

UNIVERSITY OF ILLINOIS LIBRARY SCHOOL ASSOCIATION NEWS LETTER

Number 10

December, 1927

To the Association

DEAR FELLOW MEMBERS:

The University of Illinois Library School seems quite remote to many alumni who have not seen the University Campus for a number of years and who have not been in a position to take an active part in the management of Alumni Association affairs.

But this should not mean that we are indifferent to the activities and progress of the Association. Rather, we should all be glad to do what we can for the advancement of the School and for the encouragement of newer members of the profession.

More life memberships are needed before the Katherine L. Sharp Scholarship can become a reality. Any alumni who have not yet taken out life memberships and who decide to use this means of helping students to secure a second year in the library school and a Master's Degree in Library Science, will be making a worth while investment.

Those who cannot become life members immediately can at least keep up the annual membership. Though the membership fee is small, each one helps to swell the total, and each member's support is needed.

More scholarships are desirable, not only for second year students, but also to encourage university graduates to enter the Library School for their first year of training. After sufficient funds have been secured to provide for the Katherine L. Sharp Scholarship for graduate study, it will be a fine thing for the Alumni Association to establish other scholarships which will serve as a means of recruiting new workers for the library profession.

Do you know the other Illinois Library School people in your own state? Whether there are many or few it is worth while for Illinois alumni to get together whenever there is opportunity. An Illinois Library School alumni luncheon or dinner can be arranged in connection with the annual meeting of the State Library Association of almost any state and will be found most enjoyable.

We should like to know when there are such luncheons. Please let Miss Houchens know about it, if there has recently been one in your state.

TRUSTEES OF ENDOWMENT FUNDS

Harriet E. Howe, 1927-28; Margaret Hutchins, 1927-30; J. S. Cleavenger, 1927-29

THE ENDOWMENT FUND

Most of us have the feeling that any small contribution which we may be able to make would be quite insignificant toward improving the equipment of a great state-supported institution like the University of Illinois. With the recent action of the Library School Association, creating an endowment fund, the income of which will provide opportunity for the best students to continue professional work, an attractive means is provided for us to express our loyalty to the School and our desire to promote professional development and fitness in the field of librarianship. It is much more satisfying to feel that we are contributing directly to the vital personal side of library development and indirectly helping our School, than merely to feel that we are helping to add to, for instance, the physical equipment of the School.

By the action referred to, all life membership fees become a part of the principal of the endowment fund. The income from this fund will be used to provide annually a scholarship, to be known as the Katherine L. Sharp Scholarship, to some person who is a candidate for the M.S. degree in the School. The award will be on a competitive basis and the competition will be open to all who meet the requirements for admission to the second year's work. This makes graduates of the other accredited library schools eligible and gives a broader scope to the competitive element. The plan should not be confused with the student loans as made in past years. These were loans to be repaid later. The present plan contemplates a bona fide scholarship as a contribution to the student's opportunity for a second year of study and research.

By action of the Association no award may be made until the amount is sufficient to yield \$200 or more annually. The Trustees believe that to be really effectual at least \$5000 as a principal invested sum is needed. We have at the present time \$2000 invested, and \$800 additional pledged. This will be augmented by the interest as it is received and by the payments of additional memberships. A life membership may be secured upon payment of \$25.00 which may, if desired, be paid in annual instalments of not less than \$5.00 each. We must realize that the present total, 114 life memberships, includes many of the more active alumni of the School, and that it will take considerable effort to increase that number so that we may reach the desired goal within a reasonable time. The Trustees wish at this point to urge upon each one of you the desirability of doing three things:

- (1) Becoming a life member yourself and paying up the entire amount as rapidly as possible, as the income cannot be earned until the principal is paid.
- (2) Taking the responsibility of talking to other alumni of the School about taking out life memberships.

- (3) Urging upon all who might be interested the necessity for gifts and special helps if the fund is to grow as it should. It is a pleasure to record that two alumni of the School, Miss Ahern and Miss May Inglis, who recently lectured at the School, contributed the fees for their lectures to the Endowment Fund. It is entirely possible

to interest outsiders in making a contribution to professional librarianship in this way either by direct gift or by providing for further bequest.

If the aims of the Association are to be realized each one of us must do his part. Other schools have done far more in this direction than we have. Will you not give the matter serious thought and take your own proper share of responsibility in seeing that this fund is built up?

JOHN S. CLEAVINGER

INCORPORATION

It is probable that during the year the Executive Board will take steps toward incorporating the Association under the laws of Illinois. This will be necessary so that the Association may become a responsible business organization prepared to receive gifts and bequests, own property and, in general, transact any business that may come up. This may involve slight constitutional changes which will be submitted through the News Letter to the membership and come up for action at the next general meeting. If any alumnus has an opinion or advice to offer in this matter please send it in to the Secretary as soon as possible.

Honor Roll of Life Members—New Names

Phoebe Parker, F. K. W. Drury, Flora M. Hottis, Helen K. Star.

Gifts—George B. Utley, \$25.00; Mary E. Ahern, \$15.00.

SCHOOL NEWS

The increased enrollment in the School during the past two years and the current academic year is of great interest. In 1925-26, we registered a total of 61 students; in 1926-27, the total reached 74, a gain of over 21 per cent; and in 1927-28, the total has climbed in the *first semester only* to 107, a gain of over 44 per cent above last year's total, or of 75 per cent over the enrollment of two years ago. There is reason to expect the return of six to eight former students at the beginning of the second semester, which will raise this year's total to at least 115. Evidently some good friends among the alumni are doing excellent recruiting service and the School is profiting by their work.

The move into the permanent quarters in the second unit of the Library has not yet been accomplished but it is hoped that it will take place before the beginning of the second semester.

Students receiving advanced degrees last June were appointed to the following positions:

Carol P. Baber, librarian, Kansas State Teachers' College, Emporia, Kan.
