemistry and chemical engineering of the College of Liberal Arts and Sciences. Director is H. S. Gutowsky.

SCHOOL OF LIFE SCIENCES was established in 1959 to administer interdepartmental facilities and coordinate activities of departments of botany, entomology, microbiology, physiology and biophysics, and the two provisional departments of genetics and development, and ecology, ethology, and evolution, all in the College of Liberal Arts and Sciences, to promote cooperation between them and biologists in other colleges of the University and to advance interests of these departments in relation to agencies outside the University. Acting director is J. R. Larsen.

---

SCHOOL OF BASIC MEDICAL SCIENCES AT URBANA-CHAMPAIGN, established in August, 1970, is a unit of the College of Medicine at the Medical Center, Chicago. First enrollment of students took place in September, 1971. Following one year of study at Urbana-Champaign, students will continue at clinical centers in Chicago, Peoria or Rockford. Dean is Daniel K. Bloomfield.

---

COLLEGE OF PHYSICAL EDUCATION includes three academic departments: health and safety education, physical education, and recreation and park administration. There are also nonacademic divisions: Intramural Activities and Rehabilitation Education Services. College research and service units include the physical fitness laboratory, sports psychology laboratory, exercise therapy clinic, human movement laboratory, physical fitness institute, the oral history office, the health education research laboratory, the safety education research laboratory, the health and safety education materials laboratory, the Office of Recreation and Park Resources, the motor performance and play research laboratory, the leisure behavior research laboratory. Acting dean of the College, established as a school in 1932 and a college in 1957, is Allen V. Sapura.

DIVISION OF INTRAMURAL ACTIVITIES, established in 1962 in the College of Physical Education, provides competitive games and sports activities for various groups at both student and staff levels. Categories of competition on a formal basis are: 1) undergraduate men and women, 2) graduate men, 3) co-recreation for combined men and women teams and 4) faculty-staff. The Division also is responsible for providing for an informal recreation program through the Informal Recreation Office under the supervision of Stanley Labanowich. The I.R.O. provides schedules of openings and supervision of facilities. Sports clubs are promoted, encouraged and assisted in a wide range of activities. Director is David O. Matthews. Men's supervisor is Raymond J. McGuire. Co-recreation sports supervisor is Tony Clements. Women's sports supervisor is Miss H. Toi Jamison.

DIVISION OF REHABILITATION-EDUCATION SERVICES gives physically handicapped students opportunity for education and as normal and healthful a life as possible. Physical therapy, functional training, occupational therapy, medical services, counseling, services to the blind and deaf, recreation and athletics, elevator-equipped buses, ramps into buildings and elevators are provided. Students live in regular residence halls and attend all regular classes, pursuing over 70 curricula in 10 colleges and schools. In the first semester of 1973-74, 170 students were enrolled; 96 are in wheelchairs. The pioneering program, started in 1948, has won national and international acclaim. Director is Timothy J. Nugent.

OFFICE OF RECREATION AND PARK RESOURCES handles the informal recreation education program of both the Cooperative Extension Service and the department of recreation and park administration. Purposes are: 1) to help county extension advisers conduct their educational programs, assisting individuals and groups in developing recreation and park resources; 2) to provide consultant services on special problems in recreation and parks; 3) to strengthen the University's teaching efforts, and 4) to provide a laboratory for carrying out a recreation and park research program. Acting chief is Elmo B. Meroney.

OFFICE OF INSTRUCTIONAL RESOURCES is a campus-wide unit responsible for assisting faculty in improving the quality of classroom instruction. To accomplish this, the staff invites consultation and discussion on a wide variety of instructional problems including the following: classroom pedagogy and management; achievement, proficiency and placement test construction, scoring, and analysis; course and instruction evaluation; research on problems related to instruction, and the design, selection, development and use of audiovisual materials and devices, television and other technological aids to instruction. Director is Charles J. McIntyre.

INSTITUTE OF AVIATION was established in 1945 to coordinate and carry on work in the field of aviation. The Institute is responsible for all aviation activities with the University of Illinois, and it operates across departmental lines providing facilities and assistance to many projects, itself carrying out others and publishing the results. It operates the University of Illinois-Willard Airport, a fleet of 40 aircraft and the Staff Air Transportation Service covering nearly a half-million passenger miles a year. It offers three two-year curricula in: 1) professional pilot, 2) aircraft maintenance and 3) aviation electronics and pilot training leading to all Federal Aviation Administration certificates and ratings. In 1968, the Institute established an Aviation Research Laboratory which is devoted to research in human engineering and improved training methods and aids, as well as other interdisciplinary areas related to aviation. Director is Ralph E. Flexman.

UNIVERSITY OF ILLINOIS-WILLARD AIRPORT, located six miles southwest of the campus, is utilized for research, education, commercial service, private flying and military service. Opened in 1945, it is one of the largest and finest educationally-owned airports in America. It covers more than 1,492 acres, has one concrete runway 6,500 feet long and two runways each 5,300 feet long. The airport is equipped for all-weather and night flying. Supporting facilities include a terminal building, control tower, hangars, shops and food service. Commercial service is provided by Ozark Air Lines on regular passenger schedules to Chicago, Davenport-Moline, Indianapolis, Peoria, Springfield, St. Louis, Washington, D. C., New York and to connections. Vercoacommuter provides service to and from Decatur and Indianapolis. The Staff Air Transportation Service provides company transportation for members of the University staff and guests.

CONTINUING EDUCATION IN MUSIC, established in 1946, is a section of the Office of Continuing Education and Public Service which cooperates in its programming with the School of Music and University Bands, extending the services of the University into the state and nation. The unit works closely with all state and national music organizations. Activities range from services to research, with emphasis on instructional programs. They include inservice and continuing education for teachers of music; development of community music programs and centers; workshops and conferences; off-campus performances throughout the state, nation and world by School of Music student performing organizations; publication of materials which serve as aids to teachers, and educational research and exploratory programs in music. The program also staffs and develops courses in music for the extramural section. During the summer, the office is in charge of the Illinois Summer Youth Music camp, an instructional program for young gifted musicians, involving approximately 1,600 junior and senior high school students in 20 two-week camps. Head is Dale Kimpton.

CONTINUING EDUCATION IN VISUAL ARTS is a liaison unit in the art area for the Office of Continuing Education and Public Service. The unit obtains staff for extramural classes and staffs and develops programs on art offered through conferences and institutes. It is responsible for registration, materials and supplies for the Saturday morning program, "Creative Arts for Children." It generates numerous service programs--such as Scholastic Honors Day, art workshops for park districts, service organizations, etc., and it obtains art jurists for the Cooperative Extension Service of the College of Agriculture since it is directly associated with the state-wide Town and Country Art programs sponsored by the College of Agriculture. In cooperation with the Illinois Federation of Women's Clubs, the office directs the Allerton Federated Art Schools for gifted high school youth, "Adventures in the Arts" for women, and the "Do It Now" program for men. It also conducts an art therapy program at the Bowen Center in Chicago. It sponsors traveling art exhibits and slide sets for use by schools, colleges, universities, art centers, art galleries, libraries, art leagues, women's clubs, community groups and others for a membership fee. There are 34 exhibits and 69 slide sets available on an annual or individual rental basis for a period of 10 weeks per school year. This resource is in cooperation with the College of Fine and Applied Arts, Krannert Art Museum and department of art and design. Director is Walter M. Johnson.
