

Dear Sir,

Subject: Additional Information on the October 21, 1960
Nuclear Reactor Laboratory Dedication Program

A few days ago you should have received an invitation to the dedication of our new Nuclear Reactor Laboratory to be held October 21st on the campus at Urbana. The attached preliminary program provides additional information concerning the dedication. You will note that the program begins with registration and coffee at 11:00 a. m. and the dedication luncheon starts at 12:00 noon. The papers to be presented at the Symposium on the Future of Nuclear Engineering at 2:00 p. m. should be most interesting and timely.

As indicated on the preliminary program, the dinner and evening activities are to be held jointly with the College of Engineering Alumni Committee. This group has been invited to attend the reactor dedication luncheon and symposium.

It would be appreciated if you would complete and return the enclosed information card as promptly as possible. This will help us in planning accommodations for the group.

We are looking forward to what we feel will be an interesting program, as well as an opportunity to discuss this rapidly developing field of engineering. It is hoped that you will be able to attend. If we can be of assistance with your plans for travel or accommodations, please contact us.

Sincerely yours,

Ross J. Martin, Chairman
Nuclear Engineering Committee

RJM/lc

P. S. On Saturday, October 22nd, the Fighting Illini will meet Penn State in an exciting football game. If you intend to stay over until Saturday, we will be glad to assist you in obtaining tickets for the game.

Graduate Teaching Faculty

R. J. MARTIN *Chairman, Nuclear Engineering Committee*
F. T. ADLER *Physics and Nuclear Engineering*
R. W. BOHL *Metallurgical Engineering*
A. P. BORESI *Theoretical and Applied Mechanics*

B. T. CHAO *Mechanical Engineering*
G. H. FETT *Electrical Engineering*
D. F. HANG *Electrical Engineering*
A. O. HANSON *Physics*

J. P. HUMMEL *Physical Chemistry and Physics*
R. F. LARSON *Mechanical Engineering*
J. W. WESTWATER *Chemical Engineering*
M. E. WYMAN *Physics and Nuclear Engineering*
